[Notice No. 115]

ASSIGNMENT OF HEARINGS

AUGUST 6, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

CORRECTION [1]

MC 30561 Sub 3, Joseph Ruffin DBA Ruffin's Motor Freight, now being assigned September 8, 1976, (1 day), at Philadelphia, Pa., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 6, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43207—*Alloys or Metals to Korf, Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B-624), for interested rail carriers. Rates on alloys or metals, in carloads, as described in the application, from points in Ohio, Pennsylvania and West Virginia, to Korf, Texas.

[1] This notice is insert the Sub No.

Grounds for relief—Market competition and rate relationship.

Tariff—Supplement 183 to Southwestern Freight Bureau, Agent, tariff 2-H, I.C.C. No. 5102. Rates are published to become effective on September 5, 1976.

FSA No. 43208—*Iron and Steel Articles to Points in Southern Territory.* Filed by Southwestern Freight Bureau, Agent, (No. B-615), for interested rail carriers. Rates on iron and steel articles, in carloads, as described in the application, from points in southwestern territory, to points in southern territory.

Grounds for relief—Carrier competition.

Tariff—Supplement 214 to Southwestern Freight Bureau, Agent, tariff 301-F, I.C.C. No. 5098. Rates are published to become effective on September 9, 1976.

By the Commission

ROBERT L. OSWALD,
Secretary.

[Ex Parte No. MC-43]

Lease and Interchange of Vehicles by Motor Carriers

CORRECTED ORDER [1]

At a session of the Interstate Commerce Commission, Motor Carrier Leasing Board, held at its office in Washington, D.C., on the 14th day of July, 1976.

It appearing, That a petition has been filed by Ligon Specialized Hauler, Inc., (MC-119777 and numerous subs) and Cherokee Hauling & Rigging, Inc., (MC-127834 and numerous subs), under temporary common control, and Virginia Hauling Company, (MC-13806 and various subs) and Horne Heavy Hauling, Inc., (MC-35045 and subs 1, 9, 11 and 19), under permanent and temporary common control respectively, by Cherokee Hauling & Rigging Inc., for waiver of paragraphs (a) (3) and (c) of Section 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057), concerning equipment leased and interchanged by petitioners.

It further appearing, That petitioners have not advanced sufficient justification upon which to base a grant of relief from the requirements of paragraphs (a) (3) and (c) of Section 1057.4;

It further appearing, That the Bureau of Motor Carrier Safety, Federal Highway Administration, Department of Transportation recommends that the petition be held in abeyance for at least six months so that petitioners may have the opportunity to eliminate current inspection and maintenance deficiencies;

It is ordered, that the petition be, and, it is hereby denied.

By the Commission, Motor Carrier Leasing Boards, Board Members Teeple and Sibbald.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.76-23409 Filed 8-10-76;8:45 am]

SECTION 5b APPLICATION NO. 9

Lower Lakes Coal Demurrage Agreement

AUGUST 3, 1976.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of Section 5b of the Interstate Commerce Act.

Filed May 20, 1976 by: Harry N. Babcock, General Attorney, Law Department, Chessie System, P.O. Box 6419, Cleveland, OH 44101.

Agreement involves: Organization, practices, and procedures between and among rail common carrier members of Lake Coal Demurrage Committee for the joint consideration, initiation, or establishment of demurrage charges, and rules and regulations thereto, governing the detention of railroad cars loaded with coal or certain other commodities when held for unloading into vessels at lower lake points, as named in Agent Doyle's Tariff Nos. 551, ICC H-23 and 552, ICC H-24, supplements thereto and reissues thereof.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 30 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

Notice of Proposed Rulemaking

V41/156 AUG 11 76 UMI

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 190]

BASIC EDUCATION OPPORTUNITY GRANT PROGRAM

Notice of Proposed Rulemaking

Pursuant to the authority contained in Subpart 1 of Part A of Title IV of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a) notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the following amendments to the regulations covering the basis for determining the expected family contribution schedules of both dependent and independent students for academic year 1977–78.

These amendments are being submitted for public comment and review by both Houses of Congress in advance of the February 1 deadline specified in section 411(a) of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a) so that review of the Schedules may be completed earlier than May 1, which is the date listed in the statute. It is the opinion of the Commissioner that the May 1 deadline for Congressional action does not permit students, parents, and educational institutions sufficient time to make effective decisions concerning the packaging of student financial aid resources. The regulations to which these amendments are proposed were previously published on April 4, 1975 (40 FR 15248).

The proposed amendments provide for a 6% increase in the family size offsets used during the 1976–77 academic year. This increase in living allowance is an estimate, and will be changed in accordance with the actual increase in the Consumer Price Index as published by the Bureau of Labor Statistics at the end of the year. The intent of this increase is to take into account inflation of the basic cost of living during the current year.

The proposed regulations further require that in cases where a parent of a dependent applicant whose income and assets are taken into account in determining the annual adjusted family income has remarried, and the student is residing with that parent and that parent's spouse, the income and assets of that parent and that parent's spouse must be reported as available to the applicant, regardless of the family's tax filing status or of the step-parent's legal relationship to the applicant. This clarification assures greater equity of reported family resources for applicants in such circumstances.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed rules to Mr. Peter K. U. Voigt, Director, Division of Basic and State Student Grants, U.S. Office of Education, Room 4717, ROB–3, 400 Maryland Avenue, SW., Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection at the above office Monday through Friday between 8:30 a.m. and 4:30 p.m. All relevant material must be received not later than September 10, 1976.

(Catalog of Federal Domestic Assistance No. 13.539, Basic Educational Opportunity Grant Program.)

Dated: June 21, 1976.

T. H. BELL,
Commissioner of Education.

Approved: August 4, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 190 of Chapter I of Title 45 of the Code of Federal Regulations would be amended as follows:

PART 190—BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

1. In § 190.32(a), subparagraph (2) would become (2)(i), and subparagraph (a)(2)(ii) would be added to read as follows:

§ 190.32 Special definitions.

(a) * * *

(2)(i) * * *

(ii) In the case of a student whose parents are divorced and the parent whose income is taken into account pursuant to paragraph (a)(2)(i) of this section has remarried and the student is residing with that parent and the parent's spouse, the income of that parent's spouse shall also be considered in determining the annual adjusted family income.

* * * * * *

2. In § 190.33, paragraph (c)(1) would be revised to read as follows:

§ 190.33 The expected family contribution for dependent students from parents' and student's effective income.

* * * * * *

(c) * * *

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family members include the student, the student's parents and the student's parents' dependents. If the parents are divorced or separated, family members shall include the student and any parent whose income is taken into account for the purpose of computing the annual adjusted family income and that parent's dependents. If the parents are divorced and the parent's spouse's income is taken into account for the purpose of computing the annual adjusted family income, family members shall include the student, that parent and spouse, and any dependents of that parent and/or spouse.

FAMILY SIZE OFFSETS

Family members:	Dollar amounts
2	3,850
3	4,650
4	5,950
5	7,000
6	7,950
7	8,800
8	9,700
9	10,600
10	11,500
11	12,400
12	13,300

* * * * * *

3. In § 190.35, paragraph (c) would be revised to read as follows:

§ 190.35 Computation of standard expected contribution from parents' assets.

* * * * * *

(c)(1) If the student's parents are separated, or divorced and not remarried, only the assets of the parent whose income is taken into account for the purpose of computing annual adjusted family income shall be considered.

(2) In the case of the student whose parents are divorced and the parent whose income is taken into account pursuant to § 190.32(a)(2)(i) has remarried, and the parent's spouse's income is also taken into consideration pursuant to § 190.32(a)(2)(ii), the assets of that parent and that parent's spouse shall also be considered.

4. In § 190.36, paragraph (b) would become (b)(1) and paragraphs (b)(2) through (b)(4) would be added to read as follows:

§ 190.36 Computation of expected contribution from parents' income, student's effective income, and parents' assets, adjusted for number of family members attending institutions of postsecondary education.

(b)(1) * * *

(2) Family members include the student, the student's parents and the student's parents' dependents.

(3) If the student's parents are separated, or divorced and not remarried, family members shall include the student and any parent whose income is taken into account for the purpose of computing annual adjusted family income and that parent's dependents.

(4) In the case of a student whose parents are divorced and the parent's spouse's income is taken into account for the purpose of computing the annual adjusted family income, family members shall include the student, that parent and spouse, and any dependents of that parent and/or spouse.

5. Section 190.43 would be amended by revising paragraph (c)(1) to read as follows:

§ 190.43 The expected family contribution for independent students from annual adjusted family income.

* * * * * *

(c) * * *

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family members include the student and his dependents. If the student is divorced or separated, family size shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her dependents.

FAMILY SIZE OFFSETS

Family members:	Dollar amounts
2	3,850
3	4,650
4	5,950
5	7,000
6	7,950
7	8,800
8	9,700
9	10,600
10	11,500
11	12,400
12	13,300

An offset of $1,050 shall be made for the single independent student.

FEDERAL ELECTION COMMISSION

ADVISORY OPINION REQUESTS

V 41 I 156 AUG 11 76 UMI

FEDERAL ELECTION COMMISSION

[Notice 1976-37, AOR 1976-48 through 1976-55]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. § 437f(c) and the procedures reflected in Part 112 of the Commission's Notice of Proposed Rulemaking, published on May 26, 1976 (41 F.R. 21590), advisory opinion requests 1976-48 through 1976-55 have been made public at the Commission. A copy of the original request is available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, NW., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests, and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1976-48: Whether the activities of the Missouri Republican Host Committee, Inc., involve corporate or individual contributions or independent expenditures.—Requested by Joseph E. Stevens, Jr., Counsel, Missouri Republican Host Committee, Inc., Kansas City, Missouri.

AOR 1976-49: Transfer of funds from the Austin Campaign Committee to the Austin for Senate Campaign; method of attributing contributions.—Requested by Robert L. Millender, Co-chairman, Austin for Senate Committee, Detroit, Michigan.

AOR 1976-50: Whether an incorporated business may produce campaign shirts, sell them, and forward $1 of their purchase price to a candidate's principal campaign committee without incurring a corporate contribution.—Requested by Gordon K. Durnil, Treasurer, Friends of Dick Lugar Committee, Indianapolis, Indiana.

AOR 1976-51: Whether several individuals who share a policy concern, friendship, and an ethnic heritage and who discuss their common interest in contributing to Federal candidates are regarded as a political committee for purposes of disclosure and contribution limits if their combined expenses exceed $1,000.—Requested by Robert N. Thomson, Counsel, Democratic Senatorial Campaign Committee, Washington, D.C.

AOR 1976-52: Whether a candidate's general election excess campaign funds may be contributed to an unsuccessful 1974 candidate to retire the latter's 1974 campaign debts and applicable limit, if any.—Requested by Congressman Carroll Hubbard, Carroll Hubbard Re-election Campaign, Mayfield, Kentucky.

AOR 1976-53: Whether a candidate's principal campaign commitee may rent from the candidate an office in the candidate's home or pay for the candidate's groceries, heat, lights, mortgage, etc.—Requested by Lois Ann Murray, Treasurer, Iannitti for Congress, Warwick, Rhode Island.

AOR 1976-54: Whether continuing operating expenses incurred by the Harris for President Committee are qualified campaign expenses payment for which the Committee will be eligible to receive Federal matching funds.—Requested by Casey, Lane & Mittendorf for Harris for President Committee, Washington, D.C.

AOR 1976-55: Whether a candidate may transfer campaign funds remaining from a campaign for State office to his Federal campaign committee if the surplus is first regarded as personal income for tax purposes.—Requested by William M. McCaffrey, Treasurer, McCaffrey for Congress Committee, Warwick, Rhode Island.

Dated: July 27, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

NATIONAL FLOOD INSURANCE PROGRAM

Flood Prone Areas of Communities Subject to Section 202 Prohibition of Federal and Federally Related Assistance

V 41 1 156 AUG 11 76 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[Docket No. N-76-376]

NATIONAL FLOOD INSURANCE PROGRAM

Flood-Prone Areas of Communities Subject to Section 202 Prohibition of Federal and Federally Related Assistance

The purpose of this notice is to provide a list of communities that contain areas of special flood hazard potentially subject to the provisions of Section 202 of the Flood Disaster Protection Act of 1973 (PL 93-234) on July 1, 1975, or an appropriate later date, and to provide a convenient reference for interested persons, communities, Federal agencies and instrumentalities, and others involved in assuring compliance with that section. This list supersedes and up-dates the list published in the FEDERAL REGISTER at 41 FR 23092-23142.

Section 202 provides that effective July 1, 1975, Federal agencies and federally supervised, approved, insured, or regulated lending institutions are prohibited from providing financial assistance or making loans for acquisition or construction purposes in areas which (a) have been designated by the Secretary of Housing and Urban Development as Special Flood Hazard Areas for at least one year; and (b) are in communities which are not participaing in the National Flood Insurance Program (42 U.S.C. §§ 4001-4128).

The prohibition does not apply to any loan made by a federally-supervised, approved, insured, or regulated lending institution made prior to March 1, 1976, to finance the acquisition of a previously occupied residential dwelling.

Each of the communities listed below received notice of its designation as flood-prone prior to October 1, 1975, and legal notice was furnished of such designation by publication under Part 1915 of Title 24 of the Code of Federal Regulations in the FEDERAL REGISTER. These communities have failed to provide the Federal Insurance Administrator with sufficient technical or scientific data to rebut their designation as flood prone nor have they as yet qualified for participation in the National Flood Insurance Program. Thus, the sanctions of Section 202 apply as of July 1, 1975, or one year after a community's identification, whichever is later, until the community participates in the program.

In order to continue Federal or federally related assistance or lending in its Special Flood Hazard Area, a community must apply for and be made eligible for participation in the program in accordance with 24 CFR (Parts 1909 to 1920). Communities may receive assistance in applying for participation by contacting the Federal Insurance Administration, 451 Seventh St., S.W., Washington, D.C. 20410 (202) 755-5581, or its toll-free numbers 800-424-8872 or 800-424-8873.

Communities on this list may be made eligible to participate in the program after the date of publication of this list. Such eligibility will be published periodically in the FEDERAL REGISTER under 24 CFR § 1914.4 List of eligible communities. At that time the sanctions of Section 202 will no longer apply to the communities listed below.

Standard instrument approach procedures; recent changes and additions..... 27720; 7–6–76

Terminal control area; Denver, Colo. 27957; 7–8–76

Transition area; Leonardtown, Md. 24580; 6–17–76

FCC—FM tables of assignments; Wis., Mich., Ill., Mo., Ohio, Iowa, Texas, S.C., Ind. 29137; 7–15–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5284. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

RIGHT TO READ PROGRAM
HEW/OE extends closing date for receipt of applications to 8–23–76 34102

FOREIGN STUDIES
HEW/OE proposes guidelines; comments by 9–28–76; hearing 9–28–76 34052

RAILROAD RETIREMENT
HEW/SSA proposes regulations on benefits certified by Railroad Retirement Board or Secretary of the Treasury; comments by 11–10–76 34060

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

WAREHOUSE REGULATIONS

Age Requirement for Granting of Sampler's, Inspector's, Grader's and Weigher's Licenses Deleted

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Agricultural Marketing Service, pursuant to authority conferred by section 28 of the U.S. Warehouse Act (7 U.S.C. 268) is amending warehouse regulations appearing in Parts 103 (Tobacco), 105 (Broomcorn), 106 (Dry Beans), 108 (Sirup) and 111 (Cottonseed) of Subchapter E of Chapter I in Title 7 of the Code of Federal Regulations to delete the requirement that persons applying for licenses to sample, inspect, grade or weigh commodities, furnish satisfactory evidence that they have passed their 21st birthday. The regulations under the U.S. Warehouse Act for warehouses storing the commodities cited herein require that applicants for licenses under the Act to sample, inspect, grade or to weigh the commodities shall furnish, among other things, satisfactory evidence that they have passed their 21st birthday. There has been a general trend away from establishing the beginning of adulthood at age 21. Age is not a factor in ability to perform commodity sampling, inspection, grading and weighing. Current regulations under the U.S. Warehouse Act for warehouses storing grain, cotton, wool and nuts do not require the furnishing of evidence by applicants of passing their 21st birthday. The change will make all regulations under the U.S. Warehouse Act consistent in this respect.

PART 103—TOBACCO WAREHOUSES

Paragraph (b) of § 103.52 is revised to read as follows:

§ 103.52 Applications; samplers', inspectors', graders', and weighers'.

* * * * *

(b) Each such application shall be signed by the applicant, shall be verified by him under oath or affirmation administered by a duly authorized officer, and shall contain or be accompanied by (1) the name and location of a warehouse or warehouses licensed, or for which application for license has been made under the act in which tobacco sought to be sampled, inspected, graded, or weighed under such license is or may be stored, (2) a statement from the warehouseman conducting such warehouse showing whether the applicant is competent and is acceptable to such warehouseman for the purpose, (3) satisfactory evidence that he has had at least one year's experience in the kind of service for which a license is sought or the equivalent of such experience, and that he is competent to perform such services, except in the case of applicants for weighers' licenses one month's experience will be sufficient, (4) a statement by the applicant that he agrees to comply with and abide by the terms of the act and the regulations in this part so far as the same may relate to him, and (5) such other information as the Service may deem necessary: *Provided*, That when an application for a license to sample, to inspect, to grade, or to weigh tobacco is filed by a person who does not intend to sample, to inspect, to grade, or to weigh for any particular licensed warehouseman but who does intend to sample, to inspect, to grade, or to weigh tobacco stored or to be stored in a licensed warehouse and to issue certificates therefor, as provided for by the Act and the regulations in this part, independent of the warehouse receipt, issued to cover such tobacco, it shall not be necessary to furnish such statement as is required by subparagraph (2) of this paragraph.

* * * * *

PART 105—BROOMCORN WAREHOUSES

Paragraph (b) of § 105.51 is revised as follows:

§ 105.51 Application forms.

* * * * *

(b) Each such application shall be in English, shall be assigned by the applicant, shall be verified by him under oath or affirmation administered by a duly authorized officer, and shall contain or be accompanied by (1) the name and location of a warehouse or warehouses licensed, or for which application for license has been made, under the Act, in which broomcorn sought to be inspected, graded, and weighed under such license is or may be stored; (2) a statement from the warehouseman conducting such warehouse showing whether the applicant is competent and is acceptable to such warehouseman for the purpose; (3) satisfactory evidence that he has had at least one year's experience in the kind of service for which license is sought or the equivalent of such experience and that he is competent to perform such services, except in the case of applicants for weighers' licenses one month's experience will be sufficient; (4) a statement by the applicant that he agrees to comply with and abide by the terms of the act and the regulations in this part so far as the same may relate to him; and (5) such other information as the Administrator may deem necessary: *Provided*, That when application for license to inspect or grade broomcorn is filed by a person who does not intend to inspect or grade broomcorn for any particular licensed warehouseman but who does intend to inspect or grade broomcorn stored or to be stored in a licensed warehouse and to issue inspection or grade certificates therefor, as provided by the Act and the regulations in this part, independent of the warehouse receipts issued to cover such broomcorn, it shall not be necessary to furnish such statement as is required by subparagraph (2) of this paragraph.

* * * * *

PART 106—DRY BEAN WAREHOUSES

Paragraph (b) of § 106.59 is revised to read as follows:

§ 106.59 Inspector's and weigher's application.

* * * * *

(b) Each such application shall be in English, shall be signed by the applicant, shall be verified by him under oath or affirmation administered by a duly authorized officer, and shall contain or be accompanied by (1) the name and location of a warehouse or warehouses licensed, or for which application for license has been made, under the Act, in which beans sought to be inspected and weighed under such license are or may be stored, (2) a statement from the warehouseman conducting such warehouse showing whether the applicant is competent and is acceptable to such warehouseman for the purpose, (3) satisfactory evidence that he has had at least one year's experience in the kind of service for which a license is sought or the equivalent of such experience, and that he is competent to perform such services, except in the case of applicants for weigher's licenses one month's experience will be sufficient, (4) a statement by the applicant that he agrees to comply with and abide by the terms of the Act and the regulations in this part so far as the same may relate to him, and (5) such other information as the Service may deem necessary: *Provided*, That when an application for a license to inspect beans is filed by a person who does not intend to inspect for any particular licensed warehouseman but who does intend to inspect beans stored or to be stored in a licensed warehouse and to issue inspectors' certificates therefor, as provided for

V 41 I 157 AUG 12 76 UMI

by the Act and the regulations in this part, independent of the warehouse receipts issued to cover such beans, it shall not be necessary to furnish such statement as is required by subparagraph (2) of this paragraph.

* * * * *

PART 108—SIRUP WAREHOUSES

Paragraph (b) of § 108.52 is revised as follows:

§ 108.52 Inspector's and weigher's application.

* * * * *

(b) Each such application shall be signed by the applicant, shall be verified by him under oath or affirmation administered by a duly authorized officer, and shall contain or be accompanied by (1) the name and location of a warehouse or warehouses licensed, or for which application for license has been made, under the Act, in which sirup sought to be inspected and weighed under such license is or may be stored; (2) a statement from the warehouseman conducting such warehouse showing whether the applicant is competent and is acceptable to such warehouseman for the purpose; (3) satisfactory evidence that he has had at least one year's experience in the kind of service for which a license is sought or the equivalent of such experience, and that he is competent to perform such services, except in the case of applicants for weighers' licenses one month's experience will be sufficient; (4) a statement by the applicant that he agrees to comply with and abide by the terms of the Act and this part so far as the same may relate to him; and (5) such other information as the Service may deem necessary: *Provided,* That when an application for a license to inspect sirup is filed by a person who does not intend to inspect for any particular licensed warehouseman but who does intend to inspect sirup stored or to be stored in a licensed warehouse or warehouses and to issue inspector's certificates therefor, as provided for by the Act and this part, independent of the warehouse receipts issued to cover such sirup, it shall not be necessary to furnish such statement as is required by subparagraph (2) of this paragraph.

* * * * *

PART 111—COTTONSEED WAREHOUSES

Paragraph (b) of § 111.62 is revised as follows:

§ 111.62 Inspector's, grader's, weigher's application.

* * * * *

(b) Each such application shall be in English, shall be signed by the applicant, shall be verified by him under oath or affirmation administered by a duly authorized officer, and shall contain or be accompanied by (1) the name and location of a warehouse or warehouses licensed, or for which application for license has been made, under the Act in which cottonseed sought to be inspected, graded, and weighed under such license is or may be stored; (2) a statement from the warehouseman conducting such warehouse showing whether or not the applicant is competent and is acceptable to such warehouseman for the purpose; (3) satisfactory evidence that he has had at least one year's experience in the kind of service for which a license is sought or the equivalent of such experience, and that he is competent to perform such services, except in the case of applicants for weighers' licenses one month's experience will be sufficient; (4) a statement by the applicant that he agrees to comply with and abide by the terms of the Act and the regulations in this part so far as the same may relate to him; and (5) such other information as the Administrator may deem necessary: *Provided,* That when an application for a license to grade cottonseed is filed by a person who does not intend to grade cottonseed for any particular licensed warehouseman but who does intend to grade cottonseed stored or to be stored in a licensed warehouse and to issue grade certificates therefor, as provided for by the Act and the regulations in this part, independent of the warehouse receipts issued to cover such cottonseed, it shall not be necessary to furnish such statement as is required by subparagraph (2) of this paragraph.

* * * * *

No prior notices or public procedures are being given as the changes do not add additional restrictions and there is little or no likelihood of any objection to them. Prior notice would be unnecessary and contrary to the public interest.

This amendment shall become effective August 12, 1976.

Done at Washington, D.C., August 9, 1976.

WILLIAM T. MANLEY,
Acting Administrator.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 540]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period August 13–19, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.840 Valencia Orange Regulation 540.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues slow. Prices f.o.b. for the week ending August 5 were $3.50 a carton on 727 cars as compared with $3.57 per carton on 638 cars during the prior week. Track and rolling supplies at 366 cars were up 6 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation util 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 10, 1976.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 13, 1976, through August 19, 1976, are hereby fixed as follows:

(i) District 1: 270,000 cartons;

(ii) District 2: 330,000 cartons;

(iii) District 3: Unlimited."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 11, 1976.

FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-23800 Filed 8-11-76;12:06 p.m.]

[Tokay Grape Reg. 12]

PART 926—TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Grade and Container Markings

This regulation, issued under the amended marketing agreement and Order No. 926, as amended (7 CFR Part 926), specifies certain grade and container marketing requirements for fresh Tokay grapes shipped from San Joaquin County, California, during the period August 15 through September 30, 1976. The requirements are that such grapes meet the grade and size specifications of U.S. No. 1 Table grade and that at least 30 percent, by count, of the berries in the lower 25 percent, by count, of each bunch shall show characteristic color. Each container of such grapes must bear a Federal-State Inspection Service lot number in plain letters and figures on one outside end. These regulatory provisions are the same as the provisions that were in effect during the previous four seasons.

Findings. (1) Pursuant to the amended marketing agreement and Order No. 926, as amended (7 CFR Part 926), which regulate the handling of fresh Tokay grapes grown in the San Joaquin County, California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Industry Committee, established under the aforesaid marketing agreement and order, and other available information, it is found that the regulation of Tokay grapes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) This regulation is based upon an appraisal of the current and prospective crop and marketing conditions for Tokay grapes. The committee estimates that 1976 production of Tokay grapes will be 148,185 tons. This is 1,622 tons less than the 1975 crop of 149,807 tons. Fresh shipments are estimated at 23,000 tons as compared to about 28,150 tons last season. The grade and container requirements hereinafter provided are necessary to prevent the handling of fresh Tokay grapes of lesser quality so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maintaining orderly marketing conditions in the interest of producers and consumers. The requirement for more even distribution of color (30 percent of the grapes in the lower quarter of each bunch showing characteristic color) is also included to assure the availability, to consumers, of Tokay grapes of satisfactory quality. Compliance with the container marking requirement will verify inspection thus assuring compliance with the quality requirements specified herein.

(3) It is further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than August 15, 1976. A reasonable determination as to supply of, and the demand for, Tokay grapes must await the development of the crop thereof, and adequate information thereon was not available to the Industry Committee until July 27, 1976, on which date an open meeting was held, after giving due notice thereof, to consider the need for and the extent of regulation of shipments of such grapes. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such grapes are expected to begin on or about August 20, 1976; this regulation should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this regulation are identical with the aforesaid recommendation of the committee, information concerning such provisions and effective time has been disseminated among handlers of such grapes; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 926.313 Tokay Grape Regulation 12.

Order. (a) During the period August 15, 1976, through September 30, 1976, no handler shall ship:

(1) Any Tokay grapes, grown in the production area, which do not meet the grade and size specifications of U.S. No. 1 Table Grapes and the following additional requirement: Of the 25 percent, by count, of the berries of each bunch which are attached to the lower part of the main stem, including laterals, at least 30 percent, by count, shall show characteristic color; or

(2) Any container of Tokay grapes, grown in the production area, unless such container bears, in plain letters and figures on one outside end, a Federal-State Inspection Service lot stamp number showing that such grapes have been inspected in accordance with the established grade set forth in this section.

(b) *Definitions.* As used herein, the terms "handler", "ship", and "production area" shall have the same meaning as when used in the amended marketing agreement and order; "U.S. No. 1 Table Grapes" and "characteristic color" shall have the same meaning as when used in the United States Standards for Table Grapes (7 CFR 51.880–51.912).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 9, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 9—Animals and Animal Products

CHAPTER II—PACKERS AND STOCKYARDS ADMINISTRATION, DEPARTMENT OF AGRICULTURE

PART 201—REGULATIONS UNDER THE PACKERS AND STOCKYARDS ACT

Registrations

On May 27, 1976, notice was published (41 FR 21646) of a proposed amendment to § 201.13 (9 CFR 201.13) of the regulations under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.). Any person who wished to submit written data, views, or arguments concerning the proposed amendment was invited to do so. After consideration of all relevant matter submitted by interested persons, the decision has been made to issue the amendment as proposed.

V 41 157 AUG 12 76 UMI

Accordingly, the regulations under the Packers and Stockyards Act, § 201.13 is hereby revised to read as follows:

§ 201.13 Registrants to report changes in name, address, control or ownership.

(a) Whenever any change is made in the name or address or in the management or nature or in the substantial control or ownership of the business of a registrant such registrant shall report such change in writing to the Administrator, Washington, D.C. within 10 days after making such change.

This amendment shall become effective August 12, 1976.

Done at Washington, D.C., August 6, 1976.

(Sec. 407 of the Packers and Stockyards Act, 42 Stat. 159, as amended, 7 U.S.C. 204; 37 FR 2846 et seq.)

MARVIN L. MCLAIN,
Administrator, Packers and Stockyards Administration.

[FR Doc.76-23539 Filed 8-11-76;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY OFFICE

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Exemption of Certain Middle Distillates; Clarifying Amendments and Corrections

On June 15, 1976, FEA issued two separate amendments providing for the exemption of certain products from price and allocation controls. The first amendment provided for exemption of No. 2 heating oil and No. 2-D diesel fuel (41 FR 24516, June 16, 1976) and the second amendment provided for exemption of No. 1 heating oil, No. 1-D diesel fuel and kerosene (41 FR 24518, June 16, 1976).

In each case, the exemption was made effective July 1, 1976 or the first day following the expiration of the 15-day review period under section 551 of the EPCA, whichever is later, unless this amendment is disapproved by either House of Congress pursuant to the review procedures set forth in section 551 of the EPCA.

The 15-day review period having expired without section 551 disapproval in the case of both amendments prior to July 1, 1976, both amendments became effective July 1, 1976.

One of the possible outcomes under the section 551 review procedure was that one of the two amendments would meet with section 551 disapproval and not the other. In order to provide for this contingency, the amendments relating to each of the two separate exemption actions contained amended definitions of "covered products" in § 212.31 which were alternative in nature. That is, the amendments relating to the exemption of No. 1 heating oil, No. 1-D diesel fuel and kerosene included a revised definition of "covered products" which deleted those three products from that definition and retained No. 2 heating oil and No. 2-D diesel fuel as covered products, while the amendments implementing the exemption of No. 2 heating oil and No. 2-D diesel fuel revised the definition of "covered products" to exclude these two products while retaining No. 1 heating oil, No. 1-D diesel fuel and kerosene as covered products.

As a consequence of the exemption of both of these groups of products on July 1, 1976, and the effectiveness of all of the various implementing amendments relating to those two exemption actions (including both of the alternative amended definitions of "covered products"), the definition of "covered products" in § 212.31 was modified by both amendments, but has been rendered technically ambiguous because neither of the individual amendments reflects the combined effect of both amendments on that definition. Today's clarifying amendment therefore revises the definition of "covered products," effective July 1, 1976, to recognize in a single amendment the combined effect of both amendments by deleting No. 1 and No. 2 heating oil, No. 1-D and No. 2-D diesel fuel and kerosene from the list of covered products.

Another possible ambiguity arises from the fact that, in view of the uncertainty as to what congressional action (if any) would be taken under the review procedures of section 551 of the EPCA, each of the two separate exemption actions contained a provision revoking Part 215. The revocation amendment appearing first in the FEDERAL REGISTER (41 FR 24516, June 16, 1976) should be cited as the FEA action which revoked Part 215. The second revocation action (at 41 FR 24518) is redundant.

The amendments relating to the two exemption actions also contained provisions prohibiting or restricting the reallocation by refiners, resellers and retailers of increased product costs from the exempt products concerned to products remaining subject to controls. The amendments to the reallocation amendments applicable to resellers and retailers subject to 10 CFR Part 212, Subpart F, inadvertantly used the terms "increased costs" and "maximum allowable prices," which are terms applicable to refiners and are not defined or otherwise used in Subpart F. These amendments are corrected to exclude these terms and to substitute terminology compatible with Subpart F definitions and terms. As now amended, Subpart F provides that no increased product costs relating to any of the exempt products under discussion may be reallocated to the prices of any covered product.

In view of the technical nature of today's amendments, notice and comment concerning the amendments are unnecessary.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159 as amended by Pub. L. 94-163; Energy Policy and Conservation Act, Pub. L. 93-164; E. O. 11790, 39 FR 23185; E.O. 11930, 41 FR 32399).

In consideration of the foregoing, Part 212 of Chapter II of Title 10 of the Code of Federal Regulations is amended as set forth below, effective July 1, 1976.

Issued in Washington, D.C., August 6, 1976.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Office.

1. The definition of "covered products" in § 212.31 is revised to read as follows:

§ 212.31 Definitions.

* * * * *

"Covered products" means aviation fuels, benzene, butane, crude oil, gas oil, gasoline, greases, hexane, lubricant base oil stocks, lubricants, naphthas, natural gas liquids, natural gasoline, propane, special nahpthas (solvents), toluene, unfinished oils, xylene, and other finished products. A blend of two or more particular covered products is considered to be that particular covered product constituting the major proportion of the blend.

* * * * *

2. Paragraphs (i) (2) (i) (B) and (i) (2) (ii) (B) of § 212.93 are revised to read as follows:

§ 212.93 Price rule.

* * * * *

(i) *Reallocation of increased product costs among products.*

* * * * *

(2) * * *

(i) *General refinery products.*

* * * * *

(B) Beginning on April 21, 1976, no increased product costs for No. 1 heating oil, No. 2-D diesel fuel, or kerosene may be reallocated to prices for any covered product.

(ii) *No. 2 oils.*

* * * * *

(B) Beginning on April 21, 1976, no increased product costs for No. 2 oils may be reallocated to prices for any covered product.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 76-NE-32; Amdt. 39-2688]

PART 39—AIRWORTHINESS DIRECTIVE

General Electric Co. CT58 Engines

Amendment 39-332, 31 FR 16606, AD 67-01-02, as amended by Amendment 39-536 and further amended by Amendment 39-1085 established reduced cyclic and hourly life limits of first stage compressor rotor disks. After issuing Amendment 39-1085, due to service experience with low-cycle-per-hour operators, the agency has determined that deletion of the hourly life limit without change to the cyclic life limit is warranted. Therefore, the AD is being further amended to remove the 2,900 hourly limit with no change to the 9,900 cycle life limit.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-332, 31 FR 16606, AD 67-01-02, as amended by Amendment 39-536 and further amended by Amendment 39-1085, is further amended as follows:

1. By amending the first sentence of the first paragraph to read: Amendment 39-332 as amended by Amendment 39-536 and Amendment 39-1085 is further amended by Amendment 39-2688.

2. By amending Paragraph (a) to read: Disks with more than 9,700 cycles on October 15, 1970, prior to the accumulation of 200 additional cycles.

3. By amending Paragraph (b) to read: Disks with 9,700 cycles or less on October 15, 1970, before 9,900 cycles.

This amendment becomes effective August 24, 1976.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on August 2, 1976.

QUENTIN S. TAYLOR,
Director,
New England Region.

[FR Doc.76-23256 Filed 8-11-76;8:45 am]

[Docket No. 76-NW-13-AD; Amdt. 39-2676]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

Correction

In FR Doc. 76-22101, appearing at page 32206, in the issue for Monday, August 2, 1976, in the first column on page 32207, the fourth and fifth lines of the last complete paragraph, designated "A.", should read "aft hinges in elevator bays 2 and 5 (left and right) for compatibility in accordance with".

[Docket No. 15981; Amdt. 39-2695]

PART 39—AIRWORTHINESS DIRECTIVES

Mitsubishi Model MU-2B Series Airplanes

There have been reports of failure of the cowling latches between the engine nacelle upper door and side doors on certain Mitsubishi Model MU-2B series airplanes that have resulted in opening of the cowling upper door in-flight, separation of the door panel, and subsequent loss of control of the airplane. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require an inspection for misalignment and modification, as necessary, of the cowling latches between the engine nacelle upper door and side doors on certain Mitsubishi Model MU-2B, MU-2B-10, MU-2B-15, MU-2B-20, MU-2B-25, MU-2B-30, and MU-2B-35 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MITSUBISHI HEAVY INDUSTRIES LTD. Applies to Models MU-2B, MU-2B-10, MU-2B-15, MU-2B-20 and MU-2B-25 airplanes with serial numbers 004 through 318, and Models MU-2B-30 and MU-2B-35 airplanes with serial numbers 501 through 654, certificated in all categories.

Compliance is required as indicated.

To prevent failure of the cowling latches between the engine nacelle upper door and side doors, possible separation of the engine nacelle upper cowling panel and subsequent loss of control of the airplane, accomplish the following:

Within the next 25 hours time in service after the effective date of this AD, unless already accomplished, inspect and modify, as necessary, the cowling latches between the engine nacelle upper door and side doors in accordance with the instructions contained in Mitsubishi Service Bulletin No. 171A dated July 14, 1975, or an FAA-approved equivalent, approved by the Chief, Engineering and Manufacturing District Office, FAA, Pacific-Asia Region, Honolulu, Hawaii.

This amendment becomes effective September 2, 1976.

Issued in Washington D.C. on August 6, 1976.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.76-23434 Filed 8-11-76;8:45 am]

[Docket No. 13890; Amdt. Nos. 47-18; 49-8]

PART 47—AIRCRAFT REGISTRATION

PART 49—RECORDING OF AIRCRAFT TITLES AND SECURITY DOCKETS

Aircraft Registry Mailing Address

These amendments to Parts 47 and 49 of the Federal Aviation Regulations provide a new mailing address for the FAA Aircraft Registry in Oklahoma City, Oklahoma, for use by the public in submitting documents to the Aircraft Registry.

Interested persons have been given an opportunity to participate in the making of these amendments by a notice of proposed rule making, Notice No. 74-26, published in the Federal Register on July 15, 1974 (39 FR 25953). Forty-four public comments were received in response to the Notice, and each has been considered in the adoption of these amendments.

The majority of the comments opposed the proposals concerning a "close of business" receipt of documents, and the return of documents found to be defective at the time of recordation examination. The FAA has carefully considered these comments and has determined that the intent of the Notice to provide more expeditious and effective service can be met through administrative changes in Registry procedures which can be implemented without rule-making action. Accordingly, the proposed changes to § 49.19 are being withdrawn.

Since these proposals are being withdrawn, it is appropriate to describe current Aircraft Registry procedures:

Mailed conveyances are delivered to a room where cashier and index personnel are collocated. The mail is opened, the money processed, and the conveyance indexed. Conveyances delivered personally are time-stamped and indexed as they are received. Two indexes are prepared, one using the N number of the aircraft or other identifying description, and the other using an alphabetical listing of the parties to the transactions.

Index sheets are delivered to the title search room each day on an hourly basis, and are computerized at the end of each day and week. This allows individuals who are searching aircraft titles to make their opinions contingent only upon the conveyances filed during the current one-hour period.

In addition to the withdrawal of the proposed changes to § 49.19, the FAA is also withdrawing proposed new § 49.20 regarding the return of defective conveyances. This action is based upon substantive public comments received in response to the proposal. With the withdrawal of this proposal, the Aircraft Registry will continue current procedures which provide for (1) retention of a defective conveyance in suspense with a notice of deficiency being sent to the appropriate party; or, (2) return of the conveyance for correction.

The withdrawal of these proposals does not preclude the FAA from issuing, in the future, other notices concerning this subject, nor commit the agency to any future course of action.

With respect to the proposal for a separate post office box number for the exclusive use of the Aircraft Registry, no opposition was submitted and the FAA has determined that the proposal should be adopted. This action will assist in the expeditious processing of all incoming mailed conveyances by reducing handling time.

(Sec. 313(a), 501, 502, and 503 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1401, 1402, and 1403) sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, Parts 47 and 49 of the Federal Aviation Regulations are amended, effective September 8, 1976, as follows:

1. By amending § 47.19 to read as follows:

§ 47.19 FAA Aircraft Registry.

Each application, request, notification, or other communication sent to the FAA under this part must be mailed to the FAA Aircraft Registry, Department of Transportation, Post Office Box 25504, Oklahoma City, Oklahoma 73125, or de-

V 41 I 157 AUG 12 76 UMI

livered to the Registry at 6400 South MacArthur Boulevard, Oklahoma City, Oklahoma.

2. By amending § 49.11 to read as follows:

§ 49.11 FAA Aircraft Registry.

To be eligible for recording, a conveyance must be mailed to the FAA Aircraft Registry, Department of Transportation, Post Office Box 25504, Oklahoma City, Oklahoma 73125, or delivered to the Registry at 6400 South MacArthur Boulevard, Oklahoma City, Oklahoma.

Issued in Washington, D.C., on August 2, 1976.

JOHN L. MCLUCAS,
Administrator.

[FR Doc.76-23258 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-AL-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Annette Island, Alaska; Alteration of Controlled Airspace

• The purpose of this amendment to Part 71 of the Federal Aviation Administration is to amend the description of the Annette Island, Alaska, transition area. •

Controlled airspace designated in the description by reference to the Gravina Island RBN is no longer needed and the radio beacon has been decommissioned.

Since this action reduces airspace dimensions and does not impose any burden on airspace users, it is a minor matter in which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth.

Section 71.181 (41 FR 440) Annette Island, Alaska, transition area is amended by deleting "within 5 miles southwest of the 331° bearing from the Gravina Island RBN, extending from the 14-mile radius area to 8 miles northwest of the RBN."

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Anchorage, Alaska, on July 29, 1976.

LYLE K. BROWN,
Director, Alaskan Region.

[FR Doc.76-23403 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-RM-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Casper, Wyoming; Alteration of Control Zone and Transition Area

On June 21, 1976, a notice of proposed rule making was published in the FEDERAL REGISTER (41 FR 24902) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the control zone and transition area at Casper, Wyoming.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date: This amendment shall be effective 0901 G.m.t., November 4, 1976.

(Sec. 307(a) Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Aurora, Colorado, on July 30, 1976.

M. M. MARTIN,
Director,
Rocky Mountain Region.

§ 71.171 [Amended]

In § 71.171 (41 FR 355) amend the description of the Casper, Wyoming, control zone as follows:

CASPER, WYOMING

That airspace within 5 miles each side of the Casper VORTAC 216° radial extending from the VORTAC to 33 miles southwest of the VORTAC and within 3 miles each side of the ILS localizer west course, extending from 1 mile east to 10 miles west of the Johnson LOM.

§ 71.181 [Amended]

In § 71.181 (41 FR 440) amend the description of the Casper, Wyoming, transition area as follows:

CASPER, WYOMING

That airspace extending upward from 700 feet above the surface within a 27 mile radius of the Casper ASR (latitude 42°55'17" N., longitude 106°27'14" W.); and that airspace extending upward from 1200 feet above the surface within a 43 mile radius of the Casper ASR; within an area extending from the 43 mile radius circle to an arc of a 42 mile radius circle centered on the Casper VORTAC bounded on the north by the Casper VORTAC 060° radial and on the south by the Casper VORTAC 111° radial; and that airspace extending upward from 11,500 feet MSL, extending from the 43 mile radius circle to an arc of a 60 mile radius circle centered on the Casper VORTAC, bounded on the east by the west edge of V19 and on the south by the north edge of V298.

[FR Doc.76-23402 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-NW-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Moses Lake, Washington; Alteration of Transition Area

On June 1, 1976, an editorial change to the description of the Moses Lake, Washington, Transition Area was published in the FEDERAL REGISTER (41 FR 22050). Several words were inadvertently omitted from the description text.

The purpose of this amendment is to publish the correct description of the Moses Lake, Washington, Transition Area. Since it is editorial in nature, notice and public procedures thereon are deemed unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended as hereinafter set forth:

In § 71.180 (41 FR 551), the description of the Moses Lake, Washington, Transition Area, when published in the FEDERAL REGISTER, is amended to read:

MOSES LAKE, WASHINGTON

That airspace extending upward from 700 feet above the surface within a 19-mile radius of Grant County Airport (latitude 47°12'29" N., longitude 119°19'05" W.), within 7 miles southeast and 12 miles northwest of the Ephrata VORTAC 043° and 223° radials extending from 8 miles southwest to 19 miles northeast of the VORTAC; that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 47°45'00" N., on the east by the arc of a 52-mile radius circle centered on Fairchild Air Force Base, Washington, (latitude 47°36'55" N., longitude 117°39'20" W.), on the southeast by V-112W, on the south by V-298, and on the west by longitude 120°00'00" W.

(Sec. 307(a) Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Seattle, Washington, on July 30, 1976.

C. B. WALK, JR.,
Director, Northwest Region.

[FR Doc.76-23401 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-RM-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Extension and Designation of Federal Airways

On June 1, 1976, a Notice of Proposed Rule Making (NPRM) was published in the Federal Register (41 FR 22095) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate V-380 from O'Neill, Nebr., to Mankato, Kans., and extend V-71 from Columbus, Nebr., to Bismarck, N. Dak.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth.

§ 71.123 [Amended]

§ 71.123 (41 FR 307) is amended as follows:

1. In V-71 "Columbus, Nebr.," is deleted and "Columbus, Nebr.; O'Neill, Nebr.; Winner, S. Dak.; Pierre, S. Dak.; Bismarck, N. Dak.;" is substituted therefor.

2. V-380 is added as follows:
"From O'Neill, Nebr.; via Wolbach, Nebr.; Grand Island, Nebr.; Hastings, Nebr.; to Mankato, Kans."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C. on August 5, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.76-23431 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-WA-12]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Reporting Point Rescission

• The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to rescind the Rex, Ga., reporting point. The Rex VORTAC is no longer used for en route navigation and therefore not required as a compulsory reporting point. •

Because this action merely rescinds a reporting point in accordance with the requirements of current air traffic control procedures without altering any route structure or designated airspace, it is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth.

§ 71.203 [Amended]

§ 71.203 (41 FR 623) is amended as follows: "Rex, Ga." is deleted.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on August 5, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.76-23430 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-WE-23]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

• The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the description of the Vandenberg AFB, California control zone. •

The Vandenberg AFB Airport Control Tower is presently operating from 0800 to 1700 hours local time daily, Monday through Friday. The Vandenberg AFB control zone is dependent upon the tower for required weather reporting and communications with airport traffic. Thus the control zone will have to be discontinued during the hours the tower is closed. To make this possible, a change is required in the designation of the control zone to allow part-time operation. In addition, the Vandenberg AFB Outer Marker has been decomissioned. It is, therefore, necessary to make an editorial change to the description of the Vandenberg AFB control zone to delete the reference to the Outer Marker and substitute the Vandenberg AFB TACAN therein.

Since these alterations are minor in nature, involve no change in airspace boundaries, and impose no additional burden on any person, compliance with the notice and public procedures provisions of the Administrative Procedures Act is unnecessary and the amendment may be effective in less than 30 days.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 GMT, September 9, 1976 as hereinafter set forth.

§ 71.171 [Amended]

In § 71.171 (41 FR 355) the description of the Vandenberg AFB, California control zone is amended to read as follows:

VANDENBERG AFB, CALIFORNIA

Within a 5 mile radius of Vandenberg AFB, Lompoc, California (latitude 34°43'50" N, longitude 120°34'30" W); within 2 miles each side of the Vandenberg AFB ILS localizer southeast course, extending from 5 miles radius zone to 8.2 miles southeast of the Vandenberg AFB TACAN and within 1 mile radius of Lompoc Airport (latitude 34°39'55" N, longitude 120°27'55" W) excluding that portion within R-2516. This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously established as published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on August 2, 1976.

ROBERT H. STANTON,
Director, Western Region.

[FR Doc.76-23429 Filed 8-11-76;8:45 am]

[Airspace Docket No. 76-GL-19]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

On June 7, 1976, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (41 FR 22844) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 73 of the Federal Aviation Regulations that would alter the Camp Ripley, Minn., Restricted Area R-4301 and change the designated altitude and time of designation.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received had no objection to the proposal.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.M.t., November 4, 1976, as hereinafter set forth.

§ 73.43 [Amended]

In § 73.43 (41 FR 680) the description of Restricted Area R-4301 Camp Ripley, Minn., is deleted and the following is substituted therefor:

R-4301 Camp Ripley, Minn. Boundaries. Beginning at Lat. 46°18'54"N., Long. 94°29'02"W.; thence along south bank of Crow Wing River and west bank of Mississippi River to Lat. 46°10'49"N., Long. 94°21'52"W.; to Lat. 46°07'11"N., Long. 94°21'52"W.; thence along the west bank of Mississippi River to Lat. 46°06'22"N., Long. 94°21'10"W.; to Lat. 46°06'22"N., Long. 94°22'15"W.; to Lat. 46°06'03"N., Long. 94°22'15"W.; to Lat. 46°06'03"N., Long. 94°26'06"W.; to Lat. 46°08'00"N., Long. 94°26'06"W.; to Lat. 46°08'00"N., Long. 94°30'00"W.; to Lat. 46°18'18"N., Long. 94°30'00"W.; to point of beginning.

Designated altitudes. Surface to 27,000 feet MSL.

Time of designation. 0730 to 2400 local times daily. Other times as specified by NOTAM issued 24 hours in advance.

Controlling agency. Federal Aviation Administration, Minneapolis ARTC Center.

Using agency. Commanding Officer, Camp Ripley, Minn.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C. on August 5, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[Airspace Docket No. 76-SO-28]

PART 73—SPECIAL USE AIRSPACE

Designation of Temporary Restricted Areas; Correction

In FR Doc. 76-20125 appearing on page 29092 in the FEDERAL REGISTER of July 15, 1976, the description of R-2911A Brave Shield XV in paragraph (4) is corrected in the first line by deleting "30°39'00" " and substituting "30°38'45" " therefor. Also, paragraph (4) is corrected in the fourth line by deleting "30°43'00"" and substituting "30°42'50" " therefor. Also, paragraph (4) is corrected in the fifth line by deleting "86°38'00" " and substituting "86°38'02" " therefor.

Issued in Washington, D.C. on August 5, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Docket No. 15980; Amdt. No. 95-267]

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations (14 CFR Chapter I) is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or any portion of a route. These altitudes, when used in conjunction with the current changeover points for the routes or portions of routes, also assure navigational coverage that is adequate and free of frequency interference.

Since situations exist which demand immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for

V 41 157 AUG 12 76 UMI

making this amendment effective within less than 30 days from publication.

(Secs. 307 and 1110 Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1510); and sec. 6 (c) Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Subpart C of Part 95 of the Federal Aviation Regulations is amended as follows, effective September 9, 1976.

Issued in Washington, D.C., on August 3, 1976.

JAMES M. VINES,
Chief,
Aircraft Programs Division.

[Docket No. 15979; Amdt. No. 1033]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW, Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue, SW, Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, *effective October 7, 1976.*

Title 15—Commerce and Foreign Trade

CHAPTER IX—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 905—COORDINATION OF FEDERAL AND FEDERALLY ASSISTED PROGRAMS AND PROJECTS

Intergovernmental and Inter-Agency Coordination

On April 30, 1976 the National Oceanic and Atmospheric Administration published in the FEDERAL REGISTER (41 FR 18068-18070) proposed procedures to achieve the intergovernmental and interagency coordination required by Office of Management and Budget (OMB) Circular A-95.

Interested persons were invited to submit written comments on the proposed regulations, and the following changes are hereby made as a result of comments received: Parts 905.3 (a), 905.5 (d) and 905.7 are revised to permit use of clearinghouse notification of intent forms if required by the clearinghouse as an alternative to Form SF424, and Part 905.3 (a) is revised to add subparagraph (4) regarding environmental impact information requirements.

Revised OMB Circular A-95 in its entirety (including its Attachment E, Form 424, Federal Assistance Preapplication, Application, Notification of Intent, or Report of Federal Action) appears in the FEDERAL REGISTER Vol. 41, No. 8 of Tuesday, January 13, 1976. Form SF424 will be furnished on request to grantees by the NOAA Grants Officer or by Program Officers of NOAA's Office of Coastal Zone Management and National Marine Fisheries Service.

Part 905 is issued under the authority of Section 204 of the Demonstration Cities and Metropolitan Development Act of 1966, Title IV of the Intergovernmental Cooperation Act of 1968, and Section 102 (2) (c) of the National Environmental Policy Act of 1969, and implementing Office of Management and Budget Circular A-95, revised January 2, 1976. The final rules and regulations in their entirety appear below.

AUGUST 4, 1976.

T. P. GLEITER,
Assistant Administrator
for Administration.

Part 905 is set forth below:

Sec.
905.1 General.
905.2 NOAA Programs covered.
905.3 Project notification and review system.
905.4 Clearinghouse functions.
905.5 Consultation and review.
905.6 Clearinghouse comments and recommendations.
905.7 Re-review of applications.
905.8 NOAA procedures for implementation of OMB Circular A-95.
905.9 Roles and responsibilities.

§ 905.1 General.

Office of Management and Budget Circular A-95, Evaluation, Review and Coordination of Federal and Federally Assisted Programs and Projects, Part I, establishes a network of State and areawide planning and development clearinghouses which will aid in the coordination of Federal or federally assisted projects and programs with State, areawide, and local planning for orderly growth and development.

§ 905.2 Programs covered.

The requirements of Circular A-95 apply to the following NOAA programs listed in the Catalog of Federal Domestic Assistance:

11.405 Anadromous & Great Lakes Fisheries Development
11.407 Commercial Fisheries Research & Development
11.418 Coastal Zone Management Program Development
11.419 Coastal Zone Management Program Administration
11.420 Coastal Zone Management—Estuarine Sanctuaries

§ 905.3 Project notification and review system.

Part I of Circular A-95 requires applicants for assistance under any of the above five NOAA programs to comply with the provisions of the Project Notification and Review System in order to facilitate coordinated planning on an intergovernmental basis. The essential parts of the Project Notification and Review System are:

(a) *Notification of intent.* Any agency of State or local government or any organization undertaking to apply for assistance to a project or major substantive modification thereto under any of the above five NOAA programs is required to notify (use Form SF424 or clearinghouse Notification of Intent (NOI) forms if required) both the State and areawide planning and development clearinghouses in the jurisdiction of which the project is to be located of its intent to apply for assistance at such time as it determines it will develop an application. Notification will include a summary description of the project for which assistance is sought. The summary description will contain the following information, as appropriate and to the extent available:

(1) Identity of the applicant agency or organization.

(2) The geographic location of the project to be assisted. A map should be provided, if appropriate.

(3) A brief description of the proposed project to be assisted by type, purpose, general size or scale, estimated cost, or other characteristics which will enable the clearinghouses to identify agencies of State or local government having plans, programs, or projects that might be affected by the proposed project.

(4) A statement as to whether or not the applicant has been advised by NOAA that he will be required to submit environmental impact information in connection with the proposed project.

(5) The NOAA program title and number under which assistance is sought.

(6) The estimated date the applicant expects to formally file an application.

(b) *Applicant responsibility.* Potential applicants are responsible for contacting the clearinghouses in their project location as early as possible to obtain forms and instructions for insuring expeditious clearinghouse review.

(c) *Federally recognized Indian Tribes.* Applications from federally recognized Indian tribes are not subject to the requirements of Part I of Circular A-95. However, Indian tribes may voluntarily participate in the Project Notification and Review System and are encouraged to do so. NOAA will notify the appropriate State and areawide clearinghouses of any applications from federally recognized Indian tribes upon their receipt.

§ 905.4 Clearinghouse functions.

State and areawide clearinghouse functions include, but are not limited to:

(a) Evaluating the significance of proposed Federal or federally assisted projects to State, areawide, or local plans and programs.

(b) Receiving and disseminating project notifications (the State clearinghouse notifies State agencies; the areawide clearinghouse notifies local agencies) and providing liaison between such agencies and the applicant.

(c) Providing public agencies charged with enforcing or furthering the objectives of State and local civil rights laws with opportunity to review and comment on the civil rights aspects of the project for which assistance is sought.

§ 905.5 Consultation and review.

(a) State and areawide clearinghouses may have 30 days after receipt of a project notification in which to inform State and local or regional governments or agencies that may be affected by the proposed project and arrange, as may be necessary, to consult with the applicant thereon. The review may be completed in this period and comments may be submitted to the applicant.

(b) If the review is not completed during this period, the clearinghouse may work with the applicant in the resolution of any problems raised by the proposed project during the period in which the application is being completed.

(c) In cases where no project notification has been submitted and the clearinghouse receives only a completed application, it may have 60 days to review the completed application. If a completed application is submitted during the first 30 days after a notification has been submitted, the clearinghouse may have 30 days plus the number of days remaining in the initial 30 days to review a completed application. Where clearinghouses have not completed their review during the 30 day notification period, they are strongly urged to give the applicant formal notice to that effect. Where reviews have been completed prior to completion of an application, an information copy will be supplied to the clearinghouse, upon request, when the application is submitted to the funding agency.

(d) Analysis of the timing requirement for clearinghouse review discloses that such review consists of two stages: (1)

V 41 157 AUG 12 76 UMI

Stage 1—*When only a Notification of Intent (complete or partial Form SF 424 or clearinghouse NOI forms if required) is submitted to the Clearinghouse*—(i) Clearinghouse has 30 days to review. Clearinghouse *may* complete review and send comments to applicant. Upon completion of application (complete Form SF 424), applicant will submit an information copy to the clearinghouse, upon request, when submitting the application to NOAA for funding.

(ii) Clearinghouse *does not* complete review; notifies applicant; resolves problems, if any, with applicant; applicant completes application.

(iii) When a completed application is submitted during the first 30 days *after* a Notification of Intent has been submitted, clearinghouse has 30 days plus the number of days remaining in the initial 30 day notification period to complete review.

(2) Stage 2—*When only a completed application is submitted to clearinghouse*—Clearinghouse has 60 days to review.

(e) Written comments submitted to the areawide clearinghouses by other jurisdictions, agencies, or parties will be included as attachments to the comments of areawide clearinghouses, when they are at variance with the clearinghouse comments; and others from whom comments were solicited and received should be listed.

§ 905.6 Clearinghouse comments and recommendations.

(a) Applicants will include with the completed application submitted to NOAA:

(1) All comments and recommendations made by or through clearinghouses, along with a statement that such comments have been considered prior to submission to NOAA of the application; or

(2) Where no comments have been received from a clearinghouse, a statement that the procedures outlined in paragraphs 905.3 and 905.5 above have been followed and that no comments or recommendations have been received.

(b) The objectives of clearinghouse comments and recommendations are:

(1) To assure maximum consistency of the proposed project with State, areawide, and local comprehensive plans;

(2) To assist NOAA in determining whether the project is in accord with Federal laws, particularly those requiring consistency with State, areawide, or local plans. Comments or recommendations may include, but need not be limited to, information about the extent to which the proposed project:

(i) Duplicates, runs counter to, or needs to be coordinated with other projects or activities being carried out in or affecting the area; or

(ii) Might be revised to increase its effectiveness or efficiency in relationship to other State, area, or local programs and projects.

Applications for continuation or renewal grants or applications not submitted to or acted upon by NOAA within one year after completion of clearinghouse review will be subject to re-review upon request of the clearinghouse (use Form SF 424 or clearinghouse NOI forms if required).

§ 905.8 NOAA procedures for implementation of OMB Circular A–95.

Part I of Circular A–95 requires NOAA to:

(a) Inform potential applicants for assistance under the programs indicated in Paragraph 2 above of the requirements of OMB Circular A–95, Part 1, (1) in program information materials, (2) in response to inquiries respecting application procedures, (3) in preapplication conferences, or (4) by other means which will assure earliest contact between applicant and clearinghouses.

(b) Assure that all applications for assistance under programs covered by A–95 have been submitted to appropriate clearinghouses for review prior to their submission to NOAA for funding.

(c) Return applications to the applicant which do not carry evidence that both areawide and State clearinghouses have been given an opportunity to review the application, with instructions to applicant that the requirements of Part I, OMB Circular A–95, must be fulfilled.

(d) Insure that all applications contain a State Application Identifier (SAI) number. (This is mandatory for use in notifying clearinghouses of action taken on the application.)

(e) Notify such clearinghouses within seven working days of any major action taken on such applications that have been reviewed by said clearinghouses. Major actions will include awards, rejections, returns for amendment, deferrals, or withdrawals.

(f) Use Standard Form 424 for the Report of Federal Action to Clearinghouses.

(g) Where a clearinghouse has recommended against approval of an application or has recommended approval only with specific and major substantive changes, and NOAA approves the application substantially as submitted, NOAA will provide the clearinghouse, along with the action notice, an explanation therefor.

(h) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or federally assisted project, NOAA will consult with the agency assisting the referenced projects prior to acting, if it plans to approve the application.

§ 905.9 Roles and responsibilities.

a. *Assistant Administrator for Coastal Zone Management/Regional Director National Marine Fisheries Service* shall: (1) Inform potential applicants for assistance under such programs of the requirements of OMB Circular A–95, Part I,

(i) in program informational materials, (ii) in response to inquiries respecting application procedures, (iii) in preapplication conferences, or (iv) by other means which will assure earliest contact between applicant and clearinghouses.

(2) Assure that all applications for assistance under programs covered by OMB Circular A–95, Part I have been submitted to appropriate clearinghouses for review prior to their submission to NOAA. In cases where applications are received by the program office and the applicant has not submitted a Notification of Intent or an application to the State and areawide clearinghouses, the applicant should be notified that it will be necessary to submit the application to the clearinghouses for review and that NOAA will not be able to take any funding action until the review has been completed (or the time for review has expired). When the applicant receives the clearinghouse reviews, it will be necessary to complete a new application face page (SF 424) and forward it and all comments received to NOAA.

(3) Evaluate the comments furnished by the clearinghouses and make the final determination of NOAA's action:

(4) Furnish a copy of the application face page (Form SF 424) to rejected, deferred, or withdrawn applications to the NOAA Grants Officer/Regional Contracting Officer in time for him to comply with the requirement of notifying the clearinghouses within seven working days of the changed status of an application.

(5) Where a clearinghouse has recommended against approval of an application or approval only with specific and major substantive changes, and NOAA approves the application substantially as submitted, the Assistant Administrator for Coastal Zone Management/Regional Director, National Marine Fisheries Service, will provide the clearinghouse an explanation thereof.

(6) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or federally assisted project, the Assistant Administrator for Coastal Zone Management/Regional Director, National Marine Fisheries Service, will consult with the agency assisting the referenced projects prior to funding the application.

(b) *NOAA Grants Officer.* The Grants Officer (AD113) shall serve as the administering official in the Headquarters Office. Contracting Officers in the Regional NMFS Offices shall serve as administering officials in these offices. These administering officials shall be responsible for notifying the clearinghouses within seven working days of any major action taken on applications which have been reviewed by the clearinghouses. Major actions will include awards, rejections, deferrals, or withdrawals. The face page of the application, SF 424, will be utilized for this purpose.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of New England Tractor Trailer Training of Massachusetts, Inc., a corporation, New England Tractor Trailer Training of Connecticut, Inc., a corporation, and Arlan Greenberg, individually and as an officer of said corporations.

Consent order requiring a Quincy, Mass., and Somers, Conn., truck driver training school, among other things, to cease misrepresenting employment opportunities, placement services, the training their personnel have as vocational counselors, and the behind-the-wheel road-driving instruction furnished as part of their course. Further, respondents are required to disclose pertinent information regarding their courses of instruction; furnish prospective consumers with a three-day cooling-off period; search their files for previous purchasers, make refunds in accordance with the provisions of the order, and submit notarized affidavits attesting to those actions; and to institute and maintain a surveillance program to insure compliance with the order.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

ORDER

I. *It is ordered* That respondents New England Tractor Trailer Training of Massachusetts, Inc., New England Tractor Trailer Training of Connecticut, Inc. corporations, their successors and assigns, and their officers and Arlan Greenberg, individually and as an officer of said corporations and respondents' officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with advertising, offering for sale, sale or distribution of courses of study, training or instruction in the field of truck driving or any other subject, trade or vocation or of any other product or service in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing orally, visually, in writing or in any other manner, directly or by implication, that:

(a) Respondents operate, represent or are affiliated with trucking companies, employers of truck drivers or any industry for which enrollees of any course are being trained; or misrepresenting, in any manner, the nature of respondents' business.

(b) Employment is being offered when the real purpose of such offer is to obtain leads to prospective purchasers of such training courses.

(c) Respondents have been requested by trucking companies or any other business or organization to train persons for specific jobs; or misrepresenting, in any manner, respondents' connection or affiliation with any industry or any member thereof.

(d) There is a need or demand of any size, proportion or magnitude for persons completing any of the courses offered by the respondents in the field of truck driving or any other field, or otherwise representing that opportunities for employment, or opportunities of any size, figure or number are available to such persons or that persons completing said courses will or may earn any specific amount of money, or otherwise representing by any means the prospective earnings of such persons except as hereafter provided in Paragraph 6 of the order.

(e) Respondents or others provide a placement service which will or may secure a job for graduates of said courses.

(f) Graduates of said courses are assured of placement in the positions for which they have been trained; or representing that graduates of said courses will easily attain employment or that said courses are effective in preparing or qualifying any graduate for employment.

(g) Any person engaged in the promotion, offering for sale, sale, distribution or other use of said courses is a trained admissions counselor or vocational counselor; or misrepresenting the training, experience, title, qualifications or status of such person or the import or meaning of any advice given by or any other statement made by any such person.

(h) Respondents accept only qualified candidates for enrollment in said courses.

(i) Said courses provide a minimum of 20 hours of road-driving instruction, when such representations do not accurately disclose the actual number of hours of behind-the-wheel road-driving instruction furnished to enrollees; or misrepresenting, in any manner, the number of actual hours of behind-the-wheel road-driving instruction furnished to enrollees.

2. Placing advertisements in "Help Wanted" columns, or failing to specify, clearly and conspicuously, as a condition to the publication of classified advertisements seeking leads to prospective purchasers, that such advertisements be published only in the education, instruction or similar columns of classified advertising.

3. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective enrollee of any truck driver training course offered by respondents, the following information:

(a) The title "Important Information" printed in ten (10) point bold face type across the top of the form.

[1] Copies of the Complaint, Appendices, Decision and Order filed with the original document.

V 41 157 AUG 12 76 UMI

(b) Paragraphs providing the following information:

(1) Many employers of truck drivers prescribe a minimum age of twenty-one (21) years of age for drivers.

(2) A tractor trailer operator's license issued by the state is necessary to qualify an individual to operate a tractor trailer.

(3) Many employers of truck drivers give preferential consideration in hiring to driver applicants with actual truck-driving experience.

4. Failing to disclose, clearly and conspicuously, in advertisements, in catalogs, brochures and on letterheads that respondents' business is solely and exclusively that of a private school, not affiliated with any members of the trucking industry or any member of any other industry.

5. Failing to keep adequate records which may be inspected by Commission staff members upon reasonable notice which substantiate the data and information required to be disclosed by Paragraph 6 of this order and prescribed in Appendix A.

6. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective enrollee of any course of instruction offered by respondents, the following information in the format prescribed in Appendix A and for a base period designated as described in Appendix B:

(1) The number and percentage of enrollees who have failed to complete their course of instruction, such percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(2) The placement rate, ratio or percentage for enrollees and graduates, and also the numbers upon which such rates, ratios or percentages are based; such rate or percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility;

(3) The salary range of respondents' graduates as to the same graduates used to compute the placement percentage in (2) above;

(4) A list of firms or employers which are currently hiring graduates of said courses in substantial numbers and in the positions for which such graduates have been trained, and the number of such graduates hired, as to the same graduates used to compute the placement percentage in (2) above.

Provided, however, This Paragraph shall be inapplicable to any school newly established by respondents in a metropolitan area or county, whichever is larger, where they previously did not operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for the base period established pursuant to Appendix B as prescribed in this Paragraph. However, during such period, the following statement, and no other, shall be made in lieu of the Appendix A Disclosure Form required by this Paragraph:

DISCLOSURE NOTICE

This school (or course, as the case may be) has not been in operation long enough to indicate what, if any, actual employment or salary may result upon graduation from this school (course).

7.(a) Contracting for the sale of any course of instruction in the form of a sales contract or any other agreement which does not contain in immediate proximity to the space reserved in the contract for the signature of the prospective enrollee in bold face type of a minimum size of ten (10) points, a statement in the following form:

You, the prospective enrollee, may cancel this transaction at any time prior to midnight of the tenth business day after the date of this transaction. See attached notice of cancellation form for an explanation of this right.

(b) Failing to furnish each prospective enrollee, at the time he signs the sales contract or otherwise agrees to enroll in a course of instruction offered by respondents, a complete form in duplicate, which shall be attached to the contract or agreement, and easily detachable, and which shall contain in ten (10) point bold face type the following information and statements:

NOTICE OF CANCELLATION

(Enter date of transaction) ---------- (Date)

You may cancel this transaction, without any penalty or obligation, within ten (10) business days from the above date.

If you cancel, any payments made by you under the contract or sale, and any negotiable instrument executed by you will be returned within ten (10) business days following receipt by the seller of your cancellation notice, and any security interest arising out of the transaction will be cancelled.

If you cancel, you must make available to the seller at your residence, in substantially as good condition as when received, any goods delivered to you under this contract or sale: Or you may, if you wish, comply with the instructions of the seller regarding the return shipment of the goods at the sellers' expense and risk.

If you do make the goods available to the seller and the seller does not pick them up within twenty (20) days of the date of your notice of cancellation, you may retain or dispose of the goods without any further obligation. If you fail to make the goods available to the seller, or if you agree to return the goods to the seller and fail to do so, then you remain liable for payment for said goods.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram, to (Name of seller), at (address of seller's place of business) not later than midnight of ----------.

(Date)

I hereby cancel this transaction.

---------- ----------

(Date) (Buyer's signature)

(c) Failing to orally inform each prospective enrollee of his right to cancel at the time he signs a contract or agreement for the sale of any course of instruction.

(d) Misrepresenting in any manner the prospective enrollee's right to cancel.

(e) Failing or refusing to honor any valid notice of cancellation by a prospective enrollee and within ten (10) business days after the receipt of such notice, to: (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by respondent; (iii) cancel and return any negotiable instrument executed by the prospective enrollee in connection with the contract or sale.

(f) During the cancellation period described herein, respondents shall not initiate contacts with such contracting persons other than contacts permitted by this paragraph.

8. Making any representations of any kind whatsoever in connection with the advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in the field of truck driver training or any other course offered to the public in any field in commerce for which respondents have no reasonable basis prior to the making or dissemination thereof.

9. Furnishing or otherwise placing in the hands of others the means and instrumentalities by and through which the public may be misled or deceived in the manner, or by the acts and practices prohibited by the order.

II. 1. *It is further ordered.* That: (a) Respondents herein deliver, by registered mail, a copy of this Decision and Order to each of their present and future franchisees, licensees, employees, sales representatives, agents, solicitors, brokers, independent contractors or to any other person who promotes, offers for sale, sells or distributes any course of instruction included within the scope of this order;

(b) Respondents herein provide each person or entity so described in subparagraph (a) of this Paragraph with a form returnable to the respondents clearly stating his or her intention to be bound by and to conform his or her business practices to the requirements of this order; retain said statement during the period said person or entity is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request.

(c) Respondents herein inform each person or entity described in subparagraph (a) of this paragraph that the respondents will not use or engage or will terminate the use or engagement of any such party, unless such party agrees to and dose file notice with the respondents that he or she will be bound by the provisions contained in this order;

(d) If such party as described in subparagraph (a) of this paragraph will not agree to file the notice set forth in subparagraph (b) above with the respondents and be bound by the provisions of this order, the respondents shall not use or engage or continue the use or engagement of such party to promote, offer for sale, sell or distribute any course of instruction included within the scope of this order;

(e) Respondents herein inform the persons or entities described in subparagraph (a) above that the respondents are obligated by this order to discontinue dealing with or to terminate the use or engagement of persons or entities who continue on their own the deceptive acts or practices prohibited by this order;

(f) Respondents herein institute a program of continuing surveillance adequate to reveal whether the business practices of each said person or entity described in subparagraph (a) above conform to the requirements of this order;

(g) Respondents herein discontinue dealing with or terminate the use or engagement of any person described in subparagraph (a) above, who continues on his or her own any act or practice prohibited by this order as revealed by the aforesaid program of surveillance.

(h) Respondents herein maintain files containing all injuries or complaints from any source relating to acts or practices prohibited by this order, for a period of two years after their receipt, and that such files be made available for examination by a duly authorized agent of the Federal Trade Commission during the regular hours of the respondents' business for inspection and copying.

2. *It is further ordered,* That respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

3. *It is further ordered,* That the respondent corporations shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondents which may affect compliance obligations arising out of this order.

4. *It is further ordered,* That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

III. *It is further ordered,* That: 1. Respondents shall submit to the Commission, within five (5) days after the date this order is served on respondents (hereinafter "date of service"), a notarized affidavit, executed by respondents' President, to the effect that respondents have made or have caused to be made a good faith search of documents that pertain to purchasers of respondents' tractor trailer training course of instruction, and that respondents, to the best of their knowledge, have previously or simultaneously with said affidavit submitted to the Commission the names of all tractor trailer course purchasers covered by this agreement.

2. Respondents or their designee shall make an inquiry in writing on the one hundred and twentieth (120th) day after the date of service, in the language, manner and form shown in Appendices C and D, via certified mail with return receipt requested and with a self-addressed, postage prepaid envelope, to the home address of each former purchaser of one of respondents' tractor trailer courses who appears on a list of such purchasers to be supplied to respondents by the Commission within sixty (60) days after the date of service.

3. With respect to each purchaser whose mailed inquiry is returned undelivered or whose aforesaid return receipt card is not returned, respondents or their designee shall have a duty to mail on the one hundred and forty-fifth (145th) day after the date of service the same inquiry, via first class mail to such purchaser's business address as appears in personal information records, including but not limited to personal qualification charts, placement records, and survey records, maintained by respondents.

4. On the two hundred and seventieth (270th) day after the date of service, corporate respondents shall pay a refund, by check, in an amount derived in accordance with Part III of this order, to each "eligible class member" determined in accordance with Part III of this order.

5. "Eligible class member" means only those persons who:

(a) Enrolled during the period of time from January 1, 1973 to December 31, 1973 in respondents' tractor trailer courses; and

(b) Did not have his course tuition paid in full by a state or local department or division of vocational rehabilitation; and

(c) Completed respondents' tractor trailer course; and

(d) (1) Sought employment as a tractor trailer truck driver; or

(2) For reasons related to the sufficiency or quality of the training, or job demand, elected not to seek employment as a tractor trailer truck driver; and

(e) After completion of respondents' course, did not attain employment as a tractor trailer truck driver.

6. Each refund shall be accompanied by a letter in the language, manner and form shown in Appendix E; and a notice in the language, manner and form shown in Appendix F shall be sent via first class mail, with the sender's return address on the face of the envelope, to the last known home address of all persons whose returned questionnaire show them to be ineligible for a refund under Part III of this order.

7. Corporate respondents shall make pro rata refund payments to each eligible class member based upon the proportion that total tuitions paid by or for all such members bear to the total amount available for refunds as provided in Part III of this order, except that members whose tuition was paid in part by a state or local department or division of vocational rehabilitation shall receive a pro rata refund based only on that amount of their tuition not paid by a state or local department or division of vocational rehabilitation. In no event shall any member receive an amount greater than the tuition paid by or for such member.

8. Corporate respondents shall ultimately provide a sum of no greater than twenty five thousand dollars ($25,000) solely to provide refunds under Part III of this order. No charges against this amount shall be made for administrative costs, which shall be absorbed by the corporate respondents.

9. Respondents shall deposit, on or before the tenth business day after the date of service, the sum of ten thousand dollars ($10,000) into an account at a banking institution to be agreed on between respondents and the Commission's representative. The principal amount of said bank account shall be available only for the payment of refunds under the provisions of Part III of this order. Withdrawals and orders against this account shall, by agreement, be effective only when countersigned by the individual respondent, together with the Commission's representative.

10. Respondents shall file, within one hundred and eighty (180) days after the date of service, under Rule 3.61(d) of the Commission's Rules of Practice, a written request for advice as to whether their determination of who is an eligible class member complies with the terms of this order provision. Respondents shall submit simultaneously with their request all Appendix D questionnaires they have received as of the date said request for advice is filed. Respondents shall also, at this time, present any challenges to the factual accuracy of any questionnaire together with substantiating material; such challenges and substantiating material shall be presented solely as a means of assisting the Commission in furnishing respondents an advisory opinion pursuant to said Rule 3.61(d); *Provided,* That the Commission shall render its advice to respondents and return all Appendix D questionnaires to respondents within two hundred and forty (240) days after the date of service.

11. Corporate respondents or their designee shall contact and deliver a refund check to each eligible class member or his legal representative. For such purpose, corporate respondents shall, among other things, request the last known address of the eligible class member from the Postal Service, telephone the eligible class member or request the assistance of the Social Security Administration.

12. Respondents shall, on the two hundred and eightieth (280th) day after the date of service, file with the Commission a report in writing setting forth the manner and form in which they have complied with Part III of this order.

13. Respondents shall maintain records and documents for two (2) years after the date this order is served on respondents, which demonstrate that respondents have complied with Part III of this order.

14. It is agreed that should any duty required to be performed on a day certain under Part III of this order fall upon a non-business day, the parties

V 41 157 AUG 12 76 UMI

herein may perform such duties on the next following business day.

It is further ordered That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 13, 1976.

JAMES A. TOBIN,
Acting Secretary.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-949]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Borough of Bangor, Northampton County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Borough of Bangor, Northhampton County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Secretary's Office, Town Hall, 60 North 5th Street, Bangor, Pennsylvania.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Martins Creek	North corporate limits	562	60	80
	Dam (upstream)	554	40	80
	Pennsylvania Ave	522	20	20
	Market St	514	340	400
	South Main St	510	10	840
	Chestnut St. (extended)	510	10	700
	Kline St. (extended)	488	180	100
	Church St. (extended)	486	370	60
	Messinger St	478	180	80
	Miller St. (extended)	476	360	60
	Southern corporate	466	520	130

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 27, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-906]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Lock Haven, Clinton County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of Lock Haven, Clinton County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 20 East Church Street, Lock Haven, Pennsylvania.

Accordingly, the Administator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
West branch of Susquehanna River.	Northwest corporate limit	569	(1)	1,144
	Lusk Run Rd. (extended)	567	(1)	170
	Intersection Route 120 and Penn Central RR.	567	(1)	620
	6th St	566	(1)	1,390
	5th St. (extended)	566	(1)	2,275
	4th St. (extended)	566	(1)	3,120
	3rd St. (extended)	566	(1)	3,930
	Bellefonte Ave. (extended to river)	566	(1)	5,690
	Vesper St. (extended)	565	(1)	7,390
	Jay St. (extended to southern corporate limit).	565	(1)	5,600
	Henderson St. (extended to new highway).	565	(1)	4,990
	Washington St	565	(1)	5,160
	Grant St. (extended)	564	(1)	3,700
	Race St. (extended)	564	(1)	3,485
	Lock Haven Airport	564	(2)	

[1] Corporate limit.
[2] All of airport.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-947]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Township of Lower Macungie, Lehigh County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Township of Lower Macungie, Lehigh County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Township must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Meeting Room, Township Building, Indian Creek Road, Lower Macungie, Pennsylvania.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Little Lehigh Creek	Weidas Mill Bridge	311	80	210
	Riverdale Farm Bridge	319	100	100
	Route 29	329	150	250

[Docket No. FI-908]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Borough of Rose Valley, Delaware County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Borough of Rose Valley, Delaware County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood

V 41 157 AUG 12 76 UMI

elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Borough Office, Old Mill Lane, Rose Valley.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Vernon Run	Rose Valley		75	150
	Corporate limits North		75	100
Unnamed tributary	Corporate limits North		25	50
Ridley Creek	Royleneroft Lane (extended)	96	125	(1)
	Old Mill Lane (extended)	89	400	125
	South corporate limits near South Longpoint Lane.	75	125	125
	South corporate limits near Tomorden Drive.	68	100	(1)

[1] West corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-968]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Borough of South Renovo, Clinton County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Borough of South Renovo, Clinton County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Main desk of the Renovo Library, Renovo.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
West branch Susquehanna River.	Upstream corporate limit	660		200
	2d St	660		30
	3d St	660		40
	Route 144 Bridge	660		30
	5th St	659		250
	7th St	659		50
	Downstream corporate limit	658		120

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 27, 1976.

[Docket No. FI-960]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Township of Union, Washington County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Township of Union, Washington County, Pennsylvania under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Township must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publications of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Township Building, Gastonville, Pennsylvania.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 7427]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PART 301—PROCEDURE AND ADMINISTRATION

Inclusion of Self-Employment Tax in Estimated Tax and Increase of Applicable Percentage From 70 Percent to 80 Percent

To officers and employees of the Internal Revenue Service and others concerned:

PREAMBLE

By a notice of proposed rulemaking appearing in the FEDERAL REGISTER for January 6, 1975 (40 FR 1044), amendments to the Income Tax Regulations (26 CFR Part 1) and the Regulations on Procedure and Administration (26 CFR Part 301) were proposed in order to conform such regulations to the provisions of sections 102 and 103 of the Tax Adjustment Act of 1966 (80 Stat. 62, 64) (relating to the inclusion of the self-employment tax in the estimated tax and relating to the increase of the percentage which estimated tax must be of actual tax in order for an individual to avoid having an underpayment of estimated tax), and to minor amendments made by sections 102(a) and 104(a) of the Revenue and Expenditure Control Act of 1968 (82 Stat. 251, 264); section 301(b) (12) and (13) of the Tax Reform Act of 1969 (83 Stat. 586); section 203(b)(7) of the Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); section 203(b)(7) of the Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 420); section 203 (b)(7) and (d) of the Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153); and section 5 (b)(7), (d), and (f) of the Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954). All such relevant matter as was presented by interested persons regarding the rules proposed having been considered, the proposed amendments of the regulations are adopted by this document without change except for two minor clerical matters.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

On January 6, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 1044) with respect to the Income Tax Regulations (26 CFR Part 1) under sections 170, 1403, 6015, 6017, and 6654 of the Internal Revenue Code of 1954, and the Regulations on Procedure and Administration (26 CFR Part 301) under sections 6015, 6211, and 6654 of the Code to conform such regulations to the provisions of sections 102 and 103 of the Tax Adjustment Act of 1966 (80 Stat. 62, 64) and to minor amendments made by sections 102(a) and 104(a) of the Revenue and Expenditure Control Act of 1968 (82 Stat. 251, 264); section 301(b) (12) and (13) of the Tax Reform Act of 1969 (83 Stat. 586); section 203(b)(7) of the Act of March 17, 1971 (Pub. L. 92–5, 85 Stat. 11); section 203(b)(7) of the Act of July 1, 1972 (Pub. L. 92–336, 86 Stat. 420); section 203 (b)(7) and (d) of the Act of July 9, 1973 (Pub. L. 93–66, 87 Stat. 153); section 5 (b)(7), (d), and (f) of the Act of December 31, 1973 (Pub. L. 93–233, 87 Stat. 954). After consideration of all relevant matter presented by interested persons regarding the proposed rules, the amendment is hereby adopted as proposed, subject to the following changes to reflect the prior amendment of § 1.6654 by Treasury Decision 7384 (40 FR 49321), and to make current the statutory provisions and historical note set forth in § 301.6654:

Paragraph 1. Section 1.6654, as set forth in paragraph 11 of the appendix to the notice of proposed rulemaking, is amended by deleting subsection (a) of section 6654 and the historical note therefrom.

Par. 2. Section 301.6654, as set forth in paragraph 17 of the appendix to the notice of proposed rulemaking, is amended by revising section 6654(a) and the historical note to read as follows:

§ 301.6654 Statutory provisions; failure by individual to pay estimated income tax.

Sec. 6654. *Failure by individual to pay estimated income tax*—(a) *Addition to the tax.* In the case of any underpayment

V 41 157 AUG 12 76 UMI

of estimated tax by an individual, except as provided in subsection (d), there shall be added to the tax under chapter 1 and the tax under chapter 2 for the taxable year an amount determined at an annual rate established under section 6621 upon the amount of the underpayment (determined under subsection (b)) for the period of the underpayment (determined under subsection (c)).

* * * * *

[Sec. 6654 as amended by sec. 1(a)(4), Act of Sept. 25, 1962 (Pub. Law 87-682, 76 Stat. 575); secs. 102(b)(1), (2), (3) and 103(a), Tax Adjustment Act 1966 (80 Stat. 62, 64); sec. 301(b)(13), Tax Reform Act 1969 (83 Stat. 586); sec. 203(b)(7), Act of March 17, 1971 (Pub. Law 92-5, 85 Stat. 11); sec. 203(b)(7), Act of July 1, 1972 (Pub. Law 92-336, 86 Stat. 420); sec. 203(b)(7) and (d), Act of July 9, 1973 (Pub. Law 93-66, 87 Stat. 153); sec. 5(b)(7), Act of Dec. 31, 1973 (Pub. Law 93-233, 87 Stat. 954); sec. 7(c), Act of Jan. 3, 1975 (Pub. Law 93-625, 88 Stat. 2115)]

Because the portion of the amendment made by this Treasury decision to § 301.6654 which was not included in the notice of proposed rulemaking published in the FEDERAL REGISTER for January 6, 1975, is merely clerical in nature, it is hereby found that it is unnecessary to issue such portion of that amendment with notice and public procedure thereon under section 553(b) of title 5 of the United States Code, or subject to the effective date limitation of subsection (d) of such section.

NOTE.—This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; (26 U.S.C. 7805)).

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: July 29, 1976.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

INCOME TAX REGULATIONS

PARAGRAPH 1. Paragraph (c) of § 1.170-2 is amended by revising subparagraphs (1)(i) and (2)(iv). These amended provisions read as follows:

§ 1.170-2 Charitable deductions by individuals; limitations (before amendment by Tax Reform Act of 1969).

* * * * *

(c) *Unlimited deduction for individuals*—(1) *In general.* (i) The deduction for charitable contributions made by an individual is not subject to the 10- and 20-percent limitations of section 170(b) if in the taxable year and each of 8 of the 10 preceding taxable years the sum of his charitable contributions paid during the year, plus his payments during the year on account of Federal income taxes, is more than 90 percent of his taxable income for the year (or net income, in years governed by the Internal Revenue Code of 1939). In determining the applicability of the 10- and 20-percent limitations of section 170(b) for taxable years beginning after December 31, 1957, there may be substituted, in lieu of the amount of income tax paid during any year, the amount of income tax paid in respect of such year, provided that any amount so included for the year in respect of which payment was made shall not be included for any other year. For the purpose of the first sentence of this paragraph, taxable income under the 1954 Code is determined without regard to the deductions for charitable contributions under section 170, for personal exemptions under section 151, or for a net operating loss carryback under section 172. On the other hand, for this purpose net income under the 1939 Code is computed without the benefit only of the deduction for charitable contributions. See section 120 of the Internal Revenue Code of 1939. The term "income tax" as used in section 170(b)(1)(C) means only Federal income taxes, and does not include the taxes imposed on self-employment income, on employees under the Federal Insurance Contributions Act, and on railroad employees and their representatives under the Railroad Retirement Tax Act by chapters 2, 21, and 22, respectively, or corresponding provisions of the Internal Revenue Code of 1939. For purposes of section 170(b)(1)(C) and this paragraph, the amount of income tax paid during a taxable year shall be determined (except as provided in subdivision (ii) of this subparagraph) by including all payments made by the taxpayer during such taxable year on account of his Federal income taxes (whether for the taxable year or for preceding taxable years). Such payments would include any amount paid during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter (2) for that year, payment of the final installment of estimated tax (exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter 2) for the preceding taxable year, final payment for the preceding taxable year, and any payment of a deficiency for an earlier taxable year, to the extent that such payments do not exceed the tax for the taxable year for which payment is made. Any payment of income tax with respect to which the taxpayer receives a refund or credit shall be reduced by the amount of such refund or credit. Any such refund or credit shall be applied against the most recent payments for the taxable year in respect of which the refund or credit arose.

* * * * *

(2) *Joint returns.* * * *

(iv) *Allocation.* Whenever it is necessary to allocate the joint tax liability or the combined taxable income, or both, for a taxable year for which a joint return was filed, a computation shall be made for the taxpayer and for his spouse or former spouse showing for each of them the Federal income taxes and taxable income which would be determined if separate returns had been filed by them for such taxable year. The joint tax liability and combined taxable income for such taxable year shall then be allocated proportionately to the income taxes and taxable income, respectively, so computed. Whenever it is necessary to determine the separate payments made by a taxpayer in respect of a joint tax liability, the amount paid by him during the taxable year as estimated tax (exclusive of any portion of such amount for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter 2) for that year shall be included to the extent it does not exceed his allocable portion of the joint tax under chapter 1 (exclusive of tax under section 56) for the taxable year, and any amount paid by him for a prior year (whether as the final installment of estimated tax—exclusive of any portion of such installment, for taxable years beginning after December 31, 1966, which is attributable to the self-employment tax imposed by chapter 2—for the preceding taxable year, or a final payment for the preceding year, or the payment of a deficiency for an earlier year) shall be included to the extent such amount, when added to amounts previously paid by him for such prior year, does not exceed his allocable portion of the joint tax liability for the prior year.

* * * * *

PAR. 2. Section 1.1403 is amended by adding a paragraph (3) to section 1.1403(b) and by revising the historical note. These added and amended provisions read as follows:

§ 1.1403 Statutory provisions; miscellaneous provisions.

Sec. 1.1403. *Miscellaneous provisions.* * * *
(b) *Cross references.* * * *

(3) For provisions relating to declarations of estimated tax on self-employment income, see section 6015.

[Sec. 1403 as amended by sec. 103(m), Social Security Amendments 1960 (74 Stat. 938); sec. 102(b)(6), Tax Adjustment Act 1966 (80 Stat. 64)]

PAR. 3. Section 1.1403-1 is amended to read as follows:

§ 1.1403-1 Cross references.

For provisions relating to the requirement for filing returns with respect to net earnings from self-employment, see § 1.6017-1. For provisions relating to declarations of estimated tax on self-employment income, see §§ 1.6015(a) to 1.6015(j)-1, inclusive. For other administrative provisions relating to the tax on self-employment income, see the applicable sections of the regulations in this part (§ 1.6001-1 et seq.) and the applicable sections of the regulations in Part 301 of this chapter (Regulations on Procedure and Administration).

PAR. 4. Section 1.6015(b)-1 is amended by revising paragraphs (a), (b), and (c). These amended provisions read as follows:

§ 1.6015(b)-1 Joint declaration by husband and wife.

(a) *In general.* A husband and wife may make a joint declaration of estimated tax even though they are not living together. However, a joint declaration may not be made if they are separated under a decree of divorce or of separate maintenance. A joint declaration may not be made if the taxpayer's spouse is a nonresident alien (including a nonresidnt alien who is a bona fide resident of Puerto Rico during the entire taxable year) or if his spouse has a different taxable year. If the gross income of each spouse meets the requirements of section 6015(a), either a joint declaration must be made or a separate declaration must be made by each. If a joint declaration is made, the amount estimated as the income tax imposed by chapter 1 (other than by section 56) must be computed on the aggregate estimated taxable income of the spouses (see section 6013(d)(3) and § 1.2-1), while (for taxable years beginning after December 31, 1966) the amount estimated as the self-employment tax imposed by chapter 2 must be computed on the separate estimated self-employment income of each spouse. See sections 1401 and 1402 and § 1.6017-1(b)(1). The liability with respect to the estimated tax, in the case of a joint declaration, shall be joint and several.

(b) *Application to separate returns.* The fact that a joint declaration of estimated tax is made by them will not preclude a husband and his wife from filing separate returns. In case a joint declaration is made but a joint return is not made for the same taxable year, the payments made on account of the estimated tax for such year may be treated as payments on account of the tax liability of either the husband or wife for the taxable year or may be divided between them in such manner as they may agree. In the event the husband and wife fail to agree to a division, such payments shall be allocated between them in accordance with the following rule. The portion of such payments to be allocated to a spouse shall be that portion of the aggregate of all such payments as the amount of tax imposed by chapter 1 (other than by section 56) shown on the separate return of the taxpayer (plus, for taxable years beginning after December 31, 1966, the amount of tax imposed by chapter 2 shown on the return of the taxpayer) bears to the sum of the taxes imposed by chapter 1 (other than by section 56) shown on the separate returns of the taxpayer and his spouse (plus, for taxable years beginning after December 31, 1966, the sum of the taxes imposed by chapter 2 shown on the returns of the taxpayer and his spouse). For example, assume that for calendar year 1972 H and his spouse W make a joint declaration of estimated tax and, pursuant thereto, pay a total of $19,500 of estimated tax. H and W subsequently file separate returns for 1972 showing tax imposed by chapter 1 (other than by section 56) in the amount of $11,500 and 8,000, respectively. In addition, H's return shows a tax imposed by chapter 2 in the amount of $500. H and W fail to agree to a division of the estimated tax paid. The amount of the aggregate estimated tax payments allocated to H is computed as follows:

(1) Amount of tax imposed by chapter 1 (other than by section 56) shown on H's return	$11,500
(2) Plus: Amount of tax imposed by chapter 2 shown on H's return	$500
(3) Total taxes imposed by chapter 1 (other than by section 56) and by chapter 2 shown on H's return	$12,000
(4) Amount of tax imposed by chapter 1 (other than by section 56) shown on W's return	$8,000
(5) Total taxes imposed by chapter 1 (other than by section 56) and by chapter 2 shown on both H's and W's returns	$20,000
(6) Proportion of such taxes shown on H's return to total amount of such taxes shown on both H's and W's returns ($12,000 ÷ 20,000)	60%
(7) Amount of estimated tax payments allocated to H (60% of $19,500)	$11,700

Accordingly, H's return would show remaining tax liability in the amount of $300 ($12,000 taxes shown less $11,700 estimated tax allocated).

(c) *Death of spouse.* (1) A joint declaration may not be made after the death of either the husband or wife. However, if it is reasonable for a surviving spouse to assume that there will be filed a joint return for himself and the decreased spouse for his taxable year and the last taxable year of the decreased spouse he may, in making a separate declaration for his taxable year which includes the period comprising such last taxable year of his spouse, estimate the amount of the tax imposed by chapter 1 (other than by section 56) on his and his spouse's taxable income on an aggregate basis and compute his estimated tax with respect to such chapter 1 tax in the same manner as though a joint declaration had been filed.

(2) If a joint declaration is made by husband and wife and thereafter one spouse dies, no further payments of estimated tax on account of such joint declaration are required from the estate of the decedent. The surviving spouse, however, shall be liable for the payment of any subsequent installments of the joint estimated tax, unless an amended declaration setting forth the separate estimated tax for the taxable year is made by such spouse. Such separate estimated tax shall be paid at the times and in the amounts determined under the rules prescribed in section 6153. For purposes of (i) the making of such an amended declaration by the surviving spouse, and (ii) the allocation of payments made pursuant to a joint declaration between the surviving spouse and the legal representative of the decedent in the event a joint return is not filed, the payments made pursuant to the joint declaration may be divided between the decedent and the surviving spouse in such proportion as the surviving spouse and the legal representative of the decedent may agree. In the event the surviving spouse and the legal representative of the decedent fail to agree to a division, such payments shall be allocated in accordance with the following rule. The portion of such payments to be allocated to the surviving spouse shall be that portion of the aggregate amount of such payments as the amount of tax imposed by chapter 1 (other than by section 56) shown on the separate return of the surviving spouse (plus, for taxable years beginning after December 31, 1966, the amount of tax imposed by chapter 2 shown on the return of the surviving spouse) bears to the sum of the taxes imposed by chapter 1 (other than by section 56) shown on the separate returns of the surviving spouse and of the decedent (plus, for taxable years beginning after December 31, 1966, the sum of the taxes imposed by chapter 2 shown on the returns of the surviving spouse and of the decedent); and the balance of such payments shall be allocated to the decedent. This rule may be illustrated by analogizing the surviving spouse described in this rule to H in the example contained in paragraph (b) of this section and the decedent in this rule to W in that example.

* * * * *

PAR. 5. Section 1.6015(c) is amended to read as follows:

§ 1.6015(c) Statutory provisions; declaration of estimated income tax by individuals; estimated tax.

Sec. 6015. *Declaration of estimated income tax by individuals.* * * *

(c) *Estimated tax.* For purposes of this title, in the case of an individual, the term "estimated tax" means—

(1) The amount which the individual estimates as the amount of the income tax imposed by chapter 1 for the taxable year (other than the tax imposed by section 56), plus

(2) The amount which the individual estimates as the amount of the self-employment tax imposed by chapter 2 for the taxable year, minus

(3) The amount which the individual estimates as the sum of any credits against tax provided by part IV of subchapter A of chapter 1.

[Sec. 6015(c) as amended by sec. 102(a), Tax Adjustment Act 1966 (80 Stat. 62); sec. 301(b)(12), Tax Reform Act 1969 (83 Stat. 586)]

PAR. 6. Section 1.6015(c)-1 is amended to read as follows:

§ 1.6015(c)-1 Definition of estimated tax.

In the case of an individual, the term "estimated tax" means—

(a) The amount which the individual estimates as the amount of the income tax imposed by chapter 1 (other than the tax imposed by section 56 or, for taxable years ending before September 30, 1968, the tax surcharge imposed by

V 41 157
AUG 12 76
UMI

section 51) for the taxable year, plus

(b) For taxable years beginning after December 31, 1966, the amount which the individual estimates as the amount of the self-employment tax imposed by chapter 2 for the taxable year, minus

(c) The amount which the individual estimates as the sum of any credits against tax provided by part IV of subchapter A of chapter 1. These credits are those provided by section 31 (relating to tax withheld on wages), section 32 (relating to tax withheld at source on nonresident aliens and foreign corporations and on tax-free covenant bonds), section 33 (relating to foreign taxes), section 34 (relating to the credit for dividends received on or before December 31, 1964), section 35 (relating to partially tax-exempt interest), section 37 (relating to retirement income), section 38 (relating to the investment credit), section 39 (relating to certain uses of gasoline, special fuels, and lubricating oils), section 40 (relating to expenses of work incentive programs), section 41 (relating to contributions to candidates), and section 42 (relating to overpayments of tax). An individual who expects to elect to pay the optional tax imposed by section 3, or one who expects to elect to take the standard deduction allowed by section 144, should disregard any credits otherwise allowable under sections 32, 33, and 35 in computing his estimated tax since, if he so elects, these credits are not allowed in computing his tax liability. See section 36.

For example, if a self-employed individual estimates that his liabilities for income tax and self-employment tax for 1973 will be $1,600 and $400, respectively, he is required to declare and pay an estimated tax of $2,000 for that year.

PAR. 7. Paragraph (b) of § 1.6015(d)–1 is amended to read as follows:

§ 1.6015(d)–1 Contents of declaration of estimated tax.

• • • • •

(b) *Computation of estimated tax.* In computing the estimated tax the taxpayer should take into account the following:

(1) The amount estimated as the income tax imposed by chapter 1 (other than by section 56) for the taxable year after the application of any allowable amounts estimated as the credit for foreign taxes, the dividends received credit (for dividends received on or before December 31, 1964), the credit for partially tax-exempt interest, the retirement income credit, the investment credit, the credit for expenses of work incentive programs, the credit for contributions to candidates, the credit for overpayments of tax, but without regard to the credit under section 31 for tax withheld on wages or to the credit under section 39 for certain uses of gasoline, special fuels, and lubricating oils;

(2) For taxable years beginning after December 31, 1966 (and, if the taxpayer so desires, for an earlier taxable year), the amount estimated as the tax on self-employment income imposed by chapter 2;

(3) The amounts estimated by the taxpayer as the credits under section 31 for tax withheld on wages and under section 39 for certain uses of gasoline, special fuels, and lubricating oils; and

(4) The excess, if any, of the sum of the amounts shown under subparagraphs (1) and (2) of this paragraph over the amount shown under subparagraph (3) of this paragraph, which excess shall be the estimated tax for such taxable year.

• • • • •

PAR. 8. Section 1.6015(c)–1 is amended to read as follows:

§ 1.6015(c)–1 Amendment of declaration.

In the making of a declaration of estimated tax, the taxpayer is required to take into account the then existing facts and circumstances as well as those reasonably to be anticipated relating to prospective gross income, allowable deductions, and estimated credits for the taxable year. Amended or revised declarations may be made in any case in which the taxpayer estimates that his gross income, deductions, or credits will differ from the gross income, deductions, or credits reflected in the previous declaration. An amended declaration may also be made based upon a change in the number of exemptions to which the taxpayer may be entitled for the then current taxable year. However, only one amended declaration may be filed during any interval between installment dates. See paragraph (d) of § 1.6073–1. An amended declaration may be filed jointly by husband and wife even though separate declarations have previously been filed. An amended declaration must be made on Form 1040–ES (marked "Amended"). See, however, paragraph (c) of § 1.6015(d)–1 for procedure to be followed if the prescribed form is not available.

PAR. 9. Paragraph (b) of § 1.6015(g)–1 is amended to read as follows:

§ 1.6015(g)–1 Short taxable years of individuals.

• • • • •

(b) *Income and income tax placed on annual basis.* For the purpose of determining whether the anticipated income and tax for a short taxable year resulting from a change of annual accounting period necessitates the filing of a declaration, income and income tax imposed by chapter 1 (other than by section 56) shall be placed on an annual basis in the manner prescribed in section 443(b)(1). Thus, for example, an unmarried taxpayer who changes from a fiscal year basis to a calendar year basis beginning January 1, 1973, will have a short taxable year beginning July 1, 1972, and ending December 31, 1972. If his anticipated gross income for such short taxable year consists solely of wages (as defined in section 3401(a)) in the amount of $11,000, his total gross income and his gross income from such wages for the purpose of determining whether a declaration is required is $22,000, the amount obtained by placing anticipated income of $11,000 upon an annual basis. Since the taxpayer's anticipated gross income from wages when placed upon an annual basis is in excess of $20,000, he is required to file a declaration of estimated tax for the short taxable year unless the estimated tax can reasonably be expected to be less than $100. However, for taxable years beginning after December 31, 1966, the amount which the individual estimates as the amount of self-employment tax imposed by chapter 2 shall be computed on the actual self-employment income for the short period.

• • • • •

PAR. 10. Section 1.6017–1 is amended by adding a paragraph (d) which reads as follows:

§ 1.6017–1 Self-employment tax returns.

• • • • •

(d) *Declaration of estimated tax with respect to taxable years beginning after December 31, 1966.* For taxable years beginning after December 31, 1966, section 6015 provides that the term "estimated tax" includes the amount which an individual estimates as the amount of self-employment tax imposed by chapter 2 for the taxable year. Thus, individuals upon whom self-employment tax is imposed by section 1401 must make a declaration of estimated tax if they meet the requirements of section 6015(a), except as otherwise provided under section 6015(i).

PAR. 11. Section 1.6654 is amended by revising subsections (a), (b), (d) and (f) of section 6654 and by revising the historical note. The amended provisions read as follows:

§ 1.6654 Statutory provisions; failure by individual to pay estimated income tax.

Sec. 6654. *Failure by individual to pay estimated income tax.* • • •

(b) *Amount of underpayment.* For purposes of subsection (a), the amount of the underpayment shall be the excess of—

(1) The amount of the installment which would be required to be paid of the estimated tax were equal to 80 percent (66⅔ percent in the case of individuals referred to in section 6073 (b), relating to income from farming or fishing) of the tax shown on the return for the taxable year or, if no return was filed, 80 percent (66⅔ percent in the case of individuals referred to in section 6073 (b), relating to income from farming or fishing) of the tax for such year, over

(2) The amount, if any, of the installment paid on or before the last date prescribed for such payment.

• • • • •

(d) *Exception.* Notwithstanding the provisions of the preceding subsections, the addition to the tax with respect to any underpayment of any installment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax were whichever of the following is the least—

(1) The tax shown on the return of the individual for the preceding taxable year, if a return showing a liability for tax was filed by the individual for the preceding taxable year and such preceding year was a taxable year of 12 months.

(2) An amount equal to 80 percent (66⅔ percent in the case of individuals referred to in section 6073(b), relating to income from farming or fishing) of the tax for the taxable year computed by placing on an annualized basis the taxable income for the months in the taxable year ending before the month in which the installment is required to be paid and by taking into account the adjusted self-employment income (if the net earnings from self-employment (as defined in section 1402(a)) for the taxable year equal or exceed $400). For purposes of this paragraph—

(A) The taxable income shall be placed on an annualized basis by—

(i) Multiplying by 12 (or, in the case of a taxable year of less than 12 months, the number of months in the taxable year) the taxable income (computed without deduction of personal exemptions) for the months in the taxable year ending before the month in which the installment is required to be paid,

(ii) Dividing the resulting amount by the number of months in the taxable year ending before the month in which such installment date falls, and

(iii) Deducting from such amount the deductions for personal exemptions allowable for the taxable year (such personal exemptions being determined as of the last date prescribed for payment of the installment).

(B) The term "adjusted self-employment income" means—

(i) The net earnings from self-employment (as defined in section 1402(a)) for the months in the taxable year ending before the month in which the installment is required to be paid, but not more than

(ii) The excess of (I) an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for the calendar year in which the taxable year begins, over (II) the amount determined by placing the wages (within the meaning of section 1402(b)) for the months in the taxable year ending before the month in which the installment is required to be paid on an annualized basis in a manner consistent with clauses (i) and (ii) of subparagraph (A).

(3) An amount equal to 90 percent of the tax computed, at the rates applicable to the taxable year, on the basis of the actual taxable income and the actual self-employment income for the months in the taxable year ending before the month in which the installment is required to be paid as if such months constituted the taxable year.

(4) An amount equal to the tax computed, at the rates applicable to the taxable year, on the basis of the taxpayer's status with respect to personal exemptions under section 151 for the taxable year, but otherwise on the basis of the facts shown on his return for, and the law applicable to, the preceding taxable year.

• • • • •

(f) *Tax computed after application of credits against tax.* For purposes of subsections (b) and (d), the term "tax" means—

(1) The tax imposed by this chapter 1 (other than by section 56), plus

(2) The tax imposed by chapter 2, minus

(3) The credits against tax allowed by part IV of subchapter A of chapter 1, other than the credit against tax provided by section 31 (relating to tax withheld on wages).

• • • • •

PAR. 12. Section 1.6654–1 is amended by revising paragraphs (a) (1) and (4) and by revising example (1) of paragraph (c), to read as follows:

§ 1.6654–1 Addition to the tax in the case of an individual.

(a) *In general.* (1) Section 6654 imposes an addition to the taxes under chapters 1 and 2 of the Code in the case of any underpayment of estimated tax by an individual (with certain exceptions described in section 6654(d)). This addition to the tax is in addition to any applicable criminal penalties and is imposed whether or not there was reasonable cause for the underpayment. The amount of the underpayment for any installment date is the excess of—

(i) The following percentages of the tax shown on the return for the taxable year or, if no return was filed, of the tax for such year, divided by the number of installment dates prescribed for such taxable year:

(A) 80 percent in the case of taxable years beginning after December 31, 1966, of individuals not referred to in section 6073(b) (relating to income from farming or fishing);

(B) 70 percent in the case of taxable years beginning before January 1, 1967, of such individuals; and

(C) 66⅔ percent in the case of individuals referred to in section 6073(b); over

(ii) The amount, if any, of the installment paid on or before the last day prescribed for such payment.

• • • • •

(4) The term "tax" when used in subparagraph (1)(i) of this paragraph shall mean—

(i) The tax imposed by chapter 1 of the Code (other than by section 56 or, for taxable years ending before September 30, 1968, the tax surcharge imposed by section 51), plus

(ii) For taxable years beginning after December 31, 1966, the tax imposed by chapter 2 of the Code, minus

(iii) All credits allowed by part IV, subchapter A of chapter 1, except the credit provided by section 31, relating to tax withheld at source on wages. For the disallowance of certain credits in the case of taxpayers who elect to use the standard deduction or to pay the optional tax imposed by section 3, see section 36.

• • • • •

(c) *Examples.* • • •

Example (1). An individual taxpayer files his return for the calendar year 1972 on April 15, 1973, showing a tax (income and self-employment tax) of $30,000. He had paid a total of $20,000 of estimated tax in four installments of $5,000 on each of the four installment dates prescribed for such year. No other payments were made prior to the date the return was filed. Since the amount of each installment paid by the last date prescribed for payment thereof is less than one-quarter of 80 percent of the tax shown on the return, the addition to the tax is applicable in respect of the underpayment existing as of each installment date and is computed as follows:

(1) Amount of tax shown on return	$30,000
(2) 80 percent of item (1)	$24,000
(3) One-fourth of item (2)	$6,000
(4) Deduct amount paid on each installment date	$5,000
(5) Amount of underpayment for each installment date (item (3) minus item (4))	$1,000
(6) Addition to the tax:	
1st installment—period 4–15–72 to 4–15–73	$60
2nd installment—period 6–15–72 to 4–15–73	$50
3rd installment—period 9–15–72 to 4–15–73	$35
4th installment—period 1–15–73 to 4–15–73	$15
Total	$160

• • • • •

PAR. 13. Section 1.6654–2 is amended to read as follows:

§ 1.6654–2 Exceptions to imposition of the addition to the tax in the case of individuals.

(a) *In general.* The addition to the tax under section 6654 will not be imposed for any underpayment of any installment of estimated tax if, on or before the date prescribe for payment of the installment, the total amount of all payments of estimated tax made equals or exceeds the least of the following amounts—

(1) The amount which would have been required to be paid on or before the date prescribed for payment if the estimated tax were the tax shown on the return for the preceding taxable year, provided that the preceding taxable year was a year of 12 months and a return showing a liability for tax was filed for such year. However, this subparagraph shall not apply with respect to any taxable year which ends on or after September 30, 1968, for which a tax is imposed by section 51 (relating to tax surcharge), in the case of a payment of estimated tax the time prescribed for payment of which is on or after September 15, 1968.

(2) The amount which would have been required to be paid on or before the date prescribed for payment if the estimated tax were an amount equal to a percentage of the tax computed by placing on an annual basis the taxable income for the calendar months in the taxable year ending before the month in which the installment is required to be paid. That percentage is 80 percent in the case of taxable years beginning after December 31, 1966, of individuals not referred to in section 6073(b) (relating to income from farming or fishing), 70 percent in the case of taxable years beginning before January 1, 1967, of such individuals, and 66⅔ percent in the case individuals referred to in section 6073(b). With respect to taxable years beginning after December 31, 1966, the adjusted self-employment income shall be taken into account in determining the amount referred to in this subparagraph if net earnings from self-employment (as defined in section 1402(a)) for the taxable year equal or exceed $400. For purposes of this subparagraph—

(i) Taxable income shall be placed on an annual basis by—

(A) Multiplying by 12 (or the number of months in the taxable year if less than 12) the taxable income (computed without the standard deduction and without the deduction for personal exemptions), or the adjusted gross income if the standard deduction is to be used, for the calendar months in the taxable year ending

V 41 1 57 AUG 12 76 UMI

before the month in which the installment is required to be paid,

(B) Dividing the resulting amount by the number of such calendar months, and

(C) Deducting from such amount the standard deduction, if applicable, and the deduction for personal exemptions (such personal exemptions being determined as of the date prescribed for payment of the installment).

(ii) The term "adjusted self-employment income" means—

(A) The net earnings from self-employment (as defined in section 1402(a)) for the calendar months in the taxable year ending before the month in which the installment is required to be paid, computed as if such months constituted the taxable year, but not more than

(B) The excess of—

(1) For taxable years beginning after 1966, $6,6000,

(2) For taxable years beginning after 1971, $9,000,

(3) For taxable years beginning after 1972, $10,800,

(4) For taxable years beginning after 1973, $13,200 and

(5) For taxable years beginning after 1974, an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for the calendar year in which the taxable year begins, over the amount of the wages (within the meaning of section 1402(b)) for such calendar months placed on an annual basis. For this purpose, wages are annualized in a manner consistent with subdivision (i) (A) and (B) of this subparagraph, that is, by multiplying by 12 (or the number of months in the taxable year in the case of a taxable year of less than 12 months) the wages for such calendar months and dividing the resulting amount by the number of such months.

(3) An amount equal to 90 percent of the tax computed, at the rates applicable to the taxable year, on the basis of the actual taxable income for the calendar months in the taxable year ending before the month in which the installment is required to be paid, as if such months constituted the entire taxable year. For taxable years beginning after December 31, 1966, such computation shall include the tax imposed by chapter 2 on the actual self-employment income for such months. For purposes of this subparagraph, the term "actual self-employment income" means—

(i) The net earnings from self-employment (as defined in section 1402(a)) for such calendar months, computed as if such months constituted the taxable year, but not more than

(ii) The excess of—

(A) For taxable years beginning after 1966, $6,600,

(B) For taxable years beginning after 1971, $9,000,

(C) For taxable years beginning after 1972, $10,800,

(D) For taxable years beginning after 1973, $13,200, and

(E) For taxable years beginning after 1974, an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for the calendar year in which the taxable year begins, over the amount of wages (within the meaning of section 1402 (b)) for such months.

(4) The amount which would have been required to be paid on or before the date prescribed for payment if the estimated tax were an amount equal to a tax determined on the basis of the tax rates and the taxpayer's status with respect to personal exemptions under section 151 for the taxable year, but otherwise on the basis of the facts shown on the return for the preceding taxable year and the law applicable to such year, in the case of an individual required to file a return for such preceding taxable year.

In the case of a taxpayer whose taxable year consists of 52 or 53 weeks in accordance with section 441(f), the rules prescribed by paragraph (b) of § 1.441–2 shall be applicable in determining, for purposes of subparagraph (1) of this paragraph, whether a taxable year was a year of 12 months and, for purposes of subparagraphs (2) and (3) of this paragraph, the number of calendar months in a taxable year preceding the date prescribed for payment of an installment of estimated tax. For the rules to be applied in determining taxable income for any period described in subparagraphs (2) and (3) of this paragraph in the case of a taxpayer who employs accounting periods (*e.g.*, thirteen 4-week periods or four 13-week periods) none of which terminates with the end of the applicable period described in subparagraph (2) or (3)) of this paragraph, see paragraph (a)(5) of § 1.6655–2.

(b) *Meaning of terms.* As used in this section and § 1.6654–3—

(1) The term "tax" means—

(i) The tax imposed by chapter 1 of the Code (other than by section 56), plus

(ii) For taxable years beginning after December 31, 1966, the tax imposed by chapter 2 of the Code, minus

(iii) The credits against tax allowed by part IV, subchapter A, chapter 1 of the Code, other than the credit against tax provided by section 31 (relating to tax withheld on wages), and without reduction for any payments of estimated tax.

(2) The credits against tax allowed by part IV, subchapter A, chapter 1 of the Code, are—

(i) In the case of the exception described in paragraph (a)(1) of this section, the credits shown on the return for the preceding taxable year,

(ii) In the case of the exceptions described in paragraph (a)(2) and (3) of this section, the credits computed under the law and rates applicable to the current taxable year, and

(iii) In the case of the exception described in paragraph (a)(4) of this section, the credits shown on the return for the preceding taxable year, except that if the amount of any such credit would be affected by any change in rates or status with respect to personal exemptions, the credits shall be determined by reference to the rates and status applicable to the current taxable year.

A change in rate may be either a change in the rate of tax, such as a change in the rate of tax imposed by section 1 or section 1401, or a change in a percentage affecting the computation of a credit, such as a change in the rate of withholding under chapter 3 of the Code or a change in the percentage of a qualified investment which is specified in section 46 for use in determining the amount of the investment credit allowed by section 38.

(3) The term "return for the preceding taxable year" means the income tax return for such year which is required by section 6012(a)(1) and, in the case of taxable years beginning after December 31, 1966, the self-employment tax return for such year which is required by section 6017.

(c) *Examples.* The following examples illustrate the application of the exceptions to the imposition of the addition to the tax for an underpayment of estimated tax, in the case of an individual whose taxable year is the calendar year:

Example (1). A, a married man with one child and a dependent parent, files a joint return with his spouse, B, for 1955 on April 15, 1956, showing taxable income of $44,000 and a tax of $16,760. A and B had filed a joint declaration of estimated tax on April 15, 1955, showing an estimated tax of $10,000 which was paid in four equal installments of $2,500 each on April 15, June 15, and September 15, 1955, and January 15, 1956. The balance of $6,760 was paid with the return. A and B have an underpayment of estimated tax of $433 (¼ of 70 percent of $16,760, less $2,500) for each installment date. The 1954 calendar year return of A and B showed a liability of $10,000. Since the total amount of estimated tax paid by each installment date equalled the amount that would have been required to be paid on or before each of such dates if the estimated tax were the tax shown on the return for the preceding year, the exception described in paragraph (a)(1) of this section applies and no addition to the tax will be imposed.

Example (2). Assume the same facts as in example (1), except that the joint return of A and B for 1954 showed taxable income of $32,000 and a tax liability of $10,400. Assume further that only two personal exemptions under section 151 appeared on the 1954 return. The exception described in paragraph (a)(1) of this section would not apply. However, A and B are entitled to four exemptions under section 151 for 1955. Taxable income for 1954 based on four exemptions, but otherwise on the basis of the facts shown on the 1954 return, would be $30,800. The tax on such amount in the case of a joint return would be $9,836. Since the total amount of estimated tax paid by each installment date exceeds the amount which would have been required to be paid on or before each of such dates if the estimated tax were $9,836, the exception described in paragraph (a)(4) of this section applies and no addition to the tax will be imposed.

Example (3). C, who is self-employed (other than as a farmer or fisherman), has annualized taxable income of $6,900 for the period January 1, 1967, through August 31, 1967, the income tax on which is $1,171. For the same period his net earnings from self-employment are $5,000 and his wages are $2,000. The estimated tax payments made by C for 1967 on or before September 15, 1967, total $1,200. For the purposes of the exception described in paragraph (a)(2) of this section, the adjusted self-employment income is $3,600, computed as follows:

(1) Net earnings from self-employment	$5,000
(2) $6,600 minus annualized wages ($6,600−3,000 ($2,000×12÷8))	$3,600
(3) Lesser of (1) or (2)	$3,600

The tax on C's adjusted self-employment income would be $230.40 ($3,600×6.4 percent). Since the total amount of estimated tax paid on or before September 15, 1967, exceeds $1,121.12, that is, 80 percent of $1,401.40 ($1,171+230.40), the exception described in paragraph (a)(2) of this section applies and no addition to tax will be imposed.

Example (4). D, who is self-employed (other than as a farmer or fisherman), has actual taxable income of $3,800 for the period January 1, 1967, through August 31, 1967, the income tax on which is $586. For the same period his net earnings from self-employment are $5,000 and his wages are $2,000. The estimated tax payments made by D for 1967 on or before September 15, 1967, total $840. For the purposes of the exception described in paragraph (a)(3) of this section, the actual self-employment income for this period is $4,600, computed as follows:

(1) Net earnings from self-employment	$5,000
(2) $6,600 minus wages ($6,600−2,000)	$4,600
(3) Lesser of (1) or (2)	$4,600

The tax on D's actual self-employment income would be $294.40 ($4,600×6.4 percent). Since the total amount of estimated tax paid by September 15, 1967, exceeds $792.36, that is, 90 percent of $880.40 ($586+294.40), the exception described in paragraph (a)(3) of this section applies and no addition to tax will be imposed.

Example (5). E and F, his spouse, filed a joint return for the calendar year 1967 showing a tax liability of $10,000. The liability, attributable primarily to income received during the last quarter of the year, included both income and self-employment tax. Their aggregate payments of estimated tax on or before September 15, 1967, total $1,350, representing three installments of $450 paid on each of the first three installment dates prescribed for the taxable year. Since each installment paid, $450, was less than $2,000 (¼ of 80 percent of $10,000), there was an underpayment on each of the installment dates. Assume that the exceptions described in paragraph (a) (1) and (4) of this section do not apply. Actual taxable income for the three months ending March 31, 1967, was $2,000 and for the five months ending May 31, 1967, was $4,500. Actual self-employment income, for the same periods, was $2,000 and $4,000, respectively. Since the amounts paid by the April 15 and June 15 installment dates, $450 and $900, respectively, exceed $376.20 and $873.90, respectively (90 percent of the income tax on the actual taxable income of $2,000 and $4,500 respectively, determined on the basis of a joint return, and the self-employment tax on the actual self-employment income of $2,000 and $4,000, respectively), the exception described in paragraph (a)(3) of this section applies and no addition to the tax will be imposed for the underpayments on the April 15 and June 15 installment dates. For the eight months ending August 31, 1967, actual taxable income, assuming E and F did not elect to use the standard deduction, was $7,500; net earnings from self-employment were $6,000; and wages were $2,700. Since the total amount paid by the September 15 installment date, $1,350, was less than $1,381.14 (90 percent of the income tax on the actual taxable income of $7,500 determined on the basis of a joint return and the self-employment tax on actual self-employment income of $3,900 ($6,600–2,700)), the exception described in paragraph (a)(3) of this section does not apply to the September 15 installment. Furthermore, the exception described in paragraph (a)(2) of this section does not apply, as illustrated by the following computation:

(1) Income tax:	
Taxable income for the period ending August 31, 1967 (without deduction for personal exemptions) on an annual basis ($8,700×12÷8)	$13,050.00
Deduction for two personal exemptions	1,200.00
	$11,850.00
Tax on $11,850 (on the basis of a joint return)	$2,227.00
(2) Self-employment tax:	
Net earnings from self-employment	$6,000.00
Adjusted self-employment income ($6,600−4,050 annualized wages ($2,700×12÷8))	$2,550.00
Tax on adjusted self-employment income ($2,550×6.4 percent)	$163.20
(3) Total tax ($2,227.00+163.20)	$2,390.20
(4) ¾ of 80 percent of $2,390.20	$1,434.12
Amount paid by Sept. 15, 1967	$1,350.00

An addition to the tax will thus be imposed for the underpayment of $1,550 ($2,000−450) on the September 15 installment.

Example (6). Assume the same facts as in example (5) and assume further that adjusted gross income for the eight months ending August 31, 1967, was $9,200 and the amount of deductions (other than the deduction for personal exemptions) not allowable in determining adjusted gross income aggregated only $500. If E and F elect, they may use the standard deduction in computing the tax for purposes of the exceptions described in paragraph (a) (2) and (3) of this section. Taxable income for purposes of the exception described in paragraph (a) (3) of this section would be reduced to $7,080 ($9,200 less $1,200 for two personal exemptions and $920 for the standard deduction). The income tax thereon is $1,205.20; income tax and self-employment tax-total $1,454.80 ($1,205.20+249.60 ($3,900×6.4 percent)). Since the amount paid by the September 15 installment date, $1,350, exceeds $1,309.32 (90 percent of $1,454.80), the exception described in paragraph (a)(3) of this section applies. However, the exception described in paragraph (a)(2) of this section does not apply, as illustrated by the following computation:

Adjusted gross income for the period ending August 31, 1967	$9,200.00
Adjusted gross income annualized ($9,200×12÷8)	$13,800.00
Taxable income annualized ($13,800 minus $1,200 for two personal exemptions and $1,000 for the standard deduction)	$11,600.00
Income tax on $11,600 (on basis of a joint return)	$2,172.00
Self-employment tax on adjusted self-employment income ($2,550×6.4 percent)	$163.20
Total tax ($2,172.00+163.20)	$2,335.20
¾ of 80 percent of $2,335.20	$1,401.12
Amount paid by Sept. 15, 1967	$1,350.00

Example (7). G was a married individual, 73 years of age, who filed a joint return with his wife, H, for the calendar year 1956. H, who was 70 years of age, had no income during the year. G had taxable income in the amount of $7,000 for the eight-month period ending on August 31, 1956, which included $2,000 of dividend income (after excluding $50 under section 116) and $900 of rental income. The $7,000 figure also reflected a deduction of $2,400 for personal exemptions ($600×4), since G and H are both over 65 years of age. The application of the exception described in paragraph (a) (2) of this section to an underpayment of estimated tax on the September 15 installment date may be illustrated by the following computation:

Taxable income for the period ending August 31, 1956 (without deduction for personal exemptions) on an annual basis ($9,400×12÷8)	$14,100.00
Deduction for personal exemptions	$2,400.00
Taxable income on an annual basis	$11,700.00
Tax (on the basis of a joint return)	$2,642.00
Dividends received for 8-month period	$2,050.00
Less: Amount excluded from gross income under section 116	$50.00
Dividends included in gross income	$2,000.00
Dividend income annualized ($2,000×12÷8)	$3,000.00
Dividends received credit under section 34 (4 percent of $3,000)	$120.00
Tax less dividends received credit	$2,522.00
Retirement income (as defined in section 37(c)) includes:	
Dividend income (to extent includnded in gross income)	$2,000.00
Rental income	$900.00
Total retirement income	$2,900.00
Limit on amount of retirement income under section 37(d)	$1,200.00
Retirement income credit under section 37 (20 percent of $1,200)	$240.00
Tax less credits under section 34 and section 37	$2,282.00
Amount determined under the exception described in paragraph (a)(2) of this section (¾ of 70 percent of $2,282)	$1,198.05

(d) *Determination of taxable income for installment periods*—(1) *In general.* (i) In determining the applicability of the exceptions described in paragraph (a) (2) and (3) of this section, there must be an accurate determination of the amount of income and deductions for the calendar months in the taxable year preceding the installment date as of which the determination is made, that is, for the period terminating with the last day of the third, fifth, or eighth month of the taxable year. For example, a taxpayer distributes year-end bonuses to his employees but does not determine the amount of the bonuses until the last month of the taxable year. He may not deduct any portion of such year-end bonuses in determining his taxable income for any installment period other than the final installment period for the taxable year, since deductions are not allowable until paid or accrued, depending on the taxpayer's method of accounting.

V 41 157 AUG 12 76 UMI

(ii) If a taxpayer on an accrual method of accounting wishes to use either of the exceptions described in paragraph (a) (2) and (3) of this section, he must establish the amount of income and deductions for each applicable period. If his income is derived from a business in which the production, purchase, or sale of merchandise is an income-producing factor requiring the use of inventories, he will be unable to determine accurately the amount of his taxable income for the applicable period unless he can establish, with reasonable accuracy, his cost of goods sold for the applicable installment period. The cost of goods sold for such period shall be considered, unless a more exact determination is available, as such part of the cost of goods sold during the entire taxable year as the gross receipts from sales for such installment period is of gross receipts from sales for the entire taxable year.

(2) *Members of partnerships.* The provisions of this subparagraph shall apply in determining the applicability of the exceptions described in paragraph (a) (2) and (3) of this section to an underpayment of estimated tax by a taxpayer who is a member of a partnership.

(i) For purposes of determining taxable income, there shall be taken into account—

(A) The partner's distributive share of partnership items set forth under section 702,

(B) The amount of any guaranteed payments under section 707(c), and

(C) Gains or losses on partnership distributions which are treated as gains or losses on sales of property.

(ii) For purposes of determining net earnings from self-employment (for taxable years beginning after December 31, 1966) there shall be taken into account—

(A) The partner's distributive share of income or loss, described in section 702 (a)(9), subject to the special rules set forth in section 1402(a) and §§ 1.1402 (a)–1 to 1.1402(a)–16, inclusive, and

(B) The amount of any guaranteed payments under section 707(c), except for payments received from a partnership not engaged in a trade or business within the meaning of section 1402(c) and § 1.1402(c)–1.

In determining a partner's taxable income and, for taxable years beginning after December 31, 1966, net earnings from self-employment, for the months in his taxable year which precede the month in which the installment date falls, the partner shall take into account items set forth in sections 702 and 1402 (a) for any partnership taxable year ending with or within his taxable year to the extent that such items are attributable to months in such partnership taxable year which precede the month in which the installment date falls. For special rules used in computing a partner's net earnings from self-employment in the case of the termination of his taxable year as a result of death, see section 1402(f) and § 1.1402(f)–1. In addition, a partner shall include in his taxable income and, for taxable years beginning after December 31, 1966, net earnings from self-employment, for the months in his taxable year which precede the month in which the installment date falls guaranteed payments from the partnership to the extent that such guaranteed payments are includible in his taxable income for such months. See section 706 (a), section 707(c), paragraph (c) of § 1.707–1 and section 1402(a).

(iii) The provisions of subdivision (i) (A) and (B) and subdivision (ii) of this subparagraph may be illustrated by the following examples:

Example (1). A, whose taxable year is the calendar year, is a member of a partnership whose taxable year ends on January 31. A must take into account, in determining his taxable income for the installment due on April 15, 1973, all of his distributive share of partnership items described in section 702 and the amount of any guaranteed payments made to him which were deductible by the partnership in the partnership taxable year beginning on February 1, 1972, and ending on January 31, 1973. A must take into account, in determining his net earnings from self-employment, his distributive share of partnership income or loss described in section 702(a)(9), subject to the special rules set forth in section 1402(a) and §§ 1.1402(a)–1 to 1.1402(a)–16, inclusive.

Example (2). Assume that the taxable year of the partnership of which A, a calendar year taxpayer, is a member ends on June 30. A must take into account in the determination of his taxable income and net earnings from self-employment for the installment due on April 15, 1973, his distributive share of partnership items for the period July 1, 1972, through March 31, 1973; for the installment due on June 15, 1973, he must take into account such amounts for the period July 1, 1972, through May 31, 1973; and for the installment due on September 15, 1973, he must take into account such amounts for the entire partnership taxable year of July 1, 1972, through June 30, 1973 (the date on which the partnership taxable year ends).

(3) *Beneficiaries of estates and trusts.* In determining the applicability of the exceptions described in paragraph (a) (2) and (3) of this section as of any installment date, the beneficiary of an estate or trust must take into account his distributable share of income from the estate or trust for the applicable period (whether or not actually distributed) if the trust or estate is required to distribute income to him currently. If the estate or trust is not required to distribute income currently, only the amounts actually distributed to the beneficiary during such period must be taken into account. If the taxable year of the beneficiary and the taxable year of the estate or trust are different, there shall be taken into account the beneficiary's distributable share of income, or the amount actually distributed to him as the case may be, during the months in the taxable year of the estate or trust ending within the taxable year of the beneficiary which precede the month in which the installment date falls. See subparagraph (2) of this paragraph for examples of a similar rule which is applied when a partner and the partnership of which he is a member have different taxable years.

(e) *Special rule in case of change from joint return or separate return for the preceding taxable year*—(1) *Joint return to separate returns.* In determining the applicability of the exceptions described in paragraph (a) (1) and (4) of this section to an underpayment of estimated tax, a taxpayer filing a separate return who filed a joint return for the preceding taxable year shall be subject to the following rule: The tax—

(i) Shown on the return for the preceding taxable year, or

(ii) Based on the tax rates and personal exemptions for the current taxable year but otherwise determined on the basis of the facts shown on the return for the preceding taxable year, and the law applicable to such year,

shall be that portion of the tax which bears the same ratio to the whole of the tax as the amount of the tax for which the taxpayer would have been liable bears to the sum of the taxes for which the taxpayer and his spouse would have been liable had each spouse filed a separate return for the preceding taxable year. For rules with respect to the allocation of joint payments of estimated tax, see section 6015(b) and § 1.6015(b)–1(b).

(2) *Examples.* The rule in paragraph (1) of this paragraph may be illustrated by the following examples:

Example (1). H and W filed a joint return for the calendar year 1955 showing taxable income of $20,000 and a tax of $5,280. Of the $20,000 taxable income, $18,000 was attributable to H, and $2,000 was attributable to W. H and W filed separate returns for 1956. The tax shown on the return for the preceding taxable year, for purposes of determining the applicability of the exception described in paragraph (a)(1) of this section to an underpayment of estimated tax by H for 1956, is determined as follows:

Taxable income of H for 1955	$18,000
Tax on $18,000 (on basis of separate return)	$6,200
Taxable income of W for 1955	$2,000
Tax on $2,000 (on basis of separate return)	$400
Aggregate tax of H and W (on basis of separate returns)	$6,600
Portion of 1955 tax shown on joint return attributable to H (6200/6600×5280)	$4,960

Example (2). Assume the same facts as in example (1) and that H and W file a joint declaration of estimated tax for 1956 and pay estimated tax in amounts determined on the basis of their eligibility for three rather than two exemptions for 1956. H and W ultimately file separate income tax returns for 1956. Assume further that the exception described in paragraph (a)(1) of this section does not apply. The tax based on the tax rates and personal exemptions for 1956 but otherwise determined on the basis of the facts shown on the return for 1955 and the law applicable to 1955, for purposes of determining the applicability of the exception described in paragraph (a)(4) of this section to an underpayment of estimated tax by H for 1956, is determined as follows:

Taxable income of H and W for 1955 based on additional personal exemption for 1956	$19,400
Tax on 1955 income based on joint return rate for 1956	$5,076
Portion of 1955 tax attributable to H (computed as in example (1) but allowing benefit of additional exemption to H)	5900/6300
Portion of tax attributable to H based on tax rates and personal exemptions for 1956 but otherwise on facts on 1955 return ($5900/6300×$5,076)	$4,754

Example (3). Assume that H and W had the same taxable income in 1972 as in 1955, and that they filed a joint return for 1972 and separate returns for 1973. Assume further that H's taxable income for 1972 included net earnings from self-employment in excess of the $9,000 maximum base for the self-employment tax for 1972, and that the joint return filed by H and W for 1972 showed tax under chapter 1 (other than section 56) and tax under chapter 2 totaling $5,055. The tax shown on the return for 1972, for purposes of determining the applicability of the exception described in paragraph (a)(1) of this section to an underpayment of estimated tax by H for 1973, is determined as follows:

Taxable income of H for 1972	$18,000
Chapter 1 tax (other than section 56 tax) on $18,000 (on basis of separate return)	$5,170
Self-employment income of H for 1972	$9,000
Chapter 2 tax on $9,000	$675
Total of such taxes	$5,845
Taxable income of W for 1972	$2,000
Chapter 1 tax (other than section 56 tax) on $2,000 (on basis of separate return)	$310
Aggregate tax of H and W (on basis of separate returns)	$6,155
Portion of 1972 tax shown on joint return attributable to H (5845/6155×$5,055)	$4,800.40

(3) *Separate return to joint return.* In the case of a taxpayer who files a joint return for the taxable year with respect to which there is an underpayment of estimated tax and who filed a separate return for the preceding taxable year—

(i) The tax shown on the return for the preceding taxable year, for purposes of determining the applicability of the exception described in paragraph (a)(1) of this section, shall be the sum of both the tax shown on the return of the taxpayer and the tax shown on the return of the taxpayer's spouse for such preceding year, and

(ii) The facts shown on both the taxpayer's return and the return of his spouse for the preceding taxable year shall be taken into account for purposes of determining the applicability of the exception described in paragraph (a)(4) of this section.

(4) *Example.* The rules described in subparagraph (3) of this paragraph may be illustrated by the following example:

Example. H and W filed separate income tax returns for the calendar year 1954 showing tax liabilities of $2,640 and $350, respectively. In 1955 they married and participated in the filing of a joint return for that year. Thus, for the purpose of determining the applicability of the exceptions described in paragraph (a)(1) and (4) of this section to an underpayment of estimated tax for the year 1955, the tax shown on the return for the preceding taxable year is $2,990 ($2,640 plus $350).

PAR. 14. Section 1.6654–3 is amended by revising paragraph (b) to read as follows:

§ 1.6654–3 Short taxable years of individuals.

* * * * *

(b) *Rules as to application of section 6654(d).*

(1) In any case in which the taxable year for which an underpayment of estimated tax exists is a short taxable year due to a change in annual accounting periods, in determining the tax—

(i) Shown on the return for the preceding taxable year (for purposes of section 6654(d)(1)), or

(ii) Based on the personal exemptions and rates for the current taxable year but otherwise on the basis of the facts shown on the return for the preceding taxable year, and the law applicable to such year (for purposes of section 6654(d)(4)),

the tax will be reduced by multiplying it by the number of months in the short taxable year and dividing the resulting amount by 12.

(2) If the taxable year for which an underpayment of estimated tax exists is a short taxable year due to a change in annual accounting periods, in annualizing the taxable income for the months in the taxable year preceding an installment date, for purposes of section 6654(d)(2), the personal exemptions allowed as deductions under section 151 shall be reduced to the same extent that they are reduced under section 443(c) in computing the tax for a short taxable year.

(3) If "the preceding taxable year" referred to in section 6654(d)(4) was a short taxable year, for purposes of determining the applicability of the exception described in section 6654(d)(4), the tax, computed on the basis of the facts shown on the return for the preceding year, shall be the tax computed on the annual basis in the manner described in section 443(b)(1) (prior to its reduction in the manner described in the last sentence thereof). If the tax rates or the taxpayer's status with respect to personal exemptions for the taxable year with respect to which the underpayment occurs differs from such rates or status applicabe to the preceding taxable year, the tax determined in accordance with this subparagraph shall be recomputed to reflect the rates and status applicable to the year with respect to which the underpayment occurs.

REGULATIONS ON PROCEDURE AND ADMINISTRATION

PAR. 15. Section 301.6015–1 is amended to read as follows:

§ 301.6015–1 Declaration of estimated income tax by individuals.

For provisions relating to requirements of declarations of estimated income tax by individuals, see § 1.6015 of this chapter (Income Tax Regulations).

PAR. 16. Section 301.6211 is amended by revising subsection (b)(1) of section 6211 and by adding a historical note. The amended and added provisions read as follows:

§ 301.6211 Statutory provisions; definition of a deficiency.

Sec. 6211. *Definition of a deficiency.* * * *

(b) *Rules for application of subsection (a).* For purposes of this section—

(1) The tax imposed by subtitle A and the tax shown on the return shall both be determined without regard to payments on account of estimated tax, without regard to the credit under section 31, and without regard to so much of the credit under section 32 as exceeds 2 percent of the interest on obligations described in section 1451.

* * * * *

[Sec. 6211 as amended by sec. 102(b)(4), Tax Adjustment Act 1966 (80 Stat 64)]

PAR. 17. Section 301.6654 is amended by revising subsections (a), (b), (d) and (f) of section 6654 and by revising the historical note. The amended provisions read as follows:

§ 301.6654 Statutory provisions; failure by individual to pay estimated income tax.

Sec. 6654. *Failure by individual to pay estimated income tax*—(a) *Addition to the tax.* In the case of any underpayment of estimated tax by an individual, except as provided in subsection (d), there shall be added to the tax under chapter 1 and the tax under chapter 2 for the taxable year an amount determined at an annual rate established under section 6621 upon the amount of the underpayment (determined under subsection (b)) for the period of the underpayment (determined under subsection (c)).

(b) *Amount of underpayment.* For purposes of subsection (a), the amount of the underpayment shall be the excess of—

(1) The amount of the installment which would be required to be paid if the estimated tax were equal to 80 percent (66⅔ percent in the case of individuals referred to in section 6073 (b), relating to income from farming or fishing) of the tax shown on the return for the taxable year or, if no return was filed, 80 percent (66⅔ percent in the case of individuals referred to in section 6073 (b), relating to income from farming or fishing) of the tax for such year, over

(2) The amount, if any, of the installment paid on or before the last date prescribed for such payment.

* * * * *

(d) *Exception.* Notwithstanding the provisions of the preceding subsections, the addition to the tax with respect to any underpayment of any installment shall not be imposed if the total amount of all payments of estimated tax made on or before the last date prescribed for the payment of such installment equals or exceeds the amount which would have been required to be paid on or before such date if the estimated tax were whichever of the following is the least—

(1) The tax shown on the return of the individual for the preceding taxable year, if a return showing a liability for tax was filed by the individual for the preceding taxable year and such preceding year was a taxable year of 12 months.

(2) An amount equal to 80 percent (66⅔ percent in the case of individuals referred to in section 6073(b), relating to income from farming or fishing) of the tax for the taxable year computed by placing on an annualized

V 41 1157 AUG 12 76 UMI

basis the taxable income for the months in the taxable year ending before the month in which the installment is required to be paid and by taking into account the adjusted self-employment income (if the net earnings from self-employment (as defined in section 1402(a)) for the taxable year equal or exceed $400). For purposes of this paragraph—

(A) The taxable income shall be placed on an annualized basis by—

(i) Multiplying by 12 (or, in the case of a taxable year of less than 12 months, the number of months in the taxable year) the taxable income (computed without deduction of personal exemptions) for the months in the taxable year ending before the month in which the installment is required to be paid,

(ii) Dividing the resulting amount by the number of months in the taxable year ending before the month in which such installment date falls, and

(iii) Deducting from such amount the deductions for personal exemptions allowable for the taxable year (such personal exemptions being determined as of the last date prescribed for payment of the installment).

(B) The term "adjusted self-employment income" means—

(i) The net earnings from self-employment (as defined in section 1402(a)) for the months in the taxable year ending before the month in which the installment is required to be paid, but not more than

(ii) The excess of (I) an amount equal to the contribution and benefit base (as determined under section 230 of the Social Security Act) which is effective for the calendar year in which the taxable year begins, over (II) the amount determined by placing the wages (within the meaning of section 1402(b)) for the months in the taxable year ending before the month in which the installment is required to be paid on an annualized basis in a manner consistent with clauses (i) and (ii) of subparagraph (A).

(3) An amount equal to 90 percent of the tax computed, at the rates applicable to the taxable year, on the basis of the actual taxable income and the actual self-employment income for the months in the taxable year ending before the month in which the installment is required to be paid as if such months constituted the taxable year.

(4) An amount equal to the tax computed, at the rates applicable to the taxable year, on the basis of the taxpayer's status with respect to personal exemptions under section 151 for the taxable year, but otherwise on the basis of the facts shown on his return for, and the law applicable to, the preceding taxable year.

• • • • • •

(f) *Tax computed after application of credits against tax.* For purposes of subsections (b) and (d), the term "tax" means—

(1) The tax imposed by this chapter 1 (other than by section 56), plus

(2) The tax imposed by chapter 2, minus

(3) The credits against tax allowed by part IV of subchapter A of chapter 1, other than the credit against tax provided by section 31 (relating to tax withheld on wages).

• • • • • •

[Sec. 6654 as amended by sec. 1 (a) (4), Act of Sept. 25, 1962 (Pub. L. 87-682, 76 Stat. 575); secs. 102 (b) (1), (2), (3) and 103 (a), Tax Adjustment Act 1966 (80 Stat. 62, 64); sec. 301 (b) (13), Tax Reform Act 1969 (83 Stat. 586); sec. 203 (b) (7), Act of March 17, 1971 (Pub. L. 92-5, 85 Stat. 11); sec. 203 (b) (7), Act of July 1, 1972 (Pub. L. 92-336, 86 Stat. 420); sec. 203 (b) (7) and (d), Act of July 9, 1973 (Pub. L. 93-66, 87 Stat. 153); sec. 5(b) (7), Act of Dec. 31, 1973 (Pub. L. 93-233, 87 Stat. 954); sec. 7 (c), Act of Jan. 3, 1975 (Pub. L. 93-625, 88 Stat. 2115)]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 76-034]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Housatonic River, Connecticut

This amendment changes the regulations for the CONRAIL (Penn Central) railroad drawbridge across the Housatonic River, mile 3.9, to permit more restrictive operations. Generally, the draw would open on signal from 5 a.m. to 7 a.m., 9 a.m. to 4 p.m., and 5:45 p.m. to 9 p.m. From 9 p.m. to 5 a.m. the draw would open on signal if notice is given by 4 p.m. This amendment was circulated as a public notice dated March 17, 1976, by the Commander, Third Coast Guard District, and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 76-034) on March 15, 1976, (41 FR 10914). Nine responses were received. Eight favored the proposed change while one objected to the proposal to limit openings to one in any sixty-minute period from 5:30 a.m. to 7 a.m. and from 5:45 p.m. to 8:15 p.m. A radiotelephone has been installed on this bridge to coordinate passages of more than one vessel during an opening for these periods; and it is felt that this would eliminate the need for additional openings. For this reason this objection is not considered valid at this time.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.125 to read as follows:

§ 117.125 Housatonic River, Conn.; bridges.

(a) *US-1 bridge, mile 3.5* (1) The draw shall open on signal, except that from 7 a.m. to 9 a.m., Monday through Friday, and from 4 p.m. to 5:45 p.m., daily, the draw need not open for the passage of vessels.

(2) *Signals.* (i) The opening signal from a vessel is one long blast followed by one short blast.

(ii) The acknowledging signal from the draw tender is one long blast followed by one short blast when the draw will open; or four short blasts when the draw will not open. A red flag by day or a red light at night may also be used to indicate that the draw will not open.

(b) *Penn Central Railroad Bridge, mile 3.9.* (1) The draw shall open on signal from 5 a.m. to 9 p.m. except that—

(i) Monday through Friday, excluding holidays or an emergency, the draw need not open from 7 a.m. to 9 a.m., and from 4 p.m. to 5:45 p.m.; and

(ii) the draw need not open more than once in any 60-minute period from 5:30 a.m. to 7 a.m.; and from 5:45 p.m. to 8:15 p.m., except on Saturdays, Sundays, and federal holidays.

(2) From 9 p.m. to 5 a.m., the draw shall open on signal if the vessel operator gives notice to the chief dispatcher of the railroad before 4 p.m. on the day of the intended passage.

(3) A delay of up to 20 minutes in the opening of the draw may be expected if a train is approaching the bridge so closely that the train may not be safely stopped.

(4) The signals for the railroad bridge are as follows:

(i) The opening signal from a vessel is one long blast followed by two short blasts.

(ii) The acknowledging signal from the draw tender is one long blast when the draw will open, and four short blasts when the draw will not open. A red flag by day or a red light at night may be used to indicate that the draw will not open.

(c) The owners of the bridges shall post notices on both the upstream and downstream side of each bridge setting forth the requirements in this section for each bridge.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4).)

Effective date: This revision shall become effective on September 13, 1976.

Dated: August 6, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.76-23421 Filed 8-11-76;8:45 am]

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 207—NAVIGATION REGULATIONS

Black Rock Canal and Lock, New York

On 28 May 1976 there was published in the FEDERAL REGISTER (Vol. 41, No. 105, page 21786) a notice of proposed rulemaking to amend 33 CFR 207.590 which regulates the use, administration and navigation of the Black Rock Lock and Dam, Buffalo, New York. The proposed revision reflects current operating procedures for the lock with regard to a change in radio equipment for ship-shore communication and lockage of pleasure craft. Interested parties were given the opportunity to submit comments or objections on or before 28 June 1976.

No comments have been received and accordingly, the proposed amendment is hereby established without change and is set forth below effective August 12, 1976.

Dated: July 14, 1976.

Approved:

VICTOR V. VEYSEY,
Assistant Secretary of the Army (Civil Works).

Section 207.590 is amended to read as follows:

§ 207.590 Black Rock Canal and Lock at Buffalo, N.Y.; use, administration and navigation.

• • • • • •

(l) Radio Control of vessel movement in Black Rock Canal

(1) • • •

(2) • • •

(3) The Black Rock Lock radio communication equipment operates on VHF(FM) frequencies as follows: VHF—156.8 Mcs—Channel 16—Safety and Calling, VHF—156.7 Mcs—Channel 14—Working; VHF—156.6 Mcs—Channel 12—Working. A listening watch is maintained on VHF Channel 16.

(4) • • •

(i) Vessels desiring to enter the Black Rock Canal from either the Buffalo Outer Harbor or the Buffalo River shall call the Black Rock Lock on VHF Channel 16 or by land telephone approximately 15 minutes before the estimated time of arrival at Buffalo Harbor Traffic Lighted Bell Buoy 1 located at latitude N. 42°50.1' and longitude W. 78°55.4'. Information to be furnished the Black Rock Lock Operator should include the name of the vessel, position, destination, length, draft (forward and aft) and the type of cargo. A second call shall be made to the lock when the vessel is abreast of the Buffalo Harbor Light on the southerly end of the detached West Breakwater. Information furnished the vessel by the Lock Operator will assure the vessel operator of the proper time to enter the Black Rock Canal with a view to safety and minimum delay.

(ii) Vessels desiring to enter the Black Rock Canal from either the Buffalo Outer Harbor or the Buffalo River shall call the Black Rock Lock on VHF Channel 16 or by land telephone to 876-5454 immediately before departing a dock and again when abreast of the North Breakwater South End Light on the southerly end of the North Breakwater.

(iii) In any radio communication from a vessel to the Black Rock Lock, the VHF(FM) frequencies will be utilized.

• • • • • •

(m) Black Rock Lock: All vessels and boats desiring to use the lock shall signal by two long and two short whistle blasts.

(1) • • •

(2) • • •

(3) Commercial vessels will receive preference in passage through the locks. Small vessels such as row, sail, and motor boats, bent on pleasure only, will be passed through the lock in company with commercial vessels when small vessels can be safely accommodated or in the absence of commercial vessels may be passed through the lock individually or together in one lockage on the hour if northbound, and on the half hour if southbound. However, commercial vessels will receive preference which could delay the passage of pleasure craft. Pleasure craft will not be permitted to pass through the lock with vessels carrying inflammable cargo. Vessels and other large boats when in the lock shall fasten one head line and one spring line to the snubbing posts on the lock walls, and the lines shall not be cast off until the signal is given by the lockmaster for the boats to leave the lock.

[FR Doc.76-23452 Filed 8-11-76;8:45 am]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

[Public Land Order 5598; I-017301]

IDAHO

Powersite Restoration No. 653; Partial Revocation of Powersite Reserves Nos. 207, 214, 259, and 461

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, 36 Stat. 847; 43 U.S.C. 141 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and the determination of the Federal Power Commission in DA-599-Idaho issued July 30, 1971, it is ordered as follows:

1. The Executive Orders of October 14 and 19, 1911, April 16, 1912, and October 27, 1914, creating Powersite Reserves numbered 207, 214, 259, and 461, respectively, are hereby revoked so far as they affect the following described lands:

BOISE MERIDIAN

POWERSITE RESERVE NO. 207

T. 12 N., R. 3 E.,
Sec. 35, lot 8.
T. 13 N., R. 4 E.,
Sec. 6, lot 13;
Sec. 8, lots 3 and 6;
Sec. 17, island (unsurveyed) and lot 10;
Sec. 20, lot 11;
Sec. 29, lots 2, 5, 10;
Sec. 30, lots 7, 9, 11;
Sec. 31, island (unsurveyed).
Containing 361.75 acres in Valley County.

POWERSITE RESERVE NO. 214

T. 11 N., R. 3 E.,
Sec. 23, NE¼NW¼;
Sec. 34, SE¼NE¼.
Containing 80 acres in Valley County.

POWERSITE RESERVE NO. 259

T. 7 N., R. 1 E.,
Sec. 13, S½SW¼;
Sec. 14, SE¼SE¼.
Containing 120 acres in Gem County.

POWERSITE RESERVE NO. 461

T. 7 N., R. 1 W.,
Sec. 24, lot 6.
Containing 39.99 acres in Gem County.

The areas described in paragraph 1 aggregate 601.74 acres of which 430.45 acres, plus the two unsurveyed islands, are public lands. The 310.45 acres of public land restored from Powersite Reserve No. 207 lie in parcels along the North Fork Payette River, two to seven miles south of Cascade, Idaho, in Valley County. Vegetation generally is lodgepole pine, willows, and native forage grasses. The 120-acre parcel restored from Powersite Reserve No. 259 is located two miles northeast of Montour, Idaho. State Highway 52 passes between the Payette River and the tract. Topography is steep. Sagebrush, rabbitbrush, medusahead rye, and cheatgrass are the vegetation. The lands described in Powersite Reserve Nos. 214, 461, and lot 8 sec. 35, T. 12 N., R. 3 E.; lot 2 sec. 29, T. 13 N., R. 4 E., in Powersite Reserve No. 207 are patented. The patented lands aggregate 171.29 acres.

2. At 10 a.m. on September 11, 1976, the public lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on September 11, 1976, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The lands have been open to applications and offers under the mineral leasing laws and to location under the general mining laws.

The State of Idaho has waived its preference rights under the Federal Power Act, 41 Stat. 1075, as amended, 16 U.S.C. 818.

Inquiries concerning the lands should be addressed to Chief, Division of Technical Services, Bureau of Land Management, Boise, Idaho 83724.

JACK O. HORTON,
Assistant Secretary of the Interior.

AUGUST 6, 1976.

[FR Doc.76-23458 Filed 8-11-76;8:45 am]

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION BUREAU, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER D—PIPELINE SAFETY

[Amdt. No. 195-11; Docket No. OPSO-35]

PART 195—TRANSPORTATION OF LIQUIDS BY PIPELINE

Offshore Pipeline Facilities

This amendment modifies many of the design, construction, testing, operation, and maintenance regulations in Part 195 as they relate to the offshore transportation by pipeline in interstate or foreign commerce of hazardous materials, petroleum, or petroleum products. The amendment also enlarges the scope of Part 195 by deleting the exemption in § 195.1(b)(4) for rural gathering lines located offshore.

The purpose of the amendment is to more clearly delineate the applicability of Part 195 to offshore liquid pipelines and to better assure the safe operation of those pipelines. In accordance with section 8(a) of the Deepwater Port Act of 1974 (33 USC 1507(a)), the offshore pipelines subject to the regulations in Part 195 and this amendment include the pipeline facilities which are part of a deepwater port.

Most of the amendments pertain to steel pipelines, which are the ones commonly used offshore. Part 195 does not provide general safety requirements for the transportation of commodities in pipelines made from materials other than steel. As provided by § 195.8, any transportation by pipeline made from material other than steel is regulated for safety on an individual basis.

V 41 157 AUG 12 76 UMI

This amendment does not change the accident report requirements of Subpart B, which apply to both offshore and onshore transportation by pipeline.

On September 17, 1975, the Materials Transportation Bureau (MTB) proposed to make this amendment by issuing Notice 75–4 (40 FR 43740, Sept. 23, 1975). Interested persons were invited to submit written comments by October 20, 1975. However, acting on a request by the American Petroleum Institute (API), by Notice 75–4A (40 FR 48940, Oct. 20, 1975) MTB extended the deadline for written comments to December 1, 1975, and scheduled a public hearing on the matter in Washington, D.C., on November 17, 1975. The extension allowed all interested persons additional time to study the benefits and problems connected with the proposed rule changes.

The comments received in writing and at the public hearing have been fully considered by MTB. A discussion of the significant comments and their disposition in developing the final rules is set forth hereinafter in the order that the amendments were proposed in the Notice. Some of the proposed amendments have not been adopted as final. Those which have, are adopted under the same section numbers used in the Notice. Editorial modifications in the final rules which do not alter the substance of the proposed amendments are not discussed.

RETROACTIVITY

A few commenters were concerned about the expense and ecological damage that would result if the proposed amendments to the construction requirements for offshore pipelines were applied to pipelines laid before the final rules become effective. One commenter even suggested that a "grandfather" clause should be added to exempt existing pipelines from the proposed burial requirements.

These comments indicate an apparent misunderstanding of the intended applicability of the proposed amendments. Notice 75–4 proposed to amend existing safety standards, and the proposals should have been interpreted within the framework of those standards. Part 195 now provides in §§ 195.100, 195.200, and 195.300 that requirements for design, construction, and testing of pipelines only apply to new pipelines or to pipelines which are replaced, relocated, or otherwise changed. Notice 75–4 did not propose that these general rules be modified so as to retroactively apply any of the proposed amendments affecting the design, construction, or testing of offshore pipelines.

In addition, although the commenters did not estimate how many existing pipelines would be nonconforming if the proposed amendments were applied retroactively, MTB does not believe that the various hazards against which the amendments were intended to protect warrant retroactive application of the final rules. In the absence of a compelling reason to the contrary, MTB believes that the development of a new safety standard does not make existing facilities unsafe which do not meet the new standard. Nevertheless, should MTB learn of safety problems with existing offshore liquid pipelines due to inadequate design, construction, or testing, it will either deal with the pipelines involved on an individual basis or issue another general notice of proposed rulemaking regarding those problems which can be solved through the regulatory process.

Section 195.1 Scope. The existing Paragraph (b)(4) of this section excludes from the coverage of Part 195, except for Subpart B—Accident Reporting, pipelines operated by a carrier for the transportation of petroleum in rural areas between a production facility and the carrier's trunk line reception point. These pipelines are commonly referred to as "gathering lines." MTB proposed in Notice 75–4 that § 195.1(b)(4) be amended so as to subject gathering lines located offshore to the design, construction, testing, operation, and maintenance rules in Part 195, in addition to the presently applicable reporting requirements. This proposed extension of Part 195 was made because of safety considerations relevant to gathering lines carrying petroleum offshore and because of the Congressional mandate expressed in section 21(a) of the Deepwater Port Act of 1974 (33 USC 1520(a)) that oil pipelines on the Outer Continental Shelf be regulated for safety purposes.

Responding to the public invitation to comment in Notice 75–4, the U.S. Environmental Protection Agency expressed support for the proposed extension of jurisdiction because of its pollution prevention benefits.

An adverse reaction was expressed, however, by several commenters from the offshore petroleum industry. These commenters argued that the precise effect of the proposed regulation of offshore gathering lines could not be evaluated because Part 195 does not clearly state the meaning of the term "gathering line." Similarly, it was argued that since the term "production facility" in § 195.1(b)(4) is not defined, the beginning of a gathering line is unclear, and thus the proposed extension of jurisdiction could be interpreted to cover production oriented facilities, such as flow lines.

MTB believes that the difficulty expressed by these commenters arises because of their view that offshore pipelines which carry hydrocarbons between a well and any initial processing equipment are commonly associated with the industry of producing petroleum rather than with the industry of transporting petroleum to refineries or markets. Also, these pipelines are known both as "flow lines" and "gathering lines" and are regulated for safety and other purposes by the U.S. Department of the Interior (DOI).

This indistinctness between production and transportation is of slight significance, however, in view of the recently completed Memorandum of Understanding (MOU) between the Department of Transportation (DOT) and DOI regarding the regulation of offshore pipelines. Under the MOU, which was published in the FEDERAL REGISTER on June 11, 1976 (41 FR 23746), DOT exercises exclusive responsibility for the safety regulation of oil and gas offshore pipelines downstream to the shore from the outlet flange of each facility where hydrocarbons are produced, or where produced hydrocarbons are first separated, dehydrated, or otherwise processed, whichever facility is farther downstream. Also, DOT regulation includes subsequent online transmission equipment but not any subsequent production equipment. DOI regulates the pipelines upstream from these locations. As shown in item 1 below, § 195.1 is amended to include this provision of the MOU and indicate the limits of the jurisdiction of Part 195 over offshore pipelines.

MTB recognizes that the MOU does not completely resolve the confusion regarding the meaning of the term "gathering line." However, the purpose of Notice 75–4 as it relates to offshore gathering lines was to extend the scope of Part 195 to cover all offshore transportation of petroleum by pipeline in interstate or foreign commerce within the jurisdiction of DOT under 18 U.S.C. 831–835. Therefore, to the extent that gathering lines between the aforementioned outlet flanges and a trunkline are subject to that jurisdiction, their inclusion within the scope of Part 195 is consistent with the purpose of the rulemaking proposal.

The industry commenters also speculated that the cost of compliance would far exceed the safety benefits to be gained because there have not been any deaths or injuries attributable to offshore gathering lines. The commenters did not submit any cost or benefit data, though, to support their charge, pleading lack of sufficient time to make the necessary studies. MTB believes to the contrary that the cost of compliance should not be high because the standards in Part 195 do not largely differ from the industry standards and practices to which offshore gathering lines are designed, constructed, operated, and maintained. These industry standards and practices are by and large based on the B31.4 Code "Liquid Petroleum Transportation Piping Systems," published by the American National Standards Institute, the 1966 edition of which served as a basis for Part 195. Also, since the design and construction requirements in Part 195 are not to be applied retroactively to existing pipelines, the costs which some commenters projected in this area will not exist. Further, as indicated by one commenter at the public hearing, the total cost of compliance must take into account the likely savings in operating costs and insurance rates due to the reduced potential for accidents.

As for benefits, MTB does not agree with the argument that the absence of deaths and injuries means there would be no benefit from safety regulation. If the argument were valid, a gathering line which is patently unsafe by any standard would present no safety problem because, fortuitously, deaths or injuries have not yet occurred. One commenter stated at the public hearing that "Offshore construction requires the highest degree of technology to cope with forces and phenomena encountered. It also requires the very best equipment available. • • •" Given this situation for pipeline transportation offshore, it is reasonable to conclude that offshore gathering lines located downstream from the aforementioned outlet flanges are so similar to offshore trunk lines, which are currently subject to the safety requirements of Part 195, that there is a comparable need for regulation. Clearly, the record does not contain technical justification for an opposite view. Rather, it appears that the many factors which can cause the failure of an offshore trunk line and resulting consequences can also cause gathering lines to fail.

Section 195.2 Definitions. Since the issuance of Part 195 (34 FR 15473, Oct. 4, 1969), the term "offshore" has been defined in this section as "beyond the line of ordinary low water along that portion of the coast of the United States that is in direct contact with the open seas and beyond the line marking the seaward limit of inland waters."

MTB proposed in Notice 75–4 to broaden this definition to include "lands beneath inland navigable waters" as that term is defined in the Submerged Lands Act (43 U.S.C. 1331). One reason for the proposal was to ensure that pipelines in many inland bodies of water, like Chesapeake Bay, meet the same requirements as pipelines within the area now defined as "offshore" because of alleged similarities of operating conditions.

Proposing to broaden the existing definition of "offshore" had the simultaneous effect of proposing that all proposed and existing regulations in Part 195 written in terms of "offshore" apply to pipelines crossing inland navigable waters (except where otherwise specifically provided). MTB considered this result in formulating the various proposed substantive amendments in Notice 75–4 regarding "offshore" pipelines. In addition, interested persons were asked to comment on whether any of the proposed amendments should be modified in view of their intended applicability to inland navigable waters.

Commenters were unanimously opposed to the proposal, generally stating that few, if any, inland waters present the same safety problems as open seas regarding the design construction, operation, and maintenance of pipeline facilities. The commenters pointed out that different construction techniques are used for river and bay crossings than for pipelines within the area now defined as "offshore." For instance, at inland water crossings, commenters stated that during construction pipe is usually connected onshore and then pulled into a prepared ditch. Also, even when inland water crossings are laid from a barge, commenters noted that unlike open sea conditions, the water is usually not as deep, and, consequently, the location of the pipeline can be ascertained from the surface or divers can work with comparative ease. Commenters further stated that the stresses imposed by pipe laying operations are less, overburden and dynamic loads are seldom significant design considerations, and inland water crossings can be inspected more easily.

One commenter expressed concern that for pipelines crossing inland waters, imposing design requirements not essential for safety would be wasteful of natural resources and energy due to the additional materials required and fuel needed to manufacture, construct, and operate the pipelines. The commenter, however, did not estimate the quantity of additional materials and fuel that would be required if the proposed definition of "offshore" were adopted.

Furthermore, commenters were concerned that designating "lands beneath inland navigable waters" as "offshore" would be confusing in light of the present understanding of the term "offshore." In addition, because dry washes in the West, accretion, and filled areas are "lands beneath inland navigable waters" as defined in the Submerged Lands Act, subjecting pipelines in those areas to "offshore" safety requirements would be onerous.

Clearly, the comments did not support the establishment of a broader definition of "offshore," even to the extent of including within the existing definition large inland bodies of water. In view of these comments, the proposed definition is not adopted because of the apparent confusion and uncertainty which would result in the industry from applying "offshore" requirements to pipelines in inland water areas and because the record shows that operating conditions in inland water areas are not generally similar to open sea operating conditions as asserted in the notice. This decision does not mean, however, that the various substantive amendments proposed in Notice 75–4 for "offshore" pipelines are likewise not adopted as they relate to pipelines crossing inland navigable waters. Some of the proposed amendments have been so adopted, others have not. The decision on whether or not each proposed amendment written in terms of "offshore" should be adopted for either open sea or inland navigable waters, or both, is based on the merits of the proposal, as discussed hereinafter.

Section 195.106. Notice 75–4 proposed that a design factor of 0.50 or less be used in the design formula for pipelines on an offshore platform and within 300 feet therefrom. If the proposed design factor were used instead of 0.72 as now required, any new, replaced, or relocated pipe which is installed would have a lower operating stress level. The comments indicate that for pipe risers on platforms, it is industry practice to use a design factor of 0.60, and that for underwater pipelines the existing 0.72 is used. A few commenters questioned the need for a more stringent design factor in terms of the expected costs and benefits, especially for pipelines within 300 feet of a platform. Other commenters stated that the external force of water on pipelines provides additional safety. In view of these comments and the level of potential hazards involved, the final rule is changed to provide that a design factor of 0.60 must be used for pipelines on platforms, including risers. The existing factor of 0.72 is not changed as it applies to pipelines located within 300 feet of a platform because of the protection provided by water depth and because these pipelines are not subject to the same causes of excessive stresses as are pipelines on platforms.

MTB believes that pipelines on platforms which are being constructed in inland navigable waters have the same need for protection against increased stresses as pipelines on offshore platforms, due to the similarity of operating conditions which can cause excessive stress levels and the confinement of personnel. Therefore, the final rule provides that a design factor of 0.60 must be used for pipe, including risers, on platforms located in inland navigable waters as well as offshore.

Sections 195.230 and 195.232. The only change to these sections is that the term "lay barge" used in the Notice is replaced with the term "pipelay vessel." This change is made so that as adopted the proposed exception from the existing welding requirements for offshore pipelines is not restricted to pipelines being installed from a vessel called a "lay barge" but applies to pipelines installed from any similar type of marine craft designed to lay offshore pipelines. The change is consistent with the objective of the proposal which was to eliminate the hazard associated with the removal, rather than repair, of unacceptable welds on pipelines being installed under the operating and working conditions of a lay barge. In view of the comments which indicate that laying pipelines in inland waters from a pipelay vessel is not as hazardous as laying pipelines in open seas, the proposed amendments to §§ 195.230 and 195.232 have not been adopted as they relate to installation of pipelines in inland waters.

One commenter objected to the proposal to allow the repair of welds on pipe being installed from a lay barge, arguing that if unacceptable welds may not be repaired onshore, then offshore welds should likewise not be repaired. MTB does not agree with this comment because, as discussed in the Notice, many safety problems arise in connection with removal of welds from pipelines being installed offshore from a lay barge which do not occur onshore. These problems create potential hazards to both the pipeline and the installation personnel which, in the opinion of MTB, overcome the safety advantages from removing unacceptable welds.

Section 195.234. The existing paragraph (e)(1) of this section requires that 100 percent of the girth welds must be nondestructively tested in locations

V 41 I 157 AUG 12 76 UMI

where a loss of commodity might pollute a body of water. Notice 75–4 proposed to amend this rule to explicitly require that 100 percent of the girth welds be nondestructively tested on pipelines in offshore areas as well as in inland waters not encompassed by the proposed definition of "offshore." Commenters did not disagree with the desirability of 100 percent testing in these areas. They pointed out, however, that as far as an open sea environment is concerned, due to the peculiarities and unforeseeable working conditions which exist there, a requirement for 100 percent testing would be too stringent. MTB concurs with these commenters, and, accordingly, has changed the final rule to provide that in offshore situations where 100 percent testing is impracticable, only 90 percent of each day's welds need be nondestructively tested. The final rule is consistent with the nondestructive testing requirement of 49 CFR 192.243(d)(3) which applies to gas pipelines crossing navigable rivers.

The final rule continues to require the nondestructive testing of 100 percent of the girth welds on pipelines in or near any body of water which is not an "offshore" area, but where loss of commodity could reasonably be expected to pollute the body of water.

One commenter suggested that the final rule should identify those methods of nondestructive testing which will clearly indicate weld defects. Although this comment appears to be outside the scope of the Notice, MTB believes that the suggested amendment would unnecessarily restrict carriers in meeting the existing regulatory tests prescribed by § 195.228 for determining the acceptability of welds.

Sections 195.238 and 195.242. As proposed, these sections are amended to provide that submerged but unburied pipelines must comply with corrosion control requirements. All comments received on these sections favored the proposed amendments.

Section 195.246. Notice 75–4 proposed that a new paragraph (b) be added to this section requiring that offshore pipelines in water not more than 200 but at least 12 feet deep be installed so that the top of the pipeline is below the natural bottom. The proposal was intended to provide for protection of these offshore pipelines against possible interference by fishing trawlers, damage by hurricanes, and underwater currents. MTB recognized, however, that installation below the bottom might not be an appropriate safety measure in all cases, and thus included in the proposal a provision that pipelines need not be buried where they are otherwise appropriately protected or where unstable soil conditions would subject the pipelines to greater external forces when buried than when they are laid directly on the bottom.

Two commenters objected to the proposed burial requirement as rigid and arbitrary and not an appropriate general rule for all situations. MTB believes that this comment does not warrant changing the final rule, however, in view of the flexibility which the proposed rule would provide by permitting carriers to use a means of protection other than burial. MTB does not believe that offshore pipelines should be permitted to be installed without any means of protection. The proposed requirement for burial below the bottom is, therefore, adopted as final, with exceptions as discussed below.

Another commenter criticized the proposed amendment because it would permit a carrier, at its discretion, not to bury a pipeline in areas of unstable soil. Without considering the merits of this comment, in the final rule MTB has deleted the proposed exception regarding unstable soil as unnecessary. It is unnecessary because the normal industry safety practice is to protect pipeslines in areas of unstable soil by either burial or an appropriate alternate means. If an appropriate alternate means is used, the exception in the proposed amendment which was intended to allow the use of that means would apply.

Although Notice 75–4 provided an exception from the proposed burial requirement for pipelines which are "otherwise appropriately protected," MTB now believes the exception for alternative means of protection should be written in more precise terms to avoid confusion in understanding the requirement. Therefore, in the final rule, the exception is changed to apply to the types of protection which are normally used in the industry in lieu of burial—support on stanchions, anchors, and heavy concrete coating. MTB believes that a pipeline protected by any of these means would be "appropriately protected" as stated in the Notice. Also, under the final rule, a means of protection may be used other than the ones which are named if it provides a level of protection equivalent to those named. MTB anticipates that criteria governing the appropriate level of protection of offshore pipelines will be the subject of future rulemaking. MTB is now seeking additional information on the safety of offshore pipelines to serve as a basis for that criteria. If adopted, the criteria would eliminate the need to specify acceptable means of protection and allow more flexibility in providing that protection.

The amendment to § 195.246 does not apply to pipelines in inland navigable waters since the burial requirement contained in § 195.248 appears to provide sufficient protection for those pipelines.

Section 195.248. MTB proposed that this section be amended to require that pipelines installed offshore in water less than 12 feet deep be installed with at least 36 inches of cover, but that pipelines in a river, stream, harbor, or deepwater port safety zone must have at least 48 inches of cover regardless of water depth. The existing rule requires that crossings of bodies of water with at least 100 feet from high water mark to high water mark be installed with 48 inches of cover, except that 18 inches is permitted in rock excavation. In general, the comments to this section did not object to the proposed amendment, and it is adopted as final, except as discussed below.

One commenter suggested that the final rule be changed to include an exception for situations where it is impractical to provide the requisite cover and to allow alternative means of protection, such as installation above the water on pilings. The substance of this comment was provided for in the proposal by an exception which would allow less cover where it is impracticable to comply with the minimum cover requirements. Also, § 195.254(a)(1) now permits overhead crossings of bodies of water. Nevertheless, in light of this comment, the final rule is changed to allow one half the minimum required cover in areas of rock excavation.

Another commenter suggested that the proposed 48 inches of cover for harbor areas may be insufficient to protect against heavy anchors. MTB agrees that 48 inches may not be enough in all cases, but as a minimum standard to be applied generally, it is acceptable. Presumably, if a carrier is faced with a safety problem involving heavy anchors, it will voluntarily provide more than the minimum amount of cover or additional protection. If a situation arises where lack of sufficient cover threatens life or property, MTB is empowered to require the carrier involved to remedy the situation even though the carrier is in compliance with § 195.248.

In the final rule, the proposed amendment that would have extended the existing 48-inch cover requirement to specifically identified inland waters is not adopted. In consideration of the comments concerning the proposed definition of "offshore" with respect to inland waters, MTB believes the wording of the existing requirement is sufficient to cover those inland water situations where 48 inches of cover is needed to protect against damage to the pipeline by environmental and other external causes. This decision does not apply to pipelines in deepwater port safety zones. The proposed 48-inch cover requirement is adopted for those pipelines as proposed.

One commenter suggested that § 195.248 be amended to require a minimum amount of cover over offshore pipelines in water more than 12 feet deep. Protection for these pipelines is provided by the amendment to § 195.246. Based on available information and in view of the existing industry installation practices, MTB believes that except in a deepwater port safety zone, it is not now necessary to regulate the cover over offshore pipelines in water at least 12 feet deep.

Section 195.258. Notice 75–4 proposed that a new paragraph (b) be established to require that submerged offshore valves be marked, or located by conventional survey techniques, to facilitate quick location when operation of the valve is necessary. Commenters did not object to the proposal to the extent that it would apply offshore, as the term "offshore" is now defined in Part 195. The comments which opposed applying the proposed requirement to submerged valves in inland navigable waters were based on the general objection to applying "offshore" requirements to pipelines in inland waters rather than on the merits of the proposal. MTB believes that the proposed requirement is reasonable and because of operating circumstances, necessary for the safe operation of a submerged valve. Therefore, the final rule is adopted as proposed for submerged valves located offshore and in inland navigable waters.

Section 195.260. Notice 75–4 proposed that paragraph (c) be amended to require that valves be installed in offshore areas at locations that will minimize damage or polution from an accidental discharge. Commenters did not object to the proposal to the extent that it would apply to pipelines in areas within the meaning of the existing definition of "offshore." As for inland water areas, upon reconsideration of the proposal, MTB believes that the requirement of § 195.260(c) for placement of valves is sufficient to protect against damage or pollution from a discharge in inland waters, and that no further valve placement requirement is necessary with respect to inland waters. As finally adopted, the proposed amendment only applies to pipelines in areas within the existing definition of "offshore."

Section 195.306. This section requires that water must be used as a test medium, except that liquid petroleum may be used under certain conditions. MTB proposed to amend paragraph (b) to prohibit the use of liquid petroleum as a test medium in offshore pipelines. The rationale for this proposal, as stated in the Notice, was alleged difficulties in locating and containing a discharge due to a testing failure on underwater pipelines. Commenters did not object to the proposed amendment to the extent that it would apply to pipelines in areas now defined as "offshore." As for pipelines in inland waters, MTB now believes, in light of the comments concerning the proposed new definition of "offshore," that the difficulties associated with a testing failure on pipelines in inland waters do not warrant prohibiting the use of liquid petroleum as a test medium for those pipelines. Therefore, as finally adopted, the proposed amendment only applies to pipelines in areas within the existing definition of "offshore."

One commenter suggested that permitting the use of air or natural gas as a test medium for offshore pipelines would save construction costs without any sacrifice in safety. MTB has not evaluated the merits of this suggestion since it is outside the scope of the proposed amendment to § 195.306. It will, however, be considered within the context of any future rulemaking action regarding the applicability to offshore pipelines of Subpart E—Hydrostatic Testing.

Section 195.410. Notice 75–4 proposed that a new paragraph (e) be added to this section to require that pipe risers on offshore platforms that are exposed to damage by marine traffic be marked in accordance with proposed specifications. The comments received on this section opposed the proposed marking requirement. One comment stated that adequate protection is already provided by the Coast Guard's requirements for navigational aids on platforms which involve warning lights and fog signals (33 CFR Part 67). Also, objections were raised concerning the maintenance of signs and the difficulty of reading them from an approaching vessel. Finally, commenters emphasized that the relatively few serious incidents which have resulted from vessels contacting platforms did not involve pipe risers.

On the basis of these comments and other considerations, MTB now believes that additional information is needed to determine whether marking offshore pipe risers would be a significant safety benefit. Therefore, the proposed amendment is not adopted as a final rule. The issue may be reopened by a future notice of proposed rulemaking if warranted by the additional information which MTB is seeking on the safety of offshore pipelines.

Section 195.412. Paragraph (b) of this section presently requires carriers to inspect each crossing of a pipeline under a navigable waterway, except for offshore pipelines, every five years to determine the condition of the crossing. Because of the alleged difficulties in locating, repairing, and containing leaks from underwater pipelines, MTB proposed in Notice 75–4 that the required frequency of inspection be increased to every year and that the requirement be applied to all pipelines within the area covered by the proposed new definition of "offshore." MTB anticipated that if the proposal were adopted, conducting more frequent inspections would cause carriers to correct unsafe conditions in time to prevent an actual leak.

Two commenters opposed the proposed amendment, basically stating that an annual inspection of the thousands of inland crossings would be burdensome for the industry and unwarranted by the record of consequences of failures at water crossings. Further, these commenters questioned the practicability of more frequent underwater inspections of pipelines located seaward of the coastline. Other commenters were concerned that the proposed amendment did not provide details of the inspection. None of the commenters, however, indicated that the existing 5-year inspection requirement is adequate.

Based on its review of the comments to Notice 75–4, MTB now believes that information on the required frequency and nature of inspecting underwater pipelines is inconclusive. Pipeline safety problems are caused by the effects of both inland and offshore waters on pipelines and by underwater operating conditions. However, little, if any, substantive information was submitted in this proceeding from which MTB could determine the correlation between inspection frequency and correcting underwater safety problems. As a consequence, MTB is seeking further information upon which a rational determination can be made about the required frequency of underwater inspections. Pending the availability of that information, MTB has decided that the existing requirement of § 195.412(b) should be retained. MTB anticipates that the matter will be addressed again in a future notice of proposed rulemaking.

One commenter suggested that for offshore pipelines, biweekly patrols by air or water craft be required to observe route conditions. In view of this comment, it should be noted that § 195.412(a) now requires each carrier to inspect the surface conditions of each pipeline right-of-way every two weeks. This requirement applies equally to offshore and onshore pipelines.

Section 195.416. MTB proposed that paragraph (a) of this section be amended to require that cathodically protected offshore pipelines be tested every 6 months to determine if the protection is adequate. The existing rule, which applies only to underground pipelines (either offshore or onshore), requires testing every 12 months. MTB anticipated that if the proposal were adopted, the likelihood of leaks developing due to faulty cathodic protection would be reduced. Moreover, additional testing appeared doubly justified because leaks occurring offshore are more difficult to locate, contain, and repair than onshore leaks.

All of the comments on this section opposed adoption of the proposed amendment. One commenter stated that it would be illogical to require more frequent testing of offshore pipelines than onshore pipelines because corrosion occurs more uniformly and is more predictable offshore. Other commenters argued that testing every 6 months would be impractical because of unforeseeable travel and weather problems, the need for additional personnel, and the difficulties associated with testing a cathodic protection system offshore. Still others argued that the 12-month period of testing is not inadequate.

MTB recognizes the many practical problems associated with the testing of cathodic protection on offshore pipelines. MTB also recognizes that, in general, corrosion occurs offshore at a more uniform rate than onshore because the offshore environment is constantly corrosive. However, MTB is not convinced that these factors overcome the apparent benefits from more frequent testing offshore.

In an offshore underwater environment the need for maintenance is not as observable as onshore. Damage to pipelines by anchor dragging, wave or current action, mud slides, or trawls may go undetected for longer periods of time than onshore. Would disruption of a cathodic protection system by an external cause which goes undetected for 12 months raise the potential for the occurrence of leaks to an unsafe level?

V 41 I 157 AUG 12 76 UMI

What would be the cumulative effect of accelerated corrosion due to a defective or disrupted system over successive 12-month periods?

On the other hand, can a uniform rate of corrosion be taken into account as a design factor so that offshore testing of cathodic protection may be performed less frequently than onshore?

MTB believes that the record does not provide satisfactory information on these questions. A final rule is, therefore, not adopted at this time. The proposal is withdrawn pending receipt of the additional information which MTB is seeking by study contract on the hazards and safety practices in an offshore environment. The study is needed to provide for more comprehensive regulation of the safety of offshore pipelines. If warranted by the additional information, MTB will issue a future notice of proposed rulemaking on the frequency of testing issue.

In view of the comments which indicate that underwater leaks in inland waters do not present problems of the same magnitude as leaks in open seas and the impracticality of scheduling more frequent tests on underwater portions of an essentially onshore pipeline, MTB has decided that a more frequent testing requirement should not be adopted for pipelines crossing inland waters.

EFFECTIVE DATE

Notice 75-4 requested that interested persons comment on the amount of time that would be needed to comply with the amendments being proposed. The relatively few comments received on this question indicate that design and construction regulations which apply to new, replaced, or relocated pipelines require a longer lead time for compliance than regulations for operation or maintenance. One commenter suggested that as much as 2 years lead time be allowed for lines in the planning stage but not yet under construction. Taking these comments into account and the amount of time reasonably needed for compliance, MTB has decided that the final rules are to become effective November 1, 1976, except as follows:

1. Amendments to §§ 195.106, 195.246, 195.248, 195.258, and 195.260 do not become effective until August 1, 1977.

2. The cathodic protection requirements of § 195.414 do not apply to offshore pipelines located between a production facility and a carrier's trunkline reception point until August 1, 1977.

3. Offshore pipelines located between a production facility and a carrier's trunkline reception point which are constructed before August 1, 1977, need not comply with the design and construction requirements of Subparts C, D, and E of Part 195.

Provisions have been added to §§ 195.402(d) and 195.414 to provide for the extended effective dates regarding an offshore pipeline between a production facility and a trunkline.

In consideration of the foregoing, Part 195 of Title 49 of the Code of Federal Regulations is amended as set forth below:

1. In § 195.1, the word "and" is deleted from paragraph (b)(3), paragraph (b)(4) is amended to read as follows, and a new paragraph (b)(5) is added to read as follows:

§ 195.1 Scope.

• • • • • •

(b) • • •

(4) Except for Subpart B of this part, transportation of petroleum in onshore pipelines in rural areas between a production facility and a carrier's trunkline reception point, and

(5) Transportation in offshore pipelines which are located upstream from the outlet flange of each facility on the Outer Continental Shelf where hydrocarbons are produced or where produced hydrocarbons are first separated, dehydrated, or otherwise processed, whichever facility is farther downstream.

2. In § 195.106, paragraph (a) is amended as follows:

§ 195.106 Internal design pressure.

(a) • • •

F=A design factor of 0.72, except that a design factor of 0.60 is used for pipe, including risers, on a platform located offshore or on a platform in inland navigable waters, and 0.54 is used for pipe that has been cold worked to meet the specified minimum yield strength and is subsequently heated, other than by welding to 600° F. or more.

• • • • • •

3. Section 195.230 is amended to read as follows:

§ 195.230 Welds: Repair of defects.

(a) Except as provided in paragraph (b) of this section, a weld that is found unacceptable under § 195.228 may not be repaired unless—

(1) There are no cracks in the weld;

(2) The segment of the weld to be repaired was not previously repaired; and

(3) The weld is inspected after repair to assure its acceptability.

(b) In the case of offshore pipelines, a weld on a pipeline being installed from a pipelay vessel may be repaired if the repair is made in accordance with established written welding procedures that have been tested under § 195.214 to assure that they will produce sound ductile welds.

4. Section 195.232 is amended to read as follows:

§ 195.232 Welds: Removal of defects.

Except for offshore pipelines being installed from a pipelay vessel, a cylinder of the pipe containing the weld must be removed and the ends rebeveled whenever—

(a) The weld contains one or more cracks;

(b) The weld is not acceptable under § 195.228 and is not repaired; or

(c) The weld was repaired and the repair did not meet the requirements of § 195.228.

5. In § 195.234, paragraph (e)(1) is amended to read as follows:

§ 195.234 Welds: Nondestructive testing and retention of testing records.

• • • • • •

(e) • • •

(1) At any onshore location where a loss of commodity could reasonably be expected to pollute any stream, river, lake, reservoir, or other body of water, and any offshore area unless impracticable, in which case only 90 percent of each day's welds need be tested.

• • • • • •

6. In § 195.238, paragraphs (a)(1) and (b) are amended to read as follows:

§ 195.238 External coating.

(a) No pipeline system component may be buried or submerged unless that component has an external protective coating that—

(1) Is designed to mitigate corrosion of the buried or submerged component;

• • • • •

(b) All pipe coating must be inspected just prior to lowering the pipe into the ditch or submerging the pipe, and any damage discovered must be repaired.

7. In § 195.242, paragraph (a) is amended to read as follows:

§ 195.242 Cathodic protection system.

(a) A cathodic protection system must be installed for all buried or submerged facilities to mitigate corrosion that might result in structural failure. A test procedure must be developed to determine whether adequate cathodic protection has been achieved.

• • • • • •

8. In § 195.246, the existing first paragraph is designated as paragraph (a) and a new paragraph (b) is added to read as follows:

§ 195.246 Installation of pipe in a ditch.

(a) • • •

(b) All offshore pipe in water at least 12 feet deep but not more than 200 feet deep, as measured from the mean low tide, must be installed so that the top of the pipe is below the natural bottom unless the pipeline is supported by stanchions, held in place by anchors or heavy concrete coating, or an equivalent level of protection is provided.

9. Section 195.248(a) is amended to read as follows:

§ 195.248 Cover over buried pipeline.

(a) Unless specifically exempted in this subpart, all pipe must be buried so that it is below the level of cultivation. Except as provided in paragraph (b) of this section, the pipe must be installed so that the cover between the top of the pipe and the ground level, road bed, river bottom, or sea bottom, as applicable, complies with the following table:

Location	Cover (inches)	
	For normal excavation	For rock excavation[1]
Industrial, commercial, and residential areas	36	30
Crossings of inland bodies of water with a width of at least 100 ft from high water mark to high water mark	48	18
Drainage ditches at public roads and railroads	36	36
Deepwater port safety zone	48	24
Other offshore areas under water less than 12 ft-deep as measured from the mean low tide	36	18
Any other area	30	18

[1] Rock excavation is any excavation that requires blasting or removal by equivalent means.

• • • • •

10. In § 195.258, the existing first paragraph is designated as paragraph (a) and a new paragraph (b) is added to read as follows:

§ 195.258 Valves: General.

(a) • • •

(b) Each submerged valve located offshore or in inland navigable waters must be marked, or located by conventional survey techniques, to facilitate quick location when operation of the valve is required.

11. Section 195.260(c) is amended to read as follows:

§ 195.260 Valves: Location.

• • • • • •

(c) On each mainline at locations along the pipeline system that will minimize damage or pollution from accidental liquid discharge, as appropriate for the terrain in open country, for offshore areas, or for populated areas.

• • • • • •

12. Section 195.306(b) is amended to read as follows:

§ 195.306 Test medium.

• • • • • •

(b) Except for offshore pipelines, liquid petroleum that does not vaporize rapidly may be used as the test medium if—

(1) The entire pipeline section under test is outside of cities and other populated areas; and

(2) There are no persons, other than those conducting the test, within 1,000 feet of the test section.

13. Section 195.402(d) is amended to read as follows:

§ 195.402 General requirements.

• • • • • •

(d) No carrier may operate any part of a pipeline system upon which construction was begun after March 31, 1970, or in the case of offshore pipelines located between a production facility and a carrier's trunkline reception point, after July 31, 1977, unless it was designed and constructed as required by this part.

14. In § 195.414 a new paragraph (d) is added to read as follows:

§ 195.414 Cathodic protection.

• • • • • •

(d) Notwithstanding the deadlines for compliance in paragraphs (a), (b), and (c) of this section, this section does not apply to offshore pipelines located between a production facility and a carrier's trunkline reception point until August 1, 1977.

(Sec. 6, Pub. L. 89-670, 80 Stat. 937, 49 USC 1655; 18 USC 831-835; 40 FR 43901, 49 CFR 1.53).

Issued in Washington, D.C. on August 9, 1976.

JAMES T. CURTIS, Jr.,
Director,
Materials Transportation Bureau.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 20—MIGRATORY BIRD HUNTING

Open Seasons, Bag Limits, and Possession of Certain Migratory Game Birds in the Contiguous United States and Alaska

The Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended, authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.

This final rulemaking notice is the seventh in a series of proposed and final rulemaking documents published during the annual regulatory process for establishing migratory game bird hunting seasons in the United States. It deals specifically with amending Subpart K of 50 CFR 20 to set open hunting seasons, certain closed areas, shooting hours and bag and possession limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules; for September teal seasons; for sea ducks in certain defined areas of the Atlantic Flyway; for Canada goose hunting in Wisconsin; and for waterfowl, coots, snipe, and cranes in Alaska. The first notice in the series consisted of proposed rule making dealing with the establishment of open hunting seasons, daily bag and possession limits, and shooting hours for the 1976-77 season in Puerto Rico and the Virgin Islands, and was published in the FEDERAL REGISTER on May 12, 1976 (41 FR 19341) with a comment period ending June 26, 1976. The third notice in the series consisted of supplemental proposed rulemaking dealing with proposed early season frameworks and proposed Canada goose hunting regulations in Wisconsin, and was published in the FEDERAL REGISTER on July 2, 1976 (41 FR 27382), with a 15-day comment period ending July 17, 1976. The fourth notice in the series consisted of final frameworks for selecting open season dates for hunting migratory birds in Puerto Rico and the Virgin Islands during the 1976-77 season and was published in the FEDERAL REGISTER on July 16, 1976 (41 FR 29387). The fifth notice in the series consisted of final rulemaking amending Section 20.101 of 50 CFR Part 20 to reflect seasons, limits, and shooting hours for Puerto Rico and the Virgin Islands for the 1976-77 season and was published in the FEDERAL REGISTER on July 22, 1976 (41 FR 30119). The sixth notice in the series consisted of final frameworks for selecting open season dates for hunting migratory birds in the contiguous United States and Alaska during the 1976-77 season and was published in the FEDERAL REGISTER on July 28, 1976 (41 FR 31383).

In this connection, the "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75-54)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the FEDERAL REGISTER on June 13, 1975 (40 FR 24241).

The Annual Regulations Conference for Migratory Shore and Upland Game Birds convened on June 22, 1976, in accordance with the notice published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20901). The purposes of this meeting were for the Committee to review the status of mourning doves, woodcock, band-tailed pigeons, white-winged doves, rails, gallinules, and common snipe and discuss proposed hunting regulations for the 1976-77 hunting season. This meeting was open to the public and statements by interested persons were received and considered.

Compliance with Section 7 of the Endangered Species Act of 1973. Section 7 of this Act provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act." Consequently, The Service reviewed all migratory bird regulations being contemplated this year and concluded that none of the proposals, if implemented, would jeopardize any population of birds designated as endangered or threatened under the Act. As in the past, hunting regulations this year are designed to remove or alleviate chances of conflict between seasons for migratory game birds and the protection of endangered or threatened species. Examples of such consideration include closures of desig-

V 41 1 57 AUG 12 76 UMI

nated areas in Alaska and the Aleutian Islands to the taking of Canada geese, for the protection of the Aleutian Canada goose (*Branta canadensis leucopareia*); closures in Puerto Rico for protection of the Plain pigeon (*Columba inornata wetmorei*) and Puerto Rican parrot (*Amazona vittata*); protection of all species of rails in the Pacific Flyway, for the protection of the California, light-footed, and Yuma clapper rails, (*Rallus longirostris* spp.); and the setting of limited lesser sandhill crane seasons in the Central Flyway so as to alleviate risks to the whooping crane (*Grus americana*).

Regulations Promulgation. After analysis of the migratory game bird survey data obtained through investigations conducted by the U.S. Fish and Wildlife Service, by State game departments, and by other sources, and consideration of all comments received on the March 3, 1976, proposals (41 FR 9177), the Service published in the FEDERAL REGISTER on July 2, 1976 (41 FR 27382) supplemental proposed rulemaking containing Proposed Regulations Frameworks for 1976–77 Early Hunting Seasons on Certain Migratory Game Birds. The proposed frameworks contained more specific information than the earlier regulatory proposals (41 FR 9177; March 3, 1976) concerning outside season dates within which hunting seasons could be selected, and season lengths, shooting hours, and bag and possession limits, and areas to be hunted. A 15-day comment period was allowed, ending July 17, 1976.

After due consideration of all comments received on the proposed frameworks, the Service published in the FEDERAL REGISTER on July 28, 1976 (41 FR 31383) Final Regulations Frameworks for 1976–77 Early Hunting Seasons on Certain Migratory Game Birds. Copies of the final frameworks were also sent to the officials of the State game departments who were invited to submit recommendations for hunting seasons which complied with the shooting hours, daily bag and possession limits, season lengths and areas specified in the frameworks.

The taking of the designated species of migratory birds is prohibited unless open hunting seasons are specifically provided. The amendments will permit taking of the designated species within specified periods of time beginning as early as September 1, as has been the case in past years, and benefit the public by relieving existing restrictions.

The Fish and Wildlife Service is of the view that, although the rulemaking process for migratory bird hunting must, by its nature, operate under severe time constraints, every attempt should be made to give the public the greatest possible opportunity to comment on the regulations; thus, when the above-mentioned proposed rulemaking was published, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that at the period's close, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the printing and distribution of Federal and State regulatory announcements and leaflets would be delayed to the extent that hunters would not have regulatory information available prior to the beginning of the hunting seasons. The Service therefore finds "good cause" exists, within the terms of 5 U.S.C. 553 (d)(3) of the Administrative Procedure Act; and these regulations will, therefore, take effect immediately upon publication.

Accordingly, each State game department having had an opportunity to participate in selecting the hunting seasons desired for its State on those species of migratory birds for which open seasons are now to be prescribed, and consideration having been given to all other relevant matters presented, it is determined that certain sections of Title 50, Chapter I, Subchapter B, Part 20, Subpart K, are amended as follows:

Section 20.102 is amended to read as follows:

§ 20.102 Seasons, limits, and shooting hours for Alaska.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

	Ducks	Coots	Brant	Geese	Common (Wilson's) snipe	Lesser Sandhill (Little Brown) cranes
Daily bag limit	7[1]	15	4	6[2]	8	2
Possession limit	21[1]	15	8	12[2]	16	4
Shooting hours	One-half hour before sunrise to sunset daily.					
Season dates in:						
Tribilof and Aleutian Islands, east of Unimak Pass except Unimak Island.	Oct. 9–Jan. 21				Sept. 1–Nov. 4.	Sept. 1–Oct. 15.
Kodiak (State Game Management Unit 8).	Sept. 11–Oct. 10 and Nov. 6–Jan. 21				Sept. 1–Nov. 4.	Sept. 1–Oct. 15.
Aleutian Islands, west of Unimak Pass.	Oct. 9–Jan. 21 (season closed on Canada geese)				Sept. 1–Nov. 4.	Sept. 1–Oct. 15.
Remainder of Alaska and Unimak Island.	Sept. 1–Dec. 16				Sept. 1–Nov. 4.	Sept. 1–Oct. 15.

[1] In addition to the basic daily bag and possession limits, a daily bag limit of 15 and a possession limit of 30 is permitted singly or in the aggregate of the following species: scoter, eider, oldsquaw, harlequin, and American and red-breasted mergansers.

[2] The daily bag and possession limits may not include more than 4 daily and 8 in possession of white-fronted and Canada geese, singly or in the aggregate. In addition to the daily bag and possession limits on other geese, the daily bag limit is 6 and the possession limit is 12 on emperor geese.

Section 20.103 is amended to read as follows:

§ 20.103 Seasons, limits, and shooting hours for mourning and white-winged doves and wild pigeons.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) MOURNING DOVES—EASTERN MANAGEMENT UNIT

Daily bag limit	12
Possession limit	24

Shooting hours: 12 o'clock noon until sunset.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

Seasons in:	
Alabama:	
North zone[1]	Sept. 18–Nov. 3. Dec. 24–Jan. 15.
South zone[1]	Oct. 25–Jan. 2.
Connecticut	Closed.
Delaware	Sept. 11–Oct. 2. Nov. 22–Dec. 11. Dec. 20–Jan. 15.
Florida	Oct. 2–Oct. 31. Nov. 13–Nov. 28. Dec. 18–Jan. 10.
Georgia	Sept. 4–Oct 9. Dec. 11–Jan. 13.
Illinois	Sept. 1–Nov. 9.
Indiana	Closed.
Kentucky	Sept. 1–Oct. 31. Dec. 11–Dec. 19.
Louisiana:	
North zone[2]	Sept. 4–Sept. 19. Oct. 16–Nov. 14. Dec. 18–Jan. 10.
South zone[2]	Oct. 16–Nov. 28. Dec. 18–Jan. 12.

[1] In Alabama, the South Zone consists of the Counties of Baldwin, Clarke, Coffee, Conecuh, Covington, Dale, Escambia, Geneva, Henry, Houston, Mobile, Monroe, and Washington. The North Zone consists of the remaining counties.

[2] In Louisiana, the North Zone is defined as that area lying north of Interstate Highway 10 from the Texas State line to Baton Rouge, Interstate Highway 12 from Baton Rouge to Slidell, and Interstate Highway 10 from Slidell to the Mississippi State line. The South Zone consists of the remainder of Louisiana.

Seasons in:	
Maine	Closed.
Maryland	Sept. 1–Oct. 28. Dec. 20–Dec. 31.
Massachusetts	Closed.
Michigan	Closed.
Mississippi:	
North zone[2]	Sept. 4–Sept. 26. Nov. 6–Nov. 28. Dec. 11–Jan. 3.

Pennsylvania	Sept. 1–Nov. 9.
Rhode Island	Sept. 8–Nov. 16.
South Carolina	Sept. 18–Oct. 23. Nov. 19–Nov. 27. Dec. 22–Jan. 15.
Tennessee	Sept. 1–Sept. 30. Oct. 9–Oct. 17. Dec. 18–Jan. 15.
Vermont	Closed.
Virginia	Sept. 11–Nov. 6. Dec. 20–Jan. 1.
West Virginia	Sept. 1–Nov. 9.
Wisconsin	Closed.
Seasons in:	
Nebraska (shooting hours—15 minutes before sunrise until sunset).	Sept. 1–Oct. 15.
New Mexico[1]	Sept. 1–Oct. 30.
North Dakota	Closed.
Oklahoma	Sept. 1–Oct. 30.
South Dakota	Closed.
Texas:[3]	
North zone shooting hours:	
12 noon until sunset	Sept. 1–Oct. 14.
½ hour before sunrise until sunset	Jan. 1–Jan. 16.
South Zone—Counties of Cameron, Willacy, Hidalgo, Starr, Zapata, Webb, and Maverick — Shooting hours:	
12 noon until sunset	Sept. 25–Nov. 2.
½ hour before sunrise until sunset	Jan. 1–Jan. 16.
Remainder of south zone shooting hours:	
12 noon until sunset	Sept. 25–Nov. 7.
Seasons in:	
Texas—Continued	
Remainder of south zone shooting hours—Continued	
½ hour before sunrise until sunset	Jan. 1–Jan. 16.
Wyoming	Sept. 1–Sept. 30.

[1] In New Mexico, the daily bag limit is 10 and the possession limit is 20 white-winged and mourning doves, singly or in the aggregate of these species.

[2] In Mississippi, the North Zone is defined as that area lying north of State Highway 12 to Kosciusko, and north of State Highway 14 from Kosciusko to the Alabama line. The South Zone consists of the remainder of Mississippi.

[3] In Texas, the North Zone consists of the counties of Kinney, Uvalde, Medina, Bexar, Comal, Hays, Travis, Williamson, Milam, Robertson, Leon, Houston, Cherokee, Nacogdoches, and Shelby and all counties north and west thereof. The Southern Zone consists of all counties south and east of the North Zone.

(b) MOURNING DOVES—CENTRAL MANAGEMENT UNIT

Daily bag limit	10
Possession limit	20

Shooting hours: One half four before sunrise until sunset daily except as noted otherwise.

CHECK STATE REGUATIONS FOR ADDITIONAL RESTRICTIONS

Seasons in:	
Arkansas	Sept. 1–Oct. 5. Dec. 15–Jan. 8.
Colorado (shooting hours—sunrise until sunset)	Sept. 1–Oct. 30.
Iowa	Closed.
Kansas	Sept. 1–Oct. 30.
Minnesota	Closed.
Missouri	Sept. 1–Oct. 30.
Montana	Closed.
Seasons in:	
Texas—Continued	
Remainder of south zone shooting hours—Continued	
½ hour before sunrise until sunset	Jan. 1–Jan. 16.
Wyoming	Sept. 1–Sept. 30.

(c) MOURNING DOVES—WESTERN MANAGEMENT UNIT

Daily bag limit	10
Possession limit	20

Shooting hours: One-half hour before sunrise until sunset.

CHECK STATE REGULATIONS FOR ADDITIONAL RESTRICTIONS

Seasons in:	
Arizona	Sept. 1–Sept. 20 Dec. 11–Jan. 9
California[1]	Sept. 1–Sept. 30 Nov. 20–Dec. 5
Idaho	Sept. 1–Sept. 19
Nevada[1]	Sept. 1–Oct. 20
Oregon	Sept. 1–Sept. 30
Utah	Sept. 1–Sept. 30
Washington	Sept. 1–Sept. 30

[1] In those counties of California and Nevada having an open season on white-winged doves, the daily bag limit is 10 and the possession limit is 20 mourning and white-winged doves, singly or in the aggregate of these species.

NOTICE.—Hawaii—Subject to the applicable provisions of the preceding sections of this part, mourning doves may be taken in accordance with the State regulations.

(d) WHITE-WINGED DOVES

Shooting hours;

All States except Texas—One-half hour before sunrise until sunset.

Texas only—12 o'clock noon until sunset.

North Zone [2]	Sept. 1–Sept. 20	5	10
South Zone [2]	Oct. 2–Oct. 21	5	10
Oregon	Sept. 1–Sept. 30	5	5
Utah [1]	Sept. 1–Sept. 30	5	10
Washington	Sept. 1–Sept. 30	5	5

[1] Every hunter must have been issued and carry on his person while hunting band-tailed pigeons a properly validated special band-tailed pigeon hunting permit issued by the game department of each respective State for the open season in that State. Such a special band-tailed pigeon hunting permit will be issued upon application to the State game department of the State in which hunting is to be done. Permits issued by any State will be valid in that State only. This season shall be open only in the areas described, delineated, and designated as such by the States of Arizona, Colorado, New Mexico, and Utah in their respective hunting regulations.

[2] In New Mexico the North Zone is defined as that area lying north and east of a line following U.S. Highway 60 from the Arizona State line east to Interstate Highway 25 at Socorro and then south along Interstate Highway 25 to the Texas State line. The South Zone is defined as that area lying south and west of a line following U.S. Highway 60 from the Arizona State line east to Interstate Highway 25 at Socorro and then south along Interstate Highway 25 to the Texas State line.

Section 20.104 is amended to read as follows:

§ 20.104 Seasons, limits, and shooting hours for rails, woodcock, and common (Wilson's) snipe.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

	Rails (Sora and Virginia)	Rails (Clapper and King)	Woodcock	Common snipe (Wilson's)
Daily bag limit	[1] 25	See footnote 2	5	8
Possession limit	[1] 25	See footnote 2	10	16
Shooting hours	One-half hour before sunrise until sunset daily on all species, except as noted otherwise.

No seasons are prescribed for rails.
Snipe seasons have been deferred by all other States in the Pacific Flyway. Consult waterfowl regulations to be published later for information concerning these seasons.

[1] The bag and possession limits for sora and Virginia rails apply singly or in the aggregate of these 2 species.
[2] In addition to the limits on sora and Virginia rails, in the States of Connecticut, Delaware, Maryland, New Jersey, and Rhode Island, there is a daily bag limit of 10 and possession limit of 20 clapper and king rails, singly or in the aggregate of these 2 species, and in the States of Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Texas, and Virginia, there is a daily bag limit of 15 and possession limit of 30 clapper and king rails, singly or in the aggregate of these 2 species.
[3] In New Jersey the season for king rails is closed and the season for woodcock is closed on Nov. 5 and reopens on Nov. 6 at 9 a.m.
[4] In the State of New York, shooting hours for woodcock are sunrise until sunset daily.
[5] For description of zones or management units within a State, see the State's regulations.
[6] Seasons apply to Central Flyway portion of State only.

NOTE.—Some States may select rail, woodcock and snipe seasons at the time they select their duck seasons in August. Consult waterfowl regulations to be published later for information concerning these seasons.

Section 20.105 is amended to read as follows:

§ 20.105 Seasons, limits, and shooting hours for waterfowl, coots, and gallinules.

Subject to the applicable provisions of the preceding sections of this part, the areas open to hunting, the respective open seasons (dates inclusive), the shooting hours, and the daily bag and possession limits on the species designated in this section are prescribed as follows:

(a) *Sea Ducks.* (1) An open season for taking scoter, eider, and oldsquaw ducks is prescribed according to the following table during the period between September 18, 1976, and January 20, 1977, in all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in the States of Maine, New Hampshire, Massachusetts, Rhode Island, and Connecticut; in those coastal waters of the State of New York lying in Long Island and Block Island Sounds and associated bays eastward from a line running between Miamogue Point in the Town of Riverhead to Red Cedar Point in the Town of Southampton, including any ocean waters of New York lying south of Long Island; in any waters of the Atlantic Ocean and, in addition, in any tidal waters of any bay which are separated by at least one mile of open water from any shore, island, and emergent vegetation in the States of New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and/or in any tidal waters of any bay which are separated by at least 800 yards of open water from any shore, island, and emergent vegetation in the States of Delaware, Maryland, North Carolina, and Virginia: *Provided, That* any such areas have been described, delineated, and designated as special sea duck hunting areas under the hunting regulations adopted by the respective States. In all other areas of these States and in all other States in the Atlantic Flyway, sea ducks may be taken only during the regular open season for ducks.

(2) The daily bag limit is 7 and the possession limit 14, singly or in the aggregate of these species. During the regular duck season in the Atlantic Flyway, States may set in addition to the limits prescribed for such seasons a daily bag limit of 7 and possession limit of 14 scoter, eider, and oldsquaw ducks, singly or in the aggregate of these species.

(3) Shooting hours are one-half hour before sunrise until sunset daily.

(4) Notwithstanding the provisions of this Part 20, the shooting of *crippled* waterfowl from a motorboat under power will be permitted in the States of Maine, Massachusetts, New Hampshire, Rhode Island, Connecticut, New York, Delaware, Virginia, and Maryland in those areas described, delineated, and designated in their respective hunting regulations as being open to sea duck hunting.

NOTE.—States with deferred seasons may select sea duck seasons at the time they select their waterfowl seasons in August. Consult waterfowl regulations to be published later for information concerning these later seasons.

(b) *Teal.* September season: An open season for teal ducks (blue-winged, green-winged and cinnamon) is prescribed according to the following table in those areas which are described, delineated, and designated in the hunting regulations of the following States:

Daily bag limit	4
Possession limit	8

Shooting hours:
All States except Tennessee—Sunrise to sunset.
Tennessee only—one hour after sunrise until one hour before sunset by State regulation.

PART 32—HUNTING

National Elk Refuge, Wyoming

The following special regulation is issued and is effective August 12, 1976.

§ 32.32 Special regulations: big game; for individual wildlife refuge areas.

WYOMING

NATIONAL ELK REFUGE

Public hunting of elk on the National Elk Refuge, Wyoming, is permitted from October 23 through November 11, 1976, only on the area designated by signs as open to hunting. This open area, comprising 16,327 acres is delineated on maps available at refuge headquarters, Jackson, Wyoming, and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 3035, 316 N. 26th, Billings, Montana 59101. Hunting shall be in accordance with all applicable State regulations covering the hunting of elk subject to the following special conditions:

(1) A special permit is required in addition to a valid 1976 State Elk Hunting license. Eighty special permits (for two hunt periods) shall be issued to applicants by drawing at refuge headquarters at 3:30 p.m. on Friday, October 22, 1976 and every Friday thereafter through November 5, 1976. Thirty permits will be valid for the Saturday through Monday period; ten permits valid Sunday and Monday; thirty permits valid for the Tuesday through Thursday period; and ten permits valid Wednesday and Thursday. No hunting will be permitted on Fridays.

(2) Applicants for a special permit must have a hunter safety certification or a current hunter safety instructor card.

(3) Access to the refuge shall be only through the main gate east of refuge headquarters in Jackson.

(4) Motorized vehicle travel in the hunt area is prohibited. Entry into the hunt area will be restricted to foot or horseback travel. Hunters may use horses for riding and packing. Retrieval of kills will be either by dragging, backpacking, wheeled carts (non-motorized), or by horse packing.

(5) Persons without permits may accompany special permit holders, but only permit holders are allowed to possess a firearm. Anyone entering hunt area must have fluorescent orange exterior garments.

(6) Persons successful in drawing a permit may not draw again in succeeding drawings.

(7) Citizens Band (C.B.) radios are not allowed in hunt area.

(8) Vehicles are to be parked only in designated parking areas.

(9) Permits will be revoked in the event of a violation of refuge regulations and violations can result in denial of future privileges as per the Code of Federal Regulations.

The provisions of this special regulation supplement the regulations which govern hunting on a wildlife refuge area generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 11, 1976.

DON E. REDFEARN,
Refuge Manager, National Elk Refuge, Jackson, Wyoming.

AUGUST 4, 1976.

[FR Doc.76-23536 Filed 8-11-76; 8:45 am]

PART 32—HUNTING

Clear Lake National Wildlife Refuge

The following special regulation is issued and is effective on August 28, 1976.

§ 32.32 Special Regulations; big game; for individual wildlife refuge areas.

CALIFORNIA

CLEAR LAKE NATIONAL WILDLIFE REFUGE

Public hunting of big game on the Clear Lake National Wildlife Refuge, California, is permitted on the area designated by signs as open to hunting, and delineated on a map available at the refuge headquarters, Route 1, Box 74, Tulelake, California 96134, and from the Regional Director, Fish and Wildlife Service, P.O. Box 3737, Portland, Oregon 97208.

Hunting of big game is permitted during the period August 28 through September 6, 1976, in accordance with all applicable State regulations subject to the following special conditions:

Special Conditions: 1. Antelope only, may be hunted.

2. Only five hunters shall be allowed on the Peninsula "U" section at any one time, on a first-come first-served basis. The area will be open the following days: August 28 and 29, and September 4, 5 and 6, 1976. Entrance will be granted only at the gate located on the Clear Lake Road. This station will be opened from 6:00 a.m. to one hour after sundown. The refuge will be closed when the kill quota is reached even though the season may still be open.

The provisions of these special regulations are effective through September 6, 1976.

DONALD J. HANKLA,
Acting Regional Director,
Fish and Wildlife Service.

[FR Doc.76-23459 Filed 8-11-76;8:45 am]

PART 32—HUNTING

DeSoto National Wildlife Refuge

The following special regulation is issued and is effective on August 12, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NEBRASKA

DE SOTO NATIONAL WILDLIFE REFUGE

Public hunting of deer on the DeSoto National Wildlife Refuge, Nebraska, is permitted on the areas designated by signs as open to hunting, subject to the following special regulations:

(1) Archery deer hunting will be allowed on that portion of the area located west of the present Missouri River channel. This area, comprising 1,200 acres, is delineated on maps available at refuge headquarters and from the Area Manager, U.S. Fish and Wildlife Service, 601 E. 12th Street, Federal Building, Kansas City, Missouri 64106. Hunting shall be in accordance with all state regulations governing the hunting of deer with bow and arrow and shall be permitted only during the regular Nebraska archery season, September 18 through November 12, 1976, and November 22 through December 31, 1976.

(2) Muzzleloader deer hunting will be allowed on a limited special permit basis on that portion of the refuge located within the state of Nebraska east of the present Missouri River channel. This area contains approximately 3,350 acres. A total of 100 special permits will be issued by the Nebraska Game and Parks Department and the permit must be exhibited in order to enter upon the area. Muzzleloader rifles are the only weapons allowed and deer are the only legal wildlife species that may be taken during the muzzleloader season. Hunting will be in accordance with all applicable state and federal regulations governing the hunting of deer with muzzleloaders and shall be permitted for five consecutive days following the close of the Iowa-Nebraska waterfowl hunting seasons. Specific deer hunting dates will be determined following the establishment of waterfowl hunting season dates.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1976.

DAVID E. HEFFERNAN,
Assistant Refuge Manager, DeSoto National Wildlife Refuge, Missouri Valley, Iowa 51555.

JULY 27, 1976.

[FR Doc.76-23460 Filed 8-11-76;8:45 am]

PART 32—HUNTING

De Soto National Wildlife Refuge

The following special regulation is issued and is effective on August 12, 1976.

§ 32.32 Special Regulations: big game; for individual wildlife refuge areas.

IOWA

DE SOTO NATIONAL WILDLIFE REFUGE

Public archery hunting of deer on the DeSoto National Wildlife Refuge, Iowa, is permitted only on the area designated by signs as open to hunting. This open area comprising 660 acres is delineated on a map available at the refuge headquarters and from the Area Manager, U.S. Fish and Wildlife Service, 601 E. 12th Street, Kansas City, Missouri 64106. Hunting shall be in accordance with all state regulations governing the hunting of deer with bow and arrow and shall be permitted only during the regular Iowa archery deer season, October 2 through November 26, 1976.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32, and are effective through November 26, 1976.

DAVID E. HEFFERNAN,
Assistant Refuge Manager, DeSoto National Wildlife Refuge, Missouri Valley, Iowa 51555.

JULY 27, 1976.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 240—REGULATED COMMERCIAL FISHERIES

1976 Herring Catch Quota

On May 21, 1976 there were published in the FEDERAL REGISTER (41 FR 20885), amendments to Part 240—Regulated Commercial Fisheries, Subpart E, which among other things established a catch quota for herring of 9,400 metric tons for the period January 1 to June 30, 1976, in Division 5Z of Subarea 5 and Statistical Area 6 in the ICNAF Convention Area of the Northwest Atlantic. In addition, directed fishing for herring was prohibited in Division 5Z of Subarea 5 and Statistical Area 6 during the period January 1 to June 30, 1976, with vessels greater than 110 feet (33.5 meters) in length.

At the annual meeting in Montreal, Canada, June 8–23, 1976, the International Commission for the Northwest Atlantic Fisheries (ICNAF) agreed to a total allocation of 12,400 metric tons of herring for the United States for 1976. This total annual allocation includes the 9,400 metric tons provided for the period January 1 to June 30, 1976. The prohibition of using vessels greater than 110 feet in length in a directed fishery for herring in Division 5Z of Subarea 5 and Statistical Area 6 has been removed for the remainder of 1976.

Accordingly, § 240.41 (a)(3) and (4) are revised to read as follows:

§ 240.41 Catch quota.

(a)(1) * * *

(3) The annual catch of herring by persons or fishing vessels fishing in Division 5Z of Subarea 5 and Statistical Area 6 shall not exceed 12,400 metric tons.

(4) A directed fishery for herring in Division 5Z of Subarea 5 and Statistical Area 6 is permitted with purse seiners or vessels of any length from July 1 to December 31, 1976.

These regulations are issued under the authority contained in the Northwest Atlantic Fisheries Act of 1950 (16 U.S.C. 986). Because of the need for immediate guidance with respect to the provisions contained in these regulations and the fact that they relate to a foreign affairs function of the United States under 5

V 41 157 AUG 12 76 UMI

U.S.C. 553(a)(1), it is found unnecessary to issue a notice of proposed rule making under 5 U.S.C. 553(b) or subject these regulations to the effective date limitation of 5 U.S.C. 553(d). Therefore, under the provisions of 5 U.S.C. 553(d)(3) and 553(b)(B), these regulations are effective on August 12, 1976.

Issued at Washington, D.C., and dated August 9, 1976.

ROBERT W. SCHONING,
Director,
National Marine Fisheries Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Proposed Change in Customs Region IV

In order to provide better Customs service in Tampa, Florida, Customs district (Region IV), it is proposed to establish a Customs port of entry at Orlando, Florida.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), and delegated to the Secretary of the Treasury by Executive Order No. 10289, September 17, 1951 (3 CFR, 1949–1953 Comp., Ch. II), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 11 (41 FR 20198), Orlando, Florida, is hereby proposed as a Customs port of entry in the Tampa, Florida, Customs district (Region IV).

The geographical limits of the proposed port of entry will include all the territory within the following boundaries:

Beginning at the intersection of the Seaboard Coast Line Railroad right-of-way and the Bee Line Expressway (State Road No. 528), proceeding in an easterly direction along the Bee Line Expressway to its intersection with State Road No. 15, then proceeding due south to the boundary between Orange and Osceola Counties, Florida, then proceeding west along the boundary between Orange and Osceola Counties, Florida, to the Seaboard Coast Line Railroad right-of-way, then proceeding northerly along the Seaboard Coast Line Railroad right-of-way to its intersection with the Bee Line Expressway.

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before September 13, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with section 103.8 (b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

Dated: August 9, 1976.

DAVID R. MACDONALD,
Assistant Secretry of the Treasury.

[FR Doc.76-23650 Filed 8-11-76;8:45 am]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 32]

HUNTING

Proposed Opening of Ottawa National Wildlife Refuge, Ohio, to Hunting of Migratory Game Birds

Notice is hereby given that it is proposed that 50 CFR Part 32 be amended by the addition of the Ottawa National Wildlife Refuge, Ohio, to the list of refuge areas open for the hunting of migratory game birds, which is published at 50 CFR § 32.11.

Pursuant to the authority of 16 U.S.C. § 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director may open refuge areas to public hunting upon a determination that it would be in accordance with provisions of all laws applicable to the area, would be compatible with the principles of sound wildlife management, would otherwise be in the public interest and that such use is compatible with the major purposes for which such areas were established. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation. It is the purpose of this proposed rulemaking to allow the hunting of migratory game birds on the Ottawa National Wildlife Refuge, which is presently prohibited.

Furthermore, pursuant to the requirements of § 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. § 4332(2)(C)), an environmental assessment has been prepared on this proposal which will help determine whether this rulemaking constitutes a major federal action significantly affecting the human environment. A copy of this assessment is available at the address below.

The policy of the Department of the Interior is, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Regional Director, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111 by September 10, 1976.

Accordingly, it is proposed to amend § 32.11, in Title 50 of the Code of Federal Regulations by the addition of:

OHIO

Ottawa National Wildlife Refuge

Dated: August 6, 1976.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 911]

HANDLING OF LIMES GROWN IN FLORIDA

Consideration is being given to the following proposal, as hereinafter set forth, which would continue through October 30, 1976, suspension of the use of 10-pound containers for the handling of fresh Florida limes. Such suspension is scheduled to end on August 28. The suspension is effective under Lime Regulation 27 (38 FR 12323; 15726; 41 FR 19299; 30343) which continues to authorize the use of six containers with minimum content requirements of 20 pounds and 38 pounds, net weight of limes.

The proposed amendment was submitted by the Florida Lime Administrative Committee, established under the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal reflects the committee's appraisal of present and prospective marketing conditions for limes.

The committee reports that trade reaction has been favorable during the period of suspension of the 10-pound containers and that supplies of limes will continue heavy through October 30. Limiting shipments to the larger 20- and 38-pound containers results in lower container costs and handling and marketing charges for a given volume of limes. Indications are that the lower packing charges enables lower f.o.b. prices. Such prices should encourage increased sales during the period of heaviest lime supplies and help maintain orderly marketing conditions.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in quadruplicate with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than August 18, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Such proposal reads as follows:

Amend the provisions of paragraph (a)(2) of § 911.329 (Lime Regulation 27; 38 FR 12323; 15726; 41 FR 19299; 30343) to read as follows:

V 41 157 AUG 12 76 UMI

§ 911.329 Lime Regulation 27.

(a) • • •

(2) During the period August 29, 1976, through October 30, 1976, no handler shall handle any variety of limes, grown in the production area, in containers having inside dimensions of 12 x 9⅝ x 3¾ inches and 12 x 9⅝ x 5 inches: *Provided*, That during such period and thereafter no handler shall handle between the production area and any point outside thereof any variety of limes, grown in the production area, in individual bags having a capacity of more than 4 pounds net weight of limes.

• • • • • •

Dated: August 9, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 927]

BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Proposed Rulemaking

This notice invites written comments relative to the continuation of Pear Regulation 15 (§ 917.315; 41 FR 31181) which will expire on September 15, 1976. Said regulation specifies that all interstate shipments of fresh Beurre D'Anjou, Beurre Bosc, Winter Nelis, and Doyenne du Comice varieties of winter pears grown in Oregon, Washington, or California must meet certain grade, size and other requirements. Those requirements for Beurre D'Anjou variety are that such pears grade at least U.S. No. 2 and be not smaller than 165 size. However, any handler may ship a quantity of 180 size that grade at least U.S. No. 1 which quantity may not exceed 2 percent of his total D'Anjou shipments grading U.S. No. 1 or better. Beurre D'Anjou pears bearing unhealed skin punctures not exceeding 3/16 inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are not smaller than 135 size. All such pears shipped from the Medford, Hood River-White Salmon-Underwood, Wenatchee, and Yakima Districts must have had their core temperature lowered to 35° Fahrenheit, or less, prior to shipment as certified by the Federal-State Inspection Service.

Beurre Bosc pears must grade at least U.S. No. 2 and be not smaller than 180 size. Beurre Bosc pears bearing unhealed skin punctures not exceeding 3/16 inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are not smaller than 135 size.

Winter Nelis pears must grade at least U.S. No. 2 and be not smaller than 195 size.

Doyenne du Comice pears must grade at least U.S. No. 2 and be not smaller than 165 size, however, such pears bearing unhealed skin punctures not exceeding 3/16 inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are not smaller than 135 size.

The regulation also provides that any handler may ship not more than 200 standard western pear boxes of any variety of uninspected pears on a single conveyance after having secured permission from the Control Committee to do so. All such shipments must be reported to the committee to facilitate spot check inspections.

Accordingly, consideration is being given to the following proposal submitted by the Control Committee, established pursuant to the marketing agreement, as amended, and Order No. 927, as amended (7 CFR Part 927), which regulate the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is to amend § 927.315 (Pear Regulation 15; 41 FR 31181) to continue the effective period thereof through Jnue 30, 1977, except that the aforementioned core temperature requirements for Beurre D'Anjou pears would be continued through October 15, 1976. Unless so amended the regulation will expire on September 15, 1976.

All persons who desire to submit written data, views, or arguments for consideration in connection with Winter Pear Regulation 15, as published in the FEDERAL REGISTER on July 27, 1976 (41 FR 31181), or the proposed amendment published herein, shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 27, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed regulation is as follows:

§ 927.315 Pear regulation 15.

Order. (a) During the period August 1, 1976, through June 30, 1977, no handler shall ship any of the following varieties of pears which do not meet the requirements hereinafter specified.

(1) Beurre D'Anjou pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2 except that any handler may ship a quantity of Beurre D'Anjou pears that are not smaller than 180 size and not less than U.S. No. 1 grade which quantity shall not exceed 2 percent of the total U.S. No. 1 or better grades of such variety shipped by the handler, during the aforesaid period: *Provided*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size;

(2) Beurre D'Anjou pears shipped from the Medford, Hood River-White Salmon-Underwood, Wenatchee, and Yakima Districts through October 15, 1976, shall have an appropriate certification by the Federal-State Inspection Service, issued prior to shipment, showing that the core temperature of such pears has been lowered to 35° Fahrenheit or less;

(3) Beurre Bosc pears shall grade at least U.S. No. 2 and shall be of a size not smaller than 180 size: *Provided*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size;

(4) Doyenne du Comice pears shall be of a size not smaller than 165 size and shall grade at least U.S. No. 2: *Provided*, That pears of such variety which bear unhealed skin punctures not exceeding 3/16 of an inch in diameter may be shipped if they otherwise grade at least U.S. No. 1 and are of a size not smaller than 135 size; and

(5) Winter Nelis pears shall be of a size not smaller than 195 size and shall grade at least U.S. No. 2.

(b) During the aforesaid period, each handler may ship on any one conveyance up to, but not to exceed, 200 standard western pear boxes of any variety of pears, or an equivalent quantity of pears in other containers computed by weight to the nearest 5 pounds, without regard to the inspection requirements of § 927.60(a), under the following conditions:

(1) Each handler desiring to make shipments of pears pursuant to this paragraph shall first apply to the committee, on forms furnished by the committee, for permission to make such shipments. At the time of any such shipment the handler shall report to the committee, on forms supplied by the committee, the car or truck number and the destination of the shipment.

(2) On the basis of such individual reports the committee shall require spot check inspection of such shipments.

(c) When used herein, "U.S. No. 1" and "U.S. No. 2" shall have the same meaning as when used in the United States Standards for Winter Pears such as Anjou, Bosc, Winter Nelis, Comice, and Other Similar Varieties (7 CFR 51.1300–51.1323); "135 size", "165 size", "180 size", and "195 size" shall mean that the pears of such designated sizes will pack, in accordance with the sizing and packing specifications of a standard pack as specified in said United States Standards, 135, 165, 180, or 195 pears, respectively, in a standard western pear box (inside dimensions 18 inches long by 11½ inches wide by 8½ inches deep); and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 9, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

[Docket No. 75P-0370]

SMALL INDIVIDUAL SERVING SIZE PACKAGED FOODS

Type-Size Exemption for Package Labels

The Food and Drug Administration (FDA) is proposing to permit a 1/32-inch type size to be used to print the information required on the labels of small packaged foods if the food is for institutional food service use and if there is insufficient space on the package to print the information required by existing regulations. Comments may be filed on or before October 12, 1976.

The Commissioner of Food and Drugs received a petition on behalf of Avoset Food Corp., a SmithKline Corp., Philadelphia, PA, proposing to amend § 1.8d (c) (21 CFR 1.8d(c)) to permit use of 1/32-inch type for information specified in § 1.8d(b) as required for labels of single-serving packages of foods or condiments intended principally for institutional food service use. The petitioner requested that § 1.8d(c) be amended by adding a new paragraph to read as follows:

§ 1.8d—Food labeling; information panel.

• • • • • •

(c) • • •

(5) Packaged foods are exempt from the type-size requirements of this paragraph: *Provided*, That

(i) The package is designed such that it has a single surface available to bear labeling, whose total printable area is less than three (3) square inches.

(ii) The package is designed to contain a single serving of food or condiment.

(iii) The package is intended principally for institutional food service use.

(iv) The label information includes a full list of ingredients in accordance with regulations in this part and the policy expressed in § 3.88 of this chapter.

(v) The information required by paragraph (b) of this section appears in accordance with the provisions of this paragraph (c) except that the type-size is not less than 1/32 inch in height.

In support of the proposal, the SmithKline Corp. contended that small-portion foods such as salad dressings, cream, table sirups, and others intended principally for institutional food service in prepackaged single-serving containers are subject to labeling requirements of § 1.8d. The packages are often designed so that the food is held in a cup that is covered with foil or paper laminate that adheres to the rim of the cup so as to seal the container. The petitioner asserted that this cover, which has no more than 3 square inches available to bear labeling, provides the only suitable label space and that space is insufficient to print all information required by § 1.8d (b).

Further, the petitioner stated that the proposed regulation provides a practical alternative to existing type size requirements: even in the absence of nutrition information labeling, it is often physically impossible to comply with the existing regulations.

The stated intent of the petitioner's proposal is to permit information on package labels of single servings of food or condiments to be printed in not less than 1/32-inch type size and that there be no requirement that nutrition labeling be included, provided there is insufficient space available to print the required information in the not less than 1/16-inch type size as presently required by § 1.8d(c).

The full petition is available for inspection at the Office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852.

The Commissioner has considered the petition and agrees that the proposal should be published for comment. However, the regulation as proposed by the petitioner would also have the effect of exempting packages of food sold at retail. Because the Commissioner has noted consistent consumer objections to type size exemption for retail package labels, and because the petitioner presented no information showing that such an exemption was needed for packages sold at retail, the Commissioner is proposing to exclude from the exemption the labels of small packaged foods intended for retail sale.

The regulation proposed by the petitioner would also exempt the labels of all packaged foods having a single surface available to bear labeling if the printable area is less than 3 square inches, whether or not there is sufficient space to print the information in the required type size. For example, although there may be insufficient space available on the package label to print the required information for a food such as a "salad dressing" in a type size of not less than 1/16 inch in height, there would likely be space available on a package label of the same size to print in 1/16-inch type the required information for a food such as "cream". The Commissioner has consistently opposed exemptions because of small label size if available container or package area has not been fully used. The Commissioner has also opposed type-size exemptions on the basis of insufficiency of labeling space if it is caused by including nonmandatory information or giving unnecessary prominence to required information. Accordingly, the Commissioner advises that packages having sufficient space available to meet present labeling requirements would not be entitled to the proposed exemption, regardless of the size of the printable area. Packages that have sufficient area for printing the required information in a 1/16-inch type size will be required to do so.

The Commissioner is proposing to expand the exemption to include packages with more than one surface available to bear labeling if the total printable area is less than 3 square inches. The petitioner based its proposal on a particular packaging style, i.e., a cup sealed with foil or paper laminate adhering to the rim. On this basis, the petitioner proposed that the exemption be applicable to packages having a single surface available to bear labeling. The Commissioner recognizes that there may be other packaging styles that have more than a single surface available to bear labeling but that nevertheless have a total surface area of 3 square inches or less available to bear labeling. The Commissioner, therefore, concludes that the proposed exemption should not be limited to packages with a "single surface available to bear labeling" and is deleting this provision from the proposed regulation; so, when the other conditions are met, the exemption will be applicable to packages of other designs with 3 square inches or less of surface area available for labeling.

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action would not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. The Commissioner has also carefully considered the inflation impact of the proposed regulation in accordance with Executive Order 11821, OMB Circular A–107, and the Guidelines issued by the Department of Health, Education, and Welfare. No major inflation impact has been found. Copies of the FDA environmental and inflation impact assessments are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201, 403, 701 (a), 52 Stat. 1040–1042 as amended, 1047–1048 as amended, 1055 (21 U.S.C. 321, 343, 371(a))) and under authority delegated to him (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the Commissioner proposes that Part 1 be amended in § 1.8d by adding new paragraph (c) (5) to read as follows:

§ 1.8d Food labeling: Information panel.

• • • • • •

(c) • • •

(5) Individual serving-size packages of food served with meals in restaurants, institutions, and on board passenger carriers, and not intended for sale at retail, are exempt from type-size requirements of this paragraph, provided:

(i) The package has a total area of less than 3 square inches available to bear labeling;

(ii) There is insufficient area on the package available to print all required information in a type size of 1/16 inch in height;

(iii) The label information includes a full list of ingredients in accordance with regulations in this part and the policy expressed in § 3.88 of this chapter; and

(iv) The information required by paragraph (b) of this section appears on the label in accordance with the provisions of this paragraph, except that the type size is not less than 1/32 inch in height.

• • • • • •

Interested persons may, on or before October 12, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville,

V 41 1157 AUG 12 76 UMI

MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 6, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[FR Doc.76-23468 Filed 8-11-76;8:45 am]

[21 CFR Part 500]

[Docket No. 76N-0287]

TIMED-RELEASE DOSAGE FORM DRUGS FOR VETERINARY USE

Proposal To Require NADA Approval

The Food and Drug Administration proposes to redesignate and amend the timed-release dosage form regulation as it relates to new animal drug status. Interested persons have until October 12, 1976, to submit comments.

In the FEDERAL REGISTER of May 9, 1959 (24 FR 3756), the Commissioner of Food and Drugs issued § 200.31 *New drug status of timed-release dosage form drugs* (21 CFR 200.31, formerly § 3.512 before recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13996)) providing that dosage form drugs that are designed to release the active ingredient(s) over a prolonged period are not generally recognized as safe for such use and therefore are new drugs as defined in section 201(p) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(p)). When this section was promulgated, section 201(p) of the act did not distinguish between new drugs for use in man and those for use in other animals. At the time the Animal Drug Amendments of 1968 (Pub. L. 90-399) redefined section 201(p) of the act to exempt from its provisions a new animal drug and established a new section 201(w) (21 U.S.C. 321(w)) defining a new animal drug, § 200.31 was not revised accordingly, even though its provisions continued to apply to timed-release drugs for use in animals.

The Commissioner is now proposing a new regulation regarding timed-release drugs for use in animals; it provides that in addition to questions relating to the safety of such articles, questions relating to their effectiveness must be addressed. Enactment of the Drug Amendments of 1962 included the additional requirement that drugs must be shown to be effective before approval.

Drugs produced in timed-release dosage form are designed to release the active ingredients of the drugs over a prolonged period of time. It is possible that an unsafe overdosage of drugs could occur if such products are improperly made and the active ingredients are released at one time or over too short a time interval; also, such products may not be effective if the active ingredients are not released at the proper rate. All timed-released dosage form drugs for veterinary use are regarded as new animal drugs within the meaning of section 201(w) of the act. The labeling claims of this kind of drug product, i.e., claims of delayed, prolonged, controlled, or sustained release of all or only some of the active ingredients of a drug, have no effect on the new animal drug status of such article.

An NADA is necessary to demonstrate safety and effectiveness of the drug by establishing that the article is properly made to assure a controlled release of the total dosage of the active drug ingredient(s) at a safe and effective rate. Data submitted in the NADA must demonstrate that the formulation and manufacturing procedures for the drug will ensure release of the active ingredient(s) of the drug at a safe and effective rate under conditions of use and that these release characteristics will be maintained until the expiration date of the drug. When the drug is used in food-producing animals, food from such animals must be evaluated for safety because drug residues may be present.

Timed-release dosage form animal drugs that are introduced into interstate commerce are deemed to be adulterated within the meaning of section 501(a)(5) of the act (21 U.S.C. 351(a)(5)) and subject to regulatory action unless such animal drug is the subject of an approved NADA. The interim marketing provisions of § 510.450 (21 CFR 510.450) do not apply to timed-release products covered under the proposed regulation below.

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action will not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. The Commissioner has also carefully considered the inflation impact of the proposed regulation as required by Executive Order 11821, OMB Circular A-107, and the Guidelines issued by the Department of Health, Education, and Welfare, and no major inflation impact has been found. Copies of the FDA environmental and inflation impact assessments are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 512, 701 (a), 52 Stat. 1055, 82 Stat. 343-351 (21 U.S.C. 360b, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), it is proposed that Part 500 be amended in Subpart B by adding § 500.26 to read as follows:

§ 500.26 Timed-release dosage form drugs.

(a) Drugs are being offered in dosage forms that are designed to release the active ingredients over a prolonged period of time. There is a possibility of unsafe overdosage or ineffective dosage if such products are improperly made and the active ingredients are released at one time, over too short or too long a period of time, or not released at all. Drugs marketed in this form, which are referred to by such terms as timed-release, controlled-release, prolonged-release, sustained-release, or delayed-release drugs, are regarded as new animal drugs within the meaning of section 201(w) of the Federal Food, Drug, and Cosmetic Act.

(b) Timed-release dosage form animal drugs that are introduced into interstate commerce are deemed to be adulterated within the meaning of section 501(a)(5) of the act and subject to regulatory action unless such animal drug is the subject of an approved new animal drug application as required by paragraph (a) of this section.

(c) The fact that the labeling of this kind of drug may claim delayed, prolonged, controlled, or sustained-release of all or only some of the active ingredients does not affect the new animal drug status of such articles. A new animal drug application is required in any such case.

(d) New animal drug applications for timed-release dosage form animal drugs must contain, among other things, data to demonstrate safety and effectiveness by establishing that the article is manufactured using procedures and controls to ensure release of the total dosage at a safe and effective rate. Data submitted in the new animal drug application must demonstrate that the formulation of the drug and the procedures used in its manufacture will ensure release of the active ingredient(s) of the drug at a safe and effective rate and that these release characteristics will be maintained until the expiration date of the drug. When the drug is intended for use in food-producing animals, data submitted must also demonstrate that, with respect to possible residues to the drug, food derived from treated animals is safe for consumption.

Interested persons may, on or before October 12, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 5, 1976.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[45 CFR Part 146]

MODERN FOREIGN LANGUAGE AND AREA STUDIES

Proposed Mandatory Requirements

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92-318) and pursuant to the authority contained in Title VI of the National Defense Education Act of 1958, as amended (20 U.S.C. 511-513), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45 of the Code of Federal Regulations by amending Part 146, with accompanying guidelines, to read as set forth below.

The proposed regulations contains all mandatory requirements for the program. The guidelines contain material in the nature of suggestions and recommendations for program management and operation.

1. PROGRAM PURPOSE

It is the purpose of this part to provide Federal financial assistance to institutions of higher education (a) for the establishment and operation of centers for the teaching of modern foreign languages and such other related fields needed to provide a full understanding of the areas in which such languages are commonly used and international studies with other than a modern foreign language and area studies focus, (b) for the establishment and operation of programs in international studies and the international aspects of professional and other fields of study at the undergraduate level and graduate level, (c) for the award of fellowships to individuals undergoing advanced training in any center, or under any program receiving Federal financial assistance under the Act, and (d) for research, including (1) the conduct of studies and surveys to determine the need for increased or improved instruction in modern foreign languages and other related fields; (2) research on more effective teaching methods; and (3) development of specialized materials for training in foreign languages or related fields.

(20 U.S.C. 511, 512)

2. SECTION 503 PROCEDURES AND EFFECT

Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representative concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations and guidelines proposed below reflect the results of this study as it pertains to programs authorized by Title VI of the National Defense Education Act of 1958. Upon publication of the revised Part 146 in final form, after comments and hearing, all preceding rules, regulation, guidelines, and other published interpretations and orders issued in connection with or affecting Title VI of the National Defense Education Act will be superseded, effective 30 days after such publication.

3. EFFECT OF OFFICE OF EDUCATION GENERAL PROVISIONS REGULATIONS

The proposed regulations do not include provisions relating to general fiscal and administrative matters which are covered in the overall Office of Education General Provsions Regulation (45 CFR 100a).

4. CITATIONS OF LEGAL AUTHORITY

As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972 (Pub. L. 92-318), a citation of statutory or other legal authority for each section or other division of the regulations and guidelines has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

5. OPPORTUNITY FOR PUBLIC HEARING

Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations and guidelines. A hearing will be held on September 28, 1976, commencing at 10 a.m., at the Office of Education in the auditorium of Regional Office Building Three, located at 7th and D Streets, SW., Washington, D.C. 20202. The purpose of the hearing is to receive comments and suggestions on the published materials. Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue, SW., Room 4012, FOB 6, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on section 503, and are urged to shubmit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his or her presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 8:30 a.m. and 4:00 p.m. Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Nos. 13.434 (Foreign Language and Area Studies—Fellowships), 13.435 (Foreign Language and Area Studies—Centers), and 13.436 (Foreign Language and Area Studies—Research))

Dated: May 27, 1976.

T. H. BELL,
U.S. Commissioner of Education.

Approved: August 4, 1976.

MARJORIE LYNCH,
Acting Secretary of Health, Education, and Welfare.

Part 146 is revised to read as follows:

PART 146—MODERN FOREIGN LANGUAGE AND AREA STUDIES

Subpart A—General Provisions

Sec.
146.1 Scope and purpose.
146.2 Definitions.
146.3 General provisions regulations.

Subpart B—International Studies Centers

146.11 Scope.
146.12 Core instructional activities.
146.13 Educational outreach activities.
146.14 Criteria for selection of centers.
146.15 Applications.
146.16 Allowable costs.
146.17 Multiyear projects.

Subpart C—Graduate and Undergraduate International Studies Programs

146.21 Scope.
146.22 Graduate international studies programs: activities.
146.23 Undergraduate international studies programs: activities.
146.24 Criteria for selection of graduate and undergraduate international studies programs.
146.25 Applications.
146.26 Allowable costs.
146.27 Multiyear projects.

Subpart D—Foreign Language and Area Studies Fellowships

146.31 Fellowship authorization.
146.32 Allocation of fellowships among institutions.
146.33 Criteria for determination of institutional fellowship quotas.
146.34 Institutional applications.
146.35 Student eligibility.
146.36 Application and selection of fellows.
146.37 Duration, amount, and payment of fellowships.
146.38 Employment.
146.39 Oath and criminal information.
146.40 Student responsibilities.
146.41 Responsibilities of institutions receiving quotas of fellowships.

Subpart E—Research and Studies

146.51 Scope.
146.52 Eligible applicants.
146.53 Applications.
146.54 Research activities.
146.55 Criteria for selection of research projects.

AUTHORITY: Sec. 503 Education Amendments of 1972, Pub. L. 92-318; Title VI, National Defense Education Act of 1958 (20 U.S.C. 511-513).

Subpart A—General Provisions

§ 146.1 Scope and purpose.

It is the purpose of this part to provide Federal financial assistance to institutions of higher education (a) for the establishment and operation of centers for the teaching of modern foreign languages and such other related fields needed to provide a full understanding of the areas in which such languages are commonly used and international studies with other than a modern foreign language and area studies focus, (b) for the establishment and operation of programs in international studies and the international aspects of professional and other fields of study at the undergraduate level and graduate level, (c) for the award of fellowships to individuals undergoing advanced training in any center, or under any program receiving Federal financial assistance under the Act, and

V 41 157 AUG 12 76 UMI

(d) for research, including (1) the conduct of studies and surveys to determine the need for increased or improved instruction in modern foreign languages and other related fields; (2) research on more effective teaching methods; and (3) development of specialized materials for training in foreign languages or related fields.

(20 U.S.C. 511, 512)

§ 146.2 Definitions.

(a) "Act" means Title VI of the National Defense Education Act of 1958 as amended.

(20 U.S.C. 511–513)

(b) "Academic year" means a period of time, generally not less than 8 months, in which a full-time student would normally be expected to complete the equivalent of two semesters, two trimesters, or three quarters.

(c) "Center" means an officially designated academic unit of an institution of higher education (or a combination of institutions), with its own administrative structure, encompassing various academic disciplines, such as anthropology, art, business, economics, education, history, law, music, and political science, through which a concentration of educational resources is made available for training in modern foreign languages, for instruction in related fields needed to provide a full understanding of the areas, regions, or countries in which such languages are commonly used, or for training and research in international studies and the international aspects of professional and other fields of study.

(20 U.S.C. 511–512)

(d) "Institution of higher education" means an institution of higher education as defined in section 103(b) of the National Defense Education Act of 1958.

(20 U.S.C. 403)

(20 U.S.C. 511–512 unless otherwise noted)

§ 146.3 General provisions regulations.

Assistance under this part is subject to the applicable provisions of Subchapter A of this chapter relating to fiscal, administrative property management, and other matters (General Provisions for Office of Education Programs—45 CFR 100a).

(20 U.S.C. 511–512)

Subpart B—International Studies Centers

§ 146.11 Scope.

(a) The Commissioner is authorized to award grants to and contracts with institutions of higher education or consortia of such institutions to pay part of the costs of operating international studies centers. A center may be one of the following two types:

(1) One type of center will provide instruction primarily during the academic year on both the graduate level and the undergraduate level (unless undergraduate instruction is not offered at the institution) in modern foreign languages and area studies or in international studies with other than a modern foreign language and area studies focus.

(2) The other type of center will offer instruction during the academic year on the undergraduate level in modern foreign language and area studies or international studies with other than a modern foreign language and area focus. This undergraduate center shall provide training for students planning to continue their study at the graduate or professional level and shall also help to prepare students for direct entrance into a profession, such as education or business, in which specialized training in international studies plays a significant role.

(b) Such centers may focus upon one world region and offer instruction in its principal languages and in related disciplines necessary to provide a full knowledge of that area or they may focus upon international or comparative multidisciplinary studies. The majority of the centers funded, either at the undergraduate, graduate, or combined graduate and undergraduate levels, will focus on single world areas. Such world areas include East Asia (including Japan, China, and Korea), South Asia (India, Sri Lanka, and Pakistan), the Middle East (including North Africa), the Soviet Union and Eastern Europe, Africa, Latin America, Southeast Asia (including Indonesia and the Philippines as well as Vietnam, Cambodia, Laos, Thailand, Malaysia, and Burma), contemporary Western Europe, Canada, and Inner Asia. Of the total number of centers assisted, it is anticipated that not more than 20 percent will be undergraduate centers and not more than 20 percent will be centers with other than a primary focus on foreign language and area studies, such as comparative area studies or international affairs.

(c) Center activities shall be carried out primarily within the United States and principally on the campus (or campuses) of the institution(s) involved.

(20 U.S.C. 511(a))

§ 146.12 Core instructional activities.

(a) Centers offering instruction in modern foreign language and area studies must concentrate on one world region (such as East Asia or Africa) and offer instruction in two or more of that region's principal languages. They shall also offer instruction in other fields which are needed to provide a full understanding of the areas, regions, or countries in which the languages are commonly used.

(b) Centers offering instruction in international studies with other than a single area studies focus may offer instruction in international relations (such as diplomacy, law, economics, and politics), in comparative approaches to topics of transnational concern (such as food and hunger, international trade and business, energy and environment), or with an interregional studies focus. This type of center must also provide multidisciplinary instruction and foreign language training.

(c) All centers shall include in their core offerings both interdisciplinary approaches to the world area or topic of the center and a wide range of disciplines, such as anthropology, economics, fine arts, geography, history, music, philosophy and religion, political science, and sociology, which may be needed for improved understanding of that world area or topic. Centers shall also incorporate in their core instructional offerings, where relevant, professional training in such fields as education, business, journalism, architecture and urban planning, law, public administration, library science, and the health professions, if such training is available at their institutions. Linkages with such professional training programs may be accomplished in a variety of ways, such as cross-listing of courses and cross-registration, offering of courses on the area or topic of the center's focus in the professional school, preparation of special center courses designed for students in professional training, and formulation of joint degree programs.

(20 U.S.C. 511(a))

§ 146.13 Educational outreach activities.

(a) In addition to the instruction provided in § 146.12, centers shall provide two or more of the services listed in paragraph (b) of this section (educational outreach activities) to agencies, organizations, and individuals interested in the resources of the center but not a part of the institution(s) operating the center, except that at least one of the services shall be a service listed in paragraphs (b) (1) or (2) of this section.

(b) Outreach activities may include—

(1) Assistance, such as sharing of library resources, faculty workshops, and cross-registration of students, to other institutions of higher education, particularly those with teacher education programs and two-year colleges;

(2) Assistance, such as in-service teacher training, bibliographic assistance, textbook evaluation, curriculum development, and direct instructional services, to state and local elementary and secondary educational agencies;

(3) Assistance, such as workshops and special courses, to the business community; and

(4) Sharing of resources, such as general lectures, films, and book and art exhibits, with the community at large.

(c) Centers shall expend an amount for outreach activities which represents at least 15 percent of the grant funds awarded under the subpart.

(20 U.S.C. 511(a))

§ 146.14 Criteria for selection of centers.

(a) In addition to evaluation on the basis of criteria found in the Office of Education General Provisions 45 CFR 100a.26(b), the Commissioner will further evaluate applications for Federal support to operate international studies centers in accordance with the following criteria:

(1) The quality of the institution's existing instruction for the world area or topic for which Federal assistance is requested, as evidenced by existing course offerings, faculty qualifications, and the nature and extent of relevant library holdings;

(2) The extent to which the proposed instructional activities of the center will

strengthen existing international studies of the institution both in range and in depth;

(3) The degree of the center's intra-institutional cooperation; i.e., the extent to which cooperative arrangements have been worked out with other departments, schools, and special and professional programs on campus and the extent to which the center includes appropriate multi-and inter-disciplinary instruction;

(4) The reasonableness of the allocation of Federal funds among center activities;

(5) The amount and percentage of financial support to be provided to the center by the institution during the grant period. Such support may be measured in terms of the number of tenured faculty in the center, the percent of their time spent on the center's program and the extent to which the core program is built into the regular budget of the institution, including the estimated support for the second and third years of the proposed project;

(6) The regular coursework, language training, courses in area or international studies, and provisions for overseas experience which will be provided students participating in center programs;

(7) The nature and extent of assistance to be provided by the center for educational outreach activities; and

(8) The extent to which provision is made by the institution for overseas experience for faculty and students, and for cooperation with foreign scholars, institutions, and governments.

(b) In order to help achieve a reasonable geographic distribution of Title VI international studies centers throughout the United States the Commissioner will, consistent with desired program excellence, take into account the proximity of any proposed center to any other center focusing on the same world area or specialized field of study in awarding grants under this program.

(20 U.S.C. 511(a))

§ 146.15 Applications.

(a) Applicants for funds under this subpart shall file an application with the Commissioner before the closing date for such applications established annually by the Commissioner. Such applications shall describe the activities to be undertaken and shall contain sufficient information to enable the Commissioner to evaluate the application on the basis of the criteria established in § 146.14.

(b) Applications from a consortium of institutions of higher education shall designate one of the member institutions as the grantee institution.

(20 U.S.C. 511(a))

§ 146.16 Allowable costs.

(a) Funds awarded under this subpart may be used to pay for those costs reasonably related to the operation of a center.

(b) Funds awarded under this subpart may not be used for financial assistance for students or for center research.

(20 U.S.C. 511(a))

§ 146.17 Multiyear projects.

(a) The Commissioner may require that institutions applying for assistance under this subpart project their goals and activities over a three-year period. Multiyear approval is intended to offer projects a reasonable degree of stability over time and to facilitate additional long range planning.

(b) Approval of multiyear projects shall not commit the Federal government to provide financial assistance from appropriations not currently available and the funding of these projects after the initial year of support is subject to annual evidence of satisfactory performance and the availability of funds.

(20 U.S.C. 511(a)).

Subpart C—Graduate and Undergraduate International Studies Programs

§ 146.21 Scope.

The Commissioner is authorized to award grants to and contracts with institutions of higher education or consortia of such institutions to pay part of the costs of establishing and operating graduate and undergraduate international studies programs. Such programs will focus on the development of international components in course offerings and new methods for teaching international studies.

(20 U.S.C. 511(a))

§ 146.22 Graduate international studies programs: activities.

(a) The Commissioner may award grants to and contracts with institutions of higher education conferring post-baccalaureate degrees or to consortia of such institutions to assist in the initiation and development of (1) international components for existing problem- or topic-oriented courses of study or (2) instruction on a problem or topic of contemporary concern to an existing international studies program. The resulting program must provide instruction related to more than one of the world regions listed in § 146.11(b) and shall provide course offerings of a comparative or interdisciplinary nature that will strengthen linkages among disciplines and among various international studies programs and professional schools. Such programs will bring an interdisciplinary and comparative focus to problems, issues, or topics of mutual concern among nations.

(b) Institutions must make foreign language training available to students enrolled in programs developed under this subpart.

(c) In order to receive funds, the institution must assure that the activities initiated under this subpart will be continued after Federal support has been terminated.

(d) Program activities shall be carried out within the United States and principally on the campus (or campuses) of the institution(s) involved. Program activities may take place throughout the calendar year during both the summer and the academic year; however, such activities may not be carried out exclusively in the summer.

(20 U.S.C. 511(a))

§ 146.23 Undergraduate international studies programs: activities.

(a) The Commissioner may award grants to and contracts with institutions of higher education or to consortia of such institutions, to assist them in providing an effective international perspective to the undergraduate general education program, particularly in the first two years of postsecondary study. Such programs shall provide instruction in more than one of the world areas listed in § 146.11(b).

(b) Institutions shall make foreign language training available to students enrolled in programs developed under this subpart.

(c) In order to receive funds, the institution must assure that the activities initiated under this subpart will be continued after Federal support has been terminated.

(d) Program activities shall be carried out within the United States and principally on the campus (or campuses) of the institution(s) involved. Program activities may take place throughout the calendar year during both the summer and the academic year; however, such activities may not be carried out exclusively in the summer.

(20 U.S.C. 511(a))

§ 146.24 Criteria for selection of graduate and undergraduate international studies programs.

In addition to evaluation on the basis of criteria found in the Office of Education General Provisions at 45 CFR 100a.26(b), the Commissioner will further evaluate applications for Federal support for graduate and undergraduate international studies programs in accordance with the following criteria:

(a) The international nature, contemporary relevance, and interdisciplinary and comparative dimensions of the program;

(b) The extent to which provision is made for evaluation of the effect of the program on those receiving training;

(c) The institution's capability to provide foreign language study;

(d) The commitment of the institution to the establishment and operation of the program as evidenced by maximum use of available resources (including institutional financial support);

(e) The reasonableness of the allocation of Federal funds among program activities; and

(f) The extent to which a clearly improved educational experience will be available at the institution for students within two years and the caliber of program that will be continued after Federal support is withdrawn.

(20 U.S.C. 511(a))

§ 146.25 Applications.

(a) Applicants for funds under this subpart shall file an application with the Commissioner before the closing date for

V 41 1157 AUG 12 76 UMI

such applications established annually by the Commissioner. Such applications shall describe the activities to be undertaken and shall contain sufficient information to enable the Commissioner to evaluate the application on the basis of the criteria established in § 146.24.

(b) Applications from a consortium of institutions of higher education shall designate one of the member institutions as the grantee institution.

(20 U.S.C. 511(a))

§ 146.26 Allowable costs.

(a) Funds awarded under this subpart may be used to pay for those costs reasonably related to the operation of a program.

(b) Funds awarded under this subpart may not be used to pay for financial assistance for students or for program research and dissemination activities.

(20 U.S.C. 511(a))

§ 146.27 Multiyear projects.

(a) The Commissioner may require that institutions applying for assistance under this subpart project their goals and activities over a three year period. Multiyear approval is intended to offer projects a reasonable degree of stability over time and to facilitate additional long range planning.

(b) Approval of multiyear projects shall not commit the Federal government to provide financial assistance from appropriations not currently available and the funding of these projects after the initial year of support is subject to annual evidence of satisfactory performance and the availability of funds.

(20 U.S.C. 511(a)).

Subpart D—Foreign Language and Area Studies Fellowships

§ 146.31 Fellowship authorization.

(a) Foreign language and area studies fellowships may be awarded through eligible institutions of higher education to graduate students who are undergoing advanced training in modern foreign languages, in related area studies or in international studies at any center as defined in § 146.2(c), or in any program funded under Subpart C of this part, if such students provide reasonable assurance that they will, upon completion of their training, be available for teaching service in an institution of higher education, an elementary or secondary school, or for such other service of a public nature as defined in § 146.35(b).

(b) For purposes of this subpart an "eligible institution" means an institution of higher education operating a center or conducting a program authorized under Subpart C of this part.

(20 U.S.C. 511(b)).

§ 146.32 Allocation of fellowships among institutions.

In order to insure that the students who are selected to receive fellowships under this subpart shall receive training in programs and centers of the highest quality, the Commissioner requests applications from eligible institutions for quotas of fellowships. Such applications are reviewed on the basis of the criteria set forth in § 146.33 and quotas of fellowships will be allocated to institutions whose applications are selected in accordance with such criteria.

(20 U.S.C. 511(b)).

§ 146.33 Criteria for determination of institutional fellowship quotas.

In addition to evaluation on the basis of criteria found in the Office of Education General Provisions at 45 CFR 100a.26(b), the Commissioner will evaluate applications for quotas of foreign language and area studies fellowships from institutions of higher education in accordance with the following criteria:

(a)(1) The extent to which an institution which is applying for a quota of fellowships in African studies includes as part of its language and area studies program such disciplines as economics, history, humanities (art, drama, music, philosophy, religion), sociology, and languages other than Swahili;

(2) The extent to which an institution which is applying for a quota of fellowships in East Asian studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, sociology, and humanities;

(3) The extent to which an institution which is applying for a quota of fellowships in East European Studies includes as a part of its language and area studies program such disciplines as anthropology, geography, humanities, sociology, and languages other than Russian;

(4) The extent to which an institution which is applying for a quota of fellowships in Latin American studies includes as part of its language and area studies program such disciplines as humanities, sociology, Portuguese, and Amerindian languages;

(5) The extent to which an institution which is applying for a quota of fellowships in Middle Eastern studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, humanities, political science, sociology, and languages other than Hebrew;

(6) The extent to which an institution which is applying for a quota of fellowships in South Asian studies includes as part of its language and area studies program such disciplines as anthropology, humanities, linguistics, literature, sociology, and geography;

(7) The extent to which an institution which is applying for a quota of fellowships in Southeast Asian studies includes as part of its language and area studies program such disciplines as economics, history, humanities, linguistics, literature, and sociology; and

(8) The extent to which an institution which is applying for a quota of fellowships in Western European studies includes as part of its language and area studies program such disciplines as anthropology, economics, geography, philosophy and religion, political economy, sociology, and languages other than French, German, Italian, or Spanish;

(b) The quality of the institution's existing foreign language and area studies program for the area for which a quota of fellowships is being requested as evidenced by course offerings, faculty, and library holdings;

(c) The degree to which the center or the program of the institution has provided for intra-institutional cooperation with other foreign language and area programs and the nature and extent of coordination with the institution's professional schools and other special university programs;

(d) The degree of institutional commitment to the development of the program as evidenced by faculty appointments, university scholarships and teaching assistantships, funding of library acquisitions, and continuing support from the institution's general funds;

(e) The degree requirements of the institution's foreign language and area studies center or program and whether proficiency in one or more foreign languages is required;

(f) The extent to which the institution's foreign language and area studies center or program provides extracurricular activities which enhance the student's foreign language proficiency and knowledge of the world area he is studying; and

(g) The extent to which the institution's center or program includes in its offerings professional training such as business, law, journalism or education, and the quality of such offerings.

(h) Lowest priority will be given to applications for fellowships from centers or programs focusing on France, Germany, Italy, and Spain.

(20 U.S.C. 511(b)).

§ 146.34 Institutional applications.

Applicants for quotas of fellowships under this subpart shall file an application with the Commissioner before the closing date for such applications established annually by the Commissioner. Such applications shall contain sufficient information to enable the Commissioner to evaluate the applications on the basis of the criteria in § 146.33.

(20 U.S.C. 511(b)).

§ 146.35 Student eligibility.

(a) *General.* To be eligible to receive a fellowship under this subpart a person shall:

(1) Be a citizen or national of the United States or in the United States for other than a temporary purpose with the intent to become a permanent resident thereof;

(2) Provide reasonable assurance that on completion of training he will (i) be available for teaching in an institution of higher education or in an elementary or secondary school or (ii) be available for other service of a public nature, as defined in paragraph (b) of this section;

(3) Subscribe to the oath and supply the information required in § 146.39;

(4) Have earned a baccalaureate or comparable degree before the fellowship begins;

(5) Be accepted for graduate level training in foreign languages and appropriately related area studies in a center or program with a quota of fellowships;

(6) Agree to pursue full-time study in accordance with his university's requirement during the entire award period, except as provided in § 146.37.

(b) *Other service of a public nature.* "Other service of a public nature" means employment with Federal, State or local governments, international organizations in which the United States participates, or nonprofit, nonsectarian organizations the activities of which contribute significantly to the conduct of United States foreign relations; or such other employment that will contribute to the Nation's cultural, educational, or scientific understanding of other countries.

(20 U.S.C. 511(b)).

§ 146.36 Application and selection of fellows.

(a)(1) *Application.* Applications for fellowships under this subpart shall be submitted to an institution which has received a quota of fellowships and shall be submitted to that institution before the closing date for such applications established by that institution. Such applications shall contain sufficient information to enable the applicant to be evaluated in accordance with the selection criteria set forth in paragraph (b) of this section, but shall in any event include the applicant's general academic record, career goal, educational background, language background and self evaluation of language competence, employment history, and proposed study program.

(2) In addition to the requirements set forth in paragraph (a)(1) of this section, if an individual applies for a fellowship with the intent of using that fellowship to support Ph.D. dissertation research in the United States, he shall also provide a brief description of his project, including

(i) The definition title of the project and signature of his graduate advisor;

(ii) The project statement of purpose;

(iii) The definition and delimitation of the precise topic to be investigated;

(iv) A description of methods by which research goals are to be attained;

(v) A statement as to the use of the relevant foreign language as a major research tool; and

(vi) A description of proposed travel within the United States considered to be research-related.

(b) *Selection.* The Commissioner shall select fellows and alternates from nominees submitted by institutions receiving quotas of fellowships for particular world areas. The Commissioner shall select, and the institutions shall nominate, fellows and alternates on the basis of the following criteria:

(1) A high level of academic ability as evidenced by such indices as grade point average, class ranking, or such other measures as the institutions may choose to use;

(2) Whether the applicant will major in an area of the world listed in § 146.33(a);

(3) Whether the applicant's study program includes those disciplines listed in § 146.33(a) for the language and area to be studied;

(4) The extent to which the applicant's study plan includes appropriate foreign language training through formal study;

(5) For a fellowship in Japanese or Chinese, the extent to which at least one year of college instruction in either of those languages has been successfully completed or equivalent proficiency in either language has been achieved;

(6) For a fellowship in Russian, the extent to which at least two years of college instruction in that language has been successfully completed or equivalent proficiency in that language has been achieved;

(7) For a fellowship in Latin American Spanish, the extent to which at least three years of college instruction in that language has been successfully completed or equivalent proficiency in that language has been achieved; and

(8) For a fellowship in any of the other languages, the extent to which documented competency in the language for which the fellowship is sought has been acquired.

(9) Lowest priority shall be given to a nominee who does not intend to pursue foreign language training or who is a native speaker of the language for which an award is sought.

(c) In addition to the criteria specified in paragraph (b) of this section, no fellowship shall be awarded if the Commissioner is of the view that an award to a particular individual would not be in the best interests of the United States.

(20 U.S.C. 511(b))

§ 146.37 Duration, amount, and payment of fellowships.

(a) *Duration.* Fellowships under this subpart will be awarded for one academic year and may not be revoked without the approval of the Commissioner nor may they be postponed to an academic year subsequent to that specified in the award. No applicant may receive more than a cumulative total of 48 months fellowship support (including the time period of the grant applied for) under Title VI of the National Defense Education Act and section 102(b)(6) of the Mutual Educational and Cultural Exchange Act (Pub. L. 87-256—Fulbright-Hays Act). Of the 48 months maximum, support for dissertation research is limited to either (1) 12 months overseas under Fulbright-Hays and 9 months in the United States under Title VI for dissertation completion or (2) a maximum of 18 months in the United States for dissertation research.

(b) *Amount.* Each individual selected by the Commissioner for a fellowship will receive the cost of tuition and fees, a dependency allowance of $500.00 for each dependent, and a maintenance allowance in the amount of (1) $2000.00 for the first post-baccalaureate year of study; (2) $2200.00 for any year of study falling between the first and terminal year; and (3) $2400.00 for the terminal year of study, the year in which the student completes the Ph.D. degree.

(c) If a fellow is enrolled in an established advanced language program overseas, set up by an American institution of higher education and approved by the Commissioner for purposes of this subpart, tuition charges shall reflect the tuition costs of the overseas program only; if required by university policy, a nominal fee for in absentia registration at the home institution may be included in the award.

(d) Payments shall be made in installments to cover a specific period of the academic year, and shall be paid as long as the fellow is enrolled and in good standing. If a fellow acquires a dependent after the award is offered but before he has registered for the term, the full allowance for the new dependent will be added to the award. For any dependent acquired after registration for the term, no adjustments will be made until the subsequent term. In the event of overpayment or underpayment of award benefits, the student must notify his institution so that appropriate allowance adjustments can be made; however, all award increases are subject to the availability of funds. Overpayments may not be retained by the student.

(20 U.S.C. 511(b)).

§ 146.38 Employment.

A fellow may accept limited employment during the fellowship period, preferably in a job related to his field of study, provided that such employment does not prolong the time normally required to complete the fellow's course of study.

(20 U.S.C. 511(b)).

§ 146.39 Oath and criminal information.

(a) In conformity with 1001(f) of the National Defense Education Act, no funds under a fellowship or stipened may be paid to any individual unless such individual has subscribed to an oath or affirmation in the following form:

I do solemnly swear (or affirm) that I will bear true faith and allegiance to the United States of America and will support and defend the Constitution and laws of the United States against all its enemies, foreign and domestic.

(b) No fellowship stipend shall be awarded to any individual unless such individual has provided the Commissioner with a full statement regarding any crimes of which he has ever been convicted (other than crimes committed before attaining 16 years of age and minor traffic violations for which a fine of $25 or less was imposed) and regarding any criminal charges punishable by confinement of 30 days or more which may be pending against him at the time of his application for such stipend.

(20 U.S.C. 581(f)).

§ 146.40 Student responsibilities.

(a) The student shall submit to the Commissioner through the grantee institution, a report after each award period giving a full account of his accomplishments under the award and his future

V 41 157 AUG 12 76 UMI

study or employment plans. No fellowship funds shall be released to a student who has not met the reporting requirements of a previous award.

(b) The student is responsible for informing the institution of any change in the number of his dependents, his study program, or academic status.

(20 U.S.C. 511(b)).

§ 146.41 Responsibilities of institutions receiving quotas of fellowships.

(a) Each institution of higher education receiving a quota of fellowships shall:

(1) Publicize its quota(s) of fellowships and its foreign language and area studies programs;

(2) Set a deadline for fellowship applications;

(3) Screen applications and recommend nominees;

(4) Notify applicants that, subject to final approval by the Commissioner, they have been recommended as a fellow or alternate;

(5) Issue to each approved fellow, after the term begins, the amount of funds to cover benefits under this subpart to which the fellow is entitled; and

(6) Notify the Commissioner of any change in the number of dependents, study program, or academic status of a fellow.

(b) If a fellowship is vacated during the academic year, the institution must obtain approval from the Commissioner prior to making a fellowship substitution from the alternates listed in the official grant agreement.

(20 U.S.C. 511(b))

Subpart E—Research and Studies

§ 146.51 Scope.

Under this subpart, the Commissioner is authorized to award contracts for studies and surveys to determine the need for increased or improved instruction in modern foreign languages and other fields needed to provide a full understanding of the areas, regions, or countries in which such languages are commonly used, to conduct research on more effective methods of teaching such languages and such fields, and to develop specialized materials for use in training students and teachers.

(20 U.S.C. 512)

§ 146.52 Eligible applicants.

Public and private agencies, organizations and institutions as well as individuals are eligible to receive contracts under this subpart.

(20 U.S.C. 512)

§ 146.53 Applications.

(a) Applicants for support under this subpart shall file an application with the Commissioner before the closing date established annually by the Commissioner. Such applications shall contain sufficient information to enable the Commissioner to evaluate the applications on the basis of the criteria established in § 146.56.

(b) Requests for information shall be sent to the Division of International Education, Bureau of Postsecondary Education, Office of Education, Washington, D.C. 20202.

(20 U.S.C. 512)

§ 146.54 Research activities.

Activities conducted under this subpart may include:

(a) Studies and surveys, including conferences, to assess the state of the art of foreign language and international studies instruction in the United States, to determine new emphases needed, to identify priority needs for specialized materials, and to define and analyze national trends through, for example, surveys of enrollments, degree requirements, and newly developing types of training programs;

(b) Research in teaching methodology (1) which applies linguistic theories and concepts of modern language pedagogy to projects that can thereby be expected to increase the understanding of second language acquisition and to improve language teaching, and (2) which applies modern teaching approaches to international studies;

(c) The preparation of specialized instructional materials, particularly for modern foreign languages which are not widely taught in the United States and for which there is only a limited commercial market; and for international studies concerned with the non-Western world.

(20 U.S.C. 512)

§ 146.55 Criteria for selection of research projects.

In addition to evaluation on the basis of criteria found in the Office of Education General Provisions at 45 CFR 100a.-26(b), the Commissioner will evaluate applications in accordance with the following criteria:

(a) For research, studies, and surveys the criteria are—

(1) The extent to which the proposed activity may be expected to develop new knowledge significant to the purpose of section 602 of the Act.

(2) The extent to which problems, questions, or hypotheses to be dealt with are well formulated, and reflect adequate knowledge of other related research;

(3) The specificity of the statement of procedures to be followed, including sampling techniques, controls, data to be gathered, and statistical and other analyses to be done; and

(4) The adequacy of the proposed teaching, testing, and research methodology.

(b) For the development of instructional materials, the criteria are—

(1) The extent to which the proposed work may contribute significantly to strengthening international studies programs of educational institutions;

(2) The extent to which all existing related materials are cited or accounted for, including a critical commentary on their adequacy, in the justification of the proposal.

(3) The degree of specificity concerning the final form of the projected instructional materials.

(4) The degree to which the proposed contents and final form of the materials reflect an empirical knowledge of the organization for instruction and academic practices of those American institutions in which they will ultimately be used; and

(5) The extent to which provision has been made for pretesting the materials in the classroom and for revision before publication.

(20 U.S.C. 512)

CHAPTER I—INTRODUCTION

PART 1—GUIDELINES

§ 1.1 Scope of guidelines.

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to assistance under the National Defense Education Act, Title VI, Section 601–603. The legal requirements include the Act itself (20 U.S.C. 511–513) and the regulations (45 CFR 146). The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 1441; 113 Congl Rec. 5936, 5939 (daily ed. May 23, 1967)); *United States* v. *Jefferson County Board of Education*, 372 F. 2d 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline, in the parentheses following the guideline. For example, if the legal authority for the guideline is Section 601(a) of the Act (20 U.S.C. 511(a)), and the guideline affects Section 146.12(d) of the regulation (45 CFR 146.12(d)), the following citation will be placed on the line immediately following the guideline: (20 U.S.C. 511(a); 45 CFR 146.12(d)). If no particular section of the regulation is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

CHAPTER II—INTERNATIONAL STUDIES CENTERS

PART 1—PROGRAM OUTLINE

§ 1.1 Core instructional activities.

(a) The core instructional offerings of a center should encompass a variety of disciplines and options for professional training at the various degree levels. While center proposals for Federal funding may include summer intensive language programs, symposia, or workshops (inservice teacher training programs, for example), the major effort of a center should be focused on instruction during the regular academic year.

(20 U.S.C. 511(a); 45 CFR 146.12)

(b) Federal funds may be used to assist a wide variety of the center's instructional program: faculty salaries (including teaching assisstants and language informants), administrative salaries, library staff salaries, teaching materials (including library acquisitions), and faculty travel. Federal funds may also be used to develop further resources for the center: faculty development, revision of existing courses, development of new courses or seminars, hiring of new personnel, summer intensive langauge programs, and forging of new linkages with professional schools and other programs at the institution.

(20 U.S.C. 511(a); 45 CFR 146.16)

§ 1.2 Educational outreach activities.

(a) The educational outreach activities of a center may take a variety of forms, as appropriate to the center's purposes and resources and to needs and interests of such interested parties as other institutions of higher education, elementary and secondary educational agencies, business, and the community at large. Information about examples of outreach activities which have been undertaken by centers is available from the International Studies Branch, Division of International Education, Bureau of Postsecondary Education, Office of Education, Washington, D.C. 20202. However, no list of past or present examples should be considered complete; centers are encouraged to be imaginative and to create appropriate categories of activities here as well as in their core instructional offerings. Many outreach activities may be part of the institution's normal program; nonetheless, where justified, they should be included in any application for Federal support if they are an integral part of the center's activities. Applicants should keep in mind that one of the criteria used in evaluating applications for centers is the extent to which the applicant is carrying out or will carry out such activities.

(20 U.S.C. 511(a); 45 CFR 146.13)

(b) Federal funds for outreach activities may be used for teaching and administrative salaries, faculty travel (for example, in organizing a workshop for teachers at any level of education), honoraria for visiting lectures, dissemination of information about center activities and resources, and collection of materials for loan or rental to other educational agencies. Further, with regard to such educational outreach activities, in view of the limited Federal funds available for all international studies needs, they should not be used for the travel, meals, or lodging of persons attending special workshops.

(20 U.S.C. 511(a); 45 CFR 146.16)

CHAPTER III—GRADUATE AND UNDERGRADUATE INTERNATIONAL STUDIES PROGRAMS

PART 1—PROGRAM OUTLINE

§ 1.1 Graduate international studies programs.

(a) Graduate international studies programs should focus on issues or problems of both contemporary and future importance involving more than one geographic region of the world, one of which could be North America.

(b) Examples of subjects on which graduate programs may be based are:

(1) International trade and business;
(2) Comparative environmental studies;
(3) The Atlantic Community; and
(4) Population growth and planning.

(c) While proposed programs for Federal funding may include summer symposia or workshops, the main efforts of the program should be focused on instruction during the regular academic year.

(d) Federal funds may be used to permit the recipient institution to develop or rework curricula, orient faculty, purchase library books and periodicals, or perhaps accelerate plans for the hiring of new people to round out existing staff resources.

(e) Proposed programs which have a mixed graduate/undergraduate character will be considered and should be submitted in the graduate category.

(f) Programs usually have a very limited administrative structure and are generally not officially designated academic units (such as centers).

(20 U.S.C. 511(a); 45 CFR 146.22, 146.24, and 146.26)

§ 1.2 Undergraduate international studies programs.

(a) Proposals for undergraduate international studies programs may focus on any of several approaches for strengthening the international dimensions of the general education portion of the instructional program at eligible institutions. Examples of some approaches are listed below, but are not intended to be all-inclusive, nor are these approaches in any way mutually exclusible:

(1) A broad, integrated approach to the contemporary world. Through this kind of approach, international dimensions might be introduced in an interdisciplinary, or multidisciplinary settings.

(2) The comparative approach to foreign area studies and world problems. Proposals may provide for development of programs which would move curricula from concern solely with American and Western European models to a context in which other cultures would be seriously studied also. Topical studies drawing on different disciplines and examining in different societies such phenomena as urbanization, man and his environment, violence and conflict resolution, and social change and economic development may provide further possibilities for developing a comparative perspective.

(3) The development of a broader view of the world through the arts, music, and drama. A program which focuses on the arts should be concerned as well with the larger cultural context.

(4) Transnational concerns, involving a wide range of topics and issues which transcend the boundaries of nation states. Such common super-state problems as environment, disease, food supply, conflict resolution, and social change may be useful ways to introduce international studies to the undergraduate curriculum.

(5) Intercultural communication. Two categories of special relevance for American education are (i) improvements in foreign language instruction and (ii) intercultural communication broadly speaking—interaction and development of mutual understanding, or "cultures speaking to cultures." A program with special attention to language instruction might encourage fresh approaches to the learning of both language itself and language as a "window" on foreign cultures(s), developing students' understanding of systems of verbal and non-verbal communication. Cross-cultural or inter-cultural training strives to develop in an individual an awareness of the impact of one's own culture and the culture of others on one's own attitudes, habits, behavior and perception in interaction with others, to increase appreciation of other cultures, and to enhance ability to affect behavior in interaction with persons of other cultures.

(b) While proposed programs for Federal funding may include summer symposia or workshops, the main efforts of the program should be focused on instruction during the regular academic year.

(c) Federal funds may be used to permit the recipient institution to develop or rework curricula, orient faculty, purchase library books and periodicals, or perhaps accelerate plans for the hiring of new people to round out existing staff resources.

(d) Programs usually have a very limited administrative structure and are generally not officially designated academic units (such as centers).

(20 U.S.C. 511(a); 45 CFR 146.23, 146.24, and 146.26)

CHAPTER IV—GUIDELINES FOR FOREIGN LANGUAGE AND AREA STUDIES FELLOWSHIPS

PART 1—ADMINISTRATIVE PROVISIONS

§ 1.1 Formation of committees.

(a) It is recommended that the initial step for an institution which intends to apply for allocations of fellowships for one or more language and area study center or program should be the appointment by the university administration of a committee responsible to the graduate dean (1) for the preparation of proposals and (2) for the nomination of candidates at institutions receiving an allocation of fellowships.

(b) It is suggested that the chairman of this committee be the dean of the graduate school or his designee and that the other members of the committee be faculty members in the departments and professional schools which participate in the language and area studies center or program.

§ 1.2 Responsibilities of the committee and the committee chairman.

(a) The committee should be responsible for reviewing applications and recommending candidates for fellowships.

(b) The committee chairman should be responsible for:

(1) Forwarding the forms, cards, and instructions to nominees;

(2) Advising applicants (including any who might be temporarily located abroad) of the importance of prompt mailing of all required forms;

(3) Instructing applicants to complete and return to him all forms;

(4) Forwarding to the Office of Education forms completed by the nominees. The committee chairman should retain for the institution's files one copy of the Biographical Data form containing personal background, language background, and educational information on the student; together with documented dependency information when applicable.

V 41 157
AUG 12 76
UMI

(5) Forwarding to the Commissioner any requests for supplements;

(6) Completing, signing, and forwarding to the Commissioner (i) the List of Nominees/Alternates which contains the names of recommended fellowship candidates by language and world area; (ii) Institutional Summary of Fellowships which contains the number of nominees by world area; (iii) the List of Awardees and Benefits which contains the names of the actual fellowship holders and the total cost of benefits to be paid to them.

(20 U.S.C. 511(b)); 45 CFR 146.23–25 and 146.28).

§ 1.3 *Declination of award by principal candidate.*

(a) If a fellow declines an award before the beginning of the fall term, the committee may select from its list of approved alternates an eligible alternate to fill the vacancy thus created. The committee chairman should promptly request approval of the Commissioner, giving the name of the candidate who declined the award, the reason (if possible) for his declination, the name of the alternate selected to fill the vacancy, and the estimated cost of the award to the alternate.

(20 U.S.C. 511(b); 45 CFR 146.35).

§ 1.4 *Vacated fellowships.*

(a) If a student vacates a fellowship in the course of the academic year, the institution should seek approval of the Commissioner if it desires to use the balance of the fellowship for an approved alternate, beginning with the term following the one in which the original holder of the fellowship relinquished it.

(20 U.S.C. 511(b); 45 CFR 146.35).

§ 1.5 *Reallocating awards.*

(a) If more than one language and area studies center or program within an institution receives a quota of awards, the appropriate official of the institution may, with prior approval of the Commissioner, reallocate awards among these centers or programs in order to meet priorities set forth in 45 CFR 146.35 and changing program and student needs.

(20 U.S.C. 511(b); 45 CFR 146.35).

CHAPTER V—GUIDELINES FOR RESEARCH

PART 1—APPLICATIONS

§ 1.1 *Application procedures.*

(a) For the information of applicants, proposals and applications under this subpart should conform to the information requirements set forth in HEW procurement regulations (41 CFR 3–4.5202–1(b)).

(b) Additional information about proposals and applications is available from the Division of International Education. It is advisable to provide a brief project outline for preliminary discussion before submitting a formal application.

(20 U.S.C. 512; 45 CFR 146.53 and 41 CFR 3–4.5202(b))

PART 2—RESEARCH ACTIVITIES

§ 2.1 *Studies and surveys.*

Federal funds may be used to assist projects designed to assess the state of the art of foreign language, area, and other international studies in the United States, determine new emphases, identify needs and priorities for specialized materials, and define and analyze national trends, for example, through surveys of enrollments, degree requirements, or newly developing types of training programs. Assistance is available to support conferences only if the conference is primarily concerned with activities authorized by Section 602 of the Act. Assistance to professional organizations to hold annual or periodic conventions which serve primarily organizational aims and which have been taking place without Federal Support thus far, cannot be justified.

(20 U.S.C. 512; 45 CFR 146.55)

§ 2.2 *Research in teaching methodology.*

(a) For foreign languages: Studies may be assisted for investigation of certain aspects of the processes of second-language acquisition, which can be expected to increase an understanding of such processess and thereby contribute to the development of more effective teaching approaches; and for experimental projects for applying modern concepts of foreign language teaching pedagogy and for testing their effectiveness in controlled situations. With the growing significance of foreign language competence as an integral part of education in fields other than language teaching, such as international economics, industry, law, tourism, and trade, projects exploring appropriate approaches to language training specifically for the professions will also be considered.

(b) For international studies: Studies and experimental projects may be assisted for development of more effective methods of teaching about foreign areas, intercultural communication, and other aspects of international education. Methodologies which might be explored, for example, could include interdisciplinary or team teaching, or other innovative curriculum approaches to international studies.

(20 U.S.C. 512; 45 CFR 146.55)

§ 2.3 *Preparation of specialized instructional materials.*

(a) For languages which are not widely taught in the United States and which are of little or no interest for commercial publication: Decisions about Federal assistance will be guided by the recommendations on priority needs resulting from national conferences (such as the Conference on the Uncommonly-taught Languages held in Columbia, Maryland, from September 29 to October 2, 1974; the report from this conference, *Material Development Needs in the Uncommonly-taught Language: Priorities for the Seventies*, is available from the Center for Applied Linguistics, 1611 North Kent Street, Arlington, Virginia 22209) and conferences of language specialists representing a geographic or linguistic world area. National languages, languages of major regional or cultural significance, and other languages for which instruction is not widely available in the United States will be given priority. North American Indian languages, Hawaiian, Somoan, Micronesian, and languages native to the United States and its territories, are not considered foreign languages in this context. Since research is supported only in modern foreign languages, languages nearing extinction, although of linguistic interest, will not be considered. Materials for the study of English as a foreign language do not fall within the purview of NDEA Title VI. French, German, Italian, and Spanish are considered commonly-taught languages requiring no Federal assistance for general materials development.

(b) For international studies, primarily concerned with the non-Western world: General reference works, specialized research tools, or basic materials in a given field of study or world area are assigned a higher priority than studies focusing on specific periods, phenomena, and personalities.

(20 U.S.C. 512; 45 CFR 146.55)

[FR Doc.76–23551 Filed 8–11–76;8:45 am]

Social Security Administration

[20 CFR Part 404]

[Reg. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Procedures, Payment of Benefits, and Representation of Parties; Interrelationship of Old-Age, Survivors, and Disability; Insurance Program With the Railroad Retirement Program-Railroad Retirement Act Amendments of 1974

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare.

Current regulations describe the general relationships of the Railroad Retirement Act with the Old-Age, Survivors, and Disability Insurance Programs of the Social Security Act, tell when services in the railroad industry are overed for social security purposes after 1936 and the circumstances under which the services are not covered, the conditions under which eligibility to Railroad Retirement benefits may or may not bar payment of social security benefits, the use of railroad compensation as wages and the purposes for which it may be used, presumptions which may be used in allocating railroad compensation for social security purposes, and the definition of a compensation quarter of coverage. The regulations also contain an expedited benefit payment procedure applicable to all title II benefits except those involving disability and negotiated checks. Sections 404.968 and 404.968a are revised to reflect the extension of the expedited benefit payment procedure provided under section 205(q) of the Social Security Act to benefit payments certified to the Railroad Retirement Board for payment pursuant to section 205(i) of the Social Security Act. The proposed amendments also revise and update § 404.1410 to reflect the successive benefit bases as determined under section 230 of the Social Security Act (42 U.S.C. 430), as amended by section 5 of Pub. L. 93–233, enacted December 31, 1973. On September 17, 1975, amendments were published (40 F.R. 42863) which updated Subparts E and K of Regulations No. 4 with respect to the revised contribution and benefit rates. Revisions are also necessary to update cross-references because of enactment of the Railroad Retirement Act of 1974 (Pub. L. 93–445, 88 Stat. 1305, 45 U.S.C. 228a ff), which in effect replaces the Railroad Retirement Act of 1937. One such revision, with respect to compensation quarters of coverage, indicates that beginning January 1975, the granting of compensation quarters of coverage based on service and earnings will no longer be applicable for periods after January 1975 but may continue to be granted for prior periods.

A new § 404.1413 has been added listing the categories of cases that will be certified to the Railroad Retirement Board. The provisions of § 404.1413 apply to an individual who first becomes entitled to benefits under title II of the Social Security Act after 1974, and has completed 10 years of service under the Railroad Retirement Acts of 1937 or of 1974, or to the wife or husband of a worker who has completed 10 years of service under such Acts or to the survivor of such a worker if such survivor is entitled, or could upon application become entitled, to an annuity under section 2 of the Railroad Retirement Act of 1974, and any other person entitled to benefits under section 202 of the Social Security Act on the basis of the wages and self-employment income of such a worker (except a survivor of such a worker where the worker did not have a "current connection," as defined in section 1(o) of the Railroad Retirement Act of 1974) with the railroad industry at the time of his death. The amount of such benefits shall be certified to the Railroad Retirement Board for certification of payment to the Secretary of the Treasury together with any benefits payable under the Railroad Retirement Act of 1974 for payment in a single check.

Consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, Social Security Administration, P.O. Box 1585, Baltimore, Maryland 21203, on or before November 10, 1976.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

The proposed amendments are issued under the authority of sections 202(l), 205, and 1102 of the Social Security Act, 64 Stat. 482, as amended, 53 Stat. 1368, as amended, and 49 Stat. 647 as amended; 42 U.S.C. 402(l), 405, and 1302.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security-Disability Insurance, and 13.803–4, Social Security Retirement and Survivors Insurance.)

Dated: June 14, 1976.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: August 6, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 404 of Chapter III, Title 20, of the Code of Federal Regulations is amended as follows:

1. Sections 404.968 and 404.968a(b) are amended to read as follows:

§ 404.968 Certification of payment.

Determination or decision providing for payment. When a determination or decision has been made under any provision of §§ 404.905 to 404.963, inclusive, to the effect that a payment or payments under title II of the Act should be made to any person, the Social Security Administration shall, except as hereafter provided, certify to the Managing Trustee of the Board of Trustees of the Federal Old-Age and Survivors Insurance Trust Fund or the Federal Disability Insurance Trust Fund, as appropriate, the name and address of the person to be paid (see § 404.1601), the amount of the payment or payments from the appropriate Trust Fund, and the time at which such payment or payments should be made. (See also § 404.1413.)

§ 404.968a Expedited benefit payments.

. . . . . .

(b) *Applicability of section.* (1) This section applies to monthly benefits payable under title II of the Act, including benefits payable under section 228, except as provided in subparagraph (2) of this paragraph; and to those cases to be certified by the Secretary to the Railroad Retirement Board to the same extent as it does to those cases to be certified by him to the Managing Trustee.

(2) This section does not apply:

. . . . . .

2. Section 404.1401 is amended to read as follows:

§ 404.1401 General relationship of Railroad Retirement Act with the old-age, survivors, and disability insurance program of the Social Security Act.

The Railroad Retirement Act sets up a system of benefits for railroad employees, their dependents and survivors, and has been integrated with the Social Security Act to provide a coordinated system of retirement, survivor, dependent, and disability benefits payable on the basis of an individual's work in the railroad industry and in employement and self-employment covered by the Social Security Act. With respect to the coordination between the two programs, the Railroad Retirement Act distinguishes between "career" railroad workers and those individuals who may be considered "casual" railroad workers. The line of demarcation is generally 10 years of service in the railroad industry, including service prior to 1937. The Railroad Retirement Act transfers to the old-age, survivors, and disability insurance system the compensation records of individuals who at the time of retirement, onset of disability, or death have less than 10 years of service in the railroad industry and meet certain other requirements. Any compensation paid to such individuals for such service after 1936 becomes wages under the Social Security Act (to the extent they do not exceed the annual wage limitations described in § 404.1027(a)). Whatever benefits are payable to them, their dependents, and their survivors are computed on the basis of the combined compensation and social security covered earnings creditable to the individuals' records. The compensation paid to individuals with 10 or more years of railroad service remain under the Railroad Retirement Act, but in certain circumstances, the compensation of such workers who die may be transferred to the old-age, survivors, and disability insurance program (see §§ 404.1402(b) and 404.1407). Under certain circumstances (see § 404.1413), certification of benefits payable under the provisions of the Social Security Act will be made to the Railroad Retirement Board. The Railroad Board will certify such benefits to the Secretary of the Treasury.

3. Section 404.1402 is amended to read as follows:

§ 404.1402 When services in the railroad industry are covered.

Services performed by an individual in the railroad industry which would, but for the provisions of this section, be excepted from "employment" by reason of § 404.1017 shall be considered to be included under "employment" as defined in section 210 of the Social Security Act in the following situations:

(a) For the purpose of determining entitlement to, or the amount of, any monthly benefits or lump-sum death payment on the basis of the wages and self-employment income of an individual where the years of service in the railroad industry are less than 10;

(b) For the purpose of determining entitlement to, or the amount of, any survivor monthly benefit or any lump-sum death payment on the basis of the wages and self-employment income of an individual whose years of service in the railroad industry were 10 or more but a "current connection", as defined in section 1(o) of the Railroad Retirement Act of 1974 (45 U.S.C. 228a), with the railroad industry did not exist at the time of death; (in such cases, survivor benefits are not payable under the Railroad Retirement Act);

(c) For the purpose of determining entitlement to a period of disability (see Subpart B of this part) on the basis of the wages and self-employment income of an individual; or

(d) For the purpose of applying the provisions of section 203 of the Act concerning deductions from benefits under the retirement test (see Subpart E of this part).

4. Paragraph (a) of § 404.1405 is amended to read as follows:

§ 404.1405 When the provisions of § 404.1402 do not apply.

(a) *Awards by the Railroad Retirement Board prior to October 30, 1951.* The provisions of § 404.1402(a) shall not apply with respect to the wages and self-employment income an an individual if, prior to October 30, 1951, the Railroad Retirement Board has awarded under the Railroad Retirement Act a retirement annuity to such individual or a survivor annuity with respect to the death of such individual and such retirement or survivor annuity, as the case may be, was payable at the time an application for benefits is filed under the Social Security Act on the basis of the wages and self-employment income of such individual. A pension payable under section 6 of the Railroad Retirement Act of 1937 as in effect prior to the Railroad Retirement Act of 1974, or an annuity paid in a lump

V 41 157 AUG 12 76 UMI

sum equal to its commuted value under section 3(i) of the Railroad Retirement Act in effect prior to the Social Security Act of October 30, 1951, is not a "retirement or survivor annuity" for the purpose of this paragraph.

* * * * *

5. Section 404.1406 is amended to read as follows:

§ 404.1406 Eligibility to railroad retirement benefits as a bar to payment of social security benefits.

Notwithstanding the fact that, pursuant to the preceding provisions of this subpart, services rendered by an individual in the railroad industry are in employment, no lump-sum death payment or survivor monthly benefits shall be paid (except as provided in § 404.1407) under the regulations in this part on the basis of such individual's wages and self-employment income if any person, upon filing application therefor, would be entitled to an annuity under section 2 of the Railroad Retirement Act of 1974 or a lump-sum payment under section 6(b) of such Act with respect to the death of that individual; or for periods prior to 1975, would have been entitled to an annuity under section 5 or a lump-sum payment under section 5(f)(1) of the Railroad Retirement Act of 1937 with respect to the death of that individual.

6. Section 404.1407 is amended to read as follows:

§ 404.1407 When railroad retirement benefits do not bar payment of social security benefits.

The provisions of § 404.1406 shall not operate if:

(a) The survivor is, or upon filing application would be, entitled to a monthly benefit with respect to the death of an insured individual for a month prior to January 1947, if such monthly benefit is greater in amount than the survivor annuity payable to such survivor after 1946 under the Railroad Retirement Act; or

(b) The residual lump-sum payment provided by section 6(c) of the Railroad Retirement Act of 1974 (or section 5(f)(2) of the Railroad Retirement Act of 1937 prior to the 1974 Act) with respect to the death of an insured individual is paid by the Railroad Retirement Board pursuant to an irrevocable election filed with the Board by a widow, widower, or parent of such individual to waive all future annuities or benefits based on the combined record of earnings and compensation to which such widow, widower, or parent might become entitled, but only to the extent that widow's, widower's, or parent's benefits may be payable under the regulations of this part to such widow, widower, or parent, as the case may be, solely on the basis of the wages and self-employment income of such deceased individual and without regard to any compensation which may be treated as wages pursuant to § 404.1408.

7. Section 404.1408 is amended to read as follows:

§ 404.1408 Compensation to be treated as wages.

Where, pursuant to the preceding provisions of this subpart, services rendered by an individual in the railroad industry are considered to be in employment as defined in section 210 of the Social Security Act (see Subpart K of this part) any compensation (as defined in section 1(h) of the Railroad Retirement Act of 1974 or prior to the 1974 Act, section 1(h) of the Railroad Retirement Act of 1937) received by such individual for such services shall constitute wages provided that the provisions of § 404.1406 do not operate to bar the payment of benefits under title II of the Social Security Act; except that any compensation attributable as having been paid during any month on account of military service creditable under section 1 of the Railroad Retirement Act of 1974 (or section 4 of the Railroad Retirement Act of 1937 prior to the 1974 Act) shall not constitute wages for purposes of title II of the Social Security Act if, based on such military service, wages are deemed to have been paid to such individual during such month under the provisions described in § 404.1308 or § 404.1309.

8. Section 404.1410 is amended to read as follows:

§ 404.1410 Presumptions on basis of certified compensation record.

(a) *Years prior to 1975.* Where the Railroad Retirement Board certifies to the Social Security Administration a report of record of compensation, which is treated as wages under § 404.1408, and periods of service which do not identify the months or quarters in which such compensation was paid, the sum of the compensation quarters of coverage (see § 404.1412) will be presumed, in the absence of evidence to the contrary, to represent an equivalent number of quarters of coverage (see §§ 404.103 and 404.104). No more than four quarters of coverage shall be credited to an individual in a single calendar year.

(b) Compensation paid in a calendar year will, in the absence of evidence to the contrary, be presumed to have been paid in equal proportions with respect to all months in the year in which the employee will have been in railroad service. (For years prior to 1975, see § 404.1412.)

(c) *Allocation of compensation to months of service.* If by means of the presumptions in this section an individual does not have an insured status (see Subpart B of this part) on the basis of quarters of coverage with which he is credited, or a deceased individual's primary insurance amount (see § 404.201) may be affected because he attained age 22 after 1936, the Administration may request the Railroad Retirement Board to furnish a report of the months in which such individual rendered service for compensation which is treated as wages under § 404.1408 if it appears the identification of such months may result in an insured status or if it will affect such primary insurance amount.

(d) *Effect of self-employment income and maximum earnings.* However, if such individual also had self-employment income for a taxable year and the sum of such income and wages (including compensation which is treated as wages under § 404.1408) paid to or received by him during such taxable year equals the following amounts, each calendar quarter any part of which falls in such taxable year, shall be a quarter of coverage:

(1) After 1950 and prior to 1955, equals $3,600 of remuneration;

(2) After 1954 and prior to 1959, equals $4,200 of remuneration;

(3) After 1958 and prior to 1966, equals $4,800 of remuneration;

(4) After 1965 and prior to 1968, equals $6,600 of remuneration;

(5) After 1967 and beginning prior to 1972, equals $7,800 of remuneration (including a fiscal year which began in 1971 and ended in 1972);

(6) Beginning after 1971 and prior to 1973, equals $9,000 of remuneration;

(7) Beginning after 1972 and prior to 1974, equals $10,800 of remuneration;

(8) Beginning after 1973 and prior to 1975, equals $13,200 of remuneration;

(9) Beginning after 1974 and prior to 1976, equals $14,100 of remuneration;

(10) Beginning after 1975 and prior to 1977, equals $15,300 of remuneration; or

(11) Beginning after 1976, an amount equal to the contribution and benefit base as determined under Section 230 of the Social Security Act which is effective for such calendar year.

This subsection is an exception to the rule in paragraph (a) of this section concerning a presumption applicable to conversion of railroad compensation into quarters of coverage for years prior to 1975.

§ 404.1411 [Removed]

9. Section 404.1411 is deleted.

10. Section 404.1412 is revised to read as follows:

§ 404.1412 Compensation quarters of coverage.

As used in this subpart, a compensation quarter of coverage is any quarter of coverage computed with respect to compensation paid to an individual for railroad employment after 1936 and prior to 1975 in accordance with the provisions for determining such quarters of coverage as contained in section 5(l)(4) of the Railroad Retirement Act of 1937. (For years beginning 1975, see § 404.1410 (b)).

13. A new § 404.1413 is added to read as follows:

§ 404.1413 Certification of payment to Railroad Retirement Board.

Certification of benefits shall be made to the Railroad Retirement Board upon final decision of the Secretary of Health, Education, and Welfare that any person is entitled to any payment or payments under title II and that certification shall include the name and address of the person so entitled to received such payment or payments, the amount of such payment or payments, and the time at which such payment or payments should be made which shall provide for payment on behalf of the Managing Trustee if:

(a) The claimant will have completed 10 years of service under the Railroad Retirement Act of 1937, the Railroad Retirement Act of 1974, or any combination of service under such Acts; or

(b) The claimant is the wife or husband of an individual who has completed 10 years of service under the Railroad Retirement Act of 1937, the Railroad Retirement Act of 1974, or any combination of service under such Acts; or

(c) The claimant is the survivor of an individual who had completed 10 years of service under the Railroad Retirement Act of 1937, the Railroad Retirement Act of 1974, or any combination of service under such Acts, if such survivor is entitled, or could upon application be entitled to an annuity under section 2 of the Railroad Retirement Act of 1974; or

(d) The claimant is entitled to benefits under section 202 of the Social Security Act on the basis of the wages and self-employment income of an individual who has 10 years of railroad service (except a survivor of such individual if such individual did not have a "current connection", as defined in section 1(o) of the Railroad Retirement Act of 1974 (45 U.S.C. 228a) with the railroad industry at the time of his death).

The applicability limitations identified in paragraphs (a) through (d) of this section affects any claimant who first becomes entitled to benefits under title II of the Social Security Act after 1974. (See also § 404.968.)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

[24 CFR Part 1917]

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the Borough of Ho-Ho-Kus, New Jersey

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the Borough of Ho-Ho-Kus, New Jersey.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Ho-Ho-Kus must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Borough Hall, East Franklin Turnpike, Ho-Ho-Kus, New Jersey 07423.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor W. Stuart Thompson, Jr., Borough Hall, East Franklin Turnpike, Ho-Ho-Kus, New Jersey 07423. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Ho-Ho-Kus Brook	Maple Ave.	123		550
	Warren Ave. (downstream side)	129	20	55
	Erie railroad (downstream side)	141	25	10
Saddle River	Rogert Rd	99	100	170
	Hollywood Ave	102	100	70
Saddle Brook	East Saddle River Rd	93	450	530

[1] To corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 28, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the City of Belleair Bluffs, Florida

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Belleair Bluffs, Florida.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Belleair Bluffs must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 115 Florence Drive, Belleair Bluffs, Florida 33540.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor J. Wilson Reed, City Hall, 115 Florence Drive, Belleair Bluffs, Florida 33540. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width—Distance from coastline to V-zone boundary	
			Left	Right
Gulf of Mexico	Sunset Dr. (extended)	14		150
	Del Rio Dr. (extended)	14		55

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 27, 1976.

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determination for the City of Freeport, Stephenson County, Illinois

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968; P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)) hereby gives notice of his proposed determinations of flood elevations for the City of Freeport, Stephenson County, Illinois.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City must adopt flood plain

V 41 157 AUG 12 76 UMI

management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Engineer's Office, City Hall, 228 West Stephenson Street, Freeport.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Mark McLeRoy, City Hall, 228 West Stephenson Street, Freeport, Illinois 61032. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Pecatonia River	Southern corporate limits	759	----	150

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the City of Harrington, Delaware

The Federal Insurance Administer, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Harrington, Delaware.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Harrington must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Offices, 103 Fleming Street, Harrington, Delaware 19952.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor William A. Minner, City Offices, 103 Fleming Street, Harrington, Delaware 19952. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Brown's Branch, south.	3,200 ft upstream from Route 431	45	----	240
	4,800 ft upstream from Route 431	48	----	160

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 27, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the City of Harbor Springs, Michigan

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Harbor Springs, Michigan.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Harbor Springs must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 349 East Main Street, Harbor Springs, Michigan 49740.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Josephine Ford, 349 East Main Street, Harbor Springs, Michigan 49740. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Little Traverse Bay	State St. (extended)	583	90	(1)
	Zoll St. (extended)	583	100	(1)

1 To shoreline.

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the City of St. Louis Park, Minnesota

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the City of St. Louis Park, Minnesota.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of St. Louis Park must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 5005 Minnetonka Boulevard, St. Louis Park, Minnesota 55416.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor James R. Dahl, City Hall, 5005 Minnetonka Boulevard, St. Louis Park, Minnesota 55416. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the City of Thomasville, Georgia

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (Section 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Thomasville, Georgia.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Thomasville must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 144 East Jackson Street, Thomasville, Georgia 31792.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify mayor J. A. Bracey, City

Hall, 144 East Jackson Street, Thomasville, Georgia 31792. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)

APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Proposed Flood Elevation Determinations for the Village of Sutton's Bay, Michigan

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (Section 1917.4 (a)), hereby gives notice of his proposed determinations of flood elevations for the Village of Sutton's Bay, Michigan.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Village of Sutton's Bay must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Village Hall, Sutton's Bay, Michigan 49682.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. William Gregory, President, Village Council, Village Hall, Sutton's Bay, Michigan 49682. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

DEPARTMENT OF TRANSPORTATION

[14 CFR Part 39]

[Docket No. 76-WE-15-AD]

AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC-9 Series Airplanes

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to McDonnell Douglas Model DC-9 Series airplanes having certain model seat belts installed on the flight attendant's seat located on the aft pressure bulkhead door. It has been determined that the flight attendant seat belts of cerncern might not provide proper restraint to the occupant. A bungee cord, intended to pull the seat belt retractor shroud out of the way during the automatic seat retracting cycle, holds the shroud against the door structure when the seat is occupied and seat belt is buckled. Since the bungee cord is stronger than the belt retraction spring, the retractor is unable to snug the belt against the occupant. Should subsequent deceleration occur, the bungee cord could stretch permitting the seat occupant to move about 4", which, in turn, might result in the occupant "submarining" out from under the seat belt, particularly if the shoulder harness is also buckled. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed Airworthiness Directive would on McDonnell Douglas Model DC-9 series airplanes prohibit the use of certain seats or require the seat belt installation to be modified or replaced in a manner approved by the Chief, Aircraft Engineering Division, FAA, Western Region.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Information on the economic, environmental and energy impact that might result because of adoption of the proposed rule is requested. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Western Region, Attention: Regional Counsel, Airworthiness Rule Docket, P.O. Box 92007, World Way Postal Center, Los Angeles, California 90009. All communications received on or before September 14, 1976 will be considered by the agency before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), Section 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

MCDONNELL DOUGLAS CORPORATION: Applies to McDonnell Douglas Model DC-9 series airplanes certificated in all categories, having American Safety Flight Systems Inc. seat belt Models 444657 or 444660 installed on the flight attendant's seat located on the aft pressure bulkhead door.

Compliance required within the next 300 hours time in service after the effective date of this AD unless already accomplished.

To prevent possible injury to the occupant of the flight attendant's seat, accomplish either of the following:

(a) Install a placard on the flight attendant's seat, located on the aft pressure bulkhead door which reads:

"DO NOT OCCUPY", or

(b) Replace or modify the seat belt installation including the bungee cord on the flight attendant's seat located on the aft pressure bulkhead door, to provide proper restraint of the occupant, in a manner approved by the Chief, Aircraft Engineering Division, FAA, Western Region.

NOTE.—The subject seat belts were installed at a particular time during factory production and may also have been installed in the field in accordance with Service Bulletin 25-147.

Issued in Los Angeles, California, on August 3, 1976.

ROBERT H. STANTON,
Director, FAA Western Region.

[FR Doc.76-23437 Filed 8-11-76;8:45 am]

Federal Aviation Administration

[14 CFR Part 45]

[Docket No. 15977; Notice No. 76-16]

IDENTIFICATION AND REGISTRATION MARKING

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending § 45.13 of the Federal Aviation Regulations to prohibit the removal, change, or placement of information on identification (ID) plates required by § 45.11 and the removal and installation of ID plates on aircraft, aircraft engines, propellers, and propeller blades and hubs, without the approval of the Administrator.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before November 8, 1976, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Each aircraft and aircraft engine is required by § 45.11 of the Federal Aviation Regulations to be identified by means of a fireproof identification (ID) plate that contains specified identification information. Propellers, and propeller blades and hubs must also be identified by ID plates or other approved method such as stamping, engraving and etching. The identification information includes the name of the builder, aircraft model, builders' serial number, and information necessary to identify the aircrafts' type design. An aircraft must be shown to conform to its type design before the FAA will issue it an original airworthiness certificate and subsequent repairs and modification to the aircraft must be compatible with that type design. To assure the continued accuracy of the information, § 45.13(b) provides that no person may remove or change identification information without the approval of the Administrator.

However, questions have arisen with respect to the interpretation of these regulations, and the FAA is aware that ID plates have been altered and switched from one aircraft to another in an apparent effort to avoid the time and expense of establishing that the aircraft conforms to an FAA approved type design and, therefore, is entitled to an airworthiness certificate. For example, ID plates have been removed from aircraft that have been destroyed in accidents or that are otherwise no longer flyable. These ID plates have been sold and installed on "look-alike" aircraft built from spare and surplus parts and military surplus aircraft. They are then used to obtain airworthiness certificates for these aircraft under the guise of obtaining duplicate copies of a lost or destroyed airworthiness certificate for the aircraft that the ID plate was originally installed on.

Although the extent of the practice described above is not known, the FAA believes it should be eliminated. Accordingly, it is proposed to amend Part 45 by adding a new § 45.13(c) to specifically prohibit any person from removing or installing an ID plate required by § 45.11 without the approval of the Administrator. In addition, § 45.13(b) would be amended to provide that no person may remove, change, or place identification information required by Part 45, without the approval of the Administrator.

This amendment is proposed under sections 307(c), 313(a), 501 and 502 of the Federal Aviation Act of 1958 [49 U.S.C. 1348(c), 1354(a), 1401, and 1402] and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Part 45 of the Federal Aviation Regulations by amending § 45.13(b) and by adding a new § 45.13 (c) to read as follows:

§ 45.13 Identification data.

* * * * *

(b) No person may remove, change, or place identification information on an identification plate required by § 45.11 of this part, without the approval of the Administrator.

(c) No person may install or remove an identification plate required by § 45.11 of this part, without the approval of the Administrator.

Issued in Washington, D.C., on July 30, 1976.

R. P. SKULLY,
Director, Flight Standards Service.

[Airspace Docket No. 76-SW-42]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Anahuac, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 13, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (41 FR 440), the following transition area is added:

ANAHUAC, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Chambers County Airport (latitude 29°46'12" N., longitude 94°39'51" W.) and within 3 miles each side of the 137° bearing from the Chambers County RBN (latitude 29°46'23" N., longitude 94°39'47" W.) extending from the 5-mile-radius area to 8.5 miles southeast of the RBN.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB RWY 30 (Original) instrument approach procedure to Chambers County Airport.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348) and of sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, TX, on August 2, 1976.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.76-23404 Filed 8-11-76;8:45 am]

[14 CFR Parts 71 and 73]

[Airspace Docket No. 76-RM-13]

RESTRICTED AREA

Alteration and Extension

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would alter and extend Restricted Areas R-6404 A/B/C, Hill AFB, Utah.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 10445 East 25th Avenue, Aurora, Colorado 80010. All communications received on or before September 13, 1976, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591.[1] An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Request for copies of this Notice of Proposed Rule Making should be addressed to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-230, 800 Independence Avenue, SW., Washington, D.C. 20591.

[1] Map filed as part of the original document.

The proposed amendments would redesign, alter the designated altitudes and change the time of designation of Restricted Area R-6404 A/B/C to:

R-6404A HILL AFB, UTAH

Boundaries. Beginning at Lat. 41°15'00" N., Long. 113°43'50" W.; to Lat. 41°10'40" N., Long. 112°45'00" W.; to Lat. 41°00'00" N., Long. 112°45'00" W.; to Lat. 41°00'00" N., Long. 112°56'30" W.; to Lat. 40°51'30" N., Long. 112°56'30" W.; to Lat. 40°48'30" N.; Long. 113°40'00" W.; to point of beginning.
Designated altitudes. Surface to FL 580.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Salt Lake City ARTC Center.
Using agency. Commander, Hill AFB, Utah.

R-6404B HILL AFB, UTAH

Boundaries. Beginning at Lat. 41°10'40" N., Long. 112°45'00" W.; to Lat. 41°07'00" N., Long. 112°39'00" W.; to Lat. 41°01'00" N., Long. 112°39'00" W.; to Lat. 40°51'30" N., Long. 112°56'30" W.; to Lat. 41°00'00" N., Long. 112°56'30" W.; to Lat. 41°00'00" N., Long. 112°45'00" W.; to point of beginning.
Designated altitudes. 100 feet AGL to FL 580.
Time of designation. Continuous.
Controlling agency. Federal Aviation Administration, Salt Lake City ARTC Center.
Using agency. Commander, Hill AFB, Utah.

In addition, Restricted Area R-6404C would be deleted in § 71.151.

The using agency anticipates increased usage (fifty-four F-4D aircraft) of the proposed consolidated area and has indicated a need for the eastern boundary expansion in order to conduct more realistic training by tactical fighter aircraft.

[Airspace Docket No. 76-SO-64]

JET ROUTES

Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would realign the present jet routes overlying Memphis, Tenn., commensurate with the proposed relocation of the Memphis, Tenn., VOR/DME, at lat. 35°03'45" N., Long. 89°58'53" W., on December 30, 1976.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before September 13, 1976, will be considered before action is taken on the proposed amendment. The proposal con-

V 41 157 AUG 12 76 UMI

tained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591.[1] An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Request for copies of this Notice of Proposed Rule Making should be addressed to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-230, 800 Independence Avenue, SW., Washington, D.C. 20591.

The proposed amendment would:

1. Realign Jet Route J-41 in part from Birmingham, Ala., Memphis, Tenn., Springfield, Mo.

2. Realign Jet Route J-66 in part from Little Rock, Ark.; Memphis, Tenn.; to Rome, Ga.

3. Realign Jet Routes J-29, J-35, J-42, J-71 and J-118 via the (relocated) Memphis VORTAC.

These airspace actions are necessitated by the proposed relocation of the Memphis, Tenn., VOR/DME, at Lat. 36°03'45" N., Long. 89°58'53" W., on December 30, 1976.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on August 5, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FRL 598-6]

OCEAN DUMPING; PROPOSED REVISION OF REGULATIONS AND CRITERIA

Extension of Public Comment Period

On June 28, 1976, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER proposed revision of ocean dumping regulations and criteria (41 FR 26644 et seq.). In that publication it was stated that a Draft Environmental Impact Statement (DEIS) on the proposed revision was available for inspection.

Because sufficient copies of this DEIS were not available for distribution until August 3, and because EPA has received a request to extend the public comment period on the proposed revision of the ocean dumping regulations and criteria and on the DEIS will be extended until September 24, 1976.

(33 U.S.C. 1421 and 1418.)

Dated: August 6, 1976.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20413 et al]

FM BROADCAST STATIONS: TABLE OF ASSIGNMENTS

Iowa, et al.

In the matter of amendment of § 73.202 (b), Table of Assignments, FM Broadcast Stations. (Ankeny, Iowa; Copperas Cove, Tex.; Davis, Calif.; Emmetsburg, Ia.; Frankfort, Mich.; Hiawatha, Kans.; Howell, Mich.; Jewett, Ohio; New Lexington, Ohio; Ottawa, Ohio; Selmer, Tenn.; Yoakum, Tex.) Docket No. 20413; RM-2416, RM-2470, RM-2505, RM-2510, RM-2492, RM-2511, RM-2496, RM-2508, RM-2486, RM-2504, RM-2509, RM-2483.

1. We have under consideration in this proceeding the comments filed in response to our further notice of proposed rule making which proposed the assignment of Channel 288A to Copperas Cove, Texas (1970 population 10,818), as its second FM assignment.[1] Comments were filed by KOVE Broadcasting Company ("KOVE"), a partnership between Ted C. Connnell and Gaylon W. Christie, original petitioners in this proceeding; and B. Rex Samford, petitioner and present applicant for a new FM broadcast station on Channel 276A at Copperas Cove.[2]

2. Connell and Christie sought the assignment stating that Copperas Cove could support two FM broadcast stations, and the assignment would avoid a comparative hearing with regard to Channel 276A. They presented information to demonstrate that Copperas Cove had experienced a rapid increase in population (136.9 in the last Census decade) and estimated the 1975 population at 17,000.

3. In the Notice the Commission found that the proposal had merit but noted its concern that such an assignment would preclude possible future assignments of Channels 288A, 289 and 290 for twelve communities in the surrounding area. We asked that interested parties show, if possible, alternative FM channels available to these communities. KOVE presents an engineering statement indicating that at least one FM channel assignment is available to the twelve communities listed by the Commission in the Further Notice, with the exception of Killeen, Texas. With respect to Killeen, KOVE commented that it already has one FM broadcast station, one standard broadcast station, and one noncommercial educational FM broadcast station. Furthermore, KOVE states that Killeen is less than 10 miles from Copperas Cove and would receive the signal of any station licensed there. The Commission's engineering study found that only nine of the twelve communities have alternative channels available; however, each of the other three (Cameron, Stephenville and Killeen) have one commercial FM channel assigned to them.

4. B. Rex Samford, applicant for a construction permit on Channel 276A at Copperas Cove (BBH-9673), states that although it harbors reservations as to the ability of the community to support two broadcast stations, it is willing to construct and operate a station in competition with a second local facility. Therefore, Samford interposes no objection to the assignment of a second FM channel to Copperas Cove. Samford notes that KOVE's present application for Channel 276A is inconsistent with its representation to apply for the second channel and the Commission should hold KOVE accountable for its representation.

5. In its comments, KOVE has failed to state its present intention to apply for the channel if it is assigned, and, if authorized, to build a station promptly, as required by our Notice (para. 2, Appendix II). Furthermore, KOVE has not indicated its willingness to withdraw its application for Channel 276A if Channel 288A is assigned to Copperas Cove. Samford has indicated no interest in Channel 288A, and no other party has expressed an interest in applying for the station on the channel. Absent compelling circumstances, the Commission will not assign a channel without a clear statement of intention by an interested party that it will apply for a station on the channel if authorized.[3]

6. Although no party has clearly stated its present intention to apply for the new channel if assigned, there are two parties applying for one Class A station at Copperas Cove. Samford has indicated willingness to operate a second station, and petitioner evidences its continuing interest by filing comments with regard to a second assignment. Based upon the population, rapid growth, economy, and social information presented, we find that it would be in the public interest to make a second assignment to Copperas Cove. The assignment is consistent with our population guidelines which provide for two commercial assignments in communities of this size. We have not, however, received assurance that the channel would be utilized promptly if assigned.

7. An interested party must state clearly and affirmatively its intention to apply for a construction permit on Channel 288A at Copperas Cove before we shall continue with this proceeding. Should that party be KOVE or Samford, they will also be required to state an intention to withdraw the conflicting application for Channel 276A if it is still pending.[4] If such a statement of intent is not forthcoming, the proposed assignment would be denied. Ogallala, Nebraska, 42 F.C.C. 2d 720 (1973); 47 F.C.C. 2d 200 (1974).

8. Authority for the action contained herein appears in sections 4(i), 5(d)(1), 303, and 307(b) of the Communications Act, as amended; and § 0.281(b)(6) of the Commission's rules and regulations.

9. Interested parties may file comments on or before September 13, 1976, and reply comments on or before October 5, 1976.

Adopted: July 29, 1976.

Released: August 6, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.76-23526 Filed 8-11-76;8:45 am]

[47 CFR Part 73]

[Docket No. 20885; RM-2649]

TABLE OF ASSIGNMENTS, FM BROADCAST STATIONS

Park City, Utah

1. Richard H. Albert (petitioner), filed a petition requesting the assignment of Class C FM Channel 300 to Park City, Utah. No other revisions in the FM Table of Assignments, Section 73.202(b), were proposed, and no supporting or opposing comments were received. Petitioner states that, if the channel is assigned, he will promptly file an application for a construction permit.

2. Summit County (population 5,879)[1] contains the small community of Park City which has 1,193 residents. There is neither an AM or FM assignment at Park City.

3. Park City is located approximately 21 miles southeast of Salt Lake City and 30 miles north of Provo, Utah. Petitioner states that, during the height of the snow ski season, thousands of tourists visit Park City to take advantage of the numerous resort facilities. He adds that public agencies have predicted a permanent population by 1980 of from 16,000 to 37,000 persons. Petitioner points out that Park City does not have a daily newspaper or a broadcast facility carrying local news, thus the community is greatly restricted in dealing with community problems. He notes that information, such as severe weather warnings, are of great importance to the residents of this area. Petitioner states that, while Park City is close to Salt Lake City, the two cities are separated by very rugged terrain and, due to this terrain, Park City is unable to receive reliable reception from the existing broadcast facilities in Salt Lake City.

4. Large areas of preclusion occur on Channel 300 and Channel 299 with a small area being precluded on Channel 298. The area in which preclusion would occur includes more than 50 cities whose populations are 1,000 persons or more. The largest cities among these are Pocatello, Idaho (40,036), Ogden (69,478), Logan (22,333), and Provo, Utah (53,131). There are a number of channel assignments in the precluded areas which are presently open and unapplied for. Petitioner avers that the proposed Class C station would serve Park City and a number of small communities adjacent to Park City representing an additional population of approximately 18,000 persons.

5. Although the proposed channel assignment complies with the requirements of the minimum mileage separation rule (§ 73.207(a)), it is a Class C channel. In the case herein where the community has a population of 1,193 persons, it is the usual practice to assign a Class A channel in accordance with the population guidelines.[2] Thus, before the Commission is able to determine whether the requested assignment would be in the public interest, additional information is needed. Petitioner should submit in his comments, a Roanoke Rapids-Goldsboro, N.C., 9 F.C.C. 672 (1967), showing, as modified by Anamosa-Iowa City, Ia., 40 F.C.C 2d 250 (1974), setting forth the areas and populations which would be provided with a first and second aural service from a Park City Channel 300 facility.

6. Comments are invited on the following proposal to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules:

City	Channel No.	
	Present	Proposed
Park City, Utah		300

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures used, and filing requirements are contained below and are incorporated herein.

8. Interested parties may file comments on or before September 13, 1976, and reply comments on or before October 5, 1976.

Adopted: July 29, 1976.

Released: August 6, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the Notice of proposed rule making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of proposed rule making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of proposed rule making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of

[1] Map filed as part of the original document.

[1] Channel 276A was assigned by Report and Order, 40 FR 49335 (1975).

[2] BPH-9673.

[3] The Commission found the equivalent of such a commitment in Sun Valley, Idaho, 41 FR 27364, adopted June 18, 1976, in similar circumstances. However, in that case at least one of the two applicants clearly stated its unequivocal intent to proceed if a second FM channel was assigned. In general the Commission requires at least one party to affirmatively state its intention to utilize a new assignment.

[4] See Billings, Montana, 41 Fed. Reg. 21363, para. 6, adopted May 13, 1976. See also §§ 1.518 and 73.240(a)(1) of the FCC rules.

[1] All population figures are taken from the 1970 U.S. Census.

[2] Further notice of proposed rule making in Docket No. 14185, 27 FR 7797 (1962), incorporated by reference in the Third Report, Memorandum Opinion and Order in Docket No. 14185, Para. 25, 40 F.C.C. 747, 758 (1963).

V 41 157 AUG 12 76 UMI

the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[FR Doc.76-23525 Filed 8-11-76;8:45 am]

FEDERAL ENERGY OFFICE

[10 CFR Part 212]

NATURAL GAS LIQUIDS

Class Exception on Retroactive Application; Supplemental Decision, Order and Public Hearing

The Federal Energy Office hereby gives notice that a public hearing will be held on a proposal to issue a supplemental Decision and Order to the Class Exception issued by the FEA Office of Exceptions and Appeals on August 29, 1975. "Class Exception-Retroactive Application to Subpart K," 2 FEA Par. 34901 (August 29, 1975) (40 FR 40824; September 4, 1975). The proposed supplemental order would clarify the August 29, 1975 Decision as to the extent of the exception relief provided therein with respect to certain natural gas processors.

The FEO has previously set forth the proposal to issue a supplemental Decision and Order to the Class Exception and solicited comments with regard to its proposal. 41 FR 24609 (June 17, 1976). Copies of all comments received by the FEO are available to the public in the Public Docket Room of the Office of Private Grievances and Redress, Room B-210, 2000 M Street, NW., Washington, D.C., between the hours of 1 and 5 p.m.

In the comments received by the FEO concerning the proposal to issue the supplemental Decision and Order, a number of persons have requested that the FEO hold a public hearing in connection with this matter. In view of the interest which has been expressed in a public hearing on this matter and the effect which the issuance of the proposed Decision and Order would have on the firms involved, the FEO has determined that a public hearing should be held with respect to the proposal to issue a supplemental Decision and Order to the August 29, 1975 Class Exception in order to afford interested parties an opportunity to present their views. The public hearing will be held on August 26, 1976, in Room 2105, 2000 M Street, NW., Washington, D.C.

Any person who has an interest in the subject matter, or who is a representative of a group or class of persons that has such an interest may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEO, and must be received before 4:30 p.m., August 18, 1976. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and phone number where he or she may be contacted through August 25, 1976. Each person selected to be heard will be so notified by the FEO before 4:30 p.m., August 20, 1976, and must submit 100 copies of his or her statement to Regulation Development Office, FEO, Room 2214, 2000 M Street, NW., Washington, D.C., before 4:30 p.m., e.s.t. on August 25, 1976.

The FEO reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEO official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEO with respect to the subject matter of the hearing will be based on all information available to the FEO. At the conclusion of all initial oral statements, if time permits, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested persons may submit questions to be asked of any person making a statement at the hearing to Executive Communications, FEO, before 4:30 p.m., August 24, 1976. Any person who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEO or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether the time limitations permit it to be presented for an answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEO and made available for inspection at the FEO Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C., August 6, 1976.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Office.

[FR Doc.76-23478 Filed 8-9-76;12:24 pm]

GENERAL SERVICES ADMINISTRATION

[41 CFR Parts 101-2, 101-26]

DISCREPANCIES OR DEFICIENCIES IN GSA OR DOD SHIPMENTS, MATERIAL, OR BILLINGS

Notice of Proposed Changes

The General Services Administration proposes to amend the regulations issued in Subparts 101-2.1 and 101-26.3 of the Federal Property Management Regulations (FPMR) and to establish new Subpart 101-26.8. FPMR 101-2.1 concerns the procedures used by GSA in billing for supplies and services furnished Government agencies and the procedures for payment and adjustment of those billings. FPMR 101-26.3 concerns the procurement of GSA stock items and includes policy and procedures for reporting and obtaining adjustments for overages, shortages, and damages of those items.

It is proposed to change the minimum dollar value in FPMR 101-2.1 below which adjustments of billings and payments are not required and should not be requested. It is also proposed to change FPMR 101-26.3 to remove the regulations therefrom; to revise and augment those regulations so removed; and, with proper cross referencing, to include them in new Subpart 101-26.8.

These proposed changes result in part from a joint decision by officials of the General Services Administration (GSA) and the Department of Defense (DOD) to establish a $25.01 minimum below which adjustments will not be made in billings or payments for any one line item on a bill for material or shipments from or directed by GSA or DOD. Further, in the interests of promoting the national supply system concept, GSA and DOD policy and procedures governing the reporting of discrepancies or deficiencies in shipments, material, or billings have been standardized as feasible with respect to their effect on civil executive agencies. This standardization is reflected in applicable DOD regulations and in the GSA regulations proposed for new Subpart 101-26.8.

To provide uniformity in the application of GSA and DOD policy and procedures, it is planned to implement these procedures on September 1, 1976. However, the regulatory aspects of the proposed policy will not be effective until approved by the Administrator of General Services and subsequently published in the FEDERAL REGISTER.

Written comments concerning the proposed amendment may be submitted to the General Services Administration (F), Washington, DC 20406, on or before August 25, 1976.

In consonance with the foregoing, it is proposed to amend the FPMR as follows:

PART 101-2—PAYMENTS TO GSA FOR SUPPLIES AND SERVICES FURNISHED GOVERNMENT AGENCIES

Subpart 101-2.1—Billings, Payments, and Adjustments

Section 101-2.104 is amended as follows:

§ 101-2.104 Adjustments.

* * * * *

(c) Adjustments of billings or payments are not required and should not be requested or made whenever the difference involved, resulting from over or under deliveries or over or under charges, represents an amount of $25 or less on any one line item on a bill. This practice regarding adjustments is not to be construed to eliminate billings and payments for requisitioned items of $25 or less. In connection with GSA Federal Supply Service activities, Subpart 101-26.8 is applicable to adjustments for discrepancies or deficiencies in shipments or material. To minimize followup, research, and collection costs on intragovernmental transactions, agencies are urged to follow the most liberal policy possible in determining whether or not to request adjustments. To further expedite settlement of accounts between GSA and the billed agencies, such settlements may be made by mutual agreement, regardless of amount, without reference to the General Accounting Office.

* * * * *

PART 101-26—PROCUREMENT SOURCES AND PROGRAMS

The table of contents for Part 101-26 is amended by adding the following reserved and new entries:

Sec.
101-26.307-1 [Reserved]
101-26.307-2 [Reserved]
101-26.307-3 [Reserved]

Subpart 101-26.8—Discrepancies or Deficiencies in GSA or DOD Shipments, Material, or Billings

101-26.800 Scope of subpart.
101-26.801 Applicability.
101-26.802 Exclusions.
101-26.803 Discrepancies or deficiencies in shipments, material, or billings.
101-26.803-1 Reporting discrepancies or deficiencies.
101-26.803-2 Adjustments.

Subpart 101-26.3—Procurement of GSA Stock Items

Section 101-26.307 is revised and §§ 101-26.307-1, 101-26.307-2, and 101-26.307-3 are deleted and reserved as follows:

§ 101-26.307 Processing overages, shortages, and damages.

(a) Transportation-type discrepancies shall be processed in accordance with the instructions in Subpart 101-40.7 when the discrepancies are the fault of the carrier and occur while the shipments are in the possession of:

(1) International ocean or air carriers, regardless of who pays the transportation charges, except where shipment is on a through Government bill of lading (TGBL). (Discrepancies in shipments on a TGBL shall be reported as prescribed in Subpart 101-26.8.)

(2) Carriers within the continental United States, when other than GSA or DOD pays the transportation charges.

(b) Reporting discrepancies or deficiencies in material or shipments and processing requests for or documenting adjustments in billings from or directed by GSA activities shall be in accordance with the provisions of Subpart 101-26.8.

§ 101-26.307-1 [Reserved]

§ 101-26.307-2 [Reserved]

§ 101-26.307-3 [Reserved]

New Subpart 101-26.8 is added as follows:

Subpart 101-26.8—Discrepancies or Deficiencies in GSA or DOD Shipments, Material, or Billings

Sec.
101-26.800 Scope of subpart.
101-26.801 Applicability.
101-26.802 Exclusions.
101-26.803 Discrepancies or deficiencies in shipments, material, or billings.
101-26.803-1 Reporting discrepancies or deficiencies.
101-26.803-2 Adjustments.

Subpart 101-26.8—Discrepancies or Deficiencies in GSA or DOD Shipments, Material, or Billings

§ 101-26.800 Scope of subpart.

This subpart prescribes a uniform system for reporting discrepancies or deficiencies in material or shipments and processing requests for or documenting adjustments in billings from or directed by GSA or Department of Defense (DOD) activities.

§ 101-26.801 Applicability.

This subpart is applicable to all civilian executive agencies, including their contractors when authorized. Military activities should follow the applicable DOD or military service/agency regulations in reporting discrepancies or deficiencies in shipments or material, or requesting adjustments in billings from or directed by GSA unless exempted therefrom, in which case the provisions of this § 101-26.801 apply.

§ 101-26.802 Exclusions.

The provisions of this regulation are not applicable to shipments and billings related to the stockpile of strategic and critical materials or excess or surplus property; or to billings for services, space, communications, and printing which are covered by Subpart 101-2.1.

§ 101-26.803 Discrepancies or deficiencies in shipments, material, or billings.

§ 101-26.803-1 Reporting discrepancies or deficiencies.

(a) When discrepancies or deficiencies are incurred in shipments or material, activities shall document such discrepancies or deficiencies with sufficient information to enable initiation and processing of claims against carriers and suppliers for shortages, damages, and the disposition of any overages or incorrect items. Procedures for documenting such discrepancies or deficiencies including those for documenting and reporting quality deficiencies are set forth in the GSA Handbook, Discrepancies or Deficiencies in GSA or DOD Shipments, Material, or Billings, promulgated by the Commissioner, Federal Supply Service.

(1) Discrepancies or deficiencies other than those outlined in paragraph (2) of this section shall be reported on the forms and within the time frames and dollar limitations prescribed in the handbook referenced above.

(2) Transportation-type discrepancies shall be processed in accordance with the instructions in Subpart 101-40.7 when the discrepancies are the fault of the carrier and occur while the shipments are in the possession of:

(i) International ocean or air carriers, regardless of who pays the transportation charges, except where shipment is on a through Government bill of lading (TGBL). (Discrepancies in shipments on a TGBL shall be reported as prescribed in the GSA handbook referenced in paragraph (1) of this section.)

(ii) Carriers within the continental United States, when other than GSA or DOD pays the transportation charges.

(b) Reports shall be prepared promptly and mailed to the appropriate GSA or DOD office in order to avoid delay in adjustment actions and complication of claim actions against carriers or suppliers.

§ 101-26.803-2 Adjustments.

GSA and DOD will adjust billings whenever the difference involved, resulting from over or under charges or discrepancies or deficiencies in shipments or material, exceeds $25 per line item on a bill submitted in accordance with the provisions of this Subpart 101-26.8 and the GSA Handbook, Discrepancies or Deficiencies in GSA or DOD Shipments, Material, or Billings.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

Dated: July 29, 1976.

J. H. BOLTON,
Acting Commissioner,
Federal Supply Service.

INTERNATIONAL TRADE COMMISSION

[19 CFR Part 201]

NONADJUDICATIVE HEARINGS

Conduct

The Commission is considering amendments to title 19, part 201, of the Code of Federal Regulations that would revise section 201.12, concerning the conduct of nonadjudicative hearings.

Interested persons may participate in the proposed rulemaking by submitting

V 41 I 157 AUG 12 76 UMI

such written data, views, or arguments as they may desire. Communications should be submitted to the Office of the Secretary, United States International Trade Commission, Washington, D.C. 20436. All communications received on or before September 13, 1976, will be considered before action is taken on the proposed amendment. Comments received will be available for public examination in the Office of the Secretary.

The Commission's proposed changes would provide for the assignment, where appropriate, of employees to preside over hearings and for the delineation of the powers and duties of presiding officials. In addition, the proposed changes provide for the submission of witnesses' prepared statements and for oral summaries of such statements in testimony.

It is proposed to revise § 201.12 of Part 201 of Title 19 of the Code of Federal Regulations to read as follows:

§ 201.12 Conduct of nonadjudicative hearings.

(a) *Presiding officials.*

(1) *Who presides.* Public hearings in nonadjudicative investigations will be conducted by the Commission, one or more Commissioners, or by one or more designated employees; in all cases the transcript of the testimony at a hearing will be presented for the consideration of the Commission.

(2) *Powers and duties.* The Commission, one or more Commissioners, or one or more designated employees shall have all the powers necessary to conduct fair and impartial hearings, to take necessary action to avoid delay in the disposition of proceedings, including the prescription of time allocated to testimony, argument, and questioning, to regulate the course of hearings and the conduct of the parties and their counsel therein, and to maintain order.

(b) *Order of testimony.* Unless otherwise ordered by the presiding officials, witnesses will give testimony in the order designated by the Secretary of the Commission. Each witness, after being duly sworn, will be permitted to proceed with his or her testimony without interruption except by presiding officials. Witnesses are encouraged to summarize any prepared statements orally. Prepared statements, however, will be made a part of the transcript.

(c) *Questioning of witnesses.* After completing testimony, a witness may be questioned by any member of the Commission or by its staff. Any person who has entered an appearance in accordance with § 201.13 may, with the permission of the presiding official, direct questions to the witness, but only for the purpose of assisting the Commission in obtaining relevant and material facts with respect to the subject matter of the investigation.

(d) *Submission of prepared statements.* Copies of witnesses' prepared statements should be filed with the Office of the Secretary of the Commission three (3) business days prior to the hearing or as close to actual presentation at the hearing as possible, and submission of such statements shall comply with § 201.8 of this subpart.

(e) *Certification of testimony.* Evidence, oral or written, submitted at hearings will upon order of the Commission be subject to verification from books, papers, and records of the parties submitting the evidence and from any other available sources.

(f) *Oral argument.* When, in the opinion of the presiding official, time permits and the nature of the proceedings and the complexity or importance of the questions of fact or law involve warrant, the presiding official may allow oral argument after conclusion of the testimony in a hearing. The presiding official will determine in each instance the time to be allowed for argument and the allocation thereof.

(g) *Briefs.* Briefs of the evidence produced at the hearing and arguments thereon may be presented to the Commission by parties interested who have entered an appearance. Unless otherwise ordered, twenty (20) clear copies shall be filed with the Secretary of the Commission. Time to be allowed for submission of briefs will be set after conclusion of testimony and oral argument, if any.

(f) *Hearing transcripts.* All hearings are stenographically reported. The Commission does not distribute transcripts of the records of such hearings. Parties interested may inspect them at the Commission's office in Washington, D.C., or purchase them from the official reporter.

Issued: August 9, 1976.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.76-23545 Filed 8-11-76;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[49 CFR Part 801]

FEE SCHEDULE

Proposed Revision

Pursuant to section (a)(4)(A) of the Freedom of Information Act (Pub. L. 93-502, November 21, 1974, amending 5 U.S.C. 552) (Act) fee schedules for publications must be published in the FEDERAL REGISTER. In 1975, after notice, the National Transportation Safety Board (Board) issued its regulation implementing the Act. In an amended Appendix to 49 CFR Part 801, which was published at 41 FR 16805, April 22, 1976, a price list for publications and reproduction of factual investigative records and other documents was established, based on the contract prices established in the then current contract between the Board and the commercial reproducer. Certain changes in the fee schedule are now required to reflect the terms of a new contract with the commercial reproducer and to indicate revisions in cost of publications.

Written comments by the public are invited. Comments may be submitted to the Office of General Counsel, National Transportation Safety Board, 800 Independence Avenue, SW, Washington, D.C. 20594, on or before September 13, 1976.

Accordingly, the National Transportation Safety Board hereby proposes to revise the Appendix to 49 CFR Part 801 to read as follows:

APPENDIX—FEE SCHEDULE

1. Special services fees (pursuant to 31 U.S.C. 483a). Upon request, services relating to public documents are available at the following fees:

(a) Subscriptions (Calendar year):

(1) Initial decisions of the administrative law judges—$40.00 for one subscription, $30.00 for each additional subscription.

(2) Board safety enforcement opinions and orders—$20.00 for one subscription, $15.00 for each additional subscription.

(3) Board aircraft accident (probable cause) reports, brief format—$40.00 (U.S.) and $80.00 (foreign).

(4) Aircraft accident reports, narrative—$35.00 (U.S.) and $70.00 (foreign).

(5) Board safety recommendations—$60.00.

NOTE.—Subscription orders for (a)(3) and (4), above, should be forwarded to the National Technical Information Service, P.O. Box 1551, Springfield, Virginia 22151.

(b) Document certification under the Board's seal—$4.00.

(c) Computer tapes and services for aviation accidents. Duplication of computer tapes (or a fraction thereof)—$40.00.

NOTE.—Computer tape requests should be addressed to the Chief, Information Systems Division, Bureau of Technology, National Transportation Safety Board, Washington, D.C. 20594.

(d) The basic fees set forth provide for ordinary first-class postage prepaid. If registered, certified, air, or special delivery mail is used, postal fees therefor will be added to the basic fee. Also, if special handling or packaging is required, such costs will be added to the basic fee.

(e) Subscription fees for (a) above are waived for qualifying foreign countries, international organizations, nonprofit public safety entities, State and Federal transportation agencies, and colleges and universities, after approval by the Board's Managing Director. In addition, subscription fees may be waived or reduced for other recipients not in any of the foregoing categories, when determined by the Managing Director to be appropriate in the interest of and contributing to the Board's program.

2. Commercial reproduction fees and search fees. Pursuant to 5 U.S.C. 552 as amended, reproduction of the documents listed below is accomplished by commercial contract. Requests must be forwarded to the Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594. The contractor may bill and/or collect full payment before duplicating the requested documents. Fees are subject to change depending upon the Board's annual contract award.

Current fees are:

(a) Photocopy:

Size (in inches):	
8½ by 11	$0.25
8½ by 14	.25
10 by 14	.25
14 by 18	.25
18 by 24	.25

(b) Photographic prints:

Size (in inches):	
8 by 10 black/white	$1.35
5 by 7 color	2.65
8 by 10 color	4.50
2 by 2 color slide	.50
2 by 2 black/white slide	.25
4 by 10 X-ray	.50

(c) Minimum charge for reproduction—$3.00.

(d) Regular service—Usually, two weeks' time is required to service a request for reproduction. General aviation accident files dated prior to January 1, 1964, and air carrier accident files dated prior to January 1, 1963, are no longer available. Accident files for all transportation modes, dating from January 1, 1964, through December 31, 1972, are stored at the Federal Records Center; In filling any request for reproduction of these files, approximately two additional weeks will be needed for retrieval.

(e) Expedited service—A 20-percent surcharge will be made for 24-hour service and a 10-percent surcharge for 48-hour service. Expedited delivery service will be handled as follows:

Step 1. Customer places telephone or written request to the Board's Public Inquiries Section for desired accident file.

Step 2. The Board forwards order form and file to contractor.

Step 3. Contractor sends advance billing invoice, which shows total cost, to customer.

Step 4. Customer calls contractor direct and verifies that he is wiring payment to contractor, as specified by contractor, or customer returns a copy of the contractor's invoice with full payment enclosed.

Step 5. Contractor copies documents and mails them to the customer.

NOTE.—Expedited service commences when the contractor has received payment or when telephone arrangements have been made with the contractor.

(f) Document search fee—The Board has determined that it is in the public interest to limit search fees to documents which require commercial reproduction. Further, the fee has been reduced to the labor cost for a minimum time-search. Therefore, a $4.00 search fee is required only for:

(1) Factual accident investigation reports, statements, photographs, and other material contained in the Board's accident investigation files.

(2) Accident investigation information not in the Board's public files.

(3) Responses to safety recommendations from recipients of such recommendations.

NOTE.—The $4.00 search fee will be included in the commercial reproduction firm's invoice.

(g) Documents requiring commercial reproduction for copies:

(1) Transcripts of public hearings.

(2) Factual accident investigation reports and information (see (e) (1) and (2) above).

3. Reproduction fees. All documents in the Board's public files may be examined, without charge, in the Board's public reference room, located in the Public Inquiries Section. There is a self-service duplicator in the reference room, which is available to the public for reproduction at a nominal cost.

4. Documents available without commercial reproduction cost until limited supplies are exhausted:

(1) Press releases.

(2) Aircraft accident reports, narrative, and brief format probable cause reports (on request for specific accidents).

(3) Surface accident reports.

(4) Special studies.

(5) Safety Board regulations (49 CFR Parts 800 through 845).

(6) Indexes to initial decisions, Board orders, opinions and orders, and staff manuals and instructions.

(7) Statistical data published by the Board.

(8) Safety recommendations.

5. Documents for sale by the Government Printing Office:

(1) Board's annual report.

(2) Volume I, National Transportation Safety Board Decisions (1967-1972).

Approved by the National Transportation Safety Board on August 5, 1976.

Signed at Washington, D.C., August 9, 1976.

KAY BAILEY,
Vice Chairman.

notices

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Meeting

AUGUST 2, 1976.

The USAF Scientific Advisory Board Electro-Optics Panel will hold meetings on September 16–17, 1976 in the Wright-Patterson Air Force Base, Ohio, from 8:30 a.m. to 5:00 p.m. both days.

The Panel will receive classified informational briefings on terminal guidance technology.

The meetings concern matters listed in Section 552(b) of Title 5, United States Code, specifically subparagraph (1) thereof, and accordingly the meetings will be closed to the public.

For further information contact the Scientific Advisory Board Secretariat at (202) 697-8845.

JAMES L. ELMER,
Major, USAF Executive,
Directorate of Administration.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

YAVAPAI-TONTO APACHE INDIAN RESERVATION

Change in Administrative Direction

AUGUST 4, 1976.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that effective July 1, 1976, the Yavapai-Tonto Apache Indian Reservation will be under the administrative direction of the Truxton Canon Agency, Valentine, Arizona. The Superintendent of Truxton Canon Agency is authorized to assume administrative direction and coordination for the Yavapai-Tonto Apache Indian Reservation.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Bureau of Land Management

[Serial No. Colo.—24224]

COLORADO

Proposed Withdrawal and Reservation of Lands

The Bureau of Land Management of the Department of the Interior has filed an application for withdrawal of the lands described below. The lands would be withdrawn from all forms of appropriation under the public land laws, including location and entry under the general mining laws, (30 U.S.C. Ch. 2) but not the mineral leasing laws, subject to valid existing rights. The withdrawal would prohibit the construction of roads under Revised Statutes 2477 and other authorities, except under authorization of Special Land Use Permits (43 CFR 2920). The lands would not be withdrawn from exchange under section 8 of the Taylor Grazing Act of June 28, 1934, (48 Stat. 1272), as amended (43 U.S.C. 315g).

The applicant desires to have the lands withdrawn as the proposed Brown's Canyon Primitive Area, and for protection of scenic, historic, geologic and primitive and other natural environment values in the Arkansas River Valley for the enjoyment and use of present and future generations.

On or before September 13, 1976, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 700 Colorado State Bank Building, Denver, Colorado 80202.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing or potential demand for the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved are:

National Park Service

CONSULTING COMMITTEE TO THE NATIONAL SURVEY OF HISTORIC SITES AND BUILDINGS

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Consulting Committee to the National Survey of Historic Sites and Buildings will be held at 8:30 a.m., d.s.t., on September 10, 1976, in Conference Room 7000–B in the Department of the Interior Building, Washington, D.C.

The purpose of the Consulting Committee is to review and evaluate studies of potential national historic landmarks prepared by the National Survey. The Committee's evaluation is the initial screening of potential historic landmarks. Its recommendations are forwarded to the Secretary of the Interior's Advisory Board on National Parks, Historic Sites, Buildings, and Monuments for a final review.

The members of the Consulting Committee are:

Dr. Richard H. Howland (Chairman), Washington, D.C.
Dr. Patrick G. Porter, Cambridge, Massachusetts.
Mr. Herbert E. Kahler, Alexandria, Virginia.
Dr. Walter L. Creese, Urban, Illinois.
Professor Frederick D. Nichols, Charlottesville, Virginia.
Dr. Henry A. Millon, New York, New York.
Mr. James Biddle, Washington, D.C.
Mr. Charles E. Less, Columbia, South Carolina.
Major Gen. John W. Huston, Washington, D.C.
Dr. Dorothy B. Porter, Washington, D.C.

The subjects that are to be evaluated are:

1. A segment of the subtheme "Architecture".

2. A part of the subtheme "Science and Invention".

3. A partial study of the theme "The Contemplative Society" considering properties associated with the role of Afro-Americans in several subthemes within this subject field.

4. A partial study of the subtheme "Political and Military Affairs After 1914".

The following special studies will also be considered:

1. Dumbarton Oaks, Washington, D.C.
2. Railroad Train Sheds remaining in the United States.
3. Bently Hall, Meadville, Pennsylvania.
4. Pemberton House, Vicksburg, Mississippi.
5. Missouri Botanical Garden, St. Louis, Missouri.
6. Delaware Canal, Easton to Bristol in Pennsylvania.
7. Abbotts Farm Historic District, vic. Trenton, N.J.

The meeting will be open to the public. However, facilities and space for accommodating the public are limited. It is expected that not more than 10 persons will be able to attend the sessions. Any member of the public may file with the Consulting Committee a written statement on the subjects to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Mr. Cornelius W. Heine, Chief, Historical and Architectural Surveys Division, 202–523–5295. Minutes of the meeting will be available for public inspection six weeks after the meeting at the Office of the Chief, Historical and Architectural Surveys Division, National Park Service, Department of the Interior, Washington, D.C. 20240.

Dated: August 6, 1976.

JERRY L. ROGERS,
Acting Director, Office of Archeology and Historic Preservation.

SHIPPERS ADVISORY COMMITTEE

Public Meeting

Pursuant to the provisions of § 10(a)(2) of the Federal Advisory Committee Act (86 Stat. 770), notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The committee will meet in the A. B. Michael Auditorium of the Florida Citrus Mutual Building, 302 South Massachusetts Avenue, Lakeland, Florida, at 10:30 a.m., on September 9, 1976.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the committee includes analysis of current information concerning market supply and demand factors, and consideration of recommendations for regulation of shipments of the named fruits.

The names of committee members, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Frank D. Trovillion, Manager, Growers Administrative Committee, P.O. Box R, Lakeland, Florida 33802; telephone 813–682–3103.

Dated: August 9, 1976.

NATIONAL PLANT GENETICS RESOURCES BOARD

Public Meeting

Pursuant to the provisions of the Federal Advisory Committee Act of October 6, 1972, (Public Law 92–463, 86 Stat. 770–779) notice is hereby given that a public meeting of the National Plant Genetics Resources Board will be held on Thursday, September 9, 1976, in Room 3109, South Building, U.S. Department of Agriculture, 14th and Independence Avenue, S.W., Washington, D.C. 20250. The meeting is open to the public and will convene at 9:00 a.m. Members of the public may submit comments before or after the meeting.

The purpose of the meeting is to advise the Secretary and leaders of the National Association of State Universities and Land Grant Colleges on actions and policies regarding the collection, maintenance, and utilization of plant genetic resources; the coordination of plant germplasm collection plans among several national agencies and international organizations; the assessment of national needs and identification of high priority programs for conserving and utilizing plant genetic materials to minimize genetic vulnerability.

Copy of the agenda and further information concerning the meeting may be obtained by contacting Dr. C. F. Lewis, National Program Staff, Agricultural Research Service, U.S. Department of Agriculture, BARC West, Beltsville, Maryland 20705. His telephone number is (301) 344–3884.

Done at Washington, D.C., this 5th day of August 1976.

T. W. EDMINSTER,
Administrator.

Forest Service

CHAUGA UNIT PLAN

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Chauga Unit Plan, Sumter National Forest, South Carolina. USDA–FS–R8–FES (Adm.)–75–4.

This unit contains 37,436 acres of National Forest land located on the Andrew Pickens Ranger District, Sumter National Forest in Oconee County, South Carolina. Major actions are harvesting timber products, development and maintenance of wildlife improvements, development of recreation facilities for dispersed recreation, and construction and reconstruction of roads.

This final environmental statement was transmitted to CEQ August 3, 1976. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agriculture Bldg., Room 3230,
12th St. & Indepedence Ave., S.W.,
Washington, D.C. 20250.
USDA, Forest Service,
1720 Peachtree Road, N.W., Room 804,
Atlanta, Georgia 30309.
USDA, Forest Service,
Francis Marion and Sumter National Forest,
1801 Assembly St.—Second Floor,
Columbia, South Carolina 29201.

A limited number of single copies are available upon request to Forest Supervisor, Francis Marion and Sumter National Forest, 1801 Assembly Street—Second Floor, Columbia, South Carolina 29201.

Copies of the environmental statement have been sent to various Federal, State, and Local agencies as outlined in the CEQ guidelines.

Dated: August 3, 1976.

DAVID F. JOLLY,
Regional Environmental Coordinator.

GRANDE RONDE PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Grande Ronde Planning Unit, Wallowa-Whitman National Forest, Oregon, USDA–FS–R6–DES(Adm.)–76–15.

The environmental statement concerns a proposed land use allocation.

The draft environmental statement was submitted to CEQ on August 4, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. & Independence Ave., S.W., Washington, D.C. 20250.
USDA, Forest Service, Pacific Northwest Region, 319 SW Pine Street, Portland, Oregon 97204.
Wallowa-Whitman National Forest, Federal Building, Baker, Oregon 97814.

A limited number of single copies are available upon request to Forest Supervisor, A. G. Oard, Wallowa-Whitman National Forest, Federal Building, Baker, Oregon 97814.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor A. G. Oard, Federal Building, Baker, Oregon 97814. Comments must be received by October 3, 1976, in order to be considered in the preparation of the final environmental statement.

CURTIS L. SWANSON,
Regional Environmental Coordinator, Planning Programing and Budgeting.

LAND USE PLAN, MOHAWK UNIT, PLUMAS AND TAHOE NATIONAL FORESTS

Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Land Use Plan, Mohawk Unit, Plumas and Tahoe National Forests, California, USDA–FS–R5–DES(Adm)–76–6.

The environmental statement concerns a proposed land use management plan for the 120,000 acres of National Forest lands known as the Mohawk Unit of the Plumas and Tahoe National Forests, in Plumas and Sierra Counties, California. Twenty-six thousand acres within this Unit have been inventoried as "roadless".

This draft environmental statement was transmitted to the Council on Environmental Quality (CEQ) on August 3, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave. SW., Washington, D.C. 20250.
Regional Forester, U.S. Forest Service, Rm. 529, 630 Sansome Street, San Francisco, California 94111.
Forest Supervisor's Office, Plumas National Forest, 159 Lawrence Street, Quincy, California 95971.
Supervisor's Office, Tahoe National Forest, Highway 49 and Coyote Streets, Nevada City, California 95959.

A limited number of copies are available, upon request, from Forest Supervisor Lloyd Britton, Plumas National Forest, Box 1500, Quincy, California 95971.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental effect for which comments have not been specifically requested.

Comments concerning the proposed action, and requests for additional information should be addressed to Forest Supervisor Lloyd Britton, Plumas National Forest, Box 1500, Quincy, California 95971. Comments must be received within 60 days after transmittal to CEQ in order to be considered in the preparation of the final environmental statement.

T. W. KOSKELLA,
Deputy Regional Forester.

AUGUST 3, 1976.

TIMBER MANAGEMENT PLAN FOR THE MT. HOOD NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a Draft Environmental Statement for the Mt. Hood National Forest Timber Management Plan, USDA–FS–R6–DES(Adm)–76–14.

The environmental statement concerns a proposed revision of the Timber Management Plan of the Mt. Hood National Forest. The current plan was prepared in 1962 and is outdated. Significant advances in intensive forest management and in the methods for determining annual harvest levels have occurred since the last plan was prepared. The changes need to be reflected in a new Timber Management Plan. The environmental statement describes a proposed action and several alternatives based on different levels of management intensity and different management strategies. The proposed action best meets resource and Forest Service policy requirements while allowing the harvest of 69.14 million cubic feet (364.5 million board feet) of timber annually. The proposed action programs an additional 9.24 million cubic feet (44.7 million board feet) of timber annually above the level set by the current plan. The proposed plan includes an aggressive effort to salvage dead timber, to reforest cutover land and to apply intensive silvicultural practices on those acres of land available for timber production. Reforestation of nonstocked backlog acres is planned, as well as planting genetically superior trees in the last two years of the ten year period encompassed in the proposed plan. The Mt. Hood Timber Management Plan does not propose land allocations to various uses; rather, it sets levels of timber harvest on the area allocated to timber production by Land Use Planning processes and coordinates timber harvest with other uses.

This Draft Environmental Statement was transmitted to CEQ on August 5, 1976.

Copies are available for inspection during regular working hours at the following locations:

V 41 I 157 AUG 12 76 UMI

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th Street and Independence Avenue, SW., Washington, D.C. 20250.
USDA, Forest Service, Pacific Northwest Regional Office, 319 SW. Pine, Portland, Oregon 97204.
Mt. Hood National Forest Supervisor's Office, 2440 SE. 195th, Portland, Oregon 97233.
Barlow Ranger Station, Dufur, Oregon 97021.
Bear Springs Ranger Station, Maupin, Oregon 97037.
Clackamas Ranger Station, Estacada, Oregon 97023.
Columbia Gorge Ranger Station, Troutdale, Oregon 97060.
Estacada Ranger Station, Estacada, Oregon 97023.
Hood River Ranger Station, Parkdale, Oregon 97047.
Zigzag Ranger Station, Zigzag, Oregon 97073.

Colleges and libraries in the vicinity of the Mt. Hood National Forest have reference copies available.

A limited number of single copies are available upon request to Forest Supervisor, Mt. Hood National Forest, 2440 S.E. 195th, Portland, Oregon 97233.

Copies of thee environmental statement have been sent to various federal, state and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from state and local agencies which are authorized to develop and enforce environmental standards, and from federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Mt. Hood National Forest, 2440 S.E. 195th, Portland, Oregon 97233.

Comments must be received by October 25, 1976, in order to be considered in the preparation of the final environmental statement.

CURTIS L. SWANSON,
Regional Environmental Coordinator, Planning, Programing and Budgeting.

TIMBER MANAGEMENT PLAN OTTAWA NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement on the Timber Management Plan for the Ottawa National Forest, USDA-FS-R9-FES-(ADM)-76-03.

The environmental statement concerns a proposed plan for managing the timber resources on the Ottawa National Forest for the period 7/1/76 through 6/30/83. The Ottawa National Forest is located in parts of Gogebic, Ontonagon, Iron, Houghton, and Baraga Counties, Michigan.

This final environmental statement was transmitted to CEQ on August 4, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Eastern Region, 633 West Wisconsin Avenue, Milwaukee, Wisconsin 53203.
USDA Forest Service, Ottawa National Forest, Ironwood Michigan 49938.

A limited number of single copies are available upon request to Forest Supervisor, Ottawa National Forest, Ironwood Michigan 49938.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

CURTIS L. SMITH,
Acting Regional Forester.

Soil Conservation Service

CEDAR CREEK WATERSHED PROJECT, TEXAS

Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Cedar Creek Watershed Project, Rockwall, Kaufman, Van Zandt, Henderson and Hunt Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. George Co. Marks, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment supplemented by six single purpose floodwater retarding structures.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, First National Bank Building, Temple, Texas 76501. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken until August 27, 1976.

(Catalog of Federal Domestic Assistance Program No. 10.904, Flood Control Act—Public Law 78-534.)

Dated: July 28, 1976.

JAMES W. MITCHELL,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.76-23446 Filed 8-11-76;8:45 am]

POND RUN WATERSHED PROJECT, WEST VIRGINIA

Availability of Negative Declaration

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500), and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for a portion of the Pond Run Watershed Project, Wood County, West Virginia.

The environmental assessment of this federal action indicates that this portion of the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Craig M. Right, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this portion of the project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement included in the negative declaration are land treatment measures and one floodwater retarding structure.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, Federal Building, 75 High Street, Morgantown, West Virginia 26505. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation of the proposal will be taken until August 27, 1976.

Dated: August 3, 1976.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—PL 83-566, 16 USC 1001-1008.)

JOSEPH W. HAAS,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.76-23445 Filed 8-11-76;8:45 am]

WATERSHED PLANNING

Authorization

This provides notice of authorization dated July 28, 1976, to the concerned state conservationists of the Soil Conservation Service to provide planning assistance to specified local organizations for the indicated watersheds. The state conservationists may now proceed with investigations and surveys as necessary to develop watershed plans under authority of the Watershed Protection and Flood Prevention Act (Public Law 83-566), as amended. Environmental assessments will be made in accordance with the requirements of the National Environmental Policy Act (Public Law 91-190), concurrently with the preparation of the watershed plans.

Persons interested in these projects may contact the local organizations or the state conservationists as indicated below:

California: *Tehachapi Watershed;* 32,420 acres; Kern County. Sponsors—Tehachapi Soil Conservation District, Tehachapi City Council, and Tehachapi-Cummings County Water District. State Conservationist—Mr. George H. Stone, Jr., Soil Conservation Service, 2828 Chiles Road, Davis, California 95616.

Colorado: *Rito Seco Watershed;* 22,700 acres; Costilla County. Sponsors—Costilla Soil Conservation District, Town of San Luis, Costilla County Board of Commisioners, and Colorado State Conservation Board. State Conservationist—Mr. Merritt D. Burdick, Soil Conservation Service, P.O. Box 17107, Denver, Colorado 80217.

Montana: *Lower Birch Creek Watershed;* 248,000 acres; Pondera County. Sponsors—Pondera County Canal and Reservoir Company and Pondera County Conservation District. State Conservationist—Mr. Van K. Haderlie, Soil Conservation Service, Federal Building, P.O. Box 970, Bozeman, Montana 59715.

Tennessee: *Conasauga Watershed;* 73,486 acres; McMinn, Monroe, and Polk Counties. Sponsors—Monroe County Soil Conservation District, Polk County Soil Conservation District, McMinn County Soil Conservation District, and McMinn County Council. State Conservationist—Mr. Donald C. Bivens, Soil Conservation Service, 561 U.S. Court House, Nashville, Tennessee 37203.

Texas: *Big Creek (Fort Bend County) Watershed;* 145,664 acres; Fort Bend County. Sponsors—Coastal Plains Soil and Water Conservation District, Fort Bend County Drainage District, City of Rosenberg, and Fort Bend County Drainage District. State Conservationist—Mr. George C. Marks, Soil Conservation Service, 16-20 South Main Street, P.O. Box 648, Temple, Texas 76501.

Missouri (and Iowa): *West Fork of Big Creek Watershed* (Amendment); 166,000 acres; Daviess and Harrison Counties, Missouri, and Ringold and Decatur Counties, Iowa. Sponsors—Harrison County Soil and Water Conservation District, Harrison County Court, Ringold County Soil Conservation District, Ringold County Supervisors, Decatur County Soil Conservation District, Decatur County Supervisors, Daviess County Soil and Water Conservation District, and Daviess County Court. State Conservationist—Mr. Kenneth G. McManus, Soil Conservation Service, Parkade Plaza Shopping Center, P.O. Box 459, Columbia, Missouri 65201.

(Catalog of Federal Domestic Assistance Program No. 10.904, Watershed Protection and Flood Prevention Program—Public Law 83-566).

Date: JULY 30, 1976.

VICTOR H. BARRY, JR.,
Acting Administrator, Soil Conservation Service.

[FR Doc.76-23444 Filed 8-11-76;8:45 am]

Office of the Secretary

PRIVACY ACT OF 1974

Systems of Records

Notice is hereby given of changes in the name and location of the system of records for USDA/OA-2, Management Information System, originally published in the FEDERAL REGISTER, 40 FR 38919 (August 27, 1975). The system name is being changed to more accurately describe the system. The location is being changed for more effective, efficient, and economical operation.

In consideration of the foregoing, notice is hereby given that USDA/OA-2, Management Information System is revised to read as set forth below.

Dated: August 6, 1976.

EARL L. BUTZ,
Secretary.

System name: Management Information and Data Analysis System.

System location: Computer files are maintained on the computer Sciences Infonet System with main offices at 650 North Sepulveda, El Segundo, California. Source documents and printouts are kept in the Headquarters Office, Office of Audit, Administration Building, 14th and Independence Avenue, S.W., Washington, D.C. 20250 and in the following Regional Offices:

Northeast, Room 422 Federal Building, Hyattsvile, Maryland 20782.
Southeast, Room 900, 1447 Peachtree Street, N.E., Atlanta, Georgia 30309.
Midwest, Room 800, 1 North Wacker Drive, Chicago, Illinois 60606.
Southwest, 3916 South General Bruce Drive, Temple, Texas 76501.
Great Plains, 8930 Ward Parkway, Kansas City, Missouri 64141.
Western, Room 522, 555 Battery Street, San Francisco, California 94111.

Categories of individuals covered by the system: OA professional employees.

Categories of records in the system: The USDA/OA Management Information and Data Analysis System provides OA management with a wide range of information on OA operations including data that can be used to evaluate the job performance of all OA professional employees. The system identifies individual audit assignments of employees and provides information on their use of direct and indirect time; significant dates relating to the audit such as starting date, exit conference date, and report release date; the number and significance of audit findings and the identity of all the professionals who participated in the assignment.

Authority for maintenance of the system: 5 U.S.C. 301, 7 CFR 2.81

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Provided upon request to the General Accounting Office for reviewing OA operations. Disclosure may also be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Computer disks and/or magnetic tape.

Retrievability: Information in the system can be retrieved by OA Headquarters and by the applicable inputting region listed above. Retrieval can be by audit report number, employee social security number, and geographic location.

Safeguards: Normal computer security is maintained over access to disks and magnetic tapes. Printouts are available within USDA as necessary and are kept under lock when not in use. Source documents are kept in file cabinets in the offices listed above.

Retention and disposal: Disks and/or tapes are cleared, retired, or destroyed when no longer useful in accordance with General Services Administration and USDA retirement and/or destruction schedules.

System manager(s) and address: Assistant Director, Policy and Resources, OA, USDA, Washington, D.C. 20250, or the appropriate Regional Director at the address specified above.

Notification procedure: Any individual may request information regarding this system of records, or information as to whether the system contains records pertaining to him, from the appropriate System Manager. If the specific location of the record is not known, the individual should address his request to the Assistant Director, Policy and Resources, who, if necessary, will refer it to the appropriate Regional Office. A request for information pertaining to an individual should contain: name, address, and particular information requested.

Record access procedures: Any individual may obtain information as to the procedures for gaining access to a record in the system which pertains to him by submitting a written request to the appropriate System Manager.

Contesting record procedures: Same as access procedures described above.

Record source categories: Information in the system comes entirely from OA employees.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

BROOKHAVEN NATIONAL LAB.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00369. Applicant: Brookhaven National Laboratory, Associated Universities, Inc., Upton, Long Island, New York 11973. Article: 2(Two) Infrared optical data transmission systems. Manufacturer: Triskelion Ag., Switzerland. Intended use of article: The article is intended to be used in conjunction with a tandem accelerator in research programs to investigate the properties of atomic nuclei. In particular, nuclei in high states of excitation are produced by charged particle accelerators and the various properties of their excited energy levels are determined and compared with the predictions of nuclear models.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capability of operation within a high-voltage particle accelerator at high pressure in terminals placed at 10,000,000 volts above ground potential. The National Bureau of Standards (NBS) advises in its memorandum dated July 6, 1976 that (1) the capability of the article described above is pertinent to the applicant's intended purposes, and (2) NBS knows of no commercially available infrared optical data transmission system of equivalent scientific value to the foreign article for the applicant's intended use.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Director, Special Import Programs Division.

EMI BRAIN SCANNER SYSTEMS

Consolidated Decision on Applications for Duty Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of EMI Brain Scanner Systems pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended. (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00362. Applicant: The Carney Hospital, 2100 Dorchester, Boston, Massachusetts 02124. Article: EMI Scanner System with Magnetic Tape Unit and Diagnostic Display Console. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to analyze certain physical properties of normal cerebral tissue and a wide variety of pathological lesions involving the brain and related structures, without the necessity of contact (invasive) media, and without patient hazard or discomfort. Results from scans will be used to train and educate interns and residents, neurological and related disorders, their causes, treatment and cures as well as serve to further the education and understanding of staff physicians. Application received by Commissioner of Customs: March 31, 1976. Advice submitted by the Department of Health, Education, and Welfare on: June 23, 1976. Article ordered: May 18, 1975.

Docket number: 76-00364. applicant: Memorial Hospital, 1901 Arlington Street, Sarasota, Florida 33579. Article: EMI Scanner Tomographic System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to make three dimensional X-ray examinations of the brain with such precision as to discriminate between different types or qualities of brain tissue, thus enabling the production (by computer) of a picture of the brain structure at any point, without introducing contrast dyes, air, etc. into the brain, without using high levels of radiation, and without discomfort and risk to the patient. Research will be conducted to expand the medical knowledge about causes of and treatment of diseases of the brain. The article will also be used for educational purposes in courses in radiologic technology and post graduate medicine. Application received by Commissioner of Customs: April 2, 1976. Advice submited by the Department of Health, Education, and Welfare on: June 24, 1976. Article ordered: April 15, 1975.

Docket Number: 76-00370. Applicant: Kentucky Baptist Hospital, 810 Barret Avenue, Louisville, Kentucky 40204. Article: EMI Scanner with Magnetic Tape System and Diagnostic Display Console. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for the investigations of brain tumors, hematomas and atrophy. A study will be made as to the way malignant tumors extend into different areas of the brain in an effort to determine whether or not they follow the pathways of the nerve tracts in the brain. In addition, the article will also be used for educating the entire Greater Louisville medical community in the indications for computerized X-ray tomography examination and the benefits to the patients which may be derived. Application received by Commissioner of Customs: April 8, 1976. Advice submitted by the Department of Health, Education, and Welfare on: June 24, 1976. Article ordered: May 19, 1975.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article is a newly developed system which is designed to provide precise transverse axial X-ray tomography. Although competitive systems are now being manufactured domestically, none of these systems were available at the time the articles were ordered. The Department of Health, Education, and Welfare (HEW) advised in its respectively cited memoranda that the sensitivity and the non-invasive methodology of each article are pertinent to the purposes for which each foreign article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to any of the articles to which the foregoing applications relate for such purposes as these articles are intended to be used which was being manufactured in the United States at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

RICHARD M. SEPPA,
Director, Special Import Programs Division.

HARVARD UNIVERSITY ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before September 1, 1976.

Amended regulations issued under cited Act, (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00485. Applicant: Harvard University, Purchasing Department, 75 Mt. Auburn Street, Cambridge, Mass. 02138. Article: Mass Spectrometer, Model DMS1073. Manufacturer: AEI Scientific Apparatus Ltd., United Kingdom. Intended use of article: The article is intended to be used as an analytical tool in many phases of organic, inorganic, biochemical, and biological research. Research projects to be carried out will include the following:

1. Product Identification Problems.
2. Characterization of Biologically Active Molecules.
3. Structural studies on important natural products using very small (unweighable) amounts.
4. Studies on the biosynthesis of prostaglandins and isoprenoids.
5. Projects involving the total synthesis of complex natural products.
6. Mechanistic studies.
7. Organometallic Chemistry.
8. VPC-Mass Spectra.
9. Organic Synthesis.
10. Aspects of organoboron chemistry.
11. The Metabolism of Pyrrolic Compounds.
12. An Analytical Method for Detecting Tetrachlorodibenzo-*p*-Dioxin.
13. A search among extracts of insect resistant plants for anti-juvenile hormones or anti-ecdysone activities.
14. Investigation of the carcinogenic hydrocarbons occurring in carbon black.
15. Study of the presence of chlorinated hydrocarbons in drinking water (as a result of chlorination).

Application received by Commissioner of Customs: July 20, 1976.

Docket Number: 76-00488. Applicant: Baylor College of Medicine, 1200 Moursund, Houston, Texas 77030. Article: Electron Microscope, Model JEM-100C with side entry goniometer and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for a variety of research and diagnostic projects which include: (1) high resolution studies of the plasma membrane of cardiac muscle cells, (2) microanalysis of particulate material within myocardial cells in normal and during pathologic conditions, (3) investigation of the role of the transverse tubules and sarcoplasmic reticulum in the normal and pathologic heart, (4) study of the growth patterns of endothelial cells over the surfaces of prosthetic materials which are employed in artificial heart valves and vessel grafts, and (5) diagnostic purposes in studies of approximately 200 surgical specimens per year. The article will also be used for the training of medical students, house staff physicians, attending physicians, and technical staff. Application received by Commissioner of Customs: July 22, 1976.

Docket Number: 76-00489. Applicant: Washington University School of Medicine, 660 South Euclid, St. Louis, Missouri 63110. Article: Electron Microscope, JEM 100C with side entry goniometer and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the study of a variety of biological materials including native and reconstituted lipoproteins, vascular tissues, endocrine tissues, cell membranes, etc. The ultrastructural as well as immunological and biological activity of native and synthetic lipoproteins will be characterized and compared in studies designed to elucidate the structure and function of apoproteins and lipid constituents of lipoproteins and their role in pathogenesis of atherosclerotic vascular disease. The permeability of capillaries and venules of the heart to electron dense markers including ferritin and peroxidase type markers will be examined in a variety of pathophysiological conditions including diabetes mellitus and ischemic injury in studies designed to investigate the pathogenesis of diabetic microangiopathy and ischemic injury to vessels. Experiments will also be performed to demonstrate and characterize insulin receptor sites on fat cell membranes using ferritin labelled insulin conjugates. Application received by Commissioner of Customs: July 22, 1976.

Docket Number: 76-00490. Applicant: Frederick Cancer Research Center, P.O. Box B, Frederick, Maryland 21701. Article: Electron Microscope, Model HU-12A. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used in a variety of collaborative research projects ranging from viruses, molecular genetics, cytochemistry, and cell surface markers which include: (a) immunoelectron microscopy of normal and pathologic cells to determine the presence of cross-reactive antigens with different microorganisms used in immunotherapy, (b) ultrastructural studies of animal and human tumors, (c) chronological studies of tissue ultrastructure studies of animal and human tumors, (c) chronological studies of tissue ultrastructure during invasion of normal tissues by tumor cells, during treatment of the tumor with various chemotherapeutic and immunotherapeutic agents and during regression of the tumor, (d) autoradiography studies at the ultrastructural level of normal and pathologic tissues, (e) studies of cell surfaces as they are modified by physiologic and pathologic agents, (f) studies on viral ultrastructure *in situ* and in isolated preparations, (g) microscopy of critical point dried single cells and thick sections. Application received by Commissioner of Customs: July 22, 1976.

ILLINOIS NATURAL HISTORY SURVEY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00335. Applicant: Illinois Natural History Survey, Natural Resources Building, Urbana, Illinois 61801. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for a variety of research purposes which will include the following:

(1) Identification of specific protozoa and fungi.

(2) Ultrastructural studies for characterizing and describing new species of insect pathogens.

(3) Studies of mechanisms by which many insect pathogens enter host cells.

(4) Studies of the ultrastructural changes resulting from insect diseases.

(5) Studies involving the nature of ascus apical apparatus and conidian ontogeny.

(6) Determination of the effects of various sterols on plasma membranes.

(7) Studies of the ultrastructural effects of chemically identified pollutants on plants and animals.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time Customs received the application (March 8, 1976). Reasons: The foreign article is a relatively simple, easy to operate, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. The article provides 7 Angstroms point-to-point resolution, an accelerating voltage of 60 kilovolts (KV), and low distortion magnifications from 140-60,000X (Magnifications of 140 to 1000X are within the normal, light microscopic range). Thus the article covers the range

V 41 157 AUG 12 76 UMI

of light and electron microscopy. The domestic instrument available at the time the application was received by Customs was Adam David Company's (AD) Model EMU–4C, a more complex instrument (designed for the use of an experienced operator) which provides low distortion magnification at 500X and higher. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated June 18, 1976 that the best low magnification capabilities available specifically in the optical range at 140X, as well as, relative simplicity are pertinent to the purposes for which the foreign article is intended to be used. HEW also advises that the EMU–4C did not have equivalent low magnification and is too complex. Furthermore, HEW advises that AD's Model PA–1 was in a development stage at the time the application was received by Customs. In this regard, it is noted that a prototype of the PA–1 was first shown by AD in November, 1974. Neither the Department of Commerce nor its consultants have been able to determine or verify the capabilities of the PA–1 as of the date of this decision. Thus, the Department does not have a sufficient basis for ruling that AD was able to supply the PA–1 within a normal delivery time at the time the foreign article was ordered.

We, therefore, find that the Model EMU–4C was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the application was received by Customs.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the application was received by Customs.

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Management-Labor Textile Advisory Committee will be held on September 29, 1976 at 1:00 p.m. in Room 4833, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Committee, which is comprised of 37 members, was established by the Secretary of Commerce on April 23, 1962 to advise U.S. Government officials on problems and conditions in the textile and apparel industry and furnish information on world trade in textiles and apparel.

The agenda for the meeting will be as follows: 1. Review of import trends. 2. Implementation of textile agreements. 3. Report on conditions in the domestic market. 4. Other business.

A limited number of seats will be available to the public on a first-come basis. The public may file written statements with the Committee before or after each meeting. Oral statements may be permitted at the end of the meeting to the extent time is available.

Copies of the minutes of the meeting will be made available on written request addressed to the DIBA Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202–377–5078.

Dated: August 9, 1976.

ALAN POLANSKY,
Deputy Assistant Secretary for Resources and Trade Assistance.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75–00356–33–46040. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, Massachusetts 02139. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of article: The article is intended to be used to study the etiology and pathogenesis of cancer through a program of investigation primarily at the cellular level. The article will be employed in a wide variety of studies ranging from the visualization of nucleic acid chains to the classification of various types of cells in a primary culture of mouse tissue. The article will also be used in the training of graduate students, post-doctoral fellows and research associates by the use of the article in the various research programs.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (December 14, 1973).

Reasons: This application is a resubmission of Docket Number 74–00544–33–46040 which was denied without prejudice to resubmission on September 17, 1974 for informational deficiencies. In this application, in reply to Question 8, the applicant alleges that the article provides the following pertinent features:

(1) High resolution that is capable of resolving 3.4 Angstroms (Å) during routine operation.

(2) Best of current solid-state electronics and a floor space requirement of only 4 x 3 feet.

(3) Electronically controlled beam tilt.—The enhanced contrast of dark field operation through an electronically controlled beam tilt which, (after scanning the grid in the normal transmission mode to locate a section of the specimen that has to be examined using only scattered electrons in a dark field) enables the beam to be rapidly tilted and photographed with the area of interest remaining in focus following beam tilting, and permits high resolution dark field operation.

(4) Capability of adding an electron probe for x-ray microanalysis.

(5) Automatic exposure system.

(6) An objective aperture holder for three apertures of varving size which can be interchanged without breaking the column vacuum.

(7) Alignment is needed only for the objective lens and electron gun.

(8) Quick, accurate focusing, through the use of an electronic wobbler and of electronic circuitry which keeps the image in focus in spite of wide magnification changes.

(9) A single mini-condenser lens as opposed to a double condenser system, so that one control, rather than several is needed to adjust illumination.

(10) A 35 millimeter (mm) film camera and plate camera which can be used in any sequence without shutting down the instrument.

(11) Specimen change with minimum delay. The specimen chamber is automatically prepumped by the mechanical pump in the instrument.

(12) Automatic pumping and automatic transport of plates and film for routine use by an operator after as little as one hour of instruction.

(13) High reliability because of superior engineering and solid-state electronics.

(14) Superior service.

(15) Accelerating voltages from 40 to 100 kilovolts (kv).

(16) Low specimen contamination.

(17) Totally automatic pumping.

The applicant states that features (5) to (12) cited above are design features which allow for simple and convenient use by the operator making it impossible to damage the instrument.

At the time the foreign article was ordered there were two domestic electron microscopes available, the ETEM 101, a low-resolution, simple instrument manufactured by Elektros Incorporated, and the EMU–4C, supplied by the Adam David Company.

The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated June 18, 1976 that the principal use intended for the article is in research with the teaching use at a sophisticated level. Therefore, HEW advises, the Model EMU–4C electron microscope which is supplied by the Adam David Company is the domestic instrument most closely comparable to the foreign article. HEW further advises that the applicant provides no pertinent specification within the meaning of subsection 301.2(n) of the regulations upon which duty-free entry can be based. As to the specific allegations of the applicant in reply to Question 8, in the order listed above, the following is noted:

(1) The foreign article has a 4Å point-to-point guarantee. The EMU–4C has a 5Å point-to-point guarantee. HEW advises that the difference in resolution guarantee between the foreign article and the EMU–4C is not scientifically significant for the applicant's intended work.

(2) HEW advises that instrument floor space requirements and the nature of electronic design are not scientifically pertinent.

(3) HEW advises that convenience in tilt and dark field use are not scientifically pertinent.

(4) Subsection 301.6(a)(3) of the regulations prohibits consideration of the applicant's intention to purchase accessories in the future, such as the electron probe for x-ray microanalysis.

(5) HEW advises that an automatic exposure system is a convenience which is not pertinent.

(6) HEW advises that capabilities conferred by aperture design are conveniences which are not pertinent.

(7) HEW advises that ease of alignment is a convenience which is not pertinent.

(8) The EMU–4C with a fine focusing control calibrated from 60Å to 1 micron is capable of accurate focusing. Moreover, HEW advises that the EMU–4C provides a beam wobbler that is scientifically equivalent to that of the article and that ease of focusing is a convenience which is not pertinent.

(9) HEW advises that the condenser system of the article is a convenience which is not pertinent.

(10) HEW advises that both the article and the EMU–4C provides equivalent camera features. HEW further finds that any capabilities conferred by the article's camera design are conveniences which are not pertinent.

(11) HEW advises that speed of specimen change is a convenience which is not pertinent.

(12) We find that automatic pumping and transport of plate and film are conveniences which are not pertinent. Moreover, HEW advises that these automatic features and speed in developing operator proficiency are cost-related features which are not pertinent.

(13) We find that reliability, which is a cost of ownership associated with the level of maintenance, is not a pertinent specification. HEW concurs with this finding: In general, information which can lead to a direct quantitative comparison of the reliability (i.e., ability to conform to specifications without excessive breakdown) of two instruments is almost never available. When a specification is "guaranteed" the manufacturer is stating, in effect, that the necessary steps have been taken to verify ability to meet this obligation. Thus a guaranteed specification presupposes a determination of reliability to some "engineered-in" degree. Customarily, manufacturers neither issue quantitative specifications on reliability nor guarantee reliability. Moreover, the reliability of a single instrument can, and frequently does, improve abruptly with time (for example, as the manufacturer gains experience and makes minor modifications dictated by such experience). No two instruments of the same model supplied by the same manufacturer will have identical records insofar as reliability is concerned and a documented history of poor reliability does not mean that such performance will not vastly improve with the very next instrument (and subsequent instruments) produced. Without strong and substantive supporting evidence in the record that the reliability of two instruments were measurably different and the difference in reliability precluded performance of the work intended, reliability could not be considered a justifiable basis for duty-free entry under P.L. 89–651. While reputations with respect to reliability which are derived from subjective, word-of-mouth allegations or even personal experience may, reasonably or otherwise, enter into a person's decision to buy a particular instrument, such a yardstick could not serve as a clear-cut, objective basis for duty-free entry.

Moreover, we would reemphasize that reliability is considered a cost-related consideration for duty-free entry purposes which by regulation and by Congressional intent is not a sufficient basis for the granting of duty-free entry.

(14) HEW advises that projections of service needs is cost-related and is not pertinent.

(15) The accelerating voltages of the EMU–4C are 25, 50, 75 and 100 kv. HEW advises that the accelerating voltages of the EMU–4C are scientifically equivalent to those of the article.

(16) HEW advises that the EMU–4C is scientifically equivalent to the article with respect to anti-contamination features.

(17) As noted in the discussion of feature (12) above, totally automatic pumping is a cost-related convenience feature which is not pertinent.

The applicant related features (5) to (12) above to simple and convenient use of the article by inexperienced operators. Moreover, the applicant claims that the EMU–4C is too complex for instruction of students in routine use of the electron microscope. To support this claim the applicant cites the Department's decision appearing in the FEDERAL REGISTER on October 8, 1974 (39 FR 36125). In this connection, we note that each decision is based on specifics placed in the record (e.g., the particular end use intended, the foreign article and accessories involved, advice from consultants, etc.), and other information available to the Department at the time of decision. Thus a decision for approval of an application for an electron microscope does not automatically confer approval on subsequent applications even if these applications are similar in certain respects and involve the same basic instrument. The cited decision was based not only on simplicity but on the low distortion, low magnification capability of the foreign instrument. (HEW finds the magnification capabilities of the EMU–4C and the EM 201 or EM 201C to be equivalent.) The simplicity aspect of the cited decision involved educationally oriented purposes and a comparison of the EMU–4C with the Zeiss EM 9S–2, which (like the domestic ETEM 101) is less complex than either the EMU–4C or the EM 201 and, unlike these two instruments, is designed for essentially teaching purposes. With respect to cases similar to the captioned application in essential details, HEW has advised that "the article [the EM 201] is also a relatively complex instrument" and that "the EM 201C is, like the EMU–4C, a relatively complex instrument designed for research use" (e.g., Dockets No. 75–00259–33–46040 and 75–00489–33–46040 respectively). Moreover, several prior cases involving a comparison of the EMU–4C and the EM 201 (or 201C) can be cited wherein HEW has advised that simplicity and ease of operation of the EM 201 series are not established or proven and are not pertinent (e.g., Dockets No. 74–00392–33–46040, 74–00384–33–46040, 74–00403–33–46040).

The applicant states, "• • • The Adam David Co. is not a competitive supplier of electron microscopes in the U.S. This is typified by the fact that the firm is not listed in the "Guide to Scientific Instruments" published by *Science 186 (1974)* while 14 major suppliers are. It would be unwise for anyone to purchase an electron microscope from a firm that has such a tenuous commitment to becoming competitive in the field of building electron microscopes. • • • "We note that although the applicant's conclusion as to the commitment of a manufacturer might affect a purchasing decision, such matters are not pertinent to the determination of scientific equivalency. We further note that inclusion in the "Guide to Scientific Instruments" costs no money and merely requires submission of an easily completed form and company literature well in advance of publication. Adam David Company had an exhibition booth at scientific meetings,

V 41 157 AUG 12 76 UMI

had advertised, responded to requests for quotations, and delivered instruments from 1973 to 1975.

For the foregoing reasons, we find that the Model EMU-4C electron microscope was of equivalent scientific value to the foreign article for such purposes as the article was intended to be used at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

NATIONAL RADIO ASTRONOMY OBSERVATORY, ASSOCIATED UNIVERSITIES, INC.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 987) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00420. Applicant: National Radio Astronomy Observatory Associated Universities, Inc., P.O. Box 0, 1000 Bullock Blvd., Socorro, NM 87801. Article: TE_{01} Mode Helical Circular Waveguides and Coupling Sleeves. Manufacturer: Sumitomo Electric, Japan. Intended use of article: The article is intended to be used as part of the very Large Array radio telescope to transmit radio wavelength radiation received from extraterrestrial objects to recording apparatus. The study of this radiation enables astronomers to study the sources of energy, origin, and evolution of the universe.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign articles which are custom-made provide (1) low loss of signal strength over the long transmission paths (21 kilometers) required by the Very Large Array radio telescope under construction by the applicant, (2) transmission of wide signal bandwidths, needed for handling very high data rates, (3) very low signal distortion (VSWR) and (4) elimination of the need for complex electronic amplifiers (repeaters) at 800 meters along the transmission line. The National Bureau of Standards (NBS) advises in its memorandum dated July 9, 1976 that the capabilities of the articles described above are pertinent to the applicant's intended use. NBS also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for such purposes as the articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

OHIO STATE UNIVERSITY RESEARCH FOUNDATION

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00392. Applicant: The Ohio State University Research Foundation, 1314 Kinnear Road, Columbus, Ohio 43212. Article: Weather Station, RIMCO MKIII and accessories. Manufacturer: Rauchfuss Instruments and Staff Pty. Ltd., Australia. Intended use of article: The article is intended to be used to accomplish the objectives of National Science Foundation Grant ATM75-15513, "The Paleoclimate of the Quelccaya Ice Cap, Peru, and its relationship to Paleoclimate in high latitudes." The following specific observations will be conducted:

At one or, preferably, two sites on the ice cap (at the top of the main and southern domes long-period self-recording weather stations will be erected. Records of wind velocity and direction, dry bulb temperature, sunshine duration, atmospheric pressure and humidity will be recorded over the following 12-month period.

During the period of the field work on the ice cap standard surface meteorological observations will be made at synoptic hours, including surface wind velocity and direction (handheld instrument), dry- and wet-bulb temperatures (sling psychrometer), atmospheric pressure (aneroid), and sunshine duration (sunshine recorder). The primary purpose of these observations is to calibrate and establish the reliability of the self-recording systems, but they will also be of value, when used in conjunction with satellite photographs, for preliminary interpretations of the variations of data obtained on the 1975 specimens.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The article provides the capability of unattended recording of various functions for periods of up to 12 months. The National Bureau of Standards (NBS) advises in its memorandum dated July 13, 1976 that (1) the capability of the article described above is pertinent to the applicant's intended uses (2) NBS knows of no comparable domestic instrument which matches the pertinent capability and (3) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended purposes.

PENNSYLVANIA STATE UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00387. Applicant: The Pennsylvania State University, Department of Biochemistry & Biophysics, 618 Life Sciences Building, University Park, PA 16802. Article: Cryokit, Model LKB 14800-1 and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for producing frozen thin-sections of (a) the epiphyseal plate of normal and vitamin D deficient young rats and/or chicks, (b) intestinal mucosa of the same animals, (c) avian shell gland at various phases of the laying cycle, (d) possibly developing teeth of young rats which will be studied in the electron microscope with particular attention being given to the existence and location of the mineral inclusions.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to an accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

Director,
Special Import Programs Division.

[FR Doc.76-23510 Filed 8-11-76;8:45 am]

UNIVERSITY OF CALIFORNIA—IRVINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00379. Applicant: The Regents of the University of California, University of California, University of California, Irvine, Irvine, California 92717. Article: Electron Microscope, Model JEM 100C/SEG (Side Entry Goniometer) ±60 degrees eucentric goniometer. Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used for the investigation of varied research problems ranging from studies of molecules to studies on organs, tissues and cells. Research projects to be conducted will include the following:

(1) Investigating various aspects of the synaptic vesicles in the nervous system.

(2) Ultrastructural examination of active gene complexes.

(3) Study of various aspects of cell ultrastructure following exposure to a laser microbeam.

(4) Study of the cell surface employing both transmission and scanning electron microscopy.

The article will also be used for teaching electron microscopy to undergraduates, graduates students, and postdoctoral students.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (February 4, 1976). Reasons: The foreign article is equipped with a eucentric side entry goniometer stage with ±60° tilt, 360° rotation holder and a guaranteed resolution of 7 Angstrom (point-to-point). The most closely comparable domestic instrument is the Model EMU-4C electron microscope supplied by the Adam David Company. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 24, 1976 that the characteristics of the article described above are pertinent to the applicant's intended purposes. HEW further advised that domestic instruments do not provide an equivalent resolution with an eucentric goniometer stage. We, therefore, find that the EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

UNIVERSITY OF CALIFORNIA—LIVERMORE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00385. Applicant: University of California, Lawrence Livermore Laboratory, Post Office Box 803, Livermore, California 94550. Article: Monochromator type THRP and accessories. Manufacturer: Jobin-Yvon, France. Intended use of article: The article is intended to be used in a laser isotope separation program. Specifically the unit will be used in the laser stabilization system as an absolute standard for the setting of the laser array wavelength. Investigations will be conducted for evaluation of laser stabilization schemes suitable for use in commercial processes for laser photoseparation of isotopes.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides a resolution greater than 1:270,000 (1:300,000). The National Bureau of Standards (NBS) advises in its memorandum dated July 8, 1976 that (1) the capability described above is pertinent to the applicant's intended use, (2) NBS knows of no comparable domestic instrument which matches the pertinent specification and (3) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended uses.

UNIVERSITY OF MISSOURI—ST. LOUIS

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00375. Applicant: University of Missouri—St. Louis, 8001 Natural Bridge Road, St. Louis, Missouri 63121. Article: Miniature Micromanipulators, Model MM-33 with GO-5 magnetic base and accessories. Manufacturer: Narishige Scientific Instruments Laboratory, Japan. Intended use of article: The article is intended to be used in the course Neurophysiology (Biology 322) for experimental studies of nerve cell function.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides right and left hand magnetic bases, blocks with rack and pinion movement, piezo-electric drive, and low alternating current interference light source. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated July 16, 1976 that the capabilities described above are pertinent to the applicant's intended purposes. HEW further advises that it knows of no domestic instrument or apparatus of equivalent scientific value to

V 41 157 AUG 12 76 UMI

the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

UNIVERSITY OF NORTH CAROLINA—GREENSBORO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00411. Applicant: University of North Carolina—Greensboro, Greensboro, North Carolina 27412. Article: Model CPS-2 Coherent NMR Pulse Spectrometer with one (1) 5mm sample probe, one (1) 10mm sample probe. Manufacturer: Spin-Lock Electronics, Ltd., Canada. Intended Use of Article: The article is intended to be used primarily as a research tool to study water protons in various aqueous systems. Parameters of interest include: T_1, the spin-lattice relaxation time; T_2, the spin-spin relaxation time; $T_{1\rho}$, the analog of T_1 in the rotating reference frame; and D, the diffusion coefficient. Initial experiments planned for this instrument include an investigation of these NMR parameters in various gels and ion-exchange resins. Experiments are also planned to investigate the effects of pressure on these four NMR parameters in various aqueous solutions and model systems.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capability to obtain relaxation times T_1, T_2, and T_1 rho. The National Bureau of Standards (NBS) advises in its memorandum dated July 19, 1976 that the capability of the article described above is pertinent to the applicant's intended uses. NBS also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

UNIVERSITY OF PENNSYLVANIA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 76-00376. Applicant: University of Pennsylvania, Department of Chemistry, 231 S. 34th Street, Philadelphia, Pa. 19174. Article: NMR Spectrometer accessories, consisting of Standard Plug-in Unit, frequency 8 MHz with Standard Probe Head. Manufacturer: Spin-Lock Ltd., Canada. Intended use of article: The articles are plug-in units which will be used for the to convert an existing 33 MHz spectrometer to 8 MHz so that it can be used for the study of the nuclear magnetic relaxation of solid D_2 temperatures below 1K. The article will also be used in the course Chemistry 999 to give graduate students experience in original scientific research.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to compatible accessories for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used, and is pertinent to the applicant's purposes. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated July 16, 1976 that it knows of no domestic instrument of equivalent scientific value to the article for its intended uses. The Department of Commerce knows of no other similar accessories being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

UNIVERSITY OF VERMONT

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00350. Applicant: University of Vermont, Department of Animal Sciences, Carrigan Hall, Burlington, Vermont 05401. Article: Particle Size Classifier. Manufacturer: Turners Asbestos Fibres Ltd., United Kingdom. Intended use of article: The article is intended to be used in determining the factors which limit forage intake in production animals of the ruminant group (this includes cattle, sheep, and goats).

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capability for wet sifting with standardized brushing and waterflow. The Department of Health, Education, and Welfare (HEW) in its memorandum dated June 23, 1976 that the capability described above is pertinent to the applicant's intended uses. HEW also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

WAKE FOREST UNIVERSITY ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before September 1, 1976.

Amended regulations issued under cited Act, (15 CFR 301) prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00481. Applicant: Wake Forest University, Winston-Salem, N.C. 27109. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for educational purposes in the following courses:

(1) *Biology III, Introductory Biology*—a general introduction to biological sciences presented in hierarchical order from molecular and cellular through organismic to environmental and evolutionary levels.

(2) *Biology 151, Introductory Cell Biology*—a sound and rigorous introduction to the concepts and methods of cell biology.

(3) *Biology 372, Histology, Cytology and Microtechnique*—a program of advanced study in the structure and function of cells and tissues and the associated research methods.

(4) *Biology 373, Methods in Electron Microscopy*—advanced training in the theory and methodology of electron microscopy.

(5) *Biology 391-4, Special Problems in Biology*—student development of their creativity and research capability by pursuing an independent research program.

Application received by Commissioner of Customs: July 19, 1976.

Docket Number: 76-00482. Applicant: Texas A & M University, College of Science-Womack, Department of Physics, College Station, Texas 77843. Article: Pulsed Platinum NMR Thermometer, Model PLM-3. Manufacturer: Instruments for Technology Oy, Ab, Finland. Intended use of article: The article is intended to be used for research involving the study of the properties of liquid and solid ^3He at very low temperatures where important quantum mechanical effects are dominant. The experiments will investigate exchange energy and magnetic effects in solid ^3He and Cooper pairing mechanisms in superfluid ^3He which is the only magnetic superfluid presently known in nature. These phenomena have to be studied at temperatures as low as one millikelvin above absolute zero. Application received by Commissioner of Customs: July 19, 1976.

Docket Number: 76-00483. Applicant: University of Illinois, Urbana-Champaign Campus, Purchasing Division, 223 Administration Building, Urbana, Ill. 61801. Article: Bremsstrahlung Monochromator. Manufacturer: Chalk River Nuclear Laboratories, Canada. Intended use of article: The article will be used at the Physics Research Laboratory to take advantage of the continuous high quality electron beam expected from the microtron now being installed. Photon scattering and other photon reactions in the energy range up to 50 MeV will be investigated with an energy resolution 10 times better than has been possible in the past. Application received by Commissioner of Customs: July 19, 1976.

Docket Number: 76-00484. Applicant: Children's Hospital Medical Center, 300 Longwood Avenue, Boston, Massachusetts 02115. Article: Ultramicrotome, Model LKB 8800A with accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in the ultrastructural study of the developing brain: in particular, the time of synapse formation and three dimensional structure of the cortex, retina, and cerebellum. Specifically the article will be used in preparation of serial ultrathin sections of plastic embedded embryonic nervous system tissue. Application received by Commissioner of Customs: July 19, 1976.

Docket Number: 76-00486. Applicant: Texas Christian University, Chemistry Department, Fort Worth, Texas 76129. Article: Nuclear Magnetic Resonance Spectrometer, Model JNM-F-60. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used for rapid proton and C-13 studies of CIDNP phenomena induced by the photochemical decomposition of dioxetanes and related materials, the determination of organic natural product structures using C-13 NMR. These will usually involve small amounts of materials and pose problems of line assignments which can only be resolved by using sophisticated experimental techniques.

Application received by Commissioner of Customs: July 20, 1976.

Docket Number: 76-00487. Applicant: State Laboratory Institute, 305 South Street, Boston, Mass. 02130. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used as a tool that will permit rapid and accurate diagnosis of selected human and animal virus diseases. The materials to be studied include specimens which will be examined directly for virus and/or viral antigens in skin lesions; vesicle fluid; tissue from organs including brain, liver, lung, spleen, pancreas and other organs; exfoliated cells from throat and the reproductive system; biopsy specimens; leucocytes; exudates; and transudates.

Application received by Commissioner of Customs: July 20, 1976.

WASHINGTON UNIVERSITY SCHOOL OF MEDICINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00351. Applicant: Washington University School of Medicine, 4566 Scott Avenue, St. Louis, Missouri 63110. Article: Nihon Kohden PC-2A Oscilloscope Camera. Manufacturer: Nihon Kohden Kogyo Co. Lt., Japan. Intended use of article: The article is intended to be used for studies of the responses for amacrine and ganglion cells in the rabbit retina. Antagonist to various synaptic transmitters will be applied to the retina, to see if and how they affect the responses of the cells.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides operation in a lighted room and continuous recording capability. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated June 23, 1976 that the capabilities described above are pertinent to the applicant's intended purposes. HEW further advises that it knows of no domestic cameras of equivalent scientific value to the foreign article for the applicant's intended uses.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

V 41 157 AUG 12 76 UMI

WASHINGTON UNIVERSITY SCHOOL OF MEDICINE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 76-00357. Applicant: Washington University School of Medicine, 660 South Euclid, St. Louis, Missouri 63110. Article: Electron Microscope, Model JEM-100B, including vacuum system. Manufacturer: JEOL, Japan. Intended use of article: The article is intended to be used for studies of a variety of biological materials including native and reconstituted lipoproteins, vascular tissues, endocrine tissues, and cell membranes, etc. The ultrastructural as well as immunological and biological activity of native and synthetic lipoproteins will be characterized and compared in studies designed to elucidate the structure and function of apoproteins and lipid constituents of lipoproteins and their role in the pathogenesis of atherosclerotic vascular disease.

The permeability of capillaries and venules of the heart to electron dense markers including ferritin and peroridase type markers will be examined in a variety of pathophysiological conditions including diabetes mellitus and ischemic injury in studies designed to investigate the pathogenesis of diabetic microangiopathy and ischemic injury to vessels.

Experiments will also be performed to demonstrate and characterize insulin receptor sites on fat cell membranes using ferritin labelled insulin conjugates.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for the purposes for which the article is intended to be used, was being manufactured in the United States at the time Customs received the application (March 26, 1976).

Reasons: The foreign article has a specified resolving capability of 3 Angstroms. The most closely comparable domestic instrument available at the time Customs received the application was Adam David Company's (AD) Model EMU-4C electron microscope. The Model EMU-4C has a specified resolving capability of five Angstroms. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 23, 1976 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C was not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time Customs received the application.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, which was being manufactured in the United States at the time Customs received the application.

SEMICONDUCTOR TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Semiconductor Technical Advisory Committee will be held on Tuesday, September 14, 1976, at 9:30 a.m. in Room 5230, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration, approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor products, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman, Mr. Robert L. Pritchard.

(2) Presentation of papers or comments by the public.

(3) Discussion of Foreign Availability and whether or not a subcommittee should be formed.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652 dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-377-4196.

The Complete Notice of Determination to close portions of the series of meetings of the Semiconductor Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on December 24, 1975 (40 Fed. Reg. 59461).

Dated: August 6, 1976.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

[FR Doc.76-23500 Filed 8-11-76;8:45 am]

Economic Development Administration

LISBON SHOES, INC.

Petition for a Determination of Eligibility

A petition under Section 251 of the Trade Act of 1974 (Pub. L. 93-618), initially accepted April 27, 1976, from Lisbon Shoes, Inc. 9 Whitcher Street, Lisbon, New Hampshire 03585, was subsequently withdrawn and resubmitted. The amended petition from the producer of women's footwear was accepted for filing on August 5, 1976. Consequently, the United States Department of Commerce has resumed its investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

JACK W. OSBURN, Jr.,
Chief, Trade Act Certification Division, Office of Planning and Program Support

National Bureau of Standards

COMPUTER NETWORKING STANDARDS FOR LIBRARY AND INFORMATION SCIENCE COMMUNITY

Task Force Meeting

A task force has been established to address the problem of developing high-level computer-to-computer protocols for the nationwide interchange of information among existing and planned library and information science networks.

Members of the task force have been designated by the National Commission on Libraries and Information Science on the basis of their recognized experience and knowledge in the area of computer-to-computer data interchange for this class of application and competence in developing related computer networking standard protocols. The task force will receive technical support from the NBS Institute for Computer Sciences and Technology.

The results of the task force effort, expected to be completed in about one year, will be provided directly to the American National Standards Institute, the American Library Association, and the American Society for Information Science for their respective consideration in development and adoption of standards directed specifically to the library and information science community.

All meetings of this task force will be open to the public; the purpose of this public notice is to announce the first task force meeting which will be held at the National Bureau of Standards, Gaithersburg, Maryland, on September 1 and 2, 1976. The meeting will convene on September 1 at 10 a.m. in Dining Rooms A and B of the NBS Administration Building; adjournment by 4 p.m. on September 2 is anticipated. A schedule for future meetings of the task force will be developed at this first meeting and published in the Federal Register.

For further information, interested members of the public may contact John L. Little, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, telephone: 301/921-3723.

Dated: August 9, 1976.

ERNEST AMBLER,
Acting Director.

CHLORDIAZEPOXIDE AND CHLORDIAZEPOXIDE HYDROCHLORIDE PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

Correction

In FR Doc. 76-19324 appearing in the issue of Tuesday, July 6, 1976, in the ninth line of the second full paragraph in the second column on page 27769, the word "a" should read "no".

[Docket No. 75N-0266]

MEDICAL DEVICES

Performance Standards Activities

The Food and Drug Administration (FDA) in this notice is advising all interested persons of its activities to date in the development of medical device performance standards and is indicating its intentions concerning the development and formal adoption of performance standards in the future.

On May 28, 1976, the President signed into law the Medical Device Amendments of 1976, Pub. L. 94-295. This legislation, which amends the Federal Food, Drug, and Cosmetic Act by adding new sections 513 through 521 (21 U.S.C. 360c through 360k), provides FDA with significant new authority to assure the safety and effectiveness of medical devices intended for human use. Among the most important provisions of the new amendments is the authority under section 514 to prescribe performance standards for medical devices.

As stated in section 513(a) of the act, devices requiring performance standards are those devices for which the general controls alone are insufficient to provide reasonable assurance of safety and effectiveness and for which there is sufficient information to establish a performance standard to provide such assurance. Devices requiring performance standards are also subject to the general control provisions of the act. These include existing controls prohibiting adulterated or misbranded devices, and new controls which include registration of device manufacturers; authority to ban certain devices; requirements respecting notification of risks and repair, replacement or refund; requirements to keep records and make reports; requirements restricting the sale, distribution or use of certain devices; and requirements with respect to good manufacturing practice.

A performance standard established under section 514 of the act for a device shall, among other things and where necessary to provide reasonable assurances of its safe and effective performance, include: (1) provisions respecting the construction, components, ingredients, and properties of the device and its compatibility with power systems and connections to such systems; (2) provisions for the testing of the device; and (3) provisions for the measurement of the performance characteristics of the device. The performance standard also shall, where appropriate, require the use and prescribe the form and content of labeling for the proper installation, maintenance, operation, and use of the device. Design-related requirements that are necessary to provide safe and effective performance or that reduce the likelihood of human error by improving device safety and efficacy may be included in a performance standard. See House Report No. 94-853, Medical Device Amendments, February 29, 1976 on page 26.

The Commissioner of Food and Drugs intends to issue a proposed procedural regulation in the FEDERAL REGISTER to explain the requirements of section 514, and describe how FDA will initiate, develop, promulgate, amend or repeal performance standards for medical devices. The procedural regulation to be proposed will apply to the development of all medical device standards, including standards for in vitro diagnostic products heretofore governed by the procedures set forth in Part 809 (21 CFR Part 809). In the interim, work on the development of in vitro diagnostic products standards will continue in accordance with the procedures in Part 809, to the extent that such procedures are consistent with the requirements of section 514 of the act.

Section 514 does not require that a procedural regulation governing standards development be effective at the time FDA initiates standards activities. The Food and Drug Administration will continue to proceed with the development of performance standards that may eventually be suitable for publication as proposed regulations according to procedures provided in section 514.

For several years, FDA has been engaged in activities designed to encourage the development of voluntary performance standards for medical devices. These efforts have been aimed primarily at developing criteria for measuring the performance characteristics of certain currently marketed devices that may present an unusual or serious risk of injury to persons treated with such products. Prior to the passage of the recent device amendments, FDA contemplated the possibility of adopting such standards as legal requirements for specific devices, relying upon the general rule making authority conferred by section 701(a) of the act. Wholly apart from the possible need for enforceable legal requirements, however, FDA encouraged and aided the development of device performance stand-

V 41 157 AUG 12 76 UMI

ards that manufacturers could use as guides or targets in designing and making their products.

The Food and Drug Administration intends to continue to promote such voluntary efforts because they contribute to assuring the safety and effectiveness of marketed devices. Voluntary or privately recognized performance standards will not be a substitute for the formal promulgation of standards under section 514 of the act for any device that is classified in the performance standard catgeory. However, voluntary or privately recognized standards can serve as informal standards prior to classification as well as during the development of formal standards for devices that are not candidates for immediate attention, and they may be the basis for subsequent formal FDA standards.

In an effort to review the adequacy of existing standards, and as a guide for the development of new standards, FDA prepares annually the "Medical Device and Diagnostic Products Standards Survey" (Ref. 1). This survey is a comprehensive list of current national and international standards activities for medical devices and diagnostic products. The lists in this survey include voluntary and regulatory standards, tentative and recommended standards, glossaries of technical terms, and proposed standards. The standards listed in this survey include the identity of criteria for such attributes as performance, sensitivity, accuracy, materials, safety, durability, and other areas concerning safety and effectiveness of medical devices and diagnostic products. In the past, the survey has been published annually in two parts. The section for international and foreign standards activities was published in January 1976; the national section was published in July 1975.

A number of groups outside the agency, including the American Society for Testing and Materials (ASTM), the American National Standards Institute (ANSI), the Association for the Advancement of Medical Instrumentation, and the American Dental Association have made significant contributions to the development and establishment of voluntary standards. In 1972, FDA surveyed all organizations known to be involved in the process of developing such standards; the results of this survey are in a report entitled "Medical Device Standards Survey" (Ref. 2) dated May 15, 1972. This survey was discussed at the National Medical Device Standards Conference held in May 1972, under the joint sponsorship of the Association for the Advancement of Medical Instrumentation and FDA, to discuss the development of medical device standards.

One of the recommendations of the National Medical Device Standards Conference was that the "FDA should consider the immediate development of resources for the coordination and stimulation of standards activities" (Ref. 3). The Commissioner agreed with this recommendation, and concluded that there was a need for the development of new device standards and for the informal endorsement of some existing standards.

In October 1972, FDA invited 21 organizations to participate in a meeting (Ref. 4) to discuss recommendations of the National Medical Device Standards Conference and to find ways to improve coordination of medical device standards activities in the United States. It was proposed at this meeting that ANSI establish a new technical advisory board for medical device standards, with FDA providing a chairman. The formal motion stated:

This body (the representatives present) goes on record as requesting that ANSI establish a coordinating body for standards in the medical device field and that this committee, or Technical Advisory Board, operate under the following guidelines and objectives:

1. Coordinate the development of medical device standards in an unbiased manner;

2. Stimulate the development of medical device standards for performance and safety;

3. Establish priorities for medical device standards development;

4. Promote a more effective and better organized communication system among physicians, engineers, hospitals, manufacturers, and government in the area of medical device standards;

5. Assure that all disciplines, interests, and competent standards organizations are involved in the coordination of standards development activities;

6. Promote an effective exchange of information about standards activities among different organizations;

7. Promote international standards activities through coordination with ANSI;

8. Examine the requests for standards development and determine the validity of need; and

9. Recommend the appropriate organization for fulfilling a recognized and valid need for a standard.

We further propose to that organization that the Medical Device Technical Advisory Board be duly constituted under ANSI procedures and that members of this group (the representatives present) be invited to serve on this Technical Advisory Board.

A second motion was passed providing for FDA to chair the first Medical Device Technical Advisory Board; this board was subsequently established by ANSI and later renamed the Medical Device Standards Management Board. Presently, it has over 50 members from voluntary standards organizations and government and professional societies.

The Commissioner has sought to encourage the voluntary development of standards. Formation of the Medical Device Standards Management Board provides coordination between FDA and persons involved with the voluntary system to allow for the establishment of timely and viable voluntary consensus standards with economy of effort. The Food and Drug Administration is working closely with voluntary standards organizations such as the ASTM and the American Dental Association with the objective of acquiring the acceptance of several consensus standards already developed by these organizations in the areas of orthopedic implants and dental materials and to identify the need for standards that have not yet been developed. The Food and Drug Administration is working closely with American National Standards Committee Z-79 on Anesthesia Devices to develop safety and performance standards for continuous-flow gas machines.

The participation of FDA in international voluntary standards-making activities has resulted in the United States assuming secretariats for a number of international standards subcommittees. In fiscal year 1974, FDA contracted with ANSI (Ref. 5) to provide partial support for the initial development of the two United States secretariats, Subcommittee S/C2 on Cardiovascular Implants and Subcommittee S/C3 on Neurosurgical Implants of the International Organization for Standardization Technical Committee 150 on Surgical Implants. The first international meeting of the two subcommittees was held in Miami, Florida, in October 1974. The Food and Drug Administration is also participating with the International Electrotechnical Commission in the development of voluntary international electrical and electronic standards.

As a supplement or alternative to the voluntary consensus system, FDA has developed medical device standards both intramurally, and on contract, extramurally. Contracts have been awarded to extramural organizations to develop standards for electrocardiographs, electromagnetic compatibility, electrosurgical devices, infant incubators and warmers, and environmental performance for hospital and emergency mobile medical devices. An intramural standard is being developed for insulin syringes.

Food and Drug Administration activities in the standards area are as follows:

1. *Cardiac defibrillators.* Development of a performance standard for cardiac defibrillators was initiated in 1973. A competitive bid contract (Ref. 6) for development of the standard was awarded to the Utah Biomedical Testing Laboratory; the contract and its subsequent modification extended over a period of 1 year and was completed in September 1974. The revised Utah Bomedical Testing Laboratory contract included two open review meetings to provide manufacturers and users an early input in the development of the standard. The first draft was available in April 1974 and was December 1973 and was discussed in an open 2-day meeting at the Utah Biomedical Testing Laboratory. A second draft was available in April 1974 and was discussed at a meeting of the American National Standards Committee MD 105 on Medical Electronics in conjunction with the Association for the Advancement of Medical Instrumentation Annual Conference in New Orleans. The third draft of the standard was discussed at a November 1974 meeting of the standards subcommittee of the Association for the Advancement of Medical Instrumentation on high frequency therapeutic devices. As a result of these meetings, a fourth draft was distributed for comment to individuals and organizations interested in a further refinement of the document. This resulted in a fifth draft (Ref. 7), which incorporated the input of manufacturers; users, including physicians, hospital engineers, and nurses; and government agencies, including the Veterans Administration and the military.

2. *Electrocardiographs.* Development of a performance standard for electrocardiographs was initiated in 1974. The contract for development of a standard was awarded to the Utah Biomedical Testing Laboratory on a task-order basis, pursuant to FDA's major laboratory support contract (Refs. 8 and 9). The contract starting date was September 26, 1974, and the first draft was completed in May 1975. The first public review was held in Salt Lake City, Utah, on July 2, 1975. A second draft standard was prepared and reviewed publicly on November 20, 1975, in conjunction with the annual American Heart Association meeting in Anaheim, California. The third draft standard (Ref. 10) was presented at the International Electrotechnical Commission 62D WG1 meeting in Friedburg, Germany, in April 1976 where it met with favorable reviews.

3. *Orthopedic implants.* In 1973, FDA reviewed and commented on existing orthopedic material and implant standards of ASTM Committee F4. Subsequently, a cooperative effort between ASTM Committee F4 on Surgical Implants and FDA resulted in improvements in the orthopedic material standards. The FDA revised orthopedic material standards (Ref. 11) identified by FDA and ASTM designations are as follows:

a. FDA-MDS-013-0017 (ASTM F 55-75) Standard on Bar and Wire, Stainless Steel, for Surgical Implants.

b. FDA-MDS-013-0018 (ASTM F 56-75) Standard on Sheet, Strip, and Plate, Stainless Steel, for Surgical Implants.

c. FDA-MDS-013-0019 (ASTM F 138-75) Standard on Bar and Wire, Stainless Steel, Low Inclusion Content for Surgical Implants.

d. FDA-MDS-013-0020 (ASTM F 139-75) Standard on Sheet, Strip, and Plate, Stainless Steel, Low Inclusion Content, for Surgical Implants.

e. FDA-MDS-013-0021 (ASTM F 67-75) Standard on Strip, Sheet and Plate, Unalloyed Titanium, for Surgical Implants.

f. FDA-MDS-013-0040 (ASTM F 67-75) Standard on Forgings, Unalloyed Titanium, for Surgical Implants.

g. FDA-MDS-013-0041 (ASTM F 67-75) Standard on Bars and Billets, Unalloyed Titanium, for Surgical Implants.

h. FDA-MDS-013-0029 (ASTM F 75-75) Standards on Shot and Pig, Cobalt-Base (Cobalt-Chromium-Molybdenum) Casting Alloy for Surgical Implants.

i. FDA-MDS-013-0030 (ASTM F 90-75) Standard on Sheet, Strip, and Plate, Cobalt-Base (Cobalt-Chromium-Tungsten-Nickel) Alloy for Surgical Implants.

j. FDA-MDS-013-0042 (ASTM F 90-75) Standard on Bar and Wire, Cobalt-Base (Cobalt-Chromium-Tungsten-Nickel) Alloy for Surgical Implants.

Additionally, in 1974, FDA issued a contract to the Utah Biomedical Testing Laboratory for a feasibility study concerning the retrieval, testing and evaluation of various orthopedic implants, including those removed for failure and "off-the-shelf" (Ref. 12); a final report was released in September 1975 (Ref. 13). The knowledge gained from this study should permit refinement in future revisions in orthopedic implant standards, test methods, and retrieval and analysis techniques.

4. *Dental materials and devices.* In 1973, EDA identified as acceptable the seven dental materials standards listed below that were developed by the American Dental Association and promulgated as American National Standards (ANS). The standards were presented to the FDA classification panel on dental devices which recommended that FDA accept them as standards in the future. The following seven standards (Ref. 14) are identified by FDA and ANS designations:

a. FDA-MDS-033-0007 (ANS MD 156.1) Standard for Dental Amalgam Alloy.

b. FDA-MDS-033-0008 (ANS MD 156.5) Standard for Dental Casting Gold Alloy.

c. FDA-MDS-033-0009 (ANS MD 156.6) Standard for Dental Mercury.

d. FDA-MDS-033-0010 (ANS MD 156.7) Standard for Dental Wrought Gold Wire Alloy.

e. FDA-MDS-033-0011 (ANS MD 156.14) Standard for Dental Chromium Cobalt Casting Alloy.

f. FDA-MDS-033-0012 (ANS MD 156.12) Standard for Denture Base Polymer.

g. FDA-MDS-033-0013 (ANS MD 156.13) Standard for Denture Cold-Curing Repair Resin.

The Food and Drug Administration, in conjunction with the classification panel on dental devices, will review additional American National Standards for Dental Materials and Devices to determine whether they should be considered for formal adoption following verification.

5. *Disposable insulin syringes.* On March 7, 1974, FDA held a meeting to afford all interested persons the opportunity to comment on the most effective way to eliminate or reduce the problem of insulin dosage error caused by variations in the design of syringes and the mixing of different insulins. Representatives of insulin syringe manufacturers and the American Diabetes Association attended the meeting. Participants at the meeting agreed that a performance standard for syringes was needed and should be developed under the direction of FDA (Ref. 15).

On April 3, 1975, a public hearing was held (Ref. 16) pursuant to the FEDERAL REGISTER announcement of February 28, 1975 (40 FR 8580), to allow all persons an opportunity to present data, technical information, and views concerning a second draft of a proposal to establish a performance standard for disposable insulin syringes. A third draft (Ref. 17) was issued about September 15, 1975, and on the basis of comments received, a fourth draft is being prepared.

6. *Hearing aids.* On December 20, 1973, FDA requested the ANSI to develop a performance standard for hearing aids. This request subsequently was forwarded to both the American National Standards Committee S-3 on Bioacoustics and its working group S-3-48 on hearing aids. Work was begun on the development of the standard. The Food and Drug Administration, in reviewing the work of the committee 3 months after the operation began, concluded that the goal of developing a performance standard within 1 year would not be met. Therefore, FDA began to develop an intramural standard, and the hearing aid industry embarked on a similar development project through its trade group. Several meetings between FDA and the industry were held to resolve differences in their respective draft documents. Both the industry draft and FDA draft were presented in April 1975 to the S-3-48 working group, and as a result, S-3-48 prepared a consensus draft for submission to the American National Standards Committee S-3 for letter ballot. On February 16, 1976, this document successfully underwent American National Standards Committee S-3 review, and it has been forwarded to ANSI for publication as an American National Standard for Specification of Hearing Aid Characteristics, S.3:22 (Ref. 18). Copies are available from the Acoustical Society of America, Standards Secretariat, 335 East 45th St., New York, NY 10017.

7. *Environmental performance standard for hospital and emergency mobile medical devices.* Since the environmental conditions of temperature, humidity, mechanical shock, vibration, and power line voltage variation to which hospital and emergency mobile medical devices are subjected are presently undefined, FDA issued a contract (Ref. 19) to the Emergency Care Research Institute to develop an environmental performance standard for hospital and emergency mobile medical devices.

Definitions of hospital, emergency, vehicle, and field environments will be established through a comprehensive data gathering program. These definitions of the respective environments will be used to develop the medical device environmental performance criteria and certification test methods. A notice of availability will be published when this draft of the performance and test method standard is available.

8. *Medical device electromagnetic compatibility standard.* The electromagnetic compatibility performance standard for medical devices is considered to be baseline standard applicable to devices used in medical facilities and emergency vehicles. This standard will provide useful

V 41 1157 AUG 12 76 UMI

guidelines for consideration of the electromagnetic environment in the design of medical devices. The standard is being developed under a 30-month extramural contract that began in July 1974 with McDonnell Douglas Astronautics Company-East (Ref. 20). The first draft of the performance standard was available from the contractor as of January 12, 1976. The second draft was available as of June 11, 1976 from the contractor. A public review meeting is scheduled for mid-September 1976 at the contractor's facility in St. Louis.

9. *Cardiac pacemakers.* The Food and Drug Administration issued a contract (Ref. 21) in May 1974 to the Association for the Advancement of Medical Instrumentation for the development of definitive terminology, labeling, and standards for implantable cardiac pacemakers. This document was completed in August 1975 and presently is being reviewed by the FDA Cardiovascular Devices Advisory Panel. The draft of the standard (Ref. 22) is currently being reviewed by FDA.

10. *Electrosurgical devices.* The Food and Drug Administration issued a contract (Ref. 23) in June 1975 to the Emergency Care Research Institute for the development of a performance and safety standard for electrosurgical devices. The first draft of the standard was issued in November 1975, and the first open review meeting was held in January 1976. A second draft was issued in April 1976, with the second open review meeting held on June 10, 1976. Final delivery of the draft standard to FDA is scheduled for September 1976.

11. *Infant incubators and warmers.* The Food and Drug Administration issued a contract (Ref. 24) to the Emergency Care Research Institute on June 27, 1975, to develop a standard for infant incubators and warmers. An open review meeting to discuss the requirements of the devices was held in October 1975. The comments received as a result of that meeting, as well as those received from informal communications with users and manufacturers, were collated and incorporated into the first draft of the standard, which was issued in March 1976. An open review meeting was held in Philadelphia on April 15, 1976, to discuss these standards. The second draft was made available in June 1976, and an open review meeting is scheduled for August 9, 1976. The contract calls for receipt of the final draft standard by September 1976.

12. *Research evaluation of performance requirements for neurosurgical implants.* Task Order Number 15 (Ref. 25) was issued to the Utah Biomedical Testing Laboratory to perform a comprehensive review of recent research and standard making activities in the field of neurosurgical implants. The objective of this study was to identify key aspects of neurosurgical devices and materials for which existing standards are deficient or for which standards do not exist. In addition, the Utah Biomedical Testing Laboratory was required to make recommendations regarding the applicability of existing standards to neurosurgical implants and devices. The literature search has been completed, and the final report is scheduled for delivery to FDA by July 30, 1976.

13. *Cardiac monitor performance and safety requirements study.* In March 1976, FDA issued Task Order Number 22 (Ref. 26) to the Utah Biomedical Testing Laboratory to perform a study of cardiac monitor safety and efficacy. On the basis of a literature review and surveys of manufacturers and user hospitals, recommendations for performance and safety criteria will be developed and presented in a report to FDA in November 1976. Meetings with national (the Association for the Advancement of Medical Instrumentation) and international (the International Electrotechnical Commission) groups working on these issues have taken place.

14. *Electroconvulsive therapy device performance safety requirements study.* In March 1976, FDA issued Task Order Number 19 (Ref. 27) to the Utah Biomedical Testing Laboratory to perform a study of safety and performance requirements for electroconvulsive therapy devices. On the basis of an analysis of available information, the Utah Biomedical Testing Laboratory will make specific recommendations as to which safety and performance characteristics of electroconvulsive therapy devices are essential for minimizing patient and operator hazards. This report is scheduled for submission to FDA by October 31, 1976.

15. *In vitro diagnostic products standards.* The development of in vitro diagnostic products standards is still in the formative stages. Notices on the availability of draft documents in this area will be published in the FEDERAL REGISTER in the future.

Office of Education

RIGHT TO READ STATE LEADERSHIP AND TRAINING PROGRAM

Extension of Closing Date for Receipt of Applications

Notice was published in the FEDERAL REGISTER on May 27, 1976 (41 FR 21666) establishing a closing date of June 28 for the receipt of applications for awards under the Right to Read State Leadership and Training Program pursuant to section 705(a)(3) of Title VII, Pub. L. 93–380 (20 U.S.C. 1921(a)(3)).

The purpose of this notice is to extend the closing date for the receipt of applications under the Right to Read State Leadership and Training Program in order to permit new applications from State educational agencies which were not previously funded under the program and which therefore did not receive application packages from the U.S. Office of Education prior to the closing date.

New applications from State educational agencies will be accepted under the program until August 23, 1976. The original and two copies of the application must be received by the U.S. Office of Education Application Control Center on or before August 23, 1976.

A. *Applications sent by mail.* Applications sent by mail should be addressed as follows: U.S. Office of Education, Grant Procurement Management Division, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.533B. Applications sent by mail will be considered to be received on time by the Application Control Center if:

(1) The applications were sent by registered or certified mail not later than August 18, 1976, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The applications are received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* Applications to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, 7th and D Streets, SW., Washington, D.C. 20202. Hand delivered applications will be accepted daily between the hours of 8:30 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Authority.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR 100, 100a). Final regulations governing the State Leadership and Training Program (45 CFR 162, Subpart F) were published in the FEDERAL REGISTER on May 26, 1976.

D. *Program Information and forms.* Information and application forms may be obtained from the Right to Read Program, U.S. Office of Education, Room 2130, 400 Maryland Avenue, SW., Washington, D.C. 20202.

(20 U.S.C. 1921(a)(3))

(Catalog of Federal Domestic Assistance Number 13.533, Right to Read—Elimination of Illiteracy)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–356; FDAA–513–DR]

PENNSYLVANIA

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Pennsylvania, dated July 7, 1976, is hereby amended to include the following area determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of July 7, 1976:

Manchester Township (in Wayne County).

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: August 5, 1976.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[FR Doc.76-23472 Filed 8-11-76;8:45 am]

[Docket No. NFD–357; FDAA–518–DR]

VERMONT

Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on August 5, 1976, the President declared a major disaster as follows:

I have determined that the damage to certain areas of the State of Vermont resulting from severe storms, high winds, and flooding beginning about July 11, 1976, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93–288. I therefore declare that such a major disaster exists in the State of Vermont.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–74–285, I hereby appoint Mr. E. Paul Hartzell, HUD Region I, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of Vermont to have been adversely affected by this declared major disaster:

The Counties of:

Bennington	Rutland
Orange	Windsor

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance)

Dated: August 5, 1976.

THOMAS P. DUNNE,
Administrator, Fedcral Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Office of Pipeline Safety Operations

[Docket No. Pet. 76–11W]

TRANS-ALASKA CRUDE OIL PIPELINE

Grant of Waiver

By petition dated October 18, 1975, the Alyeska Pipeline Service Company (Alyeska) requested that the pipe bending requirement of 49 CFR 195.212(e) be repealed and, in the interim, that Alyeska be granted a waiver from compliance with the requirement with respect to the Trans-Alaska crude oil pipeline. Section 195.212(e) (now § 195.212(b)(3)) provides that for each field bend of steel pipe containing a longitudinal weld, "the longitudinal weld must be as near as practicable to the neutral axis of the bend." In its petition, Alyeska alleged that this requirement is unnecessary for the quality or integrity of a pipeline.

In response to Alyeska's request, the Materials Transportation Bureau (MTB) sought additional information from Alyeska to show why the bending requirement is not necessary as alleged. In addition, in connection with a separate rulemaking proceeding on pipe bending, MTB asked interested persons to submit technical information on whether it is unnecessary from a safety standpoint for a longitudinal weld to be located near the neutral axis during bending (Docket No. OPS–23, Notice 75–7, 40 FR 60076, Dec. 31, 1975). The information submitted by Alyeska and commenters to Notice 75–7 is summarized as follows: First, a recommended safety practice that longitudinal seams be near the neutral axis initially appeared in the 1966 edition of the industry code for liquid pipelines, American National Standards Institute B31.4 Code, which served as a basis for § 195.212(b)(3). This safety practice was developed prior to general usage of the internal bending mandrel and was intended to prevent damage to pipe at the weld seam by the die or stiffback during bending. The recommended practice was not included, however, in the 1975 edition of the B31.4 Code primarily because use of the internal bending mandrel to provide support for pipe prevents it from being damaged during bending. The fact that protruding welds on spiral welded pipe had been regularly placed against the die or stiffback during bending without consequent damage to the pipe also led to the 1975 deletion. Secondly, thou-

V 41 157 AUG 12 76 UMI

sands of bend sections were installed before the advent of the recommended practice or requirement that the longitudinal seam be near the neutral axis, and there has not been a single liquid pipeline accident reported under 49 CFR Part 195 which was caused by failure of a weld seam in a bend section. Thirdly, the likelihood that stresses during bending will not adversely affect the integrity of a longitudinal seam weld is enhanced by the recent improvements in seam welding technology, quality control, and materials chemistry. Fourthly, modern bending machines and internal bending mandrels commonly used by industry provide control and protection of the pipe, especially large diameter high strength thin wall pipe where damage would be more likely to occur, which was unavailable as recently as 10 years ago. Finally, burst test data obtained on the Portland-Montreal pipeline system in 1965 for 24-inch X-52 steel pipe shows that with seams on both the inside and outside of the bend, ruptures occurred in the body of the pipe without damage to the weld seams.

After considering all available information, MTB finds that under modern pipe manufacturing and bending techniques, there is little, if any, risk of pipe damage from placing a longitudinal seam in a position other than near the neutral axis during bending. This finding is further supported by test data, the current recommended industry bending practice, and the absence of reported failures due to bending in MTB failure records. Moreover, if damage does occur at a longitudinal seam during bending, the bend would be rejected under other performance standards for pipe bends in § 195.212. Accordingly, subject to the following conditions, the granting of Alyeska's request for waiver from 49 CFR 195.212(b)(3) appears appropriate and in the public interest, and the waiver is hereby granted effective immediately:

1. All bends must be made using an internal bending mandrel.

2. Alyeska shall report all unacceptable seam damage due to bending and bend failures during testing to MTB.

Because of the significance of the findings herein, MTB will issue a notice of proposed rulemaking to modify the general requirement in 49 CFR 195.212(b)(3) consistent therewith.

(Sec. 6, Pub. L. 89-670, 80 Stat. 937 (49 USC 1655); (18 USC 831-835); 40 FR 43901, 49 CFR 1.53).

Issued in Washington, D.C. on August 3, 1976.

JAMES T. CURTIS, Jr.,
Director,
Materials Transportation Bureau.

[FR Doc.76-23498 Filed 8-11-76;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 29617; Order 76-8-40]

AIR PANAMA INTERNACIONAL, S.A.

Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 28th day of July, 1976.

By tariff revisions filed July 2, 1976, which became effective August 1, 1976,[1] Air Panama Internacional, S.A. (Air Panama) proposed tariff rule changes permitting individual return travel by members of groups traveling under its existing 3/21-day group excursion fares.[2]

Complaints requesting suspension and investigation have been filed by Braniff Airways, Inc. (Braniff) and Pan American World Airways, Inc. (Pan American), accompanied by motions to file late which will be granted. Air Panama has filed a motion, which will be granted, to file an otherwise unauthorized document in late reply to Braniff and Pan American.

In general, both complainant carriers contend that the group fares are already low and that given the relative lack of restrictions attached to their use, the individual return facility will cause the fares to become the effective selling fare in the markets served by Air Panama. In order to be eligible to use the fare, passengers need only purchase tickets at the counter and board the aircraft in groups of 4 or 6. Both carriers further argue that there is no valid economic justification for the filing, which both maintain could result in severe erosion of the existing fare structure, and which Braniff further maintains is an attempt by Air Panama to legalize past unlawful practices. Finally, both carriers point out that an individual return facility is contrary to Board policy and accepted practice regarding group-fare travel.

In reply to Braniff and Pan American, Air Panama contends that both carriers have failed to submit evidence or argument sufficient to warrant suspension of the provision and requests denial of the relief sought and dismissal of the complaints. Air Panama contends that the group excursion fares have been published in tariffs for almost three years without a travel-together requirement; that it filed the instant rule at the informal suggestion of the Board's Tariffs Section; that the provision is identical to and taken from similar rules now in effect for domestic group fares and thus is lawful and consistent with other rules in effect and with Board policy; that it is aware of and rejects the suggestion that a rule requiring group-fare passengers to travel together in both directions is legally required by Board policy or decision; that if the subject rule is suspended, the group fare will continue to be available with no travel-together requirement; and that foreign carriers are not required under Board regulations to submit economic justification in support of their filings.

Upon full consideration of the tariff filing, the complaints and answer, and all other relevant factors, the Board has determined to suspend, pending investigation, Air Panama's filing.

Air Panama's group excursion fares carry no restrictions such as requirements for advance reservation, or advance ticket purchase. Rather, under Air Panama's rules, passengers can be assembled at the ticket counter in groups sufficient to meet Air Panama's low minimum-group requirements (4–6 passengers). The lower levels usually associated with group fares have been considered justified in the past because of the alleged cost savings stemming from handling and ticketing passengers as a group rather than individually. Air Panama's group excursion fares are steeply discounted from the normal economy fare and are among the lowest fares offered in the affected markets.[3] An individual return facility would effectively erase the sole meaningful distinction between the group fare and individual economy fares. Given the lack of any other meaningful tariff restrictions, the group fare could thus largely supplant the normal economy fare, as well as other higher-rated individual travel fares, in the markets concerned.[4] Air Panama's rule, in short, would erode the economic basis for the group fare level itself and dilute the overall fare level in the affected markets.[5]

Air Panama states that suspension of the instant proposal would leave the group fare with no travel-together requirement. It is the Board's opinion that all fares offered as "group" fares carry a requirement, implicit in the word "group," that passengers travel together from point of origin to point of destination and return unless otherwise clearly stated in the governing tariff rules. Finally, Air Panama's contention that it need not submit justification for its tariff proposals is contrary to the provisions of sec. 211.165 of the Board's Economic Regulations.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and

[1] Air Panama Internacional, S.A., Tariff C.A.B. No. 1, Rule No. 47, 10th Revised Page 34–D, and Rule No. 48, 5th Revised Page 34–E.

[2] Minimum groups of 4 persons for travel from the U.S. to points in South/Central America and minimum groups of 6 persons for travel to the U.S. from points in South/Central America.

[3] For example, the group excursion fares offer discounts ranging from 43.7 to 48.9 percent off Air Panama's published New York-Panama round-trip normal economy fare and discounts ranging from 50.0 to 54.5 percent off the applicable IATA-agreed round-trip normal economy fare.

[4] Air Panama refers to domestic group fares which permit open returns as precedent for its own rule. These domestic fares are much more restrictive in their application than are Air Panama's group fares. Furthermore, such low fares cannot burden normal fares under the ratemaking standards developed in the *Domestic Passenger-Fare Investigation*, contrary to the case with Air Panama's rule.

[5] Based upon data available to the Board, Air Panama's revenue passenger-mile cost for its B–727 equipment is estimated to be 5.90 cents per mile, based upon a 60 percent load factor and excluding any element for economic return. Air Panama's southbound New York-Panama group excursion fare yields only 4.98 cents per mile and its northbound Panama-New York fare yields a slightly higher 5.48 cents per mile. Thus, in the absence of mealingful restrictions to protect other higher-rated fares in the structure, it is evident that Air Panama's below-cost group excursion fares would seriously erode the overall financial position of all carriers serving the market.

particularly sections 204(a), 403, 404, 801, and 1002 thereof,

It is ordered that:

1. An investigation be instituted to determine whether the provisions set forth below, and rules, regulations, or practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to take appropriate action to prevent the use of such provisions or rules, regulations, or practices;

2. Pending hearing and decision by the Board, the tariff provisions specified below are suspended and their use deferred from August 10, 1976 to and including August 9, 1977, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. This order shall be submitted to the President[6] and shall become effective on August 9, 1976;

4. The investigation ordered herein be assigned for hearing before an administrative law judge of the Board at a time and place hereafter to be designated;

5. Copies of this order be filed in the aforesaid tariffs and be served upon Air Panama International, S.A. Braniff Airways, Inc., and Pan American World Airways, Inc.;

6. The motions by Air Panama Internacional, S.A. Braniff Airways, Inc., and Pan American World Airways, Inc. for leave to file late-filed or unauthorized documents be and hereby are granted; and

7. Except to the extent granted herein, the complaints of Braniff Airways, Inc. and Pan American World Airways, Inc. in Docket 29499 and Docket 29508 be and hereby are dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

LOCAL PASSENGER TARIFF No. 1, C.A.B. No. 1 ISSUED BY AIR PANAMA INTERNACIONAL, S.A.

On 10th Revised Page 34–D and 5th Revised Page 34–E the following provisions in Rule No. 47(5) and Rule No. 48(5):

• • • as a single group on the same flight from point of origin to outbound destination.

and

When travel is on the return portion of a roundtrip, the members may travel individually.

[6] This order was submitted to the President on July 28, 1976.

CHICAGO-VANCOUVER ROUTE PROCEEDING

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on September 21, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room B, Universal North Building, 1875 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge William A. Kane, Jr.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements and issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before September 3, 1976, and the other parties on or before September 13, 1976. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., August 6, 1976.

ROBERT L. PARK,
Chief Administrative Law Judge.

[Docket 21448]

SPOKANE-MONTANA POINTS SERVICE INVESTIGATION

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on September 28, 1976, at 9:30 a.m. (local time), in Room 1003, Hearing Room A, Universal North Building, 1875 Connecticut Avenue, NW., Washington, D.C., before Administrative Law Judge Frank M. Whiting.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements and issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before September 3, 1976, and the other parties on or before September 16, 1976. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., August 6, 1976.

ROBERT L. PARK,
Chief Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 598-7]

AMBIENT AIR MONITORING REFERENCE AND EQUIVALENT METHODS

Equivalent Method Designation

Notice is hereby given that EPA, in accordance with 40 CFR Part 53 (40 FR 7044, February 18, 1975), has designated another equivalent method for the measurement of ambient concentrations of sulfur dioxide. This new equivalent method is an automated method (analyzer) utilizing a measurement principle based on coulometric titration for the detection of SO_2.

The method is: EQSA–0876–011, "Philips PW9700 SO_2 Analyzer" consisting of the following components: PW9710/00 Chemical Unit with PW9711/00 Electrolyte SO_2, PW9720/00 Electrical Unit, PW9721/00 Filter set SO_2, PW9730/00 Sampler Unit or vendor-approved alternate particulate filter PW9740/00 SO_2 Source operated with a 0 to 0.5 ppm range and with a reference voltage of 760 millivolts. This method was previously available from Philips Electronic Industries, Inc.; 750 South Fulton Avenue Mount Vernon. NY 10550.

A test analyzer representative of this method has been tested by its manufacturer, in accordance with the test procedures specified in 40 CFR Part 53. After reviewing the results of these tests and other information submitted by the applicant, EPA has determined, in accordance with Part 53, that this method should be designated as an equivalent method. The information submitted by the applicant will be kept on file at the address shown below and will be available for inspection to the extent consistent with 40 CFR Part 2 (EPA's regulations implementing the Freedom of Information Act).

As an equivalent method, this method is acceptable for use by States and other control agencies for purposes of section 51.17(a) of 40 CFR Part 51 ("Requirements for Preparation, Adoption, and Submittal of Implementation Plans") as amended on February 18, 1975 (40 FR 7042). For such use, the method must be used in strict accordance with the operation or instruction manual provided with the method and subject to any limitations (e.g., operating range) specified in the applicable designation (see description of method above). User modifications of a designated method used for purposes of § 51.17(a) are permitted only with prior approval of EPA, as provided in Part 53. Provisions concerning modification of such methods by users were promulgated on March 17, 1976 (FEDERAL REGISTER, Vol. 41, page 11255).

It is EPA's understanding that this method is no longer in production by its manufacturer, although some analyzers may still be available from the address given above. Designation of this method is thus primarily intended to benefit owners of existing analyzers used for purposes of section 51.17(a). However,

V 41 157 AUG 12 76 UMI

analyzers bearing the above model numbers and sold prior to this designation require certain modifications in order to be identical to the designated method and thus achieve designated status. These modifications include both hardware changes to the analyzer and a supplemental operation and instruction manual. The vendor has indicated that modification services will be made available. Owners of existing model PW9700 analyzers who wish to upgrade their analyzers to designated status should consult the vendor at the address given above to determine the cost and specific availability of such services.

Designation of this equivalent method will provide assistance to the States in establishing and operating their air quality surveillance systems under 40 CFR 51.17(a). Additional information concerning this action may be obtained by writing to the Director, Environmental Monitoring and Support Laboratory, Department E (MD–76), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

Dated: August 6, 1976.

WILSON K. TALLEY,
Assistant Administrator for Research and Development.

[FRL 598–8]

AMBIENT AIR MONITORING REFERENCE AND EQUIVALENT METHODS

Receipt of Application for Reference or Equivalent Method Determination

Notice is hereby given that on July 19, 1976, the Environmental Protection Agency received an application from Columbia Scientific Industries, to determine if its MEC Models 1100–1, 1100–2, and 1100–3 ozone analyzers should be designated by the Administrator of the EPA as reference methods under 40 CFR Part 53, promulgated February 18, 1975 (40 FR 7044). If, after appropriate technical study, the Administrator determines that these methods should be so designated, notice thereof will be given in a subsequent issue of the FEDERAL REGISTER.

Dated: August 6, 1976.

WILSON K. TALLEY,
Assistant Administrator for Research and Development.

STATE-FEDERAL FIFRA IMPLEMENTATION ADVISORY COMMITTEE (SFFIAC)

Open Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a two-day meeting of the State-Federal FIFRA Implementation Advisory Committee (SFFIAC) will be held from 8:30 a.m. to 4:30 p.m. on Thursday, September 16, and from 8:30 a.m. to approximately 12:30 p.m. on Friday, September 17. The meeting will be held in Room 3906–3908, of the Environmental Protection Agency, Waterside Mall, 401 M Street, S.W., Washington, DC 20460.

This is the fifth meeting of the full Committee. A complete agenda has not, as yet, been developed. However, the agenda will contain items relating to implementation of key sections of the amended Federal Insecticide, Fungicide, and Rodenticide Act. A considerable portion of the available time will also be devoted to Regional reports and to reports by the chairmen of the five Working Groups responsible to SFFIAC. In addition, the Chairman of the Working Group on Training, responsible primarily to the Extension Committee on Organization and Policy, will present his report.

The meeting will be open to the public. All communications regarding this meeting should be addressed to P. H. Gray, Jr., SFFIAC Executive Secretary, Operations Division, Office of Pesticide Program, Environmental Protection Agency, 401 M Street, S.W., Washington, DC, (202) 755–7014.

Dated: August 5, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

[FRL 598–5; OPP–00030]

STATE-FEDERAL FIFRA IMPLEMENTATION ADVISORY COMMITTEE (SFFIAC) WORKING GROUP ON RESOURCES AND FUNDING

Open Meeting

Pursuant to P.L. 92–463, notice is hereby given that a meeting of the State-Federal FIFRA Implementation Advisory Committee's Working Group on Resources and Funding will be held on Wednesday, September 15, 1976, at 9:00 a.m. in Room 2117, Waterside Mall, 401 M Street, S.W., Washington, DC.

This is the second meeting of the Working Group on Resources and Funding. The meeting will be concerned primarily with the phasing of EPA funding in support of pesticide applicator training and certification in fiscal year 1977 and beyond.

The meeting will be open to the public. Any member of the public wishing to attend should contact P. H. Gray, Jr., SFFIAC Executive Secretary, Operations Division (WH–570), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street, S.W., Washington, DC 20460, (202) 755–7014.

Dated: August 5, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

J. SHERWOOD, INC. AND STRAFFORD BROADCASTING CORP.

Construction Permits; Memorandum Opinion and Order

1. Before the Review Board is a petition to enlarge issues, filed November 12, 1975, by J. Sherwood, Inc., (Sherwood), (Rochester, New Hampshire), requesting the addition of ascertainment, financial and business practice issues against Strafford Broadcasting Corporation (Strafford). (Rochester, New Hampshire).[1]

ASCERTAINMENT ISSUE

2. In support of its request for an ascertainment issue, petitioner cites numerous alleged defects in Strafford's survey of community needs and problems. As an initial matter, Sherwood argues, Strafford's demographic showing contains no information concerning the community's female population, its educational interests or its labor unions and does not provide a specific listing of those groups which the applicant considers to be significant in its proposed service area. Moreover, petitioner submits, several groups which appear from Strafford's demographic data to occupy important places in the community—namely manufacturers, organized religion, tourism, environmentalists, local government, French-Canadians, and women [2]—are not represented in its survey of community leaders.[3] With respect to Strafford's survey of leaders outside of its proposed community of license, Sherwood contends that one major community has been omitted and that other communities are not represented by persons who could be expected to have a broad overview of community problems there. And, petitioner continues, insofar as its opponent's survey of the general public is concerned, the number of persons contacted is too small and the methodology employed to select them cannot be determined from the application form.[4] Turning finally to Strafford's evaluation of community needs and problems and its proposed programming to meet them, Sherwood urges that the accuracy of the survey results is questionable and the adequacy of the programming proposal subject to serious doubt.

3. We begin with petitioner's challenge to its opponent's demographic showing. The Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650, 21 RR 2d 1507 (1971), requires applicants to submit to the Commission such data as is necessary to indicate the composition of their proposed cities of license. Q. and A. 9 of the *Primer, supra*, 27 FCC 2d at 683, 21 RR 2d at 1543. While Strafford's demographic data could have been more precise in that the applicant did not provide a specific listing of all community groups, we do not believe that a further inquiry into this matter is warranted in light of petitioner's failure to establish that any significant element of the community was not identified by Strafford. In this regard, we must reject as erroneous Sherwood's assertion that its opponent neglected the female, educational and labor interests of its community. Strafford's demographic data includes separate statistics for men and women, where appropriate, a description of the area's colleges and universities, a chart showing the educational characteristics of the population, and a breakdown of the labor force by occupation and by industry. In the absence of a specific showing to the contrary, we cannot conclude that this information is inadequate. See Q. and A. 10 of the *Primer, supra*, 27 FCC 2d at 683, 21 RR 2d at 1543. We do, however, believe that an issue is warranted to determine whether Strafford compiled its demographic data before interviewing community leaders, as required by Q. and A. 10 of the *Primer, supra*, 27 FCC 2d at 683, 21 RR 2d at 1543. In response to Sherwood's allegations in this regard, Strafford contends that it "precisely" followed Primer requirements. The applicant provides no specific factual information in support of this contention and we therefore cannot accept its claim as dispositive of this question.

4. Turning next to Strafford's survey of community leaders in its proposed city of license, we find Sherwood's allegations in some respects erroneous. Thus, Strafford's data shows interviews with the president of a manufacturing firm, a local contractor, the vice-president of an insurance company, and the director of the local Chamber of Commerce, all of whom can be said to represent the community's business interests. And, in light of the applicant's explanation that the Chamber of Commerce supplies all tourist and travel information, we believe that Strafford can legitimately rely upon its interview with the director of that group to satisfy its obligations to survey the community. With regard to local government, we cannot conclude, in the absence of evidence to the contrary, that Strafford's interviews with the mayor, with the city's superintendent of schools and with its representative to the New Hampshire General Court were inadequate to ascertain the needs and interests of that group. Finally, insofar as environmentalists are concerned, petitioner's allegation that Strafford did not

[1] Also before the Board are an errata to the petition to enlarge issues, filed November 14, 1976, by Sherwood; an opposition, filed January 22, 1976, by Strafford; comments, January 22, 1976, by the Broadcast Bureau; and a reply, filed March 24, 1976, by Sherwood. In addition, the Board has before it a supplement and request for acceptance, filed April 30, 1976, by Strafford. Strafford's supplement contains an amendment to its ascertainment showing which has been accepted by the presiding Administrative Law Judge. This material is relevant to the issues at hand and its acceptance is not opposed by any of the other parties to this proceeding. Accordingly, we will grant Strafford's request and accept its supplementary pleading.

[2] The absence of any demographic data concerning women makes it difficult to assess Strafford's efforts in this regard, petitioner contends.

[3] Strafford's amendment to its ascertainment showing (see note 1, *supra*) has mooted several other matters raised by Sherwood in its petition. Thus, while Strafford's original showing did not indicate the residence and/or organizational title of all of the leaders contacted, its amended showing provides this information. Another matter raised by Sherwood—the timing of Strafford's interviews—is resolved by the affidavit of Marcia L. Nescot, Strafford's president. According to Ms. Nescot, the original interviews were conducted within one month of the filing of Strafford's application.

[4] In her affidavit, Ms. Nescot identifies the person who conducted Strafford's survey of the general public as a prospective employee of its proposed station, thereby answering a question raised in the petition to enlarge issues.

V 41 N 157 AUG 12 76 UMI

contact anyone concerned with the question of whether an oil refinery should be built in southeastern New Hampshire, notwithstanding its identification of this question as "the prime issue in local news," affords no basis for adding an issue. The fact that an issue of concern exists does not establish that there is a significant group as contemplated by the Primer.

5. In four significant respects, we believe that Sherwood's objections to its opponent's community leader survey are well founded. In its study of the community's composition. Strafford states that Rochester has a large number of Roman Catholic churches in addition to the old New England Protestant churches and adds that visitors to the city from an urban area "would find more importance placed on churches than they would expect." Yet, Strafford has included no representatives of organized religion in its survey of community leaders.[8] Likewise, while the applicant's demographic data shows a significant French-Canadian ethnic influence and a sizable population for whom French is the mother tongue, its survey included no contacts with persons identified as representatives of the French-Canadian community. In opposition to this part of Sherwood's request, Strafford asserts that it interviewed a person of French-Canadian descent, a teacher at a Catholic school, and a librarian who initiated a French language section in the Rochester public library. None of these persons has been shown to represent the community's French-Canadian population in any meaningful sense, however, and we therefore cannot accept them as satisfactory spokesmen for this admittedly significant portion of the population. *Cf. A. V. Bamford* v. *F.C.C.*, No. 75–1309, United States Court of Appeals for the District of Columbia Circuit, decided March 29, 1976, 36 RR 2d 1231. Finally, with respect to Rochester's women's organizations, Strafford's interviews with two leaders of women's groups do not appear to be adequate to satisfy the requirements of the *Primer* in this regard. The failure to contact adequate leaders of all significant groups is a serious defect in an ascertainment showing, see for example, Voice of Dixie, Inc., 45 FCC 2d 1027, 29 RR 2d 1127 (1974), reconsideration denied 47 FCC 2d 526, 30 RR 2d 851 (1974), and in our opinion, petitioner has raised sufficient doubt as to Strafford's efforts toward women's groups, toward organized religion and toward the community's French-Canadian population to warrant further investigation at hearing.[9]

[8] While Strafford did interview a Sister Superior who teaches at the Rochester Catholic School, the applicant does not appear to rely upon this contact as representing organized religion.

[9] As a related matter, Sherwood urges that Strafford's survey of twenty-eight leaders is per se inadequate to ascertain the needs and problems of a city of almost 18,000. The number of interviews conducted by Strafford is not on its face unreasonable, we believe, and in any event, the important consideration is not the size of the survey but the representativeness of its contents. See RAM Enterprises, 57 FCC 2d 844, 35 RR 2d 1507 (Rev. Bd. 1976).

As for Strafford's survey of leaders outside of its proposed city of license, the *Primer, supra,* requires applicants to ascertain problems outside of their community of license through consultations with leaders who can be expected to have a broad overview of community problems. Q. and A.'s 6 and 7, 27 FCC 2d at 682–683, 21 RR 2d at 1542–1543. Sherwood faults its opponent for omitting the community of Newmarket, New Hampshire, from its survey efforts and for chosing in other communities persons whose positions do not indicate a broad familiarity with community affairs. With regard to the first matter, Strafford maintains that the *Primer, supra,* mandates ascertainment only in "major" communities within the proposed service area, and argues that Newmarket, with its population of approximately 2,500 is not a "major" community in relation to Rochester with its population of almost 18,000. Moreover, the applicant urges, Newmarket is on, not within, the proposed 1 mV/m contour and has virtually no socio-economic relations with the proposed city of license. With respect to petitioner's second allegation Strafford includes in its amendment to its ascertainment showing a detailed explanation of the leadership role of each individual contacted in its survey of outlying communities. This explanation, which is not challenged by the other parties to this proceeding, establishes that the individuals contacted are active in and knowledgeable about community affairs. Compare Azalea Corporation, 47 FCC 2d 151, 30 RR 2d 584 (Rev. Bd. 1974). Given this information, and in light of Strafford's uncontroverted justification for its omission of Newmarket from its survey, we will not order a further inquiry into this aspect of the applicant's ascertainment showing.

7. We will, however, require an inquiry into Strafford's methodology for surveying the general public. In response to Sherwood's assertion that the Strafford application fails to specify the method used to obtain a random sample as required by Q. and A. 13(b) of the *Primer supra,* 27 FCC 2d at 684, 21 RR 2d at 1544, Marcia L. Nescot states in her affidavit that names for the survey were selected "at random" from the Rochester area telephone book. This statement is not specific enough to demonstrate that a random sample was either sought or obtained. See United Broadcasting Company (KBAY), 58 FCC 2d 1346, 36 RR 2d 1556 (Rev. Bd. 1976); Gilbert Broadcasting Co., 51 FCC 2d 238, 32 RR 2d 1290 (Rev. Bd. 1975). At the same time, we do not believe that petitioner has raised a substantial question as to the size of Strafford's survey. Of the sixty-two members of the general public contacted by the applicant, thirty-one reside in Rochester. Under Q. and A. 14 of the *Primer, supra,* 27 FCC 2d at 684, 21 RR 2d at 1544–1545, an applicant must contact a sufficient number of members of the general public to assure a generally random sample. Strafford's survey efforts, and particularly its thirty-one consultations in Rochester,[7] do not seem to per se inadequate to satisfy this requirement and petitioner has provided no specific evidence warranting a contrary conclusion.

8. With respect to Strafford's evaluation of community needs and problems, we do not agree with petitioner that the applicant was obligated to separate the results of its community leader surveys from the results of its general public survey. See Lexington County Broadcasters, Inc., 40 FCC 2d 694, 27 RR 2d 416 (Rev. Bd. 1973). We also do not concur in Sherwood's assessment of its opponent's programming proposal as being totally unresponsive to the needs and problems ascertained in its survey. A programming proposal will be questioned only upon a showing that it is patently insufficient to significantly meet the needs of the proposed service area. Southeast Arkansas Radio, Inc., 57 FCC 2d 351, 35 RR 2d 1441 (1976). Petitioner here has made no such showing and our own review of Strafford's proposal, which includes four programs specifically addressed to ascertained needs—a twenty-minute guest interview program to be broadcast once a week, a sixty-minute call-in program to be broadcast five times a week, a fifteen-minute interview program to be broadcast once a week, and a thirty-minute nationally syndicated public affairs program to be broadcast once a week—does not support a finding of patent insufficiency.[8]

FINANCIAL ISSUE

9. In support of its request for a financial issue, Sherwood first asserts that Strafford will not have available sufficient funds to meet its construction and first year operating costs. Specifically, petitioner argues, the $100,000 bank loan upon which Strafford relies to meet proposed expenses of $69,709.64 must be reduced by $21,750, the balance of an outstanding mortgage included in the loan, and by first year interest payments of $10,500, leaving the applicant with only

[7] While interviews with members of the general public outside of the proposed city of license will be considered in evaluating a survey, the sufficiency of the survey must be judged primarily on the basis of the showing with regard to the city of license. *Eastern Broadcasting Co.*, 50 FCC 2d 599, 32 RR 2d 601 (1975).

[8] In the event that an amendment is filed in response to the ascertainment issues being added herein and the amendment raises questions with regard to the adequacy of the applicant's program proposal, the presiding Administrative Law Judge may, in his discretion, expand the inquiry to encompass this matter.

$67,750.[9] Moreover, Sherwood continues, the bank's commitment letter sets forth real estate owned by the Strafford Broadcasting Corporation as security for the proposed loan, but the Corporation has not documented its willingness to pledge this asset to the bank. With respect to Strafford's estimated cost, petitioner contends that the applicant has not budgeted funds to pay its grant fee and further submits that the $31,420 allocated by its opponent for salaries is unreasonable on its face for a proposed staff of nine persons.

10. Strafford in opposition contends that it now has available from its bank loan sufficient funds to meet its proposed expenses and offers, in support of its contention, a letter from its bank to Marcia L. Nescot stating that the balance on her mortgage as of December 2, 1975, was $16,798.63.[10] Strafford also submits a letter dated November 24, 1975, from Ms. Nescot to the bank stating that the real estate owned by Strafford may be used as security for the proposed $100,000 loan. As for its estimated expenses, Strafford maintains that it has allocated $1,450.00 for miscellaneous expenses including its grant fee and asserts that its salary estimates are entirely reasonable in light of the fact that only six employees—three full-time and three part-time—will be paid by the proposed FM station.[11]

11. In the Board's opinion, Strafford has effectively resolved all of petitioner's allegations. Thus, with regard to the proposed $100,000 bank loan, the commitment letters included in the Strafford application clearly indicate that the balance of the outstanding mortgage is constantly declining [12] and we cannot, under these circumstances, hold the applicant to a figure which is outdated. Rather, we believe it more realistic to view Strafford's financial position in terms of present conditions and as the applicant has established in its opposition pleading, the balance of its mortgage has now been reduced to a point where its loan will produce adequate funds. As for Strafford's failure to document the availability of real estate to secure the loan, the letter from Ms. Nescot to the bank permitting such an arrangement cures this defect in the applicant's financial showing, thereby resolving the problem raised by Sherwood in its petition.[13] Sherwood's contention that its opponent has failed to allocate funds for a grant fee appears to be erroneous, and its bare assertion that Strafford's proposed salary allocations are inadequate is not supported by any specific allegation of fact controverting Strafford's justification for its estimate. Cf. Radio Geneva, Inc., 42 FCC 2d 254, 27 RR 2d 1680 (Rev. Bd. 1973). In short, we do not believe that Sherwood has raised a substantial question concerning its opponent's financial proposal and we will accordingly decline to add the requested issue.

BUSINESS PRACTICE ISSUE

12. Sherwood submits in support of its request for a business practice issue a copy of a rate card for Station WWNH [14] dated March 1, 1974, which describes the station as having 5,000 watts of power day and night and includes a coverage map depicting the station's 0.5, 1.0, and 5.0 mV/m contours. It is petitioner's contention that this rate card is deceptive in that it fails to indicate that Station WWNH's nighttime coverage area is smaller than its daytime coverage area and in that it utilizes a coverage map with contours that are significantly different than those found on the official map filed with the Commission. Citing Key Broadcasting Corporation, 50 FCC 2d 357, 32 RR 2d 445 (Rev. Bd. 1975); Athens Broadcasting Co., Inc., 27 FCC 2d 7, 20 RR 2d 1115 (Rev. Bd. 1971); and SENCland Broadcasting Systems, Inc., 26 FCC 2d 827, 20 RR 2d 926 (Rev. Bd. 1970); Sherwood maintains that further inquiry into Strafford's conduct is warranted.

13. In opposition, Strafford asserts that its rate card coverage map was based on a map depicting the actual contours of the station prepared by a professional engineer. Moreover, the applicant urges, the rate card in question was used for only a year and a half (from March 1, 1974 until October 1, 1975), was mailed out only on request, and was not widely circulated.[15] This careful and limited use of the rate card negates any inference of bad faith on its part, Strafford urges, making an issue against it unnecessary.

14. The Review Board will add the requested issue. A licensee of the Commission is required to deal candidly and truthfully with the public and the use of inaccurate coverage maps is not consistent with this requirement. See Gainesville Media, Inc., FCC 76R–167, 37 RR 2d 708 (Rev. Bd. 1976). Strafford in its opposition does not deny that it prepared and distributed a rate card with a coverage map differing substantially from the official map submitted to the Commission. Nor does it dispute petitioner's assertion that the difference between its daytime coverage area and its nighttime coverage area is not indicated on its rate card. Furthermore, we cannot accept Strafford's reliance upon a professional engineer's map, allegedly depicting its station's actual non-directional contours, absent any showing as to the manner in which it was prepared. Under these circumstances, we must conclude that Sherwood has raised a serious question as to Strafford's operation of Station WWNH which cannot be resolved solely on the basis of Strafford's claims of good faith and lack of intent to deceive. We will therefore authorize a further inquiry into this matter.

15. Accordingly, it is ordered, That the supplement and request for acceptance, filed April 30, 1976, by Strafford Broadcasting Corporation, IS GRANTED, and the supplement attached thereto IS ACCEPTED; and

16. It is further ordered, That the petition to enlarge issues, filed November 12, 1975, by J. Sherwood, Inc., IS GRANTED to the extent indicated herein and IS DENIED in all other respects; and

17. It is further ordered, That the issues in this proceeding ARE ENLARGED to include the following:

(a) To determine the efforts made by Strafford Broadcasting Corporation to ascertain the needs and interests of its proposed community of license in the following respects:

(1) whether Strafford's demographic data was compiled before the applicant conducted its community leader interviews; and

(2) whether Strafford adequately interviewed leaders of women's groups, of organized religion and of the community's French-Canadian population; and

(3) whether Strafford's survey of the general public included consultations with a random sample of members of the general public.

(b) To determine whether Strafford Broadcasting Corporation prepared and distributed an inaccurate coverage map for Station WWNH and, if so, to determine the effect thereof on its basic and/or comparative qualifications to be a Commission licensee.

18. It is further ordered, That the burden of proceeding with the introduction of evidence under issue (b) added herein SHALL BE upon J. Sherwood, Inc., that the burden of proceeding under issue (a) SHALL BE upon Strafford Broadcasting Corporation, and that the burden of

[9] Sherwood's calculations are based on figures taken from a November 6, 1974 letter from the Rochester Savings Bank and Trust Company to Marcia L. Nescot.

[10] Subtracting this figure plus $10,500 for interest payments from the $100,000 loan would leave Strafford with $72,701.37.

[11] Three persons who are currently employed by its Rochester AM station will work for the FM station, Strafford states, but their salaries will continue to be paid by the AM operation.

[12] Strafford's application contains a July 16, 1974 letter from the Rochester Savings Bank and Trust Company to Marcia L. Nescot listing the outstanding mortgage balance as approximately $23,000 and a November 6, 1974 letter listing the balance as approximately $21,750.

[13] Sherwood argues that the two letters included in Strafford's opposition pleading should be disregarded because they have not been formally added to the application by an appropriate amendment. We do not agree. The material submitted by Strafford does not substantively alter its financial showing but instead merely serves to clarify the existing proposal and to correct a technical defect in it. Cf. Edward G. Atsinger, III, 30 FCC 2d 493, 22 RR 2d 236 (Rev. Bd. 1971).

[14] Station WWNH is wholly owned by Strafford.

[15] In this regard petitioner provides station records indicating that only 43 rate cards were mailed out to the public.

V 41 1157 AUG 12 76 UMI

proof under both issues SHALL BE upon Strafford Broadcasting Corporation.

Adopted: August 3, 1976.

Released: August 10, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

FEDERAL ENERGY OFFICE

APPEALS AND APPLICATIONS FOR EXCEPTION

Issuance of Decisions and Orders

WEEK OF JULY 5 THROUGH JULY 9, 1976

Notice is hereby given that during the week of July 5 through July 9, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Office. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

PETITION FOR SPECIAL REDRESS

International Trading & Transport, Ltd.; St. Rose, La.; FSG–0016; Residual fuel oil

International Trading and Transport, Ltd. (IT&T) filed a Petition for Special Redress Relief in which it sought a determination that the FEA has no statutory or regulatory authority to regulate the fees charged by a broker of covered products. IT&T also requested that the FEA issue a further order directing members of its compliance staff to cease investigating the prices which it had charged for covered products. In considering the Petition for Special Redress, the FEA found that although IT&T characterized its business dealings as brokerage activities, the FEA regulatory program does not involve the use of the term "broker." The FEA regulatory program focuses instead on sales transactions and establishes price controls over the prices which "resellers" charge for the covered products which they sell. The FEA noted that in arriving at a conclusion as to which, if any, of the activities of a firm are governed by the FEA Mandatory Petroleum Price Regulations, it is necessary to first arrive at a determination as to whether the firm's activities involve covered products. A further determination must then be made whether, with respect to a particular transaction, the activities in which the firm engages involve the purchase and resale of covered products without substantially changing their form. The FEA further found that title to covered products in its own name or as an agent for an undisclosed principal, or can be deemed to have taken title in its own name, and then resells those products, IT&T falls within the scope of the reseller definition specified in Section 212.31 irrespective of the characterization placed on those activities by IT&T. The FEA also noted that in other situations the independence with which IT&T acts and the extent to which it is responsible for such matters as the loss or impairment of the goods which are in its custody, the extent to which it takes custody of the goods, and whether there is a specified brokerage commission involved in the transaction are important factors in arriving at a determination as to whether a firm is a reseller with respect to a particular transaction.

The FEA stated that the ultimate determination of whether a firm is a reseller in a particular transaction is a factual determination which must be made on a case-by-case analysis. In considering whether to direct the auditors to cease their investigation of IT&T, the FEA held that the special redress relief which IT&T seeks might be appropriate where a firm which is under investigation by the FEA compliance staff is facing significant difficulties in comparison to its resources in complying with the requirements of the investigation, where substantial legal questions exist as to whether the firm is subject to the jurisdiction of the FEA, and where the factual nature of the firm's transactions are sufficiently clear to permit an immediate determination of the legal issues involved. However the FEA found that IT&T had failed to satisfy these criteria. The present IT&T Petition for Special Redress was therefore dismissed without prejudice to any further submission which the firm might wish to file in view of the principles set forth in the Decision and Order.

REQUESTS FOR EXCEPTION

Commonwealth Oil Refining Co., Inc.; Washington, D.C.; FEE–2358; *Refined Petroleum Products*

The Commonwealth Oil Refining Company, Inc. (Corco) filed an Application for Exception from the provisions of 10 CFR 212.83(h). The exception request, if granted, would permit Corco to allocate the increased costs which it incurs as a result of a tax on imports levied by the Commonwealth of Puerto Rico exclusively to the prices of refined petroleum products which the firm sells in Puerto Rico. In its Application, Corco contended that the intended effect of the Puerto Rican tax on imports is to levy a tax only on Puerto Rican consumption of petroleum products. In support of that contention, Corco pointed out that the Commonwealth of Puerto Rico provides a credit for taxes paid on crude oil or petroleum products which are subsequently exported from the island to the United States mainland or other markets. Corco claimed that this policy objective is being frustrated by the application to it of 10 CFR 212.83(h), which requires the cost to Corco of the Puerto Rican tax on imports to be applied equally to all of the firm's sales of covered petroleum products, i.e., to sales made in the continental United States as well as to sales made in Puerto Rico. In considering the Corco Application, the FEA concluded that the tax on imports was, by its own terms, designed to apply only to crude oil and petroleum products which were imported into and consumed in Puerto Rico, and therefore there would be no purpose served in preventing Corco from recouping the entire amount of the Puerto Rican tax on imports in the prices of the products which it sells in Puerto Rico. Accordingly, the FEA found that the application of the provisions of Section 212.83 to Corco under these circumstances resulted in a gross inequity and exception relief was granted to the firm. In its exception application, Corco also requested that exception relief be approved retroactive to December 22, 1975, the date on which a complementary federal supplemental import fee was removed. The FEA noted that in order to sustain a request for retroactive exception relief a firm must make a showing of severe and irreparable injury. After analyzing the facts presented in the case, the FEA held that Corco failed to make the requisite showing since it could certainly have protected its interests by filing a timely Application for Exception. Therefore, although prospective exception relief from the application of Section 212.83 (h) was approved, Corco's request for retroactive exception relief was denied.

Irving Oil Corporation; Bangor, Maine; FPI–0095; Residual Fuel Oil

Irving Oil Corporation (Irving) filed an Application for Exception from the provisions of 10 CFR 213.35(c) which, if granted, would result in the issuance of an Order by the FEA authorizing the firm to import 3,500,000 barrels of residual fuel oil into PAD District I on a fee-exempt basis during the current allocation period. In its Application for Exception, Irving stated that if it is required to pay import fees on the residual fuel oil which it imports during the present allocation period, it will incur a serious financial hardship which will threaten its economic viability. In the Decision which it issued, the FEA noted that Subpart D of 10 CFR, Part 205, has recently been amended to include new guidelines applicable to the determination of requests for exception filed under Part 213. After considering Irving's request in light of those guidelines, the FEA found that payment of of the fee would place the firm at a significant disadvantage in the New England residual fuel oil market. The FEA also found that Irving's attempts to secure domestic supplies of residual fuel oil at competitive prices have been largely unsuccessful, and the firm will probably have to continue to rely primarily on imported products. In addition, the data which Irving submitted indicated that in the absence of exception relief the firm will incur a substantial operating loss in its fiscal year ending December 31, 1976. Based on these considerations, the FEA concluded that exception relief should be granted. However, the FEA also determined that the specific relief which the firm requested was in excess of its actual requirements. The FEA therefore ordered that Irving be permitted to import and additional 3,275,000 barrels on a fee-exempt basis during the current allocation period.

Kalama Chemical, Inc.; Kalama, Wash.; FPI–0091; Unfinished Toluene

Kalama Chemical, Inc. filed an Application for Exception from the provisions of 10 CFR 213.35(c) which, if granted, would permit it to import 360,000 barrels of unfinished toluene into PAD District V on a license fee-exempt basis during the current allocation period. In considering Kalama's exception request, the FEA determined that the firm cannot obtain adequate supplies of domestic toluene because of high land transportation costs and unavailability of coastal tanker space. The FEA also found that Kalama is the only U.S. manufacturer of phenol which uses toluene rather than benzene or cumene as a petrochemical feedstock. Since benzene and cumene may be imported on a fee-free basis while toluene may not, the FEA concluded that the requirement that Kalama pay import fees under these conditions places the firm at a competitive disadvantage and results in an unfair distribution of the regulatory burdens which are imposed on Kalama and similarly situated firms. Accordingly, exception relief was approved for the current allocation period. However, the quantity of toluene for which Kalama requested exception relief was reduced by the amount of toluene which it stated it could obtain domestically in the current period and by the amount of fee-exempt licenses it had already received for that period.

M. J. Mitchell; Dallas, Tex.; FEE–2460; Crude Oil

M. J. Mitchell (Mitchell) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which if granted, would permit Mitchell to sell crude oil produced from the Mitchell State Minnelusa Sand Unit in Campbell County, Wyoming at upper-tier ceiling prices. In considering Mitchell's application, the FEA found that the costs of producing crude oil from the Unit have increased to the point where Mitchell's production costs now exceed the revenues which he is able to obtain by selling crude oil at lower-tier ceiling price levels. In view of these circumstances, the FEA concluded that Mitchell currently lacks an economic incentive to continue to operate the Sand Unit. In accordance with previous precedents, exception relief was approved which permits Mitchell to sell 40.7786 percent of the crude oil produced for the benefit of the working interest owners of the Unit at upper-tier ceiling prices.

Shell Oil Co.; Houston, Tex.; FEE–2539 (Conley); FEE–2540 (Halley); FEE–2542 (Lirette); FEE–2543 (O'Keene); Natural Gas Liquids

Shell Oil Company (Shell) filed Applications for Exception from the provisions of 10 CFR 212.165, which, if granted, would permit the firm to increase the prices which it charges for natural gas liquids and natural gas liquid products at its Conley, Halley, Lirette and O'Kenne gas processing plants. In considering these applications, the FEA noted that, as a general rule, exception relief will be granted to any gas processing plant which can demonstrate that the nonproduct costs which it has experienced since May 1973 have increased materially in excess of the $.005 per gallon pass through permitted under Section 212.165. See Superior Oil Co., 2 FEA Par. 80,271 (August 29, 1975). The FEA found that Shell had made such a showing with respect to its Conley, Halley, Lirette and O'Keene plants and granted the firm exception relief for those plants for the period July 8, 1976 through September 30, 1976.

Sun Oil Co.; Dallas, Tex.; FEE–2502 (Burnell); FEE–2503 (Carney); FEE–2504 (Concho); FEE–2505 (Cowder); FEE–2506 (Heyser); FEE–2507 (Luby); FEE–2508 (Markham); FEE–5209 (Maurice); FEE–2510 (Peoria); FEE–2511 (Robstown); FEE–2512 (Steedman); FEE–2513 (Qonkawa); FEE–2514 (Mermentau); FEE–2515 (Spivey); FEE–2516 (Canales); FEE–2517 (Delhi); FEE–2518 (Dragon Trail); FEE–2519 (Halley); FEE–2520 (Jameson); FEE–2521 (Mayfield); Natural Gas Liquids

Sun Oil Company (Sun) filed 20 Applications in which it requested that the exception relief granted to the firm by the FEA on February 13, 1976, March 12, 1976 and March 31, 1976 be extended for additional periods of time. Sun Oil Co., 3 FEA Par. 83,102 (February 13, 1976); Sun Oil Co., 3 FEA Par. 83,129 (March 12, 1976); and Sun Oil Co., 3 FEA Par. 83,153 (March 31, 1976). In the previous Decisions, the FEA determined that Sun would experience a gross inequity as a result of the application to it of the provisions of 10 CFR, Part 212, Subpart K and granted exception relief to the firm which permitted it to increase the non-product costs which it calculates pursuant to Section 212.165 for the natural gas liquids and natural gas liquid products produced at 20 of its gas processing plants from the date of issue of the Decision and Order through June 30, 1976. In considering Sun's present submissions, the FEA determined that the firm continued to incur non-product cost increases in the first quarter of 1976 at 14 of the 20 plants which substantially exceed the $.005 per gallon pass-through permitted under the provisions of Section 212.165. Based upon the criteria set forth in Superior Oil Co., 2 FEA Par. 83,271 (August 29, 1975), the FEA determined that continued exception relief for the Burnell, Carney, Concho, Cowden, Heyser, Maurice, Peoria, Robstown, Steedman, Tonkawa, Mermentau, Canales, Dragon Trail and Mayfield plants is warranted. The FEA therefore granted the exception applications with respect to those 14 plants for the period July 1, 1976 through September 30, 1976. However, the FEA denied exception relief for the Luby, Markham, Spivey, Delhi, Halley, and Jameson plants on the grounds that the adjusted non-product unit cost increases experienced at those plants amounted to less than $.005 per gallon and were therefore not material for the purposes of exceptions analyses under the standards established in previous FEA Decisions.

REQUEST FOR STAY

Boston Gas Co., Washington, D.C., FES–0867; *Propane*

The Boston Gas Company (Boston Gas) requested that the provisions of a Decision and Order issued to the firm on May 27, 1976 by the FEA be stayed pending final FEA action on its Appeal of that Order, a Request for Interpretation which Boston Gas filed with the FEA Office of General Counsel and an Application for Assignment of synthetic natural gas (SNG) feedstocks which the firm stated that it intends to file pursuant to the provisions of 10 CFR 211.29. See Boston Gas Company, 3 FEA Par. 87,026 (May 27, 1976). In the May 27 Order the FEA rescinded an exception which had previously been granted to the firm by FEO Region I on March 8, 1974. Under the terms of the March 8, 1974 exception decision, Boston Gas had been permitted to use propane as a feedstock for an SNG plant which it operates in Everett, Massachusetts. In the May 27, 1976 Decision and Order, the FEA concluded that allocations to the Boston Gas SNG facility should be governed by the comprehensive regulatory program set forth in Section 211.29 which the FEA adopted subsequent to the date on which the original exception decision was issued. However, in order to avoid any disruption in the operation of the Boston Gas SNG plant and to afford the firm a full opportunity to pursue its administrative remedies under Section 211.29, the decision to rescind the exception was made effective as of January 1, 1977. In considering Boston Gas' request for a stay of the May 27 Order, the FEA found that Boston Gas failed to demonstrate that any irreparable injury or serious hardship would result to the firm or its customers in the absence of a stay since there are nearly six months remaining prior to the effective date on which the March 8, 1974 exception decision would be rescinded. The FEA also concluded that Boston Gas had failed to make a prima facie showing that it would prevail on the merits of its Appeal. The Application for Stay was therefore denied.

Terible Herbst Oil Co., Inc.; Las Vegas, Nev.; FES–2635; *Motor Gasoline*

Terible Herbst Oil Company, Inc. (Herbst) requested that the provisions of 10 CFR 211.9 be stayed and the firm be immediately assigned a new supplier of motor gasoline to replace the Fletcher Oil and Refining Company (Fletcher) pending a final determination on an Application for Exception which Herbst submitted. In considering the Application for Stay the FEA determined that Herbst's contention that it would experience an irreparable injury if a stay were denied was unsupported by the record in the proceeding. In making this determination, the FEA found that the financial data provided for Herbst and its affiliate, Herbst Supply, indicated that both companies are maintaining profitable operations and that Herbst had failed to provide any documentation to support its claim that it would be compelled to close a number of retail gasoline stations unless a stay were granted. In addition, the FEA determined that Herbst had failed to substantiate its allegation that a denial of the stay would result in a more immediate hardship to it than to Fletcher while the data provided by Fletcher in opposition to the Herbst request indicated that approval of the stay could produce a severe disruption in Fletcher's business activities. Finally, the FEA determined that the competitive price data which Herbst provided in support of its application indicated that Fletcher's prices for gasoline are no greater than the prices which certain of Herbst's competitors pay for gasoline and consequently, Herbst had failed to make a prima facie showing that it would prevail on the merts of its exception application. The Application for Stay was therefore denied.

SUPPLEMENTAL ORDER

General Crude Oil Co.; Houston, Tex.; FES–0042; *Crude oil*

On May 29, 1976 the FEA issued a Remedial Order to General Crude Oil Company (General Crude). In the Remedial Order the Deputy Assistant Administrator for Compliance of the FEA found that from December 1, 1973 until the present time General Crude had been unlawfully pricing certain crude oil which it produced and sold to Armour Oil Company (Armour). According to the Remedial Order General Crude had been calculating price of the product as if it were residual fuel oil rather than crude oil. On the basis of the findings made General Crude was ordered to immediately reduce its selling prices to lawful levels, Make refunds to Armour for overcharges for the period December 1, 1973 through June 30, 1975, and recalculate its selling prices for the period July 1, 1975 to the present time. General Crude was also directed to refund all overcharges which it made to Armour during the latter period.

On June 29, 1975 the FEA stayed those provisions of the Remedial Order which required General Crude to make immediate refunds for past overcharges. The approval of the stay was however conditioned upon General Crude placing the funds involved in an escrow account pending a final determination on its Appeal of the Remedial Order. At the same time the FEA declined to stay the provisions of the Remedial Order which directed General Crude to immediately reduce the prices which it charges to Armour to lawful levels. On June 29, 1976 General Crude requested that the FEA issue a Supplemental Order staying any requirement that General Crude immediately reduce the prices of the product which it sells to Armour. In considering General Crude's request, the FEA rejected the firm's argument that a fixed price contract which exists between General Crude and Armour would prevent it from recovering the revenues involved through future price adjustments. The FEA noted that General Crude had filed an Application for Exception requesting that it be permitted to increase its selling prices by almost 100 percent over the same contractual price which it represented would not be increased in its Application for Stay. The FEA further noted however that since residual fuel oil has been decontrolled effective June 1, 1976 the firm might not be able to ever recover the revenues which it would otherwise have received if it prevails on the merits of its Appeal.

V 41 157 AUG 12 76 UMI

In order to prevent the occurrence of that type of potential injury the FEA granted the request for further stay subject to the condition that General Crude place the funds involved into the escrow account which it is required to establish under the terms of the June 25, 1976 Order.

DISMISSALS

The following submission was dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Babcock & Wilcox; New York, N.Y.; FEE–2581

The following submissions were dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Pennsylvania Petroleum Corp.; South Norwalk, Conn.; FEE–2566
Petroleum Corp.; of Texas; Brockenridge, Tex.; FEE–2573

The following submissions were dismissed on the grounds that the requests are now moot:

Cleveland Illuminating Co.; Cleveland, Ohio; FEE–2695
Intercoastal Marine Supplies; Washington, D.C.; FST–0008

TEMPORARY STAY

The following Application for Temporary Stay was denied on the grounds that the applicant had failed to make a compelling showing that temporary stay relief was necessary to prevent an irreparable injury:

Arizona Fuels Corp.; Washington, D.C.; FST–0009

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays. They are also available in "Energy Management; Federal Energy Guidelines", a commercially published loose leaf reporter system.

MICHAEL F. BUTLER,
General Counsel.

TIME OIL CO.

Consent Order

I. INTRODUCTION

Pursuant to 10 CFR 205.197(c), the Federal Energy Office (FEO) hereby gives notice of a Consent Order which, on July 12, 1976, was executed between Time Oil Company (Time) and FEO's predecessor agency, the Federal Energy Administration (FEA). In accordance with that section, FEO will receive comments with respect to this Consent Order. Although this Consent Order has been signed and tentatively accepted by FEA/FEO, it may, after consideration of comments received, withdraw its acceptance of the Consent Order and, if appropriate, attempt to negotiate an alternative order.

II. THE CONSENT ORDER

Time Oil Company, located at 2737 West Commodore Way, Seattle, Washington 98199, is a firm engaged in the refining and marketing of petroleum products.

As the result of an audit conducted by FEA of the calculations required to be made by Time under FEA price regulations, FEA advised Time that Time had erroneously calculated its May 15, 1973 product costs and increased product costs during various months of measurement for gasoline and distillates. The erroneous costs calculations resulted from Time's failure to include or exclude certain purchases, exchange transactions, and transportation costs; from the use of erroneous cost data input information; and from a programming error in its data processing program.

In resolution of the issues raised by the audit results, the FEA and Time executed a Consent Order on July 12, 1976, the significant terms of which provide, in part, that Time has corrected its "banks" of improper or overstated increased product costs by deducting the following sums from its available costs carried forward on its Forms FEO–96:

(a) $7,368,317 from gasoline carryover costs on its July 1975 Form FEO–96;

(b) $108,961 from gasoline carryover costs and $36,321 from distillate carryover costs on its September 1975 Form FEO–96;

(c) $357,040 from gasoline carryover costs and $12,195 from distillate carryover costs on its November 1975 Form FEO–96;

The provisions of 10 CFR 205.197, including the publication of this notice, are applicable to the Consent Order.

Actions already taken by Time in correcting its reported amounts of increased product costs are subject to modification if the FEA/FEO determines that such modification is necessary after the receipt of public comments.

III. SUBMISSION OF WRITTEN COMMENTS

Interested persons are invited to comment on this Consent Order by submitting such comments in writing to: Jack B. Robertson, Regional Administrator, 1923 Federal Building, 915 Second Avenue, Seattle, Washington 98174, Attention: John Kent, Regional Counsel. Copies of this Consent Order may be received free of charge by written request to this same address or by telephoning (206) 422–7295.

Comments should be identified on the outside of the envelope and on documents submitted with the designation "Comments on Time Consent Order." All comments received by 5 p.m., p.d.t. on the 30th calendar day following publication of this Notice will be considered by the FEA/FEO in evaluating the Consent Order.

Any information or data which, in the opinion of the person furnishing it, is confidential must be identified as such and submitted in accordance with the procedures outlined in 10 CFR 205.9(f).

Issued in Washington, D.C., August 6, 1976.

MICHAEL F. BUTLER,
General Counsel.

[FR Doc.76–23480 Filed 8–9–76;12:24 pm]

VOLUNTARY AGREEMENT AND PLAN OF ACTION TO IMPLEMENT THE INTERNATIONAL ENERGY PROGRAM

Proposed Amendments and Request for Comment

The Federal Energy Office hereby gives notice of its recommendation to the Attorney General for his approval of two amendments to the Voluntary Agreement and Plan of Action to Implement the International Energy Program. FEO is seeking public comment on these proposed amendments pursuant to the procedures set out below.

The first proposed amendment provides that during an IEA allocation systems test participants may consult and advise with the IEA Secretariat, US Government, or other entities whether or not such consultation takes place in a meeting. To the extent that such actions are not in a meeting they are subject to FEO regulations governing "communications." See 10 CFR 209.34(b). This change is necessary to permit an effective test of the IEA emergency allocation system since as part of this test it will be necessary at times for members of the Industry Supply Advisory Group (ISAG) to consult among themselves and with other IEA reporting companies outside of actual sessions of the ISAG.

The second proposed change would amend the last sentence of section 5(b)(1) to make clear that it only applies to written information. Any provision or exchange of confidential or proprietary information, whether or not written, would still have to be approved by the Administrator and the Attorney General, and such exchanges may be conditioned as the Administrator or the Attorney General deems appropriate in light of the specific circumstances. The amendment would also change the Agreement to provide that such information would be provided only upon request to the Administrator, Attorney General, and Federal Trade Commission. FEO expects to continue generally the present practice of requiring that all written material be submitted to the Administrator, but the change would provide some greater flexibility for the Administrator and Attorney General in dealing with the exchange of data and information during an allocation systems test.

These amendments as proposed have been forwarded for approval to the Attorney General and for comment to the Federal Trade Commission and the Department of State pursuant to section 9(a) and 11(b) of the Voluntary Agreement. After receiving public comment FEO will forward to the same agencies any changes in the proposed amendments which FEO believes appropriate as well as copies of any public comment.

The Attorney General must approve the amendments pursuant to section section 252(d) of the Energy Policy and Conservation Act (Pub. Law 94–163, Dec. 22, 1975) and sections 9(a) and 11(b) of the Voluntary Agreement. The amendments will become effective upon approval by the Administrator and the Attorney General, but in no case sooner than twenty days after submission to the Attorney General. Notice of such approvals and the effectiveness of the amendments will be published in the FEDERAL REGISTER. By agreement with the Department of Justice, this notice shall constitute on behalf of the Attorney General the notice provided for in section 11(b) of the Voluntary Agreement.

Interested persons are invited to submit written data, views, or arguments with respect to these amendments to Executive Communications, Room 3309, Federal Energy Office, Box II, The Federal Building, Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on the documents submitted to the Federal Energy Office with the designation "Voluntary Agreement—Amendments." Fifteen (15) copies should be submitted. All comments received by 4:30 p.m., September 1, 1976 will be considered by the Federal Energy Office in evaluating the amendments.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEO reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

In consideration of the foregoing, it is proposed that the Voluntary Agreement and Plan of Action to implement the International Energy Program be amended as set out below. For reference, the full text of the Voluntary Agreement is set out at 41 F.R. 13998 (April 1, 1976), subject to the amendments published at 41 F.R. 24772 (June 18, 1976).

Issued in Washington, D.C., August 6, 1976.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Office.

1. The first sentence of section 5(b)(1) is amended by inserting after the words "subsection 5(c)" the words "or, as necessary, during an IEA allocation systems test".

2. The fourth sentence of 5(b)(1) is amended to read:

Any written confidential or proprietary information or data furnished or exchanged pursuant to this section shall be retained by the participant furnishing such data and provided upon request to the Administrator, the Attorney General, and the Federal Trade Commission.

[FR Doc.76–23451 Filed 8–9–76;10:23 am]

FEDERAL MARITIME COMMISSION

PUERTO RICO MARITIME SHIPPING AUTHORITY AND PORT AUTHORITY OF NEW YORK AND NEW JERSEY

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 1, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Mr. Mario F. Escudero, Morgan, Lewis and Bockius, 1800 M Street NW., Washington, D.C. 20036.

Agreement No. T–3328, between Puerto Rico Maritime Shipping Authority (PRMSA) and Port Authority of New York and New Jersey (Port) provides for the 15-year lease (with options to renew) of premises located at the Elizabeth-Port Authority Marine Terminal in Elizabeth, New Jersey. The premises are to be used for the loading, unloading and handling of passengers, baggage and cargo moving on or from seagoing vessels. PRMSA has the right to berth vessels it operates or acts as general agent for and other vessels with the consent of the Port. PRMSA has the exclusive right to collect dockage and wharf usage charges from such secondary users. As compensation, PRMSA shall pay as basic rental $2,791,223.05 per annum plus 17 percent of 107.5 percent of the total sum reimbursed to PRMSA as set forth in section 39 of the Agreement. Agreement No. T–3328 will supersede Agreement No. T–3036, between PRMSA and Sea-Land Service, Inc., which provides for the sublease of the above-mentioned facilities.

Dated: August 6, 1976.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP72–110 (PGA76–9b)]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

AUGUST 5, 1976.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas"), on July 28, 1976, tendered for filing Second Substitute Seventeenth Revised Sheet No. 10 and Second Substitute Revised Seventeenth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

These sheets are being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate changes are being filed to reflect revised rates filed by its supplier, Texas Eastern Transmission Corporation, on July 20, 1976.

The proposed effective date of these tariff sheets are July 1, 1976, and July 2, 1976, respectively.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of his filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23481 Filed 8–11–76;8:45 am]

[Docket ER 76–819]

CENTRAL ILLINOIS LIGHT CO.

Rate Change

AUGUST 5, 1976.

Take notice that Central Illinois Light Company, on July 29, 1976 tendered for filing pursuant to Section 205 of the Federal Power Act and Part 35 of the Commission's regulations thereunder a change in rates for electric service rendered under the following rate schedules:

Rate Schedule FPC No. 17, applicable to the Village of Riverton, Ill.
Rate Schedule FPC No. 18, applicable to the Village of Chatham, Ill.
Rate Schedule FPC No. 19, applicable to the Corn Belt Electric Cooperative, Inc.

The proposed changes would increase revenues from jurisdictional sales and

V 41 157 AUG 12 76 UMI

service by $715,000 based on the 12-month period ending June 30, 1977.

The Company states that with the present rates it would earn a rate of return of only 2.07 percent on sales to the municipalities and 2.71 percent on sales to Corn Belt during the twelve months ended June 30, 1977. Continuing increases in costs of labor, capital and materials and supplies are expected to further reduce Company's earnings. Company states that the rate changes made by this filing are necessary to compensate for these increasing costs. The Company proposes the increased rates become effective after a five month suspension, on February 1, 1977.

Copies of the appropriate rate schedule changes and revenue comparisons were served upon Company's jurisdictional customers and the Illinois Commerce Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23482 Filed 8-11-76;8:45 am]

[Docket No. CP76-449]

COLUMBIA GULF TRANSMISSION CO.

Application

AUGUST 5, 1976.

Take notice that on July 20, 1976, Columbia Gulf Transmission Company (Applicant), 3805 West Alabama Avenue, Houston, 77027, filed in Docket No. CP76-449 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant requests authorization to abandon, in the Hollywood Field, Terrebonne Parish, Louisiana, its measuring station No. 585 and 0.85 mile of 6-inch supply line used to take gas for the account of Columbia Gas Transmission Corporation (Columbia) which was purchased from Texaco Inc. Applicant states that the wells connected to the facilities be abandoned are no longer capable of producing and that the reservoirs from which gas was produced are depleted. It is indicated that the gas purchase contract involved has been terminated by a cancellation agreement, dated February 28, 1975, executed by Columbia and Texaco Inc.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commisison on this application if no petition to intervene is filed within the time required herein, if the Commssion on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commisison on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23484 Filed 8-11-76;8:45 am]

[Docket No. CP76-450]

COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GULF TRANSMISSION CO.

Application

AUGUST 5, 1976.

Take notice that on July 20, 1976, Columbia Gas Transmission Corporation (Columbia Transmission), P.O. Box 1273, Charleston, West Virginia 25325, and Columbia Gulf Transmission Company (Columbia Gulf), 3805 West Alabama Avenue, Houston, Texas 77027, filed in Docket No. CP76-450 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Cabot Corporation by means of existing facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Columbia Gulf would receive from Cabot up to 1,000 Mcf of gas per day at an existing interconnection in Block 285, Eugene Island Area, offshore Louisiana, and transport such gas to Columbia Transmission for Cabot's account at an existing interconnection in Boyd County, Kentucky. Columbia Gulf would charge 31.21 cents per Mcf of gas received for transportation and would retain 3.1 percent of the gas for company-use and unaccounted-for gas.

The application states further that Columbia Transmission would transport up to 1,000 Mcf of gas per day received in Boyd County, Kentucky, for Cabot's account for delivery to Cabot at an existing point of delivery at Columbia Transmission's Lanham compressor station in Kanawha County, West Virginia. Columbia Transmission would charge 21.99 cents per Mcf of gas received for transportation and would retain 3.6 percent of the gas for company-use and unaccounted-for gas.

It is stated that the gas which would be transported would be a daily volume equal to 25 percent of the gas which would be attributable to Cabot's unit interest in daily gas production from the Eugene Island Block 273 Field Unit, but no more than 1,000 Mcf of gas per day. The gas volumes to be transported are said to be those retained pursuant to the gas sales agreement between Cabot and Michigan Wisconsin Pipe Line Company, on file as Cabot's FPC Gas Rate Schedule No. 102.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23483 Filed 8-11-76;8:45 am]

[Docket No. ER76-806]

HARTFORD ELECTRIC LIGHT CO.

Filing of Purchase Agreement

AUGUST 5, 1976.

Take notice that on July 23, 1976, The Hartford Electric Light Company (HELCO) tendered for filing a proposed Purchase Agreement with Respect to Middletown Station, dated June 1, 1976 between (1) HELCO and (2) Westfield Gas and Electric Department (Westfield).

HELCO states that the Purchase Agreement provides for a sale to Westfield of a specified percentage of capacity and energy from four oil-fired steam generating units (Middletown Unit Nos. 1, 2, 3 and 4) during the period from June 1, 1976 to October 31, 1979, together with related transmission service.

Westfield's request to receive service under the Purchase Agreement is conditioned upon the Commission's permitting to become effective the following two contracts which have recently been entered into.

1. Resale Service Rate CD-1, Service Agreement between Western Massachusetts Electric Company and City of Westfield, Massachusetts (the "CD-1 Rate") dated as of June 1, 1976.

2. Purchase Agreement with Respect to Various Gas Turbines (the "Unit Contract") dated as of May 15, 1976 by and among The Connecticut Light and Power Company, The Hartford Electric Light Company and Western Massachusetts Electric Company and Westfield Gas and Electric Department.

HELCO states that the capacity charge rate for the proposed service is a rate determined on a cost-of-service basis. The monthly transmission charge is equal to one-twelfth of the annual average unit cost of transmission service on the Northeast Utilities (NU) system demined in accordance with section 13.9 of the New England Power Pool (NE POOL) Agreement and the uniform rules adopted by the NEPOOL Executive Committee, multiplied by the number of kilowatts of winter capability which Westfield is entitled to receive. The energy charge is based on Westfield's portion of the applicable fuel expenses and no special cost-of-service studies were made to derive this charge.

HELCO states that copies of this rate schedule have been mailed or delivered to HELCO, Hartford, Connecticut and Westfield, Westfield, Massachusetts.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23485 Filed 8-11-76;8:45 am]

[Docket No. CP74-157]

MICHIGAN WISCONSIN PIPE LINE CO.

Motion To Amend

AUGUST 5, 1976.

Take notice that on July 12, 1976, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP74-157 a motion to amend further the Commission's order, issued September 6, 1974, in said docket, as amended, pursuant to section 7(c) of the Natural Gas Act by authorizing a change in natural gas service for Wisconsin Fuel and Light Company (Wisconsin Fuel) and Wisconsin Public Service Corporation (Wisconsin Public), all as more fully set forth in the motion which is on file with the Commission and open to public inspection.

The motion indicates that Wisconsin Fuel and Wisconsin Public presently receive some natural gas service from Michigan Wisconsin under the latter's Rate Schedule LVS-1 in addition to service for the large majority of their requirements under conventional two-part Rate Schedules ACQ-1 and ACQ-2. It is said that the service agreement between Michigan Wisconsin and Wisconsin Fuel for service under Rate Schedule LVS-1 provides for a maximum daily quantity (MDQ) of 6,000 Mcf, of which 3,600 Mcf are firm (40 percent of the MDQ under Rate Schedule LVS-1 is subject to curtailment), and a maximum annual volume limitation of 1,812,145 Mcf and that the service agreement between Michigan Wisconsin and Wisconsin Public for service under Rate Schedule LVS-1 provides for an MDQ of 13,250 Mcf, of which 7,950 Mcf are firm, and a maximum annual volume limitation of 2,985,331 Mcf.

Michigan Wisconsin asserts that in order to achieve increased marketing flexibility, as well as a decrease in their overall cost of gas, Wisconsin Fuel and Wisconsin Public have requested Michigan Wisconsin to agree to and to obtain authorization to change the firm portion of the MDQ and the annual volume contracted for under the LVS service agreement from such service to service under Rate Schedule ACQ-1 (this also necessitates a change of some part of the service received under Rate Schedule ACQ-2 to Rate Schedule ACQ-1).

It is indicated that Wisconsin Fuel's and Wisconsin Public's present LVS and ACQ service and the proposed service are as follows:

Company	Rate schedule	Maximum daily quantity (1,000 ft³)	Maximum annual quantity (1,000 ft³)
Presently effective service agreements:			
Wisconsin Fuel	ACQ-1	30,508	5,369,408
	ACQ-2	27,492	3,051,612
	LVS-1	6,000	1,812,145
Total		64,000	10,233,165
Wisconsin Public	ACQ-1	264,768	46,599,168
	ACQ-2	48,232	5,353,752
	LVS-1	13,250	2,985,331
Total		326,250	54,938,251
Proposed service agreements:			
Wisconsin Fuel	ACQ-1	52,240	9,194,240
	ACQ-2	9,360	1,038,960
Total		61,600	10,233,200
Wisconsin Public	ACQ-1	297,121	52,293,296
	ACQ-2	23,829	2,645,019
Total		320,950	54,938,315

Michigan Wisconsin submits that in view of the fact that the revised service agreements would not result in any increase in peak day or annual entitlement, it has consented to the changes in service and requests that the order of September 6, 1974, in the instant docket be amended by authorizing MDQ of 52,240 Mcf and 9,360 Mcf under Rate Schedules ACQ-1 and ACQ-2, respectively, for Wisconsin Fuel and MDQ of 297,121 Mcf and 23,829 Mcf under Rate Schedules ACQ-1 and ACQ-2, respectively, for Wisconsin Public, all commencing September 1, 1976.

Any person desiring to be heard or to make any protest with reference to said motion should on or before August 27, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23486 Filed 8-11-76;8:45 am]

[Docket No. CP76-440]

NATIONAL FUEL GAS SUPPLY CORP.

Application

AUGUST 5, 1976.

Take notice that on July 15, 1976, National Fuel Gas Supply Corporation (Ap-

V 41 157 AUG 12 76 UMI

plicant), 308 Seneca Street, Oil City, Pennsylvania 16301, filed in Docket No. CP76-440 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to render a transportation service of up to a maximum daily volume of 8,000 Mcf of gas in the State of New York, on a best efforts basis through the use of existing and underutilized facilities, for its principal customer and affiliate, National Fuel Gas Distribution Corporation (Distribution), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The gas to be transported (local purchase gas) is proposed to be purchased by Distribution from independent producers in the producing areas of Cattaraugus, Chautauqua, Wyoming, Allegany, Genessee and/or Erie Counties, New York, and it is indicated that these volumes cannot be transported to market by Distribution due to lack of pipeline capacity in the producing area. Applicant proposes to charge Distribution a transportation rate of 1.0 cent per Mcf, and the service is proposed for an initial term of 10 years.

Applicant states that the proposed service is in the public interest since it would obviate the construction by Distribution of duplicative facilities and reduce curtailments on Distribution's system.

Any person desiring to be heard or to make any protest with reference to said application should on or before Aug. 23, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-9136; E-9140; ER76-301, etc.]

NEW ENGLAND POWER CO.

Filing of Revised Tariff Sheets

AUGUST 5, 1976.

Take notice that on July 27, 1976, the New England Power Company (NEPCO) tendered for filing revised tariff sheets in accordance with the terms of the settlement in the referenced proceeding approved by order of the Commission issued July 12, 1976. NEPCO states that the tariff sheets are in two parts relating to two separate periods during the effective period of Rate R-9: (1) June 1, 1975-August 1, 1975, and (2) August 2, 1975-February 29, 1976. The two part effective period was caused by the filing of NEP's revised fuel clause (in accordance with Order No. 517). The revised fuel clause was accepted for filing and made effective as of August 2, 1975.

NEPCO further states that it is also tendering for filing a tariff sheet revising NEP's currenlty effective tariff Rate R-10. The sole effect of this revision is to reduce the charge for delivery at subtransmission voltage from 46¢ to 5¢ per kw of demand. NEPCO requests waiver of notice requirements of Section 35.11 of the Commission's Regulations so that the tariff revisions may have an effective date of March 1, 1976. NEPCO states such retroactive effective date is necessary in order that the revision may coincide with the effective date of the R-10 tariff as was contemplated by the parties to the R-9 settlement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23488 Filed 8-11-76;8:45 am]

[Docket No. CP76-438]

NORTHERN NATURAL GAS CO.

Application

AUGUST 5, 1976.

Take notice that on July 12, 1976, Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-438 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to continue the operation of certain side valve facilities and to construct and operate certain pipeline and side valve facilities for the exchange of natural gas with Phillips Petroleum Company (Phillips), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it and Phillips, as parties to the Gray County Gas Exchange Agreement, exchange natural gas pursuant to the terms of Rate Schedule X-18 of Applicant's FPC Gas Tariff, Original Volume No. 2. Applicant further states that under the terms of an amendment to Gray County Gas Exchange Agreement, dated October 1, 1973, it is presently receiving natural gas from the Phillips King "E" No. 1 well through a 4-inch side valve on its gathering line in Ochiltree County, Texas, and that it has been advised by the Commission that an appropriate filing should be made to obtain certificate authorization to utilize such side valve for the receipt of exchange gas from Phillips under the exchange agreement. Accordingly, Applicant requests such authorization by the subject filing.

Additionally, Applicant also proposes to establish the following new exchange points to accommodate the delivery of exchange gas by Applicant to Phillips under amendments to the Gray County Gas Exchange Agreement:

(1) *Amendment of February 19, 1976:* Applicant would deliver to Phillips gas volumes produced by Custer No. 2 well located in Beaver County, Oklahoma and Phillips would operate Applicant's existing measuring facilities serving this low-pressure well and would provide connection on its gathering system for facilities to be constructed and operated by Applicant.

(2) *Amendment of March 1, 1976:* Applicant would deliver natural gas to Phillips from a point on Applicant's 30-inch main pipeline located in Moore County, Texas, to be known as the Donnelson Delivery Point, and Applicant has agreed to tap its pipeline to provide the point of connection with measuring facilities which would be constructed and operated by Phillips.

(3) *Amendment of May 12, 1976:* Applicant would deliver natural gas to Phillips produced from the King "C" No. 1-4JT well located in Lipscomb County, Texas, and Phillips would operate Applicant's existing measuring facilities serving this well and would provide connection on its low pressure gathering system for connection to facilties to be constructed by Applicant.

The application shows the estimated cost of the proposed facilities to be $4,680 which cost would be financed from cash on hand and from funds generated through operations.

Applicant asserts that the continued operation of the exchange point in Ochiltree County, Texas, as well as the establishment of the proposed exchange points would augment flexibility and balance in the operation of the currently authorized exchange.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-121 (PGA76-5)]

SOUTHWEST GAS CORP.

Filing of Tariff Sheet

AUGUST 5, 1976.

Take notice that on July 19, 1976, Southwest Gas Corporation (Southwest) tendered for filing Sixteenth Revised Sheet No. 3A, constituting Original PGA-1 in its FPC Gas Tariff, Original Volume No. 1. According to Southwest, the purpose of this filing is to increase the rates of Southwest under its Purchased Gas Adjustment Clause in Section 9 of its General Terms and Conditions contained in its FPC Volume No. 1.

Southwest states the instant notice of change in rates is occasioned solely by an increase in the cost of purchased gas which will become effective on September 10, 1976, applied to the volumes purchased for the twelve-month period ended May 31, 1976.

Southwest further states that copies of the filing have been mailed to the Nevada Public Service Commission, the California Public Utilities Commission, Sierra Pacific Power Company and the California-Pacific Utilities Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 21, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-453]

UNITED GAS PIPE LINE CO.

Application

AUGUST 5, 1976.

Take notice that on July 22, 1976, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76-453 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce for Mid Louisiana Gas Company (Mid Louisiana) from Erath, Vermilion Parish, Louisiana, to Scotlandville, East Baton Rouge Parish, Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Mid Louisiana has acquired the right to purchase 20 percent of the gas attributable to Exxon Corporation's 30 percent interest in the gas produced in Block 335, East Cameron area, offshore Louisiana, and that Sea Robin Pipeline Company would transport up to 10,000 Mcf of gas per day from this source to Applicant at Erath for the account of Mid Louisiana. Applicant proposes to receive up to 10,000 Mcf of gas per day for Mid Louisiana and to transport this gas for delivery to Mid Louisiana at Scotlandville where Applicant is said to have an existing interconnection with Mid Louisiana for the exchange of gas under Applicant's Rate Schedule X-24. It is stated that no new facilities will be required by Applicant to perform the proposed service.

The agreement between Applicant and Mid Louisiana provides for the delivery of gas by Applicant to Mid Louisiana at Scotlandville or at such other authorized point of interconnection as may be mutually agreeable. The agreement also provides for the delivery by Applicant to Mid Louisiana of 98.5 percent of the thermal equivalent of the gas received by Applicant for transportation, with the remainder to be regarded as gas used, lost, or unaccounted-for by Applicant. Imbalances in deliveries would be corrected, insofar as practicable, during the following month, the agreement provides. The agreement also provides that Applicant might transport in excess of 10,000 Mcf of gas per day if tendered by Mid Louisiana. Applicant proposes to charge Mid Louisiana a cost of service rate, initially provided to be 15.81 cents per Mcf of the gas delivered to Mid Louisiana.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 23, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23491 Filed 8-11-76;8:45 am]

[Docket No. CP61-79]

UNITED GAS PIPE LINE CO. AND TEXAS GAS TRANSMISSION CORP.

Petition To Amend

AUGUST 5, 1976.

Take notice that on July 19, 1976, United Gas Pipe Line Company (United), P.O. Box 1478, Houston, Texas 77001, and Texas Gas Transmission Corporation

V 41 157 AUG 12 76 UMI

(Texas Gas), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP 61-79 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act, by which petition Petitioners request authorization to exchange natural gas at an additional point, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Pursuant to the certificate issued in the instant docket Petitioners are authorized to exchange natural gas at various points. Petitioners now propose to add an additional point at an existing measuring station on Texas Gas' 8-inch pipeline in section 28, T. 7 S., R. 3 W., Jefferson Davis Parish, Louisiana, where gas would be received from Amerada Hess Corporation for the account of United. It is stated that Texas Gas would deliver equivalent volumes to United at mutually agreeable existing authorized points of exchange.

The petition states that the gas delivered to Texas Gas would be from production in the South Elton Field in Jefferson Davis Parish where Texas Gas has a pipeline and United does not. Thus, it is stated, United would be able to take additional volumes into its system without the construction of additional facilities to do so, by means of the instant exchange.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 25, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST HANOVER PARK CORPORATION

Formation of Bank Holding Co.

First Hanover Park Corporation, Chicago, Illinois, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company through acquisition of 80 per cent of the voting shares of First State Bank & Trust Co. of Hanover Park, Hanover Park, Illinois. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than September 2, 1976.

Board of Governors of the Federal Reserve System, August 4, 1976.

FOREIGN-TRADE ZONES BOARD

[Docket No. 7-76]

GEORGIA FOREIGN-TRADE ZONE, INC. ATLANTA, GEORGIA

Foreign-Trade Zone Application and Public Hearing

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the Georgia Foreign-Trade Zone, Inc. (a Georgia non-profit corporation), 1200 Commerce Building, Atlanta, Georgia, requesting a grant of authority for establishment of a foreign-trade zone within a 1,200-acre industrial park in Shenandoah, Coweta County, Georgia, which adjoins the Atlanta Customs Port of Entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81) and the regulations of the Board (15 CFR Part 400). It was formally filed on July 30, 1976. Under Act No. 21 (H.B. No. 15) State of Georgia, approved by the Governor February 23, 1965, the applicant is empowered to seek authority to establish, operate and maintain foreign-trade zones within the State of Georgia.

The proposal calls for a foreign-trade zone of 33 acres to be situated within a 1,200-acre industrial park in Shenandoah a New Town, under Title VII of the Housing Act of 1970, in Coweta County, Georgia, adjacent to the City of Newnan. The industrial park is owned by Shenandoah, Ltd., a Georgia limited partnership, which will operate the zone for Georgia Foreign-Trade Zone, Inc. Initially the operator will activate 5 acres of the zone area and construct a 50,000 square foot warehouse/assembly building. Additional facilities will be constructed as tenants require. The foreign-trade zone is designed to serve the growing international trade related activity in the area, and complement the other services and advantages being made available in the industrial park.

The application includes economic data and information concerning the need for zone services. Among the initial zone tenants and users are: two food processors, a manufacturer of bottling machinery, a manufacturer of institutional furniture, a building material importer, an importer/exporter of industrial machinery, an industrial chemical company, a firm which imports/exports cigarette lighters, an international freight forwarder, and a firm which assembles recreational vans. These firms would use the zone for storage, processing and light manufacturing.

In accordance with the Board's regulations an examiners committee has been appointed to investigate the application and report thereon to the Board. The committee consists of: David S. Williamson, Chairman, District Office Director, U.S. Department of Commerce, 1365 Peachtree Street, N.E., Atlanta, Georgia 30309; James R. Cahill, Director, Inspection and Control Division, Region IV, U.S. Customs Service, 7370 N.W. 36th Street, Miami, Florida 33166; and Colonel Charles L. Blalock, District Engineer, U.S. Army Engineer District, Mobile, P.O. Box 2288, Mobile, Alabama 36628.

In connection with its investigation of the proposal the examiners committee will hold a public hearing on September 22, 1976, beginning at 9 a.m., in Room 556, Federal Office Building, 275 Peachtree Street, Atlanta. The purpose of the hearing is to help inform interested persons about the proposal, to provide an opportunity for their expression of views, and to obtain information useful to the examiners committee.

Interested persons or their representatives will be given the opportunity to present their views at the hearing. Such persons should by September 10, notify the Board's Executive Secretary in writing at the address below of their desire to be heard. Instead of an oral presentation, written statements may be submitted to the examiners committee, care of the Executive Secretary, at any time from the date of this notice through October 25, 1976. A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

Office of the District Director, U.S. Department of Commerce, Suite 600, 1365 Peachtree Street, NE., Atlanta, Georgia 30309.
Office of the Executive Secretary, Foreign-Trade Zones Board, Room 6886B, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: August 6, 1976.

JOHN J. DA PONTE, JR.,
Executive Secretary,
Foreign-Trade Zones Board.

[FR Doc.76-23502 Filed 8-11-76;8:45 am]

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on August 5, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before August 30, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-376-5425.

FEDERAL COMMUNICATIONS COMMISSION

FCC requests an extension no change clearance of FCC Form 400, Application for Authorization in the Safety and Special Radio Services (Industrial, Land Transportation, Public Safety, and Citizens Class A). The Commission had adopted and prescribed in its Rules and Regulations (Sections 89.59(a), 91.56(a), and 93.56(a)) the use of this form. FCC Form 400 is required to be filed when applying for a new or modified radio station authorization (other than fixed point-to-point microwave stations) in the Public Safety, Industrial, and Land Transportation Radio Services. It is also required to be filed for new, modified, and renewed Citizens Class A authorizations in the Citizens Radio Service. FCC estimates respondent burden to average 4.3 hours per response. The FCC receives approximately 156,000 applications annually.

FCC requests an extension no change clearance of FCC Form 400-S, Supplemental Information for Trunked and Conventional Systems (806-821 MHz and 851-866 MHz Bands), required when making application for trunked or conventional systems of communications to operate in the 806-821 MHz and 851-866 MHz frequency bands in accordance with the provisions of Subpart S or Part 89 of the FCC Rules and Regulations. FCC Form 400-S will supplement FCC Form 400, Application for Radio Station Authorization in the Safety and Special Radio Services, in all cases except when the facility falls within the Chicago, Illinois, region in which case it will supplement FCC Form 425, Application for Radio Station Authorization. Respondent burden varies according to the size and complexity of the system. FCC estimates respondent burden to average 2 hours per response. The FCC estimates approximately 1500 supplemental forms will be filed during the coming year.

FCC requests an extension no change clearance of FCC Form 405-A, Application for Renewal of Radio License (Short Form). The Commission has adopted and prescribed in its Rules and Regulations (Sections 81.37, 83.36(a), 87.33, 89.59(g), 91.56(g), 93.56(f), and 99.11(d) the use of this form. FCC Form 405-A is required to be filed when applying for renewal of a station license when there has been no change (other than mailing address, name of vessel, or licensee's name) in the information shown on the station license being renewed or in the most recent full application for that license in the following classes of station licenses:

Part 81—Maritime (Land Stations) and Alaska—Public Fixed; Part 83—Maritime (a. Ship Stations which include Radiotelegraphy, b. Ship Radiotelephone Stations if required by Title III, Part II of the Communications Act, or Safety of Life At Sea Convention, c. Ship Radio-location Stations.); Part 87—Aviation (except Aircraft); Part 89—Public Safety; Part 91—Industrial; Part 93—Land Transportation; and Part 99—Disaster.

FCC estimates respondent burden to average 30 minutes per response. The FCC receives approximately 35,000 applications annually.

FCC requests an extension no change clearance of FCC Form 425, Application for Radio Station Authorization (Industrial, Public Safety, Land Transportation, Broadcast Remote Pickup and Citizens Class A). The Commission has adopted and prescribed in its Rules and Regulations (Sections 21.14(a), 74.404, 89.60, 91.57, 93.57, and 95.19) the use of this form. FCC Form 425 is required to be filed for a new, renewal of, or modification to a radio station authorization (other than fixed point-to-point microwave stations and radiolocation stations) in the Chicago Regional Area in the Industrial, Public Safety, Land Transportation, Broadcast Remote Pickup and Citizens Class A Radio Services. FCC Form 425 is also required to accompany applications on FCC Form 401 in the Rural Radio and Domestic Public Land Mobile Radio Service. FCC estimates respondent burden to average 7 hours per response. The FCC receives approximately 18,000 applications annually.

FCC requests an extension no change clearance of FCC Form 702, Application for Consent to Assignment of Radio Station Construction Permit or License (For Stations in Services Other Than Broadcast). The Commission has adopted and prescribed in its Rules and Regulations (Sections 1.924, 21.11(d), 23.50, and 5.55 (i) the use of this form. FCC Form 702 is required to be filed when applying for consent to assignment of radio station construction permit or license for stations in services other than broadcast. FCC estimates respondent burden to average 2 hours per response. The FCC receives approximately 239 applications annually.

FCC requests an extension no change clearance of FCC Form 756, Application for Radio Operator License (Other than Amateur License and Restricted Radiotelephone Operator Permit). The Commission has adopted and prescribed in its Rules and Regulations (Section 1.83(a)(2)) the use of this form. FCC Form 756 is required to be filed when applying for a new, renewed, replacement, or duplicate commercial operator license other than amateur license and restricted radiotelephone operator permit. Respondent burden is estimated to average 5 minutes per response. The FCC receives approximately 220,000 applications annually.

FCC requests an extension no change clearance of FCC Form 757-B, Application for Re-examination for Commercial or Amateur Radio Operator License Prior to Expiration of Waiting Period. FCC Form 757-B is required to be filed by those seeking a waiver to Sections 13.27 and 97.33 of the Commission's rules which require that persons who fail an examination must wait 30 or 60 days before being re-examined. FCC estimates respondent burden to average 5 minutes per response. The FCC receives approximately 2500 applications annually.

FCC requests an extension no change clearance of FCC Form 762-F, Interference of Standard Broadcast, FM Broadcast, of Television Reception. FCC Form 762-F is used to acknowledge receipt of interference complaints with respect to standard broadcast, FM broadcast, or television reception. The form asks that additional information be submitted to the FCC in order to resolve the interference problem. FCC estimates respondent burden to average 10 minutes per response. The FCC receives approximately 5500 forms annually.

FCC requests an extension no change clearance of FCC Form 809, Application for Periodic Survey (Great Lakes Agreement). The Commission has adopted and prescribed in its Rules and Regulations (Section 83.46(c)) the use of this form. FCC Form 809 is required to be filed when applying for the annual survey of radio stations on board ships subject to the Great Lakes Radio Agreement. FCC estimates respondent burden to average 30 minutes per response. The FCC receives approximately 500 applications annually.

NORMAN F. HEYL,
Regulatory Reports
Review Officer.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

MEETING

AUGUST 9, 1976.

Pursuant to sec. 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that the National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a meeting on Tuesday, September 14, 1976. The session will be open to the public and will be held in Room 6802 of the U.S. Department of Commerce Building, 14th Street between Constitution Avenue and E Street NW., Washington, D.C. beginning at 9 a.m.

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry, science and other appropriate areas, was established by Congress by Pub. L. 92-125, on August 16, 1971, as amended. Its duties are to (1) undertake a continuing review of national ocean policy, coastal zone management and the progress of the marine and atmospheric science and service programs of the

V 41 157 AUG 12 76 UMI

United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before 30 June of each year, and (3) advise the Secretary of Commerce with respect to the carrying out of the purpose of the National Oceanic and Atmospheric Administration.

The Agenda will include the following topics:

0900–0915 Opening Remarks—Dr. William J. Hargis, Jr.
0915–1000 Executive Branch Comments on NACOA's 5th Annual Report—Dr. Robert M. White, Administrator, NOAA.
1000–1045 Discussion of NACOA Draft Report on National Sea Grant Program—Dr. William C. Ackermann, NACOA.
1045–1330 Discussion of NACOA Work Plan—Dr. William J. Hargis, Jr.
Adjournment at approximately 1:30 p.m.

The public is welcome at these sessions and will be admitted to the extent of the seating available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the perogative to place limits on the duration of oral statements and discussions. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. The telephone number is 377–3343.

DAVID A. KATCHER,
Acting Executive Director.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–247]

CONSOLIDATED EDISON CO. OF NEW YORK, INC.

Availability of Final Environmental Statement for the Selection of the Preferred Closed Cycle Cooling System at Indian Point Unit No. 2

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation, related to the selection of the preferred closed cycle cooling system for Indian Point Unit No. 2 located in Westchester County New York is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. and in the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10048. The Final Environmental Statement is also being made available at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207 and the Tri-State Regional Planning Commission, 1 World Trade Center, New York, New York 10048.

The notice of availability of the Draft Environmental Statement for the selection of the preferred closed cycle cooling system and requests for comments from interested persons was published in the FEDERAL REGISTER (41 FR 8000) on February 23, 1976. The comments received from Federal, State, local and interested members of the public have been included as an appendix to the Final Environmental Statement.

Copies of the Final Environmental Statement (Document No. NUREG–0042) may be purchased, at current rates, from the National Technical Information Service, Springfield, Va. 22161. ($10.75 printed copy; $2.25 microfiche).

Dated at Rockville, Maryland, this 4th day of August, 1976.

For the Nuclear Regulatory Commission.

GEORGE W. KNIGHTON,
Chief, Environmental Projects Branch No. 1, Division of Site Safety and Environmental Analysis.

[Docket Nos. 50–369 and 50–370]

DUKE POWER CO.; WILLIAM B. MCGUIRE NUCLEAR STATIONS, UNITS 1 AND 2

Order Extending Construction Completion Dates

Duke Power Company is the holder of Construction Permits Nos. CPPR–83 and CPPR–84 issued by the Atomic Energy Commission[1] on February 26, 1973, for construction of the William B. McGuire Nuclear Station, Units 1 and 2 presently under construction at the Company's site on the shore of Lake Norman in Mecklenburg County, North Carolina.

On December 30, 1975, Duke Power Company filed a request for an extension of the completion dates. Duke Power Company submitted additional information in support of its request on July 1, 1976. The extension has been requested because construction had been delayed due to, among other things, (1) increased delivery time of materials and components due in part to changing design requirements and the inability of many suppliers to deliver materials at the required time, (2) expected slower rate of load growth than originally anticipated and unfavorable conditions in the financial markets which made it difficult to obtain financial resources on reasonable terms necessary to maintain their previous construction schedule, and (3) decrease in rate of construction progress due to a reduction in work force.

This action involves no significant hazards consideration: good cause has been shown for the delay; and the requested extension is for a reasonable period, the bases for which are set forth in a staff evaluation, dated August 3, 1976.

Copies of the above documents and other related material are available for public inspection and copying at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Public Library of Charlotte and Mecklenburg County, 310 North Tryon Street, Charlotte, North Carolina 28202.

It is hereby ordered, That the latest completion dates are extended for CPPR–83 from February 1, 1976 to August 1, 1978 and for CPPR–84 from March 1, 1977 to August 1, 1979.

Date of issuance: August 3, 1976.

For the Nuclear Regulatory Commission.

R. C. DEYOUNG,
Deputy Director, Division of Project Management, Office of Nuclear Reactor Regulation.

[FR Doc.76–23161 Filed 8–11–76;8:45 am]

[1] Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and Permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

[Docket No. 50–389]

FLORIDA POWER & LIGHT CO. (ST. LUCIE NUCLEAR POWER PLANT, UNIT NO. 2)

Order for Evidentiary Hearing

An evidentiary hearing on the matters remanded to the Licensing Board by ALAB–335 (June 29, 1976), will be held September 8–10, 1976. Hearings will begin at 9:30 a.m. each day at the Holiday Inn Oceanside, Banquet Room, Highway A–1–A, Hutchinson Island, Florida.

Dated at Bethesda, Md., this 3d day of August 1976.

It is so ordered.

The Atomic Safety and Licensing Board.

EDWARD LUTON,
Chairman.

[FR Doc.76–23158 Filed 8–11–76;8:45 am]

INTERNATIONAL ATOMIC ENERGY AGENCY DRAFT SAFETY GUIDE

Availability of Draft for Public Comment

The International Atomic Energy Agency (IAEA) is developing a limited number of internationally acceptable codes of practice and safety guides for nuclear power plants. These codes and guides will be developed in the following five areas: Government Organization, Siting, Design, Operations, and Quality Assurance. The purpose of these codes and guides is to provide IAEA guidance to countries beginning nuclear power programs.

The IAEA Codes of Practice and Safety Guides are developed in the following way. The IAEA receives and collates relevant existing information used by member countries. Using this collation as a starting point, an IAEA Working Group of a few experts then develops a preliminary draft. Following this, an IAEA Technical Review Committee reviews the preliminary draft and modifies it to the extent necessary to develop a draft acceptable to the IAEA Technical Review Committee. This draft Code of Practice or Safety Guide is then sent to the IAEA Senior Advisory Group which reviews and modifies the draft as necessary to reach agreement on the draft and then forwards it to the IAEA Secretariat to obtain comments from the member states.

IAEA draft Safety Guide SG–G3 "The Conduct of Regulatory Review and Assessment of License Applications" has just been developed and the NRC is soliciting U.S. public comment on it.

An IAEA Working Group, consisting of Mr. M. J. Turner of the United Kingdom, Mr. R. Zammite of France and Mr. A. Eiss (Nuclear Regulatory Commission) of the United States developed this draft from an IAEA collation during a meeting on June 28 to July 2, 1976. An opportunity for public comment exists prior to review of this draft at the next meeting of the IAEA Technical Review Committee on Governmental Organization on November 22–26, 1976. Opportunities for public comment on later drafts will also be presented as this draft is later sent to the IAEA Senior Advisory Group, then to the Member States.

In order to have comments in time for consideration for the November 1976 meeting in Vienna, Austria of the IAEA Technical Review Committee, comments on this draft Safety Guide are requested by September 15, 1976. Single copies of this draft may be obtained by a written request to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

(5 U.S.C. 522(a).)

Dated at Rockville, Md., this 30th day of July 1976.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Director,
Office of Standards Development.

REGULATORY GUIDE

Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 2.4, "Review of Experiments for Research Reactors," describes procedures acceptable to the NRC staff for the licensee's review and approval of experiments performed at research reactor facilities. This guide endorses ANSI Standard N401–1974, "Review of Experiments for Research Reactors."

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 2.4 will, however, be particularly useful in evaluating the need for an early revision if received by October 8, 1976.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a).)

Dated at Rockville, Md., this 3d day of August 1976.

ROUTINE USE OF PLUTONIUM-POWERED CARDIAC PACEMAKERS

Notice of Availability of Final Generic Environmental Statement

NOTE.—The following notice is being reprinted in its entirety with corrections.

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commisison Regulations in 10 CFR Part 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Material Safety and Safeguards, related to the proposed routine of plutonium-powered cardiac pacemakers is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

The notice of availability of the Draft Environmental Statement for the routine use of plutonium-powered cardiac pacemakers and request for comments from interested persons was published in the FEDERAL REGISTER January 16, 1975 (FR 40 2863). The comments received from Federal agencies, State and local officials and interested members of the public have been included as appendices to the Final Environmental Statement.

V 41 157 AUG 12 76 UMI

Copies of the Final Environmenal Statement (Document No. NUREG–0060) may be purchased on or about August 12, 1976 for $9.25 a printed copy and $2.25 for microfiche from the National Technical Information Service, Springfield, Virginia, 22161.

Dated at Bethesda, Md., this 23d day of July 1976.

For the Nuclear Regulatory Commission.

BERNARD SINGER,
Chief, Radioisotopes Licensing Branch, Division of Fuel Cycle and Material Safety.

[Docket No. 50-296]

TENNESSEE VALLEY AUTHORITY

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR–68 issued to Tennessee Valley Authority which revised Technical Specifications for operation of the Browns Ferry Nuclear Plant, Unit 3, located in Limestone County, Alabama. The amendment is effective as of its date of issuance

This amendment revises the temporary restrictions contained on page 1a of the Technical Specifications (Appendix A) to permit operation of the Browns Ferry Nuclear Plant Unit 3 at power levels of one percent or less of rated power (i.e., 33 megawatts thermal). This modification to the temporary restrictions from those contained in the Technical Specifications appended to the initial Facilty Operating License is based on (1) the satisfactory completion and resolution, as reported by the Commission's Office of Inspection and Enforcement, of two previously incomplete items of construction, and (2) the staff's conclusions contained in Supplement Number 8 to the Safety Evaluation Report related to the operation of the Browns Ferry Nuclear Plant, issued August 2, 1976 (copy enclosed) on four matters on which our review was incomplete as described in Supplement Number 8 to the Safety Evaluation Report, Issued July 2, 1976. Our evaluation of three of these matters resulted in the addition of conditions to the license requiring conformance to forthcoming analyses or plant modifications for suppression pool hydrodynamic loads during a postulated loss-of-coolant accident, dynamic loads associtaed with relief valve operation, and fire protection; and an accelerated training program for plant fire brigade members. Operation of Browns Ferry Unit 3 at one percent or less rated power is acceptable prior to completion of the detailed fire protection procedures and the content of the fire training program in accordance with the fire protection criteria delineated in Section 2.0 of Supplement Number 2 to the Safety Evaluation Supporting the Operation after the Restoration and Modification of the Browns Ferry Nuclear Plant, Units 1 and 2 Following the March 22, 1975 Fire, issued July 3, 1976.

Issuance of the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I which are set forth in the license amendment.

For further details with respect to this action, see (1) Amendment No. 1 to License No. DPR–68, and (2) the Commission's related Safety Evaluation Report, Supplement No. 9 dated August 2, 1976. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Athens Public Library, South and Forrest, Athens, Alabama.

A copy of items (1) and (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Project Management.

Dated at Bethesda, Md., this 2d day of August 1976.

For the Nuclear Regulatory Commission.

JOHN F. STOLZ,
Chief, Light Water Reactors Branch No. 1, Division of Project Management.

[FR Doc.76-23166 Filed 8-11-76;8:45 am]

[Docket Nos. STN 50-518, STN 50-521]

TENNESSEE VALLEY AUTHORITY (HARTSVILLE NUCLEAR PLANT A UNITS 1 AND 2); (HARTSVILLE NUCLEAR PLANT B UNITS 1 AND 2)

Hearing on Applicants Request for an LWA–2, (Part 1)

At a Special Prehearing Conference held in Nashville, Tennessee on July 27, 1976, counsel for all of the parties submitted a schedule for hearings on T.V.A.'s request for an LWA–2.

The proposed schedule was presented in two parts. The first part covers a foundation grouting program and the placement of dental and fill concrete. T.V.A. contends that to avoid delays in the plant construction schedule, part 1 activities must begin early in September and be completed by November of this year. It was the view of all the parties that a hearing on T.V.A.'s entire LWA–2 request could not be completed that soon.

For the reasons set out above, T.V.A.'s LWA–2 request will be heard in two parts at separate sessions.

Part 1 of the LWA–2 request will be heard on August 17, 1976 in Courtroom Number 1, U.S. Courthouse, 8th Avenue and Broad Street, Nashville, Tennessee beginning at 10:00 A.M.

Findings of fact and conclusions of Law will be submitted by all parties on August 24, 1976.

The Schedule for hearings on Part 2 activities under the LWA–2 request will be announced at the close of the August 17, 1976 hearings.

The public is invited to attend this hearing.

It is so ordered.

Issued at Bethesda, Md., this 4th day of August 1976.

For the Atomic Safety and Licensing Board,

JOHN F. WOLF,
Chairman.

TOPICAL REPORT

Issuance and Availability

The Nuclear Regulatory Commission has issued a second supplement to WASH–1238, "Environmental Survey of Transportation of Radioactive Materials to and from Nuclear Power Plants."

Supplement II, "Potential Releases of Cesium from Irradiated Fuel in a Transportation Accident," (NUREG–0069) was prepared to present the information available at this time on cesium release. It is being published in accordance with the commitment to issue revisions or supplements to WASH–1238 to accommodate new information made at the time § 51.20(g) was added to 10 CFR Part 51 (40 FR 1005).

This document is available for inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. Copies may be purchased at current rates from the National Technical Information Service, Springfield, Virginia 22161. (Paper copy: $3.50, Microfiche: $2.25)
(5 U.S.C. 552(a).)

[Dockets Nos. 50-266 and 50-301]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 19 and 24 to Facility Operating Licenses Nos. DPR–24 and DPR–27 issued to Wisconsin Electric Power Company and Wisconsin Michigan Power Company, which revised Technical Specifications for operation of the Point Beach Nuclear Plant Units Nos. 1 and 2, located in the town of Two Creeks, Manitowoc County, Wisconsin. The amendments are effective as of the date of issuance.

These amendments consist of changes in the Technical Specifications that involve changes to the administrative controls section, excluding any substantive changes to the Plant Reporting Requirements and were submitted in response to our request of October 18, 1974. Changes to the Plant Reporting Requirements, Technical Specification 15.6.9, were issued in a separate licensing action on January 9, 1976.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental statement, negative declaration or environmnetal impact appraisal need not be prepared in connection with issuance of these amendments.

For further details with respect to this action, see (1) the applications for amendment dated June 1 and 29, 1976, (2) Amendment No. 19 to License No. DPR–24, (3) Amendment No. 24 to License No. DPR–27, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the University of Wisconsin—Stevens Point Library, ATTN: Mr. Arthur M. Fish, Stevens Point, Wisconsin 54481.

A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 2d day of August 1976.

For the Nuclear Regulatory Commission.

GEORGE LEA,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[Docket No. PRM–100–3]

CENTRAL MAINE POWER CO.

Definition of "Capable Fault"; Filing of Petition for Rule Making

Notice is hereby given that Elwin W. Thurlow, President and Chief Executive Officer, Central Maine Power Company, and Jon S. Readnour, Attorney, by letter dated July 12, 1976, have filed with the Nuclear Regulatory Commission, a petition for rule making on behalf of the Company.

The petitioners request that the Commission amend 10 CFR Part 100, Appendix A (Seismic and Geologic Siting Criteria for Nuclear Power Plants), to change Section III (Definitions) as follows, either:

(1) by adding a new paragraph to the definition of "capable fault" immediately after Section III(g)(3):

A fault is not a capable fault within this definition where movements at or near the ground surface are caused by types of forces that are not of earthquake-related tectonic origin, such as glacial ice shove, glacial rebound, meteorite impacts, landslides, fissures and craters; or

(2) by adding the following new sentence to the end of Section III(g)(1):

Such movements shall be of earthquake-related tectonic origin as distinct from disruptions resulting from forces such as glacial ice shove, glacial rebound, meteorite impacts, landslides, fissures and craters.

The petitioners state that the basis for the proposed amendment is to eliminate the ambiguity that exists between the definition of "capable fault" and the obvious intent of Appendix A. The petitioners further state that the primary purpose of Appendix A is to "describe procedures for determining the quantitative vibratory ground motion design basis at a site *due to earthquakes*" (emphasis added). However, it may be argued that the present definition of "capable fault" in Section III(g) of Appendix A includes any movement of a fault, even that due to glacial ice shove, glacial rebound or other classes of movements at or near the surface that are not earthquake-related and are, therefore, of no safety significance.

The petitioners state that the expressed intent of Appendix A is to insure a plant design that will maintain structural integrity during an earthquake. The petitioners submit, however, that contrary to this intent, the definition of "capable fault" may be read to include all "faults" which have exhibited "movement . . . within the past 35,000 years," and thus arguably include those faults where movement was due to non-earthquake-related forces. Since movements due to non-earthquakes-related forces are not of safety significance, especially for earthquake design, they should be expressly excluded from the definition. It is the view of the peetitioners that the Appendix A definition of "capable fault" could present potential interpretational problems and create possible future delay and financial risks while regulatory ambiguities are resolved.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by October 12, 1976.

Dated at Washington, D.C. this 9th day of August 1976.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.76-23574 Filed 8-11-76;8:45 am]

[Docket No. RM–50–5]

GENERIC ENVIRONMENTAL STATEMENT ON MIXED OXIDE FUEL

Prehearing Conference

The prehearing conference scheduled by the Commission in its Notice of Hearing published in the FEDERAL REGISTER January 6, 1976 (par. 6, 41 FR 1133) was deferred by notice published February 12, 1976 because the hearing board had not yet been appointed. (41 FR 6343) Notice of the Appointment of the board was published in the FEDERAL REGISTER on July 29, 1976. (41 FR 31621) The notice of July 29 stated that, after its appointment, the board would set the date, time and location for the prehearing conference.

DATE, TIME AND LOCATION

A prehearing conference in this matter is hereby scheduled to begin at 9:30 a.m. on Wednesday, September 15, 1976 at Washington, D.C. (The precise location will be announced in the near future.) The prehearing conference will continue, if necessary, on Thursday, September 16, 1976.

The board expects that the health, safety and environmental portion of the final environmental statement will be issued before September 15, 1976, the date scheduled for the prehearing conference. If this portion of the final statement is not then available, the board believes a discussion of prehearing matters such as those described below would nonetheless be useful. The board therefore intends to hold the conference on September 15 even if this portion of the final statement is not available. We realize that, in this event, a subsequent prehearing conference on this portion of the final statement may be necessary after the final statement is issued.

The board does not expect that the draft safeguards supplement to the environmental statement will be available before September 15, 1976. We plan to schedule another prehearing conference after the draft safeguards supplement becomes available.

MATTERS TO BE DISCUSSED

1. *Requests for full participation.* The Notice of Hearing published January 6 states that one purpose of the prehearing conference will be to rule on requests to become a full participant which were

V 41 157 AUG 12 76 UMI

filed after February 5, 1976, the deadline prescribed in the Notice of Hearing. The notice states (par. 3(c)):

Untimely requests to become a full participant will not be granted by the hearing board unless warranted based upon consideration of (1) the extent to which the requestor's full participation will delay the proceeding, (2) the extent to which the requestor's interest will be represented by other participants or may be served by limited participation, (3) the extent to which the requestor's full participation may reasonably be expected to contribute to informed decisionmaking, (4) whether the requestor can demonstrate good cause for failure to file on time.

Two late-filed requests for full participation have been submitted: (1) Power Authority of the State of New York, request dated March 18, 1976 supported by motion dated April 12, 1976; and (2) Wisconsin Electric Power Co., Madison Gas and Electric Co., Wisconsin Power and Light Co., and Wisconsin Public Service Corp., request dated June 8, 1976 supported by motion dated July 14, 1976.

Each movant contends that it has satisfied the criteria quoted above. Good cause for late filing in the first case is alleged to be a misunderstanding as to whether a timely request for that movant had in fact been filed. In the second case movants rely upon the changed circumstances created by the May 26, 1976 decision of the U.S. Court of Appeals for the Second Circuit reversing that part of the Commission's decision of November 14, 1976 concerning interim commercial licensing of mixed oxide facilities. Movants in the second case represent that the Court of Appeals decision changed their earlier conclusion not to seek full participation because the Court's decision made early resolution of this proceeding essential to their interests.

Each of the two motions was filed before the appointment of a hearing board was announced. Each of the movants represents that its participation will be consolidated with that of an existing full participant. No opposition has been filed to either motion.

Under all the circumstances, the board leans toward granting both motions. We will, however, wait until the prehearing conference to act upon them in case any participant wishes to discuss them.

2. *Requests for limited participation.* Those wishing to be limited participants were asked to notify the Secretary of the Commission on or before February 5, 1976. Anyone wishing to do so "by filing a written statement may do so by filing the statement with the hearing board at any time prior to the conclusion of the hearing without requesting special permission of the hearing board." Notice of Hearing, par. 3(d). Consequently, there is no need for the board to rule on late-filed requests for limited participation insofar as those requests seek only written participation.

The board invites discussion at the prehearing conference of any limits or conditions which might be imposed on oral participation by limited participants. See Notice of Hearing, par. 3(d).

3. *Consolidation of participation.* The board is aware that several commercial reactor licensees and applicants have agreed to consolidate, as have at least two environmental spokesmen. We urge all full participants to consider whether any other full participants may have substantially the same interests or questions; and, if so, to consolidate requests for discovery, suggestions for questions, presentation of evidence, concluding statements of position, and requests for cross-examination on particular issues after completion of the legislative-type hearing. See Notice of Hearing, par. 3(e). We invite discussion of this subject at the prehearing conference.

4. *Scheduling of the hearing on health, safety and environmental issues.* The Notice of Hearing states: "The hearing will commence as soon as practicable after issuance of the portion of the final impact statement relating to health and environmental matters" (par. 6) It also provides: "All direct testimony on behalf of full participants shall be filed in writing 14 days in advance of the hearing, or within such greater or lesser time as may be fixed by the hearing board." (par. 5(c))

The board has briefly discussed a schedule such as the following for the filing of written testimony and the beginning of the hearing on health, safety and environmental issues:

X	The date when the final statement on health, safety and environmental subjects is issued.
X+30 days	Written testimony submitted by proponents of plutonium recycling on all pertinent subjects which they wish to address.
X+45 days	Written testimony submitted by opponents of recycling on all pertinent subjects they wish to address, including any desired rebuttal of any proponents' testimony. Other full participants who do not class themselves as opponents or proponents would meet the same deadline.
X+60 days	Proposals for questions to be asked by hearing board submitted to board by opponents, proponents and others. Rebuttal testimony submitted by proponents and others.
X+65 days	Objections to questions submitted.
X+75 days	Hearing begins. (During the hearing, opportunity could be provided for submission of further questions to the board during or after the oral testimony of a witness if that testimony suggested the need for further questioning.)

The Commission's Regulatory Staff has filed a motion dealing with the submission of questions to the board and the timing of questioning on particular subjects. (Regulatory Staff Motion Re: Hearing Procedures dated July 29, 1976) The proposals made in this motion may be inconsistent with a schedule such as that above because the motion seems to imply that a different date would be set for filing testimony and questions on each of a list of subjects. However, the Staff's proposals might produce a more orderly hearing record. They might also be more conducive to the use of panels of experts on a particular subject representing a variety of participants but appearing at the same time to answer questions.

The board invites discussion of these and any other scheduling ideas at the prehearing conference.

5. *Service of documents on hearing board members.* Each participant is requested to send two copies of each document which that participant files in this proceeding to each board member, one copy to be sent care of the Secretary of the Nuclear Regulatory Commission, Washington, D.C., 20555, and one copy to the following address:

George Bunn, Law School, University of Wisconsin, Madison, Wisconsin 53706.
Albert Carnesale, Prog. for Science and International Affairs, Harvard University, 9 Divinity Avenue, Cambridge, Massachusetts 02138.
Melvin Carter, Director, Office of Interdisciplinary Programs, Georgia Institute of Technology, Atlanta, Ga. 30332.
Frank L. Parker, Department of Environment and Water Resources Engineering, Vanderbilt University, Nashville, Tenn. 37235.
Kline Weatherford, P.O. Box 333, Montrose, Ala. 36559.

Ex Parte Communications

The Notice of Hearing calls upon the board to conduct a legislative-type hearing. (par. 2 & 4) However, it offers the possibility of later cross-examination on specific issues. (par. 11) Moreover, it requires that decision of disputed issues of material fact or opinion be based upon the record, unless full participants are advised of the substance of the fact or opinion which is to be decided upon nonrecord evidence and unless full participants are provided an opportunity to controvert that fact or opinion. (par. 14)

Given the hybrid nature of the proceeding, the board expects all participants (and anyone acting in behalf of any of them) to refrain from offering to board members any evidence or argument concerning any fact or opinion which is material to this proceeding except through the procedures for submission of written statements, testimony, motions or other documents set forth in the Notice of Hearing.

Dated: August 4, 1976.

For the GESCO Hearing Board.

GEORGE BUNN,
Chairman.

NATIONAL SCIENCE FOUNDATION

COMMITTEE MANAGEMENT

Determination of Renewal

Pursuant to the Federal Advisory Committee Act, P.L. 92-463, I have hereby determined that the 29 advisory groups listed below are necessary and are in the public interest in connection with the performance of duties imposed upon the National Science Foundation by the National Science Foundation Act of 1950, as amended, and other applicable law. This determination follows consultation with the Office of Management and Budget (OMB), pursuant to § 14(a)(1) of the Federal Advisory Committee Act and OMB Circular No. A-63, Revised.

Advisory Committee for Research Applications Policy
Advisory Committee for Science Education
Advisory Panel for Anthropology
Advisory Panel for Astronomy
Advisory Panel for Atmospheric Sciences
Advisory Panel for Chemistry
Advisory Panel for Computer Science and Engineering
Advisory Panel for Developmental Biology
Advisory Panel for Earth Sciences
Advisory Panel for Ecological Sciences (formerly Environmental Biology)
Advisory Panel for Economics
Advisory Panel for Electrical Sciences and Analysis
Advisory Panel for Genetic Biology
Advisory Panel for History and Philosophy of Science
Advisory Panel for Human Cell Biology
Advisory Panel for Mathematical Sciences
Advisory Panel for Metabolic Biology
Advisory Panel for Neurobiology
Advisory Panel for Oceanography Project Support (formerly Oceanography)
Advisory Panel for Physics
Advisory Panel for Political Science
Advisory Panel for Psychobiology
Advisory Panel for Regulatory Biology
Advisory Panel for Social and Developmental Psychology (formerly Social Psychology)
Advisory Panel for Sociology
Advisory Panel for Systematic Biology
Advisory Panel on the Materials Research Laboratories
International Decade of Ocean Exploration Proposal Review Panel
National Magnet Laboratory Visiting Committee

Authority for these advisory groups shall expire on September 1, 1978, unless the Director of the National Science Foundation formally determines that continuance is in the public interest.

H. GUYFORD STEVER,
Director.

AUGUST 9, 1976.

[FR Doc.76-23499 Filed 8-11-76;8:45 am]

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 76-33]

SAFETY RECOMMENDATIONS AND RESPONSES

Notice of Availability and Receipt

Aviation Safety Recommendations.—The National Transportation Safety Board, by letter of August 4 to the Federal Aviation Administration, expressed the belief that many of the accidents attributed to "unfavorable winds" could have been prevented by increased emphasis on the subject during pilot training and by the expedited development of a simple, economical wind-measuring system for use particularly at relatively small airports which are used primarily by general aviation aircraft. The Board, therefore, recommended that FAA expedite the development for operational purposes of such a wind-measuring system. This recommendation, No. A-76-85, is designated Class II, for priority followup.

The Board also recommended that FAA, in coordination with the National Oceanic and Atmospheric Administration/National Weather Service: Through the FAA/NWS Working Group on Improving Pilot Education, place special emphasis on the hazards associated with unfavorable winds during the landing regime, by various means such as (1) discussions at safety seminars and clinics sponsored by the General Aviation Accident Prevention Program Specialists; (2) changes in the Private Pilot's Test Guide (AC 61-32A); (3) changes in the Private Pilot's Handbook of Aeronautical Knowledge (AC-61-23A); (4) changes in Pilot Exam-O-Grams; (5) addition of appropriate questions in both written and oral pilot examinations and checks; and (6) assuring through FAA Inspectors that Pilot Schools certificated under 14 CFR 141, highlight the problem in their training syllabi specified in 14 CFR 141.55(6)(b)(2). This recommendation, No. A-76-86, is also for priority followup.

In view of its continued concern about the large number of weather-related accidents, the Board will soon release a special study, "Nonfatal, Weather-Involved General Aviation Accidents," based on 7,856 such accidents which occurred from 1964 through 1974. The Board published in 1974 a comparable study entitled "Fatal, Weather-Involved, General Aviation Accidents," report No. NTSB-AAAS-74-2.

Railroad Safety Recommendations.—Three recommendations, Nos. R-76-42 through R-76-44, concerning automatic train control were issued by the Safety Board in its August 1 letter addressed to eight transit organizations. The recommendations followed investigation of the collision last January 9 in Chicago, Illinois, between two Chicago Transit Authority trains. A complete report of the accident will be released by the Safety Board in the near future.

In its August 1 letter, the Safety Board recommended that the Bay Area Rapid Transit District, the Massachusetts Bay Transportation Authority, the Port Authority Transit Corporation, the New York City Transit Authority, the Port Authority Trans-Hudson Corporation, the Washington Metropolitan Area Transit Authority, the Southeastern Pennsylvania Transportation Authority, and the Greater Cleveland Regional Transit Authority: Prohibit trains with inoperative automatic train control or cab signals from departing a terminal for main track operation (R-76-42); develop a procedure to discharge passengers and remove trains from service immediately if they develop automatic train control problems or cab signal problems while en route (R-76-43); and insure that communication facilities are adequate for dependable operational control and that proper procedures are in effect to provide emergency warnings and instructions (R-76-44). Recommendation R-76-42 is designated Class I, for urgent followup; R-76-43 and R-76-44 are Class II recommendations, for priority followup.

Letters in Response to Safety Board Recommendations.—Addressees of earlier Board recommendation letters in the aviation, highway, pipeline, and railroad transportation modes have recently supplied responses as follows:

Federal Aviation Administration letter of July 26 supplements FAA's letters of April 2 (41 FR 15922, April 15, 1976) and April 26 (41 FR 18730, May 6, 1976) concerning the Board's recommendations A-76-59 through A-76-64 which were aimed at overcoming engine disintegration as a result of bird strikes. FAA's July 26 letter states that the General Electric Company, through full-scale controlled engine failure testing, has been able to reproduce the mode of compressor failure experienced by the Overseas National Airlines DC-10 last November 12—the accident at John F. Kennedy International Airport which prompted the subject recommendations. The letter discusses tests conducted on CF6-6 and CF6-50 engines. FAA has been a participant in the test program planning, and concurs that the controlled unbalance tests were more severe than could be encountered by in-service bird strikes and that a viable field modification program to the engine has been proposed by General Electric to eliminate future high-pressure compressor case failures. FAA states that notices of proposed rulemaking have been issued specifying that the modification of in-service engines commence immediately with a scheduled completion date of June 1, 1977, for CF6-50 model and July 1, 1977, for the CF6-6 model engines. The modification is being incorporated in all new production engines.

FAA letter of July 30 speaks to recommendations A-76-67 through 70 which concern the adequacy of regulations and procedures pertaining to U.S.-flag air carrier operations into foreign airports. According to the letter, FAA does not concur with these four recommendations. FAA believes that the authority of pilots-in-command on our flag and supplemental air carriers and commercial operators to check visibility at foreign airports should be retained until such time as the standards of the various foreign countries are revised, through ICAO, to prohibit unrestricted "look-see." Within the next 60 days FAA will issue an Air Carrier Operations Bulletin asking its Principal Operations Inspectors to assure that air carriers provide instructions in their manuals to caution their pilots not to execute an approach if the reported weather in foreign countries is well below their landing minimums; also, if a missed approach is necessary because of weather conditions, pilots should seriously consider proceeding to an alternate airport

V 41 I 157 AUG 12 76 UMI

rather than attempting another approach.

Federal Railroad Administration letter of July 26 comments on recommendations R–76–1 through R–76–5 which concern promulgation of and compliance with Federal regulations pertaining to radio operations and adequate signal systems for railroads. These regulations followed investigation of the rear end collision of two Texas & Pacific Railway Company (T&P) freight trains at Meeker, Louisiana, May 30, 1975. (See 41 FR 5353, February 5, 1976.) FRA assures the Board that upon promulgation of Federal regulations covering train/radio operations, FRA field inspectors will monitor radio usage and compliance by carrier employees. FRA has contacted T&P concerning compliance with FCC regulations pertaining to radio operations by its employees.

Specific to recommendation R–76–3, FRA believes that the immediate answer to assuring an adequate backup system for mainline freight trains lies with training given to employees on the operating rules, and through an effective testing program, rather than installation of additional mechanical and electrical devices. Re R–76–4, FRA is now finalizing the version of new signaling rules which was proposed earlier in FRA Docket No. RSOR–2. Regarding enforcement of regulations pertaining to maintenance of train braking systems (R–76–5), FRA notes that following the accident investigation, T&P added extra car repairmen to the maintenance forces at Avondale and Alexandria, Louisiana. The carrier is also considering the establishment of car repair facilities at towns between those points, according to FRA. The FRA letter also comments on several previously published Safety Board recommendations relative to train collision accidents which were referenced in report No. NTSB–RAR–75–9 on the T&P accident.

Materials Transportation Bureau letter of July 30 responds to recommendations P–76–9 through P–76–11, issued following investigation of the gas pipeline explosion which demolished the west wall of a 25-story commercial building in New York City, April 22, 1974. In answer, MTB states that its preliminary evaluation of the recent contract study, "Rapid Shutdown of Failed Pipeline Systems and Limiting of Pressure to Prevent Pipeline Failures Due to Overpressure," indicates that excess flow valves may be a practical safety device for certain situations. Upon completion of evaluation, expected by January 1977, MTB will know whether a proposed rulemaking should be issued on the subject of excess flow valves or other means of shutting down a low-pressure distribution system.

Specific to P–76–10, which asked for a more realistic definition in 49 CFR Part 192 of an operator's responsibility for gas piping inside buildings, MTB believes that the existing definition of "service line" precisely defines an operator's responsibility, consistent with Congressional intent to regulate the transportation of gas until it is sold and delivered to the ultimate consumer. This recommendation raises the question whether the standards in 49 CFR Part 192 are appropriate for interior piping, according to MTB. Although most of the standards are intended more for underground or exterior systems than for interior piping, MTB said that some specifically refer to piping inside buildings—§ 192.353 provides a standard for customer meters inside buildings, § 192.375 regulates plastic service lines inside buildings, and §192.377 concerns interior copper piping. Those standards which are not written specifically in terms of piping inside buildings are applicable to the extent that they can reasonably be performed. MTB believes the applicable standards relating to periodic inspection, operation, and maintenance—subjects which may not be covered by local building codes—are appropriate for public safety. MTB recognizes that a large portion of the jurisdictional pipelines inside buildings are behind walls and generally inaccessible to an operator after installation, making compliance with many of the applicable safety requirements difficult, but MTB does not believe that this situation justifies amending 49 CFR Part 192 to exclude certain interior piping from regulation.

National Railroad Passenger Corporation (Amtrak) letter of July 21 is in reply to the Safety Board's letter of June 28 (41 FR 29223, July 15, 1976) concerning recommendations R–72–27, R–75–4, and R–75–5. Amtrak states that to date it has placed on order 492 Amfleet cars, 235 B-Level cars, 6 turbine train sets manufactured in France, and 7 turbine train sets manufactured in the United States. Of these equipment orders, more than 250 Amfleet cars, 6 French-built turbine train sets, and 2 American-built turbine train sets have been delivered, all equipped with emergency escape windows; also 3 American-built turbine train sets and 61 metroliners have been equipped with emergency escape windows. According to the letter, Amtrak is formulating a retirement schedule for its older, conventional passenger cars, and phaseout of service all of the conventional equipment within the next 5 years. When Amtrak completes its retirement schedule, the cars selected for retention will be equipped with emergency escape windows. Amtrak states that together with the railroads, it is attempting to develop a program for the benefit of rescue personnel. A similar program for employees is also in progress.

Connecticut Department of Transportation letter of July 30 indicates that a meeting is being arranged between representatives of ConRail and the Department to work out details of complying with recommendations R–76–46 and R–76–47. The recommendations were issued by the Safety Board on July 28 while investigating the July 13 collision of two ConRail commuter trains in New Canaan, Connecticut. (See 41 FR 32795, August 5, 1976.)

New York Metropolitan Transit Authority letter of July 19 concerns recommendations R–75–34 and R–75–35 which followed Board investigation of the January 2, 1975, collision of two Penn Central trains at the Botanical Garden Station in New York City. (See 40 FR 39563, August 28, 1975.) MTA notes that Penn Central last fall established procedures for assuring that personnel conform with company requirements for physical examinations; also, MTA has requested confirmation that ConRail is continuing to follow the new procedures. Concerning alteration of the interiors of existing M–1 commuter cars, MTA states that after careful study by its engineers and qualified consultants, energy-absorbing padding for seat backs and grab bars has been designed. MTA expects to complete its Retrofitting Program by the end of this year.

Recreational Vehicle Industry Association letter of July 23 is in reply to the Safety Board's letter of June 22 concerning recommendations H–76–8 through H–7610. (See 41 FR 29223, July 15, 1976.) RVIA states that the Safety Board will be informed of the results of its proposal to the National Fire Protection Association this fall. RVIA is conducting six fixed-barrier tests on fuel system integrity and will summarize the results for the Board. RVIA also plans to provide the Board with copies of the materials that are being prepared for its members' use in regard to the seatbelt campaign.

Safety Board Letters in Reply to Recommendation Addressees' Responses.—To the U.S. Coast Guard, Board letter of July 27 is in reply to Coast Guard's letter of June 2 (41 FR 24639, June 17, 1976) and indicates approval of Coast Guard's actions on recommendations M–76–1, 2, 3, 4, 5, 9, and 10. The Board, however, does not fully agree with Coast Guard's proposed actions in regard to recommendations M–76–6, 7, and 8, and will hold these recommendations open subject to further review of mutual positions.

To MAPCO, Inc., Board letter of July 30 replies to MAPCO's June 15 letter regarding recommendations P–76–22 through P–76–25. (See 41 FR 26079, June 24, 1976.) These recommendations resulted from investigation of the February 25, 1976, pipeline accident near Witharral, Texas. The Board expressed appreciation of MAPCO's rapid response to and general compliance with these recommendations. However, with respect to P–76–24, recommending use of internal pipeline inspection equipment to detect longitudinal pipe seam defects, it is the Board's understanding that an 8-inch internal inspection device is not now available and that compliance with the recommendation at this time will not be possible. The Board suggests that MAPCO keep abreast of any developments in useable internal inspection equipment and advise the Board. With respect to P–76–25, recommending a pressure not to exceed 1,155 psig until the line section was retested hydrostatically, it is the Board's understanding that MAPCO's retesting experience on this pipe showed that the lowest pressure at which failure occurred was 1,700 psig. The Board agrees that a 350-psig pressure reduction below this point to a 1,350-psig pressure limitation is satisfactory until the line can be retested hydrostatically.

Safety recommendation letters are available to the general public; single copies may be obtained without charge. Copies of the letters responding to safety recommendations and Safety Board replies may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this FEDERAL REGISTER notice. Address inquires to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

(Sec. 307 of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2172 (49 U.S.C. 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

AUGUST 9, 1976.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on August 5, 1976 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF HEALTH EDUCATION AND WELFARE

Office of Education:
Report for Determining Final Payment Pursuant to Title I of Public Law 81–874, annually, LEA's, Warren Topelius, 395–5872.

DEPARTMENT OF AGRICULTURE

Economic Research Service:
Survey of the Feed Manufacturing Industry, single time, livestock and poultry feed manufacturers, Lowry, R. L., 395–3772.

DEPARTMENT OF COMMERCE

Bureau of Census:
Survey of Municipal or Township Finances, F–21A, single time, local governments—city and county officials, Ellett, C. A., 395–5867.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary:
Letter to local educational agencies verifying effectiveness of services provided by general assistance centers and consultants, single time, local education agencies, Caywood, D. P. 395–3443.

DEPARTMENT OF LABOR

Employment Standards Administration:
Application for Authority for an Institution of Higher Education to Employ Its Full-Time Students, Etc., WH–201, on occasion, institutions of higher education, Lowry, R. L., 395–3772.

REVISIONS

DEPARTMENT OF COMMERCE

Bureau of Census:
General Revenue Sharing Survey, RS–12C, single time, local government officials, Ellett, C. A., 395–5867.

DEPARTMENT OF HEALTH EDUCATION, AND WELFARE

Public Health Service:
State plan certification form and State health plan budget, annually, State agencies, Lowry, R. L., 395–3772.

Alcohol, Drug Abuse, and Mental Health Administration:
Client Oriented Data Acquisition Process (CODAP), ADAMNIDA, monthly, federally funded drug abuse treatment programs, Human Resources Division, Richard Elsinger, 395–3532.

Health Services Administration:
Sickle Cell Clinic Reporting Forms, HSABCHS0909, quarterly sickle cell clinics, Warren Topelius, 395–5872.

Office of Education:
Application for Grants To Strengthen Developing Institutions (Title III, Public Law 89–329), OE–1049, on occasion, institutions of higher education, Lowry, R. L., 395–3772.

Application for Federal Assistance (Nonconstruction Programs) for Emergency School Aid Act, Title VII, Public Law 92–318 as amended—Instructions and Supplementary, OE–116–1, annually, LEA's and other eligible applicants, Warren Topelius, 395–5872.

Application for Assistance Under Emergency School Aid Act Title VII, Public Law 92–318 as Amended by Public Law 93–380 (NPOS), OE–116, annually, nonprofit organizations, Lowry, R. L., 395–3772.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Housing Production and Mortgage Credit:
Application for Section 8 Housing Assistance Payments Program—Existing Housing, HUD–52515, on occasion, public housing agencies, Housing, Veterans and Labor Division, 395–3532.

DEPARTMENT OF LABOR

Bureau of Labor Statistics:
Sample Refinement—FLSA Exemption Studies, BLS 3064, single time, nonfarm business establishments, Maria Gonzalez, 395–6132.

EXTENSIONS

NATIONAL SCIENCE FOUNDATION

Grantees Monthly Cash Request, 176, monthly, institutions of higher education, Lowry, R. L., 395–3772.

Grantees Quarterly Grant Expenditures Report, 449, quarterly, institutions of higher education, Lowry, R. L., 395–3772.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education:
Application for Federal Assistance—Library Research and Demonstration Program, OE 336, on occasion, LHE's, Warren Topelius, 395–5872.

Office of Human Development:
Case Service Report: Federal-State Program of Vocational Rehabilitation, OS–22–75, on occasion, State VR agencies, Sunderhauf, M. B., 395–6140.

Public Health Service:
Application for HSMHA Health Service Project Grant, HSM 550–1, on occasion, private nonprofit organizations, Marsha Traynham, 395–4529.

PHILLIP D. LARSEN,
Budget and Management Officer.

INDUSTRIAL REPORTS

Notice of Public Hearing

Pursuant to Public Law 92-463, notice is hereby given of a public hearing to be held by the Office of Management and Budget under the provisions of the Federal Reports Act of 1942 (44 U.S.C. 3506).

The purpose of the hearing is for the Office of Management and Budget to determine whether or not the continuation of certain Current Industrial Reports compiled by the Bureau of the Census and financed by business organizations are necessary to the proper performance of the Department of Commerce.

The hearing, to be held in Room 2010, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. on September 14, 1976, at 9:30 a.m., will be open to public observation and participation.

Further information regarding the hearing may be obtained from the Statistical Policy Division, Office of Management and Budget, Room 10201, New Executive Office Building, Washington, D.C. 20503, Telephone (202) 395-3772.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[FR Doc.76-23463 Filed 8-11-76;8:45 am]

POSTAL RATE COMMISSION

[Docket No. RM76-5]

PERMANENT SERVICE LIST

Filing of Periodic Reports

AUGUST 6, 1976.

By notice of April 5, 1976, the Postal Rate Commission initiated rulemaking proceedings in the above-captioned proceeding for the purpose of developing procedures for securing data from the United States Postal Service.[1] Subsequent to the issuance of the notice and receipt of comments from the Postal Service and several parties, the Commission determined that this rulemaking proceeding could be facilitated by a technical conference. An Order convening the conference was therefore issued on July 6, 1976.[2]

The Order convening the technical conference invited participation by any interested party.[3] Pursuant to that invitation, the Order convening the technical conference was served on all persons listed in the Commission's general service list which, at that time, served as a preliminary service list for these proceedings.

Of the approximately 185 persons served,[4] five parties attended the technical conference which was held August 5, 1976. By agreement of the parties present and in view of the importance of this proceeding to the Commission's regulatory functions, it was determined that the service list should include interested persons in addition to those who were in attendance. To avoid an excessive cost burden to the participating parties, however, it has been determined that the permanent service list for this proceeding shall consist only of those persons who respond to the instant notice and indicate a desire to appear on the new permanent service list for this proceeding. These responses should be filed with the Secretary of the Commission on or before August 13, 1976.

A transcript of the technical conference and all filings heretofore made in this proceeding are on file and available for public inspection in the Dockets Section of the Postal Rate Commission.

JAMES R. LINDSAY,
Secretary.

PRIVATE EXPRESS STATUTES; IMPLEMENTING REGULATIONS

Policy Statement

In the matter of statement of general policy determining lack of jurisdiction and order terminating proceeding; Washington, D.C. 20268, August 6, 1976.

TABLE OF CONTENTS

I. Introduction and background.
II. The Commission lacks general jurisdiction over the Postal Service's Regulations implementing the Private Express Statutes.
A. Introduction.
B. Jurisdiction does not lie under 39 U.S.C. 3622.
C. The Commission's mail classification functions under 3623 do not require exercise of jurisdiction over the Service's private express regulations.
D. The Commission has no general private express jurisdiction under 39 U.S.C. 3661.
E. The role of 39 U.S.C. 3662.
III. Administration and oversight of private express matters in other forums.
IV. Conclusion.
Appendix.

I. INTRODUCTION AND BACKGROUND

This statement of policy is being promulgated pursuant to section 3603 of the

Postal Reorganization Act of 1970[1] (hereinafter referred to as the Act) in order to resolve the question of the Postal Rate Commission's (Commission) jurisdiction over the United States Postal Service's (Postal Service or Service) regulations implementing the Private Express Statutes.[2] The question of Commission jurisdiction over the Postal Service's administration of the Private Express Statutes (PES) derives its origins from two earlier proceedigs, Docket Nos. MC73-1 and C75-1. In each of these proceedings, United Parcel Service (UPS) brought this question before the Commission advocating that the Commission assert jurisdiction over the Postal Service's regulations implementing the PES.

Our purpose in initiating this proceeding can best be understood in the context of the recent history of the PES. Section 7 of the Act[3] directed the Board of Governors of the Postal Service to submit to Congress and the President a report and recommendation for the modernization of the PES and the regulations and administrative practices pertinent thereto. Responding to this directive, on June 29, 1973, the Board transmitted its report, "The Private Express Statutes and Their Administration" which recommended that no statutory changes be made in the PES. The Board found, however, that the then existing regulations and administrative practices should be improved, principally through the issuance of a revised and coherent set of regulations. See Governors' Report, p. 13 and Appendix G thereto. Accordingly, on July 2, 1973, the Postal Service published a notice of proposed rulemaking, which included new regulations designed to conform to this recommendation,[4] and concurrently invited the submission by interested parties of "data, views, or arguments" pertinent to the proposed regulations.[5]

On October 9, 1973, before the regulations became effective,[6] UPS filed a memorandum[7] in the then pending classification proceedings, Docket No. MC73-1, taking exception to the Postal Service's revised regulations which, according to UPS, expanded the scope of the Postal Service's monopoly beyond its statutory limits. UPS contended that these regulations were invalid since they had been promulgated without compliance with sections 3623 and 3624 of the Act, i.e., a hearing on the record and the submission of a recommended decision to the Board of Governors. UPS, and other parties who urged assertion of Commission jurisdiction over the PES regulations in MC73-1, contended that these regulations would have a substantial effect on the scope and practical application of PES and thus impinge upon Commission regulatory functions. The thrust of their arguments focused upon the theory that our power to interpret the word "letter" as used in 39 U.S.C. § 3623(d)—which speaks of "letters sealed against inspection" carries with it the authority to define letter as used in the context of the PES, 39 U.S.C. 601. In addition, it was asserted that our ratemaking and classification powers under §§ 3622 and 3623 could be impaired and/or circumvented by the Postal Service's ability to unilaterally expand or contract the scope of its monopoly by altering the definition of the word "letter" as used in section 601 of title 39.

On April 29, 1975, in Docket No. MC73-1, we accepted certification of the following question:

> Does the Postal Rate Commission have jurisdiction over the Postal Service's regulations which purport to implement the Private Express Statutes?

At that time we noted that we had not reached a decision as to whether MC73-1 was an appropriate forum for resolving this question.

On May 5, 1975, UPS filed a complaint in a separate proceeding, pursuant to 39 U.S.C. 3662, again placing in issue the jurisdictional question (Docket No. C75-1). In that proceeding—as in MC73-1—UPS controverted the Postal Service's power to unilaterally promulgate, without Commission review, rules affecting the scope of the postal monopoly. Specifically, UPS asserted that the Postal Service was without power to unilaterally issue regulations in the form of an opinion[8] construing certain common carrier tariffs and supplements as "letters" and thus subject to the Postal Service's monopoly emanating from the PES. UPS sought various relief, including the exercise of Commission jurisdiction over Postal Service regulations implementing the PES and a Commission order directing the Postal Service to stay enforcement of its opinion pertaining to these tariffs and supplements pending resolution of the jurisdictional issue. On May 29, 1975, the Postal Service dealt with the issue raised by UPS in a further interpretation[9] of its regulations which had the effect of substantially modifying its previous opinion and rendering the complaint moot. Following the Service's opinion on reconsideration, we dismissed the complaint before us without prejudice and without granting any affirmative relief."[10] However, in terminating Docket C75-1, we took cognizance of the broader jurisdictional issue raised in Docket No. C75-1 which had not yet been resolved in Docket No. MC73-1. Thus motivated by the fact that this jurisdictional issue cut across the boundaries of our various regulatory functions, including or ratemaking and mail classification powers, we instituted these proceedings, through a "Notice of inquiry," soliciting the comments of interested parties.[11]

Our review of the relevant statutes and case law, and of the comments filed in this proceeding, leads us to adopt the following polices with regard to the Postal Service's regulations administering the Private Express Statutes:

1. The Commission will assert no general jurisdiction to review PES regulations as such; but

2. Under certain special circumstances (not now specifically apparent) the principles of ancillary jurisdiction may support, or require, consideration of PES matters as an adjunct to the exercise of our express statutory functions. In arriving at these policy conclusions we have analyzed each of our main statutory functions, in the manner described below.

II. THE COMMISSION LACKS GENERAL JURISDICTION OVER THE POSTAL SERVICE'S REGULATIONS IMPLEMENTING THE PRIVATE EXPRESS STATUTES

A. INTRODUCTION

At the outset, we note that there are three ways in which jurisdiction over the PES regulations might arise:

1. Congress might have specifically granted to the Commission the authority to review the Service's regulations;

2. Even absent an express grant of jurisdiction, the scheme of the Act might necessarily imply that the Commission was expected and intended to exercise a general power of regulatory supervision over the Service's administration of its monopoly; or

3. The jurisdiction to review the Service's PES regulations—if it exists at all—would be ancillary. It would arise only where its exercise was imperative in order to permit the Commission effectively to execute its expressly delegated or clearly implied functions.

No specific grant of jurisdiction over the PES is conferred upon the Commission by the Act as we read it, nor has any party pointed to such a delegation. No judicial interpretation has declared that such a delegation exists. Nor can we find anything in the purpose or structure of the Act as a whole which fairly implies that Congress intended us to exercise a general supervisory power over the PES. As we stated in our Notice of

[1] 39 U.S.C. 101 et seq. (1970), Pub. L. 91-375, 84 Stat. 719, et seq.

By this statement of policy we are publishing an exposition of our views on the questions covered, in the manner contemplated by 5 U.S.C. 553(b). The issuance of such statements is the recognized procedure for this purpose. See the general discussion of policy statements in Pacific Gas & Electric Co. v. FPC, 506 F. 2d 33, 38 (D.C. Cir., 1974).

Inquiry, there seems little doubt that the Postal Service has primary, if not exclusive, administrative responsibility for the enforcement of its monopoly.

On the other hand, we must be prepared to take all steps needed to insure the complete execution of those functions Congress has delegated to us. It is for that reason that we find that in some concrete cases—not now before us—we may be not only empowered but required to exercise ancillary jurisdiction over the PES regulations.[13]

A review of the comments filed in this proceeding indicates that most of the discussion has focused upon the possible application of 39 U.S.C. 3623 (classification) and section 3661 (changes in service) to private express questions. Nevertheless, section 3622 (rates) and section 3662 (complaints) have also been put forward as potential bases for Commission involvement in questions regarding the PES. We believe that all four of the statutory provisions continuing grants of jurisdiction to this Commission should be examined in connection with this question. We therefore discuss them in the order in which they appear in the Act. With regard to each of the four sections mentioned above, we have inquired into whether a grant—either express or necessarily implied—of general jurisdiction over the PES regulations can be found. In no case have we found such a grant to exist.

B. JURISDICTION DOES NOT LIE UNDER 39 U.S.C. 3622

In fixing rates under section 3622 of the Act, the Commission first determines the costs which can (and therefore must) be attributed on the basis of causation to the various classes of mail. The remaining, institutional costs must then be assigned to the several classes. In our past rate decisions we have adopted, and fully explained, our method of doing so, which involves the analysis of demand for the various classes of service and the distribution of institutional costs accordingly.[14] We have determined the relative elasticity of the classes of mail, as indicated by the record, and where a class exhibited a relatively low elasticity of demand we have assigned to it a relatively higher share of institutional costs.

Associated Third Class Mail Users (ATCMU) argues that if the Commission does not assume jurisdiction to review the PES regulations, the relationships involved in this demand analysis will become distorted as the result of Postal Service amendments to the scope of the monopoly. The result of this, in ATCMU's opinion, would be to undermine the validity of our rate determinations. ATCMU states: [15]

> * * * For example, if the Postal Service through its regulations were unilaterally to free a significant portion of first class mail from the Private Express restrictions, use of that class, and concomitantly Postal Service revenues, might well drop substantially. Any Commission classification or rate decision based upon prior revenue would then be of little value. In fact, any conclusions that the Commission might make in rate proceedings regarding the elasticity of the mail classes could conceivably be rendered widely inaccurate were the Postal Service to revise the regulations on monopoly mail.

Abstractly considered, ATCMU's argument has some plausibility. However, we believe it overlooks the proper limits of the ratemaking process, as well as the other remedies available to a party who believes that the postal monopoly is being wrongly extended or contracted.

The end-product of a section 3622 rate proceeding is not a determination of the elasticity of demad for a particular class of mail, but the setting of a rate which complies with the statutory criteria. We do not fix rates (as ATCMU implicitly assumes) for the purpose of preserving a particular market structure. If the Postal Service should alter the structure of its monopoly, and thereby change the elasticity of demand for, or the total usage of, a certain class of mail, the Commission would be apprised of this fact by the evidence in the next rate proceeding and adjust rates accordingly.[16] It is not part of the Commission's functions to maintain forever the same relative demand for the different classes of mail service; accordingly, there is no evident reason why the fact that a change in PES regulations may work a change in relative demand elasticities should be viewed as implying a power in the Commission to review Postal Service regulations defining the monopoly.

To the extent that a party contends that an extension or contraction of the monopoly is actually improper (i.e., inconsistent with the letter or spirit of the Private Express Statutes), a remedy is available more directly than through the ratemaking processes of this Commission. As we note below (p. 26), the Postal Service's PES rules are fully subject to the rulemaking provisions of the Administrative Procedure Act. A party aggrieved by the substance of a new regulation may participate in the section 553 rulemaking procedure and then obtain judicial review of the resulting order. Similarly, 5 U.S.C. 553(e) guarantees the right to petition for issuance, amendment, or repeal of an agency rule, and judicial review is again available. We believe that this is a clearer and more direct remedy than an auxiliary determination made in the context of a rate case under section 3622.

ATCMU appears to harbor some concern that the Postal Service might alter the monopoly in such a way as to cause revenues to "drop substantially." While it is understandable that a mailer might be aggrieved as a result of Postal Service policies regarding the PES which had this effect, it does not appear to us that this possibility requires our conclusion to be changed. In the first place, the historic experience of the Postal Service, and the Post Office Department before it, indicates that the monopoly is regarded as a revenue-protection measure.[18] The Post Office Department's official publication "Restrictions on Transportation of Letters" states, at page ii, that

> * * * The primary purpose of these [Private Express] laws is to safeguard the revenues of the Government derived from the transportation of letters for others by prohibiting competition with the Post Office Department in the carriage of letters by persons seeking to engage in the delivery of letters for compensation.

Apart from the long-continued practice of the postal system to treat the monopoly as a revenue protection measure, any suspension of the Private Express Statutes by Postal Service rule, such as ATCMU appears to hypothesize, would be subject to a "public interest" standard. See 39 U.S.C. 601(b). This standard would, of course, be judicially enforceable.

Accordingly, we find, first, that we lack jurisdiction over the PES regulations due to the absence of express statutory authority in section 3622. We also find that the parties hereto have not shown

[13] The doctrine that an agency may exercise powers not explicitly delegated, to the extent such exercise is reasonably ancillary to the effective execution of specifically-assigned duties, is discussed fully in Davis, Administrative Law Treatise (1970 Supp.), Section 2.00-2. It is sufficient to say here that the principle of permitting such extensions of jurisdiction where the agency must exercise the additional authority in order to carry out its normal functions is well established, and does not depend on Congress' knowledge (or lack of it), at the time of enactment, of the subject matter on which ancillary jurisdiction is exercised. See United States v. Midwest Video Corp., 406 U.S. 649, 660–61 (1972). We would emphasize that such ancillary jurisdiction as we may be called upon to exercise in a future case is not in any sense "created" by the statements made herein. It is clear from the court cases in which the ancillary jurisdiction doctrine has been developed that such jurisdiction is always available to an agency which finds its exercise necessary in a particular fact situation, regardless of whether the agency has previously published a statement of its views on the question.

[15] See Comments of ATCMU, p. 4.

[16] Such a rate proceeding could be either a general rate case initiated by the Service under section 3622, or a complaint filed by a mailer under section 3662, based on the allegation that in view of the changed relative elasticities of the classes of mail there should be a corresponding revision of the institutional cost assignments and of the resulting rates.

[18] United States Post Office Department, Restrictions on Transportation of Letters, P.O.D. Publication 111 (5th ed., July 1967), p. ii (hereinafter "P.O.D. Publication 111"). Reprinted as Appendix B, Part II to "The Private Express Statutes and their Administration" (June 29, 1973). The President's Commission on Postal Organization (Kappel Commission) expressed a similar conclusion. See Towards Postal Excellence (June, 1968), p. 129.

that such general jurisdiction is implied by Congress' assignment to the Commission of the ratemaking function.

C. THE COMMISSION'S MAIL CLASSIFICATION FUNCTIONS UNDER SECTION 3623 DO NOT REQUIRE EXERCISE OF JURISDICTION OVER THE SERVICE'S PRIVATE EXPRESS REGULATIONS.

Those parties who addressed this jurisdictional issue in the context of our mail classification functions, § 3623 of the Act, focus their arguments on whether the Commission's power to define the word "letter" as used in § 3623(d) of the Act—which speaks of "letters sealed against inspection"—carries with it the concomitant authority to define the same word as used in that portion of the PES, section 601 of title 39 which states that "A letter may be carried outside the mails when * * * " certain requirements are satisfied.[17]

Proponents of the Commission's assertion of jurisdiction over the Postal Service's regulations implementing the PES have contended in these proceedings that in order for the Commission to carry out its statutory duties under § 3623 of the Act—that is, to approve and recommend changes in the mail classification schedule—the Commission is compelled to define the word "letter" as used in section 3623.[19] They further argue that, applying the rule of statutory construction that when identical words are used in different provisions of the same statute—the words have the same meaning in both sections, the definition of "letter" adopted by the Commission pursuant to its responsibilities under section 3623 would also delineate the extent of the Postal Service's monopoly over letter mail.

In opposition thereto, other respondents to the Notice of Inquiry contend that reliance upon this rule of statutory construction in these circumstances is misconceived since this rule of construction is applicable only in those instances where the dual usage of the same term related to the same subject or common purpose.[20] Specifically, they argue that this rule of statutory construction is not applicable herein since the term "letter" as used in section 3623 relates to the object of establishing a "fair and equitable classification system" of mail including a class of mail sealed against inspection, whereas the term "letter" as used in the PES relates to an entirely different subject, the Postal Service's administration of the PES, the object of which is the preservation of postal revenues.[21]

Thus, having determined that this rule of statutory construction is not germane, these respondents maintain that the proper methodology to be employed in defining the term "letter" as used in these two sections of the Act, is by resorting to the statute's legislative history and the historical context in which the terms are used. They cite the Postal Service's longstanding practice of expounding the term in two different senses. The Service's position is exemplified by the following statement appearing in a 1967 Post Office Publication: [21]

> [t]he determination of whether a particular type of matter is a "letter" for the purposes of The Private Express Statutes has no bearing on the determination of whether the same matter.

belongs to any particular class of mail pursuant to the mail classification system currently in effect. With regard to the legislative history of the Act, it is noted that the PES were incorporated without change into the Act.[22] Thus it is asserted that Congress—being cognizant of the pre-existing dichotomy between the interpretation of the term "letter" in these different areas—had by not expressly altering the separate administration of the PES and mail classification statutes and by failing to provide any relevant legislative history in this regard intended to carry forward the pre-existing dichotomy.

We believe that this argument is sound. The rule is that an administrative construction of a statute, or of a statutory term, is presumed correct if Congress—having knowledge of that construction—reenacts the legislation unchanged.[23] In the present case, we think it highly probable that Congress had notice of the Post Office Department's dual construction of the word "letters" at the time it was considering the Postal Reorganization Act. It is quite clear from the statute itself that Congress considered the whole question of the Private Express Statutes during its deliberations on postal reorganization. Section 7 of the Act (84 Stat. 783) contains a legislative finding that the entire structure of the mail monopoly needed further study and a direction to the newly-established Postal Service to conduct such as investigation. The reports of the Kappel Commission and certain of its contractors had discussed the Private Express Statutes at considerable length.[24] Congress examined the Kappel report and relied on its findings. The Senate Committee stated [25] that:

> Background information available to the Committee has been voluminous and helpful: from the views and findings appearing in the four-volume report of the President's Commission on Postal Organization to the expert testimony recorded in the printed hearings. * * *

The Kappel Commission report was also cited as a source by the House Committee. See H.R. Rep. No. 91–1104, 91st Cong., 2d Sess. 6 (1970). This case is not one, therefore, in which Congress reenacted a long and complicated statute containing certain matters which, so far as appears, were not reexamined at all during the legislative process. The indications are, instead, that Congress concerned itself in some detail with the Postal monopoly.[26]

We thus find that Congress was aware of the substance of Post Office Department interpretation and administration of the PES. Indeed, we find it difficult to suppose that the most authoritative single document on the subject—POD Publication No. 111—could have been ignored by Congress. This volume (whose discussion of this issue was partly paraphrased in the Kappel Commission Annex already cited) was an official Post Office publication, issued by its General Counsel, containing both the text of the Private Express Statutes and the Post Office's interpretations thereof. It was sold to the public by the Superintendent of Documents for use as a guide to mailers and others desiring to know their rights and obligations under the Private Express Statutes. POD Publication No. 111 states quite explicitly in section 27, at pp. 24–25, that "letters" has one meaning in the PES context and another in connection with classification:

> The determination whether a particular type of matter is a "letter" for purposes of The Private Express Statutes has no bearing on the determination of whether the same matter is first-, second-, third-, or fourth-(parcel post) class matter when it is carried

[17] Section 601(b) of title 39 which grants the Postal Service the power to "suspend the operation of any part of this section" has been interpreted by the Postal Service as a means to contract or expand the scope of its postal monopoly. While certain parties to these proceedings have offered comments bearing on this suspension power, we are herein limiting ourselves to a discussion of the question of our power to review Postal Service regulations. That is the basic issue before us. Moreover, given our essentially negative jurisdictional conclusions respecting review of the Service's rules, it would be pointless for us to enter upon an abstract discussion of whether the suspension power exists at all.

[19] See Comments of United Parcel Service, pp. 5–7; Comments of Associated Third Class Mail Users, pp. 5–7.

[20] See Comments of Purolator Services, Inc.; American Retail Federation; and United States Postal Service.

[20] See p. 12, *supra*.

[21] POD Publication 111, Part IID, Permissible Carriage of Letters, § 27, p. 24 (1967).

[22] Compare title 39, cha. 6, with former title 39, ch. 9, Pub. L. No. 86–682, 74 Stat. 727–28.

[23] 2A Sutherland, Statutory Construction section 49.09 (4th ed., 1973), citing numerous cases. The Court of Appeals for the District of Columbia Circuit has held that where the construction has been consistently maintained and can be shown to have come to Congress' attention, reenactment without change "is almost conclusive evidence that the interpretation has congressional approval." Kay v. FCC, 443 F.2d 638, 647 (D.C. Cir. 1970) (footnote omitted). See also Udall v. Tallman, 380 U.S. 1, 16–18 (1965); United States v. Midwest Oil Co., 236 U.S. 459, 472–473 (1915).

[24] See, e.g., Towards Postal Excellence, Annex, vol. II, "Marketing," p. 6–5. The discussion there stresses both the definitional significance of the word "letters" and the fact that the monopoly created by the Private Express Statutes cuts across the boundaries of mail classes.

[25] S. Rep. No. 91–912, 91st Cong., 2d Sess. 2 (1970).

[26] Indeed, the Chairman of the House Post Office and Civil Service Committee stated in debate that the existing private express laws were being retained. See 116 Cong. Rec. 27596 (1970).

V 41 157 AUG 12 76 UMI

by the postal service. The classification of matter in the mails is governed by statutes entirely different from The Private Express Statutes. • • • It follows that some matters which are "letters" for purposes of The Private Express Statutes may be entitled to transmission through the mails at the rate of postage applicable to third- or fourth-class matter, while other such "letters" must bear postage at the first-class rate. [Footnotes omitted.]

We conclude, therefore, that when Congress in 1970 left the word "letters," without qualification or explanation, in both Chapter 6 and section 3623 of the new title 39, it must have intended to preserve the dual senses in which the Post Office Department had used the term. Such Congressional sanction of the definitional dichotomy would preclude us from ruling that the term must bear the same meaning in both contexts. Accordingly, we reject the contention that section 3623(d), by employing the word "letters"-requires us to assume jurisdiction over the PES regulations.

Our finding that the definitional attributes of the word "letter" in these two sections of the Act are independent of each other resolves the section 3623 jurisdictional question. Since no party has demonstrated, nor do we perceive, any other basis of implementing jurisdiction over the PES through § 3623, we find that our classification authority does not provide a predicate for jurisdiction over the Postal Service's regulations implementing the PES. In this regard we believe it unlikely that any action taken by the Postal Service affecting the scope of the PES will bear on any mail classification system established pursuant to § 3623. For example, a finding that some types of advertising matter, normally mailed third class, are considered "letters" under PES, does not change the character of that mail for classification purposes. It is still third-class mail.

It is also argued that section 7 of the Act, which requires the Postal Service to submit to Congress and the President, within two years, certain recommendations concerning the PES, its administration, and the regulations under it, provides a basis for Commission jurisdiction to review the Service's PES regulations.[28] The argument is that, by demanding this report from the Service, Congress showed that it "did not intend the Postal Service itself to review the Private Express Statutes or the implementing regulations."[29]

We believe that section 7 of the Act implies no more than that Congress anticipated turning its own attention to the problems of the mail monopoly at some future time, and wished to be fully informed on the subject before doing so. It may be that Congress in the future will revise the PES, and perhaps limit or even abolish the Service's power to interpret them by rule. None of this, however, suggests any role for the Postal Rate Commission in reviewing the existing activities of the Service with regard to the PES.[30] Even if we assume that ATCMU is correct in stating that Congress did not intend the Service to have sole control of the PES, that fact would not create jurisdiction in us.[30]

D. THE COMMISSION HAS NO GENERAL PRIVATE EXPRESS JURISDICTION UNDER 39 U.S.C. 3661

Several of the comments received by the Commission on the question of PES jurisdiction have been addressed to the scope of our authority under section 3661 of title 39. These may be divided into two categories: analyses which squarely confront the jurisdictional issue,[31] and critiques of the efficacy of any action the Commission might take, using the procedural mechanism set forth in section 3661, should it undertake to resolve PES questions under that section.[32]

We believe that, considered from the standpoint of the purpose Congress sought to achieve by enacting section 3661, these two questions are interrelated. That is to say, both the limitation of section 3661 jurisdiction to changes "in the nature of postal services" and the mechanism by which section 3661 cases are initiated by the Postal Service and terminated by the issuance of an advisory opinion (rather than a recommended decision) indicate that the essential purpose of the provision is to contribute to the efficient management of a postal system providing useful and adequate service—not to settle disputes over the legality of Postal Service actions. We said in our recent advisory opinion concerning the Retail Analysis Program[33] that

> • • • we regard § 3661 as having two principal functions in the scheme of postal reorganization. It is designed both (1) to provide an independent, expert critique of Postal Service programs before they are put into practice, and (2) to allow the public to contribute views, objections, and insights to the planning and execution of service changes.

As we likewise pointed out in that opinion, this is why the procedures created by section 3661 so heavily emphasize prospective evaluation of Postal Service programs. Advice of the type that section contemplates is clearly most valuable when rendered before the program is put into practice.[34]

Moreover, the decision to make section 3661 essentially an aid to (or in proper cases a check upon) postal management explains Congress' considered determination[35] that the Commission should issue only advisory opinions in service change cases.

We are thus led to the conclusion that this provision is neither designed for, nor particularly well adapted to, the kind of decision here at issue. While, as the history of the Retail Analysis Program shows, an aggrieved mailer may be able to trigger a section 3661 proceeding by invoking the aid of the courts to compel the Service to request an advisory opinion, an outside party cannot initiate such a proceeding directly. The resulting decision cannot be regarded as binding on the Service. While it is possible to characterize the statute as one which provides an ineffective remedy,[36] we believe that closer analysis indicates than section 3661 was not intended to be primarily a remedial provision.

This does not mean that matters involving the PES regulations could never arise in a section 3661 case. It is conceivable that situations could arise where a service change in the statutory sense is so intimately connected with a change in the scope of the mail monopoly that the two would have to be considered together in order to arrive at a meaningful advisory opinion. In such situations we might well be required to examine the proposed change in the PES rules as well as the planned change in service. What is significant, however, is that such circumstances would arise only where the PES matter was ancillary to a proposed change in postal services. The PES issue would not itself constitute or imply a service change independently requiring an exercise of our jurisdiction.

Since much of the discussion herein has focused on the nature and effectiveness of remedies available under section 3661, we believe it important to point out that a substantial range of remedies against a possible abuse of the PES is available outside the processes of this Commission. Parts 310 and 320 of title 39, CFR, are the regulations under which the statutorily critical term "letter" is defined and suspensions of the Private Express Statutes are effectuated. Prior to any such amendment, the Service must conduct a rulemaking proceeding under the provisions of the Administrative Procedure Act, requiring public notice of the proposed change and the solicitation of comments.[37] Any rule adopted would then be subject to judicial review under 5 U.S.C. 701–706, with the possibility of a stay of the effective date thereof pending appeal.

Nor would parties be constrained to wait until the Postal Service proposed an amendment in order to advocate positions with regard to the PES regulations. The APA procedures for rulemaking, which 39 CFR 310.7 adopts as a whole, include a provision [5 U.S.C. 553(e)] that

> Each agency shall give an interested person the right to petition for the issuance, amendment, or repeal of a rule.

Thus an interested person can initiate the rulemaking process, and obtain judicial review of the Service's disposition of the petition.

The existence of these remedies—which unlike the procedures of section 3661 are clearly intended to resolve litigious controversy rather than to assist management—means that our construction of that section does not leave the public without access to administrative and judicial forums competent to decide private express questions. Indeed, any remedy we might try to fashion under section 3661 would be duplicative of relief already obtainable in other ways. We conclude, therefore, that assertion of jurisdiction to review PES regulations under section 3661 would advance no policy of the Act, and would contravene what we believe to be the preferable construction of that section's language and purpose. Other remedies are available elsewhere, so that no party need be deprived of his day in court on these issues. Our consideration of PES regulations in § 3661 proceedings, accordingly, will be limited to those cases where such consideration is unavoidably necessary to an adequate consideration of a change in the nature of postal services for the purpose of advising the Service thereon.

E. THE ROLE OF 39 U.S.C. 3662

Under section 3662 of title 39, any interested person may file a complaint with the Commission alleging that "the Postal Service is charging rates which do not conform to the policies" of title 39, or that he is "not receiving postal service in accordance with the policies of this title." The broad scope of these provisions means that it is neither easy nor particularly useful to speculate as to the fact situations that might come before us under section 3662.

Accordingly, we shall not now declare any particular class of complaints involving administration of the PES to be unacceptable under that section. The principles and policies discussed elsewhere in this order, however, will govern in section 3662 cases. Persons contemplating filing complaints raising PES issues should therefore consider the factual situations they intend to raise in light of our discussion herein. We anticipate that unless a complainant clearly established (1) that our regulatory functions could not be executed absent assertion of jurisdiction to review the PES regulations, and, (2) that the applicable policies of the Act could not be carried out without Commission directives concerning such regulations,[38] such complaints would be dismissed for want of jurisdiction.

III. ADMINISTRATION AND OVERSIGHT OF PRIVATE EXPRESS MATTERS IN OTHER FORUMS

Aside from the legal issue, there are sound practical and policy considerations which persuade us against the exercise of jurisdiction over PES matters.

In addition to the Postal Service rulemaking procedures referred to previously (pp. 26–27, supra), the Postal Service regulations provide hearing procedures whereby aggrieved parties may contest adverse PES rulings [39 CFR Part 959 (1975)]. These cases are heard, in the first instance, by independent hearing officers, and all the procedural requirements of due process are provided. Furthermore, unlike proceedings before this Commission, such Postal Service rulings are appealable directly to the courts pursuant to 5 U.S.C. 702.

Finally, we believe that Congress is the ultimate forum for parties seeking relief from allegedly adverse PES determinations.[39] In the end, any determination to expand or contract the postal monopoly must be predicated upon a legislative, not an administrative decision. In this connection, we note that two House subcommittees having responsibility for postal matters recently reviewed the PES and concluded that no changes were necessary.[40]

IV. CONCLUSION

We thus determine, as a matter of Commission policy, that we will not assert a general jurisdiction over the PES regulations.[41] Should it be demonstrated (under a state of facts we do not now attempt to hypothesize) that exercise of ancillary jurisdiction in that area is required for the effective execution of our statutory duties, it would be our policy to exercise such derivative jurisdiction. The scope of such exercise would be strictly delimited by the fact situation present in the individual case. The necessity of invoking ancillary jurisdiction would have to be demonstrated in each case by the proponent of Commission action.

The Commission orders: (A) The foregoing statement is adopted as the Commission's formal expression of its general policy respecting its functions under the Postal Reorganization Act in relation to the Private Express Statutes and their administration and constitutes an answer to the question certified to the Commission by the Presiding Officer in Docket No. MC73–1.

(B) The foregoing statement of general policy shall be observed and in effect from and after the date of its issuance.

(C) The proceedings in Docket RM 76–4 are hereby terminated.

By the Commission. Commissioner Saponaro concurring, filed a separate statement, attached hereto.[42]

JAMES R. LINDSAY,
Secretary.

[28] See Comments of ATCMU, p. 3.

[29] Id.

[30] The Council on Wage and Price Stability (Council) filed an extensive argument recommending that a symposium be convened in order to study the impact of the PES upon mail services and to ascertain whether—as the Council suggests—allowing competition "would result in significant benefits to the economy and to the mail user." In this analysis the Council addresses various factors bearing upon the propriety of maintaining the PES as they presently exist, such as cream skimming, cross-subsidization, and the effects of the monopoly on postal rates. The issue of whether the postal monopoly should be maintained as it presently exists is clearly a legislative determination beyond our jurisdiction; thus, in our opinion it would be more fruitful for the Council to propound its arguments before Congress.

[30] Moreover, we would be most reluctant—as a matter of statutory construction—to assume that Congress embodied a permanent grant of jurisdiction in a temporary, transitional section of the Postal Reorganization Act. (Section 7 of the Act is not part of Title 39, U.S.C., as codified.)

[31] See Comments of the Assistant General Counsel (Litigation), Purolator Services, Inc., United Parcel Service and the United States Postal Service.

[32] See Comments of Associated Third Class Mail Users.

[33] Retail Analysis Program for Facilities Deployment, Docket No. N75–1 (April 22, 1976), pp. 65–66 (mimeo print).

[34] *Id.*, p. 66.

[35] Congress had before it an alternative proposal that Commission decisions be binding for a certain period. See H.R. Rep. No. 91–1363, 91st Cong., 2d Sess. 87 (1970).

[36] See Comments of Associated Third Class Mail Users, p. 8.

[37] See CFR 310.7; 5 U.S.C. 553. In fact, such a rulemaking has been held. See pp. 2–3, supra.

[38] In analyzing whether execution of the policies of the Act requires such Commission directives, parties should pay particular attention to the availability of remedies under 39 CFR 310.7.

[39] In this regard, the Comments of the Council on Wage and Price Stability relative to the repeal of the PES are more appropriately directed to the Congress.

[40] See Joint Report of the Subcommittee on Postal Facilities, Mail, and Labor Management and the Subcommittee on Postal Service of the Committee on Post Office and Civil Service, House of Representatives, 93d Cong., 2d Sess. Summary of Observations and Recommendations on United States Postal Service Activities During First Session of Ninety-Third Congress 52 (Comm. Print No. 93–17, 1974). The Report also stated that "some of the exclusions and suspensions included in the proposed Postal Service regulations are more properly the subject of legislation." Id.

[41] In our Notice of Inquiry in this proceeding, we posed a number of specific questions to which we requested the parties to address themselves. These questions were not, of course, intended as a rigid specification of issues in the proceeding; rather, they were designed to elicit information which the parties might be able to contribute to our deliberations. Accordingly we do not find it necessary to discuss each of them specifically.

To the extent the questions can useful be answered by way of explanation of our jurisdictional findings, we have done so in the discussion aobve. Otherwise, we believe that an attempt to provide an answer would, in view of our jurisdictional findings, be an abstract exercise of no particular utility either to the Commission or to the parties.

[42] Concurring statement filed as part of the original document.

MIDWEST SECURITIES TRUST CO.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on July 2, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows: Statement of the Terms of Substance of the Proposed Rule Change Proposed Amendments to Rule 6, Sections 2 through 7 Brackets indicate deletions and underlinings indicate new material.

Stock Dividends

Sec. 2 [Stock dividends and cash dividends shall be credited or debited as hereinafter set forth to the depository accounts of each Depository Participant by the Corporation on the basis of the aggregate of such Participant's depository free postions and pledged positions on the cut-off date (herein called "cut-off date positions").]

[(a) On the seventh business day (or such earlier day as the Corporation may prescribe) following the payment date for a cash dividend, each Depository Participant shall be entitled to collect an amount equal to the dividend or such Participant's cut-off date positions.]

[(b)] On the date the Corporation receives certificates representing a stock dividend, the depository account of each Depository Participant shall be credited to reflect the stock dividend on all securities included in [such Participant's cut-off date positions] *depository free positions in such account on the cut-off date, and the pledgee account of each Pledgee Participant shall be credited to reflect the stock dividend on all securities credited thereto on the cut-off date.* Fractional shares shall not be credited in respect of any stock dividend or other distribution. In lieu thereof, the Corporation shall credit an amount of cash in respect of fractional shares based on the value of fractional shares used by the issuer if available, or, if not, on the market price of the security as determined by the Corporation (which determination shall be final and binding on all Participants). *Cash in lieu of fractional shares (herein called "cash in lieu") shall be credited to accounts of Participants in accordance with Section 3, below.*

Cash Dividends and Cash in Lieu of Fractional Shares

Sec. 3. On the seventh business day (or such earlier day as the Corporation may prescribe) following the payment date for a cash dividend, and on the date the Corporation credits accounts of Participants to reflect any stock dividend or other distribution for which cash in lieu is required to be credited by the Corporation, each Depository Participant shall be entitled to collect an amount equal to the dividend or the cash in lieu, as the case may be, attributable to the aggregate of such Participant's depository free positions and pledged positions on the cut-off date for such dividend or distribution. Subject to the provisions of Section 7 below, cash dividends and cash in lieu shall not be credited to pledgee accounts.

Distribution Other Than Dividends

Sec. [3.]4. The procedures set forth in Section [2(b)]2 shall apply to distributions other than dividends, except that for such distributions the Corporation shall determine the date on which the distribution shall be credited to the [depository] accounts of the Participants entitled thereto.

Dividend Reports

Sec. [4.]5. As soon as practicable after the record date for [dividends and other distributions] *each cash dividend, the Corporation shall furnish each Depository Participant,* and as soon as practicable after the ex-distribution date for *each* distribution[s] other than a *cash* dividend[s], the Corporation shall furnish each Depository Participant *and each Pledgee Participant,* with one or more dividend reports showing, among other things, [such Participant's cut-off date positions] *the securities of the class affected by the dividend or other distribution credited to such Participant's accounts with the Corporation as of the cut-off date,* the date such dividend is payable or distribution is distributable, and the accountability of the Corporation in respect of such dividend or distribution.

Unclaimed Dividends

Sec. [5.]6. No change.

General

Sec. [6.]7. No change.

Failure to Receive Certificates

Sec [7.]8. No change.

The proposed rule change will allow for the crediting of certificates representing stock dividends and similar distributions in respect of securities in pledged positions to the account of the pledgee, rather than that of the pledgor. Also, the proposed rule change will allow Midwest Securities Trust Company to continue to credit cash dividends and cash-in-lieu in respect of securities in pledged positions to the account of the pledgor.

The proposed rule change will facilitate the prompt and accurate clearance and settlement of securities transactions.

Comments have neither been solicited nor received.

The Midwest Securities Trust Company believes that no burdens have been placed on competition.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

a. By order approve such proposed rule change, or

b. Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

AUGUST 4, 1976.

[Rel. No. 9389; 811-2440]

TDP&L INVESTMENT ACCOUNT "B", INC.

Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be an Investment Company

AUGUST 5, 1976.

Notice is hereby given that TDP&L Investment Account "B", Inc., 28 State Street, Boston, Mass. 02109, ("Fund"), an open-end, diversified management investment company registered under the Investment Company Act of 1940 ("Act"), filed an application on May 26, 1976, pursuant to section 8(f) of the Act for an order of the Commission declaring that the Fund has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Fund was incorporated in Maryland on August 27, 1973. On November 23, 1973, the Fund registered under the Act by filing its Notification of Registration on Form N–8A. On the same date, it filed a Registration Statement under the Act on Form N–8B–1 and a Registration Statement under the Securities Act of 1933 on Form S–5, which became effective on January 23, 1975. The application states that on December 6, 1974, Wellington Management Company, subadviser to the Fund and parent to the Fund's investment adviser, became the sole shareholder of the Fund, and that, subsequent to that date, the Fund has sold no additional shares. The Board of Directors of the Fund has unanimously resolved that the Fund should cease to do business as an investment company and liquidate its assets. Wellington Management Company has approved the recommendation of the Fund's Board by a unanimous vote of its Board of Directors.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 31, 1976, at 5:30 pm, submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such requests shall be served personally or by mail upon the Fund at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-23496 Filed 8-11-76;8:45 am]

[Rel. No. 34–12687]

MIDWEST STOCK EXCHANGE, BOSTON STOCK EXCHANGE AND NASD

Approval of Fingerprint Plans

The Securities and Exchange Commission today announced the approval of a fingerprinting plan submitted by the Midwest Stock Exchange, Inc. ("MSE"), for a five month pilot period beginning August 1, 1976, and ending December 31, 1976 pursuant to paragraph (c) of Rule 17f–2 [17 CFR § 240.17f–2] under Section 17(f)(2) of the Securities Exchange Act of 1934 (the "Act") [15 U.S.C. 78a et seq., as amended by Pub. L. No. 94–29 (June 4, 1975)]. Under the terms of this plan, the exchange will collect fingerprint cards submitted by its members, forward the cards to the Attorney General of the United States for identification and appropriate processing, and return the fingerprint cards and any information received as a result of such processing to the submitting members. This plan is approved pursuant to the fingerprinting program established in Rule 17f–2.[1] The Commission also announced the approval of amendments to the plans of the Boston Stock Exchange, Inc. ("BSE") and the National Association of Securities Dealers, Inc. ("NASD").

Approval of Midwest Stock Exchange Plan. Pursuant to the provisions of paragraph (c) of Rule 17f–2, the Midwest Stock Exchange submitted a plan whereby it would collect fingerprint cards from its members, forward such records to the FBI, the fingerprint processing arm of the Attorney General, for identification and appropriate processing, and thereafter return the fingerprint cards and any information received from the FBI to the participating entities submitting such records. The Commission has reviewed the procedures detailed in the plan, and having due regard for the public interest, the protection of investors, and the fulfillment of the Commission's functions under the provisions of the Act, declares the plan to be effective on August 1, 1976 for a

[1] Plans submitted by the Boston Stock Exchange, Inc., the National Association of Securities Dealers, Inc., the New York Stock Exchange, Inc., and the Pacific Stock Exchange, Inc., were approved by the Commission on June 22, 1976. See Securities Exchange Act Release No. 12566 (June 22, 1976), for the approval of these plans, a discussion of the background and purpose of Rule 17f–2, and the role of self-regulatory organizations in implementing the mandate of Section 17(f) of the Act. Plans submitted by the American Stock Exchange, Inc. and the Philadelphia Stock Exchange, Inc. were approved by the Commission on July 8, 1976. See Securities Exchange Act Release No. 12609 (July 8, 1976).

V 41 157 AUG 12 76 UMI

five month period, ending December 31, 1976.[3]

The Midwest Stock Exchange, through its role as intermediary in accordance with the terms of its plan and the provisions of Rule 17f-2, undertakes no responsibility other than the conveyance of fingerprint records and criminal history record information between participating entities and the Attorney General of the United States.

Amendments to Boston Stock Exchange and NASD Plans. The Boston Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. submitted amendments to their fingerprint plans which the Commission has approved. Under the terms of the BSE amendment, the exchange will transmit fingerprint records for employees and associated persons of non-bank registered transfer agents for issues solely listed on BSE, Massachusetts chartered bank transfer agents, and non-member New England securities firms. Under the terms of the NASD amendment, the association will transmit fingerprint records for employees and associated persons of non-bank registered transfer agents for NASDAQ-listed securities and of SECO brokers and dealers.

It is anticipated that MSE, BSE, and NASD will contact those organizations covered by the terms of their plans directly regarding submission of fingerprints pursuant to the plans. Partners, directors, officers, and employees of such organizations who do not meet the conditions for exemption from fingerprinting under paragraphs (a) or (b) of the rule may satisfy the requirements of paragraph (a) by submission of fingerprints to these self-regulatory organizations pursuant to paragraph (c) of the rule and in accordance with the provisions of the plans.

Statutory Basis and Competitive Considerations. The approval of the fingerprinting plan filed by the Midwest Stock Exchange and the amendments to the plans of the Boston Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. is made pursuant to Sections 2, 17(f), and 23(a) of the Securities Exchange Act of 1934. The Commission has determined that the approval of the plan and the amendment would impose no burden on competition not necessary or appropriate in furtherance of the purposes of the Act and is not inconsistent with the public interest or the protection of investors.

Solicitation of Public Comment. All interested persons are invited to submit written statements of views and comments on the approval of the MSE fingerprint plan and the amendments to the BSE and NASD plans to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. They should refer to File No. S7-605. All comments will be available for public inspection.

Dated: August 4, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-23127 Filed 8-11-76;8:45 am]

[3] At the end of this pilot period, the Commission will evaluate the program and consider the permanent approval of all of the plans submitted by self-regulatory organizations.

[Rel. No. 34-12674; File No. SR NYSE-76-34]

NEW YORK STOCK EXCHANGE, INC.

Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on June 14, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission proposed rule changes as follows:

TEXT OF PROPOSED RULE CHANGES

Rule 405(a)—

(1) Every member organization is required to make reasonable effort to ascertain the essential facts relative to every customer, every account and every person holding power of attorney over any account serviced by such member organization.

(2) Every member, allied member, *registered representative, or other sales person* [organization] is required [through a general partner, a principal executive officer or a person or persons designated under the provisions of Rule 342(b)(1) (¶ 2342)] to [(1) Use due diligence] *make reasonable effort to ascertain* [learn] the essential facts relative to every customer, [every order,] every [cash or margin] account [accepted or carried by such organization] and every person holding power of attorney over any account [accepted or carried by such organization] *serviced by such member, allied member, registered representative, or other sales person.*

[Supervision of Accounts]

(b)—*Every member organization which services an account is required through a person or persons designated under the provisions of Rule 342(b)(1) to:*

[(2)] *(1)* Supervise *compliance with the provisions of Rule 405(a) by every member, allied member, registered representative or other sales person of such member organization* [diligently all accounts handled by registered representatives of the organization].

[(3)] *(2)* Specifically approve the opening of an account prior to or promptly after the completion of any transaction for the account of or with a customer, provided, however, that in the case of branch offices, the opening of an account for a customer may be approved by the manager of such branch office but the action of such branch office manager shall within a reasonable time be approved by [a general partner, a principal executive officer or] a person [or persons] designated under the provisions of Rule 342(b)(1)(¶ 2342). The [member, general partner, officer or] designated person approving the opening of the account shall, prior to giving [his] approval, be [personally] informed as to the essential facts relative to the customer and [to the nature of] the proposed account and shall indicate [his] approval in writing on a document which is part of the permanent records of [his office or] *the member* organization.

* * * *Supplementary Material:*

.10 Application of Rule 405(a) and (b)

For purposes of this rule: (a) the member, allied member, registered representative or other sales person servicing an account shall be deemed to be the person having direct contact with the customer, i.e., the person accepting orders or rendering reports; (b) in the case of accounts that are introduced to a member or member organization on a disclosed basis, the introducing organization shall be deemed to be servicing the account.

.20 Common Purchase and Sale Accounts

To facilitate the isolated purchase or sale of securities valued at $2,000 or less for a person who does not have an account, member organizations are not required to comply with Rule 405 (a) or (b) or Rule 409. Instead a common purchase or sale account may be established for this purpose provided;

(a) In the case of a purchase: (1) Full payment is received prior to the execution of the order, except in the case of securities being distributed pursuant to a prospectus or offering circular; (2) A confirmation is sent to the customer; and (3) Prompt delivery of the security is made to the customer.

(b) In the case of sales: (1) The securities are not part of any distribution and are received in good delivery form at or prior to the entry of the order in the exact amount to be sold; (2) The customer is identified as the individual in whose name the securities are registered; (3) A confirmation is sent to the customer; and (4) Full payment to the customer is made on or immediately following settlement date.

The record for transactions executed in common purchase and sale accounts shall include: customer's name and address, name and amount of securities, date and amount of deposit, if any, date securities are received or delivered, date bought or sold, amount per share, total amount debited or credited to the account, total amount of check issued or received by customer, and date of disbursement.

[(4) Common Sales Accounts]

[To facilitate the isolated liquidation of securities valued at $1,000 or less registered in the name of an individual who does not have an account, and which are not part of any distribution, a member organization may sell the securities through a common sales account set up for the specific purpose of handling such sales without sending a periodic statement to the customer as required by Rule 409, provided:

(a) The customer is identified as the individual in whose name the securities are registered,

(b) The securities are received by the member, at or prior to the time of the entry of the order, in the exact amount to be sold in good delivery form,

(c) A confirmation is sent to each customer,

(d) All proceeds of such sales are paid out on or immediately following settlement date, and

(e) The record made in the common sales account includes as to each transaction: customer's name and address, name and amount of securities to be sold, date received, date sold, amount per share, total amount credited to the account, total amount of check issued to the customer and the date of disbursement.]

[* * * Supplementary Material:]

[.10 Application of Rule 405(1) and (3) (§ 2405).—

In the case of a margin account carried by a member organization for a nonmember corporation, definite knowledge should be had to the effect that the nonmember corporation has the right under its Charter and By-laws to engage in margin transactions for its own account and that the persons from whom orders and instructions are accepted have been duly authorized by the corporation to act on its behalf. It is advisable in each such case for the carrying organization to have in its possession a copy of the corporate Charter, By-laws and authorizations. Where it is not possible to obtain such documents, a member or allied member in the member organization carrying the account should prepare and sign a memorandum for its files indicating the basis upon which he believes that the corporation may properly engage in margin transactions and that the persons acting for the corporation have been duly authorized to do so.]

[In the case of a cash account carried for a non-member corporation, the carrying member organization should assure itself through a general partner or an officer who is a holder of voting stock that persons entering orders and issuing instructions with respect to the account do so upon the proper authority.]

[When an agency account is carried by a member organization its files should contain the name of the principal for whom the agent is acting and written evidence of the agent's authority.]

[When Estate and Trustee accounts are involved a member organization should obtain counsel's advice as to the documents which should be obtained.]

[In the case of accounts which are introduced by one member or member organization to another and are carried on a disclosed basis, the introducer will not be held to any responsibility under Rule 405 (1) and (3) (¶ 2405) when the essential facts concerning a particular customer are obtained directly by the clearing organization and the opening of the account is approved by a member or allied member in the clearing organization "prior to or promptly after the completion of any brokerage transaction" and that is the understanding between the two.]

[As an alternative method of handling the investigation and approval of such accounts the clearing organization may treat the introducing organization, for the purposes of Rule 405(1) and (3) (¶ 2405), as though it were its branch office. Under these circumstances, the introducer will learn the essential facts with respect to each customer, and a general partner, a principal executive officer or a person or persons designated under the provision of Rule 342(b)(1) (¶ 2342) of the introducing organization will give an approval for the opening of the account. The information obtained must subsequently be passed upon by a member or allied member in the clearing organization and any further inquiry which the clearing organization might feel is desirable should be made. However, the mere fact that the account is being introduced by another member, or member organization is not sufficient information to permit a member or allied member in the carrying organization to approve the opening of the account.]

[Information as to the country of which a customer is a citizen is deemed to be an essential fact.]

NYSE STATEMENT OF PURPOSE OF PROPOSED RULE CHANGES

Rule 405 currently requires every member organization, through a general partner, principal executive officer or other designated person to use due diligence to learn the essential facts relative to every customer, order, and account accepted or carried by a member organization. The Rule further provides for the supervision of accounts handled by registered representatives and the approval of all new accounts. The supplementary material of the Rule contains provisions for common sales accounts, treatment of cash and margin accounts carried for nonmember corporations, and delineation of responsibilities of introducing and carrying member organizations for compliance with the provisions of the Rule for accounts carried on a disclosed basis.

Because the essential facts and methods of supervison involve so many variables, the requirements have intentionally been left somewhat broad. The Exchange's approach has been to provide member organizations with a set of basic guidelines upon which they must expand appropriately in order to protect the firm's financial position, thereby insuring, in any situation, that the Exchange's facilities are being utilized properly.

Since the inception of Rule 405, substantially increased product lines, greatly expanded markets and a dramatic growth in the number of broker/dealer participants in the industry have significantly changed the complexion of the business. Continuing technological advances, proliferation of legal liabilities, and the trend toward broker/dealer specialization in specific aspects of the business, point to the appropriateness of reviewing the applicability and effectiveness of the various provisions of the Rule. The proposed amendments contained herein are designed to conform the Rule with the numerous interpretations of the many facets of Rule 405.

1. *Place initial responsibility to learn the essential facts upon the individual handling the account*

Rule 405 currently places the responsibility for learning the essential facts relative to every customer, order, cash or margin account or person holding power of attorney upon a *general partner, a principal executive officer, or person designated supervisory responsibility under Rule 342.* These procedures would be more efficiently and expeditiously accomplished if initial responsibility to obtain the essential facts rested with the individual handling the account (usually a registered representative). A more thorough initial investigation would avert many problems that can arise if detailed investigation is put off until final approval of an account.

Member organization procedures for collecting and learning essential facts and recommending securities transactions are, for the most part, accomplished by the individual registered representative, member or allied member who actually services the account. As a practical matter, the Exchange has taken the position that, where a member organization requires a registered representative to obtain the essential facts and the registered representative fails to do so, the representative as well as the individual charged with the supervisory responsibility under the Rule, may be charged with a violation of the Rule. The proposed amendments will conform the Rule with its actual interpretation and enforcement.

The proposed amendments would replace the term, "due diligence", with "make reasonable inquiry" because of the implications attached to "due diligence" in connection with underwritings. Also, since initial responsibility for ascertaining the essential facts will now rest with that individual with direct customer contact, a new term "other sales persons" is being introduced to encompass all individuals who may handle customer accounts but who are not required to be registered with the Exchange, such as individuals engaged exclusively in the sale of commodities or insurance.

2. *Provide for common purchase accounts in addition to common sales accounts for the isolated purchase or sale of securities and increase the maximum valuation of securities eligible to be purchased or sold for an individual without opening an account from $1,000 to $2,000*

The existing provisions permitting the isolated liquidation of securities valued at $1,000 or less would be moved from the amended rule to the Supplementary Material and would be increased from $1,000 to $2,000 to reflect the impact of

V 41 157 AUG 12 76 UMI

inflation since the provisions were adopted in 1969. These provisions were originally intended to allow member organizations to sell securities for individuals who had acquired small amounts of stock other than through the member organization, e.g., through inheritance, stock of employer, etc. The Rule allows individuals to dispose of such securities through a member organization without requiring the member organization to incur the expense involved in opening and maintaining an account for the individual. The Exchange believes similar procedures should be established for individuals wishing to make small isolated purchases of securities on a cash basis. The text of these provisions has been rewritten to improve clarity, but the procedures remain unchanged.

3. *Eliminate Supplementary Material which is no longer applicable*

The amendments would eliminate the Supplementary material (Rule 405.10) dealing with the responsibilities of introducing and carrying member organizations for ascertaining the essential facts and approving new accounts. The amended Rule would assign these responsibilities to the servicing member organization—i.e., the member organization accepting the account from the customer. This change would be consistent with establishing a logical progression of responsibility, since the introducing firm generally undertakes the gathering of new account information; collection of all documentation and agreements necessary to sustain the account, supervision of personnel handling accounts, responsibility for recommendations made by salesmen and, in most instances, executes the order, reporting the execution to the carrying member organization. The carrying member organization, however, would retain responsibility for compliance with Regulation T (margins) and would continue to bear the capital burden for the introduced accounts. Other functions and responsibilities inherent in the carrying relationship could still be contractually allocated.

In the past, the Exchange has always had a higher net capital minimum dollar amount requirement for its members than non-members have had under SEC regulations. However, the new SEC Uniform Net Capital Rule [17 CFR § 240.15c3–1] imposes similar capital requirements on all requirements on all registered broker/dealers who do business with the public. This uniform capital requirement, coupled with the proposed amendments to Rule 405, underlie the proposal that member organizations not be required to be responsible for ascertaining detailed essential facts for accounts introduced by non-member organizations for which they perform carrying functions only.

Supplementary material containing suggested procedures for the handling of cash and margin accounts for non-member corporations, agency, estate and trust accounts, is being deleted from the Rule and will be more appropriately handled through an Information Memo.

NYSE STATEMENT OF BASIS UNDER THE ACT OF PROPOSED RULE CHANGES

The proposed amendments are consistent with the principles embodied within Section 6(b)(5) of the Act which provides that an exchange shall not be registered as a national securities exchange unless its rules are designed to "prevent fraudulent and manipulative acts and practices." The proposed amendments are consistent with this section in that they enhance the ability of Exchange organizations to protect their capital from undue risks resulting from fraudulent and manipulative acts of customers.

(i) Inapplicable
(ii) Inapplicable
(iii) Inapplicable
(iv) Inapplicable
(v) The proposed amendments would serve to protect Exchange member organizations' capital from undue risks resulting from fraudulent and manipulative acts. (See Discussion above.)
(vi) Inapplicable
(vii) Inapplicable
(viii) Inapplicable

COMMENT RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON PROPOSED RULE CHANGES

One comment on the proposed amendments was received from a member organization through the Securities Industry Association with respect to a listing of minimum essential facts, contained in a preliminary draft of the proposed amendments that has subsequently been removed.

NYSE STATEMENT OF BURDEN ON COMPETITION INAPPLICABLE

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above mentioned self-regulatory organization. All submissions should refer to the file number reference in the caption above and should be submitted on or before days after the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 19638]

OHIO POWER CO.

Construction of Pollution Control Equipment

AUGUST 4, 1976.

In the matter of Ohio Power Company, 301 Cleveland Avenue, SW., Canton, Ohio, 44702; (70-5886).

Notice is hereby given that Ohio Power Company ("Ohio Power"), an electric utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed an application-declaration, and an amendment thereto, with this Commission designating Sections 9(a) and 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 44(b)(3) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

Ohio Power states that in order to comply with prescribed environmental quality control standards of the State of West Virginia it has been and will be necessary to construct certain high efficiency electrostatic precipitators ("Project") for particulate emission control and related facilities at its Mitchell Plant. By resolution of March 4, 1975, Marshall County, West Virginia ("County") determined that it would authorize and issue one or more series of its pollution control revenue bonds ("Revenue Bonds") to finance the cost of engineering, design, acquisition, and construction of the Project.

Ohio Power proposes to enter into an agreement of sale ("Agreement") with the County whereby the County will construct and equip the Project. To finance the Project, the County will issue Revenue Bonds in an initial principal amount of $25,000,000 ("Series A Bonds") and additional Revenue Bonds in principal amounts presently estimated not to exceed $45,000,000, sufficient to cover construction costs of the Project. The proceeds from the sale of the Series A Bonds will be deposited by the County with a Trustee ("Trustee") under an Indenture to be entered into between the County and such Trustee (the "Indenture") pursuant to which the Series A Bonds are to be issued and secured. Such proceeds will be applied to payment of the cost of construction of the project. The Agreement also will provide for the sale of the Project to Ohio Power the payment by Ohio Power of the purchase price of the Project in semi-annual installments over a term of years, and the assignment and pledge to the Indenture Trustee of the County's interest in, and of the monies

receivable by the City under, the Agreement.

The Agreement will provide that each installment of the purchase price for the Project payable by Ohio Power will be in such an amount (together with other monies held by the Trustee under the Indenture for that purpose) as will enable the County to pay, when due, (i) the interest on the Revenue Bonds, any additional bonds and any refunding bonds, (ii) the principal amount of the Revenue Bonds, any additional bonds and any refunding bonds payable at the time of their respective stated maturities and (iii) amounts, including any accrued interest, payable in connection with any mandatory redemption of the Revenue Bonds, any additional bonds or any refunding bonds. The Agreement also obligates Ohio Power to pay the fees and charges of the Trustee, as well as certain administrative expenses of the County. The Agreement further provides that Ohio Power may prepay the purchase price of the Project (i) by paying, under certain conditions, amounts sufficient to redeem all the Revenue Bonds then outstanding and all other amounts payable under the Indenture or (ii) at any time by depositing in the Indenture's Bond Fund or delivering to the Trustee amounts sufficient to provide for the release of the Indenture. Upon prepayment, Ohio Power may terminate the Agreement.

Ohio Power proposes to convey equipment previously constructed ("Existing Facilities"), subject to its First Mortgage Lein, to the County. Ohio Power will receive out of the proceeds of the Bonds, an amount equal to Ohio Power's original cost of the existing facilities. The existing facilities will thereupon become a part of the project. Proceeds received by Ohio Power in reimbursement of the cost of construction of the Project, as defined in the Agreement, are to be applied to the payment of unsecured short-term debt of Ohio Power. As of June 30, 1976, Ohio Power's short-term debt amouted to $52,000,000 and at the time of the sale of the project, such short-term debt will not exceed $65,000,000.

It is contemplated that the Revenue Bonds will be sold by the County pursuant to arrangements with a group of underwriters represented by Blyth Eastman Dillon & Co., Inc. In accordance with the laws of the State of West Virginia, the interest rate to be borne by the Revenue Bonds will be fixed by the County Commission of the County. While Ohio Power will not be a party to the underwriting arrangements for the Revenue Bonds, the Agreement will provide that the terms of the Revenue Bonds and their sale by the County shall be satisfactory to Ohio Power.

Ohio Power has been advised that the annual interest rates on obligations, interest on which is tax exempt, historically have been and can be expected at the time of issue of the Revenue Bonds to be 1½% to 2½% lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to federal income tax.

The Series A Bonds will be dated on or about the first day of the month in which they are issued, will bear interest semi-annually and will mature at a date or dates not more than 30 years from the date of their issuance. It is expected that the Series A Bonds will not be redeemable at the option of the County within 10 years from their issue date except under certain circumstances. Series A Bonds will be subject to mandatory redemption under the circumstances and terms specified in the Indenture.

Fees and expenses incident to the proposed disposition of the Existing Facilities and the acquisition of the Project (as distinguished from and excluding fees and expenses incident to the sale of the Revenue Bonds by the County payable out of the proceeds of such sale) will be supplied by amendment. It is stated that the Public Utility Commission of Ohio has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 30, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary

[Rel. No. 12677]

OPTIONS CLEARING CORP.

Approval of Proposed Rule Changes

AUGUST 2, 1976.

In the matter of The Options Clearing Corporation, 6150 Sears Tower, 233 South Wacker Drive, Chicago, Illinois 60606; (SR-OCC-76-5).

On June 2, 1976, The Options Clearing Corporation ("OCC") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, a proposed rule change amending certain OCC By-Laws and Rule 604 to permit clearing members to deposit as margin or as contributions to the OCC clearing fund, United States Government securities having maturities of five years or less from the date of issue. In addition, the proposed rule change specifies the method to be used by OCC in determining the current market value of Government securities for the purpose of margin and clearing fund deposits.

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, notice of the proposed rule change was published in the FEDERAL REGISTER (41 Fed. Reg. 24785, June 18, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 34-12537, June 11, 1976. By letter dated June 19, 1976 OCC amended its submission. This letter has been placed in the public file and has been incorporated in the submission.

The Commission has reviewed the proposed rule change contained in File No. SR-OCC-76-5 and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies, and in particular, the requirements of Section 17A and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change contained in File No. SR-OCC-76-5 be, and hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

V 41 157 AUG 12 76 UMI

[Rel. No. 19637]

PENNSYLVANIA POWER CO.

Sale of First Mortgage Bonds

AUGUST 4, 1976.

In the matter of Pennsylvania Power Company, 1 East Washington Street, New Castle, Pennsylvania 16103; (70-5884).

Notice is hereby given that Pennsylvania Power Company ("Pennsylvania"), an electric utility subsidiary company of Ohio Edison Company ("Ohio Edison"), a registered holding company and an electric utility company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Pennsylvania proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to $15,000,000 principal amount of First Mortgage Bonds (the "new bonds"), to mature in not less than 5 years and not more than 30 years. The interest rate (which will be a multiple of ⅛ of 1%) and the price (which will be not less than 100%, unless Pennsylvania shall authorize a lower percentage not less than 99%, and shall not exceed 102.75% of the principal amount of the bonds thereof) will be determined by competitive bidding. The new bonds will be issued under the Indenture, dated as of November 1, 1945, between Pennsylvania and The First National Bank of the City of New York (now Citibank, N.A.), Trustee, as heretofore amended and supplemented, and as to be further amended and supplemented by a Supplemental Indenture to be dated as of the first day of the calendar month in which the new bonds are to be issued. The terms of the issue preclude Ohio Edison, with certain exceptions, from redeeming any new bonds prior to July 1, 1981, if such redemption is for the purpose of refunding such bonds with proceeds of funds borrowed at a lower effective interest cost. Ohio Edison shall notify prospective bidders no later than 72 hours prior to the time designated for the submission of bids of (1) the number of series of new bonds to be created and (2) the maturity date of the bonds.

Pennsylvania now also proposes to issue $1,321,000 principal amount of First Mortgage Bonds, 3¼% Series due 1982 ("Sinking Fund Bonds"). The bonds will be issued under the Indenture of Pennsylvania and The First National Bank of the City of New York, Trustee, as amended and supplemented. The bonds are to be of the series provided for by the Third Supplemental Indenture dated as of February 1, 1952, and will be identical with those previously authorized.

Proceeds of the sale of the new bonds will be applied to the repayment of part of unsecured short-term indebtedness of Pennsylvania or to construction expenditures. It is stated that Pennsylvania anticipates that it will have short-term debt outstanding of approximately $18,500,000 at the time of the sale of the new bonds. It is estimated that construction expenditures will amount to $68,364,000 in 1976.

The fees and expenses to be incurred in connection with the proposed issue and sale of the new bonds and the fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. The fees, commissions, and expenses to be incurred in connection with the Sinking Fund Bonds are estimated at $2,250, including legal fees of $750 and Trustee fees of $1,400. It is stated that the Public Utilities Commission of Ohio has jurisdiction over the proposed transactions and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than August 30, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

VETERANS ADMINISTRATION

CENTRAL OFFICE EDUCATION AND TRAINING REVIEW PANEL

Meeting

The Veterans Administration gives notice pursuant to Public Law 92-463 that a meeting of the Central Office Education and Training Review Panel, authorized by Section 1790(b), Title 38, United States Code, will be held in Room ₳53, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, DC on August 30, 1976, at 10 a.m. The meeting will be held for the purpose of reviewing the July 16, 1976 decision of the Director, Veterans Administration Regional Office, St. Louis, Missouri, that benefits to all eligible persons enrolled in American Automation Training, Inc. and National Meat Packers Training, Inc. both at 3435 Broadway, Kansas City, Missouri 64111 and Standard Technical Institute, 2628 McGee Trafficway, Kansas City, Missouri 64108 be discontinued effective July 31, 1976.

The meeting will be open to the public up to the seating capacity of the conference room. Because of the limited seating capacity, it will be necessary for those wishing to attend to contact Mr. Halsey A. Dean, Chief Field Operations, Education and Rehabilitation Service, Veterans Administration Central Office (phone 202 389-2850) prior to August 25, 1976.

Dated: August 5, 1976.

R. L. ROUDEBUSH,
Administrator.

V 41 157 AUG 12 76 UMI

FILING OF PETITION; DECLARATORY ORDER

No. MC–C–9133 (Notice of filing of petition for declaratory order), filed July 20, 1976. Petitioner: GLEASON TRANSPORTATION CO., INC., Bellows Falls, Vt. Petitioner's representative: Frederick T. O'Sullivan, P.O. Box 2184, Peabody, Mass. 01960. By petition filed July 20, 1976, petitioner seeks a ruling as to the lawfulness of certain of its motor carrier operations purportedly conducted under the exemption of section 203(b)(6) of the Interstate Commerce Act. Specifically, petitioner requests issuance of a declaratory order to the effect that the bulk transportation of a blend of milk, skim milk and "skim condensed milk", from the facilities of Greensboro Farm Products, Inc., located at Canastota, N.Y., to the facilities of Dannon Yogurt, located at Ridgefield, N.J., is exempt from regulation by this Commission. Petitioner states that the confusion stems from its consignee's use of the terminology "skim condensed milk" to name the product which composes 16 percent of the blend. "Condensed skim milk" is produced by putting skim milk through an evaporator which boils off water under a vacuum. The purpose of the process is to raise the milk solid level in the skim milk from 8.7 percent to approximately 34 percent. No sugars, stabilizers or other additives are put into the blend.

Petitioner has received an informal opinion which states that due to the processing involved in the manufacture of the above-described product, it is not a commodity the transportation of which is exempt from regulation. It believes however, that the involved commodity is exempt under Administrative Ruling No. 119, issued April 26, 1972, which exempts skim milk with two-thirds of the water removed. Petitioner argues that the Commission's formal interpretation should be based on the physical composition of the involved product and not on the label assigned to it by the consignee, and seeks an order declaring that the above-described traffic is within the exemption of section 203(b)(6) of the Interstate Commerce Act.

No oral hearing is contemplated at this time, but any person (including petitioner) interested in making representations in favor of, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. An original and fifteen (15) copies of such data, views, or arguments shall be filed with this Commission on or before September 27, 1976. A copy of each representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours. Notice to the general public of the matters herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Volume No. 43]

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

AUGUST 6, 1976.

Permanent authority petitions and applications; finance matters (including temporary authorities); railroad abandonments; alternate route deviation letter-notices; and intrastate applications concurrently seeking authority on interstate or foreign commerce.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within on or before September 13, 1976. Such protest shall comply with special rule 247 (d) of the Commission's general rules of practice (49 CFR 1100.247) [1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 1756 (Sub-No. 4) (Notice of filing of petition to add an additional origin point), filed July 23, 1976. Petitioner: PEOPLE'S EXPRESS CO., 497 Raymond Blvd., Newark, N.J. 07105. Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *common carrier* Certificate in No. MC 1756 (Sub-No. 4), issued September 19, 1963, authorizing transportation over irregular routes, of *wine*, in containers, between the plantsite of United Vintners, Inc., located at Port Newark, N.J., on the one hand, and, on the other, points in Nassau, Suffolk, and Westchester Counties, N.Y. By the instant petition, petitioner seeks to modify its Certificate by adding Port Jersey, N.J., as an additional origin point to the above authority.

No. MC 15119 (Notice of filing of petition to modify territorial description), filed July 23, 1976. Petitioner: APPEL BROS., INC., 295 13th St., Jersey City, N.J. 07302. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner holds a motor *contract carrier* Permit in No. MC 15119, issued March 16, 1961, authorizing transportation over irregular routes, of *packing house products* and *dairy products*, between New York, N.Y., and points in Hudson and Passaic Counties, N.J., on the one hand, and, on the other, points in Nassau and Westchester Counties, N.Y., and points in Essex, Hudson, Middlesex, Mercer, Bergen, Morris, Passaic, Somerset, and Union Counties, N.J. By the instant petition, petitioner seeks to modify its Permit by adding Suffolk County, N.Y., as an additional radial point to the above authority.

No. MC 94393 and (Sub-No. 3) (Notice of filing of petition to modify commodity description), filed July 26, 1976. Petitioner: W. J. CASEY TRUCKING & RIGGING CO., INC., 1200 Springfield Road, Union, New Jersey 07083. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904. Petitioner holds motor *common carrier* Certificates in No. MC 94393 and (Sub-No. 3), issued March 3, 1955 and August 28, 1957, respectively, authorizing transportation (1) in MC 94393, over irregular routes, of *heavy machinery, tanks, masts, boats, art exhibits, cranes, electric devices, tools, wire, poles, and store refrigerators*, between points in the New York, N.Y., commercial zone as defined in 1 M.C.C. 665, on the one hand, and, on the other, points in Connecticut, New York, New Jersey, and those in Pennsylvania on and east of U.S. Highway 15; and (2) in MC 94393 (Sub-No. 3), as pertinent, over irregular routes, of *heavy machinery and factory equipment*, between points in New Jersey and New York within 75 miles of Montclair, N.J., including Montclair. By the instant petition, petitioner seeks in both MC 94393 and (Sub-No. 3) to delete from the commodity description "heavy machinery" and substitute in lieu thereof, the following description: "Commodities requiring special handling or rigging because of size or weight."

No. MC 108313 (Sub-No. 12) (Notice of filing of petition to add a commodity), filed July 21, 1976. Petitioner: CALEDONIA LINES, INC., P.O. Box 8, Caledonia, N.Y. 14423. Petitioner's representative: Karen R. Schicker (same address as applicant). Petitioner holds a motor *contract carrier* Permit in No. MC 108313 (Sub-No. 12), issued April 5, 1974, authorizing transportation over irregular routes, of *compressed gases and liquid chemicals*, in bulk (except petroleum products), between points in Indiana, Connecticut, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Vermont, under a continuing contract, or contracts, with Jones Chemicals, Inc., located at Caledonia, N.Y. By the instant petition, petitioner seeks to modify its Permit by deleting the exception from the above authority.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 109533 (Sub-No. 74) (Notice of filing of petition to modify territorial description), filed July 30, 1976. Petitioner: OVERNITE TRANSPORTATION COMPANY, 1100 Commerce Road, P.O. Box 1216, Richmond, Va. 23209. Petitioner's representative: Eugene T. Liipfert and Mark J. Andrews, Suite 1100, 1660 L St. NW., Washington, D.C. 20036. Petitioner holds a motor *common carrier* Certificate in No. MC 109533 (Sub-No. 74), issued May 24, 1976, authorizing transportation over irregular route, of *general commodities* (except those of unusual value, classes A and B explosives, households goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and new household furniture), between Gallipolis, Ohio, on the one hand, and, on the other, points in Pennsylvania and West Virginia south of a line beginning at the West Virginia-Pennsylvania State line and extending eastward along U.S. Highway 22 to junction Pennsylvania Highway 60, thence along Pennsylvania Highway 60 to Pittsburgh, Pa.; west of a line beginning at Pittsburgh and extending southward along U.S. Highway 19 to junction West Virginia Highway 100 (formerly unnumbered highway) just south of the Pennsylvania-West Virginia State line, thence along West Virginia Highway 100 through Maidsville, W. Va., to junction U.S. Highway 19, thence along U.S. Highway 19 to Summerville, W. Va., and thence along West Virginia Highway 39 to junction U.S. Highway 60 and north of a line beginning at the Kentucky-West Virginia State line and extending eastward along U.S. Highway 60 to junction West Virginia Highway 39, including points on the indicated portions of the highways specified, restricted against the transportation of structural steel and parts for coal mining machinery, coal handling machinery, coal preparation machinery, steamboat boilers, and equipment, machinery and parts used in conjunction with steamboat boilers, and further restricted against the transportation of iron, steel, and iron and steel articles which originate at points located within the afore-defined areas in Pennsylvania and West Virginia and are destined to Gallipolis, Ohio. By the instant petition, petitioner seeks to modify its Certificate by adding Bluefield, W. Va., and Covington, Va., as additional base radial points to the above authority.

No. MC 123179 and (Sub-Nos. 2 and 3) (Notice of filing of petition for declaratory order or modification of certificates), filed June 29, 1976. Petitioner: ARROW FREIGHT LINES, INC., 80 Progress St., West Springfield, Mass. 01089. Petitioner's representative: Arthur M. Marshall, 135 State St., Suite 200, Springfield, Mass. 01103. Petitioner holds motor *common carrier* Certificates in No. MC 123179 and (Bub-Nos. 2 and 3), issued March 9, 1961, June 7, 1961, and January 29, 1963, respectively, authorizing transportation (1) in MC 123179, over irregular routes, of (a) *new household furnishings and new furniture*, uncrated, between West Springfield, Mass., and points in Massachusetts, within ten miles thereof, on the one hand, and, on the other, points in Connecticut, New Hampshire, New Jersey, New York, and Vermont; (b) *new furniture*, uncrated, from Chicopee and Chicopee Falls, Mass., to points in Pennsylvania; and (c) *furniture returned for repairs*, uncrated, from points in Pennsylvania, Connecticut, New Hampshire, New Jersey, New York, and Vermont, to Chicopee and Chicopee Falls, Mass.; (2) in MC 123179 (Sub-Nos. 2), over irregular routes, of (a) *new furniture*, from Springfield, Mass., to points in that part of Maine south of a straight line beginning at the United States-Canada Boundary line near Penobscot Lake, and extending in a southeasterly direction through Bangor and Ellsworth Falls, to the shore of the Atlantic Ocean; (b) *damaged* or *rejected shipments* of new furniture, from the above-described destination points, to Springfield, Mass.; and (c) *new furniture*, between Springfield, Mass., on the one hand, and, on the other, points in Rhode Island; and (3) in MC 123179 (Sub-No. 3), over irregular routes, of (a) *new furniture*, uncrated, from West Springfield, Mass., and points in Massachusetts within 10 miles thereof, to points in Maine, on, north, and east of a line beginning at the port of entry on the United States-Canada boundary line located near Penobscot Lake, Maine, and extending in a southeasterly direction through Bangor and Ellsworth, Maine, to the Atlantic Ocean; and (b) *furniture*, returned for repairs, uncrated, from points in Rhode Island, and points in Maine, on, north, and east of a line beginning at the port of entry on the United States-Canada boundary line located near Panobscot Lake, Maine, and extending in a southeasterly direction through Bangor and Ellsworth, Maine, to the Atlantic Ocean, to West Springfield, Mass., and points in Massachusetts, within 10 miles thereof. By the instant petition, petitioner seeks an interpretation by the Commission that the term "uncrated" includes items wrapped, in cartons or without covering or packing.

No. MC 127820 (Sub-Nos. 3 and 4) (Notice of filing of petition to modify territorial description), filed July 2, 1976. Petitioner: TRANS-SERVICE, INC., P.O. Box 612, 1943 South Lawn Extended, Coshocton, Ohio 43812. Petitioner's representative: Taylor C. Burneson, 1631 Northwest Professional Plaza, Columbia, Ohio 43220. Petitioner holds motor *contract carrier* permits in No. MC 127820 (Sub-Nos. 3 and 4) issued September 27, 1968 and July 13, 1971, respectively, authorizing transportation, over irregular routes, in MC 127820 (Sub-No. 3), of *Gloves, boots, products, materials*, and *supplies* used in the manufacture, sale, and packaging of gloves and boots, and diagnostic equipment and apparatus, (1) from Coshocton and Canton, Ohio, to Los Gatos and Emeryville, Calif., under a continuing contract, or contracts, with Edmont-Wilson Division of Becton, Dickinson Company, located at Coshocton, Ohio; and (2) from Los Gatos, Calif., to Coshocton and Canton, Ohio; and in MC 127820 (Sub-No. 4), of *Gloves, and products, materials, and supplies* used in the manufacture, packaging, and sale of gloves, (1) from Los Gatos, Calif., to Itasca and Broadview, Ill., and Massillon, Ohio; and (2) from Emeryville, Calif., to Itasca and Broadview, Ill., and Coshocton, Canton, and Massillon, Ohio, under a continuing contract, or contracts, with Bection, Dickinson and Company, located at Rutherford, N.J. By the instant petition, petitioner seeks to modify the Permit in MC 127820 (Sub-No. 3), so as to serve Benicia, Calif., as a destination point in lieu of Emeryville, Calif.; and in MC 127820 (Sub-No. 4), so as to serve Benicia, Calif., as an origin point in lieu of Emeryville, Calif.

No. MC 133478 (Sub-No. 8) (Notice of petition) (Correction), filed July 7, 1976, published in the FEDERAL REGISTER issue of July 29, 1976, and republished as corrected this issue. Petitioner: HEARIN TRANSPORTATION, INC., P.O. Box 25448, 8565 SW. Beaverton Hillsdale Hwy., Portland, Oreg. 97225. Petitioner's representative: Nick I. Goyak, 555 Benjamin Franklin Plaza, Portland, Oreg. 97258. The purpose of this partial republication is to indicate the correct docket number assigned to this proceeding as MC 133478 (Sub-No. 8), in lieu of MC 133487 (Sub-No. 8) as was previously published. The rest of the publication remains as previously published.

No. MC 135007 (Sub-No. 4) (Notice of filing of petition to add an additional origin point), filed July 21, 1976. Petitioner: AMERICAN TRANSPORT, INC., P.O. Box 37406, Millard Station, Millard, Nebr. 68137. Petitioner's representative: Frederick J. Coffman, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Petitioner holds a motor *contract carrier* Permit in No. MC 135007 (Sub-No. 4), issued May 16, 1973, authorizing, as pertinent, transportation over irregular routes, of *floor covering* and *floor tile*, from Lancaster, Pa., to points in Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Louisiana, Missouri, Montana, Nebraska, New Mexico, Nevada, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. By the instant petition, petitioner seeks to modify its Permit by adding Landisville in East Hampfield Township, Pa., as an additional origin point to the above authority.

No. MC 135639 (Notice of filing of petition to remove restriction), filed June 3, 1976. Petitioner: QUEENSWAY, INC., 196 N. Keyser Avenue, Old Forge, Pa. 18518. Petitioner's representative: Herbert M. Canter, 305 Montgomery St., Syracuse, N.Y. 13202. Petitioner holds a motor *common carrier* Certificate in No. MC 135639, issued July 12, 1976, authorizing transportation over regular routes, of

V 41 157 AUG 12 76 UMI

general commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), between Rochester, N.Y., and New York, N.Y., serving (a) all intermediate points, and (b) Old Forge, Pa., Geneva, N.Y., and points in the New York, N.Y., Commercial Zone, as defined by the Commission, as off-route points, with service at Elmira and Syracuse, N.Y., and Scranton and Wilkes-Barre, Pa., restricted to the transportation of fresh fruits and vegetables: From Rochester over New York Highway 96 to junction New York Highway 14, thence over New York Highway 14 to Elmira, N.Y., thence over New York Highway 17 to Binghamton, N.Y., thence over U.S. Highway 11 to Scranton, Pa., thence over U.S. Highway 611 (formerly portion Alternate U.S. Highway 611) to Portland, Pa., thence over U.S. Highway 46 to junction New Jersey Highway 31 (formerly New Jersey Highway 69), thence over New Jersey Highway 31 to junction U.S. Highway 22, thence over U.S. Highway 22 to Newark, N.J., thence over city streets to Jersey City, N.J., thence across the Hudson River (also via Holland Vehicular Tunnel) to New York, and return over the same route. By the instant petition, petitioner seeks to remove the restriction at Elmira and Syracuse, N.Y., which limits service to the transportation of fresh fruits and vegetables.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission on or before September 13, 1976. Such protest shall comply with special rule 247(d) of the Commission's general rules of practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 119880 (Sub-No. 78) (Republication), filed January 26, 1976, and published in the FEDERAL REGISTER issue of March 4, 1976, and republished this issue. Applicant: DRUM TRANSPORT, INC., P.O. Box 2056, East Peoria, Ill. 61611. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. An Order of the Commission, Review Board Number 3, dated July 8, 1976, and served July 26, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle over irregular routes in the transportation of *Wine*, in bulk, in tank vehicles, from the facilities of Bear Mountain Winery located at or near Di Giorgio, Calif., to the facilities of Guadadupe Valley Winery Incorporated, located at or near New Braunfels, Tex. The purpose of this republication is to indicate applicant's grant of authority to transport wine in lieu of Alcoholic liquors as previously published in the FEDERAL REGISTER.

No. MC 141020 (Sub-No. 1) (Republication), filed January 13, 1976, and published in the FEDERAL REGISTER issue of February 26, 1976, and republished this issue. Applicant: WAYNE TEECE, doing business as CANADIAN CAMPING TOURS, 250 One Palliser Square, Calgary, Alberta, Canada T2G 0P6. Applicant's representative: Wayne Teece (same address as applicant). An Order of the Commission, Review Board Number 3, dated July 12, 1976, and served July 26, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *Passengers*, and *their baggage* in special and charter operations, in a seasonal operation during the months of June through September inclusive beginning and ending at those ports of entry on the International Boundary Line, between the United States and Canada in Alaska and extending to points in Alaska, restricted to operations originating at Calgary, Alberta, Canada. The purpose of this republication is to indicate (1) applicant's grant of common carrier authority in lieu of contract carrier authority as originally sought (2) the grant of special and charter operations in lieu of charter operations; and (3) to indicate the deletion "of" camping equipment" from the grant of authority.

No. MC 141699 (Republication), filed January 12, 1976, published in the FEDERAL REGISTER issue of February 20, 1976, and republished this issue. Applicant: WORSLEY TRANSPORT, INC., North Norwood Street, Wallace, N.C. 28466. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Suite 1030, Washington, D.C. 20006. An Order of the Commission, Review Board Number 3, dated June 23, 1976, and served July 15, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle over irregular routes, in the transportation of *Petroleum and petroleum products* (except petrochemicals), in bulk, between points in Anson, Beaufort, Bladen, Brunswick, Carteret, Chatham, Columbus, Craven, Cumberland, Dare, Duplin, Durham, Edgecombe, Franklin, Greene, Harnett, Hoke, Hyde, Johnston, Jones, Lenoir, Moore, Martin, Nash, New Hanover, Onslow, Orange, Pamlico, Pender, Pitt, Richmond, Robeson, Sampson, Scotland, Tyrrell, Wake, Washington, Wayne, and Wilson Counties, N.C., on the one hand, and, on the other, points in Georgetown, Williamsburg, Florence, Horry, Marion, Dillon, Darlington, Marlboro, and Chesterfield Counties, S.C. The purposes of this republication are to indicate (1) applicant's grant of common carrier authority in lieu of contract carrier authority as originally sought; (2) authority to handle "in bulk" petroleum and petroleum products; and (3) the exception of "petrochemicals" from the commodity description.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's general rules of practice (49 CFR 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 531 (Sub-No. 341), filed June 29, 1976. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, P.O. Box 14048, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Midland, Mich., to points in California.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 2962 (Sub-No. 61), filed July 8, 1976. Applicant: A. & H. TRUCK LINE, INC., 1111 East Louisiana Street, Evansville, Ind. 47717. Applicant's representative: Robert H. Kinker, 711 McClure Building, P.O. Box 464, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Henderson, Ky., and Hopkinsville, Ky., serving the intermediate points of Madisonville, Earlington, and Mortons Gap, Ky.; from Henderson over U.S. Highway 41 to Madisonville, thence over U.S. Highway 41A to the junction of U.S. Highway 41, thence over U.S. Highway 41 to Hopkinsville, and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Hopkinsville or Madisonville, Ky.

No. MC 3854 (Sub-No. 31), filed July 12, 1976. Applicant: BURTON LINES, INC., P.O. Box 11306, East Durham Station, Durham, N.C. 22703. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building, roofing and insulating boards and panels*, from Woodstock, Va., to points in North Carolina and South Carolina.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 5470 (Sub-No. 108), filed July 8, 1976. Applicant: TAJON, INC., R.D. No. 5, P.O. Box 146, Mercer, Pa. 16137. Applicant's representative: Don Cross, 700 World Center Building, 918 Sixteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metals*, in dump vehicles, from Coatesville, Pa., to Buffalo, N.Y.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Philadelphia, Pa.

No. MC 222179 (Sub-No. 19), filed August 2, 1976. Applicant: FREEMAN TRUCK LINE, INC., P.O. Drawer 925, Oxford, Miss. 38655. Applicant's representative: John Paul Jones, 189 Jefferson Avenue, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities the transportation of which requires the use of special equipment), (1) Between Yazoo City, Miss., and Jackson, Miss., over U.S. Highway 49, and return over the same route, serving all intermediate points, and serving the off-route points of Tinsley, Valley, Crupp, Anding, and Oil City, Miss., and (2) Between Pickens, Miss., and Jackson, Miss., over U.S. Highway 51 and also Interstate Highway 55, and return over the same routes, serving all intermediate points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at both Jackson, Miss., and Memphis, Tenn.

No. MC 28551 (Sub-No. 5), filed July 12, 1976. Applicant: GENERAL CARTAGE CO., a Corporation, 1511 Pearl Street, Waukesha, Wis. 53186. Applicant's representative: William H. Towle, 180 North La Salle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities, in containers;* and (2) *empty containers*, between Milwaukee and Waukesha, Wis., on the one hand, and, on the other, points in Wisconsin (except points in Milwaukee, Waukesha, Jefferson, Ozaukee, Racine, Walworth, and Washington Counties, Wis.), restricted to the transportation of shipments having a prior or subsequent movement by rail or water.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 26396 (Sub-No. 132), filed July 13, 1976. Applicant: POPELKA TRUCKING CO., a Corporation doing business as THE WAGGONERS, Box 990, Livingston, Mont. 59047. Applicant's representative: Jacob P. Billig, 2033 K St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and fittings, and accessories* necessary for the installation thereof, from the facilities of Certain-Teed Corporation, at McPherson, Kans., to points in Colorado, Idaho, Minnesota, Montana, Nebraska, North Dakota, South Dakota, and Wyoming.

NOTE.—Applicant holds contract carrier authority in MC 136777 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 32367 (Sub-No. 22), filed June 24, 1976. Applicant: RED & WHITE MARKET & TRANSFER, INC., 1214 East South Street, Hastings, Nebr. 68901. Applicant's representative: Gailyn L. Larsen, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: 1 (a) *Agricultural machinery and equipment and land rollers*, between Hastings, Nebr., on the one hand, and, on the other, points in Colorado, Kansas, Iowa, Minnesota, and South Dakota; (b) *agricultural machinery, farm implements*, and *parts thereof*, and *farm tools*, between Hastings, Nebr., on the one hand, and, on the other, points in Missouri, Oklahoma, and Texas; (c) *farm machinery and parts, farm implements and tools* and *wagons and parts*, from Hastings, Nebr., to St. Paul, Minn., Sioux Falls, S. Dak., points in that part of Iowa north of U.S. Highway 6 and west of U.S. Highway 65, and those in that part of Minnesota west of U.S. Highway 65 and south of U.S. Highway 14, including points on the indicated portions of the highways specified; *parts, farm implements and tools, and wagons and parts*, from St. Paul, Minn., to Algona, Charles City, and Spencer, Iowa, and Omaha and Hastings, Nebr.; (2) *farm truck bodies*, from Hastings, Nebr., to points in Illinois, Indiana, Kentucky, North Dakota, Wyoming, Montana, Louisiana, Missouri, Oklahoma, Texas, Utah, and Idaho, (3) *lumber, sheet metal, and hardware*, from points in Illinois, Indiana, Kentucky, and Louisiana to Hastings, Nebr.; (4) *lumber, aluminum sheet, nuts, bolts, rivets, sheet metal* (formed or unformed), and *rejected shipments* of farm truck bodies, from points in Missouri, Oklahoma, Texas, Utah, and Idaho to Hastings, Nebr.; (5) *farm truck body parts*, from Louisville, Ky., to Hastings, Nebr.

(6) *Farm machinery and parts*, from Hastings, Nebr., to points in Iowa, Illinois, Missouri, Kansas, Colorado, South Dakota, North Dakota, Minnesota, Wyoming, Montana, and Indiana, (7) *machinery, parts, supplies*, and *materials used in the manufacture of farm machinery*, from points in Iowa, Illinois, Missouri, Kansas, Colorado, North Dakota, South Dakota, Minnesota, Wyoming, Montana, and Indiana to Hastings, Nebr.; and (8) (a) Agricultural and *industrial machinery and equipment*, and *parts thereof* between Hastings, Nebr., on the one hand, and, on the other, points in Montana, Wyoming, Colorado, North Dakota, South Dakota, Kansas, Oklahoma, Texas, Minnesota, Iowa, Missouri, Illinois, Indiana, Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Ohio, Kentucky, Michigan, Tennessee, North Carolina, South Carolina, Alabama, Georgia, Florida, Mississippi, Louisiana, Arkansas, Wisconsin, Arizona, New Mexico, Nevada, California, Idaho, Utah, Washington, and Oregon; and (b) *tubing*, from Delta, Ohio, to Hastings, Nebr. Part 1(d) is restricted to traffic originating at and destined to the named origin and destination points. Parts 1(a), 1(b), 1(c), 2, 3, 4, 5, 6, 7, 8(a), and 8(b) above are restricted to

V 41 157 AUG 12 76 UMI

traffic originating at or destined to Hastings, Nebr.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Lincoln or Hastings, Nebr.

No. MC 43038 (Sub-No. 458), filed July 13, 1976. Applicant: COMMERCIAL CARRIERS, INC., 10701 Middlebelt Road, Romulus, Mich. 48174. Applicant's representative: Paul H. Jones, 29725 Shacket Avenue, Madison Heights, Mich. 48071. No. MC 133591 (Sub-No. 26) filed June 28, 1976. Applicant: WAYNE DANIEL TRUCK, INC., P.O. Box 303. Mount Vernon, Mo. 65712. Applicant's representative: Harry Ross, 58 South Main Street, Winchester, Ky. 40391. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Household appliances and apparatus, lawn and garden care apparatus, lighting fixtures, power tools, hand tools and parts, accessories and display racks* for such items, including but not limited to toasters, hot plates, coffee urns, ice crushers, broilers and roasters, fans, knives, corn poppers, heaters, food mixers, percolators, waffle irons, griddles, home exercise apparatus, timers, switches, clocks, wagons, fluorescent light fixtures, shears, sickles, trowels, lawn mowers, cultivators, food warmers and juice extractors (except commodities which because of size or weight require use of special equipment), from Columbia and Sedalia, Mo., to points in Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Texas, Utah, Washington and Wyoming.

NOTE.—Applicant holds contract carrier authority in No. MC 134494 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC134572 (Sub-No. 1), filed July 12, 1976. Applicant: LAWRENCE MASSENGILL, P.O. Box 36, Hickory Flat, Miss. 38633. Applicant's representative: P. Connor Wiggins, Jr., 909–100 North Main Bldg., Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coke*, from Holt, Ala., to points in Arkansas, Louisiana, Mississippi and Tennessee.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala.

No. MC 135616 (Sub-No. 10), filed July 9, 1976. Applicant: PERRYSBURG TRUCKING CO., INC., 24982 Thompson Road, Perrysburg, Ohio 43351. Applicant's representative: Herbert Alan Dubin, 1819 H Street, N.W., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the facilities of C–E Glass, Division of Combustion Engineering, Inc., located at or near Cinnaminson, N.J., to points in and east of Arkansas, Iowa, Louisiana, Minnesota and Missouri, under a continuing contract, or contracts, with C–E Glass, Division of Combustion Engineering, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 135639 (Sub-No. 5), filed July 1, 1976. Applicant: QUEENSWAY, INC., 105 N. Keyser Avenue, Old Forge, Pa. 18518. Applicant's representative: Joseph F. Hoary, 121 S. Main St., Taylor, Pa. 18517. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from New Hyde Park, N.Y., to points in Illinois, Indiana, Minnesota, Ohio, Pennsylvania, West Virginia. Wisconsin, and points in New York west of Interstate Highway 81.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 135640 (Sub-No. 4), filed July 13, 1976. Applicant: STALEY EXPRESS, INC., 2501 N. Brush College Road, Decatur, Ill. 62526. Applicant's representative: Paul E. Steinhour, 918 E. Capital Avenue, Springfield, Ill. 62701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food products and food ingredients*, in mechanically refrigerated equipment (except in bulk), from the plant and warehouse facilities owned and operated by Archer Daniels Midland Company located in Decatur, Ill.; also, shipping products for Wilsey Foods, Inc. and others, to Kansas City, Kans., and points in Arkansas, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, Tennessee, and Wisconsin, restricted to traffic originating at origin and destined to named states.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Springfield or Chicago, Ill.

No. MC 135732 (Sub-No. 22) (Correction), filed June 7, 1976, published in the FEDERAL REGISTER issue of July 8, 1976, republished as corrected this issue. Applicant: AUBREY FREIGHT LINES, INC., 605 Grove Street, P.O. Box 503, Elizabeth, N.J. 07202. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* that are manufactured and sold by GAF Corporation and *materials, equipment and supplies*, used or useful in the manufacture and sale of such commodities (except commodities in bulk), in mechanical refrigerated equipment, between the facilities of GAF Corporation, located at Binghamton, Johnson City, Vestal and Rensselear, N.Y., Linden, N.J.; Shelby and Elyria, Ohio; Portland, Oreg.; Calvert City, Ky., and their Commercial Zones as defined by the Commission, on the one hand, and, on the other, points in California, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Missouri, Minnesota, North Carolina, Ohio, Pennsylvania, Tennessee, Texas, Wisconsin and the District of Columbia, restricted against interlining or tacking at origin and destination.

NOTE.—The purpose of this republication is to correct applicant's commodity description. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y. or Washington, D.C.

No. MC 135809 (Sub-No. 6), filed July 9, 1976. Applicant: B–H TRANSFER CO., a Corporation, P.O. Box 151, Sandersville, Ga. 31082. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Blvd., Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Sodium tripolyphosphate and tetrasodium pyrophosphate*, dry, in bulk, in pneumatic tank vehicles, from Sandersville, Ga., to points in DeKalb, Fulton, Glascock, Jefferson, Twiggs, Washington, and Wilkerson Counties, Ga., and points in Aiken and York Counties, S.C., restricted to shipments having an immediate prior movement by rail.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 135895 (Sub-No. 10), filed June 21, 1976. Applicant: DON RAY BOYD AND JACKIE ROGERS, a Partnership, doing business as B & R DRAYAGE COMPANY, North Bierdman Road, Jackson, Miss. 39208. Applicant's representative: Douglas C. Wynn, P.O. Box 1295, Greenville, Miss. 38701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fibreboard, paper and paperboard boxes, cans and containers*, (a) between the plant sites and warehouses of Container Corporation of America located at or near Kenner, La., on the one hand, and, on the other, points in Mississippi; and (b) between the plant sites and warehouses of Underwood Glass Company located at or near Harahan, La., on the one hand, and, on the other, points in Alabama, Mississippi and Tennessee; and (2) *bottles, carboys, demijohns and jars, and closures*, between the plant sites and warehouses of Underwood Glass Company located at or near Harahan, La., on the one hand, and, on the other, points in Alabama, Mississippi and Tennessee.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Jackson, Miss.; New Orleans, La.; or Memphis, Tenn.

No. MC 135962 (Sub-No. 2), filed June 30, 1976. Applicant: MAR-KAY CARTAGE, INC., 24232 Miles Road, Bedford Heights, Ohio 44128. Applicant's representative: Earl N. Merwin, 85 East Gay St., Columbus, Ohio 43215. NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 130397, filed June 24, 1976. Applicant: RICHARD G. SCHALLER, doing business as WESTERN TRAVEL CLUB OF OJAI, 2530 Bonmark Drive, Ojai, Calif. 93023. Applicant's representative: Richard G. Schaller (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Ojai, Calif., to sell or offer to sell the transportation of *groups of passengers and their baggage*, in special and charter operations, in round-trip escorted tours, by motor, water and air carriers, beginning and ending at points in Ventura County, Calif., and extending to points in the United States including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Santa Barbara or Los Angeles, Calif.

FREIGHT APPLICATION

No. FF-420 (Sub-No. 1), filed June 24, 1976. Applicant: PERFECT PAK COMPANY, 12169 Venture Boulevard, Studio City, Calif. 91604. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water and express, in the transportation of (1) *Used household goods and unaccompanied baggage;* and (2) *used automobiles*, between points in the United States, including Hawaii and Alaska, restricted in (2) above to the transportation of export and import traffic.

NOTE.—Applicant states that the purpose of this filing is to add Alaska to its present authority. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the requested authority must be filed with the Commission on or before September 13, 1976. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's general rules of practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

MOTOR CARRIER OF PASSENGERS

No. MC-F-12902. Authority sought for purchase by MIDLAND LINES, INC., 503 Sixth Avenue North, Minneapolis, MN 55405, of the operating rights and property of ZEPHYR LINES, INCORPORATED, 505 Sixth Avenue North, Minneapolis, MN 55402, and for acquisition by JEFFERSON LINES, INC., 503 Sixth Avenue, North, Minneapolis, MN 55405, of control of such rights through the purchase. Applicants' attorneys: J. G. Dail, Jr., P.O. Box 567, McLean, Va. 22101 and David M. Beadie, 1300 Northwestern Bank Building, Minneapolis, MN 55402. Operating rights sought to be transferred: *Passengers and their baggage, and express, mail, and newspapers*, in the same vehicle with passengers as a *common carrier* over regular routes between Minneapolis, Minn., and Wahpeton, N. Dak., serving all intermediate points, between Sisseton, S. Dak., and Morris, Minn., serving all intermediate points; between Minneapolis, Minn., and Ashland, Wis., serving all intermediate points except New Richmond, Wis., and points east thereof to junction Wisconsin Highways 64 and 46, and Turtle Lake, Wis., on traffic originating at or destined to St. Paul and Minneapolis, Minn.; *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers, between Glenwood, Minn., and Doran, Min.; serving all intermediate points, with service at the intermediate point of Elbow Lake, Minn., restricted against the transportation of passengers originating at, destined to, or interchanged at Fargo, N. Dak., or Moorhead, Minn.; *Passengers and their baggage, and newspapers and package express*, in the same vehicle with passengers, between Ashland, Wis., and Ironwood, Mich., serving all intermediate points; between Morris, Minn. and Wahpeton, N. Dak., serving all intermediate points; between Glenwood, Minn., and Doran, Minn., serving all intermediate points, with service at the intermediate point of Elbow Lake, Minn., restricted against the transportation of passengers originating at, destined to, or interchanged at Fargo, N. Dak., or Moorhead, Minn.; between junction Wisconsin Highway 35 and U.S. Highway 12 and Durand, Wis., serving all intermediate points; between Minneapolis, Minn., and Mora, Minn., serving all intermediate points; between Minneapolis, Minn., and Hutchinson, Minn., serving all intermediate points; between junction Minnesota-Wisconsin State line and Interstate Highway 94 and junction Wisconsin Highway 65 and Interstate Highway 94 near Roberts, Wis., serving all intermediate points; between junction Wisconsin Highway 65 and Interstate Highway 94, and Star Prairie, Wis., serving all intermediate points; between Star Prairie, Wis., and Deer Park, Wis., serving all intermediate points; between Graceville, Minn., and Wheaton, Minn., serving no intermediate points; between St. Paul, Minn., and Rice Lake, Wis., serving all intermediate points;

Passengers and their baggage and express and newspapers in the same vehicle with passengers, between Minneapolis, Minn., and Canby, Minn., serving all intermediate points; between Minneapolis, Minn., and Watertown, S. Dak., serving all intermediate points; between Madison, Minn., and junction U.S. highways 212 and 75, serving all intermediate points; between St. Paul, Minn., and Webster, Wis., serving all intermediate points; between junction Minnesota-Wisconsin State line and Interstate Highway 94, and junction Wisconsin Highway 65 and Interstate Highway 94 near Roberts, Wis., serving all intermediate points; between junction Wisconsin Highway 65 and Interstate Highway 94, and Star Prairie, Wis., serving all intermediate points; between Star Prairie, Wis., and Deer Park, Wis., serving all intermediate points; between Deer Park, Wis., and junction U.S. Highway 8 and Wisconsin Highway 46, serving all intermediate points; between junction U.S. Highway 8 and Wisconsin Highway 35, and Cameron, Wis., serving all intermediate points; between Cameron, Wis., and Rice Lake, Wis., serving all intermediate points; The above-described authority to transport passengers was issued pursuant to an application filed after January 1, 1967, and, therefore, no incidental charter operations in interstate or foreign commerce are authorized by section 208(c) of the Interstate Commerce Act, as amended November 10, 1966. *Passengers and their baggage, in the same vehicle with passengers*, in round trip charter operations, over irregular routes, beginning and ending at points in Chicago, Washington, Ramsey, Hennepin, Carver, McLeod, Sibley, Renville, Redwood, Lyon, Lincoln, Yellow Medicine, Chippewa and Lac Qui Parle Counties, Minn., Codington and Deuel Counties, S. Dak., and St. Croix, Barron, Polk, and Burnett Counties, Wis., and extending to points in the United States (except Alaska and Hawaii). Midland Lines, Inc., holds no authority from this Commission. However, it is affiliated with JEFFERSON LINES, INC., 503-6th Avenue, North, Minneapolis, Minn., 55405, which is authorized to operate as a common carrier in Arkansas, Iowa, Minnesota, Missouri, Nevada, and Texas. Application has not been filed for temporary authority under section 210a(b).

MOTOR CARRIER OF PROPERTY

No. MC-F-12859. Authority sought for purchase by COPPER FREIGHT LINES, INC., an Alaska Corporation, dba COPPER FREIGHT LINES, 3025 Rampart Drive, Anchorage, Alaska, 99501, of the operating rights of AURORA DELIVERY, INC., an Alaskan Corporation, dba AURORA DELIVERY, Box 6043 Airport Annex, Anchorage, Alaska, 99502, and for acquisition by JACK AND MARY WALLACE, 1000 Ermine St., Anchorage, AK., 99504, LEONARD WILLBANKS, 310 Oceanview Dr., Anchorage, AK., 99502, and JERRY L. Between Cleveland, Ohio, and Medina, Ohio, serving all intermediate points; between Bucyrus, Ohio, and junction Ohio Highway 4 and U.S. Highway 20, serving all intermediate points; serving the off-route points in Summit and Cuyahoga Counties, Ohio, those within ten miles of Louisville, Ky., and those within five miles of Youngstown, Ohio, in connection with carrier's regular route operations described above; from Evansville, Ind., to Louisville, Ky., serving no intermediate points; between Delaware, Ohio, and Mansfield, Ohio, serving no intermediate points; between Lodi, Ohio, and Medina, Ohio, serving no intermediate points, serving points within ten miles of Canton, Ohio, as intermediate and off-route points in connection with carrier's regular route operations to and from Canton, Ohio, authorized above; between points in Indiana, as alternate routes for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points, as follow: from Dunreith over Indiana Highway 3 to junction Indiana Highway 403, thence over Indiana Highway 403 to junction U.S. Highway 31, and return over the same route, from Pendleton over Indiana Highway 9 to junction U.S. Highway 31, and return over the same route, from Connersville over Indiana Highway 44 to junction U.S. Highway 52, thence

over U.S. Highway 52 to Indianapolis, and return over the same route; serving the site of the Ford Motor Company plant, in Brownhelm Township, Lorain County, Ohio, near the intersection of U.S. Highway 6 and Baumhart Road, as an off-route point in connection with carrier's regular route operations between Toledo and Youngstown, Ohio, authorized hereinabove, serving the site of the Warrick Works of the Aluminum Company of America plant, located near Newburgh, Warrick County, Ind., as an off-route point in connection with carrier's regular route operations to and from Evansville, Ind., authorized hereinabove; between Louisville, Ky., and junction U.S. Highway 42 and 40 (at or near Lafayette, Ohio), as an alternate route for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points.

Between Sharonville, Ohio, and junction U.S. Highways 25 and 40 (at or near Vandalia, Ohio), as an alternate route for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points, and serving Sharonville for purpose of joinder only, from Sharonville over U.S. Highway 25 to junction U.S. Highway 40, and return over the same route; between points in Ohio, as alternate routes for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points, as follows, from Tiffin over Ohio Highway 101 to junction Ohio Highway 113, thence over Ohio Highway 113 to junction U.S. Highway 20, and return over the same route, from Salem over U.S. Highway 62 to Youngstown, and return over the same route, from Salem over Ohio Highway 45 to Warren, and return over the same route, from Salem over Alternate Ohio Highway 14 (formerly portion Ohio Highway 14) to junction Ohio Highway 14, thence over Highway 14 to Ravenna, and return over the same route, from Wooster over Ohio Highway 5 to Barberton, and return over the same route, from Wooster over Ohio Highway 3 to Medina, and return over the same route, from Norwalk over U.S. Highway 250 to Wooster, and return over the same route, from Cleveland over Ohio Highway 10 to junction U.S. Highway 20, and return over the same route, from Shelby over Ohio Highway 61 to New Haven, and return over the same route, from Bucyrus over Ohio Highway 98 to junction Ohio Highway 61, and return over the same route, from Delaware over U.S. Highway 42 to junction U.S. Highway 40, and return over the same route; between Sidney, Ohio, and Union City, Ind., as an alternate route for operating convenience only in connection with carrier's regular route operations authorized herein above, serving no intermediate points; between junction U.S. Highway 31 and alternate U.S. Highway 31 (North of and near Columbus, Ind.) and junction U.S. Highways 31 and 50 (near and East of Seymour, Inc.), as an alternate route for operating convenience only in connection with carrier's regular route operations between Indianapolis, Ind., and Louisville, Ky., authorized hereinabove, serving no intermediate points.

Between Bowling Green, Ky., and Auburn, Ky., serving all intermediate points, and all off-route points within five miles of Auburn, Ky., with restrictions; between Louisville, Ky., and junction U.S. Highways 42 and 40, at or near Lafayette, Ohio, as an alternate route for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points; between Louisville, Ky., and Dayton, Ohio, as an alternate route for operating convenience only in connection with carrier's regular route operations authorized hereinabove, serving no intermediate points and serving junction U.S. Highways 42 and 25 for joinder purposes only; between Louisville, Ky., and Nashville, Tenn., serving the intermediate points of Kosmosdale, Fort Knox, and Elizabethtown, Ky., restricted to the delivery of northbound traffic only; and serving all other intermediate points without restriction, and the off-route points of Mammouth Cave, Brownsville, Rocky Hill, Smith's Grove, and Morgantown, Ky., and Portland and Old Hickory, Tenn., alternate routes for operating convenience only; between junction U.S. Highway 40 and Indiana Highway 1, and junction Indiana Highways 1 and 38, in connection with carrier's regular-route operations authorized hereinabove, serving no intermediate points, and serving the termini for purpose of joinder only; between Tiffin, Ohio, and Bellevue, Ohio, in connection with carrier's regular-route operations authorized hereinabove, serving no intermediate points; any duplication of authority granted herein or to the extent that such authority duplicates any heretofore granted to or now held by carrier shall not be construed as as conferring more than one operating right; between Louisville, Ky., and junction Interstate Highway 75 and U.S. Highway 60. Vendee is authorized to operate as a common carrier in New Jersey, New York, Pennsylvania, Maryland, Ohio, Connecticut, Delaware, District of Columbia, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Missouri, Georgia, North Carolina, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, New Hampshire. Application has been filed for temporary authority under section 210a(b).

Docket No. AB–26 (Sub-No. 8), (Notice), Live Oak, Perry and South Georgia Railway Company abandonment of operations between Foley Junction and Live Oak, in Taylor, Lafayette, and Suwannee Counties, Florida, was published in the June 23, 1976, FEDERAL REGISTER on page 25945 and the July 6, 1976, FEDERAL REGISTER on page 27807. The FEDERAL REGISTER notices were prematurely published. Disregard both publications.

OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights applications are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer applications under section 212 (b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission on or before September 13, 1976. Such protests shall comply with Special Rule 247(d) of the Commission's general rules of practice (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

No. MC 58923 (Sub-No. 44) (Correction), filed May 21, 1976, published in the FEDERAL REGISTER issue of July 1, 1976, and republished as corrected this issue. Applicant: GEORGIA HIGHWAY EXPRESS, 2090 Jonesboro Road, S.E., Atlanta, Ga. 30315. Applicant's representative: Bates Block, 3300 First National Bank Tower, Atlanta, Ga. 30315. The purpose of this partial republication is to correct applicant's representative's name and address. This is a matter directly related to a finance proceeding in MC–F–12847, published in the FEDERAL REGISTER issue of June 9, 1976. The rest of the notice remains the same.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Charlotte, N.C., or Washington, D.C.

No. MC 85413 (Sub-No. 12), filed June 7, 1976. Applicant: LONG'S EXPRESS, INC., 2006 Seminary Avenue, Richmond, Va. 23220. Applicant's representative: Francis W. McInerny, 1000 Sixteenth Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) Between Mechanicsville (Waldrop P.O.) Va., and Charlottesville, Va.: From Mechanicsville (Waldrop P.O.) over Virginia Highway 22 and U.S. Highway 250 to Charlottesville and return over the same route; (2) from Mineral over Virginia Highway 618 to junction of Virginia Highway 601 and Virginia Highway Highway 618 near Bumpass, *thence over Virginia Highway 601 to junction with Virginia Highway 715*, thence over Virginia Highway 739 to junction with Virginia Highway 738, thence over Virginia Highway 738 to the junction of U.S. Highway 1, thence over U.S. Highway 1 to Ashland, Va., and return over the same route; (3) Between Richmond, Va., and the intersection of U.S. Highway 33 and Virginia State Highway 54: From

V 41 157 AUG 12 76 UMI

Richmond over U.S. Highway 33 to the intersection of Virginia Highway 54 and return over the same route; (4) Between Richmond, Va., and Ford Motor Company Plant on Lewis Road, over U.S. Highway 60 and Lewis Road.

Limitation: Service requested to be in conjunction with and supplemental to service now being rendered by the applicant, restricted to the transportation of property originating at the Ford Motor Company Plant, destined for points on or beyond the certificated routes of the applicant, or originating on or beyond the certificated routes of the applicant, destined for the Ford Motor Company Plant. No service shall be rendered to or from intermediate points, and there shall be no interchange of traffic at or within 15 miles of Richmond, Va. (5) Between the junction of U.S. Highway 1 and Virginia Highway 625 and the junction of Virginia Highway 626 and Virginia Highway 625: From junction of U.S. Highway 1 and Virginia Highway 625 over Virginia Highway 625 and return over the same route; (6) Between the junction of Virginia Highway 625 and Virginia Highway 681 and the junction of U.S. Highway 33 and Virginia Highway 681: From the junction of Virginia Highway 625 and Virginia Highway 681 over Virginia Highway 681 to its junction with U.S. Highway 33, and return over the same route; (7) Between the junction of U.S. Highway 33 and Virginia Highway 722 and the junction of Virginia Highway 681 and Virginia Highway 722: From the junction of U.S. Highway 33 and Virginia Highway 722 over Virginia Highway 722 to its junction with Virginia Highway 681, and return over the same route; (8) Between the junction of Virginia Highway 681 and Virginia Highway 683 and Ashland, Virginia: From the junction of Virginia Highway 681 and Virginia Highway 683 over Virginia Highway 683 to its junction with Virginia Highway 626, thence over Virginia Highway 626 to its junction with Virginia Highway 1306, thence over Virginia Highway 1306 to Ashland return over the same route; (9) Between the junction of U.S. Highway 1 and Virginia Highway 657 and the junction of Virginia Highway 626 and Virginia Highway 657: From the junction of U.S. Highway 1 and Virginia Highway 657 over Virginia Highway 657 to its junction with Virginia Highway 626 and return over the same route; (10) Between Ashland, Va. and Hanover, Va.: From Ashland over Virginia Highway 54 to Hanover, Va. and return over the same route.

(11) Between the junction of Virginia Highway 54 and Virginia Highway 669 and the junction of Virginia Highway 666 and Virginia Highway 669: From Virginia Highway 54 and its junction with Virginia Hwy. 669, over Virginia Hwy. 669 to its junction with Virginia Highway 666 and return over the same route; (12) Between the junction of U.S. Highway 1 and Virginia Highway 641 and the junction of U.S. Highway 1 and Virginia Highway 641: From the junction of U.S. Highway 1 and Virginia Highway 641 northerly through Elletts Crossing to the junction of U.S. Highway 1 and Virginia Highway 641, and return over the same route; (13) Between the junction of U.S. Highway 1 and Virginia Highway 641 and the junction of Virginia Highway 667: From the junction of U.S. Highway 1 and Virginia Highway 641 over Virginia Highway 641 to its junction with Virginia Highway 667 and return over the same route; (14) Between the junction of U.S. Highway 1 and Virginia Highway 690 and the junction of Virginia Highway 688 and Virginia Highway 690: From the junction of U.S. Highway 1 and Virginia Highway 690 over Virginia Highway 690 to its junction with Virginia Highway 688; (15) Between the junction of Virginia Highway 738 and Virginia Highway 739 and North Anna River: From the junction of Virginia Highway 738 and Virginia Highway 739 over Virginia Highway 738 to North Anna River, and return over the same route; (16) Between Beaverdam, Va., and Montpelier, Va.: From Beaverdam over Virginia Highway 715 to Montpelier and return over the same route; (17) Between the junction of U.S. Highway 33 and Virginia Highway 610 and the junction of Virginia Highway 611 and Virginia Highway 677: From the junction of U.S. Highway 33 and Virginia Highway 610 over U.S. Highway 610 to its junction Virginia Highway 677, thence over Virginia Highway 677 to its junction with Virginia Highway 611, and return over the same route.

(18) Between Cuckoo, Va. and Apple Grove, Va.: From Cuckoo over U.S. Highway 522 to Apple Grove and return over the same route; (19) Between the junction of U.S. Highway 33 and U.S. Highway 522 and Louisa, Va.: From the junction of U.S. Highway 33 and U.S. Highway 522 over U.S. Highway 33 to Louisa, and return over the same route; (20) Between the junction of U.S. Highway 522 and Virginia Highway 605 and the junction of Virginia Highway 677: From the junction of U.S. Highway 522 and Virginia Highway 605 over Virginia Highway 605 to its junction with Virginia Highway 677, and return over the same route; (21) Between Harts Shop, Va. and Poindexters Store, Va.: From Harts Shop over Virginia Highway 614 to Poindexters Store and return over the same route; (22) Between Mineral, Va. and Wares Cross Roads, Va.: From Mineral over U.S. Highway 522 to Wares Cross Roads, and return over the same route; (23) Between the junction of U.S. Highway 33, Virginia Highway 22 and Virginia Highway 613 and the junction of Virginia Highway 613 and Virginia Highway 649: From the junction of U.S. Highway 33, Virginia Highway 22 and Virginia Highway 613 to the junction of Virginia Highway 613 and Virginia Highway 649 over Virginia Highway 613 and return over the same route; (24) Between the junction of U.S. Highway 33 and Virginia Highway 22 and Green Springs, Va.: From the junction of U.S. Highway 33 and Virginia Highway 22 over U.S. Highway 33 to Green Springs, and return over the same route; (25) Between the junction of Virginia Highway 22 and Virginia Highway 615 and Thelma, Va.: From the junction of Virginia Highway 22 and Virginia Highway 615 over Virginia Highway 615 to Thelma, and return over the same route; (26) Between the junction of U.S. Highway 33 and Virginia Highway 632 and Virginia Highway 649 and the South Ana River: From the junction of U.S. Highway 33 and Virginia Highway 632 over Virginia Highway 632 to Virginia Highway 649, thence over Virginia Highway 649 to the South Ana River and return over the same route; (27) Between Richmond, Va. and Bowling Green, Va.: From Richmond over U.S. Highway 301 (Virginia Highway 2) to Bowling Green and return over the same route, serving all intermediate points, and *Hanover Industrial School, Janie Porter Barrett School for Girls, and Lane's Bakery as off route points;* (28) Between Bolling Green, Va. and Fort Camp A. P. Hill, Va.: From Bolling Green over U.S. Highway 301 to Fort Camp A. P. Hill and return over the same route: (29) *Between Bowling Green, Va. and Terrell Farm, Va.:* from Bowling Green over Virginia Highway 207 to Terrell Farm (approximately three miles east of U.S. Highway 1 and return over the same route.

Between Bowling Green, Va. and the intersection of Virginia Highway 2 with U.S. Highway 17: From Bowling Green over Virginia Highway 2 to its intersection with U.S. Highway 17 and return over the same route; (31) Between Richmond, Va. and junction of Interstate Highway 95 and Virginia Highway 54 via Interstate Highway 95, serving all access and interchange routes between the routes applied for and applicant's presently authorized service routes, including the following: (a) between the junction of Interstate Highway 95 and Virginia Highway 54, over Virginia Highway 54 to Hanover, Va. and return over the same route; (b) between the junction of Interstate Highway 95 and Virginia Highway 54 and Ashland, Va. over Virginia Highway 54, and return over the same route; (c) between the junction of U.S. Highway 1 and Virginia Secondary Highway 656 and the junction of U.S. Highway 301 (Virginia Highway 2) and Virginia Secondary Highway 657 over Virginia Secondary Highway 656 and 657, and return over the same route; (d) between the junction of Interstate Highway 95 and Virginia Highway 73 and the junction of U.S. Highway 1 and Virginia Highway 73 over Virginia Highway 73, and return over the same route; and (e) service is also authorized at the General Motors Parts Division Warehouse at or near the intersection of Lewis Road and U.S. Highway 60; (32) Between the junction of Interstate Highway 94 and Virginia Highway 54 and the junction of Interstate Highway 95 and Virginia Secondary Highway 606 over Interstate Highway 95, together with all its interchanges connecting with applicant's

other authority, and return over the same route; (33) Between the junction of Interstate Highway 95 and Virginia Secondary Highway 602 and the junction of U.S. Highway 301 (Virginia Highway 2) and Virginia Secondary Highway 654 over Virginia Secondary Highways 602, 652 and 654 (Hanover and Caroline Counties), and return over the same route; (34) Between the junction of Interstate Highway 95 and Virginia Highway 207 and Terrell's Farm (approximately 2 miles east of Interstate Highway 95) over Virginia Highway 207 (Caroline County), and return over the same route.

(35) Between the junction of Interstate Highway 95 and Virginia Secondary Highway 639 and the junction of Virginia Highway 2 and Virginia Secondary Highway 626 over Virginia Secondary Highways 639, 664, 638 and 626 (Caroline County), and return over the same route; (36) Between the junction of Interstate Highway 95 and Virginia Secondary Highway 606 and the junction of Virginia Highway 2 and Virginia Secondary Highway 606 over Virginia Secondary Highway 606 (Spotsylvania and Caroline Counties), and return over the same route; (37) Between the junction of Virginia Highway 207 and Virginia Secondary Highway 601 and the junction of U.S. Highway 301 (Virginia Highway 2) and Virginia Secondary Highway 601 over Virginia Secondary Highway 601, and return over the same route; (38) Between the intersection of Virginia Secondary Highway 618 and Virginia Secondary Highway 601 in Louisa County and the intersection of Virginia Secondary Highway 601 and Virginia Highway 208 in Spotsylvania County over Virginia Secondary Highway 601, and return over the same route; (39) Between the intersection of Virginia Secondary Highway 601 and Virginia Secondary Highway 652 in Louisa County and the intersection of Virginia Secondary Highway 652 with Virginia Highway 208 in Louisa County over Virginia Secondary Highway 652 and return over the same route; (40) Between the intersection of U.S. Highway 522 and Virginia Highway 208 at Wares Crossroads in Louisa County and the intersection of Virginia Highway 208 with Virginia Secondary Highway 601 in Spotsylvania County over Virginia Highway 208, and return over the same route; (41) Between the intersection of Virginia Secondary Highway 618 and Virginia Secondary Highway 700 in Louisa County and the intersection of Virginia Secondary Highway 700 with Virginia Secondary Highway 652 in Louisa County over Virginia Secondary Highway 700; thence over the proposed extension of Virginia Secondary Highway 700 to the Virginia Electric & Power Co. plant site, and return over the same route.

(42) Between the intersection of U.S. Highway 522 and Virginia Highway 208 at Wares Crossroads, in Louisa County and the intersection of U.S. Highway 522 and Virginia Secondary Highway 629 in Orange County over U.S. Highway 522, and return over the same route; (43) Between the intersection of U.S. Highway 522 and Virginia Secondary Highway 719 in Louisa County and the intersection of Virginia Secondary Highway 719 and Virginia Secondary Highway 652 at Belmont in Spotsylvania County over Virginia Secondary Highway 719, and return over the same route; (44) Between Richmond, Va. and Charlottesville, Va., over Interstate Highway 64, serving all routes between Interstate Highway 64 and carrier's present authority, over U.S. Highway 33 and Virginia Highway 22 and U.S. Highway 250, and all interchange routes off Interstate Highway 64 leading to and from said highways, including, but not limited to, the following: (a) between the junction of Interstate Highway 64 with Virginia Highway 623 and the junction of U.S. Highway 33 with Virginia Highway 623 over Virginia Highway 623, and return over the same route; (b) between the junction of Interstate Highway 64 with Virginia Highway 617 and the junction of Virginia Highway 610 with Virginia Highway 677 via Virginia Highway 617 to and over Virginia Highway 610 to its junction with Virginia Highway 677, and return over the same route; (c) between the junction of Interstate Highway 64 with U.S. Highway 522 and Apple Grove, Va., over U.S. Highway 522, and return over the same route; (d) between the junction of Interstate Highway 64 with Virginia Highway 605 and the junction of Virginia Highway 605 with Virginia Highway 677 over Virginia Highway 605 and return over the same route.

(e) Between the junction of Interstate Highway 64 with Virginia Highway 208 and Louisa, Va., over Virginia Highway 208, and return over the same route; (f) between the junction of Interstate Highway 64 with U.S. Highway 15 and the junction of U.S. Highway 15 with Virginia Highway 22 (Waldrop, Va.) over U.S. Highway 15, and return over the same route; and (g) between the junction of Interstate Highway 64 with Virginia Highway 616 and the junction of Virginia Highway 22 with Virginia Highway 616 (Keswick, Va.) over Virginia Highway 616 and return over the same route; (45) Between Fredericksburg, Va. and Thornburg, Va.: From Fredericksburg, Va. over Interstate Highway 95 and return over the same route; and (46) Between Fredericksburg, Va. and New Post, Va.: From Fredericksburg, Va. over U.S. Highway 17 to New Post, Va. and return over the same route, service is authorized at all intermediate points and at off route points within two miles of the highways identified in Routes 1 through 46 above.

NOTE.—The purpose of this application is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12851 published in the FEDERAL REGISTER issue of June 17, 1976. If a hearing is deemed necessary, the applicant requests it be held at either Richmond, Va. or Washington, D.C.

No. MC 106451 (Sub-No. 15), filed June 7, 1976. Applicant: COOK MOTOR LINES, INC., P.O. Box 370, Akron, Ohio 44309. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: IRREGULAR ROUTES: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) between Zanesville and Union Township, Ohio and points in Muskingum County, Ohio, on the one hand, and, on the other, points in Ohio. REGULAR ROUTES: (A) *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment): (1) Between Zanesville, Ohio, and Woodsfield, Ohio, serving all intermediate points: From Zanesville, Ohio, to Woodsfield, Ohio, via Ohio State Route 146 to Cumberland, Ohio, thence over Ohio State Route 76 to junction of Ohio State Route 215, thence over Ohio State Route 215 to Belle Valley, thence over U.S. Route 21 to Caldwell and Ohio State Route 73 through Summerfield to Woodsfield; (2) Between Woodsfield, Ohio, and Woodsfield, Ohio, serving all intermediate points: From Woodsfield, Ohio, over Ohio State Route 78 to junction Ohio State Route 7, thence over Ohio State Route 7 to junction Ohio State Route 800, thence over Ohio State Route 800 to Woodsfield; (3) Between Cumberland and Belle Valley, Ohio, in connection with carrier's presently authorized regular route operations, serving no intermediate points, for operating convenience only: From Cumberland, Ohio over Ohio State Route 340 to Belle Valley, Ohio.

(4) Between Cumberland, and Caldwell, Ohio, in connection with carrier's presently authorized regular route operations, serving no intermediate points except those herein specifically authorized, for operating convenience only: From Cumberland, Ohio over Ohio State Route 146 to junction Ohio State Route 672, thence over Ohio State Route 672 to Glenwood, Ohio, and thence over Old U.S. Highway 21 to Caldwell, Ohio; (B) *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment): (1) Between Zanesville, Ohio, and Marietta and Batesville, Ohio, serving all intermediate points (except as otherwise noted): (a) From Zanesville, Ohio, over U.S. Highway 40 via Cambridge to junction Ohio Highway 800, thence over Ohio Highway 800 to Barnesville, and thence over Ohio Highway 147 via Baileys Mills to Batesville; (b) From junction unnumbered highway and U.S. Highway 40 over such unnumbered highway via Norwich to junction U.S. Highway 40: From junction unnumbered highway and U.S. Highway 40 over such unnum-

V 41 157 AUG 12 76 UMI

bered highway via Fairview to junction U.S. Highway 40; from junction unnumbered highway via Hendrysburg to junction U.S. Highway 40; (c) From Zanesville, over U.S. Highway 40 to junction Ohio Highway 265, thence over Ohio Highway 265 via Lore City to junction Ohio Highway 147, and thence over Ohio Highway 147 to Batesville; (d) From Zanesville to Lore City as specified immediately above, thence over Ohio Highway 285 to Senecaville, thence over Ohio Highway 313 to the junction of Old U.S. Highway 21, thence over Old U.S. Highway 21 to Marietta; and (e) From Zanesville to Cambridge as specified immediately above, thence over Old U.S. Highway 21 to Marietta.

(2) Between Cambridge and Byesville, Ohio serving all intermediates points: From Cambridge over Morton Avenue, crossing the right of way of the Baltimore and Ohio Railroad Company, to the plantsites of Cambridge Glass Company and Andrews Lumber and Box Company, thence over Ohio Highway 209 (formerly U.S. Highway 21) to the plantsite of the Radio Corporation of America, thence over Ohio Highway 209 to Byesville; (3) Between junction Ohio Highway 375 to Marietta, Ohio serving all intermediate points: (a) From junction Ohio Highway 375 and Old U.S. Highway 21, thence over Ohio Highway 375 to Marietta; (b) From junction Ohio Highway 326 and Old U.S. Highway 21, over Ohio Highway 326 to Marietta; (4) Between Ohio Highway 78 and Ohio Highway 60, over county roads serving the plantsite of the Central Ohio Cola Company; (5) Between Beverly, Ohio and the plantsites of Ohio Power Company and Interlake Iron Corporation located at or near Beverly, Ohio: From Beverly, over Ohio Highway 76 and county roads to the plantsites of Ohio Power Company and Interlake Iron Corporation, and return over the routes named in (1)(a), (b), (c), and (d), (2), (3), (a), and (b), (4) and (5) above to Zanesville, Ohio; (6) Between Caldwell and Malta, over Ohio Highway 78, serving all intermediate points; (7) Between Zanesville, Ohio, and Marietta, Ohio: (a) from Zanesville, Ohio, over Ohio Highway 146 via Cumberland, to Pleasant City and thence over Old U.S. Highway 21 to Marietta, and return over the same route serving all intermediate points (except those between Zanesville and Pleasant City on Ohio Highway 146); and (b) From Zanesville, Ohio, to Cumberland, Ohio as specified immediately above, thence over Ohio Highway 340 to Belle Valley, and thence over Old U.S. Highway 21 to Marietta, and return over the same routes, serving all intermediate points (except Cumberland and those between Zanesville and Cumberland) (C) *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities requiring special equipment, dairy products, house trailers, monuments, and oil and gas well equipment): Between junction U.S. Highway 40 and the Zanesville Municipal Airport located in Perry Township, Muskingum County, Ohio, serving all intermediate points: From junction U.S. Highway 40 and Ohio Highway 797, thence over Ohio Highway 797 to Zanesville Municipal Airport, and return over the same route. Note: The purpose of this filing is to convert a Certificate of Registration to Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC–F–12860, published in the FEDERAL REGISTER issue of June 24, 1976. If a hearing is deemed necessary, the applicant requests it be held at either Columbus, Ohio, or Washington, D.C.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's deviation rules—Motor Carriers of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before September 13, 1976.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC–30319 (Sub-No. 133) (Deviation No. 11), SOUTHERN PACIFIC TRANSPORT COMPANY OF TEXAS AND LOUISIANA, P.O. Box 6187, Dallas, Tex. 75222, filed July 26, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Shreveport, La., over U.S. Highway 71 to Alexandria, La., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Shreveport, La., over U.S. Highway 171 to junction Louisiana Highway 5, thence over Louisiana Highway 5 to Logansport, La., thence over U.S. Highway 84 to Tenaha, Tex., thence over U.S. Highway 59 to Lufkin, Tex., thence over U.S. Highway 69 to Beaumont, Tex., thence over Interstate Highway 10 to Lafayette, La., thence over U.S. Highway 167 to junction Louisiana Highway 10, thence over Louisiana Highway 10 to Lebeau, La., thence over U.S. Highway 71 to Alexandria, La., and return over the same route.

No. MC 108859 (Deviation No. 8), CLAIRMONT TRANSFER CO., P.O. Box 717, 1803 Seventh Ave. North, Escanaba, Mich. 49829, filed July 26, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Rapid City, Ill., over Interstate Highway 80 to junction Interstate Highway 74, thence over Interstate Highway 74 to junction U.S. Highway 41 near Veedersburg, Ind., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Rapids City, Ill., over Illinois Highway 84 to Fulton, Ill., thence over U.S. Highway 30 to junction Illinois Highway 2, thence over Illinois Highway 2 via Sterling and Dixon, Ill., to junction Illinois Highway 38, thence over Illinois Highway 38 to De Kalb, Ill., thence over Illinois Highway 23 to Sycamore, Ill., thence over Illinois Highway 64 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction U.S. Highway 41 in Chicago, Ill., thence over U.S. Highway 41 to Veedersburg, Ind., and return over the same route.

No. MC 108859 (Deviation No. 9), CLAIRMONT TRANSFER CO., P.O. Box 717, 1803 Seventh Avenue North, Escanaba, Mich. 49829, filed July 29, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Dixon, Ill., over U.S. Highway 52 to junction U.S. Highway 51, thence over U.S. Highway 51 to junction Interstate Highway 74, thence over Interstate Highway 74 to junction U.S. Highway 41 near Veedersburg, Ind., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Dixon, Ill., over Illinois Highway 38 to De Kalb, Ill., thence over Illinois Highway 23 to Sycamore, Ill., thence over Illinois Highway 64 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction U.S. Highway 41 in Chicago, Ill., thence over U.S. Highway 41 to Veedersburg, Ind., and return over the same route.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Commission's Deviation Rules—Motor Carriers of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before September 13, 1976.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 707) (Cancels Deviation No. 689), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed July 22, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Marion, Ill., over Interstate Highway 57 to junction Interstate Highway 24, thence over Interstate Highway 24 to junction Kentucky Highway 305, thence over Kentucky Highway 305 to Paducah, Ky., with the following access routes: (1) From Vienna, Ill., over Illinois Highway 146 to junction Interstate Highway 24, and (2) From Metropolis, Ill., over U.S. Highway 45 to junction Interstate Highway 24 and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Marion, Ill., over Illinois Highway 37 to junction Illinois Highway 146, thence over Illinois Highway 146 to junction U.S. Highway 45, thence over U.S. Highway 45 to Paducah, Ky., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATIONS

The following application for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's general rules of practice (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A56161, filed December 30, 1975. Applicant: ARROW TRUCKING CO. OF CALIFORNIA, INC., 920 Heinz Avenue, Berkeley, Calif. 94710. Applicant's representative: Daniel W. Baker, 100 Pine Street, Suite 2550, San Francisco, Calif. 94111. Certificate of public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, between all points on or within 25 miles of points on the following routes: 1. U.S. Highway 101 between San Rafael and Salinas, inclusive; 2. State Highway 17 between San Rafael and Santa Cruz, inclusive; 3. State Highway 1 between Santa Cruz and Monterey, inclusive; 4. Interstate Highway 80 between San Francisco and Sacramento, inclusive; 5. State Highway 4 between its junction with Interstate Highway 80 near Pinole, and Stockton, inclusive; 6. Interstate Highway 580 between Oakland and its junction with Interstate Highway 5 near the San Joqauin-Stanislaus County boundary line, inclusive; 7. Interstate Highway 205 between its junctions with Interstate Highways 580 and 5, inclusive; 8. Interstate Highway 5 between Stockton and its junction with State Highway 152, near Los Banos, inclusive; 9. State Highway 99 between Sacramento and Fresno, inclusive; and 10. State Highway 152 between its junctions with Interstate Highway 5, near Los Banos, and State Highway 99, near Chowchilla. Restrictions: No service shall be provided: (a) To, from or between points on or within 5 miles of U.S. Highway 101 north of Novato; and (b) For the transportation of containers that have had a prior or will have a subsequent movement by air or water, except this restriction shall not preclude carrier from transporting containers which are less than 20 feet in length, moving via water carriers. In performing the service herein authorized applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service, except that pursuant to the authority herein granted, carrier shall not transport any shipments of:

1. Used household goods, personal effects and office, store and institutional furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff 4–B. 2. Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. 3. Livestock, viz.: barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feeder pigs, gilts, goats, heifers, hogs, kids, lambs, oxen pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stage, swine or wethers. 4. Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. 5. Commodities when transported in bulk in dump trucks or in hopper-type trucks. 6. Commodities when transported in motor vehicles equipped for mechanical mixing in transit. 7. Logs. 8. Articles of extraordinary value. 9. Trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper; and 10. Fresh fruits and vegetables. Intrastate, interstate and foreign commerce authority sought.

HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Public Utilities Commission, State of California, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102 and should not be directed to the Interstate Commerce Commission.

California Docket No. A56564, filed June 17, 1976. Applicant: GEORGE LANGE TRUCKING, INC., 999 Newhall Street, P.O. Box 26070, San Jose, Calif. 95159. Applicant's representative: Robert K. Lancefield, 2470 El Camino Real, S. #108, P.O. Box 11415, Palo Alto, Calif. 94306. Certificate of Public Convenience and Necessity sought to operate a freight service as a highway common carrier as follows: Transportation of *General commodities*, (except the following: (a) Used household goods and personal effects not packed in accordance with the crated property requirements; (b) livestock; (c) liquids, compressed gases, commodities in semi-plastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles; (d) commodities when transported in bulk in dump trucks or in hopper-type trucks; (e) commodities when transported in motor vehicles equipped for mechanical mixing in transit; (f) logs; (g) fresh fruits and vegetables; (h) automobiles, trucks and buses; and (i) class A and B ammunition and explosives, between all points and places in the San Francisco Territory, defined in Exhibit A, and all points within 15 miles of any point in said territory. In performing the service herein authorized, applicant may make use of any and all streets, roads, highways and bridges necessary or convenient for the performance of said service. SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue.

Easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits, easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga

V 41 1157 AUG 12 76 UMI

Avenue to Estates Drive; westerly along Estates Drive, Harbor Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Oakland-Berkeley boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point

POLICIES AND PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS

Request for Public Comment

V 41 157 AUG 12 76 UMI

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. 15978; Proposed FAA Order 1050.1B]

POLICIES AND PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS

Request for Public Comment

Pursuant to the guidelines of the Council on Environmental Quality (CEQ) appearing in 40 CFR Part 1500, and of the Department of Transportation published in the FEDERAL REGISTER on September 30, 1974, (38 FR 35234), the Federal Aviation Administration (FAA) proposes to revise its policies and procedures for consideration of environmental impacts required by section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA) (Pub. L. 91-190; 42 U.S.C. 4332(2)(C)), as amended.

The proposed procedures appended to this notice are in the form of an internal directive, FAA Order 1050.1B, entitled "Policies and Procedures for Considering Environmental Impacts," which would replace FAA Order 1050.1A, dated June 19, 1973, entitled "Procedure for Considering Environmental Impacts of Proposed FAA Actions."

In addition to NEPA, which is applicable to all Federal agencies, other Federal laws and directives require that the FAA consider environmental and other effects of various actions taken by the agency. These laws and directives include—

1. Section 4(f) of the Department of Transportation Act of 1966 (Pub. L. 89-670, as amended by Pub. L. 90-495);
2. Pertinent sections of the Airport and Airway Development Act of 1970 (Pub. L. 91-258), as amended;
3. Section 106 of the National Historic Preservation Act of 1966 (Pub. L. 89-665);
4. Executive Order 11593: "Protection and Enhancement of the Cultural Environment," dated May 13, 1971;
5. Executive Order 11296: "Flood Hazard Evaluation Guidelines," dated August 10, 1966;
6. Sections 303 and 307 of the Coastal Zone Management Act of 1972 (Pub. L. 92-583);
7. Section 2 of the Water Bank Act (Pub. L. 91-559);
8. Section 2 of the Fish and Wildlife Coordination Act (Pub. L. 85-624);
9. The Noise Control Act of 1972 (Pub. L. 92-574);
10. 36 CFR Part 800: "Procedures for the Protection of Historic and Cultural Properties;"
11. DOT Order 5660.1: "Preservation of the Nation's Wetlands," dated June 21, 1975;
12. The Endangered Species Act of 1973 (Pub. L. 93-205);
13. The Archaeological and Historic Preservation Act (Pub. L. 93-291);
14. OMB Circular No. A-95 "Evaluation, Review, and Coordination of Federal Assistance Programs and Projects;" and
15. The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646).

The procedures set forth in proposed FAA Order 1050.1B utilize the environmental impact statement, in those instances required by NEPA, as the vehicle by which the FAA makes the findings, determinations, and clearances required by the laws enumerated. FAA Order 1050.1B, if adopted, is proposed to include the provisions of proposed FAA Order 5050.2A regarding environmental assessments under the airport development program. If FAA Order 5050.2A is adopted and its provisions are subsequently included in FAA Order 1050.1B, FAA Order 5050.2A will be cancelled. Proposed FAA Order 5050.2A, which is not republished with this notice, was previously published for comment in the FEDERAL REGISTER on August 20, 1975 (40 FR 36516).

It should also be noted that paragraph 324 of the proposed FAA Order includes guidelines for making noise assessments.

Interested persons are invited to comment on proposed FAA Order 1050.1B by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to: Federal Aviation Administration, Office of Chief Counsel, Attention: AGC-24, 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before September 27, 1976, will be considered by the Administrator before taking action on the proposed Order. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the docket both before and after the closing date for comments.

In consideration of the foregoing, the FAA proposes to issue FAA Order 1050.1B, "Policies and Procedures for Considering Environmental Impacts" as set forth below, together with the provisions involving airport development which were previously published in the FEDERAL REGISTER for comment as proposed FAA Order 5050.2A.

Issued in Washington, D.C. on August 4, 1976.

JOAN B. BARRIAGE,
Acting Director
of Environmental Quality.

POLICIES AND PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS

FOREWORD

1. *Purpose.* This order establishes policies and procedures for the preparation of environmental impact statements and negative declarations and requires consideration of environmental impacts in decision making.

2. *Distribution.* This directive is distributed to Washington Headquarters, National Aviation Facilities Experimental Center, Aeronautical Center, and area offices to branch level, regional headquarters to section level and to all field offices and facilities.

3. *Cancellation.*

a. This directive cancels Order 1050.1A, Procedures for Considering Environmental Impacts of Proposed FAA Actions; Order 1050.2, Environmental Assessments of ILS Facilities Systems; Order 1050.3, Environmental Assessments of ARSR Facilities Systems; Order 1050.4, Environmental Assessments for Remote Communications Air/Ground; Order 1050.5, Environmental Assessment for Radar Microwave Link Systems; Order 1050.6, Environmental Assessment of an Air Traffic Control Tower; Order 1050.7, Environmental Assessment for Airport Surveillance Radar; Order 1050.8, Environmental Assessment for VHF Omnidirectional Range/Tactical Air Navigational (VORTAC); Order 1050.9, Conservation of Energy; Order 5050.2A, Procedures and Policy for Processing Airport Development Actions Affecting the Environment; and

b. Order 7040.2A, Aircraft Sound Descriptor System, is cancelled (one year from approval date).

4. *Explanation of changes.*

a. *This order* consolidates FAA directives regarding policies and procedures for considering environmental impacts. It includes guidance on content and preparation, processing and filing of environmental impact statements and negative declarations, and guidance on citizen involvement.

b. *Each service* has a separate appendix covering its actions, which assigns responsibility for evironmental procedures, determines timing for preparation and filing of environmental documentation, and establishes measures to mitigate adverse environmental impacts and to consider alternatives.

c. *This order* instructs the agency on statutory and administrative requirements involving the policy and procedures for considering environmental impacts.

5. *Effective date.* See paragraph 324 for the effective date of that paragraph. All other provisions are effective as of the approval date of this directive.

CHAPTER 1. POLICIES AND AUTHORITY

1. Policy
2. Background
3. Definitions applicable to this order
4. Scope
5. Affirming prior actions
6. Changes to this directive
7. Responsibilities
8.-199. Reserved

CHAPTER 2. PRELIMINARY CONSIDERATIONS AND PROCEDURES

Section 1. Preliminary environmental review

200. Planning or development stage
201. Initial review
202. Budget stage
203. Research
204-205. Reserved

Section 2. Preliminary consultation procedures

206. Consultation
207. Citizen involvement
208. A-95 review
209. Public hearing
210. Notification of preparation of EIS.
211.-299. Reserved

CHAPTER 3. ENVIRONMENTAL IMPACT STATEMENTS AND NEGATIVE DECLARATIONS

Section 1. Determination whether an action is a major Federal action significantly affecting the quality of the human environment

300. Environmental assessment
301. Actions requiring environmental impact statements
302.-304. Reserved

Section 2. Negative declarations

305. Format
306. Scope of documentation
307. Responsible officials
308. Coordination
309. Distribution
310. Availability for public information
311.-315. Reserved

Section 3. Format of environmental impact statements

316. Format
317.-319. Reserved

Section 4. Content of environmental impact statements

320. General
321. Description
322. Background information
323. Probable impacts
324. Noise
325. Air quality
326. Water quality
327. Social impacts
328. Induced socio-economic impacts
329. DOT section 4(f)
330. Historical and archaeological sites
331. Flood hazard evaluation
332. Considerations relating to wetlands or coastal zones
333. Coastal zone management programs
334. Energy supply and natural resources development
335. Construction impacts
336. Wildlife and waterfowl
337. Impacts relating to endangered and threatened species of fauna and flora
338. Light emissions
339. Visual impacts
340.-343. Reserved
344. Actions to minimize unavoidable adverse effects
345. Alternatives
346. Relationship between short-term uses of man's environment and the maintenance and enhancement of long-term productivity
347. Irreversible and irretrievable commitments of resources
348. Citizen involvement
349. Summary of impacts

Section 5. Preparation of draft environmental impact statements or negative declarations

350. Timing of draft statement preparation
351. Applications
352. Use of consultants
353. Scope of statement
354. Inclusion of environmental determinations
355. Interdisciplinary approach
356. Internal review process
357. Regulations
358. Legislative proposals
359. Lead agency

Section 6. Processing of draft environmental impact statements

360. Public notice
361. Copies
362. Circulation and availability of DEIS
363. Time for comment
364.-369. Reserved

Section 7. Change of draft environmental impact statement to negative declaration

370. General
371. Approval authority
372. Public notification
373.-374. Reserved

Section 8. Preparation, approval and distribution of final environmental impact statement

375. Utilization of comments
376. Approval of final environmental impact statements
377. OST concurrence
378. Decisions reserved to the secretary
379. Availability pending approval
280. Distribution of environmental impact statements
381. Implementing actions
382.-389. Reserved

Section 9. Supplemental actions

390. Supplemental or amended statements
391. Implementation of commitments in environmental statements
392.-399. Reserved

CHAPTER 4. ADDITIONAL PROVISIONS

400. Review of environmental statements prepared by other agencies
401. Lists of environmental impact statements anticipated or under preparation
402. Emergency action procedures
403. Application of section 102(2)(C) procedure to existing projects and programs
404. Land acquisition and construction of facilities
405. Environmental impact statements or negative declarations on requests from foreign sources
406.-499. Reserved

Appendix 1. Systems research engineering and development

1. General
2. Scope
3. Excepted actions
4. Procedures and responsibilities
5. Environmental impact statement or negative declaration
6. Timing of EIS
7. Mitigating measures

Appendix 2. Airway facilities

1. General
2. Environmental responsibilities
3. Environmental impact statements or negative declarations
4. Projects subject to environmental assessments and procedures
5. Class negative declarations
6. Excepted projects
7. Environmental considerations during budgetary process
8. Implementation of commitments on an EIS or ND
9. Timing of environmental procedures

Appendix 3. Air traffic

1. General
2. Environmental responsibilities
3. Environmental impact statements or negative declarations
4. Actions subject to environmental assessments and procedures
5. Excepted actions
6. Timing of environmental procedures
7. Mitigating noise impacts

Appendix 4. Flight standards

1. General
2. Environmental responsibilities
3. Environmental impact statements or negative declarations
4. Actions subject to environmental assessments and procedures
5. Excepted or class ND actions
6. Timing of environmental procedures

Appendix 5. Logistics

1. General
2. Environmental responsibilities
3. Environmental impact statements or negative declarations
4. Actions subject to environmental assessments and procedures
5. Excepted or class ND actions

Appendix 6. Airport development

Appendix 7. Consultation and distribution of environmental impact statements

1. Consultation-coordination
2. Subject areas of environmental impact and federal and federal-state agencies with jurisdiction by law or special expertise to comment thereon
3. Offices within federal and federal-state agencies for information regarding the agencies' NEPA activities

Appendix 8. Definitions of codes for the general nature of EPA comments

1. Environmental impact of the action
2. Adequacy of the impact statement

CHAPTER 1. POLICIES AND AUTHORITY

1. *Policy.* The FAA will comply with both the procedures and the policies of the National Environmental Policy Act of 1969 (hereafter NEPA) and related orders and statutes.

a. *FAA policy is* to integrate national environmental objectives into existing agency policies and missions;

(1) To avoid or minimize adverse environmental effects wherever possible by considering project alternatives or measures to mitigate adverse impacts;

(2) To restore or enhance environmental quality to the fullest extent practicable;

(3) To make a special effort to preserve the natural beauty of the countryside, public park and recreation lands, wildlife and waterfowl refuges, and historic sites;

(4) To preserve, restore and enhance wetlands;

(5) To preserve, protect, develop, and where possible, to restore or enhance the resources of the Nation's coastal zone;

(6) To promote an environment free from noise that jeopardizes health and welfare;

(7) To consult with and inform individuals and groups who are affected by or known to have an interest in an action, or who can speak knowledgeably on the impacts of proposed actions;

(8) To develop programs and activities in cooperation with State and local governments.

b. *FAA's environmental assessment and consultation process:*

(1) Provides officials and other decision makers, as well as the public, with an understanding of the potential environmental effects of proposed actions; and

(2) Assures that decision making must include environmental assessments along with economic, technical and other factors.

c. *Environmental impact statements* (hereafter EIS) and negative declarations (hereafter ND) serve:

(1) To document and record compliance with these policies and procedures; and

(2) To reflect a thorough review of all relevant environmental factors, utilizing a systematic, interdisciplinary approach.

d. *These policies* are supplementary to other agency policies established under other statutes and directives.

2. *Background.* This Order implements agency actions required by the statutes and directives cited in subparagraphs a. through p. This Order references procedures in subparagraphs q. through s.

a. *The National Environmental Policy Act of 1969* (P.L. 91-190) establishes a broad national policy to promote efforts to improve the relationship between humans and their environment, and provides for the creation of a Council on Environmental Quality (hereafter CEQ). NEPA sets out certain policies and goals concerning the environment, and requires that, to the fullest extent possible, the policies, regulations, and public laws of the United States shall be interpreted and administered in accordance with those policies and goals.

(1) *Section 102 of NEPA* is designed to insure that environmental considerations are given careful attention and appropriate weight in all decisions of the Federal Government.

(2) *Section 102(2)(C)* of NEPA requires that all agencies of the Federal Government shall:

Include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official on—

V 41 157 AUG 12 76 UMI

(i) The environmental impact of the proposed action;

(ii) Any adverse environmental effects which cannot be avoided should the proposal be implemented;

(iii) Alternatives to the proposed action;

(iv) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity; and

(v) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

Prior to making any detailed statement, the responsible Federal official shall consult with and obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statements and views of the Federal, State, and local agencies which are authorized to develop and enforce environmental standards shall be made available to the President, the Council on Environmental Quality and to the public as provided by section 552 of Title 5, United States Code, and shall accompany the proposal through the existing agency review processes.

(3) *Section 102(2)(A) of NEPA* requires all agencies of the Federal Government to "utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and decision making which may have an impact on man's environment * * *"

(4) *Section 102(2)(D)(iv) of NEPA* (P.L. 94-83) provides that if a State agency with statewide jurisdiction prepares an FIS for a major Federal action funded under a program of grants to states, and the proposed action may have significant impacts upon another State or any Federal land management entity, the responsible Federal official shall provide early notification to, and solicit views from, such Federal entity or other State regarding the impacts of the proposed action, and if there is any disagreement, shall prepare a written assessment of these impacts and views for incorporation into the statement.

b. *Executive Order 11514*, Protection and Enhancement of Environmental Quality, dated March 4, 1970, orders all Federal agencies to "initiate measures needed to direct their policies, plans, and programs so as to meet national environmental goals."

c. *Guidelines from the President's Council on Environmental Quality* (38 F.R. 20549, 40 C.F.R. 1500 et seq., August 1, 1973) provides guidance to agencies for the preparation of environmental impact statements.

d. *DOT Order 5610.1B, Procedures for Considering Environmental Impacts*, September 30, 1974, provides guidelines for considering environmental impacts of transportation actions.

e. *Section 4(f) of the Department of Transportation Act of 1966* (P.L. 89-670 as amended by P.L. 90-495 hereafter, Section 4(f)) states, "It is hereby declared to be the national policy that special effort should be made to preserve the natural beauty of the countryside and public parks and recreational lands, wildlife and waterfowl refuges, and historic sites. The Secretary . . . shall not approve any program or project which requires the use of any publicly owned land from a public park, recreation area, or wildlife and waterfowl refuge of national, State, or local significance as determined by the Federal, State, or local officials having jurisdiction thereof, or any land from an historic site of national, State, or local significance as so determined by such officials unless (1) there is no feasible and prudent alternative to the use of such land, and (2) such program includes all possible planning to minimize harm to such park, recreational area, wildlife and waterfowl refuge, or historic site resulting from such use."

f. *The Airport and Airway Development Act of 1970* as amended (P.L. 91-258, hereafter the Airport Act) establishes an airport development grant program.

(1) *Section 16(c)(1)(A) of the Airport Act* provides that an airport development project may be approved only if the Secretary is satisfied that the project is reasonably consistent with plans (existing at the time of approval of the project) of planning agencies for development of the area in which the airport is located.

(2) *Section 16(c)(3) of the Airport Act* requires consideration of the interests of communities in or near which airport development projects are proposed.

(3) *Section 16(c)(4) of the Airport Act* directs that each airport development project "provide for the protection and enhancement of the natural resources and the quality of environment of the Nation"; and provides that the Secretary may not authorize a project found to have an adverse effect unless he finds, in writing, after full and complete review, that "no feasible and prudent alternative exists and that all possible steps have been taken to minimize such adverse effect."

(4) *Sections 16(d) and (e) of the Airport Act* require, as a condition to approval of certain airport projects, that:

(a) An opportunity be afforded for a public hearing for consideration of economic, social, and environmental effects; and

(b) Assurances be obtained that the project will be located, designed, constructed, and operated so as to comply with applicable air and water quality standards.

(5) *Section 18(4) of the Airport Act* requires that assurances be obtained that "appropriate action, including the adoption of zoning laws, has been or will be taken, to the extent reasonable, to restrict the use of land adjacent to or in the immediate vicinity of the airport to activities and purposes compatible with normal airport operations, including landing and takeoff of aircraft."

g. *The Noise Control Act of 1972* (P.L. 92-574) states the policy to "promote an environment for all Americans that is free from noise that jeopardizes their health and welfare."

h. *Section 106 of the National Historic Preservation Act of 1966* (P.L. 89-665 hereafter, the Historic Preservation Act) requires the head of any Federal agency having jurisdiction over a Federal or federally-assisted undertaking to take into account, prior to approving the undertaking, its effect on any district, site, building, structure, or object that is included in the National Register of Historic Places, and to give the Advisory Council on Historic Preservation a reasonable opportunity to comment on the undertaking.

i. *Executive Order 11593, Protection and Enhancement of the Cultural Environment*, requires that Federal plans and programs contribute to the preservation and enhancement of sites, structures, and objects of historical, architectural, or archaeological significance.

j. *36 CFR Part 800 (39 FR 3365, January 25, 1974) Procedures for the Protection of Historic and Cultural Properties*, establishes procedures to ensure that historic and cultural resources are given proper consideration in the preparation of environmental impact statements.

k. *Executive Order 11296, Flood Hazard Evaluation Guidelines*, requires Federal agencies to evaluate flood hazards in planning facilities, constructing buildings and facilities, disposing of lands and properties, and land use planning.

l. *The Coastal Zone Management Act of 1972* (P.L. 90-583) states that "it is national policy (a) to preserve, protect, develop, and where possible, to restore or enhance, the resources of the Nation's coastal zone * * *" (section 303); and requires all Federal or federally supported activities affecting the zone to be carried out in a manner consistent with State coastal zone management programs (section 307).

m. *Section 2 of the Water Bank Act* (P.L. 91-559) declares that "* * * it is in the public interest to preserve, restore, and improve the wetlands of the Nation * * *"

n. *Section 2 of the Fish and Wildlife Coordination Act* (P.L. 85-684) requires, with certain limited exceptions, that "whenever the waters of any stream or other body of water are proposed or authorized to be * * * impounded, diverted, the channel deepened, or the stream or other body of water otherwise controlled or modified for any purpose whatever * * * by any department or agency of the United States, or by any public or private agency under Federal permit or license, such department or agency shall first consult with the United States Fish and Wildlife Service, Department of the Interior, and with the head of the agency exercising administration over the wildlife resources of the particular State wherein the * * * control facility is to be constructed * * *" (subsection (a)). Reports and recommendations of the Secretary of the Interior and any other applicable officials must be included in the report prepared or submitted by the agency responsible for constructing the project to the Congress or other agency having authority to approve the project (subsection (b)).

o. *Preservation of the Nation's Wetlands*, DOT Order 5660.1, of June 21, 1975, provides information on the definition and significance of wetlands, and declares the policy to assure the protection, preservation, and enhancement of the nation's wetlands to the fullest extent practicable during the planning, construction, and operation of transportation facilities and projects.

p. *The Endangered Species Act of 1973* (P.L. 93-205) requires that all Federal agencies shall, in consultation with the Secretaries of Interior and Commerce, carry out programs for the conservation of endangered or threatened species listed by the Department of the Interior and insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of the endangered species or result in the destruction or modification of the habitat of such species to an extent which is determined by the Secretary (of the Interior or Commerce) to be critical.

q. *The Archaeological and Historic Preservation Act of 1974* (P.L. 93-291) provides for notifying the Secretary of the Interior of activities which "may cause irreparable loss or destruction of significant scientific, prehistorical, historical, or archaeological data." Agencies may request the Secretary of the Interior to undertake the recovery, protection and preservation of such data, including preliminary survey or other investigation as needed, analysis, and publication; or the agency may undertake the activity itself.

r. *OMB Circular No. A-95* requires notification to State and regional clearinghouses of any action which affects areawide or community development.

s. *The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970* (P.L. 91-646) provides for relocating individuals and businesses displaced by public action, prescribes payments and procedures, and authorizes the use of project funds to build last resort housing.

3. *Definitions applicable to this order.*

a. *Major Federal Action Significantly Affecting the Quality of the Human Environment* includes any Federal action falling within the scope of paragraph 301 of this Order. These actions require the preparation of an EIS.

b. *Environmental Impact Assessment Report* refers to a report prepared outside FAA, which analyzes the environmental impact of a proposed action. The report may serve as the basis, in whole or in part, for the FAA's draft environmental impact statement (hereafter DEIS) or ND.

c. *Preliminary environmental review* is a pre-EIS or pre-ND look at environmental impacts of proposed actions and services to alert program officers of the action's possible significant impacts on the quality of the human environment or of impacts which may be highly controversial on environmental grounds.

d. *Draft Environmental Impact Statement* is the document that reflects FAA's initial evaluation of the environmental impact of a proposed action. The agency makes its own evaluation and assumes responsibility for the DEIS. It is distributed by FAA to the Council on Environmental Quality (hereafter CEQ) and other appropriate Federal, State and local agencies for comment and is made available to the public.

e. *Final Environmental Impact Statement* (hereafter FEIS) is the document that reflects FAA's final evaluation of the environmental impact of a proposed action. The EIS is the vehicle for considering the environmental impacts of a proposed Federal action. The EIS shall accompany the proposed action through the Federal decision-making process.

f. *Negative. Declaration* represents a determination by the responsible official that a particular action is not one significantly affecting the quality of the human environment and that coordination and review pursuant to Section 102(2)(C) of NEPA is not required. Except for differences in complexity and scope, the documentation supporting a ND is similar to that supporting an EIS.

g. *Prior Action Affirmation* is a finding that a proposed action is within the scope of a previously approved EIS or ND, that preparation of a new EIS or ND is not necessary, and, therefore, that the prior Federal action may be affirmed.

h. *Human Environment* includes the aggregate of all external conditions and influences (ecological, biological, economic, social, cultural, historical, aesthetic, etc.) that affect the life of a human.

i. *Responsible Official* is the official who makes the final determination as to whether the environmental requirements for a proposed agency action have been satisfied and who approves the EIS or ND.

j. *Program Officer(s)* are the agency officers assigned by the responsible official, to undertake preliminary environmental reviews and to prepare environmental assessments, EISs, or NDs.

k. *Noise Sensitive Areas* may include residential neighborhoods, educational health, and religious structures and sites, and outdoor recreation, cultural, and historic sites. A noise sensitive area is one where noise may interfere with the usual activities associated with use of the land. Whether sound interferes with a particular use depends upon the level of noise exposure received and the type of activities involved. A site which is unacceptable for a particular use outside of a structure may be acceptable for the same activity when it is located inside a structure which has adequate noise attenuation features.

4. *SCOPE.* Except as provided below, the requirements in this order apply to, but are not limited to, the following: all grants, loans, contracts, leases, construction, research activities, rulemaking and regulatory actions, certifications, licensing, permits, plans submitted to the agency by State or local agencies which require FAA approval, and legislation proposed by FAA.

a. *Class action or program statement.* A general class of actions or a program may be covered by a single EIS or ND when the environmental impacts of all actions in the class or program, alternatives thereto, and measures to mitigate adverse environmental impacts are substantially similar.

b. *Exceptions to the Requirement for an EIS or ND:*

(1) Assistance in the form of general revenue sharing with no FAA control over the subsequent use of the funds;

(2) Administrative and opertaing procurements (e.g., general supplies and replacement parts and equipment including contracts for professional services);

(3) Personnel actions (e.g., promotions, hirings);

(4) Planning grants which do not imply a project commitment;

(5) Project amendments (e.g., increases in costs) which do not alter the environmental impact of the action;

(6) Legislative proposals not originating in FAA;

(7) Policy and planning documents not intended for or which do not cause direct implementation of project or system actions;

(8) Agreements with foreign governments, international organizations, or U.S. Government departments calling for the provision of technical assistance, advice or services in foreign countries;

(9) Organizational changes within the FAA;

(10) Emergency measures regarding the air or ground safety;

(11) The development and implementation of job related training programs;

(12) The planning and development of projects and programs leading to Aeromedical Applications and Standards; personnel efficiency and performance;

(13) The approval or issuance of certificates covering medicals, airmen, delegated authority, ground schools; out-of-agency training; and aircraft repair-maintenance not affecting noise, emissions or wastes;

(14) In addition to the exceptions noted above, each of the Service Appendices may provide for exceptions of specific types of projects or categories of actions carried out by that Service, providing that these excepted actions are not major Federal actions significantly affecting the quality of the human environment.

c. *Actions accepted* from this Order or for which class EISs or NDs have been filed do not require further documentation.

d. *An action* which has been excepted in this order or for which a class EIS or ND has been filed, but which in a particular case significantly affects the quality of the human environment requires the preparation of an EIS.

5. *Affirming prior actions.* The preparation of a new EIS or ND is not necessary when it can be documented that: the proposed action conforms to plans or projects for which a prior EIS or ND has been filed; the data and analyses contained in the previous EIS or ND are still substantially valid; and that all pertinent conditions and requirements of the prior approval have or will be met in the current action. In this case, no additional assessment or coordination is required by this order, and the responsible official may affirm the prior action subject to review for legal sufficiency.

6. *Changes to this directive.* The Director, Office of Environmental Quality (hereafter AEQ-1) is responsible for and may make changes in Chapters 1-4 of this directive, and each office or service director may make changes in his respective appendix, subject to AEQ-1 and Office of the Chief Counsel (hereafter AGC) coordination provided:

a. The change does not affect policy, delegations of authority, or assignment of responsibilities outside the service's authority;

b. The Administrator has not specifically reserved authority to make the change;

c. Substantial changes obtain the concurrence of the Office of the Assistant Secretary for Environment, Safety and Consumer Affairs (hereafter TES) and the Office of the General Counsel (hereafter TGC) and are published for comment in the FEDERAL REGISTER.

7. *Responsibilities.* Agency officials are responsible for implementing this order as follows:

a. *Compliance* with the policies and procedures of this order is the responsibility of:

(1) The regional directors for all actions originating in the regions;

(2) The headquarters office and service directors for all actions originating at headquarters; and

(3) The center directors for all actions originating at centers.

b. *Service directors* are responsible, in addition, for:

(1) Revising their appendixes of this order, as appropriate;

(2) Providing supplemental guidelines for implementing this order in their program areas, as appropriate; and

(3) Consulting with and advising responsible officials on matters within their operational areas.

c. *Regional Directors* are responsible, in addition, for developing programs for:

(1) Assigning personnel and other resources necessary to assess and document all relevant environmental factors;

(2) Preparing and filing EISs and NDs as appropriate; and

(3) Assuring appropriate internal coordination of actions that cross program lines.

d. *Office of Environmental Quality* (hereafter AEQ) is responsible for:

(1) Overseeing FAA's environmental policies and procedures;

(2) Developing and coordinating policies and procedures under this order;

(3) Assisting services in developing guidance for their program areas;

(4) Consulting with and advising responsible officials in their implementation of this order; and

(5) Developing training programs in cooperation with the Office of Personnel and Training and the services.

e. *The Chief Counsel* and regional and center counsels provide legal counsel to all elements of FAA regarding the legal sufficiency of environmental documents.

f. *Other responsibilities* regarding specific program areas are set forth in Appendices 1-6 of this order.

8.-199. *Reserved.*

CHAPTER 2. PRELIMINARY CONSIDERATIONS AND PROCEDURES

SECTION 1. PRELIMINARY ENVIRONMENTAL REVIEW

200. *Planning and development stage.* The environmental impacts of proposed actions shall be assessed and considered concurrently with initial planning, development, or site considerations.

201. *Initial review.* Preliminary environmental review shall indicate whether the proposed project could significantly affect the environment with respect to noise, land,

V 41 1157 AUG 12 76 UMI

air, and water quality; and is located in wetlands, coastal zones, or historic or archaeological sites; or areas inhabited by endangered species; or areas protected under DOT Section 4(f); and whether the action would be highly controversial on environmental grounds. Documentation is not required except as necessary to alert program officers to foreseeable environmental impacts and controversies at the earliest stages of consideration.

a. Preliminary review should include a visit to the site. This visit should be made concurrently with any other preliminary on-site visit(s).

b. Secondary sources should also be used, including:

(1) Maps and aerial photos, such as those available from U.S. Coast and Geodetic Survey, local land use planners and transportation and engineering agencies;

(2) Interviews with land use planners, engineers and local experts in forestry, fish and wildlife, agriculture, endangered species, historic preservation and archaeology;

(3) Reference sources, such as the National Register of Historic Places, and similar State or local listings.

202. *Budget stage.* The Office of Budget is responsible for assuring appropriate environmental consideration and documentation at the budget stage. Criteria for environmental consideration in the facilities budget process are at Appendix 2, paragraph 7.

203. *Research.* Criteria for environmental consideration of research activities are in Appendix 1.

204.–205. *Reserved.*

SECTION 2. PRELIMINARY CONSULTATION PROCEDURES

206. *Consultation.* Affected local units of government, and pertinent Federal and State agencies (see Appendix 7) should be consulted early in the process of preparing a DEIS, ND, or environmental impact assessment report. Advice received early in project development could be helpful in preparing EISs or NDs. Input on the environmental impacts of the proposed action shall be considered, as appropriate, in determining whether the proposed action requires an EIS or ND and in preparing the DEIS or ND. This consultation with State and local agencies may be done through A–95 procedures.

207. *Citizen involvement.* Citizen involvement should be initiated at the earliest practical time and continued throughout the development of the proposed project in order to obtain meaningful input. Examples of citizen groups are: environmental, conservation, public service, education, labor, business or aviation and airspace user organizations and citizen advisory committees.

a. *Methods of communication to be used include:*

(1) Individual contacts, citizen advisory committees, telephone, and mail;

(2) Public hearings or meetings;

(3) Information for the public or through the media;

(4) Bulk mailings, advertisements or notices in local newspapers or public places; and

(5) Up-to-date mailing lists of special interest groups and other interested parties at the National, regional, and local levels.

b. *Comments from these individuals* and groups shall be considered in preparing an EIS or ND. A summary of citizen involvement and the environmental issues raised shall be documented in the EIS or ND.

c. *Citizen involvement* may be appropriate in defining the scope of work of an environmental impact assessment report developed by an applicant for aid or a consultant, or of a DEIS being developed by FAA.

208. *A–95 Review.* Notification of the proposed or planned action which has an impact on areawide or community development shall be submitted to appropriate state and areawide clearinghouses and normally through clearinghouses to designated public agencies, including those state and local agencies which are authorized to develop and enforce environmental standards. A–95 procedures should be helpful in alerting program officers and responsible officials to possible environmental controversies. Comments on the environmental effects of proposed actions are inputs to an EIS or ND, and shall be attached to the DEIS when it is circulated for review.

209. *Public hearing.*

a. The following elements are to be considered in deciding whether a public hearing or the opportunity for a public hearing is appropriate:

(1) The magnitude of the proposal in terms of environmental impact or controversy, economic costs, the size and location of the geographic area involved and the uniqueness or size of commitment of the resources involved;

(2) The degree of interest in the proposal, as evidence by requests from the public and from Federal, State, and local authorities that a hearing be held;

(3) The complexity of the issue and the likelihood that information will be presented at the hearing which will be of assistance to the agency in fulfilling its responsibilities;

(4) The extent to which public involvement already has been achieved through other means, such as earlier public hearings, meetings with citizen representatives, and/or written comments on the proposed action; and

(5) When a public hearing is required by law.

b. The following shall be included in the notice for a public hearing or for the opportunity for a public hearing:

(1) A description of the proposed action;

(2) If a hearing is being held, the time, date, and place of the public hearing; and

(3) The availability and location of a DEIS, ND or environmental impact assessment report.

c. Notice of the hearing shall be in an areawide or local newspaper of general circulation.

d. A DEIS, ND, or environmental impact assessment report shall be available to the public 30 days prior to the public hearing.

e. The responsible official may assign program officers the responsibility for convening a hearing and serving as hearing officer.

210. *Notification of preparation of EIS.* Interested parties, including pertinent Federal, State, and local agencies shall receive early notification of an agency decision to prepare an EIS. This may be done by including notification of the decision to prepare an EIS with A–95 project notification and submitting them to Federal as well as state, regional, and local agencies or through other procedures. This shall include notice of the proposed action and solicit views on its impacts from any affected Federal land management entity or State clearinghouse (or other agency designated by the Governor).

211.–299. *Reserved.*

CHAPTER 3. ENVIRONMENTAL IMPACT STATEMENTS AND NEGATIVE DECLARATIONS

SECTION 1. DETERMINATION WHETHER AN ACTION IS A MAJOR FEDERAL ACTION SIGNIFICANTLY AFFECTING THE QUALITY OF THE HUMAN ENVIRONMENT

300. *Environmental assessment.* Prior to undertaking an action which has not been excepted by this Order, all relevant environmental factors shall be assessed (see paragraphs 324–343). If it is concluded that the proposed action is a major Federal action significantly affecting the quality of the human environment, the responsible official shall prepare and file an EIS. If it is concluded that the action is not a major Federal action significantly affecting the quality of the human environment, the responsible official shall prepare and file an ND.

301. *Actions requiring environmental impact statements.*

a. *An EIS* shall be prepared where an agency action:

(1) Has an effect that is not minimal on properties protected under Section 4(f) of the DOT act or Section 106 of the Historic Preservation Act;

(2) Is likely to be highly controversial on environmental grounds;

(3) Is likely to have a significant impact on natural, ecological, cultural, or scenic resources of National, State, or local significance, including endangered species or wetlands;

(4) Is likely to be highly controversial with respect to the availability of adequate relocation housing;

(5) Causes substantial division or disruption of an established community, or disrupts orderly, planned development, or is determined to be significantly inconsistent with plans or goals that have been adopted by the community in which the project is located;

(6) Causes a significant increase in surface traffic congestion;

(7) Has a significant impact on noise levels of noise sensitive areas;

(8) Has a significant impact on air quality or violates the Standards for air quality of the Environmental Protection Agency or an affected locality or state;

(9) Has a significant impact on water quality or may contaminate a public water supply system;

(10) Is inconsistent with any Federal, State or local law or administrative determination relating to the environment;

(11) Directly or indirectly affects human beings by creating a significant impact on the environment.

b. *In determing* whether a proposed Federal action requires an EIS, not only the overall, cumulative impact of the proposed action, but also the consequences of subsequent related actions must be considered.

(1) If the action would permit further contemplated actions, the impacts of both those actions and the proposed action must be considered in determining whether to prepare an EIS.

(2) If an EIS is required, it must be processed before making a commitment which would enable the future action to foreclose or narrow the consideration of alternatives or mitigating measures.

c. *A proposed action* is considered highly controversial when the action is opposed on environmental grounds by a Federal, State, or local government or by a substantial number of the persons affected by such action. A controversy over the amount of acquisition or relocation payments is not a controversy with respect to the availability of relocation housing.

302. *In case of doubt* as to whether an EIS is necessary for a particular action, the responsible official or program officer may consult with AEQ and AGC.

303–304. *Reserved.*

SECTION 2. NEGATIVE DECLARATIONS

305. *Format.*

a. The ND may be a separate document, in which case it shall include a heading or statement identifying it as such, e.g.: Department of Transportation, Federal Aviation Administration, (Originating Region, Office, Service or Center) Negative Environmental Declaration (Subject of Declaration) (Date).

b. Or, the ND may be incorporated in other program documents.

c. The ND shall conclude that the action is not a major Federal action significantly affecting the quality of the human environment, and consequently, no environmental impact statement is required. Suggested language is:

The opinion of the undersigned, upon careful review of this proposed action, is that pertinent environmental factors have been assessed and adequately documented, and the action is not a major Federal action significantly affecting the quality of the human environment.

d. All NDs shall be dated and signed by the responsible official.

306. *Scope of documentation.*

a. Depending on the complexity and degree of impact of a proposed action, a ND may range in content from a simple statement, supported with pertinent facts, that the action is not a major Federal action significantly affecting the quality of the human environment to an analysis involving the format and content necessary for environmental statements.

b. The ND shall include a brief description of the proposed action and its purpose.

c. The ND shall assess and document all relevant matters set forth in paragraphs 324 to 343 as necessary to support the conclusion that the action is not a major Federal action significantly affecting the quality of the human environment. It shall include any measures to minimize adverse impacts on the environment.

d. The ND shall identify and discuss the alternatives considered, particularly those which mitigate environmental impacts, including the alternative of no action.

e. The ND shall determine the proposed action's consistency or inconsistency with community planning, and shall document the basis for the determination.

f. If a ND includes a Section 4(f) determination, include the material called for in paragraph 329. AGC, or his designee, shall review the Section 4(f) determination for legal sufficiency. The document must reflect consultation with the Department of the Interior and, where appropriate, the Department of Agriculture or the Department of Housing and Urban Development.

g. Where wetlands are involved, the ND shall document the outcome of consultations with the U.S. Fish and Wildlife Service and the pertinent state resources agency.

h. Where affected properties are included in or eligible for inclusion in the National Register of Historic Places, the ND shall include: (1) if the effect is not adverse, documentation and outcome of consultations with the State Historic Preservation Office (hereafter SHPO) and evidence that the Advisory Council on Historic Preservation (hereafter ACHP) reviewed the determination of no adverse effect; and (2) if the effect is adverse, documentation and outcome of consultations with the SHPO and the ACHP, including a Memorandum of Agreement with the ACHP or account of actions to be taken in response to comments of ACHP.

307. *Responsible officials.*

a. At the field level, NDs shall be reviewed by pertinent staff and program offices and may be approved by the Regional or Center Director.

b. Responsible officials shall send NDs originating in FAA headquarters to AEQ and to AGC for review. After review for legal sufficiency by AGC, the Service or Office Director may sign the ND.

308. *Coordination.* NDs are required to be coordinated outside of the FAA only where coordination is required by law or administrative directive (e.g., for Section 4(f), Section 106, or wetlands impact).

309. *Distribution.* A copy of the ND is filed in the office of the responsible official and a copy forwarded to the appropriate Service Director for review for consistency with the policy and procedures of this order. Service Directors may waive this requirement, subject to AEQ concurrence.

310. *Availability for public information.* NDs are public information, and as such shall be made available upon request pursuant to FAA procedures.

311.–315. Reserved.

SECTION 3. FORMAT OF ENVIRONMENTAL IMPACT STATEMENTS

316. *Format.*

a. *Heading of Environmental Impact Statements.* Each EIS shall be headed as indicated below and shall state which public laws are applicable to the proposed action. For example: Department of Transportation, Federal Aviation Administration, (Originating Region, Office, Service or Center) Final (or Draft) Environmental Impact Statement (Subject) (Date).

This statement is submitted for review pursuant to the following public law requirements: Section 102(2)(C) of P.L. 91–910, 42 U.S.C. 4321; Section 4(f) of P.L. 89–670, Section 106 of the National Historic Preservation Act; etc. . . . as applicable.

b. *Summary.* The format for the summary which shall accompany draft and final EISs is as follows:

Summary

( ) Draft ( ) Final (Check one)

Department of Transportation, Federal Aviation Administration. Name, address, and telephone number of individual who can be contacted for additional information about the proposed action or the statement.

(1) Name of Action. (Check one) ( ) Legislative ( ) Administrative

(2) Brief description, purpose and location of action, indicating which State(s) and counties are particularly affected.

(3) Summary of environmental impact and adverse environmental effects.

(4) List alternatives considered.

(5) For draft statements, list all Federal, State, and local agencies and any other sources from which comments have been requested.

(6) For final statements, list all Federal, State, and local agencies and other sources from which written comments have been solicited and received.

(7) Date(s) the draft statement and the final statement, if issued, were made available to the CEQ and to the public.

(8) Date of the public hearing, if one was held.

c. *Signature.* Each DEIS and FEIS shall be dated and signed by the responsible official.

317.–319. *Reserved.*

SECTION 4. CONTENT OF ENVIRONMENTAL IMPACT STATEMENTS

320. *General.* EISs document the consideration and evaluation of environmental impacts in FAA decision making.

a. *The required information* should be presented in easily understood language.

(1) Documents should be detailed, yet succinct, including analysis of all relevant environmental impacts of a proposed action and its reasonable alternatives.

(2) Analysis of facts, references to literature, special studies or textual material within the statement shall support conclusions.

(3) Do not include unnecessary information, and summarize, consolidate or reference less important material.

b. *Although adherence* to a rigid format is not required, preparation and review is facilitated by adhering to typical presentation styles.

(1) The document should refer at appropriate points to any underlying studies, data sources, or other information considered in its preparation.

(2) Reference data need not be attached but shall be listed and made available to the responsible official or any member of the public upon request.

321. *Description.*

a. Each EIS shall begin with a concise description of the proposed Federal action, a statement of its purpose, a brief summary of the need for the action, and an indication of any related contemplated actions. The description also shall contain or refer to figures, charts, photographs, or tables in the document as necessary to illustrate the action to be taken, and any significant airport or facility community environmental interfaces. All illustrations and reproductions should be legible, free of clutter, and in a form which is understandable. Airport development actions shall include foreseeable related facility installations and procedural actions. Facilities actions not involving airport development shall include foreseeable related procedural actions.

b. The document shall identify any other Federal activity in the affected area which is related to the proposed action (e.g., highways, housing relocation). It shall include a description of the interrelationships and cumulative environmental impacts of all related Federal projects in planning and development.

c. The document shall indicate how the proposed action conforms to or conflicts with the specific terms of adopted Federal, State, regional, or local land use plans, policies, and controls, which include state coastal zone management programs, if any, for the area affected. Actions should be consistent with these plans, policies, and controls to the maximum extent possible. Efforts to reconcile any conflicts or inconsistencies also shall be described, along with the results achieved.

322. *Background information.* A section describing or discussing background information may be appropriate. This section should highlight related developments to date and present a general overview of significant aspects of the situation under review. It may include such items as bond actions, action pertinent to the proposal by the community or citizen groups and any other unique and significant factors associated with the project.

323. *Probable impacts.* The document shall describe and appraise relevant probable impacts, both beneficial and adverse, of the proposed actions on the human and natural environment and shall:

a. Include those adverse effects which cannot be averted should the proposal be implemented;

b. Describe the actions to be taken to enhance beneficial impacts; and

c. Document the assessment of all relevant environmental factors in paragraphs 324 to 343 to the extent necessary to consider the environmental impacts of a proposed action and its alterations.

324. *Noise.*

a. *Background.*

(1) The purpose of noise analyses is to present information about the effects of noise on noise sensitive areas;

(2) Because noise effects vary with different human activities, the appropriate quantitative measure or descriptor of noise

V 41 1157 AUG 12 76 UMI

exposure may vary, depending on the activity under discussion and the availability of substantive scientific data relating noise level to impact on humans.

(3) This section refers to three measures of noise exposure any one or more of which may be required, depending on the circumstances:

(a) Peak level in dB(A);

(b) Duration above a reference noise level in minutes or other time measure; and

(c) An aggregated noise measure, such as Composite Noise Rating (hereafter CNR), Noise Exposure Forecast (hereafter NEF, Day/Night Level (hereafter Ldn) or Equivalent Noise Level (hereafter Leq).

b. *Requirements.* The analyses shall include information for three conditions: the present condition; the condition forecast WITHOUT the proposed change; and, the condition forecast WITH the proposed change. All interrelated actions (e.g., installation of navigation aids and air traffic control procedures) shall be considered.

(1) For actions involving airport location, runway location, major runway extension, or runway strengthening which would permit operation by larger or noisier aircraft, the following noise information shall be presented:

(a) Continuous contours showing the boundaries of all areas exposed to noise levels equal to or greater than NEF 30; or Ldn 65; or CNR 100.

(b) This paragraph is effective _____ (one year from the approval of this directive). It applies to DEISs and NDs filed 12 months after the effective date of this Order, and to FEISs filed 24 months after the effective date of this Order.

For noise sensitive areas identified in (a) if the proposed action is highly controversial because of noise impacts or if they will be exposed to jet operations for the first time, or if the noise increase is greater than 3 units (NEF, Ldn, CNR), then for those areas (for the future condition with the proposed project and the future condition without the proposed project) provide average duration above 65, 75, 85, 95, 105, and 115 dB(A) for a complete day's operation, for the evening period, (7 p.m.–10 p.m.) and for the night period (10 p.m.–7 a.m.). This information may be provided on a discrete basis for selected points in intervals of not more than 3,000 feet. For these same points provide NEF, Ldn, or Leq.

(2) For new jet arrival or jet departure tracks (Arrival or departure tracks are flight segments within 3,000 feet above the surface.) the following noise information shall be presented for noise sensitive areas:

(a) The information described in 1 (a) and (b); or

(b) Peak noise level and frequency of occurrence for total daily, evening and night periods for selected points in intervals of not more than 3,000 feet.

(3) For actions other than c. (1) and (2), for example, intermittent stationary sources (e.g., cooling towers) or mobile sources (non-jet aircraft in flight, aircraft taxiing or surface vehicles) provide peak noise levels and frequency of occurrence at noise sensitive areas.

(4) For stationary sources which produce relatively steady levels of noise, provide noise level and duration at noise sensitive areas.

(5) Policy, administrative, and regulatory actions, particularly those which are environmentally protective with effects dispersed across the air transportation system, may not reasonably be assessed using traditional noise analyses methods. In such cases, the analyses may use innovative methods. This, however, does not diminish the preparer's principal responsibility for assuring and defending the adequacy of the analysis.

c. *Exceptions.*

(1) Unless required by section b. (1), noise analysis is not required for those actions which cause increases of less than 2dB or 1 unit NEF and is not controversial. There are respectively:

(a) Actions which result in reductions in distance between the noise source and noise sensitive areas of less than 20% (without change in the noise characteristics of the source) and which do not expose new land areas to noise.

(b) Any action that does not increase total daily operations by more than 25% along any arrival or departure flight track (runway utilization rates, ratio of day-to-night operations and the relative proportions of different aircraft types remaining unchanged).

(2) However, all actions which cause the accumulated, incremental changes to exceed the limits of c. (1) require a noise analysis. Accumulation may be computed starting with the approval date of this Order or the date of the last prior analysis under 324b., whichever is later.

d. *Format.*

(1) The presentation of noise analysis shall be intelligible to lay and technical readers.

(a) The text shall present principal findings.

(b) Detail required to derive the findings shall be included in appendices, but shall also be referenced in the text.

(2) The following graphics are required where an action falls under 324b.(1):

(a) Layout plan of the present and, where relevant, proposed airport; and

(b) A map of the airport vicinity including the following for each condition analyzed:

1 runway location and orientation;
2 flight tracks used in the analysis;
3 land use, present and planned;
4 noise sensitive areas, by type;
5 zoning, proposed property acquisition, or other land use controls; and
6 prominent legible noise exposure data.

(3) Analyses under 324b. (2) and b. (3) and b. (4) require all relevant items under (2)(b) above but in no case less than item (b)*3*, (b)*4*, and a convenient display or cross reference of the noise information to the locations to which it applies.

e. *Analysis.* The general literature on the effects of noise on man and on recommended land use or exposure criteria varies in depth, breadth, accuracy and reliability. The use of such information is an effort by the FAA to make the state-of-the-art visible to the public. The information, therefore, should permit lay and technical readers to relate noise exposure data to an understanding of its potential effects. Accordingly, the following analysis is required:

(1) A description, in terms suitable for lay and technical readers, of the noise descriptors used in the analysis both for single event measures (for example peak noise levels) in dBA, EPNdB, PNdB and cumulative measures (for example CNR, Ldn). The explanation of the descriptors shall convey the technical as well as the conceptual significant of the noise measures.

(2) A discussion of:

(a) any non-standard data or calculation procedures used or derived for the purpose of dealing with any unique aspect of the analysis;

(b) clear and concise references to source data or procedures; and

(c) noise from other than aircraft operations if the additive effect is significant.

(3) An analysis describing the expected noise exposure of each noise sensitive activity in the area with the following considerations:

(a) A discussion of noise impact for each noise sensitive area, including such information as the number of people and schools and the size of residential land area exposed to specified noise levels, describing any incompatibility between the noise and existing or planned land uses. (e.g., residential, cultural, religious, educational, industrial, agricultural, or recreational.)

(b) The analysis shall, to the extent reasonable, discuss potential effects of noise and hearing, communications interference (with consideration to educational, occupational, recreational, and religious activities), sleep interference, and annoyance, both within the context of outdoor activities as well as indoor activities.

(c) Consideration shall be given to the amount of acoustical protection provided by construction and architectural characteristics as well as climatological situations which might affect life styles and therefore alter the "average" interpretations placed on the effects of noise.

f. *Records.* The proposing office shall assure that sufficient information is retained to permit an independent review to recreate the complete noise exposure analysis.

325. *Air quality.* Air quality should be examined by estimating the pollutant impact of the proposed action in terms of existing and forecast operations. Air pollutant concentrations as well as total amounts of pollutants should be estimated and evaluated, as necessary, for consistency with state implementation plans for air quality under the Clean Air Act and other State or local standards, EPA indirect source regulation (40 CFR 51.18), if applicable, and other applicable standards. Air pollution effects of increased surface traffic resulting from increased air traffic should be estimated and considered. Methods should be proposed or referenced for controlling and minimizing air pollution resulting from construction of the project.

326. *Water quality.* Water quality requirements, available water resources, and impact on existing water tables should be considered. Facilities for treatment and disposal of wastes also should be considered and evaluated for consistency with applicable standards. Action taken to minimize pollution due to surface runoff, which may include pollution infiltration from areas of extensive grading and pavement or placement of piles, should be discussed. Short-term and long-term effects of construction upon area drainage and aquifers should also be discussed.

327. *Social impacts.* A proposed action may have social and community impacts. Where displacement of people or businesses or disruption of established communities occurs, the following information from secondary sources and community sources, when available, should be included in order to determine the manageability of relocation:

a. An estimate of the numbers and the characteristics of households to be displaced (e.g., minorities, income levels, renter or owner, elderly, large families);

b. Impact on the neighborhood and housing where relocation is likely to take place;

c. Disruption or impact on the stability and cohesion of any established community;

d. A description of businesses to be displaced and general effects of business dislocation on the economy of the community;

e. Ability to provide adequate relocation housing for the types of families to be displaced and a description of actions proposed to remedy any insufficiency, including, if necessary, housing of last resort, as authorized by Section 205(a) of the Uniform Relocation Assistance and Real Properties Acquisition Policies Act of 1970.

f. Effects of surface traffic disruption including effects on access to community facilities, recreation areas, and places of residence and business.

g. Results of consultation regarding the impacts with local officials, relocation or other social agencies, and community groups.

h. A description of any special location advisory services to be provided for the elderly, handicapped, or illiterate regarding interpretation of benefits and other assistance available.

328. *Induced socio-economic impacts.* These impacts may include shifts in the patterns of population movement and growth, public service demands, and changes in business and economic activity. The effects of these impacts should be estimated and discussed in consultation with pertinent local officials.

329. *Dot section 4(f).* This section requires identification of and special effort to preserve public parks, recreation areas, wildlife and waterfowl refuges, and historic sites, and areas of natural scenic beauty of local, state, or national significance affected by the proposed action. The description should include size, activities, and relationship to other similarly used lands in the vicinity.

a. The use of public parks, recreation areas, wildlife and waterfowl refuges, and historic sites, must be avoided if there is a feasible and prudent alternative.

b. A publicly owned park, recreation area, refuge, or historic site is presumed to be significant unless there is a statement of insignificance by the Federal, State, or local official having jurisdiction thereof. Any such statement of insignificance is subject to review.

c. Where Federal lands are administered for multiple uses, the Federal official having jurisdiction over the lands shall determine whether the subject lands are in fact being used for park, recreation, wildlife, waterfowl, or historic purposes.

d. The discussion of the alternative of taking no action and of alternative designs and locations shall include cost estimates with figures showing percentage differences in total project costs and technical feasibility assessments.

e. Analysis of the environmental impact of alternatives shall include evidence that unusual factors or unique problems are present and that the cost or community disruption resulting from alternatives reach extraordinary magnitudes.

f. If there is no feasible and prudent alternative to the use of such land, include a statement of actions taken or to be taken to minimize harm to the protected area. This may include using project funds to replace or improve land and facilities and designing measures such as planting or screening to mitigate any adverse effects. Also include evidence of other measures to enhance and maintain natural beauty.

g. If land is involved which was acquired with Federal grant money (i.e., open space under Department of Housing and Urban Development; various conservation programs under Department of Interior), the final documentation shall include an appropriate communication or finding from the grantor agency.

h. The documentation shall reflect consultation with the Department of the Interior and, as pertinent, the Department of Housing and Urban Development or the Department of Agriculture.

i. The document shall include a statement that there is no feasible and prudent alternative to the use of the land and that the action includes all possible planning to minimize harm.

j. Questions regarding the application of Section 4(f) should be referred to AEQ.

330. *Historical and archaeological sites.* The document should specify actions to be taken to preserve and enhance districts, sites, buildings, structures, and objects of historical, architectural, archaeological, or cultural significance affected by the project.

a. The statement should identify, through consulting the National Register of Historic Places and National Register Criteria (36 C.F.R. Part 800), whether proposed actions will affect properties included in or eligible for inclusion in the National Register.

(1) The National Register of Historic Places is published each February in the FEDERAL REGISTER.

(2) Monthly additions and listings of eligible properties are published in the FEDERAL REGISTER the first Tuesday of each month.

(3) The Secretary of the Interior will advise, upon request, whether properties are eligible for the National Register.

b. If application of the ACHP's Criteria of Effect indicates that the project will affect a property included in or eligible for inclusion in the National Register of Historic Places, the document should state the effect.

(1) Evaluation of the effect should be made in consultation with the SHPO and in accordance with the ACHP's Criteria of Adverse Effect (36 C.F.R. Part 800).

(2) Determinations of no adverse effect should be documented with evidence of the application of ACHP's Criteria of Adverse Effect, the views of the SHPO and review by the ACHP.

c. If the project will have an adverse effect upon property included in or eligible for inclusion in the National Register of Historic Places, the FEIS must include either an executed Memorandum of Agreement or comments from the ACHP with an account of actions to be taken in response to these comments. Procedures for obtaining a Memorandum of Agreement or the comments of the Council are found in 36 C.F.R. Part 800.

d. To determine whether the project will affect properties of state or local historical, architectural, archaeological, or cultural significance that are not included in or eligible for inclusion in the National Register, the responsible official should consult with the SHPO, with the local official having jurisdiction of the property, and where appropriate, with historical societies, museums, or academic institutions having expertise with regard to the property.

e. Use of land from historic properties of Federal, State, and local significance, as determined by the official having jurisdiction thereof, involves Section 4(f) of the DOT Act. The document should include evidence necessary to support a Section 4(f) determination.

f. Any foreseeable irreplaceable loss or destruction of significant scientific, prehistorical, historical, or archaeological data shall be identified in the document, with evidence of notice provided to the Secretary of the Interior and measures described to undertake the recovery, protection, and preservation of such data, including preliminary survey, salvage, or other investigations as needed. The FAA has an agreement with the Department of the Interior for assuring compliance with the Archaeological and Historic Preservation Act of 1974, providing for oversight relative to mitigation of damage to archaeological and historic data incident to construction activities of FAA or FAA assisted projects.

331. *Flood hazard evaluation.* To comply with Executive Order 11296 and Flood Hazard Guidelines for Federal Executive Agencies, promulgated by the Water Resources Council, describe measures to handle flood hazard problems and how they can be implemented during project development. When a project under consideration encroaches on a flood plain, the EIS should include evidence that studies have been made and agencies have been consulted.

332. *Considerations relating to wetlands.* Where impacts on wetlands, including control, modification, impoundment, diversion, and channel deepening of streams or other bodies of water are involved, the document should include:

a. Information on location, types, and extent of wetlands areas that might be affected by the proposed action;

b. An assessment of the impacts on the wetlands and associated wildlife from both construction and operation of the project;

c. A statement of the measures to be taken to preserve, protect and enhance wetlands and to avoid, to the fullest extent practical, drainage, filling, or interference with wetlands or the water resources supplying them;

d. Results of coordination with the local representative of the Department of the Interior, the Department of Commerce, and any other officials such as the Corps of Engineers with special expertise concerning the impacts of the project on the wetlands and the worth to the community and to the nation of the particular wetlands area involved; and

e. A statement as to whether the proposed action should proceed and upon what conditions.

333. *Coastal zone management programs.* Where the proposed action is within or may affect the land or water uses in the area covered, by a state coastal zone management program, the document shall include evidence of consultation with the state coastal zone management agency. If a state coastal zone management program has been approved by the U.S. Department of Commerce, the statement shall include the following:

a. For FAA assisted actions, include a determination as to consistency with the approved state coastal zone management program. Also include a record of coordination as specified in the Coastal Zone Management Act, and evidence that necessary permits, if required, will be or have been secured.

b. If the proposed action is issuance of a FAA license or permit, the applicant shall provide a certification that the proposed action complies with the state's approved program and that such activity will be conducted in a manner consistent with the program. The document shall include a record of coordination with the state coastal zone management agency.

c. If it is determined that the proposed project is inconsistent with the state's approved program, the responsible official shall not approve the action except upon a finding by the Secretary of Commerce that the proposed action is consistent with the purposes or objectives of the Coastal Zone Management Act or necessary in the interest of national security. The EIS shall document this finding.

334. *Energy supply and natural resources development.* Where applicable, the report should reflect consideration of whether the project will have any effect on either the production or consumption of energy and other natural resources, and include the analysis of any such effects if they are significant.

335. *Construction impacts.* In general, adverse impacts during construction will be of less concern than long-term impacts of a proposal. Nonetheless, the report should appropriately address such matters as the following, identifying any special problem areas:

a. Noise impacts from construction or delivery of materials through residential areas and any specifications providing maximum noise levels;

b. Effect of spoil disposal on borrow areas and disposal sites (include reference to pertinent specifications);

V 41 I 157 AUG 12 76 UMI

c. Controls on air pollution from dust, burning, etc. (with reference to pertinent specifications or advisory circulars); and

d. Impacts on water quality from run-off and associated sedimentation and control measures (reference specifications or advisory circulars).

336. *Wildlife and waterfowl.* Long-term loss may accrue by virtue of reduction of the overall wildlife carrying capacity of a given land area. Where part of a wildlife habitat is removed it should be determined whether the remaining habitat is sufficient. These long-term losses may be described in general terms unless a threatened or endangered species is involved.

337. *Impacts relating to endangered and threatened species of fauna and flora.* The document should include evidence that the proposed action will not jeopardize the continued existence of endangered or threatened species or result in the destruction or modification of critical habitat of these species.

a. If any species listed by the Department of the Interior as endangered or threatened exist in the area of the proposed action's potential impact, the document should provide evidence of consultation with the Regional Director of the Fish and Wildlife Service (hereafter FWS) or the National Marine Fisheries Service (hereafter NMFS), as appropriate, regarding the impacts of the action on the species. The FWS, Department of the Interior, is responsible for protection of terrestrial and freshwater species; the NMFS, Department of Commerce, is responsible for protection of marine species.

b. The document should describe the anticipated effects of the proposed action and alternatives to the action on listed species, the nature of the listed species' habitat, and whether the FWS or NMFS has determined that habitat to be critical.

c. The final statement should summarize the results of consultation with FWS or NMFS and indicate any specific measures which will be taken to conserve listed species and to avoid destruction or modification of critical habitat.

338. *Light emissions.* Aviation lighting required for the purposes of security, obstruction clearance, and navigational guidance, may create an annoyance among people in the vicinity of the installation. In this instance, documentation shall include:

a. Site location with a diagram of lights or light system.

b. Description of lights, as to their purpose, installation, beam angle and measurements, intensity, color, flashing-sequence, and other pertinent characteristics of the particular system and its use.

c. Measures to lessen any annoyance, such as shielding or angular adjustments.

339. *Visual impacts.* Any special significant visual impacts shall be described, particularly in areas of natural beauty or historic or architectural significance.

340.–343. *Reserved.*

344. *Actions to minimize unavoidable adverse effects.* Actions to be taken to minimize unavoidable adverse effects should be described.

345. *Alternatives.* An EIS or, as appropriate, an ND thoroughly and objectively evaluates the environmental impact of all reasonable alternatives, particularly those which mitigate environmental impacts, and sets forth the reasons why the alternatives are rejected.

a. *Sufficient analysis* of the environmental impact of the alternatives should accompany the proposed action through the review process in order not to foreclose prematurely options which might enhance environmental quality or have a less detrimental effect.

b. *Alternatives include* taking no action or postponing action pending further study; rejection of these alternatives requires an examination of the need for the project and the consequences of taking no action.

c. *Where appropriate,* satisfying the increased transportation needs by using alternative transportation modes should be considered.

346. *Relationship between short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* The document must examine the extent to which the proposed action involves tradeoffs between short-term environmental gains at the expense of long-term losses and long-term gains at the expense of short-term losses and the extent to which the proposed action forecloses future options.

347. *Irreversible and irretrievable commitments of resources.* The document must examine the extent to which the proposed action would irreversibly and irretrievably curtail the range of beneficial uses of the environment including cultural as well as natural resources. If a project involves new, unusual or limited sources or types of materials, include a quantitative estimate and description. Normally, labor and materials required to accomplish a project do not significantly curtail the range of beneficial uses of the environment.

348. *Citizen involvement.* Document a summary of citizen involvement, including meetings and public hearings, and any environmental issues raised.

349. *Summary of impacts.* A summary of the conclusions and significant points developed is desirable.

SECTION 5. PREPARATION OF DRAFT ENVIRONMENTAL IMPACT STATEMENTS OR NEGATIVE DECLARATIONS

350. *Timing of draft statement preparation.* Prepare DEISs and NDs at the earliest practical time prior to the first significant decision point in the program or project development process. In this way, the analysis of environmental effects and the exploration of alternatives with respect thereto are significant inputs to the decision making process.

351. *Applications.* The program officer may request each applicant for a grant, loan, permit, or other approval to which this order applies, to submit, with the original application, an environmental impact assessment report.

a. *Regardless of the nature* of the applicant's participation, the responsible official or the program officer must furnish guidance, actively participate in preparing the DEIS, FEIS, and ND, and make his own evaluation prior to approval. The responsible official shall take responsibility for the scope and content of an EIS or ND by signing it.

b. *The responsible official* shall appropriately limit the actions an applicant may take prior to completion and approval of FEISs and subsequent approval of the application.

352. *Use of consultants.* Consultants may prepare background or preliminary material and assist in preparing a DEIS, FEIS, or ND for which FAA takes responsibility.

a. *Exercise care in selecting consultants* and in reviewing their work to insure complete, objective consideration of all relevant project impacts and alternatives, particularly if the consultant may expect further contracts based on the outcome of the environmental decision.

b. *Citizen participation* may be appropriate in selecting a consultant and defining the scope of his services.

353. *Scope of statement.* The action which the statement covers must have significance and utility independent of subsequent related actions. The action shall be broad enough in scope to avoid segmentation of projects and irreversible commitments of resources in subsequent actions, and to insure meaningful consideration of alternatives. An airport development EIS or ND should include foreseeable related supporting facilities including navigational aids and procedural actions. A facilities EIS or ND not involving airport development should include foreseeable related procedural actions.

354. *Inclusion of environmental determinations.* An EIS or ND shall include relevant environmental determinations under Section 4(f) of the DOT Act and the documentation for other environmental findings and determinations as required.

355. *Interdisciplinary approach.* Section 102(2)(A) of NEPA requires each Federal agency to apply a systematic, interdisciplinary approach in planning and decision making which may impact the environment. To assure that all environmental impacts are identified and assessed, all relevant disciplines should be represented. If the applicant's staff does not contain the necessary disciplines, use of professional services available in other Federal, State, or local agencies, universities, or consulting firms is appropriate.

356. *Internal review process.*

a. *Before an office* or service files or submits an EIS or ND for public review, it shall submit it to other pertinent program divisions and staff officers.

b. *The purposes* of this review process are:

(1) to assure that the document covers all related foreseeable agency actions by agency elements;

(2) that it consolidates environmental assessments of all pertinent divisions; and

(3) that commitments that all the responsibility of other divisions or offices will be carried out.

c. *Regional Directors* are responsible for designating a lead division or office to carry out this internal review.

357. *Regulations.* For regulations or rulemaking, the DEIS or ND should be available to reviewing agencies and the public prior to or concurrently with the notice of proposed rulemaking.

358. *Legislative proposals.*

a. *Before the FAA submits* to the Congress a legislative proposal, the office which originates the legislation shall, in accordance with OMB Bulletin 72–6, "Proposed Federal Actions Affecting the Environment," prepare, circulate, and file with CEQ an environmental statement or prepare and file a ND.

b. *The Office of the Secretary* shall clear the draft of the environmental statement for proposed legislation and submit it to the Office of Management and Budget (hereafter OMB) for circulation in the normal legislative clearance process.

(1) If the scheduling of congressional hearings on legislation does not allow adequate time for the completion of a FEIS, furnish Congress and make available to the public a DEIS, pending transmittal of the comments as received, and the final text.

(2) Forward NDs to the Congress, if requested.

359. *Lead agency.*

a. *As specified in CEQ guidelines,* one statement should be prepared for all Federal actions involved if more than one agency:

(1) Directly sponsors an action,

(2) Is directly involved in an action through funding or issuing of permits or licenses, or

(3) Is involved in a group of actions directly related to each other because of functional interdependence and geographic proximity.

b. *In such cases,* CEQ requirements may be satisfied if:

(1) The agencies jointly prepare a statement, or

(2) The agencies designate a lead agency to assume supervisory responsibility for the preparation of the statement. The other agencies would then provide assistance regarding their areas of jurisdiction and expertise.

c. *Refer questions concerning "lead agency"* designation to headquarters (AEQ–1) for resolution with CEQ through TES.

SECTION 6. PROCESSING OF DRAFT ENVIRONMENTAL IMPACT STATEMENTS

360. *Public Notice.* Each responsible official shall assure that press releases, official notices, or other appropriate media announce to the public that a DEIS has been prepared and is being circulated and that comments on the environmental impact of the proposed action are being solicited.

a. Where appropriate, make the notification in cooperation with the project's sponsor.

b. The announcement shall contain information on the availability of the DEIS.

361. *Copies.* The responsible official shall have printed sufficient copies of DEISs and FEISs to meet anticipated demand. A fee not to exceed reproduction costs may be charged for copies requested by the public if the original set of copies is exhausted.

362. *Circulation and availability of DEIS.*

a. *Circulate the DEIS* to agencies which have "jurisdiction by law or special expertise with respect to any environmental impact involved" or "which are authorized to develop and enforce environmental standards." These agencies are set forth in Appendix 7. In addition, circulate the DEIS to:

(1) CEQ (5 copies), TES (2 copies), AEQ–1 (1 copy), AGC or designee (1 copy), the Service Director, other elements of DOT, and other FAA services as appropriate;

(2) to state and local agencies, including agencies that commented substantively on the A–95 notification, affected cities and counties, and other known to have an interest in the action.

(3) A–95 agencies may be used, by mutual agreement, for securing review of DEISs by State and local agencies.

b. *In addition,* make the EIS available at a sponsor's office, local public libraries, and at other appropriate locations of general public access.

363. *Time for comment.*

a. *A time period for comment* may not be less than 45 days from the Friday of the week following receipt of the DEIS by CEQ, other agencies, and the public. Requests for reasonable extensions of time, when warranted by the magnitude and complexity of the statement or the extent of citizen interest, shall be granted.

b. *If no comments* or requests for extension are received within 45 days, it may be presumed that the agency consulted has no comments to make.

364.–369. *Reserved.*

SECTION 7. CHANGE OF DRAFT ENVIRONMENTAL IMPACT STATEMENT TO NEGATIVE DECLARATION

370. *General.* After circulation of a DEIS the responsible official may determine that the proposed action is not a major Federal action significantly affecting the quality of the human environment and prepare a ND. The document shall include any substantive coments received on the DEIS, and resolution of any controversies or conflicts.

371. *Approval authority.* The official with authority to approve a FEIS has authority to approve the change to a ND. Approval is subject to review for legal sufficiency by AGC for headquarters action and by Regional or Center Counsel for field action. The documentation should include language such as the following:

A draft environment impact statement for the proposed action has been prepared and federally coordinated in the manner contemplated by Section 102(2)(C) of the National Enviromental Policy Act of 1969. A careful and thorough evaluation of the facts and issues contained in the draft statement and comments received from the public and other Federal agencies having jurisdiction by law and special expertise in environmental matters, support a determination that the proposed action is not a major Federal action significantly, affecting the quality of the human environment and is not highly controversial on environmental grounds.

372. *Public notification.*

a. *If a DEIS is changed* to a ND as a result of the public review process, send a copy to all agencies and individuals who commented substantively on the DEIS or requested copies of the FEIS, and make copies available to the public.

b. *The decision* to change a DEIS to a ND should be published in the appropriate local media in the same manner as was the DEIS.

c. *Include* the change in the quarterly lists of EISs anticipated or in preparation that AEQ sends to CEQ.

d. *After transmittal* of notification of the change, the 30 day waiting period is not applicable and the action can proceed.

373.–374. *Reserved.*

SECTION 8. PREPARATION, APPROVAL AND DISTRIBUTION OF FINAL ENVIRONMENTAL IMPACT STATEMENT

375. *Utilization of comments.*

a. *Comments received on the DEIS* and inputs (in summary form, if appropriate) from citizen participation, and public hearings shall accompany the FEIS through the normal internal project or program review process.

b. *In preparing a FEIS,* revise the DEIS, as appropriate, to reflect comments received, issues raised through the community involvement and public hearing process, or other consideration. Follow each comment with an appropriate response, or reference to subject's discussion in the statement. Include copies of all substantive commenting letters. If the number of comments is too voluminous to include, consult AEQ.

c. *Identify and discuss* any unresolved environmental issues and efforts to resolve them through further consultation. For instance, where an agency comments that the statement contains inadequate analysis or that the impacts are too adverse for approval, either resolve the issue or document in the FEIS efforts to resolve the issue, and set forth any action that will result.

376. *Approval of final environmental impact statements.*

a. *For FEISs which originate at headquarters,* the Office or Service Director shall send 1 copy each to AEQ and AGC for review. After AGC review for legal sufficiency, the Director or designee should transmit two copies to appropriate elements of OST for concurrence, if required, with a request for concurrence within 15 to 30 days, depending upon the complexity of the statement. Following concurrence, if required, the Office or Service Director may approve the FEIS and file it with CEQ.

b. *For FEISs originating in the field,* not subject to headquarter's concurrence, the Regional Director or Center Director shall approve and file the FEIS with CEQ, following review for legal sufficiency by the Regional Counsel.

c. *For FEISs originating in regions or centers,* but subject to headquarters concurrence, the Regional Director or Center Director approves the FEIS and submits it to the appropriate Service or Office Director. The Service or Office shall send copies to AEQ and to AGC for review. After AGC review for legal sufficiency, the Service or Office Director shall transmit two copies to any appropriate elements of OST for concurrence, if required, with a request for concurrence within 15 to 30 days, depending on the statement's complexity. Following concurrence, the Service Director may file the FEIS with CEQ.

d. *For FEISs originating in regions or centers,* but where authority to approve FEIS is retained in headquarters, the region or center shall send the proposed FEIS to the appropriate Service or Office Director. The service or office shall send copies to AEQ and AGC for review. After AGC review for legal sufficiency, the Service or Office Director shall transmit two copies to any appropriate element of OST for concurrence, if required, with a request for concurrence within 15 to 30 days, depending on the statement's complexity. Following concurrence, the Office or Service Director or other responsible official may approve the FEIS and file it with CEQ.

e. *All statements involving Section 4(f) of* the DOT Act are subject to AGC review for legal sufficiency in headquarters.

377. *OST concurrence.*

a. *TES must concur* on FEISs for project in the following categories:

(1) All actions not involving airport development;

(2) Any new airport serving a metropolitan area, construed as a Standard Metropolitan Statistical Area (SMSA);

(3) Any new runway or runway extension for an airport, any part of which is located in an SMSA and is either certificated under Section 612 of the Federal Aviation Act of 1958, as amended, or used by large aircraft (except helicopters) of commercial operators;

(4) Any project to which a Federal, state, or local government agency has expressed opposition on environmental grounds; and

(5) Any project for which TES requests an opportunity to review and concur in the final statement or for which FAA requests such review and concurrence by TES.

b. *Any projects in the above categories* which also fall under Section 4(f) of the DOT Act will require concurrence by the DOT Office of the General Counsel (TGC) as well as TES.

378. *Decisions reserved to the secretary.* If an action requires the personal approval of the Secretary or Assistant Secretary pursuant to a request by them or by TES or TGC, a brief memorandum requesting the Secretary's or Deputy Secretary's approval of the action shall accompany the FEIS. The memorandum shall have signature lines for the concurrence of the Assistant Secretary for Environment, Safety, and Consumer Affairs, the General Counsel, and the Deputy Secretary (when the Secretary approves), and for the approval of the Secretary or Deputy Secretary, is appropriate.

379. *Availability pending approval.* Proposed final statements may be made available to the public and Federal, State, or local agencies pending final approval and filing with CEQ, with the concurrence of the responsible official, if they carry notation that the statement is not approved and filed.

380. *Distribution of approved environmental impact statements.* The originating FAA region, center, or service shall simultaneously distribute the EIS as follows:

a. Fives copies to:

General Counsel, Council on Environmental Quality, 722 Jackson Place, N.W., Washington, D.C. 20006.

b. One copy to AEQ and to the Service Director;

V 41 157 AUG 12 76 UMI

c. One copy to EPA, if the DEIS was rated LO–1 by EPA; five copies otherwise (See Appendix 8). In the event EPA has comments on a FEIS, the responsible official shall make every reasonable effort to resolve conflicts;

d. A copy of the FEIS shall also be sent to each Federal, State and local agency to private organizations which made substantial comments on the draft statement and to individuals who requested a copy of the final statement or who made substantive comment on the draft.

e. One copy to any sponsor, applicant, or grantee;

f. One copy to appropriate state and areawide clearinghouses unless otherwise designated by the governor;

g. Additional copies shall be sent to accessible locations to be made available to the general public, including headquarters and regional offices; state, metropolitan, and regional clearinghouses (unless the governor designates some other distribution point); and local public libraries;

h. Environmental statements, comments received, and underlying documents will be made available to the public without charge to the fullest extent practical or at a reduced charge which is not more than the actual cost of reproducing copies; and

i. After filing the EIS with CEQ and after the expiration of the 30 day waiting period, AEQ shall send a copy of the EIS to the DOT Library (Attn: TAD 491.1).

381. *Implementing actions.* The implementing administrative action for the project can occur no sooner than 90 days after the DEIS has been circulated for comment and filed with CEQ and no sooner than 30 days after the date the FEIS has been filed with CEQ, provided to the commenting agencies and made available to the public.

382.–389. *Reserved.*

SECTION 3. SUPPLEMENTAL ACTIONS

390. *Supplemental or amended statements.* The responsible official may supplement or amend a DEIS or FEIS when substantial changes are made in a proposed action or where significant new information regarding its environmental impact comes to light. A supplemental or amended FEIS requires TES concurrence if the FEIS required TES concurrence. Consult CEQ, through AEQ and TES, with respect to the need for, or desirability of, recirculating the statement—whether DEIS or FEIS—for the appropriate period.

391. *Implementation of commitments in environmental statements.* The responsible official shall assure, through funding agreements, contract specifications, preferential arrival and departure procedures, directives, other project review or implementation procedures, and other appropriate follow-up actions that the agency and applicants carry out any actions to minimize adverse environmental effects set forth in the approved statement. Submit any proposed deviation from prescribed action that may reduce protection to the environment to AEQ. Submit deviations to TES for concurrence, if TES concurred in the approved statement.

392.–399. *Reserved.*

CHAPTER 4. ADDITIONAL PROVISIONS

400. *Review of environmental statements prepared by other agencies.* Other Federal, State or local agencies may consult FAA for assistance in analyzing environmental impacts which fall within the agency's functional area of responsibility. FAA generally should limit itself to providing a competent and cooperative advisory and consultative service on proposals affecting aviation and FAA responsibilities.

a. *Comments* should be organized in a manner consistent with the structure of the draft statement and should identify alternatives or modifications that may enhance environmental quality or avoid or minimize adverse environmental impacts and inaccuracies or omissions.

b. *FAA projects* that are environmentally related to the proposed action should be identified so that interrelationships may be discussed in the final statement.

c. *Environmental monitoring* for which FAA has special expertise may be suggested and encouraged during construction, start-up, or operation phases.

d. *Other agencies consulting* with FAA and requesting review of their DEIS should be advised to transmit their EISs to FAA regional offices. The following types of matters, however, should be referred to FAA headquarters for comment:

(1) Actions with national policy implications;

(2) Projects that involve natural, ecological, cultural, scenic, historic, or park or recreation resources of national significance. nificance;

(3) Legislation or regulations having national impacts or national program proposals;

(4) Projects affecting the transportation of hazardous materials; and

(5) Water resources projects. Refer these projects to the Water Resources Coordinator, U.S. Coast Guard (hereafter G–WS). Refer items (1)–(4) to TES. In referring these matters to headquarters, the Regional Office is encouraged to prepare a proposed Departmental response.

e. *Regional Offices should review* DEISs that do not have national implications. Comments should be forwarded directly to the office which the originating agency designates for receipt of comments. If the receiving office believes that another DOT office also has an interest or is in a better position to respond, it should transmit the statement to the other office. If FAA and other DOT administrations comment at the regional level, the Secretarial Representative or his designee shall coordinate the comments.

f. *When appropriate*, the FAA should coordinate a response with Departmental offices having special expertise in the subject matter.

g. *Comments shall be submitted* within the time limits set forth in the request, unless the office responsible for submitted comments seeks and receives an extension of time. Comments should be concise, and should specify any changes desired either in the action proposed or in the environmental statement or both. Any lengthy analysis should be preceded by a summary of the principal areas of comment, the conclusions, and the recommendations, if any.

h. *Comments shall be distributed as follows:* The original and one copy to the requesting agency, one copy to AEQ, one copy to TES–70, one copy to CEQ, and one copy to the Secretarial Representative if a regional office prepared the comment. Requests by the public for copies should be referred to the agency originating the statement.

401. *Lists of environmental impact statements anticipated or under preparation.*

a. By the tenth day following the end of a calendar quarter, each region shall forward to AEQ a list of environmental impact statements anticipated or under preparation.

b. Drop from the list EISs already circulated.

c. Include in the list NDs which:

(1) Were listed previously in reports to AEQ as anticipated EISs;

(2) Involve impacts similar to those of other actions for which a statement was prepared; and

(3) Are prepared in response to CEQ requests.

d. AEQ shall compile these lists, transmit them to CEQ and TES, and make them available to the public.

402. *Emergency action procedures.* The CEQ guidelines allow modification of requirements in case of a national emergency, a disaster or similar great urgency. The processing times may be reduced or, if the emergency situation warrants, preparation and processing of a DEIS, FEIS, or negative declaration may be abbreviated. Such reduction in processing time should be requested from CEQ only for those projects where the need for immediate action requires processing in other than the normal manner.

403. *Application of section 102(2)(C) procedure to existing projects and programs.* The Section 102(2)(C) procedure applies to major Federal actions having a significant effect on the environment even though they arise from projects or programs initiated prior to enactment of NEPA on January 1, 1970. In assessing the environmental effect of proceeding with such a project and in evaluating alternatives, consideration shall be given to the status of work and degree of completion. If the project or program is continued, it must, to the extent feasible, be shaped so as to enhance and restore environmental quality, avoid or minimize adverse environmental consequences, and consider environmental consequences not fully evaluated at the outset of the project or program.

404. *Land acquisition and construction of facilities.* Public sponsors, or other aviation agencies, or private parties have the authority to acquire land or to construct facilities for operation by the FAA without prior approval by the FAA. Such action, if inconsistent with the policies of this Order, could prejudice a decision by the FAA on proposed changes in an airport which would use the land thus acquired, or on requests for reimbursement for the property, or construction or operation of the facility.

a. *When FAA is notified* or becomes aware of a possibility that such a situation may be occurring, FAA will advise the public sponsor, other aviation agency or private party:

(1) That such actions must be consistent with pertinent environmental policy as expressed in this order;

(2) And that the manner in which the particular property was acquired or the facility constructed will be carefully considered by the FAA prior to approval of any future FAA action involving it.

b. *FAA will give particular attention* to its responsibilities under DOT Section 4(f) to insure that a special effort is made to preserve the natural beauty of countryside, public parks, and recreation lands, wildlife and waterfowl refuges, and historic sites. FAA will not approve actions requiring the use of DOT Section 4(f) properties unless there is no feasible and prudent alternative and the program includes all possible planning to minimize harm.

c. *FAA also will give particular attention* to actions involving properties included in or eligible for inclusion in the National Register of Historic Places and the provisions of Title VI of the Civil Rights Act of 1964 and the Uniform Relocation Assistance and Real Properties Acquisition Policies Act of 1970.

d. *An action by a sponsor*, other aviation agency or private party which has acquired land or constructed a facility for operation by FAA, but without prior approval by FAA, will be reviewed to determine that the action was consistent with the policies of this order and has not precluded full and objective consideration of alternatives.

405. *Environmental impact statements or negative declarations on requests from foreign sources.*

a. Requests for FAA action by a foreign government, manufacturer or operator may fall within criteria requiring preparation of an EIS or ND. All initial FAA requests to such a foreign applicant for information which FAA needs to prepare an EIS or ND, should be forwarded through the civil aviation authority of the applicant's government. Copies of the DEIS, FEIS, and notices of any public hearings planned on the proposed action should be furnished to the applicant, the appropriate foreign civil aviation authority, and the Washington embassy of the country in which the applicant is located.

b. Any substantial differences arising in the course of the EIS between the originating FAA organization and a foreign applicant should be referred to AEQ which will consult with the Assistant Administrator for International Aviation Affairs to resolve any problems.

406.–499. *Reserved.*

APPENDIX 1. SYSTEMS RESEARCH, ENGINEERING & DEVELOPMENT

1. *General.* This appendix provides guidance and assigns functional responsibilities for the conduct of environmental assessments and the preparation, coordination, executive review, and approval of environmental assessments, EISs and NDs which concern Research, Engineering & Development (hereafter RE&D) programs of FAA.

2. *Scope.* The RE&D cycle includes such activities as promulgation of directives policies, plans, programs, budgets, legislative proposals, system design, test evaluation, specification, demonstration, etc. When in the judgement of the responsible RE&D official sufficient environmental impact data is available, an environmental assessment is to be conducted and, where appropriate, an EIS or ND is to be prepared as specified in this order. All activities not specifically excepted in this order are subject to environmental assessment, EISs or NDs, including such RE&D programs as:

a. *Air Traffic Control:*
(1) *System Program #01.*
(2) *New Radar Systems Program #02.*
(3) *New Communications Systems Program #06.*
(4) *Runways/Taxiways Program #08.*
(5) *Flow Control Program #11.*
(6) *Enroute Control Program #12.*
(7) *Flight Service Station Program #13.*
(8) *Technology Program #16.*
(9) *Support Program #21.*

b. *Navigation:*
(1) *Navigation Program #04.*
(2) *Approach & Standing Systems Program #07.*

c. *Aircraft Safety:*
(1) *Environmental Program #20* (Noise/Pollution/Quality);

d. *Selection Orders* introducing new equipments, procedures, techniques (products of RE&D) into the National Aviation System (NAS) or National Airport System (NSA); and

e. *Plans, Programs* such as the SRDS Technical Program Document (TPD), FAA NAS 10-YEAR PLAN RE&D, and NEW SYSTEM DESIGNS.

3. *Excepted actions.* RE&D programs excepted from the requirement for an EIS or ND are:

a. *Air Traffic Control* Radar Beacon System (ATCRBS), Program #03; Proximity Warning Indicator/Collision Avoidance Systems (PWS, CAS) Program #05; Landside/Oceanic Satellites Program #17;

b. *Aviation Weather.* Weather Data Acquisition, Processing Criteria, Accident Prevention and Survival, Program #15;

c. *Aircraft Safety Program 18*, Anti-Hijacking, Flight Safety Criteria, Accident Prevention and Survival;

d. *Aviation Medicine Program 19* Biomedical Aspects of Design, Personnel Efficiency and Performance; and

e. *Policy Analysis*, System Analysis, System Design Studies.

4. *Procedures and responsibilities.* Functionally responsible officials Lead Directors of Systems Research and Development Service (hereafter SRDS), Office of Systems Management (hereafter OSEM), and NAFEC or their designees (i.e., Division Chief, Branch Chief, Section Chief, Manager, etc.) of Offices or Services will, on a case by case basis,

a. Determine whether a proposed RE&D program action requires an EIS or ND and assure preparation and coordination with the Office or Service concerned, AEQ and AGC of an appropriate statement;

b. Determine if RE&D activities are excepted under paragraph 3 above;

c. Review and approve documentation prepared per subparagraph a. above;

d. Assure consultation with responsible and expert agencies and organizations and invite their comment;

e. Distribute EIS as required;

f. Participate with other offices, services and centers in the conduct of assessments and the preparation, processing and evaluation of an EIS or ND for major actions involving;

(1) Development of systems with future cumulative significant environmental impact;

(2) The inclusion into the NAS or NSA of new equipment and techniques developed in RE&D programs;

g. Assure submission to AEQ of quarterly list of EISs anticipated or in preparation of RE&D efforts;

h. Conduct periodic reviews of RE&D actions implementing this Order;

i. Assure retention of documentation files by the organizational component having program or subprogram responsibility; and

j. Prepare and transmit to AEQ a publicly available record which sets forth reasons for a determination that although an EIS may be required, its preparation is still premature and thus unnecessary. Such a record should be updated when significant new information becomes available.

5. *Environmental impact statement or negative declaration.* In determining whether RE&D programs and plans which have not been excepted require preparation of an assessment, EIS or ND factors specified in paragraphs 324–343 should be considered, as well as the following factors:

a. The magnitude of Federal investment in the program;

b. The likelihood of widespread application of the technology;

c. The degree of environmental impact which would occur if the technology were widely applied; and

d. The extent to which continued investment is likely to restrict future alternatives.

6. *Timing of EIS.*

a. *General.* An EIS or ND should be prepared late enough in the development cycle to contain meaningful information but early enough for analysis of environmental impact effects and alternative courses of action to be significant inputs in the program decision making process.

b. *Specific.* An EIS or ND where required should be completed:

(1) *On or before* completion of RE&D and before introduction into the NAS or NSA;

(2) *Prior to*, or with submission for comment to outside organizations of draft standards (RE&D products) or technical data packages per 9500.4; and

(3) *Prior to* submission of draft Orders, Notices, Advisory Circulars to outside organizations for comment.

7. *Mitigating measures.* Responsible RE&D Directors, or their designees, shall specify in an EIS measures to be taken to mitigate or minimize significant adverse environmental effects. These may include:

a. Selecting alternate actions which most effectively minimize adverse impacts;

b. Conducting field tests in areas least likely to cause significant adverse environmental impacts;

c. Locating laboratories and demonstration centers with a view to avoiding adverse environmental impacts; and

d. Minimizing potential adverse effects in the RE&D cycle (design, installation, test, evaluation and specific action).

APPENDIX 2. AIRWAY FACILITIES

1. *General.* Facilities and Equipment projects; the establishment of new facilities; and Maintenance Programs, ranging from component/equipment modification to major changes in the facilities, may impact the environment. This appendix sets forth environmental procedures to be used regarding Airway Facilities (hereafter AAF), the categories of projects which require an EIS or ND, and those which are not subject to an EIS or ND.

2. *Environmental responsibilities.*

a. The Regional AF division shall implement the environmental procedures associated with all assigned F&E and maintenance projects within the regions, other than those projects for which a class ND has been prepared. Such procedures are to include NDs or EISs. These EISs or NDs shall cover all factors relating to the siting of the facility, increases or decreases in operational usage, noise impacts, the impact of light emissions and other known impacts on the environment.

b. Regional AF division personnel are responsible for preparing, coordinating and processing the environmental actions relating to their assigned programs. They shall transmit copies of these documents as set forth in Chapter 3 with copies to AAF–1 and AEQ–1.

c. AAF is responsible for providing environmental assessment guidance for its assigned programs.

(1) It shall complete class NDs or EISs where appropriate and provide them to the regions to minimize the need for more extensive assessments.

(2) It is responsible for establishing environmental procedures and guidelines for National, Airspace System programs, facilities and housing.

(3) To assist the regions in maintaining uniformity of procedures, it shall provide EIS and ND review and coordination.

3. *Environmental impact statements or negative declarations.* Environmental assessments should be developed along with economic and technical considerations in the facility siting and design. Careful consideration of the specific site and the effect of aircraft operations should never be overlooked. Where the individual location impact or the operational use of the facility indicates significant environmental impact or where significant controversy exists or is expected, an EIS should be prepared and circulated in accordance with this Order.

4. *Projects subject to environmental assessments and procedures.* The following categories of projects are subject to an environmental assessment and preparation of an EIS or ND:

a. Establishment or relocation of facilities normally located off airports, such as Air

V 41 1157 AUG 12 76 UMI

Route Traffic Control Centers (hereafter ARTCC), Air Route Surveillance Radars (hereafter ARSRs), Beacon Only Sites, and Flight Service Stations (hereafter FSS). These facilities may affect the environment because of their land or access requirements; the electronic emissions generated by their operation; their impact on water and sewerage facilities, power distribution facilities, rainfall runoff and traffic flow from public roadways; and their impact on personnel in a given locale;

b. Establishment or relocation of facilities used for communications and enroute navigation such as the VHF Omn. Range (hereafter VOR) or with TACON (hereafter VOR TAC), Remote Center Air Ground (hereafter RCAG) and Radar Microwave Links (hereafter RMLs). The environmental impact of these facilities normally results from providing access to the remote facility and constructing the facility itself;

c. Establishment or relocation of Instrument Landing Systems (hereafter ILS), Approach Light Systems (hereafter ALS), Runway End Identifier Lights (hereafter REILS). In most instances these facilities are the subject of environmental controversy because of the impact of operational use and the location of certain elements off airports;

d. Establishment of FAA housing, sanitation systems, fuel storage and distribution systems and power source and distribution systems normally should be assessed because of their location, and their impact on community land use planning;

e. A nonfederal entity should prepare an environmental impact assessment report for proposed establishment of non-federal facilities such as ILS or TVOR, for which procedures or acceptance by FAA for maintenance and operation is prearranged or anticipated. A copy of this report should be transmitted to FAA so an EIS or ND may be prepared prior to the FAA's acceptance of the facility with inventory; and

f. Any other facility, including those which are excepted or for which a class ND has been filed, which significantly impacts the quality the human environment or is highly controversial on environmental grounds requires preparation of an EIS.

5. *Class negative declarations.*

a. Class NDs have been filed for the following actions which will not have a significant impact on the quality of the human environment:

(1) Installation of remote transmitter/receiver (hereafter RT/R) facilities when on airport property;

(2) Replacement of older units with engine generators and power plants, used in emergencies when commercial power fails;

(3) Installation of equipment on airports, such as Runway Visual Range equipment (hereafter RVRs), Visual Approach Slope Indicators (hereafter VASI).

b. Actions for which class NDs have been filed normally require no further environmental consideration.

6. *Excepted projects.*

a. Upgrading of building electrical systems or maintenance to existing buildings (including painting, replacement of siding, etc.);

b. Minor expansion of facilities where personnel complements are minimal and which require no additional land, and where expansion is due to remodeling of space in current quarters or existing buildings;

c. Upgrading of facilities to improve operational capacity, e.g.,

(1) Existing runway approach lighting installations;

(2) Conversion of VOR to VORTAC; and

(3) Conversion of ILS to Category II or III standards;

d. Wind and other weather instruments located on airports;

e. Demolition and removal of buildings and structures, except where they are of historical, archaeological and architectural significance as officially designated by Federal, State or local government;

f. Replacement or reconstruction of a structure or facility with a new one of substantially the same size and purpose, where location will be on the same site as the existing building/facility;

g. Water, sewage, electrical, gas or other utility extension of temporary duration to serve construction;

h. New gardening or landscaping, or the maintenance of existing landscape;

i. Accessory on site structures including storage buildings, garages, small parking areas, and signs and fences;

j. Grading on land with a slope of less than 10 percent, except where located near waterways in any wetland in an officially designated (by Federal, State, or local government agency) scenic area, or in officially mapped areas of severe geologic hazard;

k. Filling of earth into previously evacuated land with material compatible with the natural features of the site;

l. Minor trenching and backfilling where the surface is restored and the evacuated material is protected against wash and runoffs during the construction period;

m. Replacement of power and control cables for facilities, such as ALS, ASR, ILS and RTR when on airport property;

n. Repairs and resurfacing of existing access to remote facilities such as ARSR, RCAG, RML, and VORTACs;

o. Installtaion of equipment on airports, such as Cloud Height Indicators (hereafter CHI) and Hygrothermometers; and

p. Installation of equipment within a facility that provides for modernization or enhancement of the service provided by that facility, such as Radar Bright Display equipment (hereafter RBDE) with Plan View Displays (hereafter PVD), Direct Access Radar Channel (hereafter DARC), beacon system on an existing radar and test sets.

7. *Environmental considerations during budgetary process.* The environmental impact of proposed projects should be considered during the budgetary process. It is not necessary that EISs or NDs be filed prior to budgeting for a given project. However, where significant, environmentally adverse project impacts are known or anticipated, the project justification should identify all pertinent factors to enable a determination of whether to include the project in the budget or to consider alternatives.

8. *Implementation of commitments on an EIS or ND.* For projects where commitments to protect the environment are detailed in an EIS or ND, the Regional Airways Facilities Division Chief shall include the appropriate statement to implement the commitment in land acquisition or construction design documents.

9. *Timing of environmental procedures.*

a. Environmental assessments should be initiated with the beginning of design or engineering effort for the project.

b. No Procurement Request (hereafter PR) for construction will be submitted to the Procurement Office for action until the EIS or ND, if required, has been completed and filed.

c. If the project requires the acquiring of property interests, no formal contact with the property owner for the purpose of acquiring these interests, including any offer, should be made prior to filing a FEIS or ND, except for:

(1) Emergency situations;

(2) Obtaining rights-of-entry for such purposes as preparation for site testing, obtaining data, property surveys, etc.;

(3) Those cases where the review process indicates that the proposed site warrants further engineering study and requires an EIS. It may be in the agency's interest to obtain an option or other document to assure the availability of the property pending the filing of the Final EIS. In this event, the DEIS should state that the FAA has entered into an option and the reason for the option; that alternate sites are being considered through the EIS process; and that a decision to exercise the option will not be made until completion of the review and filing of the FEIS.

APPENDIX 3. AIR TRAFFIC

1. *General.* Air traffic personnel are involved in the assessment of aircraft noise resulting from new or revised air traffic control procedures. The most significant actions that would require environmental assessments are terminal area procedures.

2. *Environmental responsibilities.*

a. *Regional Offices.* Responsibility for environmental assessments, preparation of EISs and NDs may be delegated to field facilities, or retained within the regional office, with assistance from the field facilities. Regional offices and field facilities shall provide input to an environmental assessment when requested by Air Traffic Service (hereafter AAT) or other services.

b. *Headquarters.* The office originating the proposed action is responsible for making environmental assessments and the preparing NDs or EISs. Input may be requested from regional offices and field facilities for an action originating within Headquarters.

c. *Cooperation Between Services.* Actions originated by other Services may result in another action for which AAT is responsible. For example: Airports Service (hereafter AAS) may add a new runway to an airport which could result in the establishment of a Standard Instrument Departure (hereafter SID) or Standard Terminal Arrival Route (hereafter STAR). In accordance with the requirement for early assessment as well as avoiding duplication, air traffic offices shall provide their input, if possible, when requested by the other Service as other Services are to provide their input when requested by Air Traffic.

3. *Environmental impact statements or negative declarations.*

a. After completion of the environmental assessment and consultations if required, the originator of the proposal will determine whether the action will or will not require an EIS or ND.

b. If the action is excepted from the requirements for an EIS or ND, no further action is required except to note briefly the exception in the project folder. The note will serve as evidence that environmental procedures have been considered.

c. If the action is one which requires an ND, the ND shall be prepared, in accordance with Chapter 3. The ND may range in content from a single statement, supported with facts, to analysis involving the format and content of an EIS. The ND may be filed separately or inserted as part of the project file to serve as evidence that the potential environmental impact of the proposed action has indeed been considered and does not significantly affect the quality of the human environment.

d. If the action comes under the category for which an EIS is required, one should be prepared involving the format and contents outlined in Chapter 3 of this Order.

4. *Actions subject to environmental assessments and procedures.* The following actions are subject to environmental assesment and preparation of an EIS or ND.

a. Establishment or modification of Terminal Control Areas (TCA).

b. New or revised SIDs, STARs and other preferential IFR departure and arrival procedures (other than IAPs) for that part of the operations conducted at less than 3,000

feet above the surface where such operations are routinely routed over noise sensitive areas which may include residential neighborhoods, educational, health, religious sites and structures, cultural, historical and outdoor recreational areas.

c. Special use airspace (restricted areas, warning areas, prohibited areas, alert areas and military operations areas (MOAs)). If the floor of the proposed area is below 3,000 feet above the surface or if supersonic flight is anticipated at any altitude, this airspace shall not be designated, established, or modified until:

(1) The notice (NPRM or non-rule circularization) contains a statement supplied by the requesting or using agency that they will serve as lead agency for purposes of compliance with NEPA.

(2) The notice contains the name and address, supplied by the requesting or using agency, of the office representing the agency to which comments on the environmental aspects can be addressed (applicable only if an EIS is to be filed by the requesting agency);

(3) The notice contains the name and address supplied by the requesting or using agency, of the office representing the agency to which comments on any land-use problems can be addressed (applicable only if special use airspace extends to the surface); and

(4) The rule, determination, or other publication of the airspace action contains a statement, supplied by the requesting agency, that the requirements of NEPA have been met.

d. The provisions of paragraph b. (1) through b. (4) are not applicable to special use airspace actions if minor adjustments are made such as raising the altitudes or, if a change is made in the designation of the controlling or using agency.

5. *Excepted actions.*

a. Determinations under FAR Part 77, "Objects Affecting Navigable Airspace" and determinations under FAR Part 157, "Notice of Construction, Alteration, Activation and Deactivation of Airports."

b. Procedural actions to the extent covered by a previously filed EIS or ND in the establishment of en route or terminal navigation aids, when environmental circumstances have not changed.

c. Actions taken under FAR Part 71, "Designation of Federal Airways, area Low Routes, Controlled Airspace and Reporting Points."

d. Actions taken under FAR Part 75, "Establishment of Jet Routes and Area High Routes;" FAR Part 99, "Security Control of Air Traffic;" FAR Part 101, "Moored Balloons, Kites, Unmanned Rockets and Unmanned Free Balloons;" and FAR Part 105, "Parachute Jumping."

e. Procedural actions dictated by emergency determinations.

f. SIDs, STARs and other preferential departure and arrival routes which do not cause traffic to be routinely routed over noise sensitive areas which may include residential neighborhoods, education, health, religious sites and structures, cultural, historical and outdoor recreational areas or those above 3,000 feet above the surface.

6. *Timing of environmental procedures.* An environmental assessment should be conducted when a procedure or action is first proposed or coordinated. If the action originates within the Regional Office, it may be necessary to request input from field facilities. This preliminary step will help determine whether an EIS or ND is appropriate and help identify the scope of environmental objections. If an action is found to be controversial, alternative courses of action should be considered or the proposed action may be changed to mitigate the environmental impact, so as not to constitute a significant environmental impact.

7. *Mitigating noise impacts.* Where specific anti-noise measures and/or procedures are required and can be provided without derogation of safety, the following shall apply:

a. Arrival and departure flightpaths should be established over the least congested areas. If this is impractical, fan-out departures and arrivals should be considered in order to reduce the concentration of noise over any one portion of the surrounding communities.

b. In developing departure procedures, aircraft climb capabilities should be considered and an effort made to minimize low altitude operations. Specified altitudes should also be considered in conjunction with arrival procedures.

c. Noise abatement considerations require that every effort be made, through use of navigational aids, radar vectoring, or off-course climbs, to route instrument flight rules aircraft, during visual flight rules or IFR weather conditions, along flightpaths compatible with noise abatement routes.

d. Where present navigational system and/or aids are not compatible with potential noise abatement procedures, relocation or establishment of new facilities should be considered.

APPENDIX 4. FLIGHT STANDARDS

1. *General.* Flight Standards (hereafter FS) programs and project actions shall be given proper environmental consideration in accordance with the procedures and guidance contained within this order. These actions, are categorized as: excepted from environmental procedures because they are not major Federal actions significantly affecting the quality of the human environment, class NDs or, requiring an EIS or ND. Documentation of the environmental impact of all actions not excepted by this order is required.

2. *Environmental responsibilities.*

a. The Flight Standards Division Chiefs shall implement the environmental assessment procedures including developing an EIS or ND as appropriate. In the Western Region and European Region the Chief, Aircraft Engineering Division and Chief, Aircraft Certification Staff, respectively, shall implement actions involving certification of aircraft products and parts. Normally, the Division responsible for the action is responsible for the environmental assessment. Division Chiefs may delegate environmental responsibility to appropriate branches or district/field offices, or they may retain the responsibility within the Division with assistance from the branches or district field offices. FS Divisions shall coordinate with and assist as necessary AF, AT, AS and others on those actions involving environmental impacts crossing Division lines. The Headquarters Divisions with assistance from the regions will develop and coordinate class ND Actions.

b. Documentation including analysis of environmental factors, shall be retained in the project folder to substantiate environmental assessment. This should be prepared for all projects not excepted, to support the decision that an EIS or ND will be prepared.

c. In the Washington Headquarters, each EIS and ND pertaining to a regulatory project will be prepared for the signature of the Service Director and a concurrence signature of AFS-900.

3. *Environmental impact statement or negative declarations.* Environmental consideration of Flight Standards actions require assessment of all relevant environmental factors. A decision as to whether the action's impact requires a ND or an EIS is based on the assessment.

4. *Actions subject to environmental assessments and procedures.* The following FS actions are subject to environmental procedures, analysis and a decision as to whether to prepare a ND or EIS:

a. Certificates: New amended or supplemental aircraft types for which environmental regulations do not yet exist, or engine types for which emission regulations do not yet exist;

b. Aircraft/avionic maintenance bases to be operated by the FAA; the program officer is the Chiefs of Flight Inspection Field Offices, or Regional Flight Standards Division Chiefs or Headquarters Aircraft Programs Division Chief as appropriate;

c. Regulations, rules, standards and exemptions;

d. Authorization to exceed Mach 1/Flight under FAR 91.55; and

e. Operating specifications and amendments thereto involving authorizing new use of an airport, or the introduction of a new type of aircraft to an airport. When actions cross regional boundaries, coordination among regions is expected.

f. Pilot training schools; and

g. New Instrument Approach Procedures, Departure Procedures, En Route Procedures and modification to currently approved instrument procedures, which are conducted below 3000 feet above the surface and which will tend to significantly increase noise over noise sensitive areas. This requires consideration of those operations that will be routinely routed over noise sensitive areas and includes residential neighborhoods; education, health, and religious sites; cultural, historical and recreation areas. A significant increase in noise is based on reduction of distance between aircraft and noise sensitive areas of more than 20%.

5. *Excepted actions.*

a. Certificates: New, amended or supplemental aircraft type that meet environmental regulations or new, amended or supplemental engine types that meet emission regulations, where an environmental analysis has been prepared in connection with the regulatory action; medical, airmen, export, manned free balloon type, glider type, propeller type, supplemental type not affecting noise, emission or waste; mechanic schools, repair stations and other air agency ratings;

b. Special flight authorizations controlled by operating limitations, FARs 21.193, 21.199 and 91.42;

c. All delegations of authority under section 314 of the FAA Act (49 U.S.C. 1301) e.g. designated examiners and engineering representatives;

d. Approvals of aircraft and engine repairs, parts and alterations not affecting noise, emissions or wastes;

e. Aircraft and engine certifications or approvals under regulations which have been covered by prior EISs or NDs provided there has been no significant change or circumstances;

f. Acoustic change actions that demonstrate compliance with FAR Part 36;

g. Operating specifications authorizing alternate use of an airport, administrative revisions to operating specifications;

h. Regulatory documents which cover administrative or procedural requirements;

i. Instrument Approach Procedures, Departure Procedures, and En Route Procedures conducted at 3000 feet or more above the surface; instrument procedures conducted below 3000 feet above the surface which do not cause traffic to be routinely routed over noise sensitive areas; modifications to currently approved instrument procedures conducted below 3000 feet above the surface that do not significantly increase noise over noise sensitive areas; and increases to minimum altitudes and landing minima. Noise sensitive areas may include residential neighborhoods; educational, health, and religious

V 41 I 157 AUG 12 76 UMI

sites; cultural, historical and outdoor recreational areas. A significant increase in noise is based on a reduction of distance between aircraft and noise sensitive areas of more than 20%.

j. On-going actions for which exceptions or NDs have been prepared, normally, need only documentation in their project folders that the actions is not subject to further environmental consideration. However, should it be determined that a particular action in the above category has a significant impact on the quality of the human environment or is highly controversial, an EIS will be required; and

k. Denials of: (1) a petition for exemption; (2) a petition for reconsideration of a denial of exemption; or (3) a petition for reconsideration of a denial of a petition for rulemaking.

6. *Timing of environmental procedures.* Environmental assessments shall be initiated at the earliest practical point in time, along with technical, economic and operational considerations. In order to obtain public participation in the environmental assessment, a statement will be placed in the preamble of each NPRM soliciting comments on the effect of the proposals on the environment. EISs or NDs shall be prepared so that analysis of the environmental impacts and alternate courses of action are significant inputs to the decision. The EIS or ND shall be filed prior to action, for example, in the case of certificates, prior to issuance.

APPENDIX 5. LOGISTICS

1. *General.* Logistics Service (hereafter ALG) actions, while basically a service function in support of agency needs or actions initiated by other FAA elements, are subject to the procedures and guidance of this order. ALG shall assure the filing of the EIS or ND prior to land acquisition and construction, per Appendix 2 paragraph 8 and Appendix 5 paragraph 4. This section delineates the responsibilities of ALG in processing proposed FAA actions and the categories of actions initiated in ALG which require an EIS or ND and those which are excepted from environmental procedures or have filed a class ND.

2. *Environmental responsibilities.* Through the negotiations and procurement processing of actions proposed by agency elements, ALG is responsible for:

a. Converting commitments contained in an EIS or ND into contract clauses applicable to completed products, contractor's facilities, performance of services, and land acquisition documents;

b. Negotiating the cost and application of environmental requirements in contracts;

c. Assuring through inspection and review that the contractor meets environmental requirements in the contract, and administers penalty provisions as provided in applicable contract clauses;

d. Assuring that leases, loans, agreements, permits, easements, and any instrument negotiated with respect to donations, condemnations, purchases, or improvements involving real or personal property, and all utility or service contracts, conform with established environmental standards and incorporate pertinent terms relative thereto; and

e. Assuring that no solicitation or proposal for bids for construction or formal contact with property owners for the purpose of initiating negotiations to acquire land shall be made prior to filing a FEIS or ND, except as provided in Appendix 2 paragraph 9. c.

3. ***Environmental impact statements or negative declarations.*** The environmental considerations of ALG actions shall be documented in an EIS or ND. An environmental assessment shall be developed along with design or specifications to determine whether the action requires an EIS or ND. Preparation of the EIS or ND shall be in accordance with Chapter 3.

4. *Actions subject to environmental assessments and procedures.* The agency acquisition of land for and the construction of new office buildings is subject to environmetal procedures, assessment and a decision as to whether its impact requires a ND or EIS (ALG-200 is responsible for these environmental procedures).

5. *Excepted actions.*

a. Motor Fleet Management (purchase of new motor vehicles), where such vehicles are obtained from General Services Administration (GSA) under a lease arrangement or through a direct purchase as part of a national buy;

b. Use of space in buildings which are constructed for or controlled by GSA;

c. Lease of existing buildings;

d. Lease of buildings or portions of buildings on airports constructed for FAA by a private contractor;

e. Lease of space for a firm term of one year or less; and

f. Acquisition of land for an existing leased operational facility.

APPENDIX 6. AIRPORT DEVELOPMENT

This material was previously published for public comment in the FEDERAL REGISTER on August 24, 1975 (40 F.R. 36516).

APPENDIX 7. CONSULTATION AND DISTRIBUTION OF ENVIRONMENTAL IMPACT STATEMENTS

1. *Consultation-coordination.* Agencies consulted by the FAA in connection with the preparation or coordination of environmental impact statements are those which have "jurisdiction by law or special expertise with respect to any environmental impact involved," or "which are authorized to develop and enforce environmental standards." As appropriate to the scope and impact, draft and final statements will be sent to the following state, local, and Federal agencies with jurisdiction by law or expertise with respect to any environmental impacts involved.

a. *State and Local Agencies.*

(1) State, areawide or local clearinghouses.

(2) Other State and local agencies, including those with expertise in environmental matters.

(3) Affected city or county.

b. *Special interest groups* and other interested parties at National, State and local levels (see paragraph 207).

c. *Federal Agencies.* Distribution to Federal agencies consulted by the FAA include the regional offices of the agencies and DOT model administrations listed below. Those to be sent to the Department of Interior (DOI) or the Department of Commerce (DOC) shall be sent directly to the Washington headquarters of these Departments, at addresses shown, not to the regional offices.

(1) Environmental Protection Agency.

(2) Department of Agriculture.

(3) Department of Commerce (headquarters), Office of the Deputy Assistant Secretary for Environmental Affairs, U.S. Department of Commerce, Washington, D.C. 20230.

(4) Department of Defense.

(5) Department of Health, Education, and Welfare.

(6) Department of Housing and Urban Development.

(7) Department of the Interior (headquarters) [1]

Assistant Secretary—Program Policy, Attn. Director, Environmental Project Review, Department of the Interior, Washington, D.C. 20240.

(8) Department of Transportation (TES-1, 2 copies).

(9) Council on Environmental Quality (5 copies).

(10) Energy Research & Development Administration.

(11) Advisory Council on Historic Preservation.

(12) Federal Energy Administration.

(13) U.S. Nuclear Regulatory Commission (3 copies).

(14) National Capital Planning Commission.

(15) Delaware River Basin Commission

(16) Tennessee Valley Authority (10 copies).

(17) Appalachian Regional Commission.

(18) Susquehanna River Basin Commission.

d. *General.* Unless specifically requested by the reviewing agency, only one copy of the statement is required. Exceptions to this are the following:

(1) Federal Energy Administration—five copies.

(2) Department of the Interior:

(a) Twelve copies for projects in each state, except those listed in (b) and (c) below.

(b) Thirteen copies for projects in North and South Dakota, Nebraska, Kansas, Oklahoma and Texas.

(c) Fourteen copies for projects in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyomirg.

2. *Subject areas of environmental impact and Federal and Federal-State agencies with jurisdiction by law or special expertise to comment thereon.*

a. *Air—Air Quality.*

Department of Agriculture—Forest Service (effects on vegetation)
Nuclear Regulation Commission (radioactive substances)
Department of Health, Education and Welfare
Environmental Protection Agency
Department of the Interior—
- Bureau of Mines (fossil and gaseous fuel combustion)
- Fish and Wildlife Service (effect on wildlife)
- Bureau of Outdoor Recreation (effects on recreation)
- Bureau of Land Management (public lands)
- Bureau of Indian Affairs (Indian lands)

National Aeronautics and Space Administration (remote sensing, aircraft emissions)
Department of Transportation—
- Assistant Secretary for Systems Development and Technology (auto emissions)
- United States Coast Guard (vessel emissions)

b. *Water—Water Quality.*

Department of Agriculture—
- Soil Conservation Service
- Forest Service

U.S. Nuclear Regulatory Commission (radioactive substances)
Department of the Interior—
- Bureau of Reclamation
- Bureau of Land Management (public lands)
- Bureau of Indian Affairs (Indian lands)
- Fish and Wildlife Service (fresh water species)
- Bureau of Outdoor Recreation
- Geological Survey
- Office of Saline Water

Environmental Protection Agency
Department of Health, Education, and Welfare
Department of Defense—
- Army Corps of Engineers
- Department of the Navy (ship pollution control)

National Aeronautics and Space Administration (remote sensing)
Department of Transportation — United States Coast Guard (oil spills, ship sanitation)
Department of Commerce—National Marine Fisheries Service (salt water species)
Water Resources Council
River Basin Commissions (as geographically appropriate)

c. *Fish and Wildlife.*

Department of Agriculture—
- Forest Service
- Soil Conservation Service

Department of Commerce—National Marine Fisheries Service (salt water species)
Department of the Interior—
- Fish and Wildlife Service (fresh water species)
- Bureau of Land Management
- Bureau of Outdoor Recreation

Environmental Protection Agency

d. *Solid Waste.*

U.S. Nuclear Regulatory Commission (radioactive waste)
Department of Defense—Army Corps of Engineers
Department of Health, Education, and Welfare
Department of the Interior—
- Bureau of Mines (mineral waste, mine acid waste, municipal solid waste, recycling)
- Bureau of Land Management (public lands)
- Bureau of Indian Affairs (Indian lands)
- Geological Survey (geologic and hydrologic effects)
- Office of Saline Water (demineralization)

Department of Transportation—United States Coast Guard (ship sanitation)
Environmental Protection Agency
River Basin Commissions (as geographically appropriate)
Water Resources Council

e. *Noise.*

Department of Commerce—National Bureau of Standards
Department of Health, Education, and Welfare
Department of Housing and Urban Development (land use and building materials aspects)
Department of Labor—Occupational Safety and Health Administration
Department of Transportation—Assistant Secretary for Systems Development and Technology
Environmental Protection Agency
National Aeronautics and Space Administration

f. *Radiation.*

U.S. Nuclear Regulatory Commission
Department of Commerce—National Bureau of Standards
Department of Health, Education, and Welfare
Department of the Interior—
- Bureau of Mines (uranium mines)
- Mining Enforcement and Safety Administration (uranium mines)

Environmental Protection Agency

g. *Transportation and Handling of Hazardous Materials.*

U.S. Nuclear Regulatory Commission (radioactive substances)
Department of Commerce—
- Maritime Administration
- National Marine Fisheries Service (salt water species)

Department of Defense—
- Armed Services Explosive Safety Board
- Army Corps of Engineers (navigable waterways)

Department of Transportation—
- Federal Highway Administration, Bureau of Motor Carrier Safety
- United States Coast Guard
- Federal Railroad Administration
- Assistant Secretary for Systems Development and Technology
- Office of Hazardous Materials
- Office of Pipeline Safety

Environmental Protection Agency

h. *Energy and Natural Resources Conservation.*

Department of Agriculture—
- Forest Service
- Soil Conservation Service

Department of Commerce—National Bureau of Standards (energy efficiency)
Department of Housing and Urban Development—Federal Housing Administration (housing standards)
Department of the Interior—
- Office of Energy Conservation
- Bureau of Mines
- Bureau of Reclamation
- Geological Survey
- Power Marketing Administration

Federal Energy Administration
Energy Research and Development Administration
Department of Transportation
Environmental Protection Agency
Federal Power Commission
General Services Administration (design and operation of buildings)
Tennessee Valley Authority

i. *Protection of Environmentally Critical Areas—Floodplains, Wetlands, Beaches and Dunes, Unstable Soils, Steep Slopes, Aquifer Recharge Areas, etc.*

Department of Agriculture—
- Agricultural Stabilization and Conservation Service
- Soil Conservation Service
- Forest Service

Department of Commerce—National Marine Fisheries Service (salt water species)
Department of Defense—Army Corps of Engineers
Department of Housing and Urban Development (urban and floodplain areas)
Department of the Interior—
- Office of Land Use and Water Planning
- Bureau of Outdoor Recreation
- Bureau of Reclamation
- Fish and Wildlife Service (fresh water species)
- Bureau of Land Management
- Geological Survey

Environmental Protection Agency (pollution effects)
National Aeronautics and Space Administration (remote sensing)
River Basins Commissions (as geographically appropriate)
Water Resources Council

j. *Land Use in Coastal Areas.*

Department of Agriculture—
- Forest Service
- Soil Conservation Service (soil stability, hydrology)

Department of Commerce—National Marine Fisheries Service (salt water species)
Department of Defense—Army Corps of Engineers (beaches, dredge and fill permits, Refuse Act permits)
Department of Housing and Urban Development (urban areas)
Department of the Interior—
- Office of Land Use and Water Planning
- Fish and Wildlife Service
- National Park Service
- Geological Survey
- Bureau of Outdoor Recreation
- Bureau of Land Management (public lands)

Department of Transportation — United States Coast Guard (bridges, navigation)
Environmental Protection Agency
General Services Administration
Office of Economic Opportunity

k. *Density and Congestion Mitigation.*

Department of Health, Education, and Welfare
Department of Housing and Urban Development
Department of the Interior—
- Office of Land Use and Water Planning
- Bureau of Outdoor Recreation

Department of Transportation
Environmental Protection Agency

l. *Neighborhood Character and Continuity.*

Department of Health, Education, and Welfare
Department of Housing and Urban Development
National Endowment for the Arts
Office of Economic Opportunity

m. *Historic, Architectural, and Archaeological Preservation.*

Advisory Council on Historic Preservation
Department of Housing and Urban Development
Department of the Interior—
- National Park Service
- Bureau of Land Management (public lands)
- Bureau of Indian Affairs (Indian lands)

General Services Administration
National Endowment for the Arts

n. *Outdoor Recreation.*

Department of Agriculture—
- Forest Service
- Soil Conservation Service

Department of Defense—Army Corps of Engineers
Department of Housing and Urban Development (urban areas)
Department of the Interior—
- Bureau of Land Management
- National Park Service
- Bureau of Outdoor Recreation
- Fish and Wildlife Service (fresh water species)
- Bureau of Indian Affairs

Environmental Protection Agency
National Aeronautics and Space Administration (remote sensing)
River Basin Commissions (as geographically appropriate)
Water Resources Council

3. *Offices within Federal and Federal-State agencies for information regarding the agencies' NEPA activities and for receiving other agencies' impact statements for which comments are requested.*

APPENDIX B. DEFINITIONS OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

1. *Environmental impact of the action.*

a. *LO—Lack of Objection.* EPA has no objection to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

b. *ER—Environmental Reservations.* EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these impacts.

c. *EU—Environmentally Unsatisfactory.* EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

2. *Adequacy of the impact statement.*

a. *Category 1—Adequate.* The draft impact statement adequately sets forth the environment impact of the proposed project or action as well as alternatives reasonably available to the project or action.

b. *Category 2—Insufficient Information.* EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

c. *Category 3—Inadequate.* EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index **$8.00**
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

International Trade Commission—Confidential business information and initiation of investigations 28950; 7–14–76

List of Public Laws

This is a continuing numerical listing of public bills which have become law, together with the law number, the title, the date of approval, and the U.S. Statutes citation. The list is kept current in the FEDERAL REGISTER and copies of the laws may be obtained from the U.S. Government Printing Office.

H.R. 14233 ..... Pub. Law 94–378
Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1977. (Aug. 9, 1976; 90 Stat. 1095)

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5284. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

LONGSHOREMENS AND HARBOR WORKERS' COMPENSATION ACT
Labor/ESA proposal establishing Office of Workers' Compensation Programs; comments by 9–13–76 34294

LONGSHORING SAFETY AND HEALTH
Labor/OSHA establishes advisory committee 34386

MARINE MAMMALS
Commerce/NOAA/NMFS publishes Program Report of NOAA/FWS Task Force 34335

LOW-INCOME RURAL HOUSING
HUD and USDA issues memorandum of understanding on use of section 8 of Housing Act of 1937 and section 515 of Housing Act of 1949 34348

MIGRATORY BIRD HUNTING
Interior/FW proposal regarding 1976–1977 late hunting seasons on certain migratory game birds; comments by 8–23–76 34273

INDIAN AND NATIVE AMERICAN PROGRAMS
Labor/ETA notice for FY 1977 tentative allocations 34377

NEW DRUGS
HEW/FDA offers opportunity for hearing requests by 9–13–76 on less-than-effective indications for various human drugs (6 documents) 34336–34341

OUTER CONTINENTAL SHELF
Interior/BLM makes protraction diagram available to public 34330

PIPELINE SAFETY
DOT/PSOO announces procedures and requirements for processing anticipated waiver requests for Trans-Alaska pipeline welds 34375

PRACTICE AND PROCEDURE
FCC adopts rules concerning exceptions and oral argument and length of pleadings (2 documents); effective 8–20–76 34259

PRIVACY ACT OF 1974
Labor requests comments by 9–2–76 on systems of records 34388
NCUA publishes notice of systems of records 34370
OMB lists reports on new systems filed 34371

PROCUREMENT REGULATORY SYSTEM
OMB proposal on OFPP regulations; comments by 10–13–76 34324

REGIONAL DISCHARGE REVIEW SYSTEM
DOD/Army establishes regional discharge review system 34328

REGULATORY REPORTS REVIEW
GAO invites comments by 8-31-76 on proposed EEOC form 34369

TREASURY BONDS
Treasury announces interest rate on bonds of 1996–2001 34328

VOTING RIGHTS
Justice and Commerce/Census publishes partial list of determinations 34329, 34333

WOOL
USDA/CCC amendment providing payment to certain farmers and ranchers who were denied payment 34248

MEETINGS—
Commerce/NBS: Federal Information Processing Standards Task Group 15 Computer Systems Security, 9–21 through 9–23–76 34334
DOD: Defense Industry Advisory Group in Europe (DIAGE), 9–16–76 34329
DDR and E High Energy Laser Review Group (HELRG) Vulnerability, Effects and Hardening Panel, 9–27 and 9–28–76 34329
EPA: Ecology Advisory Committee of the Science Advisory Board, 9–13 and 9–14–76 34353
Interior/BLM: Fairbanks District Advisory Board, 10–15 and 10–16–76 34330
Labor/BLS: Business Research Advisory Council's Committee on Manpower and Employment, 9–22–76 34377
Labor/OSHA: Construction Safety and Health, 8–26 and 8–27–76 34386
National Advisory Committee on Occupational Safety and Health, 9–1–76 34387
OMB: Discussion of Federal Procurement Policy, 9–21–76 34371
Treasury/Comptroller: Regional Advisory Committee on Banking Policies and Practices for the Second National Bank Region, 8–30–76 34328
Regional Advisory Committee on Banking Policies and Practices for the Fourteenth National Bank Region, 9–10–76 34328

CANCELLED MEETING—
USDA/CCC: Commodity Credit Corporation Advisory Board, 8–23 and 8–24–76 34331

PART II:
COAL MINING POINT SOURCE CATEGORY
EPA extends comment period to 9–13–76 on proposed effluent limitations guidelines and new source performance standards (2 documents) 34440, 34441

PART III:
MARKETING AREAS
USDA/AMS proposes amendment to milk marketing agreements and order in Appalachian, Chattanooga and Knoxville, Tennessee and Ohio Valley 34443

PART IV:
MINIMUM WAGES
Labor/ESA index and general wage determinations for Federal and Federally assisted programs 34473

PART V:
RESCISSIONS AND DEFERRALS
OMB publishes cumulative report for August, 1976 34513

V41I158 AUG 13 76 UMI

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER C—CIVIL RIGHTS

PART 230—EXTERNAL PROGRAMS

Construction Contract Equal Opportunity Compliance Procedures

● *Purpose.* The purpose of this document is to provide public notice regarding standardized Federal Highway Administration policies and procedures in implementation and review of construction contract equal opportunity compliance. ●

The matters affected relate to grants, benefits, or contracts within the purview of 5 U.S.C. 553(a)(2), thus general notice of proposed rulemaking is not required.

Effective date: August 30, 1976.

Issued on August 4, 1976.

NORBERT T. TIEMANN,
Federal Highway Administrator.

23 CFR, Chapter I is amended by adding a new subpart D to Part 230, reading as follows:

Subpart D—Construction Contract Equal Opportunity Compliance Procedures

Sec.

230.401 Purpose.
230.403 Applicability.
230.405 Administrative responsibilities.
230.407 Definitions.
230.409 Contract compliance review procedures.
230.411 Guidance for conducting reviews.
230.413 Review reports.
230.415 Consolidated compliance reviews.
Appendix A—Sample show cause notice.
Appendix B—Sample corrective action plan.
Appendix C—Sample show cause rescission.
Appendix D—Equal opportunity compliance review process flow chart.

AUTHORITY: 23 U.S.C. 140(a), 315; E.O. 11246; 41 CFR 60-1; 49 CFR 1.48.

Subpart D—Construction Contract Equal Opportunity Compliance Procedures

§ 230.401 Purpose.

The purpose of the regulations in this subpart is to prescribe policies and procedures to standardize the implementation of the equal opportunity contract compliance program, including compliance reviews, consolidated compliance reviews, and the administration of areawide plans.

§ 230.403 Applicability.

The procedures set forth hereinafter apply to all nonexempt direct Federal and Federal-aid highway construction contracts and subcontracts, unless otherwise specified.

§ 230.405 Administrative responsibilities.

(a) *Federal Highway Administration (FHWA) responsibilities.*

(1) The FHWA has the responsibility to ensure that contractors meet contractural equal opportunity requirements under E.O. 11246, as amended, and Title 23, United States Code, and to provide guidance and direction to States in the development and implementation of a program to assure compliance with equal opportunity requirements.

(2) The Federal Highway Administrator or a designee may inquire into the status of any matter affecting the FHWA equal opportunity program and, when considered necessary, assume jurisdiction over the matter, proceeding in coordination with the State concerned. This is without derogation of the authority of the Secretary of Transportation, Department of Transportation (DOT), the Director, DOT Departmental Office of Civil Rights (OCR) or the Director, Office of Federal Contract Compliance Programs (OFCCP), Department of Labor.

(3) Failure of the State highway agency (SHA) to discharge the responsibilities stated in § 230.405(b)(1) may result in DOT's taking any or all of the following actions (see Appendix A to 23 CFR Part 630, Subpart C "Federal-aid project agreement"):

(i) Cancel, terminate, or suspend the Federal-aid project agreement in whole or in part;

(ii) Refrain from extending any further assistance to the SHA under the program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from the SHA; and

(iii) Refer the case to an appropriate Federal agency for legal proceedings.

(4) Action by the DOT, with respect to noncompliant contractors, shall not relieve a SHA of its responsibilities in connection with these same matters; nor is such action by DOT a substitute for corrective action utilized by a State under applicable State laws or regulations.

(b) *State responsibilities.*

(1) The SHA's, as contracting agencies, have a responsibility to assure compliance by contractors with the requirements of Federal-aid construction contracts, including the equal opportunity requirements, and to assist in and cooperate with FHWA programs to assure equal opportunity.

(2) The corrective action procedures outlined herein do not preclude normal contract administration procedures by the States to ensure the contractor's completion of specific contract equal opportunity requirements, as long as such procedures support and sustain the objectives of E.O. 11246, as amended. The State shall inform FHWA of any actions taken against a contractor under normal State contract administration procedures, if that action is precipitated in whole or in part by noncompliance with equal opportunity contract requirements.

§ 230.407 Definitions.

For the purpose of this subpart, the following definitions shall apply, unless the context requires otherwise:

(a) "Actions," identified by letter and number, shall refer to those items identified in the process flow chart. (Appendix D);

(b) "Affirmative Action Plan" means a written positive management tool of a total equal opportunity program indicating the action steps for all organizational levels of a contractor to initiate and measure equal opportunity program progress and effectiveness. (The Special Provisions [23 CFR 230 A, Appendix A] and areawide plans are Affirmative Action Plans.);

(c) "Affirmative Actions" means the efforts exerted towards achieving equal opportunity through positive, aggressive, and continuous result-oriented measures to correct past and present discriminatory practices and their effects on the conditions and privileges of employment. These measures include, but are not limited to, recruitment, hiring, promotion, upgrading, demotion, transfer, termination, compensation, and training;

(d) "Areawide Plan" means an Affirmative Action Plan approved by the Department of Labor to increase minority and female utilization in crafts of the construction industry in a specified geographical area pursuant to E.O. 11246, as amended, and taking the form of either a "Hometown" or an "Imposed" Plan.

(1) "Hometown Plan" means a voluntary areawide agreement usually developed by representatives of labor unions, minority organizations, and contractors, and approved by the OFCCP for the purpose of implementing the equal employment opportunity requirements pursuant to E.O. 11246, as amended,

(2) "Imposed Plan" means mandatory affirmative action requirements for a specified geographical area issued by OFCCP and, in some areas, by the courts;

(e) "Compliance Specialist" means a Federal or State employee regularly employed and experienced in civil rights policies, practices, procedures, and equal opportunity compliance review and evaluation functions;

V41 I 158 AUG 13 76 UMI

(f) "Consolidated Compliance Review" means a review and evaluation of all significant construction employment in a specific geographical (target) area;

(g) "Construction" shall have the meanings set forth in 41 CFR 60–1.3(e) and 23 U.S.C. 101(a). References in both definitions to expenses or functions incidental to construction shall include preliminary engineering work in project development or engineering services performed by or for a SHA;

(h) "Corrective Action Plan" means a contractor's unequivocal written and signed commitment outlining actions taken or proposed, with time limits and goals, where appropriate to correct, compensate for, and remedy each violation of the equal opportunity requirements as specified in a list of deficiencies. (Sometimes called a conciliation agreement or a letter of commitment.);

(i) "Contractor" means any person, corporation, partnership, or unincorporated association that holds a FHWA direct or federally assisted construction contract or subcontract regardless of tier;

(j) "Days" shall mean calendar days;

(k) "Discrimination" means a distinction in treatment based on race, color, religion, sex, or national origin;

(l) "Equal Employment Opportunity" means the absence of partiality or distinction in employment treatment, so that the right of all persons to work and advance on the basis of merit, ability, and potential is maintained;

(m) "Equal Opportunity Compliance Review" means an evaluation and determination of a nonexempt direct Federal or Federal-aid contractor's or subcontractor's compliance with equal opportunity requirements based on:

(1) Project Work Force—employees at the physical location of the construction activity;

(2) Area Work Force—employees at all Federal-aid, Federal, and non-Federal projects in a specific geographical area as determined under § 230.409(b)(9); or

(3) Home Office Work Force—employees at the physical location of the corporate, company, or other ownership headquarters or regional managerial offices, including "white collar" personnel (managers, professionals, technicians, and clericals) and any maintenance or service personnel connected thereto;

(n) "Equal Opportunity Requirements" is a general term used throughout this document to mean all contract provisions relative to equal employment opportunity (EEO), subcontracting, and training;

(o) "Good Faith Effort" means affirmative action measures designed to implement the established objectives of an Affirmative Action Plan;

(p) "Show Cause Notice" means a written notification to a contractor based on the determination of the reviewer (or in appropriate cases by higher level authority) to be in noncompliance with the equal opportunity requirements. The notice informs the contractor of the specific basis for the determination and provides the opportunity, within 30 days from receipt, to present an explanation why sanctions should not be imposed;

(q) "State highway agency" (SHA) means that department, commission, board, or official of any State charged by its laws with the responsibility for highway construction. The term "State" should be considered equivalent to "State highway agency." With regard to direct Federal contracts, references herein to SHA's shall be considered to refer to FHWA regional offices, as appropriate.

§ 230.409 Contract compliance review procedures.

(a) *General.* A compliance review consists of the following elements:

(1) Review Scheduling (Actions R–1 and R–2).

(2) Contractor Notification (Action R–3).

(3) Preliminary Analysis (Phase I) (Action R–4).

(4) Onsite Verification and Interviews (Phase II) (Action R–5).

(5) Exit Conference (Action R–6).

(6) Compliance Determination and Formal Notification (Actions R–8, R–9, R–10, R–11, R–12).

The compliance review procedure, as described herein and in Appendix D provides for continual monitoring of the employment process. Monitoring officials at all levels shall analyze submissions from field offices to ensure proper completion of procedural requirements and to ascertain the effectiveness of program implementation.

(b) *Review scheduling (Actions R–1 and R–2).* Because construction work forces are not constant, particular attention should be paid to the proper scheduling of equal opportunity compliance reviews. Priority in scheduling equal opportunity compliance reviews shall be given to reviewing those contractor's work forces:

(1) Which hold the greatest potential for employment and promotion of minorities and women (particularly in higher skilled crafts or occupations);

(2) Working in areas which have significant minority and female labor forces within a reasonable recruitment area;

(3) Working on projects that include special training provisions; and

(4) Where compliance with equal opportunity requirements is questionable. (Based on previous PR–1391's (23 CFR 230A, Appendix C) Review Reports and Hometown Plan Reports).

In addition, the following considerations shall apply:

(5) Reviews specifically requested by the Washington Headquarters shall receive priority scheduling;

(6) Compliance Reviews in geographical areas covered by areawide plans would normally be reviewed under the Consolidated Compliance Review Procedures set forth in § 230.415.

(7) Reviews shall be conducted prior to or during peak employment periods.

(8) No compliance review shall be conducted that is based on a home office work force of less than 15 employees unless requested or approved by Washington Headquarters; and

(9) For compliance reviews based on an area work force (outside of areawide plan coverage), the Compliance Specialist shall define the applicable geographical area by considering:

(i) Union geographical boundaries;

(ii) The geographical area from which the contractor recruits employees, i.e. reasonable recruitment area;

(iii) Standard Metropolitan Statistical Area (SMSA) or census tracts; and

(iv) The county in which the Federal or Federal-aid project(s) is located and adjacent counties.

(c) *Contractor notification (Action R–3).* (1) The Compliance Specialist should usually provide written notification to the contractor of the pending compliance review at least 2 weeks prior to the onsite verification and interviews. This notification shall include the scheduled date(s), an outline of the mechanics and basis of the review, requisite interviews, and documents required.

(2) The contractor shall be requested to provide a meeting place on the day of the visit either at the local office of the contractor or at the jobsite.

(3) The contractor shall be requested to supply all of the following information to the Compliance Specialist prior to the onsite verification and interviews.

(i) Current Form PR–1391 developed from the most recent payroll;

(ii) Copies of all current bargaining agreements;

(iii) Copies of purchase orders and subcontracts containing the EEO clause;

(iv) A list of recruitment sources available and utilized;

(v) A statement of the status of any action pertaining to employment practices taken by the Equal Employment Opportunity Commission (EEOC) or other Federal, State, or local agency regarding the contractor or any source of employees;

(vi) A list of promotions made during the past 6 months, to include race, national origin, and sex of employee, previous job held, job promoted into; and corresponding wage rates;

(vii) An annotated payroll to show job classification, race, national origin and sex;

(viii) A list of minority- or female-owned companies contacted as possible subcontractors, vendors, material suppliers, etc.; and

(ix) Any other necessary documents or statements requested by the Compliance Specialist for review prior to the actual onsite visit.

(4) For a project review, the prime contractor shall be held responsible for ensuring that all active subcontractors are present at the meeting and have supplied the documentation listed in § 230.409(c)(3).

(d) *Preliminary analysis (Phase I). (Action R–4).* Before the onsite verification and interviews, the Compliance Specialist shall analyze the employment patterns, policies, practices, and programs of the contractor to determine whether

or not problems exist by reviewing information relative to:

(1) The contractor's current work force;

(2) The contractor's relationship with referral sources, e.g., unions, employment agencies, community action agencies, minority and female organizations, etc.;

(3) The minority and female representation of sources;

(4) The availability of minorities and females with requisite skills in a reasonable recruitment area;

(5) Any pending EEOC or Department of Justice cases or local or State Fair Employment Agency cases which are relevant to the contractor and/or the referral sources; and

(6) The related projects (and/or contractor) files of FHWA regional or division and State Coordinator's offices to obtain current information relating to the status of the contractor's project(s), value, scheduled duration, written corrective action plans, PR–1391 or Manpower Utilization Reports, training requirements, previous compliance reviews, and other pertinent correspondence and/or reports.

(e) *Onsite verification and interviews (Phase II) (Action R–5).* (1) Phase II of the review consists of the construction or home office site visit(s). During the initial meeting with the contractor, the following topics shall be discussed:

(i) Objectives of the visit;

(ii) The material submitted by the contractor, including the actual implementation of the employee referral source system and any discrepancies found in the material; and

(iii) Arrangements for the site tour(s) and employee interviews.

(2) The Compliance Specialist shall make a physical tour of the employment site(s) to determine that:

(i) EEO posters are displayed in conspicuous places in a legible fashion;

(ii) Facilities are provided on a nonsegregated basis (e.g. work areas, washrooms, timeclocks, locker rooms, storage areas, parking lots, and drinking fountains);

(iii) Supervisory personnel have been oriented to the contractor's EEO commitments;

(iv) The employee referral source system is being implemented;

(v) Reported employment data is accurate;

(vi) Meetings have been held with employees to discuss EEO policy, particularly new employees; and

(vii) Employees are aware of their right to file complaints of discrimination.

(3) The Compliance Specialist should interview at least one minority, one nonminority, and one woman in each trade, classification, or occupation. The contractor's superintendent or home office manager should also be interviewed.

(4) The Compliance Specialist shall, on a sample basis, determine the union membership status of union employees on the site (e.g. whether they have permits, membership cards, or books, and in what category they are classified [e.g., A, B, or C]).

(5) The Compliance Specialist shall also determine the method utilized to place employees on the job and whether equal opportunity requirements have been followed.

(6) The Compliance Specialist shall determine, and the report shall indicate the following:

(i) Is there reasonable representation and utilization of minorities and women in each craft, classification or occupation? If not, what has the contractor done to increase recruitment, hiring, upgrading, and training of minorities and women?

(ii) What action is the contractor taking to meet the contractual requirement to provide equal employment opportunity?

(iii) Are the actions taken by the contractor acceptable? Could they reasonably be expected to result in increased utilization of minorities and women?

(iv) Is there impartiality in treatment of minorities and women?

(v) Are affirmative action measures of an isolated nature or are they continuing?

(vi) Have the contractor's efforts produced results?

(f) *Exit conference (Action R–6).* (1) During the exit conference with the contractor, the following topics shall be discussed:

(i) Any preliminary findings that, if not corrected immediately or not corrected by the adoption of an acceptable voluntary corrective action plan, would necessitate a determination of noncompliance;

(ii) The process and time in which the contractor shall be informed of the final determination (15 days following the onsite vertification and interviews); and

(iii) Any other matters that would best be resolved before concluding the onsite portion of the review.

(2) Voluntary corrective action plans may be negotiated at the exit conference, so that within 15 days following the exit portion of the review, the Compliance Specialist shall prepare the review report and make a determination of either:

(i) Compliance, and so notify the contractor; or

(ii) Noncompliance, and issue a 30-day show cause notice.

The acceptance of a voluntary corrective action plan at the exit conference does not preclude a determination of noncompliance, particularly if deficiencies not addressed by the plan are uncovered during the final analysis and report writting. (Action R–7) A voluntary corrective action plan should be accepted with the understanding that it only address those problems uncovered prior to the exit conference.

(g) *Compliance determinations (Action R–8).* (1) The evidence obtained at the compliance review shall constitute a sufficient basis for an objective determination by the Compliance Specialist conducting the review of the contractor's compliance or noncompliance with contractual provisions pursuant to E.O. 11246, as amended, and FHWA EEO Special Provisions implementing the Federal-Aid Highway Act of 1968, where applicable.

(2) Compliance determinations on contractors working in a Hometown Plan Area shall reflect the status of those crafts covered by Part II of the plan bid conditions. Findings regarding Part I crafts shall be transmitted through channels to the Washington Headquarters, Office of Civil Rights.

(3) The compliance status of the contractor will usually be reflected by positive efforts in the following areas:

(i) The contractor's equal employment opportunity (EEO) policy;

(ii) Dissemination of the policy and education of supervisory employees concerning their responsibilities in implementing the EEO policy;

(iii) The authority and responsibilities of the EEO officer;

(iv) The contractor's recruitment activities, especially establishing minority and female recruitment and referral procedures;

(v) The extent of participation and minority and female utilization in FHWA training programs;

(vi) The contractor's review of personnel actions to ensure equal opportunities;

(vii) The contractor's participation in apprenticeship or other training;

(viii) The contractor's relationship (if any) with unions and minority and female union membership;

(ix) Effective measures to assure nonsegregated facilities, as required by contract provisions;

(x) The contractor's procedures for monitoring subcontractors and utilization of minority and female subcontractors and/or subcontractors with substantial minority and female employment; and

(xi) The adequacy of the contractor's records and reports.

(4) A contractor shall be considered to be in compliance (Action R–9) when the equal opportunity requirements have been effectively implemented, or there is evidence that every good faith effort has been made toward achieving this end. Efforts to achieve this goal shall be result-oriented, initiated and maintained in good faith, and emphasized as any other vital management function.

(5) A contractor shall be considered to be in noncompliance (Action R–10) when:

(i) The contractor has discriminated against applicants or employees with respect to the conditions or privileges of employment; or

(ii) The contractor fails to provide evidence of every good faith effort to provide equal opportunity.

(h) *Show cause procedures.* (1) *General.* Once the onsite verification and exit conference (Action R–5) have been completed and a compliance determination made, (Action R–8), the contractor shall be notified in writing of the compliance determination. (Action

V 41 158 AUG 13 76 UMI

R–11 or R–12) This written notification shall be sent to the contractor within 15 days following the completion of the onsite verification and exit conference. If a contractor is found in noncompliance (Action R–10), action efforts to bring the contractor into compliance shall be initiated through the issuance of a show cause notice (Action R–12). The notice shall advise the contractor to show cause within 30 days why sanctions should not be imposed.

(2) *When a show cause notice is required.* A show cause notice shall be issued when a determination of noncompliance is made based upon:

(i) The findings of a compliance review;

(ii) The results of an investigation which verifies the existence of discrimination; or

(iii) Areawide plan reports that show an underutilization of minorities (based on criteria of U.S. Department of Labor's Optional Form 66 "Manpower Utilization Report") throughout the contractor's work force covered by Part II of the plan bid conditions.

(3) *Responsibilty for issuance.* (i) Show cause notices will normally be issued by SHA's to federally assisted contractors when the State has made a determination of noncompliance, or when FHWA has made such a determination and has requested the State to issue the notice.

(ii) When circumstances warrant, the Regional Federal Highway Administrator or a designee may exercise primary compliance responsibility by issuing the notice directly to the contractor.

(iii) The Regional Federal Highway Administrators in Regions 8, 10, and the Regional Engineer in Region 15 shall issue show cause notices to direct Federal contractors found in noncompliance.

(4) *Content of show cause notice.* The show cause notice must: (See sample—Appendix A)

(i) Notify the contractor of the determination of noncompliance;

(ii) Provide the basis for the determination of noncompliance;

(iii) Notify the contractor of the obligation to show cause within 30 days why formal proceedings should not be instituted;

(iv) Schedule (date, time, and place) a compliance conference to be held approximately 15 days from the contractor's receipt of the notice;

(v) Advise the contractor that the conference will be held to receive and discuss the acceptability of any proposed corrective action plan and/or correction of deficiencies; and

(vi) Advise the contractor of the availability and willingness of the Compliance Specialist to conciliate within the time limits of the show cause notice.

(5) *Preparing and processing the show cause notice.* (i) The State or FHWA official who conducted the investigation or review shall develop complete background data for the issuance of the show cause notice and submit the recommendation to the head of the SHA or the Regional Federal Highway Administrator, as appropriate.

(ii) The recommendation, background data, and final draft notice shall be reviewed by appropriate State or FHWA legal counsel.

(iii) Show cause notices issued by the SHA shall be issued by the head of that agency or a designee.

(iv) The notice shall be personally served to the contractor or delivered by certified mail, return receipt requested, with a certificate of service or the return receipt filed with the case record.

(v) The date of the contractor's receipt of the show cause notice shall begin the 30-day show cause period. (Action R–13).

(vi) The 30-day show cause notice shall be issued directly to the noncompliant contractor or subcontractor with an informational copy sent to any concerned prime contractors.

(6) *Conciliation efforts during show cause period.*

(i) The Compliance Specialist is required to attempt conciliation with the contractor throughout the show cause time period. Conciliation and negotiation efforts shall be directed toward correcting contractor program deficiencies and initiating corrective action which will maintain and assure equal opportunity. Records shall be maintained in the State, FHWA division, or FHWA regional office's case files, as appropriate, indicating actions and reactions of the contractor, a brief synopsis of any meetings with the contractor, notes on verbal communication and written correspondence, requests for assistance or interpretations, and other relevant matters.

(ii) In instances where a contractor is determined to be in compliance after a show cause notice has been issued, the show cause notice will be rescinded and the contractor formally notified (Action R–17). The FHWA Washington Headquarters, Office of Civil Rights, shall immediately be notified of any change in status.

(7) *Corrective action plans.* (i) When a contractor is required to show cause and the deficiencies cannot be corrected within the 30-day show cause period, a written corrective action plan may be accepted. The written corrective action plan shall specify clear unequivocal action by the contractor with time limits for completion. Token actions to correct cited deficienes will not be accepted. (See Sample Corrective Action Plan—Appendix B)

(ii) When a contractor submits an acceptable written corrective action plan, the contractor shall be considered in compliance during the plan's effective implementation and submission of required progress reports. (Action R–15 and R–17).

(iii) When an acceptable corrective action plan is not agreed upon and the contractor does not otherwise show cause as required, the formal hearing process shall be recommended through appropriate channels by the compliance specialist immediately upon expiration of the 30-day show cause period. (Action R–16, R–18, R–19)

(iv) When a contractor, after having submitted an acceptable corrective action plan and being determined in compliance is subsequently determined to be in noncompliance based upon the contractor's failure to implement the corrective action plan, the formal hearing process must be recommended immediately. There are no provisions for reinstituting a show cause notice.

(v) When, however, a contractor operating under an acceptable corrective action plan carries out the provisions of the corrective action plan but the actions do not result in the necessary changes, the corrective action plan shall be immediately amended through negotiations. If, at this point, the contractor refuses to appropriately amend the corrective action plan, the formal hearing process shall be recommended immediately.

(vi) A contractor operating under an approved voluntary corrective action plan (i.e. plan entered into prior to the issuance of a show cause) must be issued a 30-day show cause notice in the situations referred to in paragraphs (h) (7) (iv) and (v) of this section, i.e. failure to implement an approved corrective action plan or failure of corrective actions to result in necessary changes.

(i) *Followup reviews.* (1) A followup review is an extension of the inital review process to verify the contractors performance of corrective action and to validate progress report information. Therefore, followup reviews shall only be conducted of those contractors where the initial review resulted in a finding of noncompliance and a show cause notice was issued.

(2) Followup reviews shall be reported as a narrative summary referencing the initial review report.

(j) *Hearing process.* (1) When such procedures as show cause issuance and conciliation conferences have been unsuccessful in bring contractors into compliance within the prescribed 30 days, the reviewer (or other appropriate level) shall immediately recommend, through channels, that the Department of Transportation obtain approval from the Office of Federal Contract Compliance Programs for a formal hearing (Action R–19). The Contractor should be notified of this action.

(2) Recommendations to the Federal Highway Administrator for hearing approval shall be accompanied by full reports of findings and case files containing any related correspondence. The following items shall be included with the recommendation:

(i) Copies of all Federal and Federal-aid contracts and/or subcontracts to which the contractor is party;

(ii) Copies of any contractor or subcontractor certifications;

(iii) Copy of show cause notice;

(iv) Copies of any corrective action plans; and

(v) Copies of all pertinent Manpower Utilization Reports, if applicable.

(3) SHA's, through FHWA regional and division offices, will be advised of decisions and directions affecting contractors by the FHWA Washington Headquarters, Office of Civil Rights, for the Department of Transportation.

(k) *Responsibility determinations.* (1) In instances where requests for formal hearings are pending OFCCP approval, the contractor may be declared a nonresponsible contractor for inability to comply with the equal opportunity requirements.

(2) SHA's shall refrain from entering into any contract or contract modification subject to E.O. 11246, as amended, with a contractor who has not demonstrated eligibility for Government contracts and federally assisted construction contracts pursuant to E.O. 11246, as amended.

§ 230.411 Guidance for conducting reviews.

(a) *Extensions of time.* Reasonable extensions of time limits set forth in these instructions may be authorized by the SHA's or the FHWA regional office, as appropriate. However, all extensions are subject to Washington Headquarters approval and should only be granted with this understanding. The Federal Highway Administrator shall be notified of all time extensions granted and the justification therefor. In sensitive or special interest cases, simultaneous transmittal of reports and other pertinent documents is authorized.

(b) *Contract completion.* Completion of a contract or seasonal shutdown shall not preclude completion of the administrative procedures outlined herein or the possible imposition of sanctions or debarment.

(c) *Home office reviews outside regions.* When contractors' home offices are located outside the FHWA region in which the particular contract is being performed, and it is determined that the contractors' home offices should be reviewed, requests for such reviews with accompanying justification shall be forwarded through appropriate channels to the Washington Headquarters, Office of Civil Rights. After approval, the Washington Headquarters, Office of Civil Rights, (OCR) shall request the appropriate region to conduct the home office review.

(d) *Employment of women.* Executive Order 11246, as amended, implementing rules and regulations regarding sex discrimination are outlined in 41 CFR Part 60–20. It is the responsibility of the Compliance Specialist to ensure that contractors provide women full participation in their work forces.

(e) *Effect of exclusive referral agreements.* (1) The OFCCP has established the following criteria for determining compliance when an exclusive referral agreement is involved:

(i) It shall be no excuse that the union, with which the contractor has a collective bargaining agreement providing for exclusive referrals failed to refer minority or female employees.

(ii) Discrimination in referral for employment, even if pursuant to provisions of a collective bargaining agreement, is prohibited by the National Labor Relations Act and Title VII of the Civil Rights Act of 1964, as amended.

(iii) Contractors and subcontractors have a responsibility to provide equal opportunity if they want to participate in federally involved contracts. To the extent they have delegated the responsibility for some of their employment practices to some other organization or agency which prevents them from meeting their obligations, these contractors must be found in noncompliance.

(2) If the contractor indicates that union action or inaction is a proximate cause of the contractor's failure to provide equal opportunity, a finding of noncompliance will be made and a show cause notice issued, and:

(i) The contractor will be formally directed to comply with the equal opportunity requirements.

(ii) Reviews of other contractors with projects within the jurisdiction of the applicable union locals shall be scheduled.

(iii) If the reviews indicate a pattern and/or practice of discrimination on the part of specific union locals, each contractor in the area shall be informed of the criteria outlined in § 230.411(e)(1) of this section. Furthermore, the FHWA Washington Headquarters, OCR, shall be provided with full documentary evidence to support the discriminatory pattern indicated.

(iv) In the event the union referral practices prevent the contractor from meeting the equal opportunity requirements pursuant to the E.O. 11246, as amended, such contractor shall immediately notify the SHA.

§ 230.413 Review reports.

(a) *General.* (1) The Compliance Specialist shall maintain detailed notes from the beginning of the review from which a comprehensive compliance review report can be developed.

(2) The completed compliance review report shall contain documentary evidence to support the determination of a contractor's or subcontractor's compliance status.

(3) Findings, conclusions, and recommendations shall be explicitly stated and, when necessary, supported by documentary evidence.

(4) The compliance review report shall contain at least the following information.[1] (Action R–20)

(i) Complete name and address of contractor.

(ii) Project(s) identification.

(iii) Basis for the review, i.e. area work force, project work force, home office work force, and target area work force.

(iv) Identification of Federal or Federal-aid contract(s).

(v) Date of review.

(vi) Employment data by job craft, classification, or occupation by race and sex in accordance with (iii) above. This shall be the data verified during the onsite.

(vii) Identification of local unions involved with contractor, when applicable.

(viii) Determination of compliance status: compliance or noncompliance.

(ix) Copy of show cause notice or compliance notification sent to contractor.

(x) Name of the Compliance Specialist who conducted the review and whether that person is a State, division or regional Compliance Specialist.

(xi) Concurrences at appropriate levels.

(5) Each contractor (joint venture is one contractor) will be reported separately. When a project review is conducted, the reports should be attached, with the initial report being that of the prime contractor followed by the reports of each subcontractor.

(6) Each review level is responsible for ensuring that required information is contained in the report.

(7) When a project review is conducted, the project work force shall be reported. When an areawide review is conducted (all Federal-aid, Federal, and non-Federal projects in an area), then areawide work force shall be reported. When a home office review is conducted, only home office work force shall be reported. Other information required by regional offices shall be detached before forwarding the reports to the Washington Headquarters, OCR.

(8) The Washington Headquarters, OCR, shall be provided all of the following:

(i) The compliance review report required by § 230.413(a)(4).

(ii) Corrective action plans.

(iii) Show cause notices or compliance notifications.

(iv) Show cause recissions.

While other data and information should be kept by regional offices (including progress reports, correspondence, and similar review backup material), it should not be routinely forwarded to the Washington Headquarters, OCR.

(b) *Administrative requirements.*

(1) *State conducted reviews:*

(i) Within 15 days from the completion of the onsite verification and exit conference, the State Compliance Specialist will:

(A) Prepare the compliance review report, based on information obtained;

(B) Determine the contractor's compliance status;

(C) Notify the contractor of the compliance determination, i.e., send the contractor either notification of compliance or show cause notice; and

(D) Forward three copies of the compliance review report, and the compliance notification or show cause notice to the FHWA division EEO Specialist.

(ii) Within 10 days of receipt, the FHWA division EEO Specialist shall:

(A) Analyze the State's report, ensure that it is complete and accurate;

(B) Resolve nonconcurence, if any;

[1] The Federal Highway Administration will accept completed Form FHWA–86 for the purpose. The form is available at the offices listed in 49 CFR Part 7, Appendix D.

V 41 1158 AUG 13 76 UMI

(C) Indicate concurrence, and, where appropriate, prepare comments; and

(D) Forward two copies of the compliance review report, and the compliance notification or show cause notice to the Regional Civil Rights Director.

(iii) Within 15 days of receipt, the FHWA Regional Civil Rights Director shall:

(A) Analyze the report, ensure that it is complete and accurate;

(B) Resolve nonconcurrence, if any;

(C) Indicate concurrence, and, where appropriate, prepare comments; and

(D) Forward one copy of the compliance review report, and the compliance notification or show cause notice to the Washington Headquarters, OCR.

(2) *FHWA division conducted reviews:*

(i) Within 15 days from the completion of the onsite verification and exit conference, the division EEO Specialist shall:

(A) Prepare compliance review report, based on information obtained;

(B) Determine the contractor's compliance status;

(C) Notify the State to send the contractor the compliance determination, i.e. either notification of compliance or show cause notice; and

(D) Forward two copies of the compliance review report and the compliance notification or show cause notice to the Regional Civil Rights Director.

(ii) Within 15 days of receipt, the FHWA Regional Civil Rights Director will take the steps outlined in § 230.413 (b)(1)(iii).

(3) *FHWA region conducted reviews.*

(i) Within 15 days from the completion of the onsite verification and exit conference the regional EEO Specialist shall:

(A) Prepare the compliance review report, based on information obtained;

(B) Determine the contractor's compliance status;

(C) Inform the appropriate division to notify the State to send the contractor the compliance determination i.e. either notification of compliance or show cause notice; and

(D) Forward one copy of the compliance review report, and the compliance notification or show cause notice to the Washington Headquarters, OCR.

(4) Upon receipt of compliance review reports, the Washington Headquarters, OCR, shall review, resolve any nonconcurrences, and record them for the purpose of:

(i) Providing ongoing technical assistance to FHWA regional and division offices and SHA's;

(ii) Gathering a sufficient data base for program evaluation;

(iii) Ensuring uniform standards are being applied in the compliance review process;

(iv) Initiating appropriate changes in FHWA policy and implementing regulations; and

(v) Responding to requests from the General Accounting Office, Office of Management and Budget, Senate Subcommittee on Public Roads, and other agencies and organizations.

§ 230.415 Consolidated compliance reviews.

(a) General. Consolidated compliance reviews shall be implemented to determine employment opportunities on an areawide rather than an individual project basis. The consolidated compliance review approach shall be adopted and directed by either Headquarters, region, division, or SHA, however, consolidated reviews shall at all times remain a cooperative effort.

(b) OFCCP policy requires contracting agencies to ensure compliance, in hometown an imposed plan areas, on an areawide rather than a project basis. The consolidated compliance review approach facilitates implementation of this policy.

(c) Methodology. (1) Selection of a Target Area. In identifying the target area of a consolidated compliance review (e.g. SMSA, hometown or imposed plan area, a multicounty area, or an entire State), consideration shall at least be given to the following facts:

(i) Minority and female work force concentrations;

(ii) Suspected or alleged discrimination in union membership or referral practices by local unions involved in highway construction;

(iii) Present or potential problem areas;

(iv) The number of highway projects in the target area; and

(v) Hometown or imposed plan reports that indicate underutilization of minorities or females.

(2) Determine the Review Period. After the target area has been selected, the dates for the actual onsite reviews shall be established.

(3) Obtain Background Information. EEO–3's Local Union Reports, should be obtained from regional offices of the EEOC. Target area civilian labor force statistics providing percent minorities and persent females in the target area shall be obtained from State employment security agencies or similar State agencies.

(4) Identify Contractors. Every nonexempt federally assisted or direct Federal contractor and subcontractor in the target area shall be identified. In order to establish areawide employment patterns in the target area, employment data is needed for all contractors and subcontractors in the area. However, only those contractors with significant work forces (working prior to peak and not recently reviewed) may need to be actually reviewed onsite. Accordingly, once all contractors are identified, those contractors which will actually be reviewed onsite shall be determined. Compliance determinations shall only reflect the status of crafts covered by Part II of plan bid conditions. Employment data of crafts covered by Part I of plan bid conditions shall be gathered and identified as such in the composite report, however, OFCCP has reserved the responsibility for compliance determinations on crafts covered by Part I of the plan bid conditions.

(5) Contractor Notification. Those contractors selected for onsite review shall be sent a notification letter as outlined in § 230.409(c) along with a request for current workforce data[2] for completion and submission at the onsite review. Those contractors in the target area not selected for onsite review shall also be requested to supply current workforce data as of the onsite review period, and shall return the data within 15 days following the onsite review period.

(6) Onsite Reviews. Compliance reviews shall then be conducted in accordance with the requirements set forth in § 230.409. Reviewers may use Form FHWA–86, Compliance Data Report, if appropriate. It is of particular importance during the onsite reviews that the review team provide for adequate coordination of activities at every stage of the review process.

(7) Compliance Determinations. Upon completion of the consolidated reviews, compliance determinations shall be made on each review by the reviewer. Individual show cause notices or compliance notifications shall be sent (as appropriate) to each reviewed contractor.

The compliance determination shall be based on the contractor's target area work force (Federal, Federal-aid and non-Federal), except when the target area is coincidental with hometown plan area, compliance determinations must not be based on that part of a contractor's work force covered by Part I of the plan bid conditions, as previously set forth in this regulation. For example: ABC Contracting, Inc. employs carpenters, operating engineers, and cement masons. Carpenters and operating engineers are covered by Part II of the plan bid conditions, however, cement masons are covered by Part I of the plan bid conditions. The compliance determination must be based only on the contractor's utilization of carpenters and operating engineers.

(d) Reporting. (1) Composite Report. A final composite report shall be submitted as a complete package to the Washington Headquarters, OCR, within 45 days after the review period and shall consist of the following:

(i) Compliance review report, for each contractor and subcontractor with accompanying show cause notice or compliance notification.

(ii) Work force data to show the aggregate employment of all contractors in the target area.

(iii) A narrative summary of findings and recommendations to include the following:

(A) A summary of highway construction employment in the target area by craft, race, and sex. This summary

[2] The Consolidated Workforce Questionnaire is convenient for the purpose and appears as Attachment 4 to Volume 2, Chapter 2, Section 3 of the Federal-Aid Highway Program Manual, which is available at the offices listed in 49 CFR Part 7, Appendix D.

should explore possible patterns of discrimination or underutilization and possible causes, and should compare the utilization of minorities and females on contractor's work forces to the civilian labor force percent for minorities and females in the target area.

(B) If the target area is a plan area, a narrative summary of the plan's effectiveness with an identification of Part I and Part II crafts. This summary shall discuss possible differences in minority and female utilization between Part I and Part II crafts, documenting any inferences drawn from such comparisons.

(C) If applicable, discuss local labor unions' membership and/or referral practices that impact on the utilization of minorities and females in the target area. Complete and current copies of all collective bargaining agreements and copies of EEO–3, Local Union Reports, for all appropriate unions shall accompany the composite report.

(D) Any other appropriate data, analyses, or information deemed necessary for a complete picture of the areawide employment.

(E) Considering the information compiled from the summaries listed above, make concrete recommendations on possible avenues for correcting problems uncovered by the analyses.

(2) Annual Planning Report. The proper execution of consolidated compliance reviews necessitates scheduling, along with other fiscal program planning. The Washington Headquarters, OCR, shall be notified of all planned consolidated reviews by August 10 of each year and of any changes in the target area or review periods, as they become known. The annual consolidated planning report shall indicate:

(i) Selected target areas:

(ii) The basis for selection of each area; and

(iii) The anticipated review period (dates) for each target area.

APPENDIX A—SAMPLE SHOW CAUSE NOTICE

Certified Mail, Return Receipt Requested
Date
Contractor's Name
Address
City, State, and Zip Code

DEAR CONTRACTOR: As a result of the review of your (Project Number) project located at (Project Location) conducted on (Date) by (Reviewing Agency), it is our determination that you are not in compliance with your equal opportunity requirements and that good faith efforts have not been made to meet your equal opportunity requirements in the following areas:

List of Deficiencies
1.
2.
3.

Your failure to take the contractually required affirmative action has contributed to the unacceptable level of minority and female employment in your operations, particularly in the semiskilled and skilled categories of employees.

The Department of Labor regulations (41 CFR 60) implementing Executive Order 11246, as amended, are applicable to your Federal-aid highway construction contract and are controlling in this matter (see Required Contract Provisions, Form PR–1273, Clause II). Section 60–1.20(b) of these regulations provides that when equal opportunity deficiencies exist, it is necessary that you make a commitment in writing to correct such deficiencies before you may be found in compliance. The commitment must include the specific action which you propose to take to correct each deficiency and the date of completion of such action. The time period allotted shall be no longer than the minimum period necessary to effect the necessary correction. In accordance with instructions issued by the Office of Federal Contract Compliance Programs (OFCCP), U.S. Department of Labor, your written commitment must also provide for the submission of monthly progress reports which shall include a head count of minority and female representation at each level of each trade and a list of minority employees.

You are specifically advised that making the commitment discussed above will not preclude a further determination of noncompliance upon a finding that the commitment is not sufficient to achieve compliance.

We will hold a compliance conference at _____ at _____ on _____
(Address) (Time) (Date)
for you to submit and discuss your written commitment. If your written commitment is acceptable and if the commitment is sufficient to achieve compliance, you will be found in compliance during the effective implementation of that commitment. You are cautioned, however, that our determination is subject to review by the Federal Highway Administration, the Department of Transportation, and OFCCP and may be disapproved if your written commitment is not considered sufficient to achieve compliance.

If you indicate either directly or by inaction that you do not wish to participate in the scheduled conference and do not otherwise show cause within 30 days from receipt of this notice why enforcement proceedings should not be instituted, this agency will commence enforcement proceedings under Executive Order 11246, as amended.

If your written commitment is accepted and it is subsequently found that you have failed to comply with its provisions, you will be advised of this determination and formal sanction proceedings will be instituted immediately.

In the event formal sanction proceedings are instituted and the final determination is that a violation of your equal opportunity contract requirements has taken place, any Federal-aid highway construction contracts or subcontracts which you hold may be canceled, terminated, or suspended, and you may be debarred from further such contracts or subcontracts. Such other sanctions as are authorized by Executive Order 11246, as amended, may also be imposed.

We encourage you to take whatever action is necessary to resolve this matter and are anxious to assist you in achieving compliance. Any questions concerning this notice should be addressed to (Name, Address, and Phone).

Sincerely yours,

APPENDIX B—SAMPLE CORRECTIVE ACTION PLAN

Deficiency 1: Sources likely to yield minority employees have not been contacted for recruitment purposes.

Commitment: We have developed a system of written job applications at our home office which readily identifies minority applicants. In addition to this, as a minimum, we will contact the National Association for the Advancement of Colored People (NAACP), League of Latin American Citizens (LULAC), Urban League, and the Employment Security Office within 20 days to establish a referral system for minority group applicants and expand our recruitment base. We are in the process of identifying other community organizations and associations that may be able to provide minority applicants and will submit an updated listing of recruitment sources and evidence of contact by _____.
(Date)

Deficiency 2: There have been inadequate efforts to locate, qualify, and increase skills of minority and female employees and applicants for employment.

Commitment: We will set up an individual file for each apprentice or trainee by _____.
(Date)
in order to carefully screen the progress, ensure that they are receiving the necessary training, and being promoted promptly upon completion of training requirements. We have established a goal of at least 50 percent of our apprentices and trainees will be minorities and 15 percent will be female. In addition to the commitment made to deficiency number 1, we will conduct a similar identification of organizations able to supply female applicants. Based on our projected personnel needs, we expect to have reached our 50 percent goal for apprentices and trainees by _____.
(Date)

Deficiency 3: Very little effort to assure subcontractors have meaningful minority group representation among their employees.

Commitment: In cooperation with the Regional Office of Minority Business Enterprise, Department of Commerce, and the local NAACP, we have identified seven minority-owned contractors that may be able to work on future contracts we may receive. These contractors (identified in the attached list) will be contacted prior to our bidding on all future contracts. In addition, we have scheduled a meeting with all subcontractors currently working on our contracts. This meeting will be held to inform the subcontractors of our intention to monitor their reports and require meaningful minority representation. This meeting will be held on _____
(Date)
and we will summarize the discussions and current posture of each subcontractor for your review by _____.
(Date)
Additionally, as requested, we will submit a PR–1391 on _____,
(Date)
_____,
(Date)
_____.
(Date)
Finally, we have committed ourselves to maintaining at least 20 percent minority and female representation in each trade during the time we are carrying out the above commitments. We plan to have completely implemented all the provisions of these commitments by _____.
(Date)

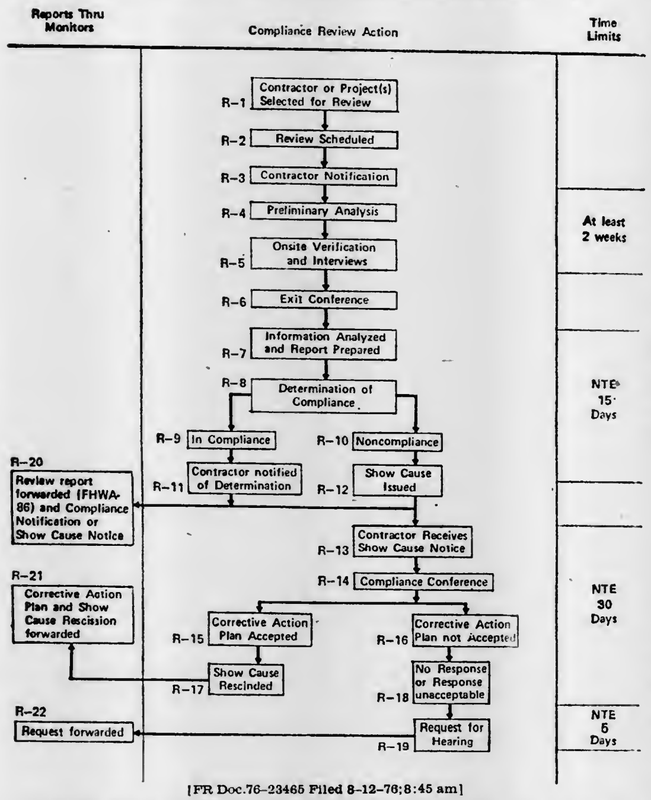
APPENDIX C—SAMPLE SHOW CAUSE RESCISSION

Certified Mail, Return Receipt Requested
Date
Contractor
Address
City, State, and Zip Code

DEAR CONTRACTOR: On _____,
(Date)
you received a 30-day show cause notice from this office for failing to implement the required contract requirements pertaining to equal employment opportunity.

Your corrective action plan, discussed and submitted at the compliance conference held on _____, has
(Date)
been reviewed and determined to be acceptable. Your implementation of your corrective action plan shows that you are now taking the required affirmative action and

V 41 1158 AUG 13 76 UMI



can be considered in compliance with Executive Order 11246, as amended. If it should later be determined that your corrective action plan is not sufficient to achieve compliance, this Rescission shall not preclude a subsequent finding of noncompliance.

In view of the above, this letter is to inform you that the 30-day show cause notice of ---------- (Date) is hereby rescinded. You are further advised that if it is found that you have failed to comply with the provisions of your corrective action plan, formal sanction proceedings will be instituted immediately.

Sincerely,

Appendix D

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—PROVISIONS COMMON TO MORE THAN ONE PROGRAM

[Amdt. 2]

PART 790—INCOMPLETE PERFORMANCE BASED UPON ACTION OR ADVICE OF AN AUTHORIZED REPRESENTATIVE OF THE SECRETARY

Change of Title; Deputy Administrator

7 CFR Part 790 is amended to change the name of the Deputy Administrator, State and County Operations, wherever it appears, to Deputy Administrator, Programs.

This change is applicable to all programs set forth in this Title 7 to which this Part is made applicable by individual program regulations. Since this amendment merely brings the provisions of Part 790 into line with the current designation of the Deputy Administrator, and since correction of the references to the Deputy Administrator should be made as soon as possible in order to inform producers and others, it is hereby found and determined that compliance with the notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, this amendment shall become effective August 12, 1976.

Signed at Washington, D.C., on August 6, 1976.

SEELEY G. LODWICK,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.76-23745 Filed 8-12-76;8:45 am]

[Amdt. 2]

PART 791—AUTHORITY TO MAKE PAYMENTS WHEN THERE HAS BEEN A FAILURE TO COMPLY FULLY WITH THE PROGRAM

Change of Title; Deputy Administrator

Change of Title 7 CFR Part 791 is amended to change the name of the Deputy Administrator, State and County Operations, wherever it appears, to Deputy Administrator, Programs.

This change is applicable to all programs set forth in this Title 7 to which this part is made applicable by individual program regulations. Since this amendment merely brings the provisions of Part 791 into line with the current designation of the Deputy Administrator, and since correction of the references to the Deputy Administrator should be made as soon as possible in order to inform producers and others, it is hereby found and determined that compliance with the notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, this amendment shall become effective on August 12, 1976.

Signed at Washington, D.C., on August 6, 1976.

SEELEY G. LODWICK,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 52]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 15–21, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.352 Lemon Regulation 52.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is less than normal for this time of year due to cooler weather over much of the U.S. Average f.o.b. price was $6.40 per carton the week ended August 7, 1976, compared to $6.49 per carton the previous week. Track and rolling supplies at 150 cars were down 25 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 10, 1976.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 15, 1976, through August 21, 1976, is hereby fixed at 265,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

V 41 158 AUG 13 76 UMI

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 12, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt. 11]

PART 1472—WOOL

Subpart—Payment Program for Shorn Wool and Unshorn Lambs (Pulled Wool) (1966–70)

PRICE SUPPORT PAYMENTS FOR 1969 AND 1970 MARKETING YEARS

Pursuant to the authority granted to the Secretary of Agriculture in Pub. L. 94–312, 90 Stat. 690, dated June 21, 1976, the regulations (7 CFR 1472.1201—1472.1255) issued by Commodity Credit Corporation under the National Wool Act of 1954, as amended (7 U.S.C. 1781 et seq.), containing the requirements with respect to the price support payment program for shorn wool and unshorn lambs (pulled wool) for 1966–70 are amended as provided below. In order to insure the equitable treatment of ranchers and farmers who sold their wool in 1969 and 1970, this amendment shall be effective as to all sales of wool in 1969 and 1970.

Section 1472.1207 is amended by adding the following new paragraph (f):

§ 1472.1207 Marketing within a specified marketing year.

• • • • •

(f) A promissory note or other promise to pay, as well as a check not honored, may be considered as payment to the producer for the wool if the Deputy Administrator, Programs, ASCS, makes a determination that (1) the producer acted in good faith in the marketing of his wool, (2) the wool was not returned to the producer, (3) the producer was not aware and did not suspect that the document tendered in payment for the wool was not worth its face value at the time he accepted the document as payment for the wool, and (4) the producer has made a diligent effort to obtain payment for his wool from the purchaser. In any case where such a determination is made, the amount of the price support payment may be computed on the basis of:

(i) The net sales proceeds received, or

(ii) In the case of any producer who failed to realize the amount provided for in the sales document, the lesser of the following:

(A) The net sales proceeds based on the price the producer would have received had there been no default of payment under such document, or

(B) The fair market value of the commodity concerned at the time of sale.

The Secretary of Agriculture may reconsider any application filed for the payment of price support with respect to any shorn wool and unshorn lambs (pulled wool) marketed during the 1969 and 1970 marketing years and to make such payment adjustments as he determines fair and equitable on the basis of this paragraph (f).

(Sec. 4, 62 Stat. 1070, sec. 5, 62 Stat. 1072 (15 U.S.C. 714b, 714c) secs. 702–708, 68 Stat. 910–912, as amended (7 U.S.C. 1781–1787, as amended).)

Signed at Washington, D.C., on August 6, 1976.

SEELEY G. LODWICK,
Acting Executive Vice President, Commodity Credit Corporation.

[FR Doc.76-23663 Filed 8-12-76;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Grapefruit Reg. 76, Amdt. 9]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Amendment of Grade and Size Regulations

This amendment increases specified grade and size requirements applicable to domestic and export shipments of Florida grapefruit for the period August 16 through September 26, 1976. The amendment is designed to maintain orderly marketing and provide consumers with an ample supply of acceptable quality fruit.

Notice was published in the FEDERAL REGISTER on July 12, 1976 (41 FR 28528), that consideration was being given to a proposal to amend Grapefruit Regulation 76 (§ 905.563; 40 FR 42317, 49785, 54420, 58446; 41 FR 15829, 18673, 19965, 23184, 24575), effective pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposed amendment was recommended by the Shippers Advisory Committee and Growers Administrative Committee, established under said amended marketing agreement and order. The notice provided that all written data, views, or arguments in connection with the proposed amendment be submitted by August 4, 1976. None were received.

The amendment reflects the Department's appraisal of the need for regulation of shipments of Florida grapefruit during the period August 16 through September 26, 1976, based on the available supply and current and prospective demand by domestic and export market outlets. The action is necessary to maintain orderly marketing conditions by preventing the adverse effect on the market caused by shipment of lower-quality and smaller-size grapefruit when more than ample supplies of the more desirable grades and sizes are available to serve consumers' needs. The amendment is consistent with the objectives of the act of promoting orderly marketing and protecting the interest of consumers.

After consideration of all relevant matter presented, including the proposal set forth in the aforesaid notice and other available information, it is hereby found that the regulation of shipments of Florida grapefruit, as hereinafter set forth, is in accordance with said amended marketing agreement and order and will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for making this amendment effective at the time hereinafter set forth and for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice of proposed rulemaking concerning this amendment was published in the FEDERAL REGISTER on July 12, 1976 (41 FR 28528), and no objection to such amendment was received; (2) the regulatory provisions are the same as those contained in said notice; and (3) compliance with the regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In § 905.563 (Grapefruit Regulation 76; 40 FR 42317, 49785, 54420, 58446; 41 FR 15829, 18673, 19965, 23184, 24575) the provisions of paragraph (a) and subparagraphs (1) through (4) thereof and paragraph (b) and subparagraphs (1) and (3) thereof are amended to read as follows:

§ 905.563 Grapefruit Regulation 76.

(a) During the period August 16, 1976, through September 26, 1976, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(1) Any seeded grapefruit, grown in the production area, which do not grade at least U.S. No. 1;

(2) Any seeded grapefruit, grown in the production area, which are of a size smaller than $3^{12}/_{16}$ inches in diameter, except that a tolerance for seeded grapefruit smaller than such minimum diameter shall be permitted as specified in § 51.761 of the United States Standards for Grades of Florida Grapefruit;

(3) Any seedless grapefruit, grown in the production area, which do not grade at least Improved No. 2; or

(4) Any seedless grapefruit, grown in the production area, which are of a size smaller than $3^{9}/_{16}$ inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum diameter shall be permitted as specified in § 51.761 of the United States Standards for Grades of Florida Grapefruit.

(b) During the period August 16, 1976, through September 26, 1976, no handler shall ship to any destination outside the continental United States other than to Canada or Mexico:

(1) Any seeded grapefruit, grown in the production area, which do not grade at least U.S. No. 1;

(2) • • •

(3) Any seedless grapefruit, grown in the production area, which do not grade at least Improved No. 2; or

(4) • • •

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 11, 1976, to become effective August 16, 1976.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 6, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of United Audio Products Inc., a Corporation

Consent order requiring a Mount Vernon, N.Y., manufacturer, importer and distributor of high fidelity audio components, among other things to cease maintaining resale prices and engaging in restrictive trade practices. Further, the order requires respondent to maintain records; reinstate dealers terminated for non-conformance with previously required pricing schedules and to take appropriate action against those distributors found to be in violation of the order.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

ORDER

I

It is ordered, That respondent United Audio Products, Inc., a corporation, its successors and assigns and respondent's employees, agents, representatives, including sales representatives or other independent contractors, directly or through any corporation, subsidiary, division or other device, in connection with the manufacture, importation, distribution, offering for sale and sale of high fidelity audio components and other products in or affecting commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Establishing, continuing or enforcing any contracts, agreements, understandings or arrangements with distributors or retail dealers of respondent's products (hereinafter distributors and retail dealers are referred to in this Order as "dealers") which have the purpose or effect of fixing, establishing, maintaining, or enforcing the prices at which respondent's products are to be resold.

2. Fixing, establishing, controlling or maintaining the prices at which dealers may advertise, promote, offer for sale or sell respondent's products.

3. Publishing, disseminating, circulating or providing by any other means, any suggested resale prices; *provided however*, That subsequent to two (2) years after the date on which this Order becomes final, respondent may suggest resale prices if it is clearly and conspicuously stated on each page of any price list, book, tag, advertising or promotional material or other document that the price is suggested.

4. Requiring any dealer to enter into written or oral agreements or understandings that such dealer will adhere to established or suggested prices for respondent's products as a condition to receiving or retaining its dealership.

5. Refusing to sell or threatening to refuse to sell to any dealer who desires to engage in the sale of respondent's products for the reason that such dealer will not enter into an understanding or agreement with respondent to advertise or sell said products at respondent's established or suggested resale price.

6. Threatening to withhold or withholding earned cooperative advertising credits or allowances from any dealer because said dealer advertises respondent's products at retail prices other than that which respondent deems appropriate or has approved.

7. Disseminating or circulating any warranty registration form or any other document which requires or requests that the retail price paid by the ultimate consumer for respondent's products be stated and reported to respondent.

8. Securing or attempting to secure any promises or assurances from dealers or prospective dealers regarding the prices at which such dealers will advertise or sell respondent's products or requesting or requiring any dealer or prospective dealer to obtain approval from respondent for prices offered by said dealers in advertisements for respondent's products.

9. Requiring, soliciting or encouraging any dealer, person or firm either directly or indirectly to report the identity of any dealer, person or firm who does not adhere to any resale or retail price for any of respondent's products, or acting on reports so obtained by refusing or threatening to refuse sales to any dealer, person or firm so reported.

10. Terminating, threatening, intimidating, coercing, delaying shipments, or taking any other action to prevent the sale of respondent's products by a dealer because said dealer has advertised or sold, is advertising or selling, or is suspected of advertising or selling such products at other than prices that respondent may deem to be appropriate or has approved.

11. Establishing, continuing or enforcing, by refusal to sell, termination or threat thereof, delay in shipment or threat thereof, or in any other manner, any contract, agreement, understanding, or arrangement or method of doing business which has the purpose or effect of restricting or limiting in any manner the customers or classes of customers to whom dealers may sell respondent's products.

12. Convening or participating in any meeting for the purpose of undertaking or engaging in any of the acts or practices prohibited by this Order.

In connection with the foregoing provisions under Part I of this Order, it is further provided that after the expiration of five (5) years from the date this Order becomes final, nothing contained in this Order shall prohibit respondent from lawfully exercising such rights, if any, as it may have to distribute and establish resale prices for its products under fair trade laws then in effect.

II

It is further ordered, That respondent shall:

[1] Copies of the Complaint, Decision and Order filed with the original document.

V 41 N 158 AUG 13 76 UMI

1. Forthwith upon this Order becoming final, mail or deliver, and obtain signed receipts therefor, copies of this Order to every present dealer, to every dealer terminated by respondent since January 1, 1972 and to every new dealer for a period of three (3) years.

2. Forthwith distribute a copy of this Order to each of its operating divisions and subsidiaries and to all officers, sales personnel, sales agents, sales representatives and advertising agencies and secure from each such entity or person a signed statement acknowledging receipt of said Order.

3. Within thirty (30) days from the date on which this Order becomes final, mail or deliver, and obtain a signed receipt therefor, written notice to all of respondent's sales personnel, sales agents and sales representatives and advertising agencies informing such persons that their violation of any provision of this Order may result in the termination of said employment or business relationship. Respondent shall obtain prior approval from the New York Regional Office of the Federal Trade Commission of said written notification.

4. Forthwith terminate the employment or business relationship with any person or firm willfully violating any provision of this Order and take appropriate disciplinary and corrective action, which may include termination, for nonwillful violation.

5. Within sixty (60) days from the date on which this Order becomes final, mail or deliver, and obtain a signed receipt therefor, a written offer of reinstatement upon the same terms and conditions available to respondent's other dealers, to any distributor or dealer located in an area where resale prices were not or could not be lawfully controlled who was terminated by respondent from January 1, 1972 to the effective date of this order unless respondent can establish that the dealer terminated does not or did not at the time of termination have good credit or that the dealer does not have reasonably adequate facilities for selling respondent's products, and forthwith reinstate any such distributor or dealer who within thirty (30) days thereafter requests, in writing, reinstatement.

III

It is further ordered, That respondent:

1. Notify the Commission at least thirty (30) days prior to any proposed change in the respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation of or dissolution of subsidaries or any other such change in the corporation which may affect compliance obligations arising out of the Order.

2. For a period of three (3) years from the date this Order becomes final, establish and maintain a file of all records referring or relating to respondent's refusal during such period to sell its products to any dealer, which file shall contain a record of a communication to each such dealer explaning respondent's refusal to sell, and which file will be made available for Commission inspection on reasonable notice; and, annually, for a period of three (3) years from the date hereof, submit a report to the Commission's New York Regional Office listing the names and addresses of all dealers with whom respondent has refused to deal during the preceding years, a description of the reason for the refusal and the date of the refusal.

IV

It is further ordered, That in the event the Commission hereafter issues any Order which is less restrictive than the provisions of Paragraphs I, II, or III, Sections 1 through 12, of this Order, in any proceeding involving alleged resale price maintenance of a manufacturer or supplier of audio components subject to investigation by the Commission pursuant to File No. 741 0042, then the Commission shall, upon the application of United Audio Products, Inc., reconsider this Order and may reopen this proceeding in order to make whatever revisions, if any, are necessary to bring the foregoing paragraphs into conformity with the less stringent restrictions imposed upon respondent's competitors.

The Decision and order was issued by the Commission July 12, 1976.

CHARLES A. TOBIN,
Secretary.

Title 19—Customs Duties

CHAPTER I—CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 76-225]

PART 159—LIQUIDATION OF DUTIES

Countervailing Duties—Cap Screws From Italy

On February 17, 1976, a Notice of Preliminary Countervailing Duty Determination was published in the FEDERAL REGISTER (41 FR 7157). The notice stated that on the basis of an investigation conducted pursuant to § 159.47(c), Customs Regulations (19 CFR 159.47(c)), a preliminary determination was made that bounties or grants are being paid or bestowed, directly or indirectly, within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to in this notice as "the Act") on the manufacture, production or exportation of iron or steel cap screws, ¼" in diameter and over, from Italy. Measures preliminarily determined to constitute bounties or grants included certain tax rebates under Italian Law 639. The program involves the rebate of both basic rate and specific incidence taxes to manufacturers and exporters of certain steel products, including cap screws.

The notice stated that certain portions of the Italian Law 639 rebates, which are the subject of this investigation, have been determined in previous proceedings under the Act to constitute bounties or grants within the meaning of the Act.

The notice further stated that before a final determination would be made in the proceeding, consideration would be given to any relevant data, views or arguments submitted in writing within 30 days from the date of publication of the notice of preliminary determination.

After consideration of all information received, it is hereby determined that bounties or grants are paid or bestowed, directly or indirectly, on exports of iron or steel cap screws, ¼" in diameter and over, from Italy within the meaning of section 303 of the Act. The bounties or grants are in the form of rebates of the basic rate taxes, which include Customs duties and border fees related to importations of plant and equipment, various stamp taxes, mortgage taxes, publicity taxes, surtaxes, taxes on governmental licenses and permits, and registration taxes.

Accordingly, notice is hereby given that iron or steel cap screws, ¼" in diameter and over imported directly or indirectly from Italy, if entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the FEDERAL REGISTER, will be subject to payment of countervailing duties equal to the net amount of any bounty or grant determined or estimated to have been paid or bestowed.

Effective on or after the date of publication of this notice in the FEDERAL REGISTER and until further notice, upon the entry for consumption or withdrawal from warehouse for consumption of such dutiable iron or steel cap screws, ¼" in diameter and over, imported directly or indirectly from Italy, which benefit from bounties or grants, there shall be collected, in addition to any other duties estimated or determined to be due, countervailing duties in the amount of 15 Lire per kilo.

Any merchandise subject to the terms of this order shall be deemed to have benefited from a bounty or grant if such bounty or grant has been or will be paid or credited, directly or indirectly, upon the manufacture, production, or exportation of such iron or steel cap screws.

§ 159.47 [Amended]

The table in § 159.47(f) of the Customs Regulations (19 CFR 159.47(f)) is amended by inserting in the column headed "Country", the name "Italy." The column headed "Commodity" is amended by inserting the words "Cap screws, ¼" in diameter and over, of iron or steel." The column headed "Treasury Decision" is amended by inserting the number of this Treasury Decision, and the words "Bounty Declared—Rate" in the column headed "Action."

(Sec. 303 of the Act. (R.S. 251, as amended, secs. 303, as amended, 624, 46 Stat. 687, 759; (19 U.S.C. 66, 1303, 1624))).

G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: August 9, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR THE ENFORCEMENT OF STATE STANDARDS

Arizona Plan—Approved Supplements; Correction

FR Doc. No. 76-22007 appearing in the issue of July 30, 1976 (41 FR 31812) contained an inadvertent omission in the last line of § 1952.354(g). The date in that line should be "July 22, 1976". As corrected, § 1952.354(g) reads as follows:

§ 1952.354 Completed developmental steps.

* * * * *

(g) In accordance with the requirements of § 1952.10, the Arizona State poster was approved by the Assistant Secretary on July 22, 1976.

Signed at Washington, D.C., this 9th day of August 1976.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

PART 1952—APPROVED STATE PLANS FOR THE ENFORCEMENT OF STATE STANDARDS

Hawaii Plan; Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1953.4 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under an approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational. A State is determined to be operational under § 1954.3(b) of this chapter when it has provided for the following requirements: enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for review of enforcement actions. In determining whether and to what extent a State plans meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibilities is to be published in the FEDERAL REGISTER.

2. *Notice of Hawaii Operational Agreement.* (a) In accordance with the provisions of § 1954.3(f) of this chapter, notice is hereby given that it has been determined that Hawaii has met the following conditions for operational status:

(1) Enactment of Hawaii Revised Statutes, Chapter 396, (Hawaii Occupational Safety and Health Law) effective May 16, 1972, and amendments which became effective June 4, 1974, and May 6, 1975.

(2) Promulgation of State standards covering all issues as defined by 29 CFR Parts 1910 and 1926, with the exception of Federal maritime standards covered by 29 CFR 1910.13 through 1910.16. On March 11, 1974, the State adopted Federal standards on an emergency basis. On July 11, 1974, Hawaii promulgated one set of State standards which integrates the standards contained in 29 CFR Part 1910 and Part 1926. State standards covering issues defined in Subparts E, F, H, I, J, L, M, O and R of 29 CFR Part 1910 were found to be at least as effective as the comparable Federal standards and were approved by the Assistant Secretary on December 28, 1973 (39 FR 1010). State standards covering issues defined by Subparts D, G, K, N, P, Q and S of 29 CFR Part 1910 and by 29 CFR Part 1926 were found to be at least as effective as the comparable Federal standards and were approved by the Regional Administrator in accordance with 29 CFR 1953.4, effective December 27, 1974 (39 FR 44823).

(3) A sufficient number of qualified safety and health personnel employed under an approved merit system: namely, fourteen (14) Occupational Safety and Health Compliance Officers and five (5) Environmental Health Specialists as of January 5, 1976.

(4) Operation since March 1974, of a review and appeals system under the Labor and Industrial Relations Appeals Board, providing the mechanism for employers and employees to contest enforcement actions and/or abatement dates. The Rules of Practice and Procedure of the Labor and Industrial Relations Appeals Board were promulgated on September 4, 1970.

(5) State enforcement of Federal standards from March 11, 1974 through July 11, 1974, and of State standards since July 11, 1974, monitored under Subpart C of Part 1954, including three semi-annual evaluations covering the period from March 1, 1974 through September 30, 1975.

(b) In addition, the State has provided under its plan for:

(1) Notification to employers and employees since November, 1974, of rights and responsibilities under the Hawaii Occupational Safety and Health Law by requiring the display of a State poster in all work places covered by the plan, which poster was approved by the Assistant Secretary on February 4, 1975 (40 FR 6336).

(2) Occupational accident and illness recordkeeping and reporting by employers covered under the plan, effective April, 1974.

(3) Responding to complaints filed with or referred to the Hawaii Department of Labor and Industrial Relations for violation of the prohibition against discrimination by employers against employees for exercising their rights under the Hawaii Occupational Safety and Health Law.

(4) Assurances of the rights of employers and employees and their representatives consistent with the provisions of the Federal Act and its implementing regulations.

Pursuant to this finding, an agreement effective May 9, 1976, and incorporated as part of the Hawaii plan has been entered into between Joshua C. Agsalud, Director, Department of Labor and Industrial Relations, and Gabriel J. Gillotti, Regional Administrator for Occupational Safety and Health of the U.S. Department of Labor, providing that Federal enforcement activity under section 18(e) of the Act will not be initiated with regard to Federal occupational safety and health standards in the issues covered under 29 CFR Part 1910 and Part 1926, where State standards are in effect and operational, except those areas listed below retained and/or exercised by the Federal Government under the Act.

Under the agreement, Federal responsibility under the Act will continue to be exercised, among other things, with regard to: Complaints about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660); enforcement of standards promulgated under the Act subsequent to the agreement where necessary to protect employees as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 655(c)), until such time as the State shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; enforcement of the agricultural standards of 29 CFR Part 1928 until such time as the State shall have promulgated comparable agricultural standards; enforcement of Federal standards in the maritime and longshoring issues covered by 29 CFR 1910.13 through 1910.16, which issues have been specifically excluded from coverage under the plan; and investigations and inspections for the purpose of evaluating the State plan under sections 18 (c) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

In accordance with this agreement and effective as of May 19, 1976, Subpart Y of Part 1952 is hereby amended as set forth below:

Section 1952.312 is revised to read as follows:

§ 1952.312 Level of Federal enforcement.

Pursuant to §§ 1902.20(b)(1)(iii) and 1954.3 of this chapter under which an agreement has been entered into with Hawaii, effective May 19, 1976, and based on a determination that Hawaii is operational in the issues covered by the Hawaii occupational safety and health plan, discretionary Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926. The U.S. Department of Labor will continue to exercise authority, among other things, with regard to complaints filed with the U.S. Department of Labor about violations of the

V 41 I 158 AUG 13 76 UMI

discrimination provisions of section 11 (c) of the Act (29 U.S.C. 660(c)); Federal standards promulgated subsequent to the agreement where necessary to protect employees, as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 655(c)), in the issues covered under the plan and the agreement until such time as Hawaii have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; agricultural standards of 29 CFR Part 1928 until such time as Hawaii shall have promulgated comparable agricultural standards; standards in the maritime issues covered by 29 CFR 1910.13 through 1910.16, which issues have been specifically excluded from coverage under the plan; investigations and inspections for the purpose of the evaluation of the Hawaii plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)); and the completion of enforcement activities conducted prior to the effective date of the operational agreement. The Regional Administrator for Occupational Safety and Health will make a prompt recommendation for the resumption of the exercise of Federal enforcement authority under section 18 (e) of the Act (29 U.S.C. 667(e)) whenever, and to the degree, necessary to assure occupational safety and health protection to employees in Hawaii.

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667).)

Signed at Washington, D.C., this 9th day of August 1976.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Kentucky Public Service Commission State Poster; Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 31, 1973, notice was published in the FEDERAL REGISTER of the approval of the Kentucky Plan and the adoption of Subart Q of Part 1952 containing the decision and describing the plan (38 FR 20322). On May 24, 1976, Kentucky submitted a supplement to the plan involving a developmental change. (See Subpart B, 29 CFR Part 1953.) The supplement contains the Kentucky Safety and Health Poster for use by the Public Service Commission which serves as the State agency in the administration of the occupational safety and health law with respect to utilities. The poster is to be posted at all Public Service Commission covered workplaces in the State.

2. *Description of the poster.* The Kentucky Public Service Commission Safety and Health Poster for use by those utilities regulated by the Public Service Commission contains, among other things, provisions notifying employees of their obligations and protections under the Kentucky Occupational Safety and Health legislation (KRS Chapter 338); their right to request inspections and their right to remain anonymous as a result; their right to participate in inspections; their protection against discharge or discrimination under both Federal and State law; and their right to file complaints about the administration of the State program with the Occupational Safety and Health Administration. The poster also contains provisions for sanctions and for prompt notice to employers and employees when alleged violations occur.

3. *Location of the plan and its supplement for inspection and copying.* A copy of this supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3112, 200 Constitution Avenue, NW., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Suite 587, 1375 Peachtree Street, NE., Atlanta, Georgia 30309; and Office of the Commissioner of Labor, Kentucky Department of Labor, Capital Plaza Tower, Frankfort, Kentucky 40601.

4. *Public participation.* Under § 1953.2 (c) of this chapter the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Kentucky Public Service Commission Safety and Health Poster incorporates all of the provisions required under 29 CFR 1952.10(a)(5) and 29 CFR 1903.2(a)(3) (39 FR 39036). Accordingly, it is felt that further opportunity for public comment and notice is unnecessary.

5. *Decision.* After consideration, the Kentucky Public Service Commission Safety and Health Poster described above is approved under Part 1953. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In accordance with the provisions of 29 CFR 1903.2 (a)(2), posting of this Kentucky poster by utility employers regulated by the Public Service Commission shall constitute compliance with the posting requirements of section 8(c)(1) of the Act. In addition Subpart Q is hereby amended to reflect completion of a developmental step by redesignating the existing text of § 1952.234 as paragraph (a) and adding a new paragraph (b) to read as follows:

§ 1952.234 Completed developmental steps.

* * * * *

(b) In accordance with the requirements of § 1952.10 the Kentucky Public Service Commission Safety and Health Poster was approved by the Assistant Secretary on August 9, 1976.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667).)

Signed at Washington, D.C., this 9th day of August 1976.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

[FR Doc.76-23731 Filed 8-12-76;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Tennessee Plan; Amendment to Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1954.3 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under an approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational.

A State is determined to be operational under § 1954.3(b) of this chapter when it has provided for the following requirements: Enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for the review of enforcement actions. In determining whether and to what extent a State plan meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibilities is to be published in the FEDERAL REGISTER.

On December 23, 1974, notice was published in the FEDERAL REGISTER (39 FR 44200) that it had been determined that Tennessee had met the conditions for operational status and of the signing of an agreement effective November 11, 1974, between Eugene W. Fowinkle, Commissioner of the Tennessee Department of Public Health, Ben O. Gibbs, Commissioner of the Tennessee Department of Labor, and Donald E. MacKenzie, Regional Administrator for Occupational Safety and Health.

On February 2, 1976, the Supreme Court of Tennessee held in the case of *"Fowinkle vs. Southern Railway Company,"* 553 S.W. 2d 278 (1976) that railroad employers are not covered under the Tennessee Occupational Safety and Health Act of 1972 (hereinafter referred to as TOSHA) (Title 50, chapter 5, TCA).

2. *Notice of the amendment to Tennessee operational agreement.* In accordance with § 1954.3(f)(3) of this chapter, notice is hereby given that an agreement effective April 14, 1976, and incorporated as part of the Tennessee plan has been entered into between Eugene Fowinkle, Commisioner of the Tennessee Department of Public Health, James G. Neeley, Commissioner of the Tennessee Department of Labor, and Donald E. Mackenzie, Regional Administrator for Occupational Safety and Health, the U.S. Department of Labor, to amend the agreement that became effective November 11, 1974, in that Federal responsibility under the Act will be exercised with regard to working conditions in railroads, except as to working conditions as to which other Federal agencies exercise statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health. This Federal responsibility will continue only until such time as the State is able to reassume jurisdiction in this area.

The agreement is subject to revision or termination by the Assistant Secretary of Labor for Occupational Safety and Health upon substantial failure by the State to comply with any of its provisions, or when the results of evaluation under 29 CFR Part 1954 reveal that State operations covered by the agreement fail in a substantial manner to be at least as effective as the Federal program.

In accordance with this agreement and effective as of April 14, 1976, Subpart P of 29 CFR Part 1952 is hereby amended as set forth below.

Section 1952.222 is amended to read as follows:

§ 1952.222 Level of Federal enforcement.

Pursuant to § 1902.20(b)(1)(iii) and § 1954.3 of this chapter under which an agreement has been entered into with Tennessee, effective November 11, 1974, and as amended April 14, 1976, and based on a determination that Tennessee is operational in issues covered by the Tennessee occupational safety and health plan, discretionary Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(c)) will not be initiated with regard to Federal occupational safety and health standards in issues covered under Part 1910 and Part 1926 of this chapter. The U.S. Department of Labor will continue to exercise authority, among other things, with regard to: Complaints filed with the U.S. Department of Labor about violations of the discrimination provisions of section 11 (c) of the Act (29 U.S.C. 660(c)); Federal standards promulgated subsequent to the agreement where necessary to protect employees, as in the case of temporary emergency standards promulgated under section 6(c) of the Act (29 U.S.C. 655(c)), in the issues covered under the plan and the agreement until such time as Tennessee shall have adopted equivalent standards in accordance with Subpart C of Part 1953 of this chapter; Standards in §§ 1910.13 through 1910.16 of this chapter which issues have been specifically excluded from coverage under the Tennessee plan; working conditions in railroads, except working conditions as to which other Federal agencies exercise statutory authority to prescribe or enforce standards or regulations affecting occupational safety and health; and investigations and inspections for the purpose of the evaluation of the Tennessee plan under section 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)). The Regional Administrator for Occupational Safety and Health will make a prompt recommendation for resumption of exercise of Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) whenever, and to the degree, necessary to assure occupational safety and health protection to employees in Tennessee.

(Secs. 8(g)(2), 18, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667).)

Signed at Washington, D.C., this 3rd day of August 1976.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.76-23732 Filed 8-12-76;8:45 am]

Title 32—National Defense

CHAPTER V—DEPARTMENT OF THE ARMY

PART 581—PERSONNEL REVIEW BOARDS

Army Discharge Review Board; Procedural Rules

The Army Discharge Review Board has revised its rules of procedure which presently appear in 32 CFR 581.2. The revised rules were effective on April 30, 1976 and will apply to all cases pending before the Army Discharge Review Board as well as to new appeals. These rules will revise the present coverage in 32 CFR 581.2.

Since the rules specify Agency procedure to be followed, notice of proposed rule making and the procedures thereto are not necessary.

Dated: July 29, 1976.

WILLIAM E. WEBER,
Colonel, Infantry, President, Army Discharge Review Board.

In consideration of the foregoing and for the reasons given by the authority of section 301, title I, act of 22 June 1944 (10 U.S.C. 1553), 32 CFR 581.2 is revised as follows:

§ 581.2 Army Discharge Review Board.

(a) Constitution, applicability, purpose, and jurisdiction.

(1) The Army Discharge Review Board (ADRB), an entity which may consist of such number of panels as the Secretary of the Army may deem necessary, is an administrative agency created within the Department of the Army, under authority of section 301, title I, act of June 22, 1944 (10 U.S.C. 1553) to review on its own motion or upon application by or on behalf of the individual concerned, the discharge or dismissal of former members of the Army. The scope of the inquiry of the ADRB will be to determine whether the discharge received was equitably and properly given. When the ADRB determines in an individual case that the discharge was not equitably and properly given, it is authorized, in the manner herein prescribed, to direct The Adjutant General to take appropriate action, that is, to change, correct, or modify any discharge or dismissal, and to issue a new discharge, such direction being subject to review and modification by the Secretary of the Army. Such remedial action is intended primarily to insure that no discharged or dismissed former member of the Army will be deprived unjustly of any benefit provided by law for former members of the military service by reason of a type of discharge or dismissal inequitably or improperly given.

(2) The ADRB will not review a discharge or dismissal given by reason of the sentence of general court-martial.

(3) The ADRB has no authority to revoke any discharge or dismissal, to reinstate any person in the military service subsequent to his discharge or dismissal, or to recall any person to active duty.

(b) Definitions. (1) ADRB. An administrative agency (entity) designated by the Secretary of the Army consisting of one or more panels.

(2) ADRB Panel. A panel consisting of five officers for the purpose of hearing a discharge review appeal. Panels are located at Washington, D.C. and at such field installations as designated by the Secretary of the Army.

(3) ADRB Field Panel. A panel located at fixed field installations as designated by the Secretary of the Army.

(4) ADRB Traveling Panel. A panel designated to hear a discharge review appeal at locations other than Washington, D.C. and the fixed field installations.

(5) ADRB Hearing Examiner. An experienced ADRB panel member designated to conduct a video tape hearing.

(6) President of the ADRB. An officer designated by the Secretary of the Army to control operations of the ADRB and its panels. Only the president of the ADRB will execute action under this regulation in the name of the Secretary. In the event of absence or inconvenience of the president of the ADRB, the next senior line officer member on the ADRB in Washington, D.C., will serve as acting president for all purposes.

(7) Presiding Officer. The senior line officer member of any ADRB panel convened by the president of the ADRB for the purpose of conducting hearings.

(8) Secretary-Recorder of the ADRB. An officer designated by the president of the ADRB performing the functions as directed, and with the authority to administer oaths in accordance with Article 136, Uniform Code of Military Justice.

(9) Alternate Secretary-Recorder. An officer designated by the president of the ADRB to exercise certain secretary-recorder functions for a panel of the ADRB.

V 41 1158 AUG 13 76 UMI

(10) Legal Advisor of the ADRB. An officer of the Judge Advocate General's Corps assigned to the ADRB to provide opinions and guidance on legal matters relating to ADRB functions.

(11) Medical Consultant of the ADRB. An officer of the Army Medical Corps assigned to the ADRB to provide opinions and guidance on medical matters relating the ADRB functions.

(12) Members of the ADRB. Officers assigned to or, when authorized by the Secretary of the Army upon request by the president of the ADRB, detailed by installation commanders to hear discharge review cases as scheduled by the president of the ADRB.

(13) Applicant. An ex-service member of the Army who, in accordance with statutory and regulatory provisions, requests to have an appeal heard by the ADRB.

(14) Counsel. Any individual designated by the applicant to represent him in his appeal before the ADRB or an accredited representative of an organization recognized by the Administration for Veterans Affairs, chapter 39, United States Code. Under no circumstances will counsel, compensation for counsel, or travel expenses for applicant or counsel be provided by agencies of the United States Army.

(15) Video Tape Hearing. A hearing conducted by an ADRB Hearing Examiner at which an applicant is given the opportunity to present his appeal to the Hearing Examiner, with the entire presentation, including cross-examination by the Hearing Examiner recorded on video tape. This video tape presentation is later displayed to an ADRB panel designated by the president of the ADRB. Video tape hearings shall be conducted only at the request of the applicant and with the concurrence of the president of the ADRB.

(c) Composition. (1) Members. (i) As designated by the Secretary of the Army, the ADRB will have one or more panels, each consisting of five officers with the senior line officer member of each panel acting as presiding officer.

(ii) The president of the ADRB is designated by the Secretary of the Army and is responsible for the operation of the ADRB and its panels. He will prescribe the operating procedures of the panels and schedule hearings by the panels.

(iii) For the purpose of maintaining the number of members needed to conduct hearings, additional members may be appointed to the ADRB by the Secretary or be detailed to a panel by an installation commander when requested by the president of the ADRB. In any proceeding a member who has not been present at prior sessions of a panel may participate thereafter if that member has read or has read to him the record of proceedings held during his absence of prior to his participation.

(2) Secretary-Recorder. (i) The secretary-recorder and designated alternate secretary-recorders shall have authority to administer oaths as granted in Article 136. Uniform Code of Military Justice, and shall perform such other duties as requested by the president of the ADRB. The secretary-recorder or alternate secretary-recorders will not serve as counsel for the applicant nor for the Government.

(ii) The alternate secretary-recorders of panels tenanted at installations outside the Washington, D.C., area shall, as directed by the president of the ADRB, cordinate the activities of panels conducting hearings at such installations and shall be suported by installation commanders as established by separate directive. The alternate secretary-recorders will report directly to the president of the ADRB.

(d) Administrative personnel. Such administrative personnel as are required for the proper functioning of the ADRB and its panels will be furnished by the Secretary of the Army or by installation commanders when so directed by the Secretary of the Army.

(e) Application for review. (1) The applicant will submit a written request for a review by the ADRB and such other statements or affidavits as he desires to present.

(2) The request will be made on a DD Form 293 (Application for Review of Discharge or Separation from the Armed Forces of the United States) which may be requisitioned through normal publications supply channels. When an individual is requested to complete DD Form 293, he will be given a copy of DD Form 293—Privacy Act Statement (fig. 1). DD Form 293—Privacy Act Statement will be reproduced on 8 x 10½ inch paper. The request will state in brief the full name, service number and/or social security number, and grade and organization or assignment at date of discharge of the period whose discharge or dismissal is in question; the date and place of discharge; the type and nature of the discharge or dismissal; the basis of the claim for review; what corrective action is desired of the ADRB; whether the applicant desires to be represented by counsel before a panel of the ADRB and, if so, the name and address of counsel so designated; and the address to which all correspondence in connection with the review is to be sent.

(3) The request will be signed by the former officer or enlisted man or woman or, if deceased, by the surviving spouse, next-of-kin, or legal representative. If former member is deceased, proof of death must accompany the request. If the applicant is mentally incompetent, his or her spouse, next-of-kin, or legal guardian will sign the request. Such requests must be accompanied by legal proof of the mental incompetency.

(4) No application for review will be granted unless received by the Department of the Army within 15 years after the date of the discharge or dismissal.

(5) The request for review will be forwarded to:

Commander, US Army Reserve Components Personnel & Administration Center, 9700 Page Boulevard, St. Louis, MO 63132.

(6) Upon receipt of an application, The Adjutant General will verify that the provisions of paragraphs (e) (2) and (3) of this section have been met. The Adjutant General will then assemble the originals or certified copies of all available Department of the Army records pertaining to the former service man or woman named in such application. Such records, together with the application and any supporting documents, will be transmitted to the president of the ADRB, Washington, D.C.

(f) Convening of a panel of the ADRB. (1) Panels located in Washington, D.C., will be convened at the call of the president of the ADRB. Panels designated to conduct hearings in other locations will convene at the time and place indicated by the president of the ADRB to consider cases directed to the panels by him in accordance with established procedures. Presiding officers may, when authorized by the president of the ADRB, modify the time and place of scheduled hearings, and will recess and adjourn the panels in accordance with established procedures.

(2) Panels of the ADRB will assemble in open or closed session for the consideration and determination of cases presented to them. Cases in which no request for either a personal or video tape hearing is made by the applicants will be considered only by a panel in Washington, D.C., in closed session on the basis of all documentary evidence presented to the ADRB, including any briefs submitted by the applicant. Cases in which the applicant has elected to present his appeal by means of a video tape hearing will be considered only by a panel in Washington, D.C., in closed session on the basis of the video tape and all documentary evidence presented to the ADRB, including any briefs submitted by the applicant.

(g) Hearings. (1) General. (i) An applicant, upon request, is entitled by law to appear before a panel of the ADRB in open session, either in person or by counsel of his selection. As used in this regulation, the term "counsel" will be construed to include members of the Federal bar in good standing, the bar of any State in good standing, accredited representatives of veterans' organizations recognized by the Veterans Administration under 72 Stat. 1238; 38 U.S.C. 3402 and such other persons not barred by law, regulations, or customs who, in the opinion of the panel, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses or compensation of counsel for the applicant be paid for by the Government.

(ii) An applicant may, upon request and for his own convenience, be offered an opportunity to appear by video tape hearing. The use of such video tape hearings is encouraged, in appropriate cases, since it does not require the applicant and his counsel to travel to the panel location. Video tape hearings will be conducted as directed by the president of the ADRB.

(iii) In every case in which either a personal or video tape hearing is requested, the ADRB will transmit to the applicant and to designated counsel for the applicant, if any, a written notice

stating the time and place of hearing. The record will contain evidence that written notice to the applicant and his counsel, if any, has been given.

(iv) An applicant who requests either a personal or video tape hearing and who, after being duly advised of the time and place of hearing, fails to appear without previous satisfactory arrangement with the ADRB will be considered as having waived his right of appearance. In such cases, the applicant's case will be presented only to a panel in Washington, D.C., and will be reviewed on the evidence contained in his military record or any other evidence which may have been provided by the applicant.

(2) Conduct of hearing. (i) Conduct of hearings will be in accordance with this regulation. Applicant and/or his counsel may have access to the records considered by the panel in the case except such classified material the disclosure of which would jeopardize defense interests of the United States. When necessary to acquaint the applicant with the substance of a document classified by intelligence agencies, the Assistant Chief of Staff for Intelligence, Department of the Army, on the request of the ADRB will prepare a summary of, or extract from the document, deleting all references to sources of information and other matter the disclosure of which, in his opinion, would be detrimental to the defense interests of the United States.

(ii) In the conduct of its inquiries, the ADRB and its panels will not be limited by the restrictions of common law rules of evidence.

(iii) In all cases in which the applicant appears in person or by video tape hearing, or in which counsel makes an appearance for the applicant, the president of the ADRB shall cause a sufficient record of the proceedings and testimony to be prepared.

(3) Witnesses. The testimony of witnesses may be presented either in person or by affidavits. If a witness testifies in person he will be subject to examination by members of the panel.

(4) Continuances. A panel may continue a hearing on its own motion. A request for continuance by or on behalf of the applicant may be granted at the discretion of the panel, if a continuance appears necessary to insure a full and fair hearing.

(5) Withdrawal. An applicant may withdraw his request for review at any time without prejudice.

(6) Expenses. Expenses incurred by the applicant, his witnesses, or in the procurement of their testimony, whether in person or by affidavit, will not be paid by the Government.

(7) Challenges. Challenges shall be for cause only and will be ruled on by the presiding officer, or the next senior line officer member if the presiding officer is challenged. Applicants who elect to appear by video tape hearing will be considered to have waived their right to challenges for cause.

(h) Finding and conclusion of a panel of the ADRB. (1) The panel will make a finding in closed session in each case as to whether the applicant was or was not properly discharged.

(2) On the basis of its finding in each case the panel, in closed session, will prepare a conclusion as to whether corrective action will be taken by the Department of the Army with respect to the discharge under consideration. No corrective action which exceeds the jurisdiction of the ADRB, as defined in paragraph (a), will be taken.

(3) The finding and conclusion of a majority of the panel will constitute the finding and conclusion of the panel.

(4) When in the judgment of the president of the ADRB, the finding and/or conclusion of a Field Panel of the ADRB may be contrary to law, regulation or policy, or may be inequitable or not supported by the evidence in the record of hearing, he will cause one of the following actions to be taken:

(i) Return the case to the Field Panel for a review and submission of detailed rationale.

(ii) Submit the case without comment to a Review Panel consisting of five officers in the grade of 0-6. This Review Panel will review the case and take one of the following actions:

(A) When the Review Panel determines that the Field Panel's finding and conclusion is contrary to law, regulation or policy, or is not supported by the evidence, the Review Panel shall submit an advisory opinion and rationale, and, by majority vote, shall submit a recommended finding and conclusion.

(B) When the Review Panel determines that the Field Panel's finding and conclusion was unanimous and is not contrary to law, regulation or policy, and is supported by the evidence, the Review Panel shall submit only an advisory opinion and rationale, including its judgment as to an equitable resolution.

(C) When the Review Panel determines that the Field Panel's finding and conclusion was not unanimous (whether a minority report was submitted or not) and is not contrary to law, regulation or policy, and is supported by the evidence, the Review panel shall submit an advisory opinion and rationale, including its judgment as to an equitable resolution, and, by unanimous vote, may submit a recommended finding and conclusion.

(iii) Upon receipt of the Review Panel's advisory opinion and rationale, and recommendations, the president of the ADRB may take action to approve or reject the Field Panel's finding and conclusion and, if rejected, substitute therefore the Review Panel's recommended finding and conclusion. In any case in which the Field Panel's finding and conclusion is not contrary to law, regulation or policy, and is supported by the evidence, and in which a minority report was submitted but the Review Panel did not, by unanimous vote, submit a recommended finding and conclusion, the complete case with the minority report and majority comments, together with the Review Panel's advisory opinion and rationale, shall be submitted by the president of the ADRB to the Office of the Secretary of the Army for final resolution.

(i) Minority reports. In case of a disagreement between members of a panel, a minority report may be submitted. The reasons for the minority report and majority comments will be submitted to the president of the ADRB. Minority reports submitted by Field Panels will be handled in accordance with paragraph (h)(4) of this section. Whenever a minority report is submitted by other than a Field Panel, the complete case with the minority report and majority comments shall be submitted by the president of the ADRB to the Office of the Secretary of the Army for final resolution.

(j) Directive to The Adjutant General. Except in minority report cases submitted to the Office of the Secretary of the Army for final resolution, the president of the ADRB will, in the name of the Secretary of the Army, issue a directive to The Adjutant General specifying the action to be taken as a result of the ADRB's review of discharge or dismissal of former members of the US Army. Presiding officers, other than the president of the ADRB, will not take the foregoing action. They will return the completed case to the president of the ADRB for final action.

(k) Record of proceedings. (1) When the proceedings in any case have been concluded, the secretary-recorder with the assistance of alternate secretary-recorders will prepare a complete record thereof. Such record will include the application for review, a record of the proceedings and testimony, if any, affidavits, papers, and documents considered by the ADRB, all briefs and written arguments filed in the case; the finding and conclusion of the panel of the ADRB; the directive to The Adjutant General, any minority report prepared by dissenting members of the panel; and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record so prepared will be signed by the president of the ADRB and authenticated by the secretary-recorder as being true and complete. In the event of the absence or incapacity of the secretary-recorder, the record may be authenticated by a designated alternate secretary-recorder.

(2) Release of information from such records will be in accordance with AR 340-17 and 340-21.

(l) Transmittal of records and action by The Adjutant General. Designated alternate secretary-recorders will forward cases heard by their panels, and as approved by the presiding officers, to the president of the ADRB for final disposition. Except in minority report cases submitted to the Office of the Secretary of the Army for final resolution, the record of the proceedings in each case will be transmitted by the secretary-recorder to The Adjutant General for appropriate Department of the Army action to carry out the directions of the ADRB. The Adjutant General will perform such administrative acts as may be necessary, and thereafter will notify the applicant and his counsel, if any, of the action taken. Written notice specifying the action taken and the date thereof will be

V 41 158 AUG 13 76 UMI

transmitted by The Adjutant General to the president of the ADRB to be filed as a part of the records of the ADRB pertaining to each case. The Adjutant General, upon written request from the applicant, his guardian, or legal representative, will furnish a copy of the directive to the Secretary of the Army, and a copy of the record of proceedings and testimony, if any, provided that such record of proceedings and testimony has been reduced to written form. If it should appear that furnishing a copy of the record of proceedings and testimony would prove injurious to the physical or mental health of the applicant, such information will be furnished only to the guardian or legal representative of the applicant.

(m) Consideration initiated by the ADRB. The president of the ADRB may, at any time, direct consideration of a case which appears, on the face of the record, likely to result in a decision favorable to the former member without the knowledge or presence of the former member. If, upon consideration by a panel, such a case does not result in a decision favorable to such member, it will be returned to the files with no formal action recorded and will be considered without prejudice if and when an appeal is made by the former member. If such consideration results in a decision favorable to the former member. The Adjutant General will be directed to notify the member at his last known address. Only the president of the ADRB may schedule the hearing of such cases.

(n) Rehearings. When a panel has formally considered the case of an applicant and its decision has been approved in the name of the Secretary of the Army, the ADRB will not grant a rehearing unless the basis of the request indicates material evidence, not available at the time of the original hearing, which will likely result in a decision contrary to that reached at the original hearing. The president of the ADRB will make the final determination pertaining to authorization of rehearing.

(o) Changes in procedure of the ADRB. The ADRB may initiate recommendation for such changes in procedures as established herein as may be deemed necessary for the proper functioning of the ADRB. Such changes will be subject to the approval of the Secretary of the Army. Panel presiding officers will submit each recommendation to the president of the ADRB.

(p) Army-Navy-Air Force coordination. Periodic liaison will be conducted with similar boards of the Navy and Air Force to exchange ideas and to discuss common problems.

(q) Applications. This regulation applies to the USAR and to the NG concerning those records of former members of the NG maintained by the Federal Government.

[FR Doc.76-23670 Filed 8-12-76;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 4—SCHEDULE FOR RATING DISABILITIES

Extension of Convalescent Rating Periods

On page 27086 of the FEDERAL REGISTER of July 1, 1976, there was published a notice of proposed regulatory development to amend Part 4 of Title 38, Code of Federal Regulations to extend the convalescent rating periods provided under §§ 4.29 and 4.30 and to make several editorial changes.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

Effective dates: An amendment to Appendix A, Table of Amendments and Effective Dates since 1946 is added to include effective dates. The effective date is August 9, 1976.

Approved: August 9, 1976.

R. L. ROUDEBUSH,
Administrator.

1. In § 4.29, paragraphs (a), (c) and (e) are revised, a new paragraph (f) is added and the present paragraph (f) is redesignated (g) so that paragraphs (a), (c), (e), (f) and (g) read as follows:

§ 4.29 Ratings for service-connected disabilities requiring hospital treatment or observation.

A total disability rating (100 percent) will be assigned without regard to the provisions of the rating schedule when it is established that a service-connected disability has required hospital treatment in a Veterans Administration or an approved hospital for a period in excess of 21 days or hospital observation at Veterans Administration expense for a service-connected disability for a period in excess of 21 days.

(a) Subject to the provisions of paragraphs (d), (e) and (f) of this section, this increased rating will be effective the first day of continuous hospitalization and will be terminated effective the last day of the month of hospital discharge (regular discharge or release to non-bed care) or effective the last day of the month of termination of treatment or observation for the service-connected disability or effective the last day of the month following release to non-bed care. A third consecutive authorized absence of 14 days will be regarded as the equivalent of hospital discharge and will interrupt hospitalization effective on the last day of the month in which the third 14 day period begins, except where there is a finding that convalescence is required as provided by paragraph (e) or (f) of this section. The termination of these total ratings will not be subject to § 3.105(e) of this chapter.

* * * * *

(c) The assignment of a total disability rating on the basis of hospital treatment or observation will not preclude the assignment of a total disability rating otherwise in order under the regular provisions of the rating schedule, and consideration will be given to the propriety of such a rating in all instances and to the propriety of its continuance after discharge. Particular attention, with a view to proper rating under the rating schedule, is to be given to the claims of veterans discharged from hospital, regardless of length of hospitalization, with indications on the final summary of expected confinement to bed or house, or to inability to work with requirement of frequent care of physician or nurse at home.

* * * * *

(e) The total hospital rating if convalescence is required may be continued for periods of 1, 2, or 3 months in addition to the period provided in paragraph (a) of this section.

(f) Extension of periods of 1, 2 or 3 months beyond the initial 3 months may be made upon approval of the Adjudication Officer.

(g) Meritorious claims of veterans who are discharged from the hospital with less than the required number of days but need post-hospital care and a prolonged period of convalescence will be referred to the Director, Compensation and Pension Service, under § 3.321(b) of this chapter.

2. Section 4.30 is revised to read as follows:

§ 4.30 Convalescent ratings.

(a) Subject to Veterans Administration regulations governing effective dates for increased benefits, where the report at hospital discharge indicates entitlement under paragraph (a) (1), (2) or (3) of this section, a total rating (100 percent) will be granted following hospital discharge (regular discharge or release to non-bed care), effective from the date of hospital admission and continuing for a period of 1, 2, or 3 months from the first day of the month following such hospital discharge. These total ratings will be granted if the hospital treatment of the service-connected disability resulted in

(1) Surgery necessitating posthospital convalescence. The initial grant of a total rating will be limited to 1 month, with one or two extensions of periods of 1 month each in exceptional cases.

(2) Surgery with severe postoperative residuals shown at hospital discharge, such as incompletely healed surgical wounds, stumps of recent amputations, therapeutic immobilization of one major joint or more, application of a body cast, or the necessity for house confinement, or the necessity for continued use of a wheelchair or crutches (regular weight-bearing prohibited). Initial grants may be for 1, 2, or 3 months.

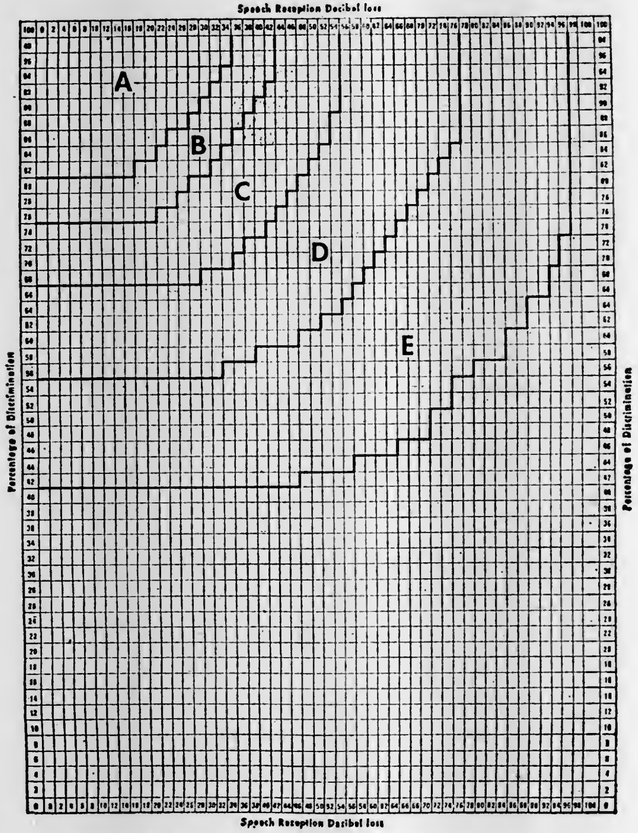
(3) Immobilization by cast, without surgery, of one major joint or more shown at hospital discharge or performed on an outpatient basis. Initial grants may be for 1, 2, or 3 months.

A reduction in the total rating will not be subject to § 3.105(e) of this chapter. The total rating will be followed by an open rating reflecting the appropriate schedular evaluation; where the evidence is inadequate to assign the schedular evaluation, a physical examination will be scheduled prior to the end of the total rating period.

(b) A total rating under this section will require full justification on the rating sheet and may be extended as follows:

(1) Extensions of 1, 2 or 3 months beyond the initial 3 months may be made under paragraph (a) (1), (2) or (3) of this section.

(2) Extensions of 1 or more months up to 6 months beyond the initial 6 months period may be made under paragraph (a) (2) or (3) of this section upon approval of the Adjudication Officer.



3. Section 4.83 is revised to read as follows:

§ 4.83 Ratings at scheduled steps and distances.

In applying the ratings for impairment of visual acuity, a person not having the ability to read at any one of the scheduled steps or distances, but reading at the next scheduled step or distance, is to be rated as reading at this latter step or distance. That is, a person who can read at 20/100 but who cannot read at 20/70 should be rated as seeing at 20/100.

4. Immediately following § 4.87, Tables IV and V are revised to read as follows:

TABLE IV

(This chart showing the literal designation of hearing loss is based on the ISO (ANSI) norm.) [ ]

V 41 158 AUG 13 76 UMI

TABLE V.—*Ratings for hearing impairment (with diagnostic code)*

Hearing in better ear			Hearing in poorer ear					
			Conversational voice in feet					
			0 ft	1 to 4 ft	5 to 7 ft	8 to 9 ft	10 to 14 ft	15 to 40 ft
			Pure tone audiometry decibel loss					
Conversational	Pure tone audiometry average decibel loss at 3 frequencies: 500, 1,000 and 2,000 (either air conduction or BSR)	Speech reception impairment literal designation	Average 100 or more	Average not more than 99; none more than 105	Average not more than 79; none more than 90	Average not more than 57; none more than 70	Average not more than 45; none more than 55	Average not more than 37; none more than 45
			Speech reception impairment literal designation					
			F	E	D	C	B	A
0 ft	Average 100 or more	F	[1] 80 (6277)					
1 to 4 ft	Average not more than 99; none more than 105.	E	60 (6278)	60 (6283)				
5 to 7 ft	Average not more than 79; none more than 90.	D	40 (6279)	40 (6284)	40 (6288)			
8 to 9 ft	Average not more than 57; none more than 70.	C	30 (6280)	30 (6285)	30 (6289)	20 (6292)		
10 to 14 ft	Average not more than 45; none more than 55.	B	20 (6281)	20 (6286)	20 (6290)	10 (6293)	10 (6295)	
15 to 40 ft	Average not more than 37; none more than 45.	A	10 (6282)	10 (6287)	10 (6291)	0 (6294)	0 (6296)	0 (6297)

[1] Entitled to special monthly compensation.

This chart is based upon ISO (ANSI) norm.

5. Section 4.115 is revised to read as follows:

§ 4.115 Nephritis.

Albuminuria alone is not nephritis, nor will the presence of transient albumin and casts following acute febrile illness be taken as nephritis. The glomerular type of nephritis is usually preceded by or associated with severe infectious disease; the onset is sudden, and the course marked by red blood cells, salt retention, and edema; it may clear up entirely or progress to a chronic condition. The nephrosclerotic type, originating in hypertension or arteriosclerosis, develops slowly, with minimum laboratory findings, and is associated with natural progress. Separate ratings are not to be assigned for disability from disease of the heart and any form of nephritis, on account of the close interrelationships of cardiovascular disabilities.

6. In § 4.115a, the note following diagnostic code 7500 is revised to read as follows:

§ 4.115a Schedule of ratings—genitourinary system.

DISEASES OF THE GENITOURINARY SYSTEM

7500 Kidney, removal of one, with nephritis, infection, or pathology of the other

* * * * *

NOTE.—The absence of one kidney prior to enlistment or the congenital nonfunctioning of one kidney will require a deduction of 30 percent from the 60 percent rating under Code 7500; when, under these circumstances, a total disability on the basis of unemployability is considered to exist, the claims folder will be referred to the Director, Compensation and Pension Service, under § 3.321(b) of this chapter.

* * * * *

7. Section 4.116 is revised to read as follows:

§ 4.116 Rating gynecological conditions.

In rating disability from gynecological conditions the following will not be considered as ratable conditions: (a) the natural menopause, (b) amenorrhea, when this is based upon developmental defect or abnormality, and (c) pregnancy and childbirth and their incidents, except surgical complications under certain circumstances. The surgical complications of pregnancy will not be held the result of service except when additional disability resulted from treatment therein or they are otherwise directly attributable to unusual circumstances of service. Congenital malformations are not ratable conditions. New growths are to be rated in accordance with the effect upon parts or organs involved whose function is impaired or whose resection or excision is indicated. The excision of uterus, ovaries, etc., prior to the natural menopause is considered disabling.

8. In § 4.116a, diagnostic codes 7624 and 7625 are revised to read as follows:

§ 4.116a Schedule of ratings—gynecological conditions.

* * * * *

7624 Fistula, rectovaginal
Rate as ano, fistula in, under diagnostic code 7335.

7625 Fistula, urethrovaginal
Rate as urethra, fistula of, under diagnostic code 7519.

* * * * *

9. Section 4.125 is revised to read as follows:

§ 4.125 General considerations.

The field of mental disorders represents the greatest possible variety of etiology, chronicity and disabling effects, and requires differential consideration in these respects. These sections under mental disorders are concerned with the rating of psychiatric conditions and specifically psychotic, psychoneurotic and psychophysiologic disorders, as well as mental disorders accompanying organic brain disease. Advances in modern psychiatry during and since World War II have been rapid and profound and have extended to the entire medical profession a better understanding of and deeper insight into the etiological factors, psychodynamics, and psychopathological changes which occur in mental disease and emotional disturbances. The psychiatric nomenclature employed is based upon the Diagnostic and Statistical Manual of Mental Disorders, 1968 Edition, American Psychiatric Association. This nomenclature has been adopted by the Department of Medicine and Surgery of the Veterans Administration. It limits itself to the classification of disturbances of mental functioning. To comply with the fundamental requirements for rating psychiatric conditions, it is imperative that rating personnel familiarize themselves thoroughly with this manual (American Psychiatric Association Manual, 1968 Edition) which will be hereinafter referred to as the APA manual.

10. Section 4.127 is revised to read as follows:

§ 4.127 Mental deficiency and personality disorders.

Mental deficiency and personality disorders will not be considered as disabilities under the terms of the schedule. Attention is directed to the outline of personality disorders in the APA manual. Formal psychometric tests are essential in the diagnosis of mental deficiency. Brief emotional outbursts or periods of confusion are not unusual in mental deficiency or personality disorders and are not acceptable as the basis for a diagnosis of psychotic reaction. However, properly diagnosed superimposed psychotic reactions developing after enlistment, i.e., mental deficiency with psychotic reaction or personality disorder with psychotic reaction, are to be considered as disabilities analogous to, and ratable as, schizophrenic reaction, unless otherwise diagnosed.

11. Section 4.130 is revised to read as follows:

§ 4.130 Evaluation of psychiatric disability.

The severity of disability is based upon actual symptomatology, as it affects social and industrial adaptability. Two of the most important determinants of disability are time lost from gainful work and decrease in work efficiency. The rating board must not underevaluate the emotionally sick veteran with a good work record, nor must it overevaluate his or her condition on the basis of a poor work record not supported by the psychiatric disability picture. It is for this reason that great emphasis is placed upon the full report of the examiner, descriptive of actual symptomatology. The record of the history and complaints

is only preliminary to the examination. The objective findings and the examiner's analysis of the symptomatology are the essentials. The examiner's classification of the disease as "mild," "moderate," or "severe" is not determinative of the degree of disability, but the report and the analysis of the symptomatology and the full consideration of the whole history by the rating agency will be. In evaluating disability from psychotic reactions it is necessary to consider, in addition to present symptomatology or its absence, the frequency, severity, and duration of previous psychotic periods, and the veteran's capacity for adjustment during periods of remission. Repeated psychotic periods, without long remissions, may be expected to have a sustained effect upon employability until elapsed time in good remission and with good capacity for adjustment establishes the contrary. Ratings are to be assigned which represent the impairment of social and industrial adaptability based on all of the evidence of record. Evidence of material improvement in psychotic reactions disclosed by field examination or social survey should be utilized in determinations of competency, but the fact will be borne in mind that a person who has regained competency may still be unemployable, depending upon the level of his or her disability as shown by recent examinations and other evidence of record.

APPENDIX A—TABLE OF AMENDMENTS AND EFFECTIVE DATES SINCE 1946

1. Section 4.29 is revised to read as follows:
4.29 Introductory portion preceding paragraph (a); March 1, 1963.

Paragraph (a) "first day of continuous hospitalization"; April 8, 1959.
Paragraph (a) "terminated last day of month"; December 1, 1962.
Paragraph (a) penultimate sentence; November 13, 1970.
Paragraph (b); April 8, 1959.
Paragraph (c); August 16, 1948.
Paragraph (d); August 16, 1948.
Paragraph (e); March 1, 1963.
Paragraph (f); August 9, 1976.

NOTE.—Application of this section to psychoneurotic and psychophysiologic disorders effective October 1, 1961.

2. Section 4.30 is revised to read as follows:
4.30 Introductory portion of paragraph (a) preceding subparagraph (1); July 6, 1950.

Paragraph (a) (1); June 9, 1952.
Paragraph (a) (2); June 9, 1952.
Paragraph (a) (3); June 9, 1952. Effective as to outpatient treatment March 10, 1976.
Paragraph (b) (1); March 1, 1963.
Paragraph (b) (2); August 9, 1976.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 599-5]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

New York State Implementation Plan; Correction

In FR Doc. 76-20979 appearing on pages 29817 and 29818 in the issue for Tuesday, July 20, 1976 make the following changes:

On page 29818 in column 2, the fifth through seventh lines of paragraph (c) (30) should be deleted and replaced with, "§§ 225.2(c) covering three power plants.".

On page 29818 in column 2, the third line of paragraph (c) (31) should read, "§§ 225.2(c) submitted on March".

Dated: August 6, 1976.

GERALD M. HANSLER,
Regional Administrator,
Environmental Protection Agency.

[FR Doc.76-23564 Filed 8-12-76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 76-754]

PART 1—PRACTICE AND PROCEDURE

Format for Briefs

1. Section 1.277 of the rules was recently amended to specify the format for briefs filed with the Commission and to provide that the exceptions and argument shall not exceed 50 double-spaced typewritten pages. (FCC 76-237, April 2, 1976, Docket 20626). To avoid confusion or mistake, it seems desirable to be more specific as to which of the contents of the brief are counted in determining compliance with the 50 page limit. We are therefore adding the following sentence to § 1.277(c): The table of contents and table of citations are not counted in the 50 page limit; however, all other contents of or attachments to the brief are counted.

2. The revised rule is set out in the attached Appendix. Authority for this rule is contained in sections 4(i) and (j) and 303(r) of the Communicatons Act of 1934, as amended, 47 U.S.C. 154(i) and (j) and 303(r). Because the amendment involves a matter of procedure, compliance with the prior notice and effective date provisions of 5 U.S.C. 553 is unnecessary.

3. Accordingly, *it is ordered*, effective August 20, 1976, That § 1.277 of the rules and regulations is amended as set out below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: August 5, 1976.

Released: August 12, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

In Part 1 of Chapter I of Title 47 of the Code of Federal Regulations, § 1.277 (c) is revised to read as follows:

§ 1.277 Exceptions; oral argument.

* * * * *

(c) Except by special permission, the consolidated brief and exceptions will not be accepted if the exceptions and argument exceed 50 double-spaced typewritten pages in length. (The table of contents and table of citations are not counted in the 50 page limit; however, all other contents of and attachments to the brief are counted.) Within 10 days, or such other time as the Commission may specify, after the time for filing exceptions has expired, any other party may file a reply brief, which shall not exceed 25 double-spaced typewritten pages. If exceptions have been filed, any party may request oral argument not later than five days after the time for filing replies to the exceptions has expired. The Commission in its discretion will, by order, grant or deny the request for oral argument. Within five days after release of the Commission's order designating an initial decision for oral argument, as provided in paragraph (d) of this section, any party who wishes to participate in oral argument shall file written notice of intention to appear and participate in oral argument; and failure to file written notice shall constitute a waiver of the opportunity to participate.

[FCC 76-756]

PART 1—PRACTICE AND PROCEDURE

Length of Pleadings

1. In a recent Report and Order in Docket 20626, we stated that "pleadings in excess of the prescribed length because of appendices and other * * * attachments will be returned without consideration." (58 FCC 2d 865, at para. 36). However, we failed to amend the pertinent provision of the rules (§ 1.48 (a)), which reads as follows:

(a) Affidavits, statements, and other materials which are submitted with and factually support a pleading are not counted in determining the length of the pleading. Other materials submitted with the pleading will be disregarded.

Affidavits and other materials factually supporting a pleading are often required or appropriately submitted for other reasons. It is not our intention that they be counted in determining the length of the pleading. However, other (argumentative) materials, in the form of affidavits or otherwise, will be counted in determining the length of the pleading; and if the length of the pleading, as so computed, is greater than permitted by the rules, the pleading and all attachments will be returned without consideration. Section 1.48(a) is amended herein to reflect this policy.

2. The amended rule is set out in the attached Appendix. Authority for the amendment is contained in sections 4(i) and (j) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and (j) and 303(r). Because the amendment involves a matter of procedure, compliance with the prior notice and effective date provisions of 5 U.S.C. 553 is unnecessary.

3. Accordingly, *it is ordered*, effective August 20, 1976, That § 1.48 of the rules and Regulations is amended as set out below.

V41158 AUG 13 76 UMI

(Secs. 4, 303, 48 Stat., as amended, 1066, filed 47 U.S.C. 184, 603.)

Adopted: August 5, 1976.

Released: August 12, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

In Part 1 of Chapter I of Title 47 of the Code of Federal Regulations, § 1.48(a) is revised to read as follows:

§ 1.48 Length of pleadings.

(a) Affidavits, statements, and other materials which are submitted with and factually support a pleading are not counted in determining the length of the pleading. If other materials are submitted with a pleading, they will be counted in determining its length; and if the length of the pleadings, as so computed, is greater than permitted by the provisions of this chapter, the pleading will be returned without consideration.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

[Docket No. 35867]

PART 1307—FREIGHT RATE TARIFFS, CLASSIFICATION OF MOTOR CARRIERS

PART 1310—FREIGHT RATE TARIFFS AND CLASSIFICATION OF MOTOR COMMON CARRIERS

Revision of Regulations for the Construction, Filing, and Posting of Tariffs of Common Carriers of Property by Motor Vehicle and Tariffs of Certain Common Carriers by Water

Correction

In FR Doc. 76-21147, appearing at page 30590 in the issue of Monday, July 26, 1976 make the following changes to the flush paragraph following § 1310.27(l)(6)(iv) on page 30630:

1. In the sixth line the reference "(A)" should read "(i)".
2. In the eighth line the reference "(B)" should read "(ii)".
3. In the twelfth line the reference "(C)" should read "(iii)".
4. In the fifteenth line the reference "(D)" should read "(iv)".

[Ex Parte No. 277 (Sub No. 3)]

PART 1124—REGULATIONS GOVERNING THE ADEQUACY OF INTERCITY RAILROAD PASSENGER SERVICE

Smoking

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 11th day of August, 1976.

Upon consideration of the record in the above-entitled proceeding including the report and order of the Commission entered March 29, 1976, the petition for reconsideration filed June 8, 1976, by the National Railroad Passenger Corporation and the reply to said petition filed July 6, 1976, by Action on Smoking and Health; and

It appearing, that in the said report and order, the Commission issued modifications of the Regulations Governing the Adequacy of Intercity Railroad Passenger Service, 49 CFR 1124.1 through 1124.28; that among other things, the report and order modified the regulations concerning smoking on board passenger trains, required carriers to provide a summary of rights to passengers which shall be printed either on the standard ticket envelope provided to ticket purchasers or on a separate sheet enclosed therein and required all cars to carry first aid kits; and that the National Railroad Passenger Corporation (Amtrak) seeks reconsideration of these regulations;

It further appearing, that the regulations as modified by said report and order prohibit smoking in any dining car; that in its petition Amtrak contends that said prohibition is likely to deter potential customers and may result in passenger resentment to the enforcement of this regulation; that, as asserted in said report and order, we do not believe that such prohibition will cause undue hardship to the smoking passenger in comparison to the discomfort suffered by the non-smoking passenger if the Amtrak proposal was adopted; and that accordingly Amtrak's request concerning dining cars should be denied;

It further appearing, that the regulation adopted by said report and order permitted smoking in a ratio of up to one smoking parlor or dome car for every nonsmoking parlor or dome car in the consist; that in this petition Amtrak states that all of its equipment containing dome space is either a diner, lounge, sleeper or coach car; that Amtrak believes that smoking should be prohibited or permitted in dome space based on the designation of the underlying car; that dome space may well be frequented by persons interested in an enhanced view of the scenery for a lengthy period of time; that if there is only one car in the consist with dome space, permitting smoking may deter nonsmoking passengers from availing themselves of such space; and that Amtrak's proposal concerning dome space should be denied;

It further appearing, that Amtrak asserts in its petition that it does not operate more than one parlor car on any of its trains; that the effect of the regulation concerning parlor cars effectively prohibits smoking by passengers in parlor car accommodations; that me believe, because of the relatively few persons who utilize parlor car accommodations, permitting smoking in such cars would not unduly burden the nonsmoking passenger and would enable smokers to purchase first class accommodations; and that parlor cars should be deleted from regulation 21(b)(3) and inserted in regulation 21(b)(1);

It further appearing, that Amtrak requests that the dissemination of passenger rights be accomplished by posting notices in cars or by publishing them in time tables and that first aid kits be made available only in food service cars;

It further appearing, that Amtrak fails to set forth any substantive arguments for modification of the method of dissemination of the summary of passenger rights and the requirement for first aid kits to be placed in all cars, and, therefore, the request for such modifications should be denied;

It further appearing, that in order to make clear as to what type of food service car regulation 21(b)(2) refers, the words "full service" should be added to that regulation before the words "dining cars";

It further appearing, that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It is ordered, That, except to the extent granted, the petition be, and it is hereby, denied;

It is further ordered, That 49 CFR 1124.21 should be modified to read as follows:

§ 1124.21 Allocation of space for nonsmokers and smokers.

(a) Smoking shall not be permitted on trains except in appointed areas with fire resistant materials and equipped with ventilation systems adequate to exchange air completely in reasonably short periods of time.

(b) On train cars meeting the above requirements, smoking may be permitted as follows:

(1) Smoking may be permitted in private sleeping cars, snack cars, parlor cars, and lounge cars.

(2) Smoking is not permitted in any full service dining car.

(3) Smoking may be permitted in any other car in a ratio of up to one smoking car for every nonsmoking car of its type in the consist. Unreserved coach, reserved coach, and dome cars shall each be considered a separate "type" of car.

(4) Pipe and cigar smoking is not permitted on board trains except in private sleeping cars and in cars which have been designated as smoking areas in their entirety.

(c) Each car shall be clearly designated as smoking or nonsmoking by placards placed in conspicuous locations.

It is further ordered, That this order shall be effective August 13, 1976.

It is further ordered, That notice of this order shall be given the general public by depositing a copy thereof in the office of the Secretary of the Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission, Commissioner Brown[1], dissenting in part, separate expression; Commissioners Murphy and Corber not participating.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-23918 Filed 8-12-76;10:58 am]

[1] Dissenting statement filed as part of the original.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Parts 1 and 101]

GENERAL PROVISIONS

Operations

Notice is hereby given that under the authority of 5 U.S.C. 301, R.S. 251, as amended (19 U.S.C. 66), 77A Stat. 14 (19 U.S.C. 1202, Gen. Hdnote 11), sec. 624, 46 Stat. 759 (19 U.S.C. 1624), 79 Stat. 1317 (Reorganization Plan 1 of 1965), it is proposed to revise the Customs Regulations, presently set forth in Part 1, which set forth general provisions relating to the operations of the United States Customs Service.

This proposed revision is part of the general revision of the Customs Regulations, and will replace Part 1 with a new Part 101. Part 101 follows a new format, and contains changes or additions in language to clarify the former provisions. The principal changes in the provisions of proposed Part 101 from those presently set forth in Part 1 are as follows:

1. A new § 101.0 outlines the scope of the proposed new part.

2. Section 101.1 revises various definitions used in Chapter I of Title 19, Code of Federal Regulations.

3. Section 101.8 specifies the addresses of the several Customs laboratories, as updated by Treasury Decision 74-20.

4. Section 101.9 incorporates in the text certain national holidays formerly enumerated in footnote 10, under § 1.7(a).

5. Section 101.10, relating to the Customs seal, incorporates the current description of the Customs seal as set forth in Treasury Decision 74-181.

Also included as part of the proposed revision is a parallel reference table showing the relationship of the proposed provisions of Part 101 to those presently in 19 CFR Part 1.

Accordingly, it is proposed to amend the Customs Regulations as set forth below:

1. Chapter I of Title 19, Code of Federal Regulations, is amended by deleting Part 1.

2. Chapter I of Title 19, Code of Federal Regulations, is amended by adding a new part, Part 101, to read as follows:

PART 101—GENERAL PROVISIONS

Sec.
101.0 Scope.
101.1 Definitions.
101.2 Authority of Customs officers.
101.3 Customs regions, districts and ports.
101.4 Entry and clearance of vessels at Customs stations.
101.5 Customs preclearance offices in foreign countries.
101.6 Assignment of Customs regions to regional directors, internal affairs.
101.7 Office of Investigations.
101.8 Customs laboratories.
101.9 Hours of business.
101.10 Customs seal.
101.11 Identification cards.

AUTHORITY: R.S. 251, as amended, sec. 624, 46 Stat. 759, 77A Stat. 14, 79 Stat. 1317; 5 U.S.C. 301, 19 U.S.C. 66, 1202 (Gen. Hdnote 11), 1624, Reorganization Plan 1 of 1965; 3 CFR 1965 Supp. Additional authority and statutes interpreted or applied are cited in the text or following the section affected.

§ 101.0 Scope.

This part sets forth general regulations governing the authority of Customs officers, and the location of Customs regions, districts, and ports of entry, and of Customs stations. It further sets forth regulations concerning the entry and clearance of vessels at Customs stations, a listing of Customs preclearance offices in foreign countries, a listing of regional directors of internal affairs and the regions they service, as well as a listing of the domestic field offices and foreign offices of the Office of Investigations. In addition, this part lists the various Customs laboratories and their loctions, and contains provisions concerning the hours of business of Customs offices, the Customs seal, and the identification cards issued to Customs officers and employees.

§ 101.1 Definitions.

As used in this chapter, the following terms shall have the meanings indicated unless either the context in which they are used requires a different meaning or a different definition is prescribed for a particular part or portion thereof:

(a) *Area.* "Area" refers to any of the three administrative areas created in the Customs district of New York City, New York, which is coextensive with Customs Region II, New York City, New York, and identified as Kennedy Airport Area, Newark Area, and New York Seaport Area, each of which is under the jurisdiction of an area director of Customs.

(b) *Customs district.* A "Customs district" is the geographical area under the jurisdiction of a district director of Customs.

(c) *Customs region.* A "Customs region" is the geographical area under the jurisdiction of a regional commissioner of Customs.

(d) *Customs station.* A "Customs station" is any place, other than a port of entry, at which Customs officers or employees are stationed, under the authority contained in article IX of the President's Message of March 3, 1913 (T.D. 33249), to enter and clear vessels, accept entries of merchandise, collect duties, and enforce the various provisions of the Customs and navigation laws of the United States.

(e) *Customs territory of the United States.* "Customs territory of the United States" includes only the States, the District of Columbia, and Puerto Rico.

(f) *Date of entry.* The "date of entry" or "time of entry" of imported merchandise shall be the effective time of entry of such merchandise, as defined in § 141.68 of this chapter.

(g) *Date of exportation.* "Date of exportation" or "time of exportation" shall be as defined in § 152.1(c) of this chapter.

(h) *Date of importation.* "Date of importation" means, in the case of merchandise imported otherwise than by vessel, the date on which the merchandise arrives within the Customs territory of the United States. In the case of merchandise imported by vessel, "date of importation" means the date on which the vessel arrives within the limits of a port in the United States with intent then and there to unlade such merchandise.

(i) *Duties.* "Duties" means Customs duties and any internal revenue taxes which attach upon importation.

(j) *Entry or withdrawal for consumption.* "Entry or withdrawal for consumption" means entry for consumption or withdrawal from warehouse for consumption.

(k) *Importer.* "Importer" means the person primarily liable for the payment of any duties on the merchandise, or an authorized agent acting on his behalf. The importer may be:

(1) The consignee, or
(2) The importer of record, or
(3) The actual owner of the merchandise, if an actual owner's declaration and superseding bond has been filed in accordance with § 141.20 of this chapter, or
(4) The transferee of the merchandise, if the right to withdraw merchandise in a bonded warehouse has been transferred in accordance with subpart C of Part 144 of this chapter.

(l) *Port and port of entry.* The terms "port" and "port of entry" refer to any place designated by Executive order of the President, by order of the Secretary of the Treasury, or by Act of Congress, at which a Customs officer is authorized to accept entries of merchandise to collect duties, and to enforce the various provisions of the Customs and navigation laws. The terms "port" and "port of entry" incorporate the geographical area under the jurisdiction of a port director

V 41 1158 AUG 13 76 UMI

when such port is one other than a district headquarters port. (The Customs District of the Virgin Islands, although under the jurisdiction of the Secretary of the Treasury, has its own Customs laws (48 U.S.C. 1406(l)). This district, therefore, is outside the Customs territory of the United States and the ports thereof are not "ports of entry" within the meaning of these regulations.)

(m) *Principal field officer.* A "Principal field officer" is an officer in the field service whose immediate supervisor is located at Customs Service Headquarters.

§ 101.2 Authority of Customs officers.

(a) *Supremacy of delegated authority.* Action taken by any person pursuant to authority delegated to him by the Secretary of the Treasury, whether directly or by subdelegation, shall be valid despite the existence of any statute or regulation, including any provision of this chapter, which provides that such action shall be taken by some other person. Any person acting under such delegated authority shall be deemed to have complied with any statute or regulation which provides or indicates that it shall be the duty of some other person to perform such action.

(b) *Consolidation of functions.* Any reorganization of the Customs Service or consolidation of the functions of two or more persons into one office which results in the failure of a designated customs officer to perform an action required by statute or regulation, shall not invalidate the performance of that action by any other Customs officer.

§ 101.3 Customs regions, districts and ports.

(a) *Redesignation of Customs districts and ports of entry.* The Assistant Secretary of the Treasury for Enforcement, Operations, and Tariff Affairs, pursuant to authority delegated to him by the Secretary of the Treasury, is authorized from time to time, as the needs of the Customs Service may require, to rearrange or consolidate the Customs districts, to discontinue ports of entry by abolishing them and establishing others in their place, and to change the location of the headquarters in any Customs district as the needs of the Customs Service may require.

(b) *Customs regions, districts and ports of entry listed.* The following is a list of Customs regions and districts, with a list of the ports in each district. (The Customs region of New York City, New York, is coextensive with the Customs district of New York City, New York). The first-named port in each district, listed in capital letters, is the headquarters port. Many of the ports listed were created by the President's message of March 3, 1913, concerning a reorganization of the Customs Service pursuant to the Act of August 24, 1912 (37 Stat. 434; 19 U.S.C. 1). Subsequent orders of the President or of the Secretary of the Treasury which affected these ports, or which created (or subsequently affected) additional ports, are cited in parentheses following the name of the ports.

§ 101.4 Entry and clearance of vessels at Customs stations.

(a) *Entry at Customs station.* A vessel shall not be entered or cleared at a Customs station, or any other place that is not a port of entry, unless entry or clearance is authorized by the district director for the district in which such station or place is located pursuant to the provisions of section 447, Tariff Act of 1930, as amended (19 U.S.C. 1447).

(b) *Authorization to enter.* Authorization to enter or be cleared at a Customs station shall be granted by the district director for the district in which such station or place is located provided the district director is notified in advance of the arrival of the vessel concerned and the following conditions are met:

(1) Such Customs supervision as may be necessary can be provided,

(2) All applicable Customs and navigation laws and regulations are complied with,

(3) The owner, master or agent of a vessel sought to be entered at a Customs station reimburses the Government for the salary and expenses of the Customs officer or employee stationed at or sent to such Customs station or other place which is not a port of entry for services rendered in connection with the entry or clearance of such vessel, and

(4) Except as otherwise provided by these regulations, the Government is reimbursed by the interested parties for the expenses, including any per diem allowed in lieu of subsistence, but not the salary of a Customs officer or employee for services rendered in connection with the entry or delivery of merchandise.

(c) *Customs stations designated.* The Customs stations and the ports of entry having supervision thereof are listed below:

(b) *Customs foreign offices.* The Customs foreign offices are as follows:

Foreign office	Address	Area of jurisdiction
Montreal, Canada	Senior Customs Representative, American Consulate General, Montreal, Canada, 1558 McGregor Ave., Montreal 109, P.Q., Canada.	(Domestic offices may conduct investigations in Canada subject to such coordination procedures as may be established by the Foreign Investigations Branch, Headquarters.)
Taipei, Taiwan, China, Republic of.	Customs Attache, American Embassy, Box 2, APO San Francisco, Calif. 96263.	Taiwan.
London England	Customs Attache, American Embassy, Box 40, FPO New York, N.Y. 09510.	Gibraltar, Iceland, Ireland, and the United Kingdom, including Channel Islands.
Paris, France	Customs Attache, American Embassy, D. Building, Room 211, APO New York, N.Y. 09777.	Belgium, France, including Corsica, Luxembourg, Monaco, the Netherlands, Portugal, and Spain.
Bonn, Germany	Customs Attache, American Embassy, Box 100, APO New York, N.Y. 09080.	Austria, Czechoslovakia, Denmark, East Germany, Finland, Liechtenstein, Norway, Poland, Sweden, Switzerland, the Union of Soviet Socialist Republics, and West Germany, including West Berlin.
Frankfurt Germany	Senior Customs Representative, American Consulate General, APO New York, N.Y. 09757.	
Hong Kong, British Crown Colony.	Senior Customs Representative, American Consulate General, Box 30, FPO San Francisco, Calif. 96659.	Australia, Ceylon, Hong Kong, Malay Archipelago, including Malaysia, the Philippines, and Indonesia, New Zealand, and all of the Asian continent east of the border of Iran with the Union of Soviet Socialist Republics, Afghanistan, and Pakistan, and nearby islands politically part of states thereon, except for South Korea and the eastern portion of the Union of Soviet Socialist Republics.
Rome, Italy	Customs Attache, American Embassy, APO New York, N.Y. 09794.	Albania, Bulgaria, Cyprus, Greece, including Crete, Hungary, Italy, including Sardinia and Sicily, Malagasy Republic, Malta, Romania, Yugoslavia, all of the African continent and nearby islands politically part of states thereon, and all of the Asian continent west of the border of Iran with the Union of Soviet Socialist Republics, Afghanistan, and Pakistan, including Asia Minor (Turkey), the Arabian Peninsula, and nearby islands politically part of states thereon.
Tokyo, Japan	Customs Attache, American Embassy, APO San Francisco, Calif. 96503.	Japan, including Ryukyu Islands.
Mexico City, Mexico	Customs Attache, American Embassy, Room 353, Apartado Postal 88-bis, Mexico, D.F., Mexico 20521.	Central America, Mexico, and South America (Domestic offices may conduct investigations in Mexico subject to such coordination procedures as may be established by the Foreign Investigations Branch, Headquarters.).

§ 101.8 Customs laboratories.

The addresses of the several Customs laboratories and the Customs regions they serve are as follows:

Address and Region

408 Atlantic Ave., Boston, Mass. 02210—I.
201 Varick St., New York, N.Y. 10014—II.
103 South Gay St., Baltimore, Md. 21202—III.
P.O. Box 2112, U.S. Customhouse, San Juan, P.R. 00903—IV.
Customhouse, 1-3 East Bay St., Savannah, Ga. 31401—IV.
423 Canal St., New Orleans, La. 70130—V, VI.
301 Broadway, San Antonio, Tex. 78205—VI.
300 South Ferry St., San Pedro, Calif. 90731—VII.
630 Sansome St., San Francisco, Calif. 94111—VIII.
610 South Canal St., Chicago, Ill. 60607—IX.

§ 101.9 Hours of business.

Except as specified in paragraphs (a)–(g) of this section, each Customs office shall be open for the transaction of general Customs business between the hours of 8:30 a.m. and 5 p.m. on all days of the year:

(a) *Saturdays, Sundays and national holidays.* In addition to Saturdays, Sundays, and any other calendar day designated as a holiday by Federal statute or Executive order, Customs offices shall be closed on the following national holidays:

(1) The first day of January.
(2) The third Monday of February.
(3) The last Monday of May.
(4) The fourth day of July.
(5) The first Monday of September.
(6) The second Monday of October.
(7) The fourth Monday of October.
(8) The fourth Thursday of November.
(9) The twenty-fifth day of December.

If a holiday falls on Saturday, the day immediately preceding such Saturday will be observed. If a holiday falls on Sunday, the day immediately following such Sunday will be observed. (5 U.S.C. 6103(b)(1); (E.O. No. 11582, January 1, 1971; 34 FR 2957; 3 CFR Ch. 11)

(b) *Local conditions requiring different hours.* If, because of local conditions, different but equivalent hours are required to maintain adequate service, such hours shall be observed provided the Commissioner of Customs approves them and provided further that a notice of business hours is prominently displayed at the principal entrance and in each public room of the Customs office.

(c) *Fixing of hours.* At each port or station where there is no full-time Customs employee, the appropriate district director shall, with the approval of the regional commissioner of Customs, fix the hours during which the Customs office will be open for the transaction of general Customs business. Notice of such hours shall be prominently displayed at the principal entrance of the office.

(d) *State and local holidays.* Each Customs office shall be open for the transaction of business on all state and local holidays occurring on days other than Saturdays, Sundays, and national holidays listed in paragraph (a) of this section. The appropriate principal field officer may excuse any employee(s) without charge to leave when a state or local holiday interferes with the performance of his work in a Customs office.

(e) *Services performed outside a Customs office.* Customs services required to be performed outside a Customs office shall be furnished between the hours of 8 a.m. and 5 p.m. (or between the corresponding hours at ports where different but equivalent hours are required for the maintenance of adequate service and are approved by the Commissioner of Customs) on all days when the Customs office is open for the transaction of general Customs business. The regional commissioner of Customs shall, from time to time, and upon reasonable advance notice to the principal local officer concerned, issue instructions for the furnishing of such services on Saturdays.

(f) *Customs services not within prescribed hours.* Where there is a regularly recurring need for Customs services outside the hours prescribed in paragaphs (a)–(e) of this section and the volume and duration of the required services are uniformly such as to require, of themselves or in immediately consecutive combination with other essential Customs activities of the port, the full time of one or more Customs employees, the necessary number of regular tours of duty to furnish such services on all days of the year except Sundays and national holidays may be established with the approval of the Commissioner of Customs.

(g) *Customs services furnished private interests.* Other than as specified in this section, Customs services shall be furnished private interests only in accordance with the provisions of section 24.16 of this chapter.

§ 101.10 Customs seal.

(a) *Design.* According to the design furnished by the Department of the Treasury, the Customs seal of the United States shall consist of the seal of the Department of the Treasury surrounded by an outer circle in which appear the words "Treasury" at the top and "U.S. Customs Service" at the bottom.

(b) *Use of the Customs seal.* The Customs seal currently in official use, including the dies, rolls, plates, and like devices now in the possession of the Bureau of Engraving and Printing, shall continue to be equally effective as the official seal of the United States Customs Service and shall continue to be so used by each Customs officer and employee having possession of the seal until that particular device requires replacing and is replaced. Use of the United States Customs seal shall be restricted in the following manner:

(1) The Customs seal of the United States shall be impressed upon all official documents requiring the impress of a seal. It shall be impressed upon all marine documents and landing certificates, certificates of weight, gauge, or measure, and similar classes of documents for outside interests.

(2) The impress of the seal is not necessary on documents passing within the Customs Service nor shall the seal be used in the manner of a notary seal to indicate authority to administer oaths.

§ 101.11 Identification cards.

Each Customs employee shall be issued an appropriate identification card with that employee's photograph and signature, signed by the appropriate issuing officer.

Prior to the adoption of this revision, consideration with be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Attention: Regulations Devision, Washington, D.C. 20229, and received on or before October 12, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with section 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, United States Customs Service, Headquarters, Washington, D.C., during regular business hours.

VERNON D. ACREE,
Commissioner of Customs.

Approved: August 3, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[19 CFR Parts 18, 123, 144]

TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT, CUSTOMS RELATIONS WITH CANADA AND MEXICO, AND WAREHOUSE AND REWAREHOUSE ENTRIES AND WITHDRAWALS

Proposed Amendments

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), sections 552, 553, 557, 623, 624, 46 Stat. 742, as amended, 744, as amended, 759, as amended (19 U.S.C. 1552, 1553, 1557, 1623, 1624), it is proposed to amend Parts 18, 123, and 144 of the Customs Regulations (19 CFR Parts 18, 123, 144) to set forth new procedures in connection with the transportation of bonded merchandise.

Currently, the Customs Regulations do not specifically provide for the time of receipt, delivery, or notification of arrival of merchandise transported in bond, with the exception of transit air cargo and merchandise being transported for exportation (§§ 6.21 and 18.20 of the Customs Regulations, respectively). The resulting lack of control over the movement of bonded merchandise jeopardizes the security of such merchandise.

In order to achieve more control over the movement of bonded merchandise it is proposed to make the following amendments to the Customs Regulations.

It is proposed to amend § 18.2(a) of the Customs Regulations to provide that within five days after the presentation of an entry for merchandise to be transported in bond, the forwarding carrier must take receipt of the merchandise, provided that any lay order period and extension thereof have expired and that no other entry is filed. If the forwarding carrier fails to take receipt of the merchandise within the prescribed period, the transportation entry shall be canceled and the merchandise shall be treated as unclaimed as of the date of original arrival. This proposal will prevent the use of a transportation entry to hold merchandise at the importation site after the expiration of the lay order period (§ 4.37 of the Customs Regulations).

It is proposed to amend §18.2(c) of the Customs Regulations to provide that, except for transit air cargo provided for in § 6.21 of the Customs Regulations, bonded merchandise destined to a final port of destination in the United States, or for export from the United States, shall be delivered to Customs at its port of destination or exportation within 30 days after the date of receipt by the forwarding carrier at the port of origin. Failure to deliver such merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to the penalties therefor (section 18.8 of the Customs Regulations). This proposal will give Customs officers a standard to use in determining when an irregular delivery occurs. Certain editorial changes to § 18.2(c) of the Customs Regulations are also proposed.

It is proposed to amend §§ 18.2(d) and 18.7(a) of the Customs Regulations to provide that promptly, but no more than 72 hours, exclusive of Saturdays, Sundays, and national holidays, after the arrival of bonded merchandise at the port of destination (or delivery of bonded merchandise to the exporting carrier at the port of exportation, in the case of § 18.7(a)), the delivering carrier shall surrender the in-bond manifest (the appropriate Customs Form 7512 or 7520, or the TIR carnet, and related Customs Form 7512–C (destination)) to the district director as notice of arrival of the merchandise. If the in-bond manifest is lost in transit, the in-bond carrier shall report the arrival of the merchandise within the prescribed period and shall be responsible for obtaining copies of the original in-bond manifest. Failure to surrender the in-bond manifest or report the arrival of bonded merchandise within the specified period shall constitute an irregular delivery and the initial bonded carrier shall be subject to the penalties therefor (section 18.8 of the Customs Regulations). This proposal will make the beginning of the lay order period more closely coincide with the actual time of arrival of the bonded merchandise at the port of destination or exportation, instead of allowing the beginning of that period to be unnecessarily delayed by a failure of the carrier or broker to promptly report the arrival of the merchandise.

In order to help establish uniformity in Customs transactions with carriers of bonded merchandise, and to provide more control over the improper handling of such merchandise at its port of destination or exportation, it is proposed to amend § 18.8 of the Customs Regulations to provide that the only acceptable proof of proper delivery of bonded merchandise to Customs at the port of des-

V 41 158 AUG 13 76 UMI

tination or exportation shall be a properly receipted copy of the in-bond document (the appropriate Customs Form 7512 or 7520, or the TIR carnet). In addition, several editorial changes to § 18.8 (a) of the Customs Regulations are proposed.

The revised in-bound control system has required changes in the Customs control card (Customs Form 7512–C, Transportation Entry and Manifest of Goods). Inasmuch as the Customs Regulations do not presently provide who shall prepare this form, it is proposed to amend § 18.2 (b) of the Customs Regulations to provide that it shall be prepared by the carrier or shipper whenever merchandise is being transported in bond.

The Customs Form 7512–C previously used was a two-part carbon set. Both parts were the same. The new Customs Form 7512–C is also a two-part carbon set but the two parts are not the same. Accordingly, it is proposed to delete the words "in duplicate" after the words "Customs Form 7512–C" wherever they appear in the Customs Regulations and to substitute the word "destination" for "duplicate" wherever that word appears in the Customs Regulations in reference to the second part of Customs Form 7512–C.

The proposed amendments will, if adopted, apply to merchandise in transit through the United States to foreign countries (§§ 18.20–18.24 of the Customs Regulations) and merchandise withdrawn from warehouse for transportation or transportation and exportation (§§ 144.36 and 144.37(b) of the Customs Regulations) because §§ 18.20(c), 144.36(f), and 144.37(b)(1) of the Customs Regulations incorporate by reference the general provisions for transportation in bond (§§ 18.1–18.8 of the Customs Regulations). In addition, the amendments will, if adopted, apply to baggage in transit from port to port in Canada or Mexico through the United States because § 123.64(a) of the Customs Regulations states that such baggage may be transported in bond through the United States in accordance with the procedures in §§ 18.13, 18.14, and 18.20–18.24 of the Customs Regulations except where modified by § 123.64. Section 18.20 of the Customs Regulations, as noted above, incorporates by reference the general provisions for transportation in bond (§§ 18.1–18.8 of the Customs Regulations).

Because the time limits proposed in §§ 18.2(a), (c), and (d) of the Customs Regulations will, if adopted, also apply to merchandise in transit through the United States to foreign countries (§§ 18.20–18.24 of the Customs Regulations) it is proposed to amend § 18.20(c) of the Customs Regulations by deleting the sentence "If the merchandise is not forwarded within 30 days from the date the entry is filed, the entry shall be canceled and the merchandise treated as unclaimed as of the date of original arrival."

It is proposed to make the in-bond control system apply to truck shipments transiting the United States. To accomplish this, it is proposed to amend § 123.4 of the Customs Regulations to provide that except as otherwise provided in that section, merchandise transported in such trucks shall be forwarded in accordance with the general provisions for transportation in bond (§§ 18.1–18.8 of the Customs Regulations).

Accordingly, it is proposed to amend Parts 18, 123, and 144 of the Customs Regulations (19 CFR Parts 18, 123, 144) in the manner set forth below:

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

It is proposed to amend paragraph (a), the first sentence of paragraph (b), and paragraph (c) and (d) of § 18.2 to read as follows:

§ 18.2 Receipt by carrier; manifest.

(a) (1) Within five working days after the presentation of an entry for merchandise to be transported in bond, the forwarding carrier must take receipt of the merchandise; *Provided*, That any lay order period and extension thereof have expired and that no other entry is filed. If the forwarding carrier fails to take receipt of the merchandise within the prescribed period, the transportation entry shall be canceled and the merchandise shall be treated as unclaimed as of the date of original arrival.

(2) When merchandise is delivered to a bonded carrier for transportation in bond, the merchandise shall be laden on the conveyance under the supervision of a Customs officer unless the transporting conveyance is not to be sealed with Customs seals or the lading inspector accepts the check of the carrier as to the merchandise laden thereon. The carrier's receipt shall be given immediately to the lading inspector on the Customs in-bond document (the appropriate Customs Form 7512 or 7520, or the TIR carnet) covering the merchandise. In the case of a TIR carnet, the receipt shall be given on the appropriate vouchers in the following form:

Received the cargo listed herein for delivery to Customs at the indicated port of destination or exportation, or for direct exportation.

Name of Carrier (or Exporter)

Attorney or Agent of Carrier (or Exporter)

Date

(b) A Customs in-bond document containing a description of the merchandise and Customs control card (Customs Form 7512–C) shall be prepared by the carrier or shipper whenever merchandise is being transported in bond. The Customs in-bond document shall be signed by the agent of the carrier. • • •

(c) (1) After the merchandise has been laden and the in-bond carrier or his agent has receipted the in-bond document, either Customs Form 7512, Customs Form 7520 (in duplicate), or the TIR carnet, together with the related Customs Form 7512–C (destination), shall be delivered as a manifest to the conductor, master, or person in charge to accompany the merchandise to its port of destination or exportation. If more than one conveyance is used to transport merchandise, the Customs Form 7512–C (destination) shall accompany the first conveyance, and two copies of Customs Form 7512 shall accompany each conveyance as a manifest of the merchandise transported by that conveyance. A TIR carnet (see § 18.3(b)) shall not be used if more than one conveyance is required.

(2) Except transit air cargo provided for in § 6.21 of this chapter, bonded merchandise destined to a final port of destination in the United States, or for export from the United States, shall be delivered to Customs at its port of destination or exportation within 30 days from the date of receipt by the forwarding carrier at the port of origin. Failure to deliver such merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to the penalties therefor (see § 18.8).

(d) Promptly, but no more than 72 hours, exclusive of Saturdays, Sundays, and national holidays, after the arrival of bonded merchandise at the port of destination, the delivering carrier shall surrender in the in-bond manifest (the in-bond document and related Customs Form 7512–C (destination)) to the district director as notice of arrival of the merchandise. If the in-bond manifest is lost in transit, the in-bond carrier shall report the arrival of the merchandise within the prescribed period and shall be responsible for obtaining copies of the original in-bond manifest. Failure to surrender the in-bond manifest or report the arrival of bonded merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to the penalties therefor (see § 18.8).

• • • • •

It is also proposed to amend the second and fourth sentences of paragraph (b) of § 18.3 to read as follows:

§ 18.3 Transshipment; transfer by bonded cartmen.

• • • • •

(b) • • • The Form 7512 and Customs Form 7512–C (destination) which accompanied the shipment to the place of transshipment shall be presented to the district director there. • • • The original copies of the Form 7512 and the related Form 7512–C (destination) shall be delivered to the conductor, master, or person in charge of the first conveyance. • • •

• • • • •

It is also proposed to amend paragraph (a) of § 18.7 to read as follows:

§ 18.7 Lading for exportation, verification of.

(a) Promptly, but no more than 72 hours, exclusive of Saturdays, Sundays, and national holidays, after the delivery of bonded merchandise to the exporting carrier at the port of exportation, the delivering carrier shall surrender the in-bond manifest (the in-bond document and related Customs Form 7512–C (destination)) to the district director as notice of arrival of the merchandise. If the in-bond manifest is lost in transit, the in-bond carrier shall report the arrival of the merchandise within the prescribed period and shall be responsible for obtaining copies of the original in-bond manifest. Failure to surrender the in-bond manifest or report the arrival of bonded merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to the penalties therefore (see section 18.8).

• • • • •

It is also proposed to amend paragraph (a) of § 18.8 to read as follows:

§ 18.8 Liability for shortage, irregular delivery, or nondelivery; penalties.

(a) The initial bonded carrier shall be responsible for shortage, irregular delivery, or nondelivery at the port of destination or exportation of bonded merchandise received by it for carriage. The only acceptable proof of proper delivery of bonded merchandise to Customs at the port of destination or exportation shall be a properly receipted copy of the in-bond document (the appropriate Customs Form 7512 or 7520, or the TIR carnet). When sealing is waived, any loss found to exist at the port of destination or exportation shall be presumed to have occurred while the merchandise was in the possession of the carrier, unless conclusive evidence to the contrary is produced.

• • • • •

It is also proposed to amend the last sentence of paragraph (b) of § 18.13 to read as follows:

§ 18.13 Procedure; manifest.

• • • • •

(b) • • • Two copies of Form 7520 and the related Customs Form 7512–C (destination) shall be delivered to the carrier to accompany the baggage and shall be delivered by the carrier to the district director of Customs at the port of destination as a notice of arrival.

• • • • •

§ 18.20 [Amended]

It is also proposed to amend paragraph (c) of § 18.20 by deleting the last sence.

PART 123—CUSTOMS RELATIONS WITH CANADA AND MEXICO

§ 123.42 [Amended]

It is proposed to amend paragraphs (a)(1) and (b) of § 123.42 by substituting the word "(destination)" for the word "(duplicate").

It is also proposed to amend § 123.42 by adding a new paragraph (c) to read as follows:

• • • • •

(c) *Forwarding procedure.* Except as otherwise provided in this section, merchandise transported in the trucks shall be forwarded in accordance with the general provisions for transportation in bond (§§ 18.1–18.8 of this chapter).

• • • • •

§ 123.64 [Amended]

It is proposed to amend paragraph (b) of section 123.64 by substituting the word "(destination)" for the word "(duplicate)".

PART 144—WAREHOUSE AND REWAREHOUSE ENTRIES AND WITHDRAWALS

§ 144.36 and 144.37 [Amended]

It is proposed to amend paragraph (c) of § 144.36 and paragraph (a) of § 144.37 by deleting the words "in duplicate."

Prior to the adoption of these amendments, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before September 13, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

Approved: August 5, 1976.

R. RAYMOND,
Acting Commissioner of Customs.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 20]

MIGRATORY BIRDS

Supplemental Proposed Rulemaking

Notice is hereby given that pursuant to the authority contained in the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 703–711), it is proposed to amend Part 20 of Title 50, Code of Federal Regulations. This supplemental proposed rulemaking is the eighth in a series of proposed and final rulemaking documents for migratory bird hunting regulations. It deals specifically with proposed regulations frameworks for 1976–77 late hunting seasons for waterfowl, coots, and gallinules; lesser sandhill (little brown) cranes in parts of North Dakota, South Dakota, New Mexico, Texas, Colorado, Oklahoma, Montana, and Wyoming; and common (Wilson's) snipe in the Pacific Flyway.

The first notice of proposed rulemaking in the series dealt with the establishment of open hunting seasons, daily bag and possession limits, and shooting hours for the 1976–77 season in the contiguous United States, Alaska, and Hawaii and was published in the FEDERAL REGISTER on March 3, 1976 (41 FR 9177) with a comment period ending May 1, 1976. The second notice of proposed rulemaking in the series dealt with the establishment of hunting seasons, daily bag and possession limits, and shooting hours for the 1976–77 season in Puerto Rico and the Virgin Islands and was published in the FEDERAL REGISTER on May 12, 1976 (41 FR 19341), with a comment period ending June 26, 1976. The third notice in the series consisted of supplemental proposed rulemaking dealing with proposed early season frameworks and proposed Canada goose regulations in Wisconsin, and was published in the FEDERAL REGISTER on July 2, 1976 (41 FR 27382), with a 15-day comment period ending July 17, 1976. The fourth notice in the series consisted of final frameworks for selecting open season dates for hunting migratory birds in Puerto Rico and the Virgin Islands during the 1976–77 season and was published in the FEDERAL REGISTER on July 16, 1976 (41 FR 29387). The fifth notice in the series consisted of final rulemaking amending § 20.101 of 50 CFR Part 20 to reflect seasons, limits, and shooting hours for Puerto Rico and the Virgin Islands for the 1976–77 season and was published in the FEDERAL REGISTER on July 22, 1976 (41 FR 30119). The sixth notice in the series consisted of final frameworks for selecting open season dates for hunting migratory birds in the contiguous United States, Alaska and Hawaii during the 1976–77 season and was published in the FEDERAL REGISTER on July 28, 1976 (41 FR 31383). The seventh notice in the series consisted of amendments to Subpart K of 50 CFR 20 to set open hunting seasons, certain closed areas, shooting hours and bag and possession limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules; for September teal seasaons; for sea ducks in certain defined areas of the Atlantic Flyway; for Canada goose hunting in Wisconsin; and for waterfowl, coots, snipe, and cranes in Alaska.

In this connection, the "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75–74)" was filed with the Council on Environmental Quality on June 6, 1975, and notice of availability was published in the FEDERAL REGISTER on June 13, 1975 (40 FR 25241).

The Annual Regulations Conference for Migratory Shore and Upland Game Birds convened on June 22, 1976, in accordance with the notice published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20901). The purposes of this meeting were for the Committee to review the status of mourning doves, woodcock, band-tailed pigeons, white-winged doves, rails, gallinules, and common snipe and discuss proposed hunting regulations for the 1976–77 hunting season. This meeting was open to the public and statements by interested persons were received.

The Waterfowl Regulations Public Hearing was held on August 5, 1976, in accordance with the notice published in the FEDERAL REGISTER on July 8, 1976 (41 FR 27988). The purpose of the hearing was to review U.S. Fish and Wildlife Service staff recommendations for hunting regulations governing the taking of waterfowl and other species of migratory birds for which framework reg-

V 41 158 AUG 13 76 UMI

ulations have not been finalized. This hearing was open to the public and statements by interetsed persons were received.

COMMENTS RECEIVED DURING COMMENT PERIOD SERVICE RESPONSES, AND MISCELLANEOUS CHANGES FROM PROPOSED RULEMAKING.

There was published in the FEDERAL REGISTER on March 3, 1976 (41 FR 9177) notification of proposed rulemaking for certain migratory game bird hunting regulations during 1976–77. These proposals related both to species for which regulations must be set early (in August for seasons opening as early as September 1) and those for which regulations are set late (in September for seasons opening in October or later). As of May 28, a total of 82 responses to these proposals had been received. These represented 3 flyway councils, 1 flyway technical committee, 12 States, 14 private organizations, and 49 individuals. A few comments were received subsequent to May 28, 1976. Comments relating to early seasons were summarized and discussed in the FEDERAL REGISTER dated July 2, 1976 (41 FR 27382); 6 additional comments relating to early season regulations were discussed in the FEDERAL REGISTER dated July 28, 1976 (41 FR 31383).

This section of the document summarizes those written comments relating to the proposed regulations for late seasons; a number of these comments were submitted in conjunction with others offered in response to early season regulations recommendations. Except for a few comments that are judged to warrant separate treatment, the comments and responses to them are discussed in the same order, and as numbered, in the FEDERAL REGISTER dated March 3, 1976 (41 FR 9177).

STATEMENT OF WILDLIFE PRESERVES, INC.

In a statement dated April 29, 1976, this organization indicated its desire that all comments submitted last year in its letter dated August 25, 1975, be applied to this year's proposed regulations. Because of the scope of the comments, the August 1975 letter was published in its entirety in the FEDERAL REGISTER dated September 5, 1975 (40 FR 41097) and detailed responses were given in the same document. These items included species identification, shooting hours, enforcement of regulations, crippling losses, season lengths, complexity of shooting regulations, bag limits, black ducks, goldeneyes, mergansers, geese (particularly greater snow geese and brant in the Atlantic Flyway), and alleged problems regarding public participation in the regulatory process. Wildlife Preserves, Inc., provided no new data or substantive information in its 1976 communication beyond that provided in 1975. The Service has reconsidered the comments of Wildlife Preserves, Inc., as presented in its August 1975 letter, as well as Service responses to them, in the light of 1976 regulatory proposals. It is judged that responses provided by the Service on September 5, 1975 (40 FR 41097) are relevant in 1976. There being no significant changes in either the comments or the responses to them, further discussion is deemed unnecessary at this time.

STATEMENT OF DEFENDERS OF WILDLIFE, INC.

Two individuals submitted comments on behalf of this organization. John W. Grandy expressed strong concern about the hours within which hunting has been traditionally allowed for migratory game birds, and recommended that they be changed to one-half hour after sunrise to shortly before sunset. Toby Cooper expressed similar concern about shooting hours and additionally commented upon a variety of items including black ducks, mergansers, and regulations for canvasbacks, redheads, greater snow geese, Atlantic brant, whistling swans, bag limits for coots, and need for improved species identification of waterfowl by hunters.

Response: Most of the items commented upon were responded to in the FEDERAL REGISTER dated September 5, 1975 (40 FR 41096). It is noted that discussions regarding shooting hours have been held with Defenders of Wildlife, Inc., and other conservation organizations, during which the Service presented an examination and analysis of available information relating to shooting hours. No evidence has been found that the present shooting hour regulations adversely affect any migratory game bird species or populations. Further comments on other items noted by Toby Cooper appear later.

STATEMENT OF FUND FOR ANIMALS, INC.

This organization expressed concern about the pre-sunrise shooting hours traditionally allowed. The matter of shooting hours for waterfowl hunting is addressed above in response to comments from Defenders of Wildlife, Inc.

STATEMENT OF NATIONAL AUDUBON SOCIETY

Comments were submitted by Charles H. Callison and Joseph P. Linduska on behalf of this organization. The National Audubon Society expressed concern about hunting one-half hour before sunrise, and recommended that the point system for waterfowl be discontinued or substantially modified. Particular concern was expressed about hunters reordering ducks taken under the point system and the enforceability of the present regulation which does not allow reordering was challenged. (Reordering theoretically allows a hunter to attain a higher daily bag than when the point values are accumulated in the same sequence that the ducks were actually taken.)

Response: The matter of shooting hours for waterfowl was addressed previously. The Service has participated in several meetings with representatives of the National Audubon Society and other conservation organizations to discuss the point system, particularly to define the specific areas of concern and to seek solutions to alleged problems. As a result of these meetings, several versions of alternative regulatory language have been developed and are presently under study. It is extremely important that any proposed change in the point system regulation be made known to management agencies, waterfowl hunters, and the public well in advance of the hunting season so that it can be adequately reviewed and discussed. Such an opportunity for public discussion is considered necessary in view of the decision rendered by the Court of Appeals in the law suit involving Fund for Animals v. Frizzell (Civ. No. 75-2054, C.A. D.C., 1975). In view of the short time remaining before the hunting season commences, it is judged inadvisable to propose such a change for the 1976–77 hunting season. The Service will further consider proposed changes in the point system regulation in consultation with others having an interest in the point system regulations.

STATEMENT OF NATIONAL WILDLIFE FEDERATION

Thomas L. Kimball recommended that special or bonus scaup seasons be prohibited whenever there is a likelihood of taking scarce species accidentally. Concern was also expressed about possible regulatory relaxations for canvasbacks and redheads.

Response: Special scaup seasons are permitted only after certain criteria have been met. For example, such seasons are authorized only where and when no substantial hazards would accrue to species other than scaup. Canvasbacks and redheads are discussed later.

STATEMENT OF SOCIETY FOR ANIMAL PROTECTIVE LEGISLATION

Christine Stevens, writing on behalf of this organization, opposed shootinig hours commencing before sunrise and objected to lengthening the greater snow goose season.

Response: Shooting hours have already been addressed. The current proposals for greater snow goose hunting in the Atlantic Flyway do not provide for longer seasons.

SUMMARY OF WRITTEN COMMENTS BY ITEMS

In addition to the above comments, the following comments were made with regard to the proposals announced in the FEDERAL REGISTER dated March 3, 1976. Some comments are in reaction to the wording of the proposal and do not necessarily reflect a position on the item itself. Those shown in opposition to the proposal either favored more restrictive or more lenient regulations.

1. *Shooting hours.* Although considerable differences of opinion were reflected in the comments received on this matter, the weight of the 20 comments were in favor of shooting hours as proposed. Most of the comments related to shooting before sunrise, an item which was addressed previously.

2. *Framework dates for ducks and geese.* Although considerable differences of opinion were reflected in the comments received on this matter, the weight

of the 11 comments were in favor of the framework dates as proposed. The Central Flyway Council urged that provisions be made for separate seasons on dark (Canada and white-fronted) geese and light (snow and blue) geese as a means for improving management of these species. Concern was expressed by 2 States on the opening date of the sea duck season in the northern part of the Atlantic Flyway. As a result of these comments, the opening date for sea duck seasons was modified from September 1 to September 18 (41 FR 27382; July 2, 1976). Most of the opposing views to the proposed frameworks advocated broader framework dates. No data were presented to support the views; consequently, no other changes are contemplated.

3. *Black ducks.* The weight of the 5 comments on black ducks strongly favored the proposal. One comment advocated greater protection for the species. Considerations for this species were noted in the FEDERAL REGISTER dated September 5, 1975 (40 FR 41098). Surveys in January of 1976 indicated improvement in the status of the black duck.

6. *Extra blue-winged teal option.* Although considerable differences of opinion were reflected in the comments received on this matter, the weight of the 8 comments were in favor of retention of the extra blue-winged teal option. One State opposed retention of the extra blue-winged teal option under conventional regulations noting that the provision is not equitable to the treatment of the species under the point system in which up to 10 teal per day could be taken under recent-year point systems.

Response: The setting of point system categories and allocations to species are determined after consultation and consideration of comments by flyway councils, other organizations, and the public. Point system values are not designed to provide species by species equality between point system and conventional regulations. No other comments were received regarding the alleged inequities between the point system and conventional season bag limits for blue-winged teal. Nonetheless, this concern will be considered during the continuing review of the point system.

Organizations expressing concern about the option questioned the wisdom of allowing bonus or extra teal in the bag, alleging that there is a lack of adequate specific population data supporting the validity of such regulations.

Response: The Service's population and harvest surveys are reviewed annually and should it appear that excessive harvests are being extracted from various species or management populations, appropriate action will be taken to modify regulations.

7. *Special scaup season.* Although differences of opinion were reflected in the comments received on this matter, the weight of the 6 comments favored the special scaup season proposal. Opposition to this season was largely based on alleged detrimental effects upon the scaup populations. No new data or information was provided.

Response: The same considerations expressed for the extra blue-winged teal option again apply.

8. *Extra scaup bonus.* Although differences of opinion were reflected in the comments received on this matter, the weight of the 7 comments favored the extra scaup bonus. Opposition to this proposal was again largely based upon alleged detrimental or undetermined effects upon scaup populations.

Response: The same considerations expressed for the extra blue-winged teal option again apply.

9. *Mergansers.* Although differences in opinion were reflected in the comments received on this matter, the weight of the 8 comments favored the proposal. Opposition to regulations for these species was largely based upon alleged detrimental or unknown effects upon merganser populations. No data or new information were provided to support the contentions.

Response: The same considerations expressed for the extra blue-winged teal option again apply. Furthermore, the Service notes that the hooded merganser is afforded special protection under both conventional and point system regulations throughout the United States. The other two species of mergansers are far more abundant throughout most of the country.

10. *Canvasbacks and redheads.* The weight of the 46 comments received on these two species strongly favored the proposal. The FEDERAL REGISTER dated March 3, 1976 (41 FR 9179) advised that possible relaxations would be considered should populations equal or exceed those of 1975. The proposal received considerable support with most of the opposing views advocating continuation of present restrictions on one or both species.

Response: Detailed proposals regarding canvasbacks and redheads are elaborated upon in a following statement.

11. *Goose and brant seasons.* Although differences in opinion were reflected in the comments received on this matter, the weight of the 24 comments favored the proposal. Most of the opposition to the proposed goose and brant seasons was in reponse to a proposed extension in the length of the greater snow goose season from 30 to 50 days and to continuation of the brant season, both in the Atlantic Flyway.

Response: Modified proposals for these two species are discussed in detail in a following statement.

One Flyway Council recommended that hunting season framework dates be allowed to change annually according to the Saturday closest to October 1. This recommendation was later dropped by that Council.

14. *Whistling swans.* Although differences in opinion were reflected in the comments received on this matter, the weight of the 4 comments favored the proposal. One comment expressed general concern about hunting seasons on swans.

Response: Whistling swan hunting is permitted only in Utah and single counties in Montana and Nevada. All participants are required to possess special hunting permits and the number of these issued annually is rigidly controlled by State and Federal regulations. Each permittee may take only one swan per year. Each harvested swan must be immediately marked with a special metal tag. The number of permits issued each year has been very small in relation to the numbers of available whistling swans. There is no evidence that the very limited and tightly controlled hunting seasons are having any adverse effect upon the growing population of whistling swans. Swan hunting is not permitted in areas frequented by the far less numerous trumpeter swan.

15. *Lesser sandhill (little brown) crane.* Although differences in opinion were reflected in the comments received on this matter, the weight of the 4 comments favored the proposal. Two organizations registered opposition to sandhill crane hunting based on concern for accidental shooting of the endangered whooping crane or apprehension about the effects of hunting upon sandhill crane populations.

Response: The hunting of sandhill cranes is permitted only in areas and at such times that no threat to whooping cranes would likely arise. Seasons can be quickly terminated if necessary. For the first time, in 1975, all sandhill crane hunters in the eight Central Flyway States in which sandhill crane hunting was permitted were required to obtain special Federal hunting permits. The sandhill-crane harvest survey indicated that interest in sandhill crane hunting is rather light and that harvests are small in comparison to the number of birds available and the reproductive capability of the species. For example, an estimated 9,497 sandhill cranes were reported harvested by 6,949 participating hunters.

OTHER MISCELLANEOUS WRITTEN COMMENTS

A variety of miscellaneous comments, chiefly opinions lacking supporting information, were received. These suggested implementation of stabilized daily bag limits with hunting season length fluctuating as needed, termination of the baiting restriction, opening of State and Federal refuges and sanctuaries to hunting, delaying duck seasons if crops are unharvested, reopening of local areas to waterfowl hunting, closing a local area in Alaska to hunting, requiring that hunters use trained retrievers to reduce crippling loss, and providing for subsistence taking of waterfowl by Alaskan natives outside the provisions of the various migratory bird treaties to which the United States is a party. The latter comment was submitted by the Mauneluk Association of Kotzebue, Alaska. This comment was received subsequent to the final rulemaking for 1976–77 Alaska waterfowl regulations and therefore is not appropriate for consideration and comment here.

V 41 I 158 AUG 13 76 UMI

One organization suggested that States where Sunday hunting is prohibited and rigidly enforced should be allowed additional or substitute hunting days.

Response: The Service believes that compensatory hunting days for areas where Sunday hunting is prohibited by State or local laws and regulations is neither necessary nor appropriate. There is no evidence that Sunday closures result in a significant decrease in total seasonal harvest of waterfowl in areas where such closures are in effect. In fact, days during which hunting is prohibited or restricted sometimes result in increased harvests when hunting recurs.

All of the foregoing statements, comments, and suggestions were given consideration in the development of the framework proposals for late season regulations. In addition, the verbal and written statements presented at the Waterfowl Regulations Public Hearing on August 5, 1976, in Washington, D.C., were given consideration. Among the statements were those by the National Audubon Society, Defenders of Wildlife, Inc., National Wildlife Federation, Ducks Unlimited, Inc., The Wildlife Society, various waterfowl flyway councils, State conservation agencies, sportsmen's organizations, and individuals. While there was some disagreement on some issues—notably shooting hours and the point system—general support for most of the proposed late season regulation frameworks was evident. Transcripts of this meeting, including the statements presented, are available to interested parties.

In order to more fully inform the public of the rationale for various regulatory proposals being advanced, the Service provides the following additional information for selected items involving significant departures from the 1975–76 regulations, and others that may be of particular interest. Most hunting regulations being proposed this year generally do not differ from those in effect last year.

Canvasbacks and Redheads

Management rationale calls for management of canvasbacks and redheads independently when and where feasible, and management within species by eastern and western populations. Recent surveys of major canvasback and redhead production areas during the spring and summer provide information on the current status of these two species. The 1976 canvasback breeding population index was 682 thousand birds, no change (3 percent below) from the 1975 index, 20 percent above the ten-year average, and 21 percent above the long-term (1955–75) average. A three-year running average is believed to be a better measure of populations than survey data from a single year. The three-year average for 1974–76 stands at 627 thousand canvasbacks, no change (1 percent below) from the 1973–75 average, and 13 percent above the long-term average. It ranked as the fourth highest three-year index on record. July surveys indicated that good water conditions persisted during the brood rearing period.

Similar surveys of redheads indicated that the 1976 breeding population index stands at 896 thousand, no change (8 percent below) from the 1975 index, 24 percent above the ten-year average, and 36 percent above the long-term average. The three-year index for 1974–76 was 828 thousand, an increase of 6 percent above the 1973–75 average, and 29 percent above the long-term average. The 1974–76 index ranks as the highest on record.

In view of the above information on population status, it is believed that some relaxation can be made in redhead hunting regulations but that hunting regulations for the eastern population of canvasbacks should be generally similar to those in effect during the 1975–76 hunting season. This involves closing key concentration areas to canvasback hunting. During the winter of 1975–76 increased numbers of canvasbacks were inventoried in the Pacific Flyway. The status of the western population of canvasbacks is deemed sufficient to permit up to 2 canvasbacks daily in the San Francisco Bay area in order to bring it into conformity with the rest of the Pacific Flyway. The proposed relaxations for redheads are reflected by proposed changes in point allocations (reduction from 100 to 70 points) out side closed areas, reexamination of areas closed in 1975–76 to canvasback and redhead hunting to ascertain those where the combined harvest of canvasbacks and redheads has been predominantly redheads in the past. As in previous years, the Atlantic Flyway has the option of an open season on canvasbacks and redheads with a bag and possession limit of 1 canvasback or 1 redhead (or a point value of 100 points for canvasbacks, and 70 points for redheads under the point system) except in specified closed areas for canvasbacks and redheads in lieu of flywaywide closures on the two species. Emphasis would be placed on retention of closed areas where high numbers of canvasbacks have been historically taken. Canvasbacks wintering in the Pacific Flyway constitute a separate population. Because of increases in canvasbacks wintering in that flyway, including the San Francisco Bay area, it is proposed that the daily bag limit consist of two rather than one canvasback daily, in an aggregate bag limit with redheads. This change would result in uniform canvasback and redhead regulations throughout the Pacific Flyway.

Atlantic Flyway

Atlantic Brant

Atlantic brant production is expected to be poor this year because of persistent snow and ice cover on nesting areas traditionally utilized by these birds. The expected fall flight of these brant is estimated at about 115 thousand birds, nearly all of which will be potential breeders next spring. Since geese nesting in the high Arctic frequently experience boom or bust production, annual recruitment cannot be predicted simply on the basis of breeding population size. Because the Atlantic brant population is rebuilding from a population low in 1972, and a large proportion of the population consists of birds that are potential breeders for the spring of 1977, it is proposed that the season in the Atlantic Flyway remain closed this year to return as many breeding-age brant as possible to the breeding grounds in 1977. In the event that nesting conditions are again unfavorable in 1977, a sizable population of sexually mature brant should be available for the 1978 breeding season. The objective is to permit the Atlantic brant population to attain a level that will permit more satisfactory hunting seasons than can be afforded this year.

Zoning of Upstate New York for Duck Seasons

New York submitted a proposal to the Atlantic Waterfowl Council for a four-year experimental study of duck hunting in three zones of Upstate New York. The Council endorsed the concept of zoning and the proposal was accepted by the Service with modifications (including season length penalties) to maintain harvests in the Upstate Area at levels consistent with those that would occur without zoning. Provisions include annual evaluations of duck populations, harvests, and hunter movements and attitudes. The primary purposes of the zoning experiment are to provide hunting opportunitiy in the three zones during times most desired within the waterfowl season framework, and to permit greater flexibility in optimizing species management capabilities.

Mississippi Flyway

Ducks

In view of the generally favorable conditions for duck production in 1976 and no significant change in the fall flight index for the Mississippi Flyway, the Mississippi Flyway Council recommended several minor changes in duck hunting regulations for the 1976–77 hunting season. These included permitting the season to open any day of the week rather than Wednesday at noon, an increase in the conventional bag limit for 4 ducks daily and 8 in possession to 5 daily and 10 in possession, and an increase in the number of mallards permitted within the basic daily bag limit from 2 daily and 4 in possession to 3 daily and 6 in possession. However, in accordance with Council recommendations the proposed increase in the number of permitted mallards is focused on male mallards and is designed to affect female mallards as little as possible. Accordingly, the number of female mallards permitted under the conventional bag limit is proposed to be reduced from 2 daily and 4 in possession to 1 daily and 2 in possession. Under point system regulations, it is proposed to continue the female mallard as a high point bird, with the point value of the male mallard being reduced from 35 points to 25 points. Other recommendations were to remove mergansers from the duck bag limit and establish separate bag limits of 5 daily and 10 in possession, of which only 1 daily and 2 in possession may be hooded mergansers. Also, under the point-system bag limit

option, it is proposed that the 90-point category be reduced to 70 points, and the 35-point category reduced to 25 points in order to reduce the spread in point values and to bring point categories into conformity with those existing in other flyways.

Geese

Habitat conditions for production of Canada geese which migrate into the Mississippi Flyway were favorable in 1976, and the Mississippi Flyway Council recommended small changes in regulations for these geese, including an increase in the harvest quota in the Lac Qui Parle Quota Zone in Minnesota from 4,000 to 5,000 birds, an increase in bag limits for Canada geese in a portion of Kentucky and in Alabama from 1 daily and 2 in possession to 2 daily and 4 in possession, and further restricting areas open to Canada goose hunting in Mississippi and Alabama to afford greater protection to Canada geese. Provisions to effect these recommended changes are proposed herein.

Central Flyway

Ducks

The proposed frameworks incorporate recommendations of the Central Flyway Waterfowl Council that, in consideration of the status of the species using the Flyway, the basic daily bag limit be reduced from 6 to 5 ducks, the limit on female mallards remain at one daily, and the general restriction of 3 mallards be removed to permit some additional opportunity to harvest male mallards which continue to have higher survival rates than do females. Also incorporated are recommendations to decrease the point values of some ducks from 25 to 20 points, including male mallards, outside the High Plains Mallard Management Unit to permit some additional harvest opportunity, especially on male mallards. Point values and other restrictions remain the same for all species except redheads which are discussed elsewhere.

Geese

The proposed frameworks incorporate recommendations of the Central Flyway Waterfowl Council that, in consideration of the long-term upward trend in the populations of lesser snow geese using the Flyway and the increasing crop damages resulting from large goose concentrations in the wintering areas, the length of the season on light (snow, including blue) geese be extended to 86 days in the eastern tier of States in the Central Flyway and that the daily bag and possession limits be increased to 5 geese in New Mexico and Texas west of U.S. Highway 81. These changes are expected to result in modest increases in the snow goose harvest and help prevent excessive concentrations of these geese from occurring north of traditional wintering areas. In addition, it is believed that these changes in snow goose regulations will have the desirable result of relieving some harvest pressure on other species such as white-fronted geese. All restrictions on other geese are proposed to remain unchanged from 1975.

Pacific Flyway

Canada Goose Closure Area in California

During the 1975–76 hunting season, a minor boundary change was made by State regulations of the Sacramento Valley area which had been closed to the taking of Canada geese prior to December 1 for the protection of the endangered Aleutian Canada goose. The closed area redefinition afforded additional protection to the endangered species. This adjustment was based on new band recovery data and extensive field observations of marked birds during the fall and winter of 1975. It is proposed that the new boundary description of the Sacramento Valley closed area will appear in the Federal hunting regulations effective during the 1976–77 season.

Public Comment Invited

The Director intends that finally adopted rules be as responsive as possible to all concerned interests. He therefore desires to obtain the comments and suggestions of the public, other concerned governmental agencies, and private interests on these proposed frameworks and will take into consideration the comments and testimony received. Comments, testimony, and any additional information received may lead to final regulations differing from the proposed frameworks contained herein.

Special circumstances are involved in the establishment of these regulations which limit the amount of time which the Service can allow for public comment. Specifically, two considerations compress the time in which the rulemaking process must operate: the need, on the one hand, to establish final rules at a point early enough in the summer to allow affected State agencies to appropriately adjust their licensing and regulatory mechanisms, and, on the other hand, the unavailability before mid-June of specific, reliable data on this year's status of some migratory shore and upland game bird populations. However, it is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Director (FWS/MBM), U.S. Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240. All revelant comments received no later than August 23, 1976, will be considered. Comments received will be available for public inspection during normal business hours at the Service's office in Room 257, U.S. Department of the Interior, C Street between 18th and 19th Streets, Washington, D.C.

It is therefore proposed to amend 50 CFR Part 20 in the manner set forth below.

This notice of proposed rulemaking is issued under the authority of the Migratory Bird Treaty Act (40 Stat. 755; 16 U.S.C. 703–711).

Dated: August 10, 1976.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

Proposed Regulations Frameworks for 1976–77 Late Hunting Seasons on Certain Migratory Game Birds

Pursuant to the Migratory Bird Treaty Act, the Secretary of the Interior has approved proposed frameworks for season lengths, shooting hours, bag and possession limits, and outside dates within which States may select seasons for hunting waterfowl, coots, and gallinules; cranes in parts of North Dakota, South Dakota, New Mexico, Texas, Colorado, Oklahoma, Montana, and Wyoming; and common snipe in the Pacific Flyway. Frameworks are summarized below.

General

States may split their season for ducks or geese into two segments of equal or unequal lengths. Exceptions are noted in appropriate sections.

Shooting hours in all States, on all species, and for all seasons are ½ hour before sunrise until sunset, except that September teal season shooting hours are sunrise to sunset.

States in the Atlantic, Mississippi, and Central Flyways selecting neither a September teal season nor the point system may select an extra daily bag and possession limit of 2 and 4 blue-winged teal, respectively, for 9 consecutive days designated during the regular duck season. These extra limits are in addition to the regular duck bag and possession limits.

States in the Atlantic, Mississippi and Central Flyways may select a special scaup-only hunting season not to exceed 16 consecutive days, with daily bag and possession limits of 5 and 10 scaup, respectively, subject to the following conditions:

1. The season must fall between October 1, 1976, and January 31, 1977, in the Atlantic and Mississippi Flyways, and between October 2, 1976, and January 31, 1977, in the Central Flyway, all dates inclusive.

2. The season must fall outside the open season for any other ducks except sea ducks.

3. The season must be limited to areas mutually agreed upon between the State and the Service prior to September 3, and

4. These areas must be described and delineated in State hunting regulations.

or

As an alternative, States in the Atlantic, Mississippi, and Central Flyways, except those selecting a point system, may select an extra daily bag and possession limit of 2 and 4 scaup, respectively, during the regular duck hunting season, subject to conditions 3 and 4 listed above. These extra limits are in addition to the regular duck limits and apply during the entire regular duck season.

V41158 AUG 13 76 UMI

Selection of the point system for any State entirely within a flyway must be on a statewide basis, except if New York selects the point system, conventional regulations may be retained for the Long Island Area. New York may not select the point system within the Upstate zoning option.

States in the Atlantic, Mississippi, and Central Flyways are reminded that if they did not select their rail, woodcock, snipe, gallinule, and sea duck seasons in July, they should do so at the time they make their waterfowl selections.

Frameworks for open seasons and season lengths, bag and possession limit options, and other special provisions are listed below by Flyway.

ATLANTIC FLYWAY

Between October 1, 1976, and January 20, 1977, States in this Flyway may hold open seasons on ducks, coots, and mergansers of: (a) 45 days, with basic daily bag and possession limits of 4 and 8 ducks, respectively, of which no more than 2 in the daily bag and 4 in possession may be black ducks; or (b) 45 days, with basic daily bag and possession limits of 5 and 10 ducks, respectively, of which no more than 1 in the daily bag and 2 in possession may be black ducks. Under either Option (a) or (b), a 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the 50-day season is split, each segment must open on a Wednesday at noon, local time.

In the Atlantic Flyway, two options for canvasbacks and redheads are offered: (a) Continued flywaywide closure; or (b) closure of those areas which in the aggregate account for 50 percent or more of the flywaywide harvest of canvasbacks, based on harvest information for the 1961–70 period. If the latter option is selected, one canvasback or one redhead in the daily bag and possession is permitted (except in closed areas) in those States selecting conventional regulations. In those States selecting point system regulations, except in closed areas, the canvasback is assigned 100 points each and the redhead is assigned 70 points each.

Under conventional and point system options, the daily bag and possession limits may not include more than 2 and 4 wood ducks, respectively.

The daily bag limit on mergansers is 5, only 1 of which may be a hooded merganser. The possession limit is 10, only 2 of which may be hooded mergansers.

The daily bag and possession limits of coots are 15 and 30, respectively.

The Lake Champlain area of New York State must follow the waterfowl seasons, daily bag and possession limits, and shooting hours selected by Vermont. This area includes that part of New York State lying east and north of a boundary running south from the Canadian border along U.S. Highway 9 to New York Route 22 south of Keeseville, along New York Route 22 to South Bay, along and around the shoreline of South Bay to New York Route 22, along New York Route 22 to U.S. Highway 4 at Whitehall, and along U.S. Highway 4 to the Vermont border.

In lieu of a special scaup season, Vermont may, for the Lake Champlain Area, select a special scaup and goldeneye season not to exceed 16 consecutive days, with a daily bag limit of 3 scaup or 3 goldeneyes or 3 in the aggregate and a possession limit of 6 scaup or 6 goldeneyes or 6 in the aggregate, subject to the same provisions that apply to the special scaup season elsewhere.

The State of New York may, for the Long Island Area, select season dates and daily bag and possession limits which differ from those in the remainder of the State.

Upstate New York (excluding the Lake Champlain area) may be divided into three zones (West, North, South) on an experimental basis for the purpose of setting separate waterfowl seasons. Option (a) or (b) for seasons and bag limits is applicable to each zone in the Upstate area within the Flyway framework; only conventional regulations may be selected. The West Zone will be permitted the full number of days offered under Options (a) or (b), with or without the Wednesday noon opening. In addition, a split season without penalty may be selected in the West Zone. The North Zone and the South Zone must take a 5-day reduction in season length under either option, with or without the Wednesday noon opening. The basic daily bag limit on ducks in each zone is 4 daily and 8 in possession, and the restrictions applicable to Options (a) and (b) of the regular season for the Flyway also apply. Teal and scaup bonus birds, if offered, shall be applicable to the Upstate zones, but the 16-day special scaup season will not be allowed.

The zones are defined as follows:

The West Zone is that portion of Upstate New York lying west of a line commencing at a point at the north shore of the Salmon River and its junction with Lake Ontario and extending easterly along the north shore of the Salmon River to its intersection with Interstate Highway 81, then southerly along Interstate Highway 81 to the Pennsylvania border.

The North and South Zones are bordered on the west by the boundary described above and are separated from each other as follows:

Starting at the intersection of Interstate Highway 81 and New York Route 49 and extending easterly along Route 49 to its junction with Route 8 in the City of Utica, then southerly along Route 8 to its intersection with Interstate Highway 90 in the City of Utica, then along Interstate Highway 90 easterly to the Massachusetts border.

As an alternative to conventional bag limits for ducks, a 45-day season with a point-system bag limit may be selected by States in the Atlantic Flyway during the framework dates prescribed. A 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the 50-day season is split, each segment must open on a Wednesday at noon, local time. Point values for species and sexes taken are as follows: in Florida only, the fulvous tree duck counts 100 points each; in all States the canvasback counts 100 points each (except in closed areas); the female mallard, black duck, mottled duck, wood duck, redhead (except in closed areas) and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, pintail, gadwall, shoveler, scaup, sea ducks, and merganser (except hooded) count 10 points each; the male mallard and all other species of ducks count 25 points each. The daily bag limit is reached when the point value of the last bird taken, added to the sum of the point values of the other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days.

In any State in the Atlantic Flyway selecting both point-system regulations and a special sea duck season, sea ducks count 10 points each during the point-system season, but during any part of the regular sea duck open season falling outside the point-system season, regular sea duck daily bag and possession limits of 7 and 14 sea ducks, respectively, apply.

Coots have a point value of zero, but the daily bag and possession limits are 15 and 30, respectively, as under the conventional limits.

Between October 1, 1976, and January 20, 1977, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, West Virginia, New Jersey, Delaware, Maryland, and Virginia (excluding those portions of the Cities of Virginia Beach and Chesapeake lying east of Interstate 64 and U.S. Highway 17) may select 70-day seasons on Canada geese; the daily bag and possession limits are 3 and 6 geese, respectively. North Carolina, South Carolina, and those portions of the Cities of Virginia Beach and Chesapeake lying east of Interstate 64 and U.S. Highway 17 in Virginia may select 50-day seasons on Canada geese within the above framework; the daily bag and possession limits are 1 and 2 geese, respectively.

The season is closed on Canada geese in Florida and Georgia.

Between October 1, 1976, and January 20, 1977, but within their regular waterfowl season, States in the Atlantic Flyway may select 30-day seasons on snow geese (including blue geese); the daily bag and possession limits are 2 and 4 geese, respectively.

The season is closed on Atlantic brant.

For snow geese (including blue geese) the Secretary shall close the season within 48 hours upon recommendation of the Director, Fish and Wildlife Service, that such closure is necessary to avoid excessive harvest.

MISSISSIPPI FLYWAY

Between October 1, 1976, and January 20, 1977, States in this Flyway may hold concurrent 50-day seasons on ducks, coots and mergansers. The daily bag limit for ducks is 5, and may include no more than 3 mallards and black ducks in the aggregate (only 2 of which may be black ducks and only 1 of which may be a female mallard) and 2 wood ducks. The possession limit is 10, including no more

than 6 mallards and black ducks in the aggregate (only 4 of which may be black ducks and only 2 of which may be female mallards) and 4 wood ducks.

Except in closed areas, the limit on canvasbacks and redheads is 1 canvasback daily and 1 in possession or 1 redhead daily and 1 in possession. Under the point system, canvasbacks count 100 points each and redheads count 70 points each, except in closed areas. Areas closed to canvasback and redhead hunting are:

Mississippi River—Entire river, both sides, from Altom Dam upstream to Prescott, Wisconsin, at confluence of St. Croix River.

Alabama—Baldwin and Mobile Counties.

Louisiana—Caddo, St. Charles, and St. Mary Parishes; that portion of Ward 1 formerly designated as Ward 6 of St. Martin Parish; and Catahoula Lake in LaSalle and Rapides Parishes.

Michigan—Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne Counties, and those adjacent waters of Saginaw Bay south of a line extending from Point au Gres in Sec. 6 T18N, R7E (Arenac County) to Sand Point in Sec. 11, T17N, R9E (Huron County), the St. Clair River, Lake St. Clair, the Detroit River and Lake Erie, under jurisdiction of the State of Michigan.

Minnesota—Sibley and Nicollet Counties, and the area encompassed by a boundary beginning at the North Dakota border on U.S. Highway 2, then east on U.S. Highway 2 to Bemidji, then south on U.S. Highway 71 to U.S. Highway 12 at Willmar, then west on U.S. Highway 12 to the South Dakota border, then north along the South Dakota and North Dakota border to the point of beginning.

Ohio—Land and water areas comprising Erie, Ottawa and Sandusky Counties.

Tennessee—Kentucky Lake lying north on Interstate Highway 40.

Wisconsin—In the Mississippi River Zone, all that part of Wisconsin west of the CB&Q railroad in Grant, Crawford, Vernon, La Cross, Trempealeau, Buffalo, Pepin, and Pierce Counties. Also, Dodge and Winnebago Counties and the land and water areas extending 100 yards from the shorelines of Lake Poygan in Waushara County, Lake Winnebago in Calumet and Fond du Lac Counties, and Rush Lake, Fond du Lac County.

Consideration will be given to reopening those areas in which the canvasback harvest comprises no more than 20 percent of the combined canvasback-redhead harvest, based on 1961–70 harvest information.

The daily bag limit on mergansers is 5, only 1 of which may be a hooded merganser. The possession limit is 10, only 2 of which may be hooded mergansers.

The daily bag and possession limits on coots are 15 and 30, respectively.

As an alternative to conventional bag limits for ducks, a 50-day season with point-system bag and possession limits may be selected by States in the Mississippi Flyway during the framework dates prescribed. Point values for species and sexes taken are as follows: except in closed areas, the canvasback counts 100 points; the redhead (except in closed areas), female mallard, wood duck, black duck and hooded merganser count 70 points each; the pintail, blue-winged teal, cinnamon teal, gadwall, shoveler, scaup, green-winged teal and mergansers (except hooded merganser) count 10 points each; the male mallard and all other species of ducks count 25 points each. The daily bag limit is reached when the point value of the last bird taken, added to the sum of the point values of the other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days.

Coots have a point value of zero, but the daily bag and possession limits are 15 and 30, respectively, as under the conventional limits.

In that portion of Louisiana west of a boundary beginning at the Arkansas-Louisiana border on Louisiana Highway 3; then south along Louisiana Highway 3 to Shreveport; then east along Interstate 20 to Minden; then south along Louisiana Highway 7 to Ringgold; then east along Louisiana Highway 4 to Jonesboro; then south along U.S. Highway 167 to Lafayette; then southeast along U.S. Highway 90 to Houma; then south along the Houma Navigation Channel to the Gulf of Mexico through Cat Island Pass—the season on ducks, coots and mergansers may extend 5 additional days, provided that the season opens on November 6, 1976. If the 5-day extension is selected, and if point-system regulations are selected for the State, point values will be the same as for the rest of the State.

The waterfowl seasons, limits, and shooting hours in the Pymatuning Reservoir area of Ohio will be the same as those selected by Pennsylvania. The area includes Pymatuning Reservoir and that part of Ohio bounded on the north by County Road 306 known as Woodward Road, on the west by Pymatuning Lake Road, and on the south by U.S. Highway 322.

Between October 1, 1976, and January 20, 1977, States in this Flyway, except Louisiana, may select 70-day seasons on geese, with daily bag and possession limits of 5 geese, to include no more than 2 white-fronted geese. Regulations for Canada geese are shown below by State.

Between October 1, 1976, and February 14, 1977, Louisiana may select a 70-day season on snow (including blue) and white-fronted geese, with daily bag and possession limits of 5 geese, to include no more than 2 white-fronted geese. The season on Canada geese is closed in Louisiana.

In Minnesota, in the:

(a) Lac Qui Parle Quota Zone—the season on Canada geese closes after 45 days or when 5,000 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese. The quota zone is that area encompassed by a boundary described as follows: beginning at Montevideo, then west on U.S. Highway 212 to U.S. Highway 75, then north on U.S. Highway 75 to State Highway 7 at Odessa, then north on County State Aid Highway 21, Big Stone County, to U.S. Highway 12, then east on U.S. Highway 12 to County State Aid Highway 17, Swift County, then south on C.S.A.H. 17 and C.S.A.H. 9, Chippewa County, to State Highway 40, then east on State Highway 40 to State Highway 29, then south on State Highway 29 to point of beginning at Montevideo.

(b) Southeastern Zone (same description as in 1971)—The season for Canada geese may extend for 70 consecutive days. The daily bag limit is 1 Canada goose or 2 white-fronted geese or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

(c) Remainder of the State—The season on Canada geese may not exceed 45 days. The daily bag limit is 1 Canada goose or 2 white-fronted geese or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In Iowa, the season for Canada geese may extend for 45 consecutive days. The daily bag and possession limits are 2 Canada geese.

In Missouri, in the:

(a) Swan Lake Quota Zone (same description as in 1971—the season on Canada geese closes after 45 days or when 25,000 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

(b) Southeastern area (east of U.S. Highway 67 and south of Crystal City)—State may select a 45-day season on Canada geese between December 1, 1976, and January 20, 1977, with a daily bag limit of 2 Canada geese or 2 white-fronted geese or 1 of each; and a possession limit of 4 Canada and white-fronted geese in the aggregate, of which no more than 2 may be white-fronted geese.

(c) Remainder of the State—the season on Canada geese may not exceed 45 days. The daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In Wisconsin, the harvest of Canada geese is limited 28,000. The daily bag limit is 1 Canada goose or 2 white-fronted geese or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese. In the Horicon Zone, to be defined by State regulations, Canada goose hunting is restricted to those persons holding valid Horicon Zone Canada goose hunting permits issued by the State.

In Illinois, the harvest of Canada geese is limited to 28,000, with 22,000 birds allocated to the Southern Illinois Zone (same description as in 1971). The daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each; the possession limit is 4 Canada geese and white-fronted geese in the aggregate, of which no more than 2 may be white-fronted geese. The season on Canada geese may open at a later date in the Southern Illinois Quota Zone and extend to January 20, 1977, or until the Zone's quota of

V 41 I 158 AUG 13 76 UMI

22,000 birds is reached, whichever occurs first.

In Michigan, Ohio and Indiana, the daily bag limit is 1 Canada goose or 2 white-fronted geese or 1 of each; the possession limit may include no more than 2 Canada and 2 white-fronted geese, except in Michigan, the possession limit on Canada geese is 1.

In Kentucky, the daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each; the possession limit is 4 Canada geese and white-fronted geese in the aggregate, of which no more than 2 may be white-fronted geese.

In Tennessee, the daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese, except that in the Counties of Shelby, Lake, Tipton, Lauderdale, Dyer, and Obion, the daily bag and possession limits are 2 Canada geese.

In Mississippi, in the Sardis Reservoir Area (that area encompassed by Interstate Highway 55 on the west, State Highway 7 on the east, State Highway 310 on the north and State Highway 6 on the south), the daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese. In the remainder of the State, the season on Canada geese is closed.

In Alabama, the season is closed on all geese in the Counties of Chambers, Henry, Russell and Barbour. Elsewhere in Alabama, the daily bag limit is 2 Canada geese or 2 white-fronted geese or 1 of each; the possession limit is 4 Canada and white-fronted geese in the aggregate, of which not more than 2 may be white-fronted geese.

In Arkansas, the Canada goose season will be concurrent with, and the same length as, the duck season, subject to State closure of designated areas. The daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese.

When it has been determined by the Director that the quota of Canada geese allotted to the State of Illinois, to the Swan Lake Area of Missouri, and to the Lac Qui Parle Area of Minnesota will have been filled, the season for taking Canada geese in the respective area will be closed by the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing.

Geese taken in Illinois and Missouri and in the Kentucky Counties of Ballard, Hickman, Fulton, and Carlisle may not be transported, shipped, or delivered for transportation or shipment by common carrier, the postal service, or by any person except as the personal baggage of the hunter taking the birds.

Central Flyway

Between October 2, 1976, and January 23, 1977, concurrent seasons on ducks, including mergansers, and coots, may be selected in Central Flyway States and portions of States.

The basic season may include no more than 60 days and bag limits on ducks and mergansers, singly or in the aggregate, are 5 daily and 10 in possession. The aggregate daily bag limit on ducks and mergansers may include no more than 1 hooded merganser, 2 wood ducks and 1 female mallard, and the possession limit may include no more than 2 hooded mergansers, 4 wood ducks and 2 female mallards.

The bag limit on coots is 15 daily and 30 in possession.

The daily bag and possession limits, except in closed areas, may include no more than 1 canvasback or 1 redhead. Except in closed areas, canvasbacks count 100 points each and redheads 70 points each under the point system. The areas closed to canvasback and redhead hunting are:
